The Way Forward

STARFALL

What is Starfall?

Starfall is a ROBLOX Revival created by Calones and Nilenta. Its original purpose was to be experimental and push the limits of older clients. It has enhanced lighting features, custom avatar poses, voice chat, and much more. It is an invite-only revival that is advertised to cater to ages 16 and older.

What is the issue with Starfall?

Starfall may have pushed the limits of older clients, but they unfortunately have also pushed the limits of younger audiences. Over the last several months, disturbing content and actions have been documented from the members, staff, and owners of Starfall, which range from *harassment* to *pedophilia*.

Every documented issue has been brought up with several members, staff and even the owners of Starfall. This document will also outline their responses to each infraction.

NILENTA/SYLVESSA/ZUKLED

Nilenta, also known as Sylvessa or Zukled, owns & runs a site called Starfall. This website is advertised to be 16+, however, they invite users who are younger than that. Nilenta claims to be 18 years old.

Over the past few months, Nilenta has failed to protect the underage users of Starfall by allowing inappropriate behaviors and content on their platform. They have defended their behavior repeatedly, and even have joked about lying about removing inappropriate content off their platform. I wonder how they can explain what's so funny about essentially exposing children to such disgusting content?

Let's start from the beginning.

Nilenta's Pattern of Lying About Their Age

Nilenta, throughout the years, have lied about their age several times. This has made what they claim their age to be unreliable, even today.

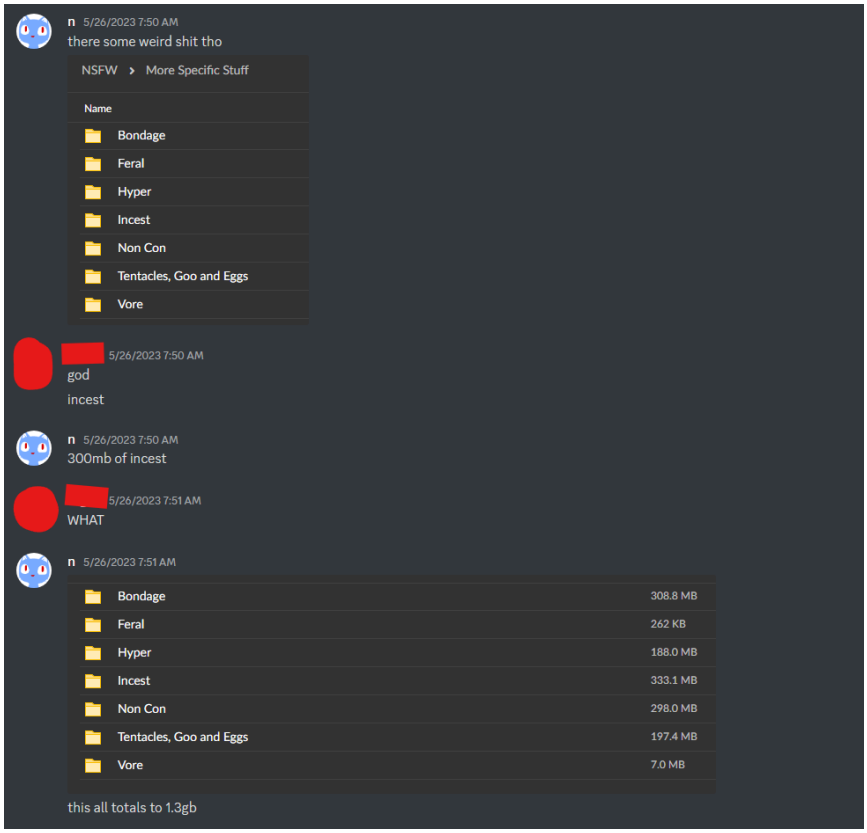
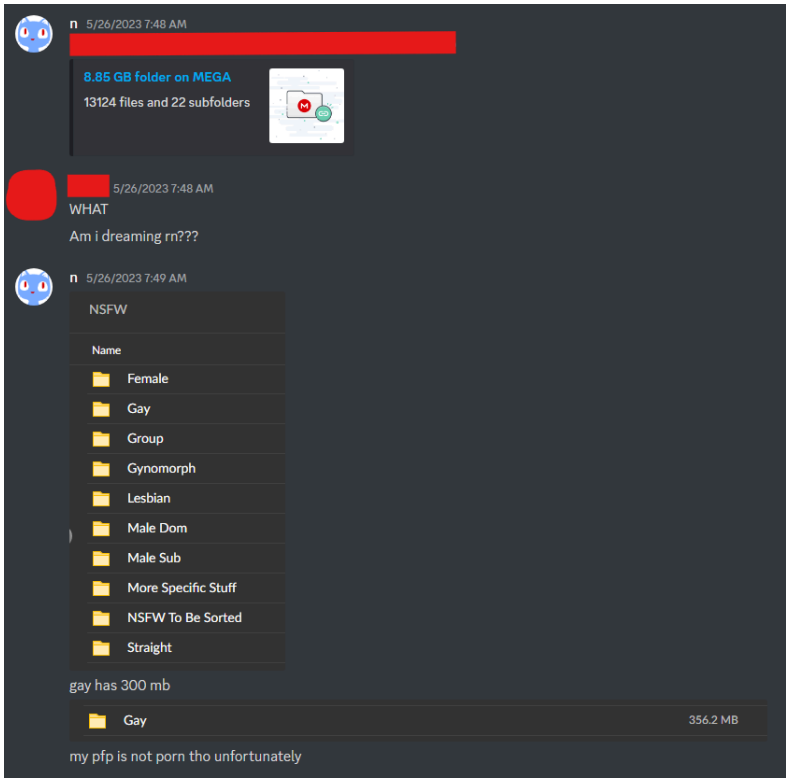
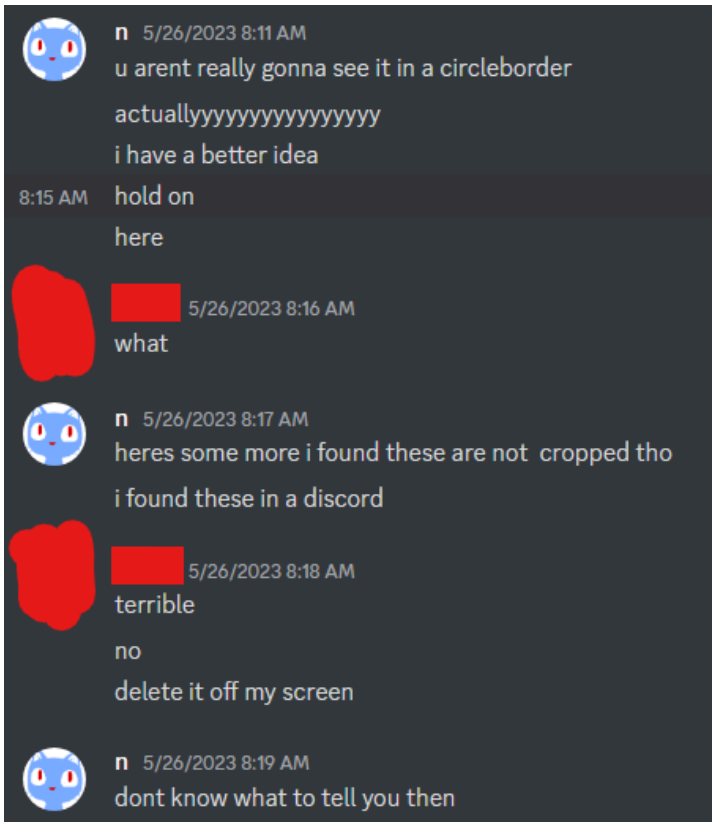
The link they sent to the victim is still active, last being updated **07/09/2025**.







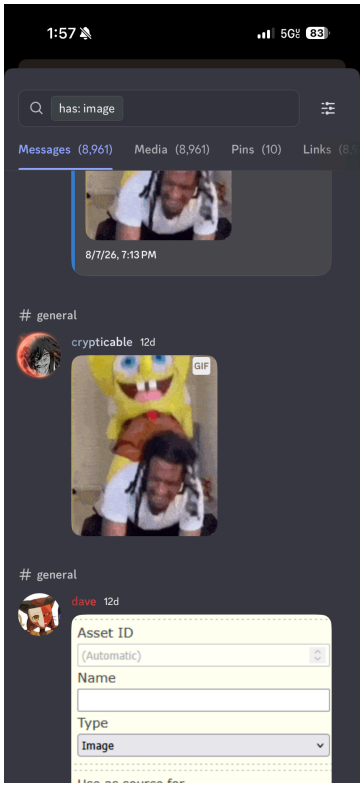
Nilenta non consensually sending porn to a minor (aged 11) while they claimed to be 18. You can even see the victim is uncomfortable and asking them to stop.

Nilenta and Starfall

Understanding the above content, Nilenta owning a ROBLOX Revival in the first place is extremely problematic on its own.

Nilenta has also allowed and approved inappropriate assets into Starfall, which can be viewed here.

Nilenta does not care about moderating the discord server for Starfall, allowing users to upload things such as this:

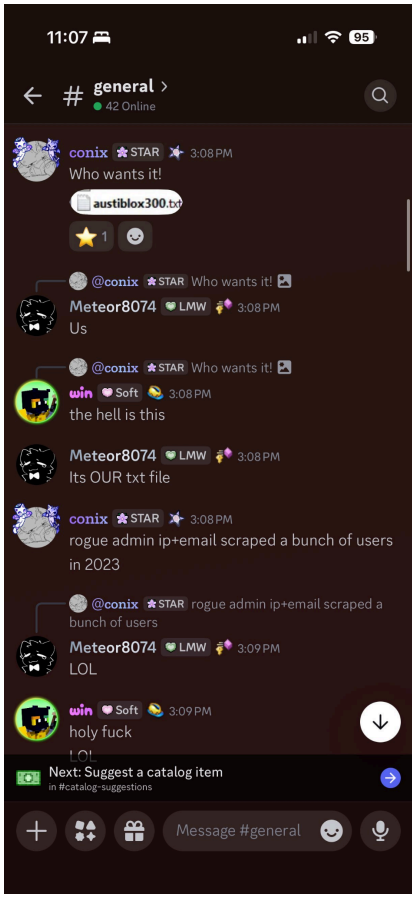


A user uploading a gif of someone getting backshots to the Starfall Discord Server.

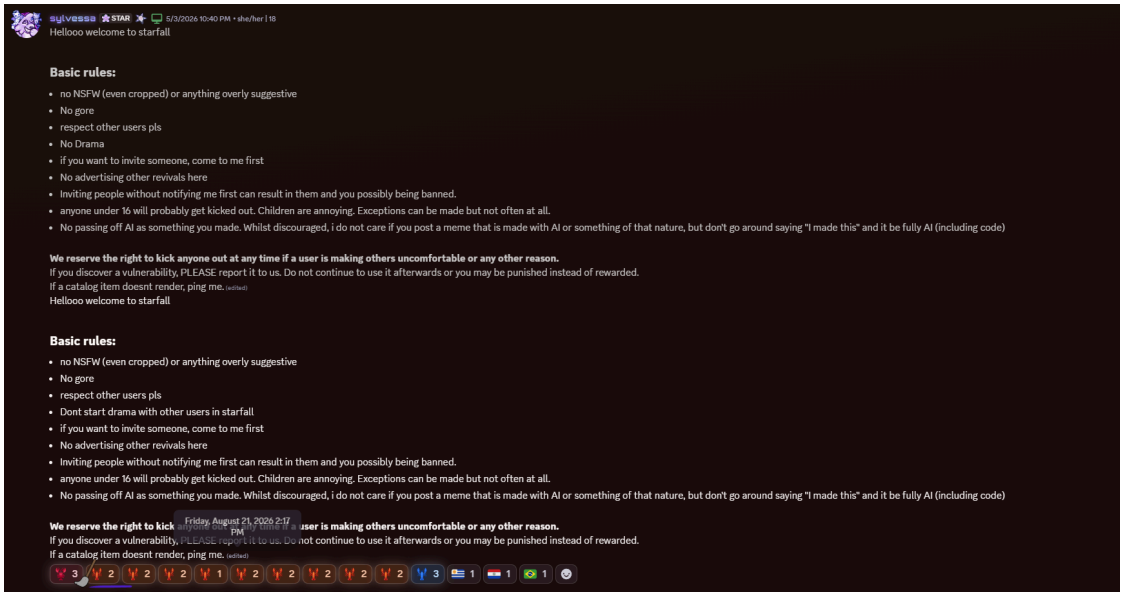
A user uploading a modified logo of Starfall, joking about its predatory nature. 5 people starboarded it, either agreeing with it or thinking that it was funny.

Nilenta and another user playing minecraft, in which one user has a fetishized username.

Users in the Starfall Discord Server repeatedly repeating XIXI's full name, despite his wishes for his full name to not be used as it was obtained through a dox.



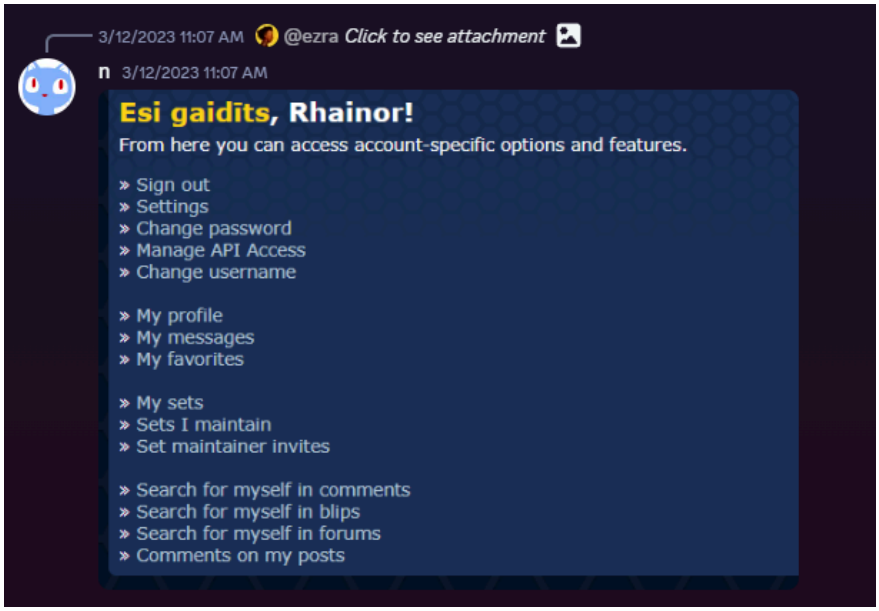
Nilenta spreading around leaked IP's and emails from Austiblox in the Starfall Discord Server.



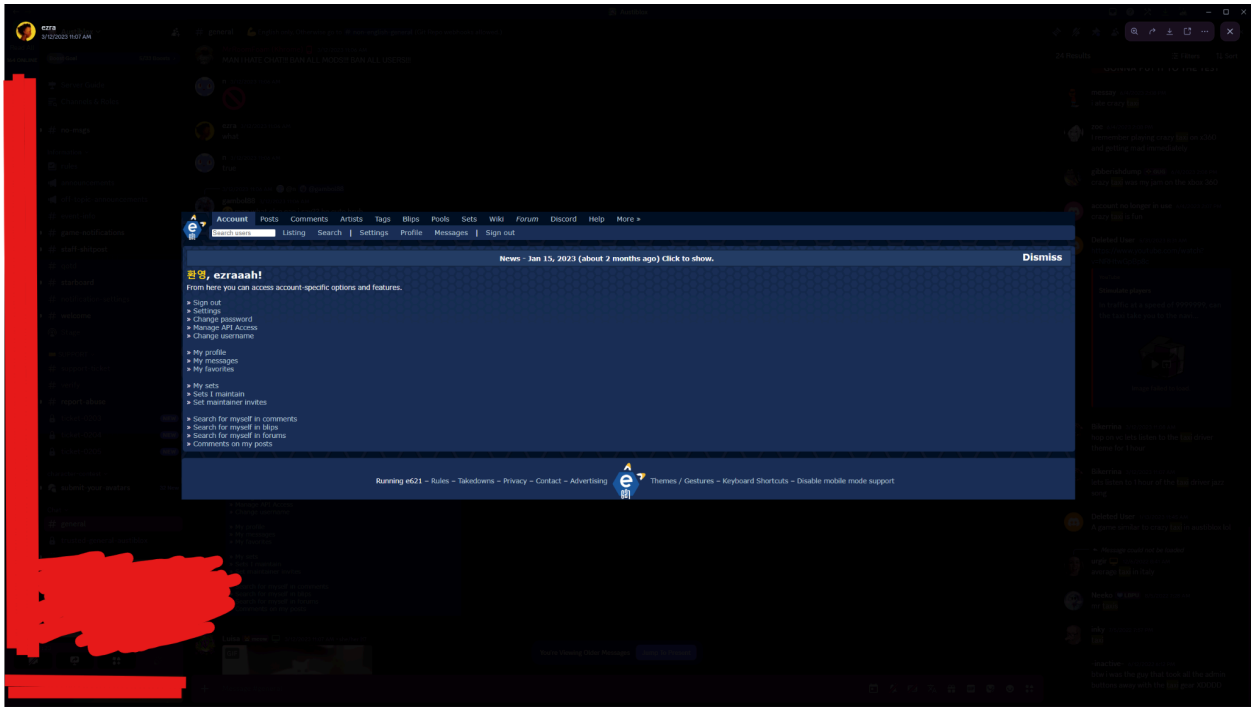
Nilenta changing the rules for their friends when they started to cause drama in other discord servers.

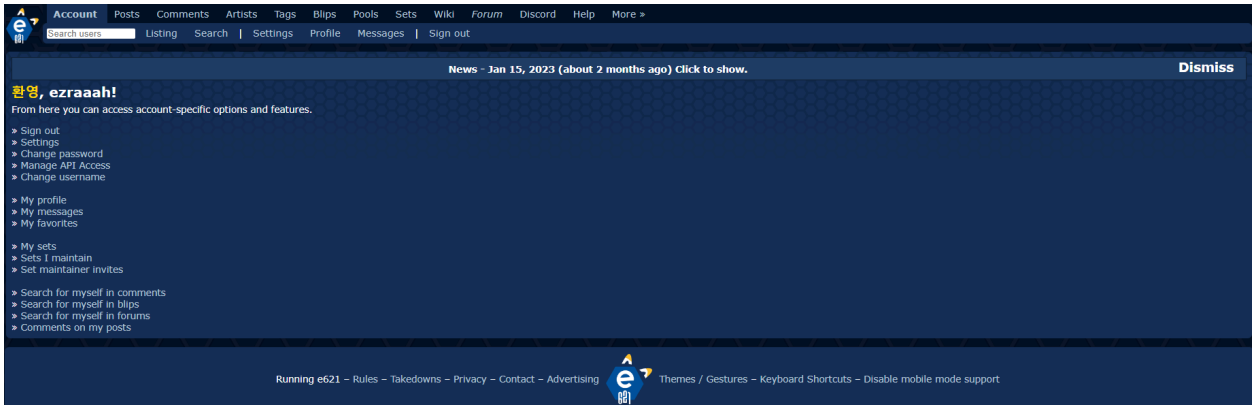
Nilenta is a Pedophile

As we had gone through old messages of theirs, we have found this screenshot Nilenta had sent in the Austiblox server of their e621 home page:

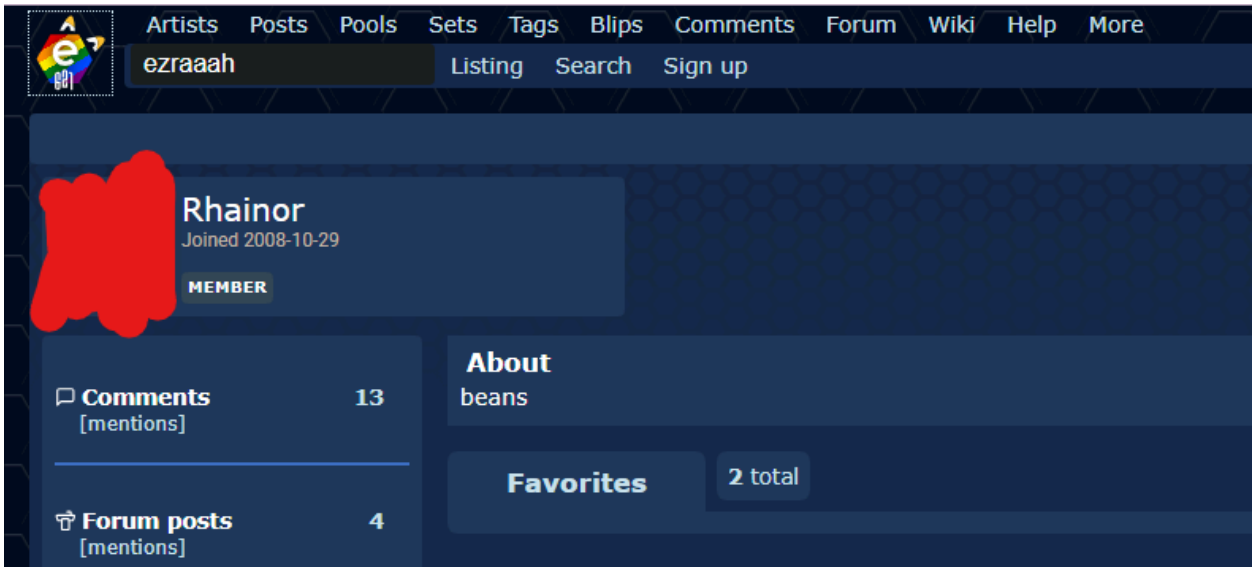


This was in response to a screenshot a user named “ezra” sent of their own e621 profile:





When researching Nilenta's e621 username that they had posted in the Austiblox server, we find that the account still exists:

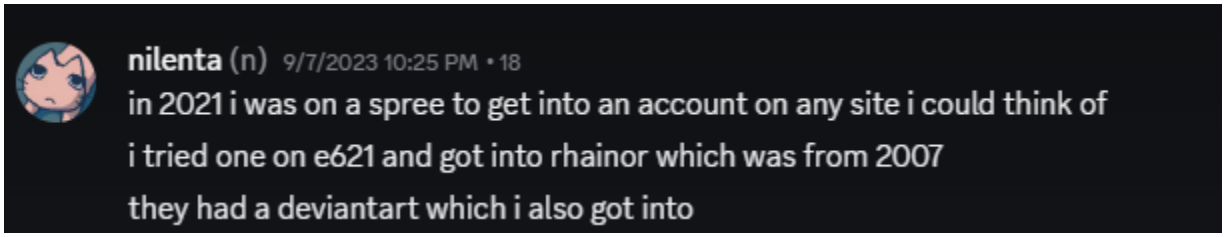


FURTHERMORE, THE ACCOUNT IS MADE IN 2008. NILENTA CLAIMS TO BE BORN ON 05/30/2008, MAKING THEM ONLY 5 MONTHS OLD WHEN THEY MADE THIS ACCOUNT & STARTED CONTRIBUTING TO THE WEBSITE.

THEY WERE NOT BORN IN 2008. THEY WERE NOT EVEN BORN IN 2006.

WE ESTIMATE THEM TO BE AROUND 30 YEARS OLD (BORN IN 1995/1996).

But wait! They claim this is a PG'ed account!



This cannot be a pg’ed account for these reasons:

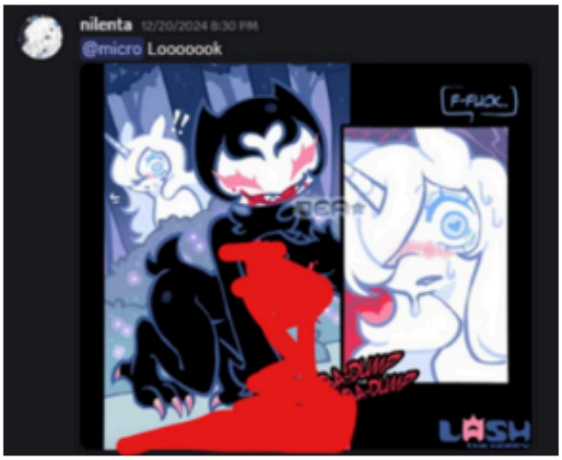
In the screenshot above, you can see that comparing the history from 16 years ago to 2 years ago, the user is reposting similar content, and even content from the same artist. Either Nilenta had gotten extremely lucky pg’ing an account with extremely similar interests, or they are lying. Seeing that they have lied about something as serious as their age in the past, we can safely assume that they have lied about this as well and this is their original account.

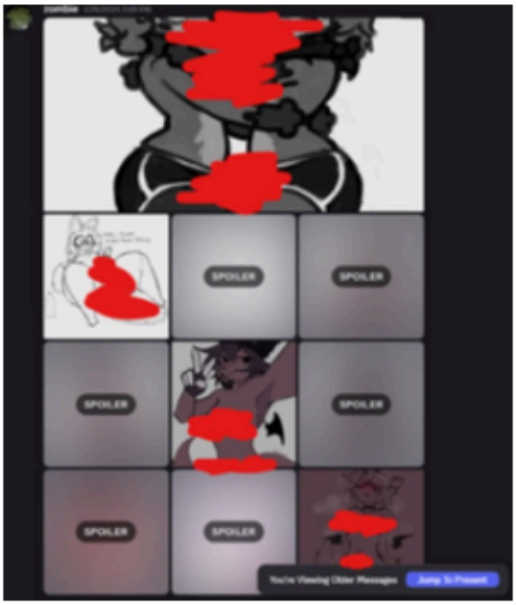
So all the things they’ve done….

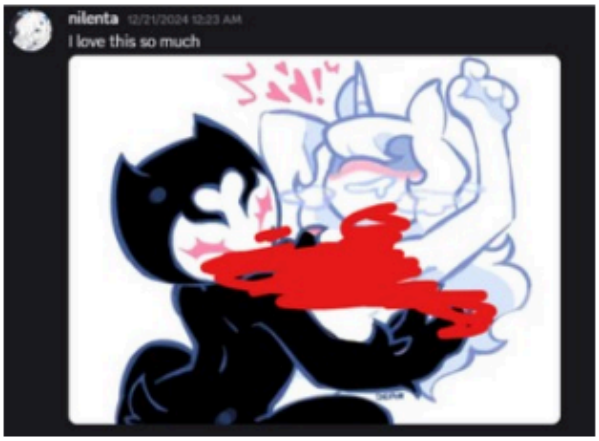
Creating a private ROBLOX condo….

Before the group chat was even made, in October 2024 I had made a private Condo (Roblox sex game) for me and micro when we were dating at the time, This was mostly left forgotten until I invited Nixette to it in January 2025, which allowed for micro and Nixette (and a few others) to have erotic roleplay in there. **This place has**

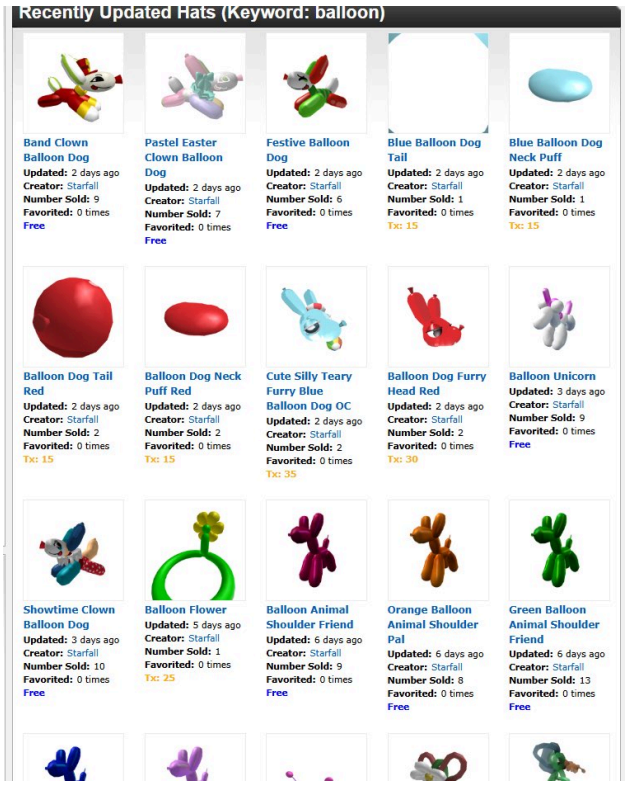
Adding minors into a group chat with another predator and sending pornography….

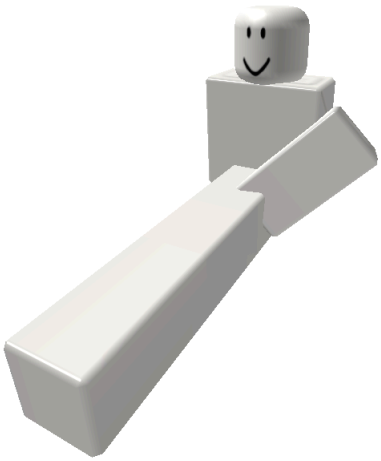


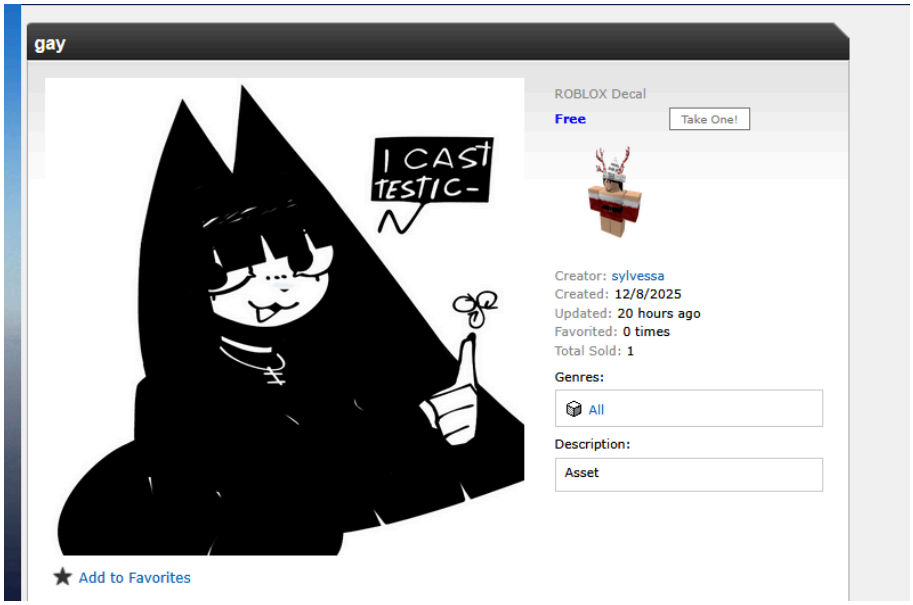




And exposing minors to fetish & NSFW content on their own website….







…was all pre-meditated.*

**Although this is strong evidence, please take this with a grain of salt as more research needs to be put into this topic.*

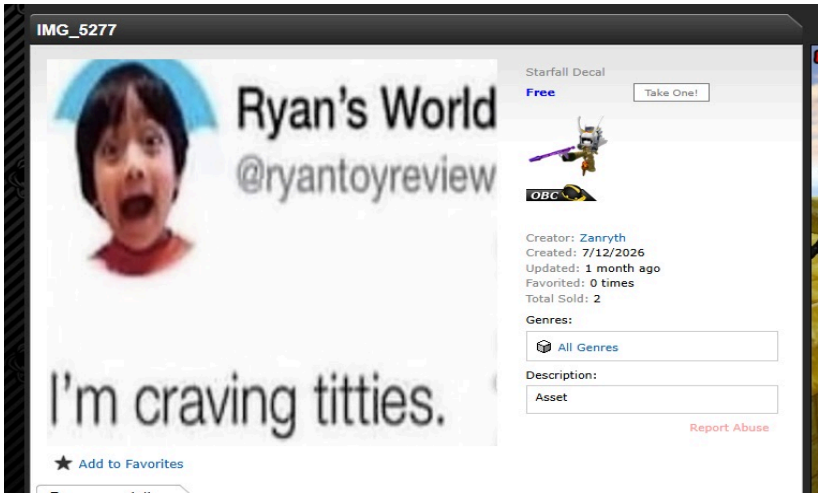
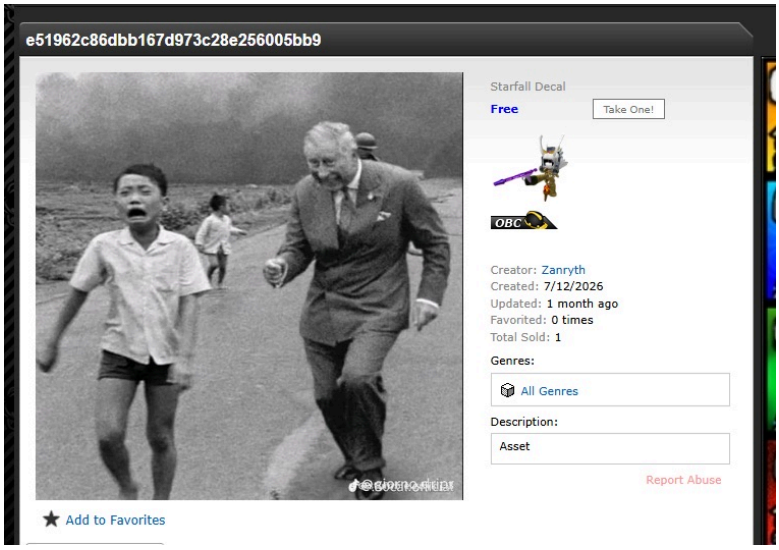
Zanryth's Contributions to Starfall

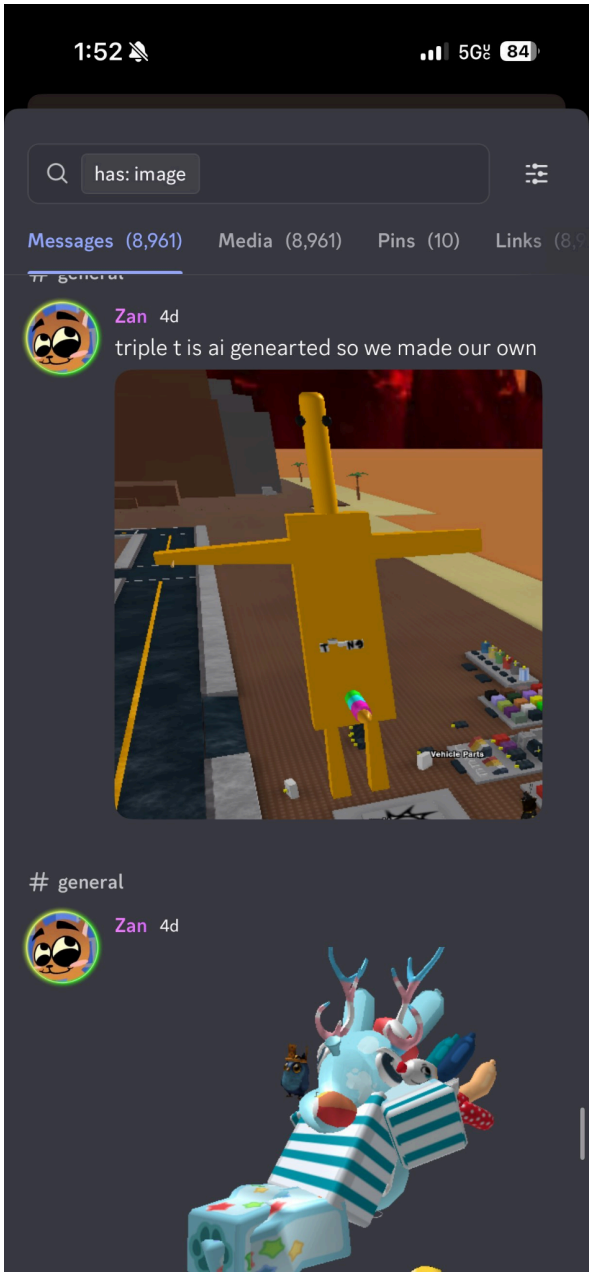
Zanryth has uploaded extremely problematic media to Starfall, in which they still remain on the website to this day. These screenshots range from NSFW, gore, to even pedophilic media.



Zanryth uploading a photoshopped tweet from a child YouTuber, which has them saying an NSFW sentence.



Zanryth uploading an uncomfortable, creepy photo of a grown man creeping up on a scared, crying child. This is a photoshopped version of the original photo, which is called "The Terror of War" (*please be advised the original photo contains child nudity*).



Zanryth uploading a screenshot of a build of a naked man with a penis that they made in Starfall.

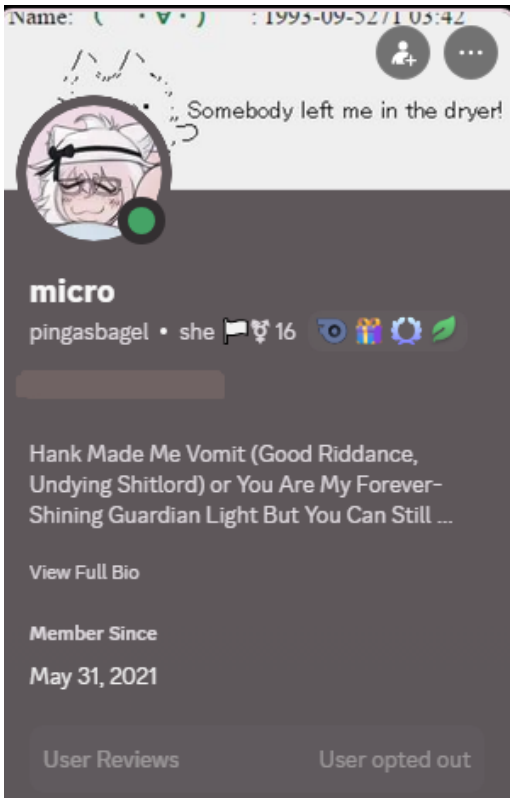
MICRO

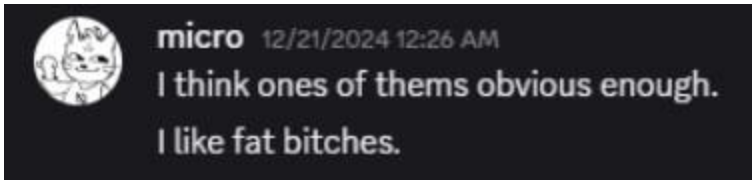
Micro is a member of the Starfall community. Micro claims to be 16 years old.

Micro's Obsession with Pornography

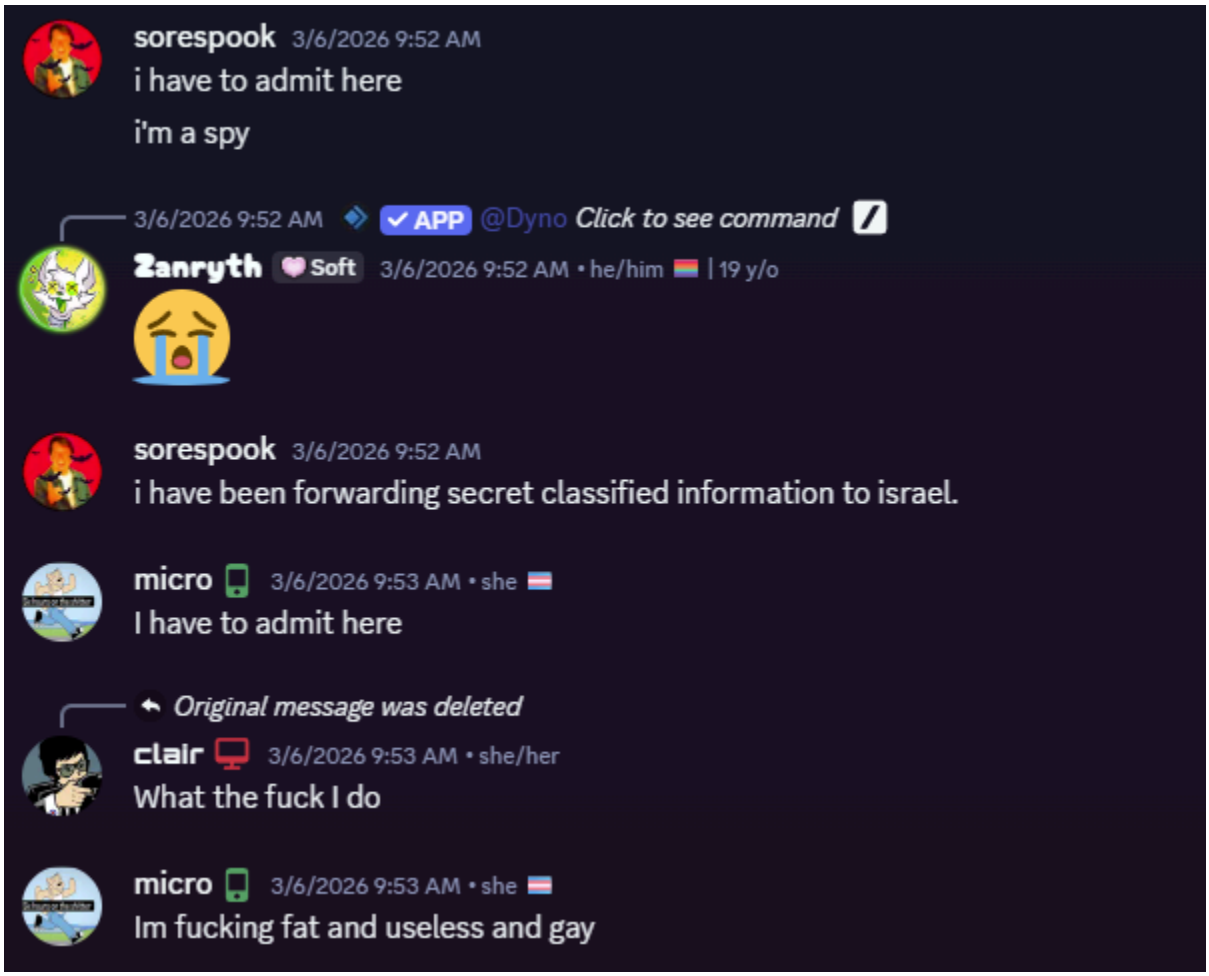
Micro, for many years, has been known to publicly show off their infatuation with NSFW. Despite being a minor, they have no regard for other people's innocence and comfort.



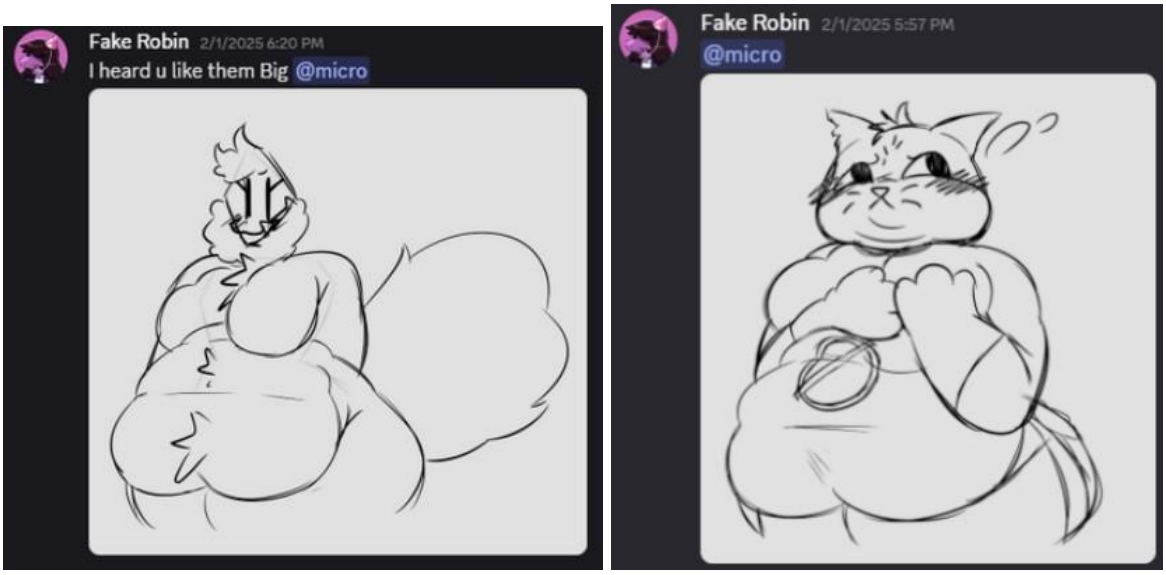
Micro having a profile photo showing the character's head being wrapped by the right thigh, in which the POV character is fat.. This screenshot was taken on **9/26/2026**. Anyone, including minors, who views their profile are exposed to this image.



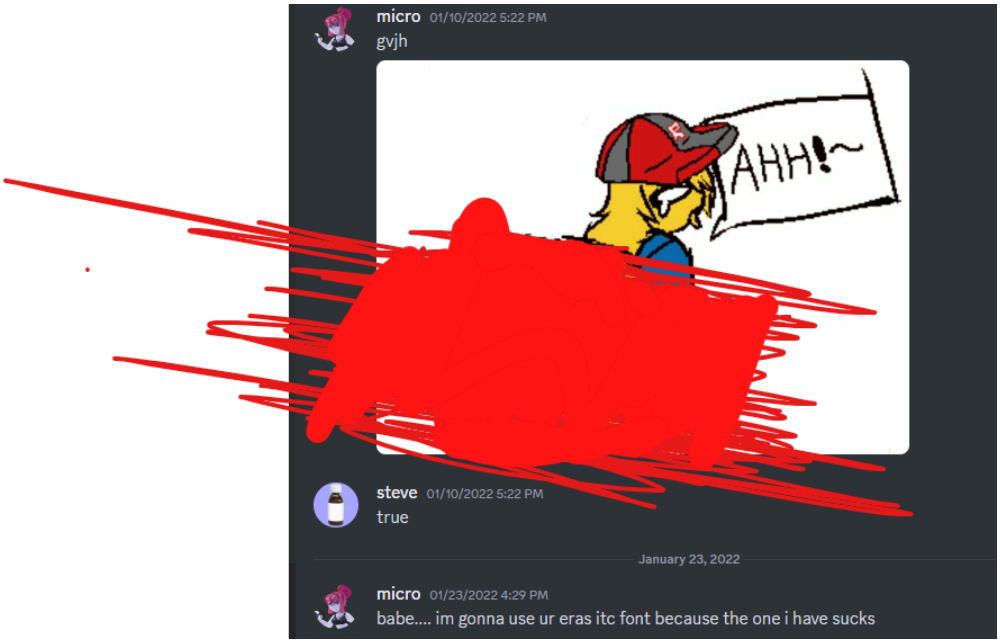
Micro admitting they have a fat fetish.



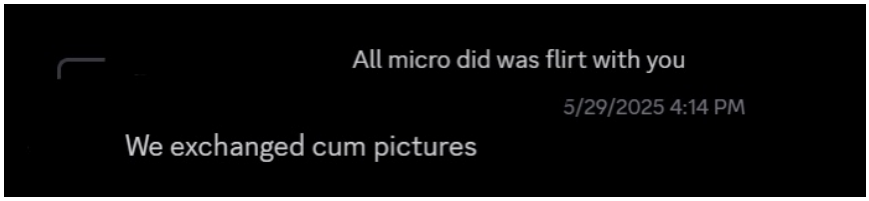
Micro saying this out of nowhere in a public chat full of minors (Hexagonium).



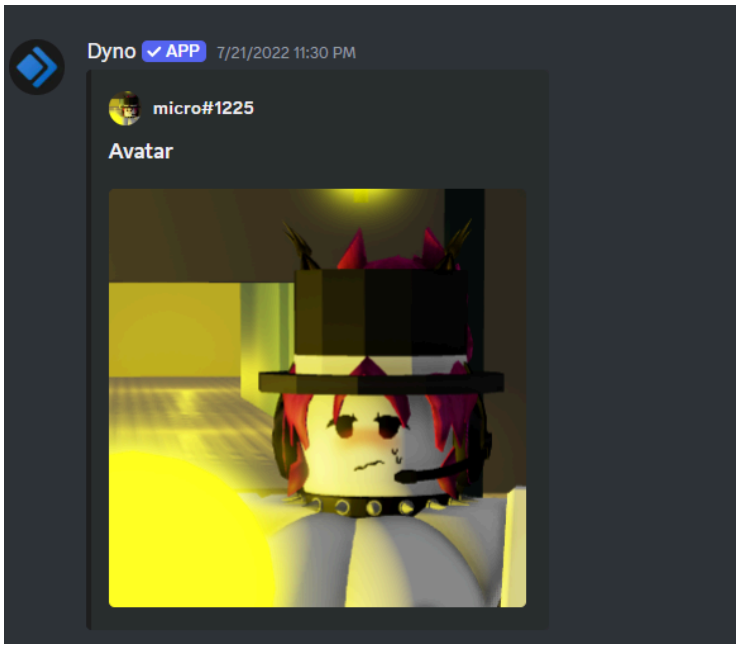
Micro, in a gooning group chat, having fat fetish art drawn for them.



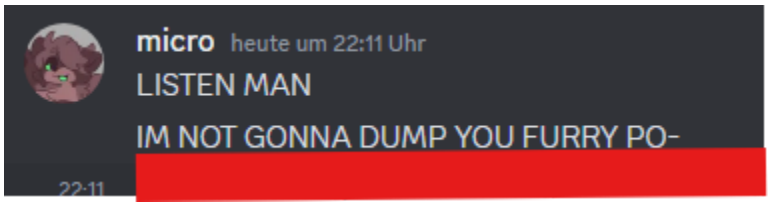
Micro sending ROBLOX porn to another minor.



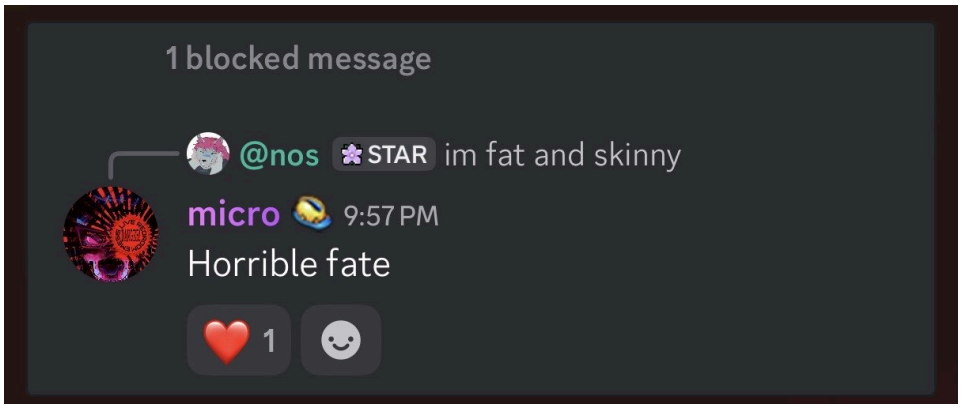
Micro exchanging real life NSFW photos with another user.



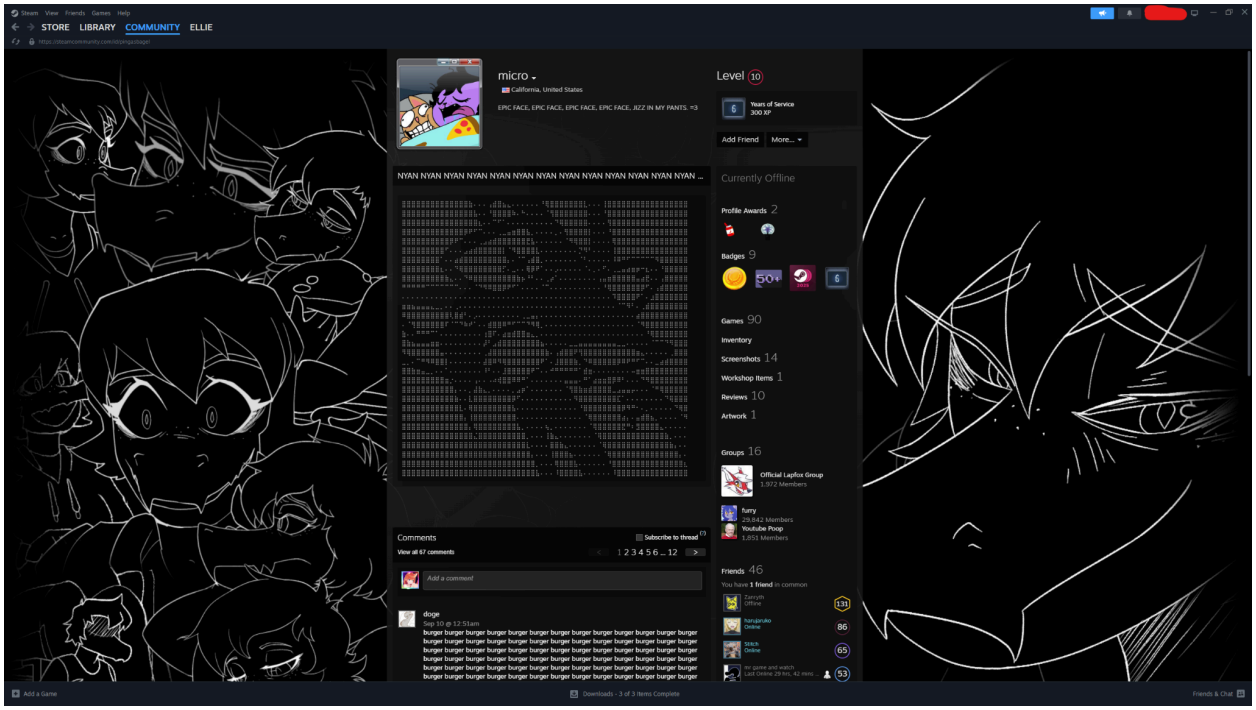
Micro changing their profile photo to NSFW, exposing anyone, including other minors, who looks at their profile to the image.

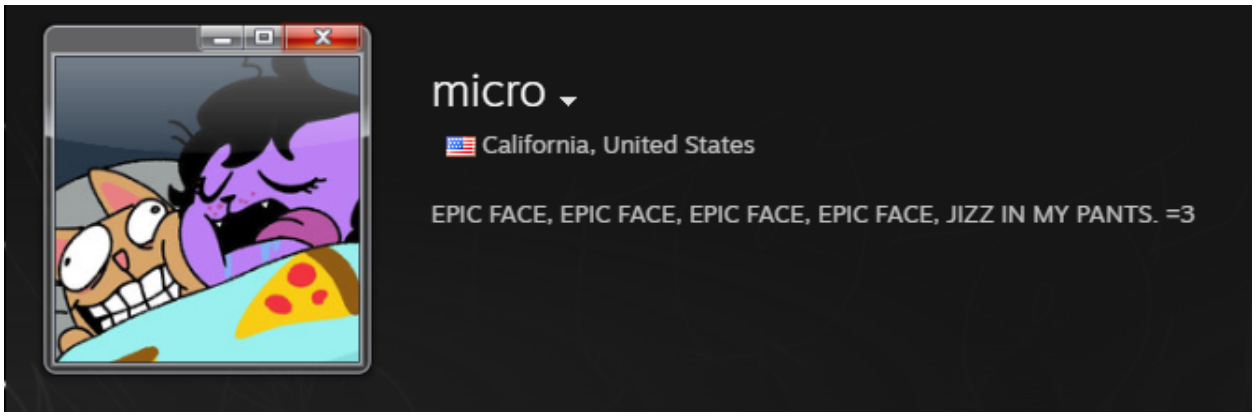


Micro sending a porn collection to another user.

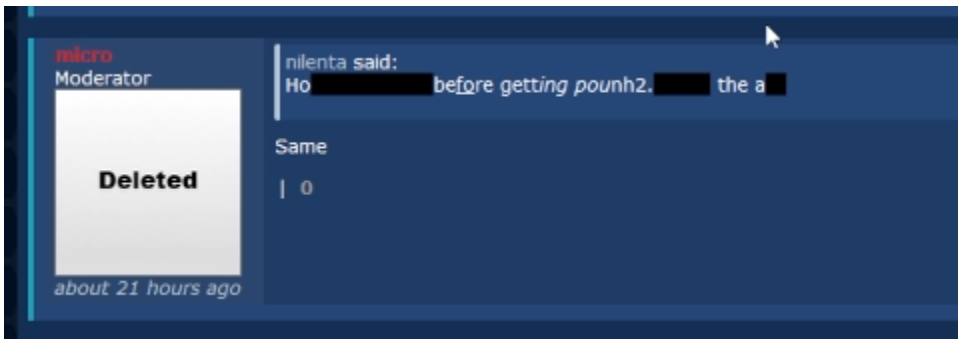


Micro inappropriately commenting on another user's body.

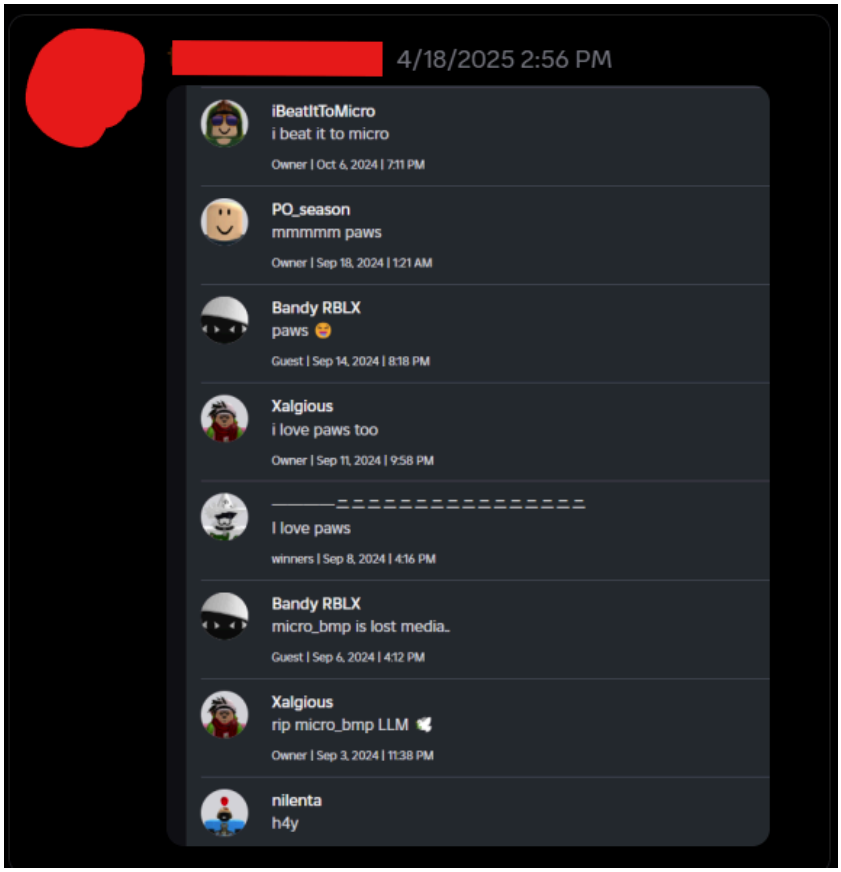


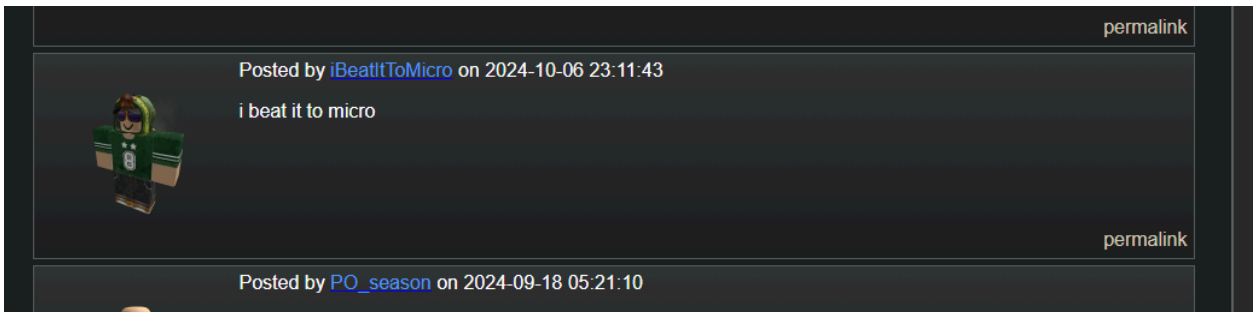


Micro having a public steam profile with a highly NSFW bio. This screenshot was taken on **09/21/2026**, and is **still on their profile** at the time of releasing this document.



Micro responding to Nilenta talking about NSFW on C621.





Some of the messages sent in Micro's ROBLOX group. The full archive can be viewed here, here, and here.

Micro Harassing Users & Overall Impulsivity

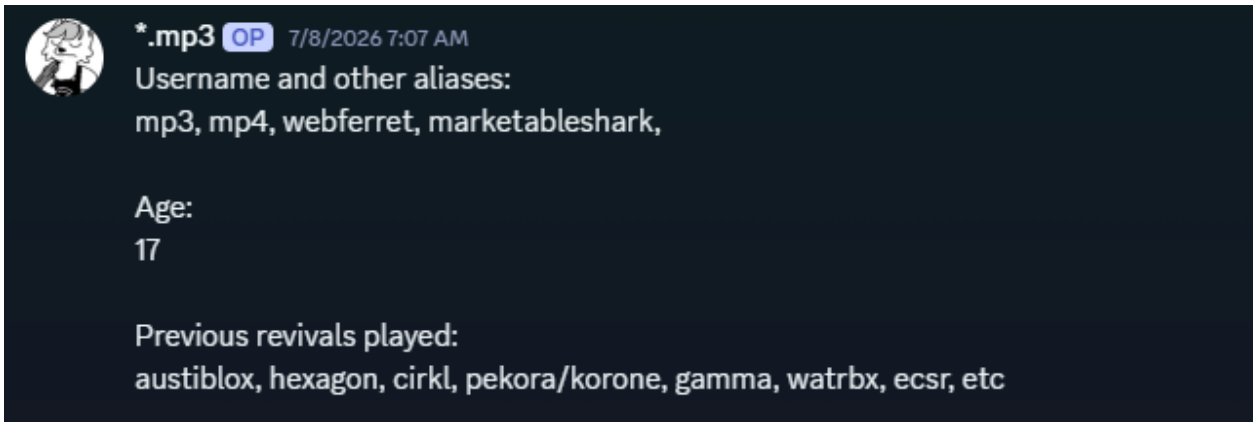
MP3

Mp3 is a heavily involved member of the Starfall community. They are friends with Nilenta and claim to be 17.



Mp3's @StarfallORC Account

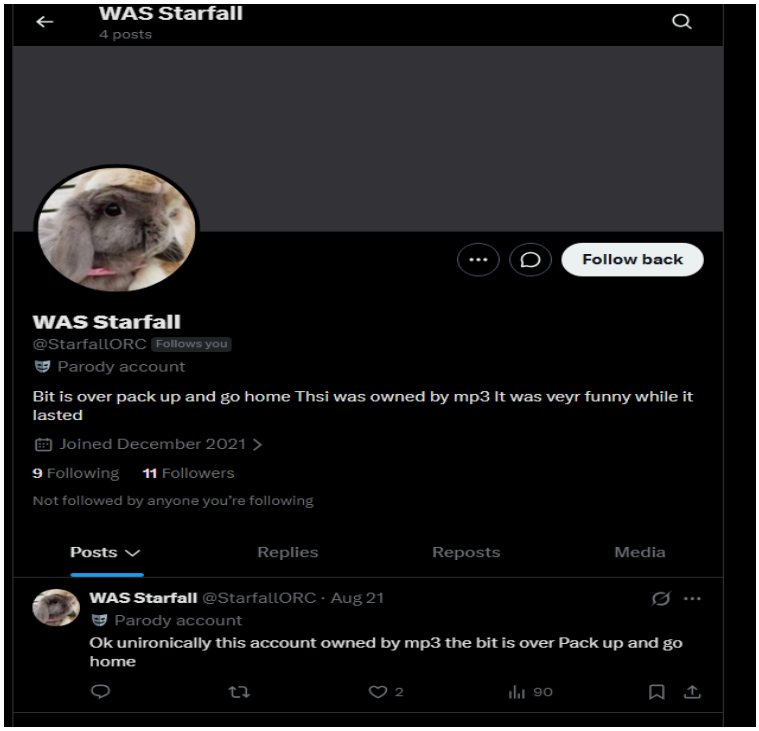
Mp3 owned the twitter account, @StarfallORC. This account was a troll account mainly used to harass users.

Mp3 quoting their own tweet harassing a user named Coww.

Mp3 responding to an NSFW tweet, agreeing with the user, claiming “they are a big fan”. Considering there are minor users on the Starfall platform that this account was being advertised to, this is a majorly disgusting statement to make.

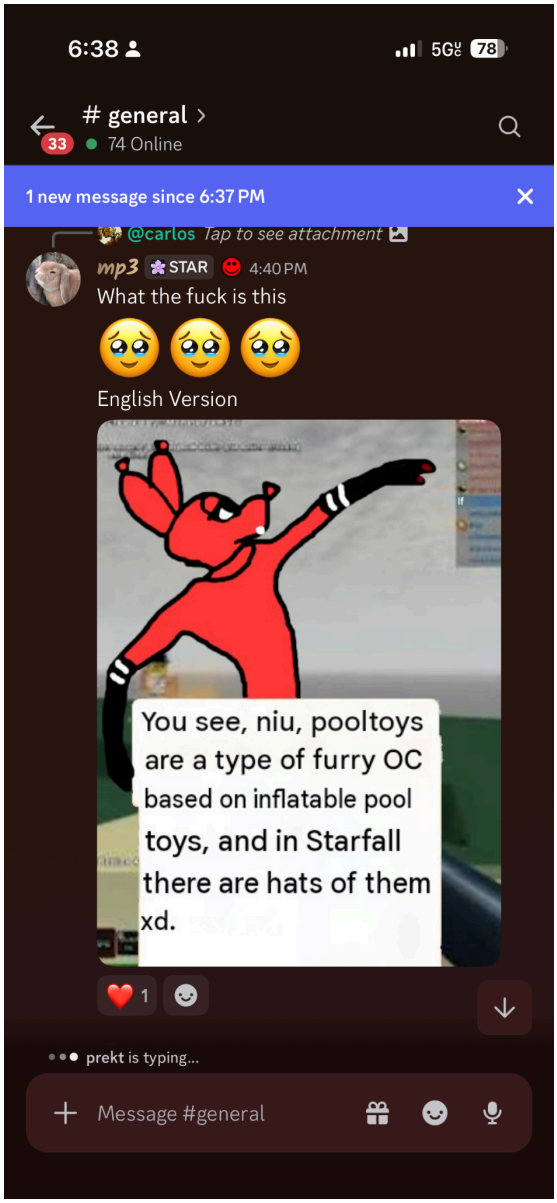
Mp3 admitting to owning the StarfallORC account.

Mp3 has wiped the tweets as of **10/02/2026**. I don't think anyone found this funny.

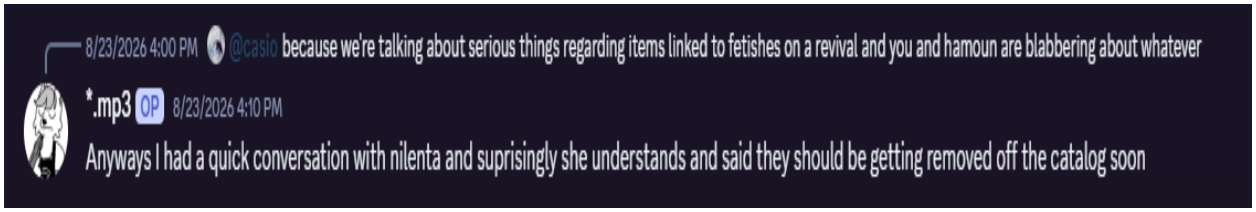


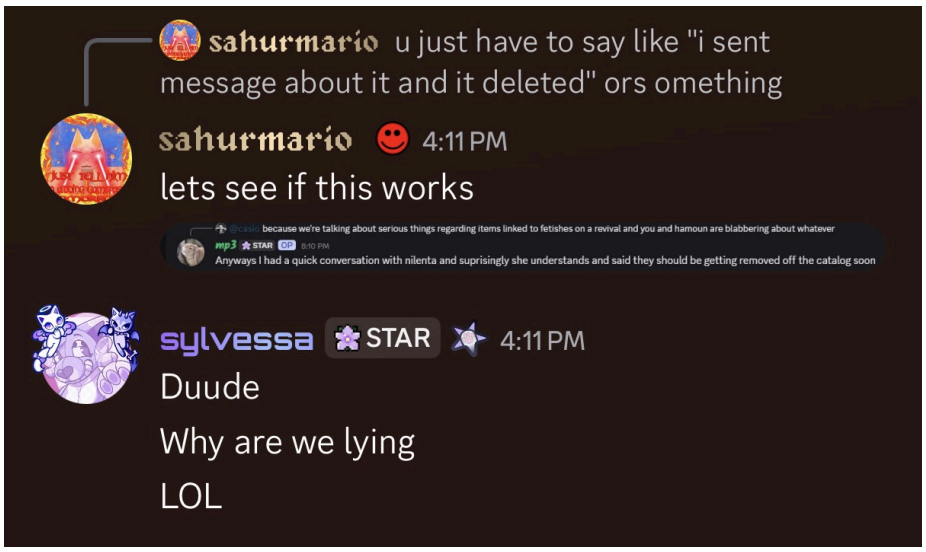
Mp3's Deep Involvement with Starfall

Mp3 is heavily involved in the Starfall community, to the point where they have gone out of their way to attempt to defend the revival. This unfortunately has backfired on them.

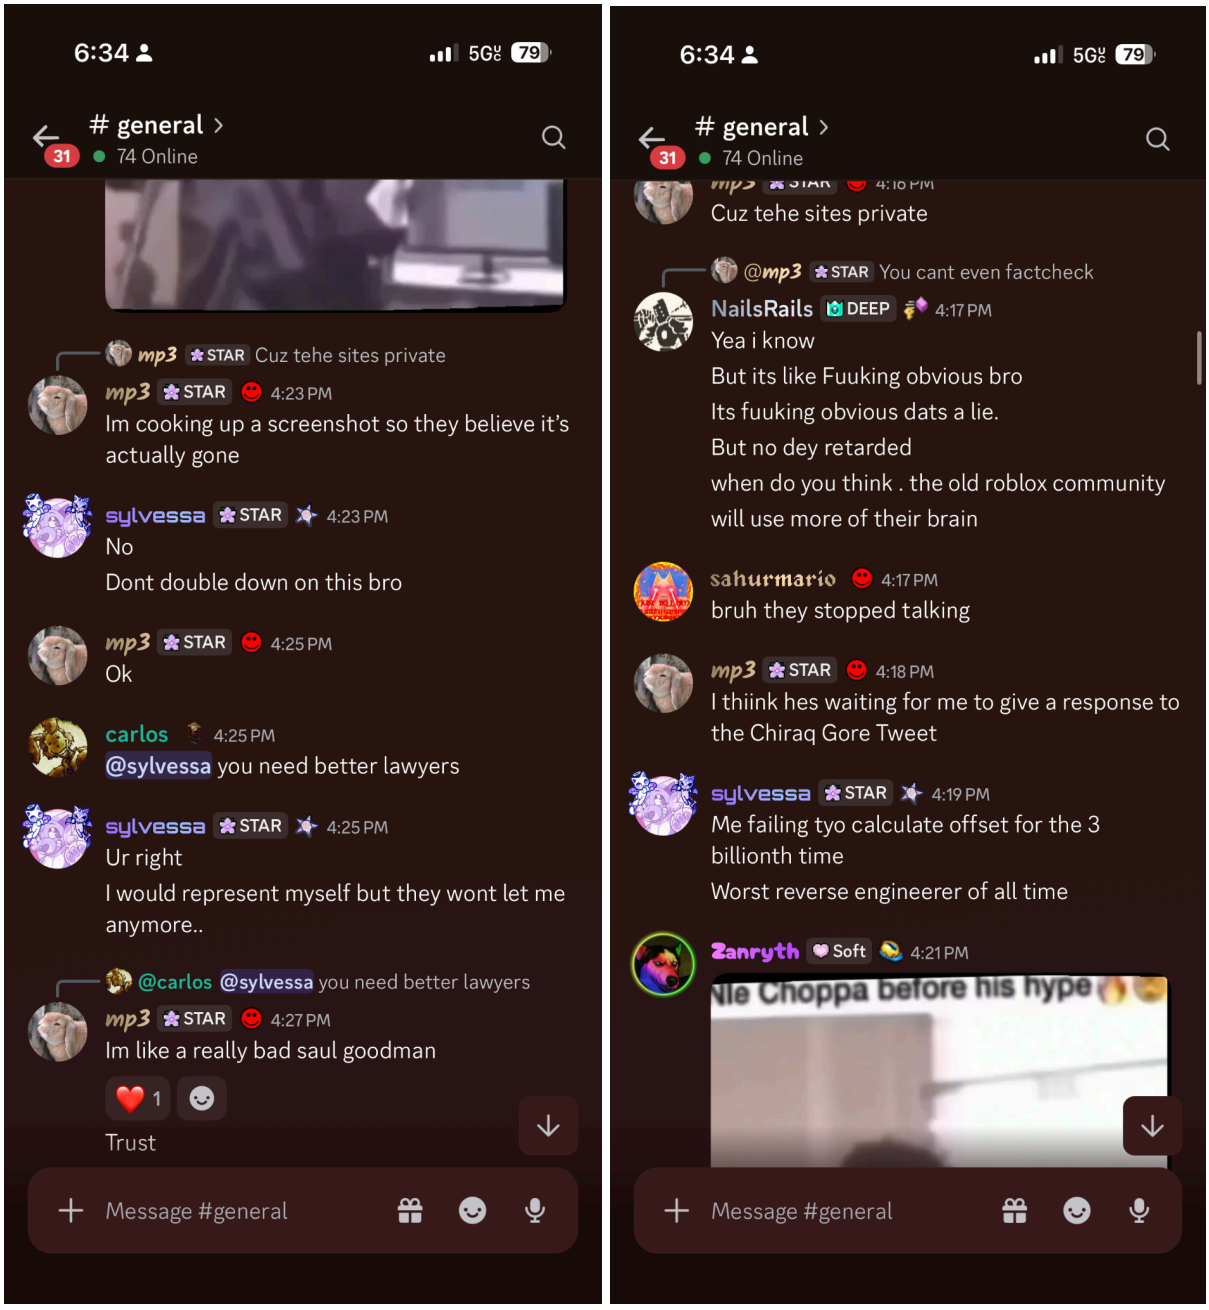


Mp3 making light of the pool toy fetish items on the Starfall catalog. The photo shows a picture of Zanryth's avatar, which can be shown here.

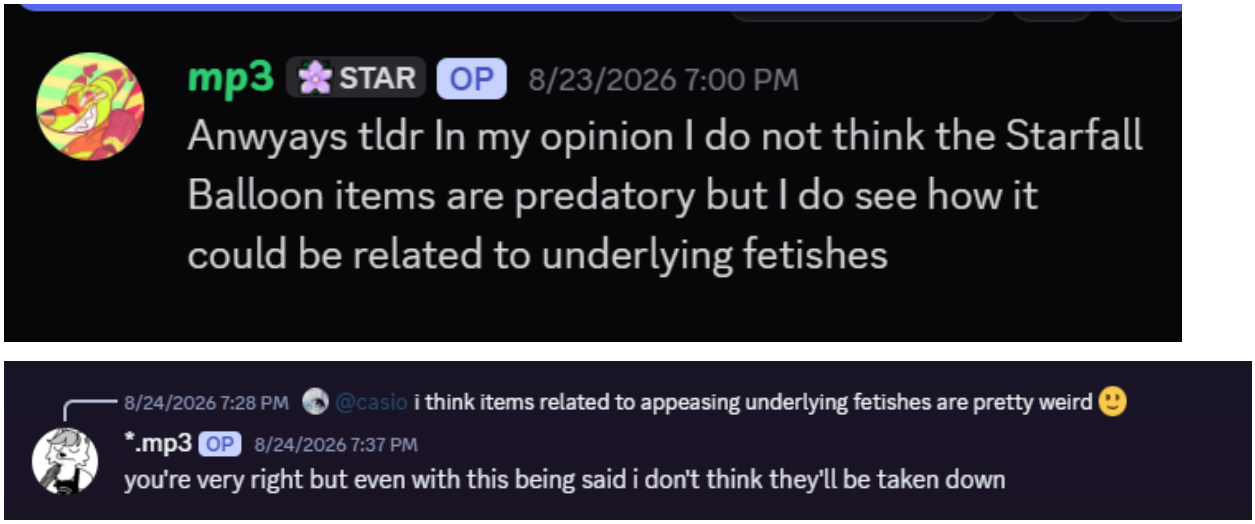




Mp3 lying to a server full of uncomfortable users that Nilenta is removing the fetishized pool toy items off the Starfall catalog. You can also see here that Nilenta finds it funny that she lied, and another user is coaching Mp3 on what to say.



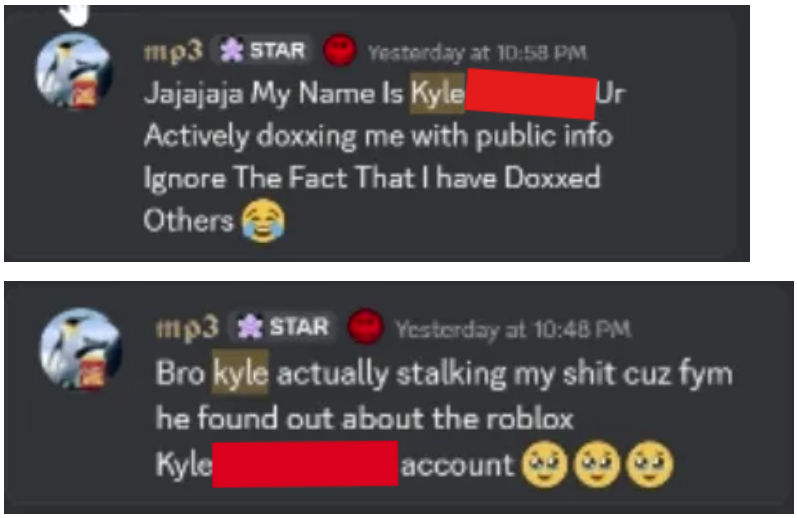
Mp3 plotting to create fake screenshots to trick outside users into thinking the fetishized pool toy content was removed off of Starfall. In the same screenshot, you can see that NailsRails uses slurs to describe the concerned outside users and insult their intelligence.



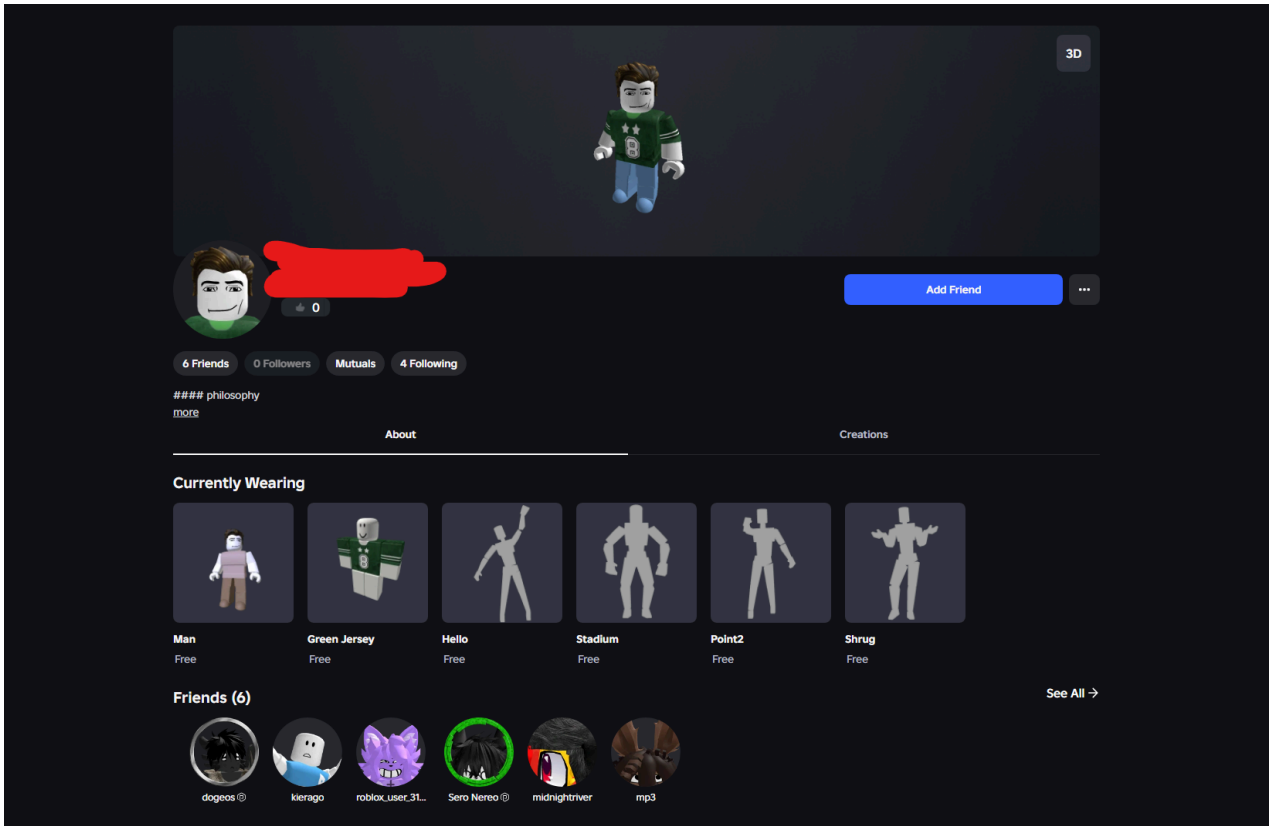
Mp3 admitting that the pool toy items on Starfall are related to underlying fetishes in regards to Nilenta's pool toy fetish.

Mp3's Contributions to Doxxing XlXi

Mp3 has participated in spreading information illegally obtained from XlXi's dox. Despite being asked to stop, they have refused to back down.



Mp3 using XlXi's full name several times in the Starfall Discord Server.



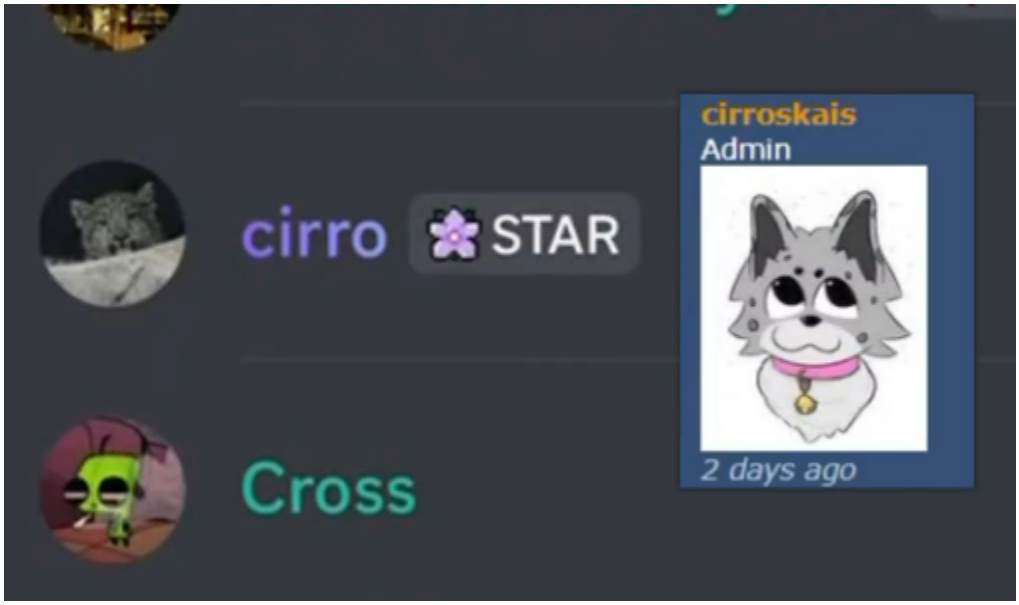
Mp3 being friends with a ROBLOX alt that was created with XlXi's full name as the username. This alt was clearly made to make fun of and harass XlXi.

CALONES/CIRRO

Calones, also known as Cirro, owns & runs a site called Starfall. This website is advertised to be 16+, however, they invite users who are younger than that. Calones claims to be 20 years old.

Calones Rehosted a Porn Website for Minors

Back in 2023, Calones hosted a website called C621, a rehost of e621, a furry porn website. This website hosted several minors.



They have allowed users to talk inappropriately on the website and even upload pornography several times without punishment. They have even contributed themselves to talking inappropriately on the website.

Evidence in which Calones knowingly hosted minors on their website.

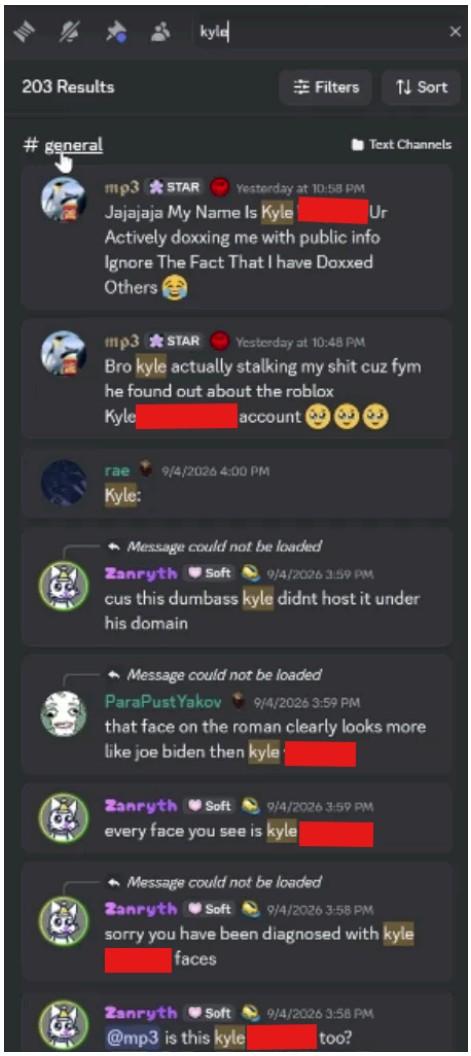
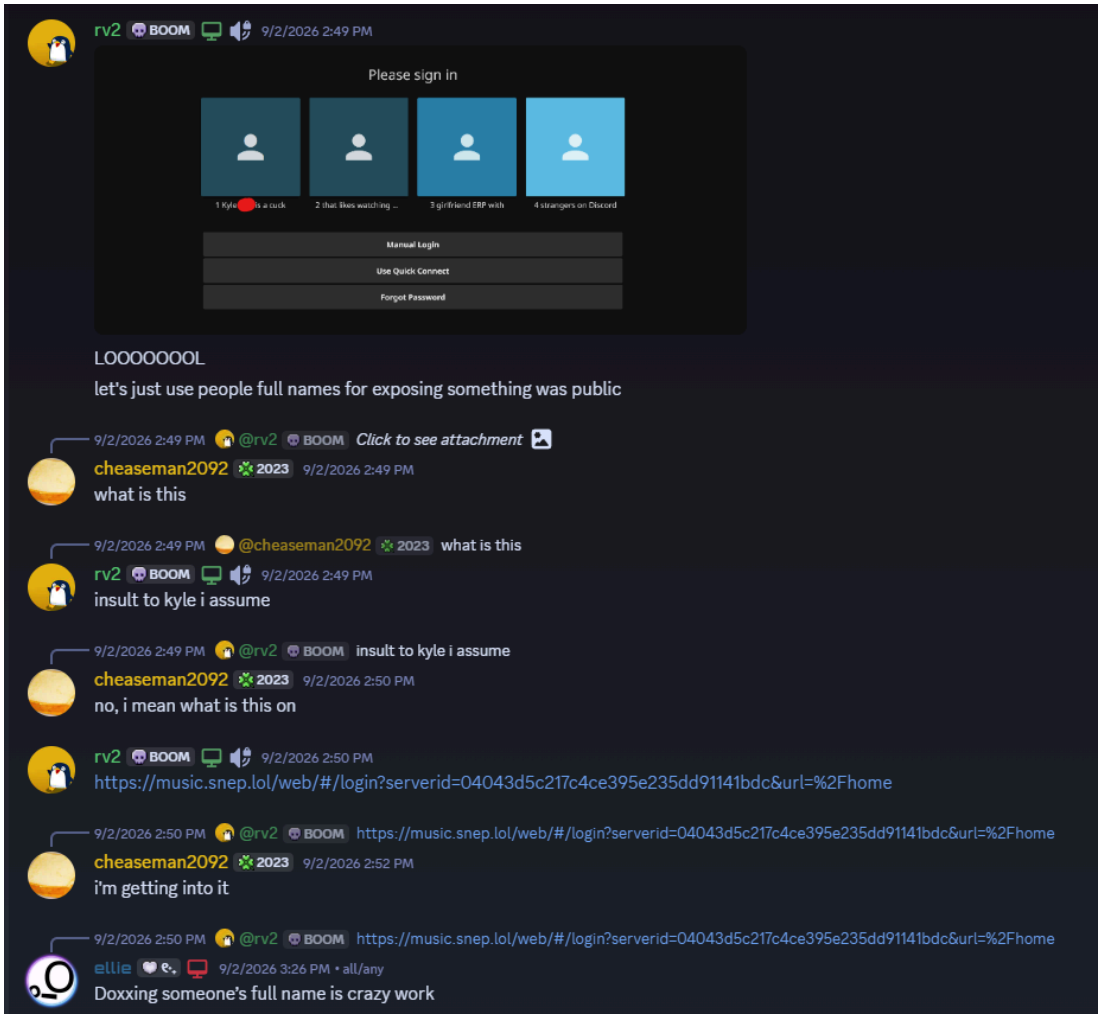
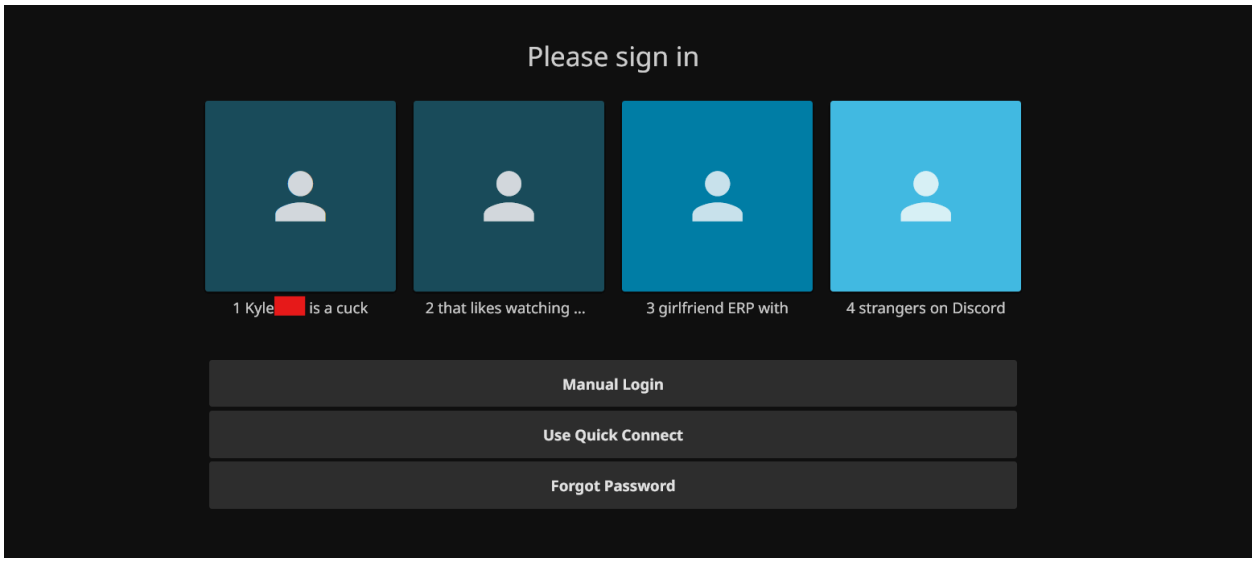
Calones Actively Doxxing XIXi

Calones has continuously allowed and contributed to spreading illegally obtained information from XIXi's dox. They have not only encouraged this on the Starfall website, but have also spread it themselves on a separate website they host.



Calones allowing users to use XIXi's full name, which was illegally obtained through a dox.





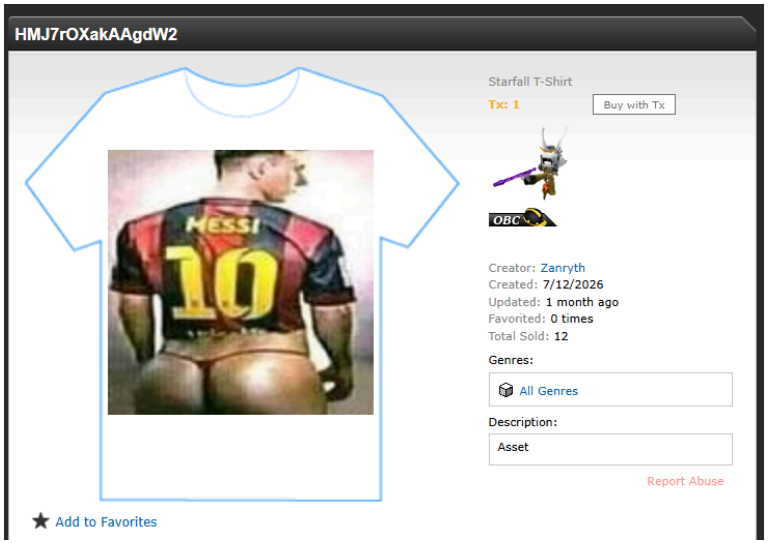
Calones updating their separate website to include XlXi's full name as well as accusing them of being a cuck. This is highly inappropriate, disgusting and illegal.

STARFALL

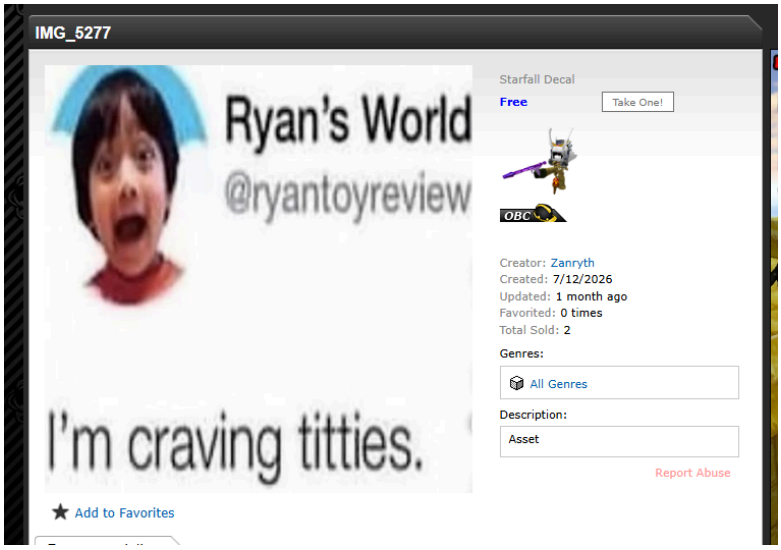
THIS IS A LIST OF THE CONTENT THAT HAS BEEN UPLOADED TO THE STARFALL WEBSITE. PLEASE VIEW AT YOUR OWN DISCRETION.

1. Inflation fetish content, exaggerated or not is inappropriate for younger audiences and should not be on a platform hosting minors.

2. Shows an extremely creepy photo of a smiling, old man sneaking up on a clearly distressed child. The person who uploaded this decal onto Starfall is 19; an adult who is reposting creepy pictures with pedophilic undertones should not be on any platform with children.



3. As funny as this photo might be, it still should not be advertised to children. This is considered NSFW (nudity) and is an inappropriate photo for children to be exposed to. (Once again, the uploader is 19– an adult.)



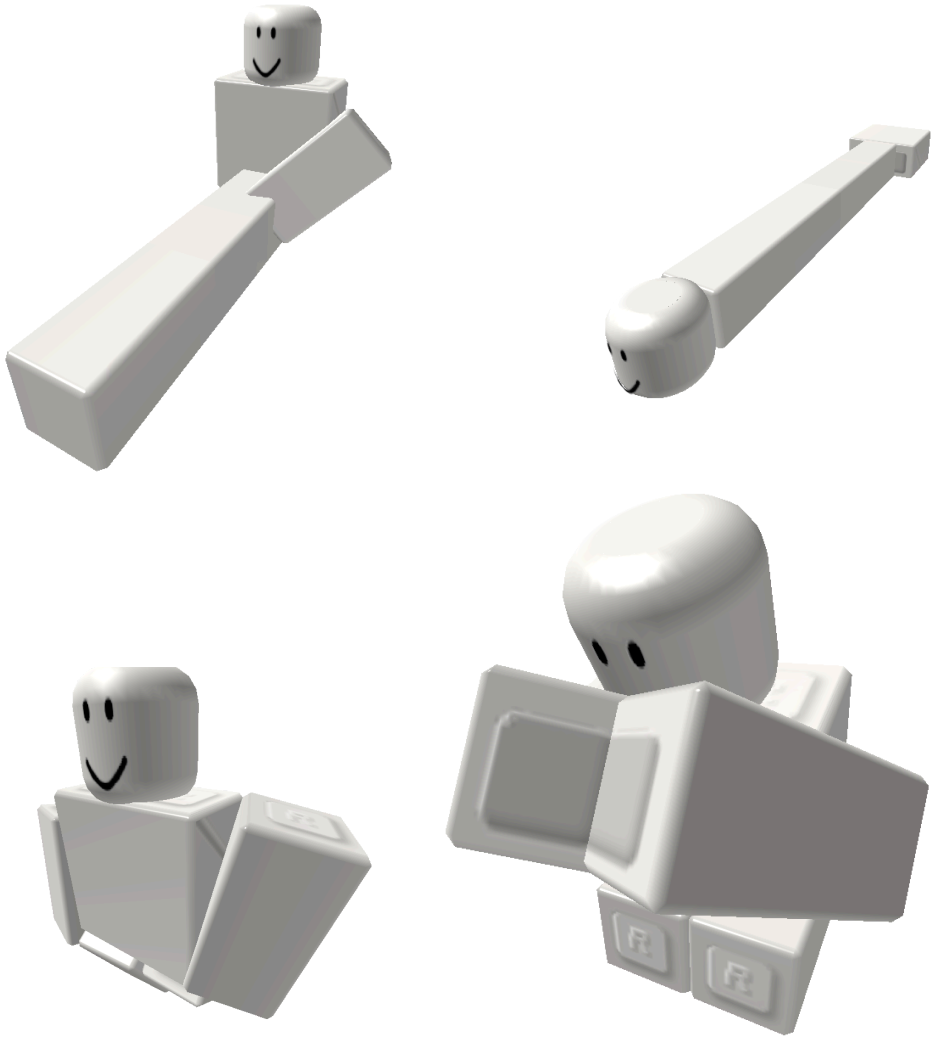
4. An edited photo of a child YouTube star saying an NSFW sentence. Anyone who would edit a child saying this, or even someone who reposts this, should not be allowed around children and should be seen as a danger to society. If someone edited your own child to say that, would you find that funny? I doubt it. (Once again the uploader is 18 years of age– an adult.)

5. Sexualizing a children's show, then uploading it onto a website full of children. Brilliant!

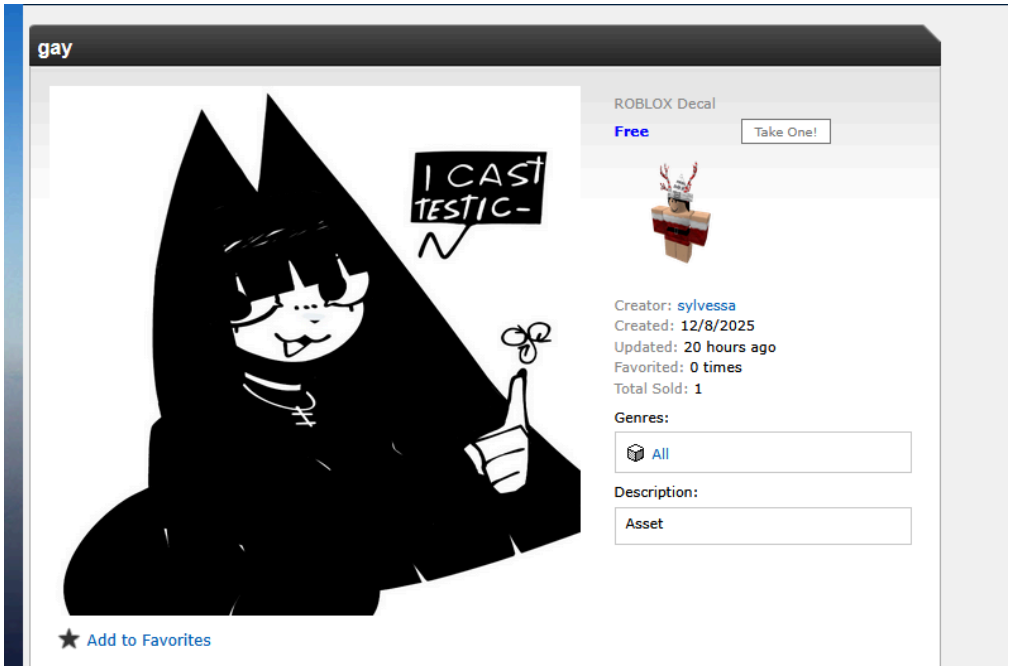
6. This is a reaction to an adult rated show. As funny as it is, it's still not appropriate for Starfall's playerbase, which consists of mainly minors.

7. These are images of two different players' avatars, which have balloon fetish content. The users are clearly sucking on a beach ball in a sexual manner.

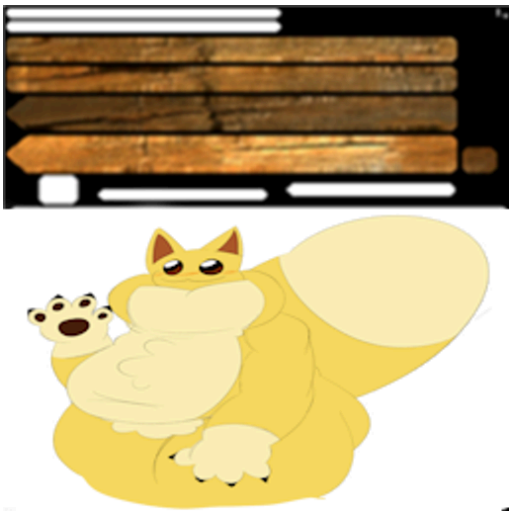
8. Fat fetish art of Dr. Retro commissioned by Micro.



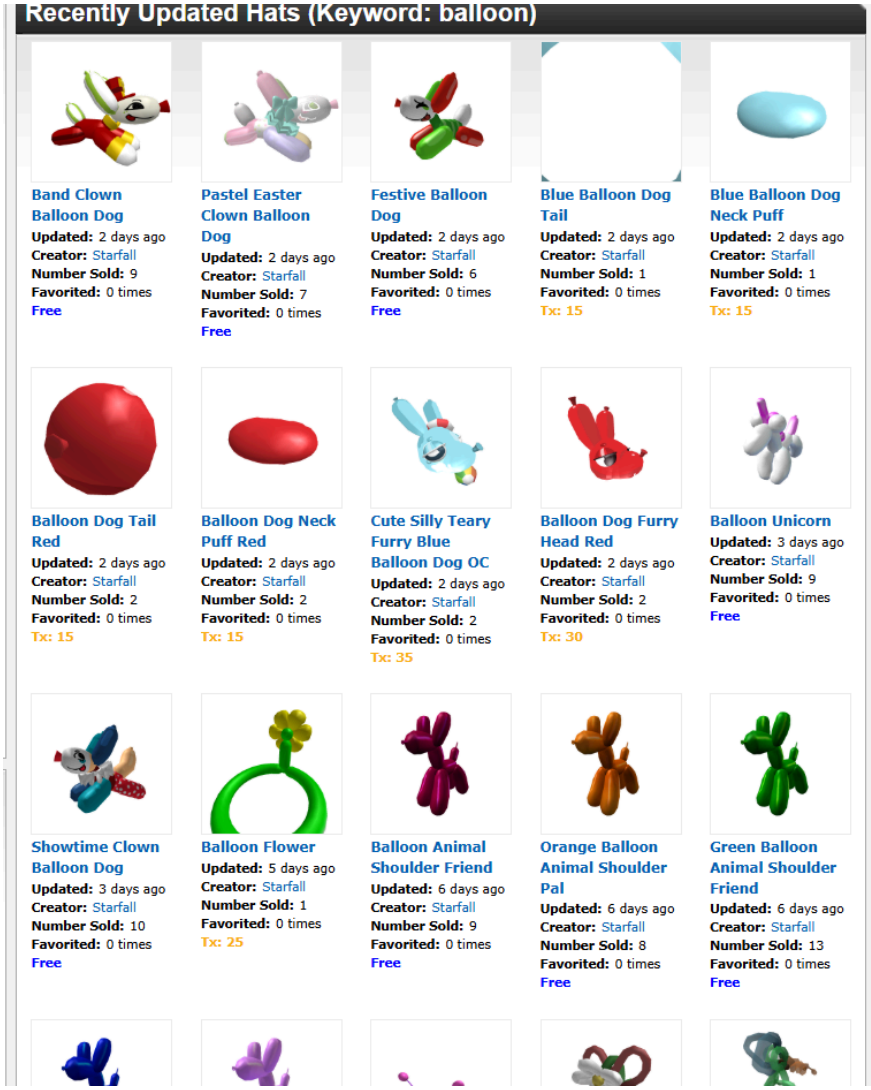
9. Animation packs that were uploaded by Starfall staff to their website. This is clearly used for ERP and inappropriate interactions.



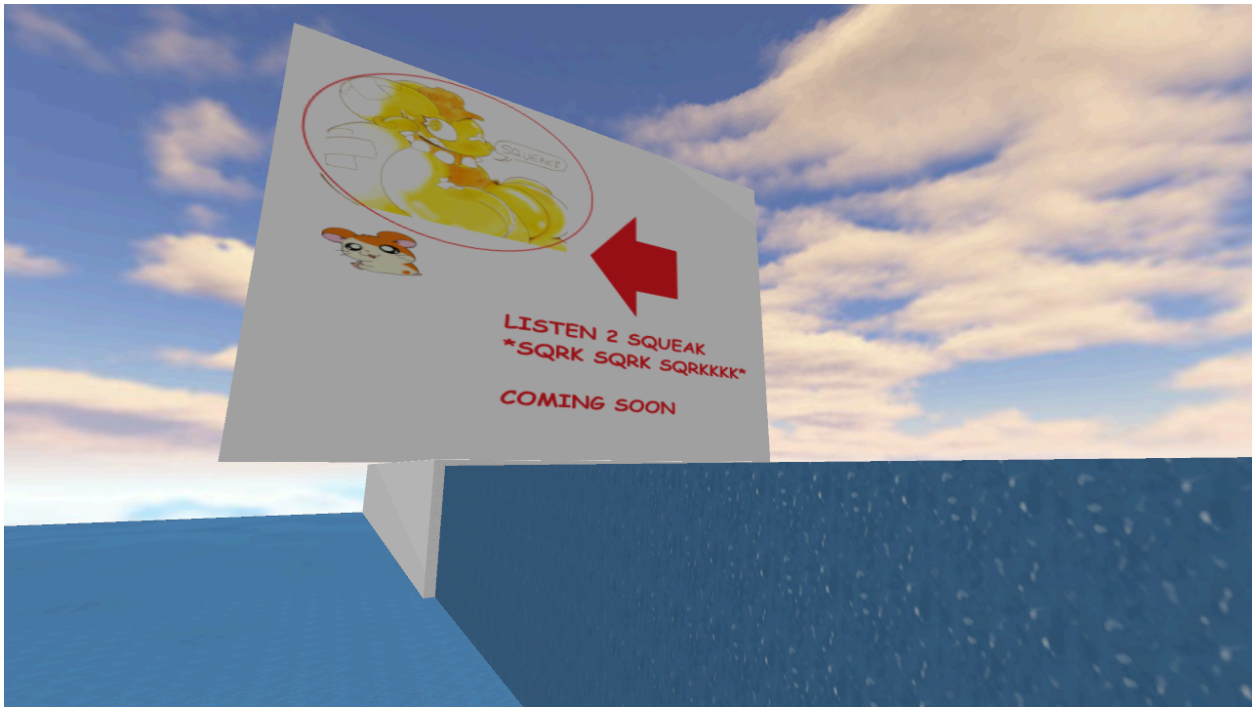
10. This image was uploaded by Nilenta. The character originates from a porn artist.



11. These images include avatars and assets that have commissioned fat fetish art. The user, micro, commissioned & paid money with sexual intention for Robin, the artist, to make this art. They uploaded this onto Hexagon and was protected until they nuked the revival. Now they have reuploaded this several times onto Starfall despite knowing the sexual intention behind it.

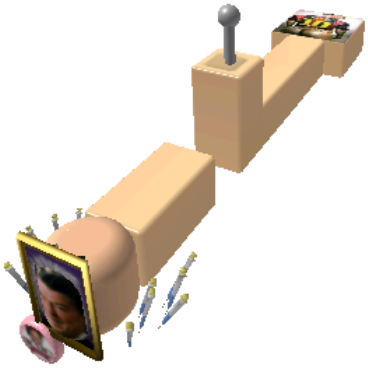


12. This image shows a handful of the balloon fetish items on Starfall.

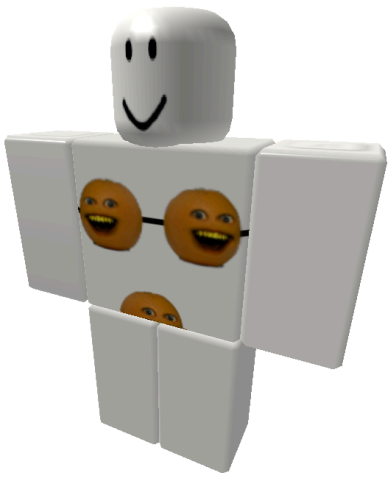


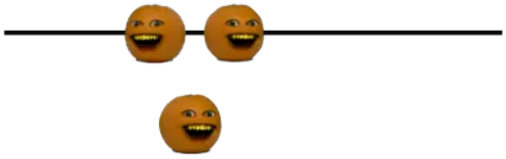
13a. This is a thumbnail generated directly from the Starfall website. A user is attempting to make a pool toy game.

13b. This is a decal that was added to the thumbnail featured in 14a.

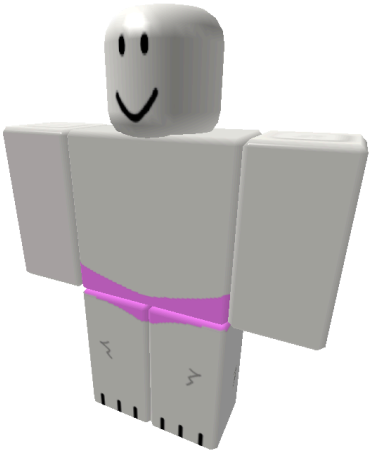


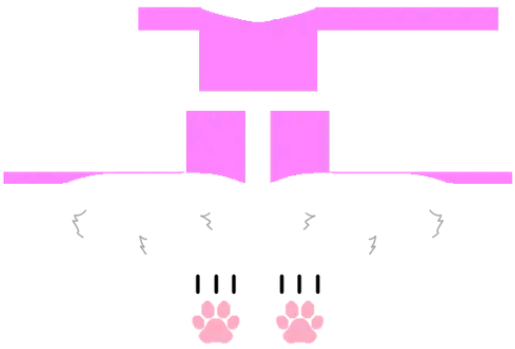
14. This is an avatar shaped like a penis that was pulled directly from the Starfall website.





15. This is a bikini that barely covers the body parts with images of The Annoying Orange. You can see Starfall added a sticker of this avatar in their Discord Server here (page 40).





16. This is a pair of underwear for furries. This obviously should not be on a platform full of minors.

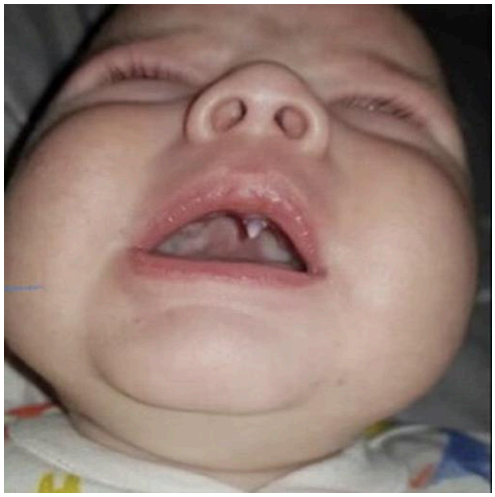
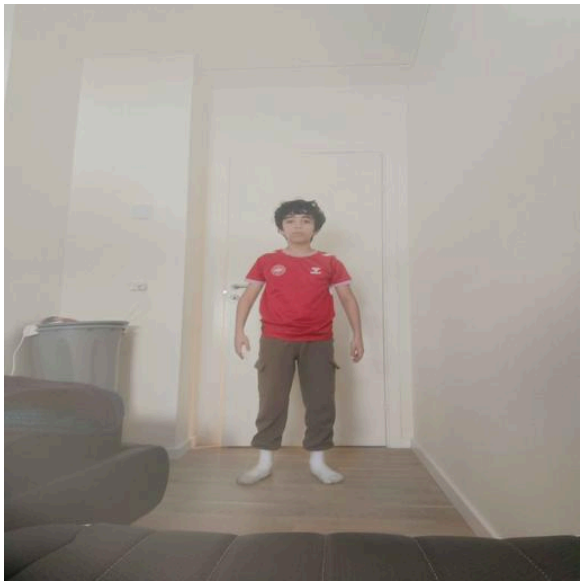
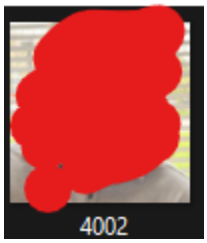
Please can I go to Ellie and mason
House





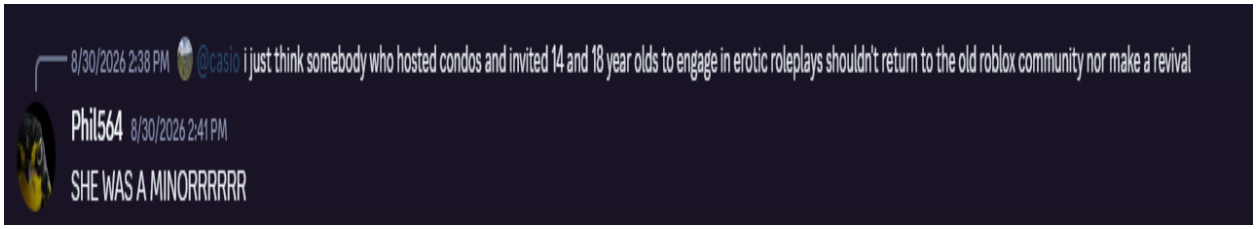
17. Several images of random children have been uploaded to the website. The most problematic one is a little girl photoshopped to have her tongue sticking out, in which it was found to be uploaded on the site **four separate times**.



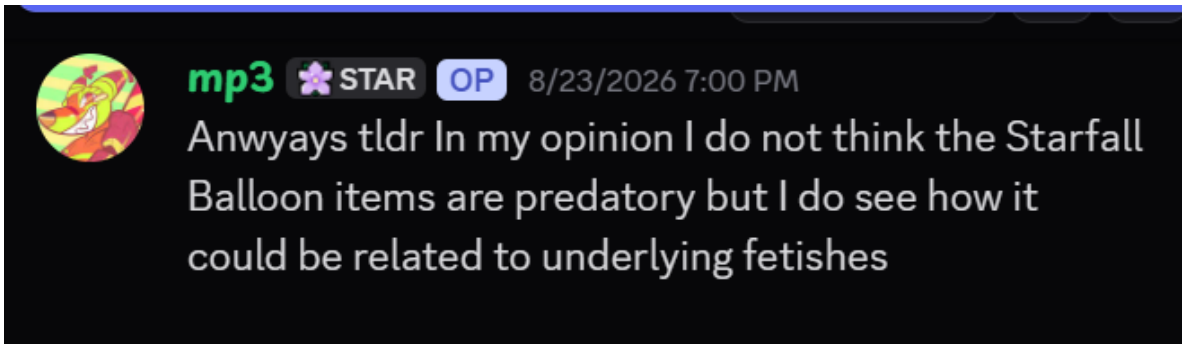
18. An image of XIXi's brother roaming free on the Starfall website. XIXi's brother's image has been obtained illegally through doxxing. XIXi's brother has nothing to do with the ORC, let alone Starfall. The person who uploaded the asset can be found here (page 1).

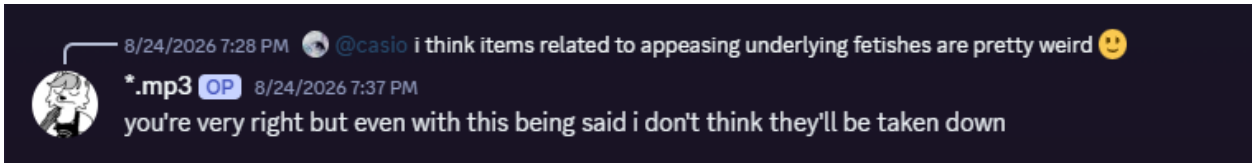
STARFALL'S DEFENSE

When people started to question Starfall, the content on the platform, and the intentions of the people on the platform, members, including staff and owners of Starfall, got involved and attempted to defend themselves. Below is a collection of screenshots of what they said in response to the allegations provided in this document.

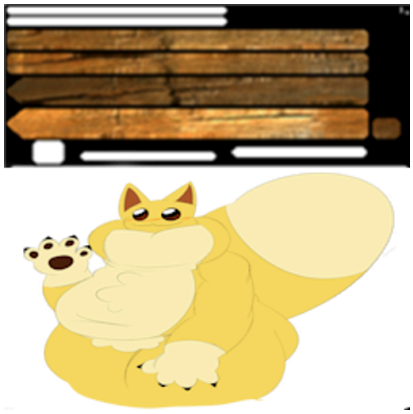


When the issue of Nilenta hosting ROBLOX Condos came up, this was Phil564's response. They argue that because Nilenta was allegedly a minor, it made what they did okay.





Mp3 admitting that the pool toy items on Starfall are related to underlying fetishes. What they failed to understand is that you cannot have an adult uploading items with underlying fetishes and the items not be predatory at the same time– the site caters to minors.



Parapustyakov claims that the sign of the Dr. Retro fat fetish art was changed. Despite this, the fat fetish art still remains on the platform, uploaded several different times. The render and textures for the sign still exist as well.

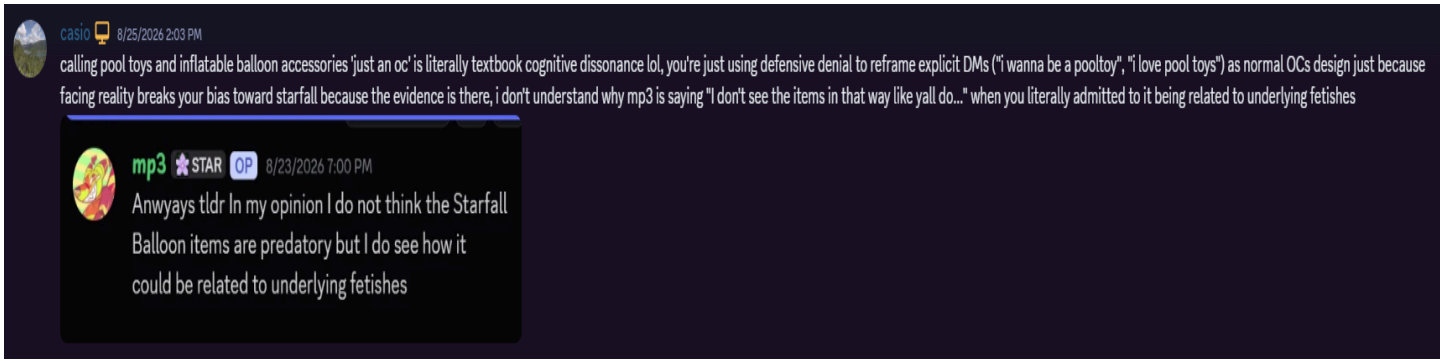
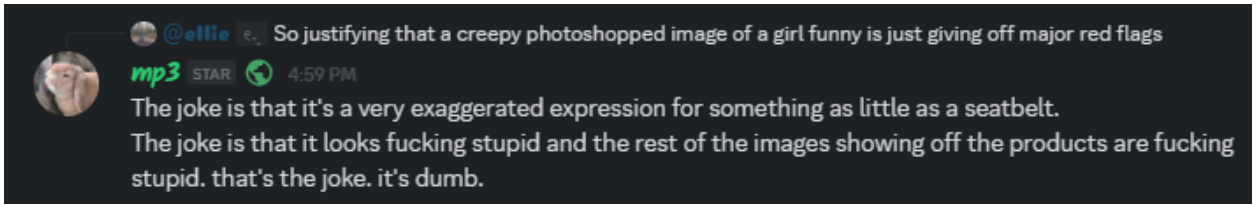
Several Starfall members got involved in creating a lie to tell to the public, in which they claim the pool toy items were being removed from the website. None of the Starfall members present in these conversations were alarmed and was making light of the situation, Nilenta even finding it funny.



Mp3 later backtracks their statement on the pool toy items having any underlying fetishes, claiming it’s “just an oc”.



@ellie So justifying that a creepy photoshopped image of a girl funny is just giving off major red flags

The joke is that it's a very exaggerated expression for something as little as a seatbelt.

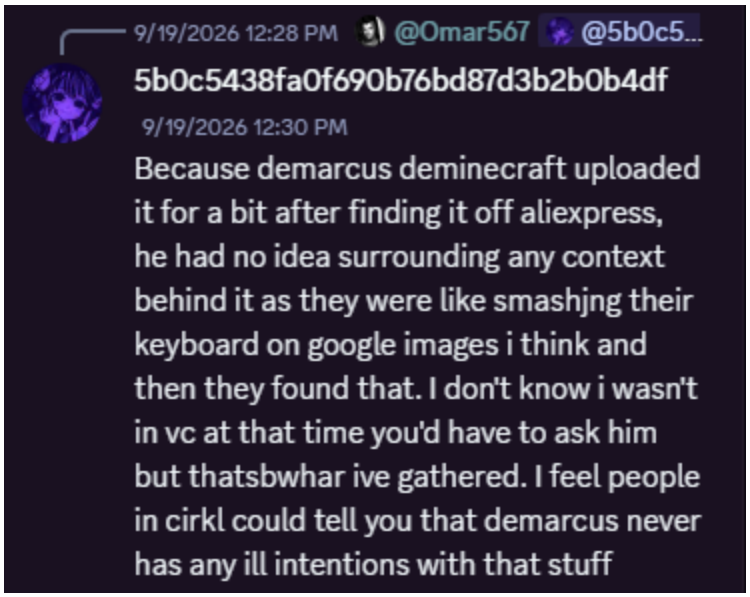
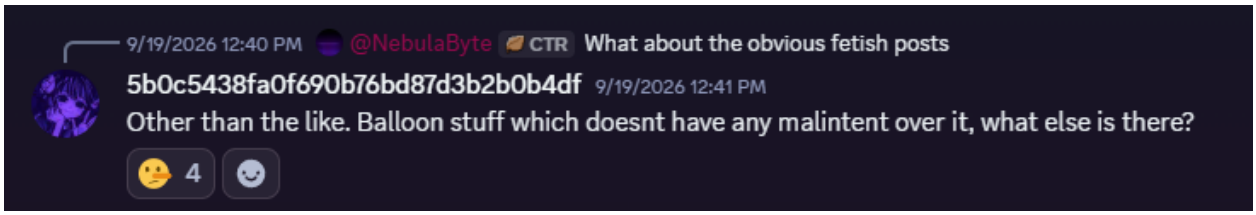
Mp3 defending a photo of a little girl photoshopped to have her tongue sticking out. Even after understanding the malice and harm behind the original photo, the assets with the photo is still up. Mp3 even admits here the item should be taken down.



Nilenta on an alt deflecting blame and defending the content because “the uploader had no ill intentions”.



Nilenta on an alt admitting that the balloon/pool toy items on Starfall are related to fetishes. They justify it by saying “there’s no malintent”.

FUN FACTS

DID YOU KNOW?

Tails, AKA Vista, is a member of Starfall. They are known for these screenshots:

@everyone
Hello, everyone. I want to write about Nilenta.
I'm sure, most of you know who she is. But, she is not a good person. She is manipulative and has hurt many of our community members. Please, if you can, do not interact with her at all. If you have her added please unadd her, remove her, do whatever.
There's been many callouts on her before, and yet she still remains within the orc and with friends.
She will never be welcomed here for what she has done, and she'll remain that way.
I was her friend for almost 5 years with her, it took me that damn long to realize with all the stuff she's done wrong with me and many more.
She continues to stick with bad people too, and doesn't seem to change at all.
With the way she is still racist and uses the n word.
Please, please, I implore you, block her. Don't let her come back.
Her accounts are reedxxl89 (1420211208337752155), 5b0c5438fa0f690b76bd87d3b2b0b4df (1426067579168096389), nilenta (314202875624685580), quantum_box (703042382488404008)
She'll probably make more alts, so just be on the lookout. (This should probably raise so many red flags with you that she needs to do this in the first place)

CONCLUSION

Or TLDR;

- Nilenta is a pedophile, does not care about the safety of their users on their ROBLOX Revival, Starfall, and has a history of lying about their age and overall being an online sex offender.
- Zanryth ERPs with users on Starfall as well as sends gore and NSFW in the Starfall Discord Server. They seem to love doxxing XIXi and his family in Starfall as well.
- Micro is a porn addict who has no respect for other people– they constantly push their fetishes onto others and make others uncomfortable. They harass people they do not like and are extremely impulsive and unstable.
- Mp3 harasses people they do not like on alts, as well as going so far to spread XIXi's dox by friending one of those alts. They are two-faced and cannot be trusted.
- Calones has been grooming the ORC for years, starting all the way from when they rehosted e621, a porn site. They are continuing to allow fetish content and doxxing on their platform, and even contributing to the doxxing themselves.
- Most Starfall users have been groomed to think that what the website, staff and owners are doing is okay.
- **DO NOT INTERACT WITH STARFALL. DO NOT INTERACT WITH ANY OF THE USERS MENTIONED IN THIS DOCUMENT.**

Thank you to all the users and victims who have brought forward this evidence. Your time and efforts are priceless.
