*Axon body worn camera footage exists for this incident report.

NARRATIVE:

On the date of 5-12-2025 at approximately 1840 hours, Chandler Police were dispatched to the report of a drowning incident at [redacted], Chandler, Arizona. The original call notes indicated the reporting party's son was in the pool. Call notes further advised that the son was unconscious, and not breathing. The son was reported to be three years old. The reporting party was advised to open the door for responding officers. Call notes indicated compression instructions were being given.

Upon being dispatched to the call for service, I immediately initiated my emergency lights and sirens on my fully marked patrol vehicle, and began to expeditiously drive to the incident location. Ofc. Jalomo #940 and I arrived on scene at the incident residence at the same time, and immediately ran towards the front door. A male would open the door for officers and then run inside.

As I entered into the residence, I observed a small male toddler lying motionless on the ground in between the couch and bar-stools in the living room. I would immediately run over to the toddler, who appeared to have a lack of color in his skin and unconscious. The toddler did not appear to be breathing, and I also observed a large wet spot on the ground around the toddler. I also observed what appeared to be vomit on the ground around the head region of the toddler. Upon reaching the toddler, I immediately began giving chest compressions to the toddler.

The male on scene who let officers inside was extremely distraught. The male subject would go and pick up an infant baby while I continued to give compressions to the unconscious toddler. Officers attempted to garner further information about the incident from the male. Officers were able to receive that the male subject had last seen the toddler approximately five minutes before the incident. While continuing to provide emergency aid, I observed the throw up on the ground around the toddler's head, and requested Ofc. Jalomo to verify if the toddler had an obstructed air way.

While continuing with emergency aid, I ascertained that I had potential further medical equipment in my vehicle that could possibly be of assistance. I coordinated with Ofc. Jalomo to transfer giving chest compressions while I returned to my patrol vehicle. I traded out with Ofc. Jalomo who began providing chest compression to the toddler, and ran to my patrol vehicle to obtain further medical equipment. Upon returning inside, it was advised that Chandler Fire and my supervisor were arriving on scene momentarily. While working through the equipment I obtained, Fire arrived on scene, so I redirected to outside to guide the fire department to the toddler. As Fire entered into the residence, I provided Firefighters with the information I obtained and observed while providing emergency aid to the toddler.

I would then return inside the residence, and clear out material belongings and furniture to provide Chandler Fire with a work space. I was directed to get a towel for the Firefighters, so I went to the nearest bathroom and provided Chandler Fire with one I located in a nearby bathroom. By this time my supervisor arrived on scene as well as other assisting officers. As other assisting officers took over the scene inside, I was advised to exit the residence by my superiors. I would then convene with my supervisors and provide

This is a copy of a Chandler Police report released pursuant to the Freedom of Information Act. Sensitive or personal information may have been redacted prior to the release of this report.

a synopsis of the incident and the information obtained on scene.

A short time later the toddler was transported by medical professionals away from the scene, to Chandler Regional Medical Center. I remained on scene to provide assistance to other officers until I was relieved by other Chandler Police Officers.

I was provided information by assisting officers, that the identity of the father is a Brady Kiser, which was confirmed through MVD records as the subject on scene when I arrived. The mother of the Child was advised to be a Emilie Henrichsen.

After being relieved of my duties on scene, I would conclude my current involvement in the incident. Other assisting officers would continue with their involvement in the incident, and conduct follow up as advised of.

The Chandler Police Criminal Investigations Bureau was notified of the incident, who would assume the investigation.

This report is listed as a Chandler Police assist to the Fire department informational report. This incident report will be used to document Chandler Police's response and assistance to the report of a toddler who had been found unresponsive in a pool at [redacted]

This report is meant to be a synopsis of pertinent events and is not a word for word transcript of the incident. For further information on the incident, please refer to other officers supplemental reports, and axon body worn camera footage.

The status of this incident will be open, pending further investigation. This incident report will be forwarded to the criminal investigations bureau for further follow up.

I have nothing further at this time.

CASE DISPOSITION: OPEN: Forwarded to criminal investigations bureau

Supplemental Narrative:

On 5/12/25 at 1922 hrs I responded to [redacted] to provide scene security until CIB arrived to investigate. While waiting on scene a cousin to the family who also [redacted] arrived and requested to gather some items for the newborn from inside the residence. I confirmed with LT Waters and we allowed [redacted] access to the home to gather some necessities for the newborn. I followed [redacted] through the residence as she gathered items then exited the residence and she proceeded to the hospital. I remained on scene and assisted CIB and the Evidence Tech while they conducted their investigation.

This concluded my involvement in this case.

Chandler Police Department report number: 2025-58064
Location: [redacted], Chandler, AZ [redacted]
Date: 05/12/2025

Investigative report:

On 05/12/2025 at 1945 hours, I was asked to assist Detective M. Rietz with a drowning investigation at [redacted] in Chandler. I contacted Lieutenant Z. Waters via telephone to discuss the case. I learned that at 1841 hours, a 911 call was received from [redacted] in Chandler. The male caller indicated that he had found his three-year-old in the pool, and he was currently unresponsive. Emergency personnel arrived on the scene and immediately transported the child to the hospital. All family members left the residence to be with the child, leaving nobody at the residence. The residence was secured as a crime scene, and nobody was permitted to enter the residence. It was requested that I author a search warrant to process the scene in this case.

I authored search warrant [redacted], which the Honorable Richard Baek granted at 2033 hours. I then responded to [redacted] to execute the warrant and process the scene. During this time, I was assisted by CST B. Fleck. The warrant was executed at 2106 hours, and overall photographs were taken. Upon entering the residence, you enter a small foyer area and then proceed west into a great room to the south and kitchen to the north. Between these rooms, I observed a wet t-shirt that was tan in color. Also present were a couple of dry blankets. On the tile floor where these items were located, I observed vomit. It was apparent that this was where the child was taken after being removed from the pool.

The residence had four access points leading to the backyard. They were as follows:

Large four-panel sliding doors:

These doors were located on the west side of the great room and led to the back patio. The main sliding door containing the locking mechanism was located on the north end. The handle measured between 33" and 37" from the floor. The locking mechanism measured between 38" and 41" from the floor. The door was unlocked and opened with little effort. The door was not self-closing or self latching. On this door, there was an alarm system. When the door opened, the alarm did not sound.

Breakfast nook door:

This door was an outward-opening glass door. The handle was a lever-style handle that measured 41" to 42" from the floor. The deadbolt measured 39" from the floor. This door was also equipped with an alarm. The alarm did not sound when the door opened. This door did not shut properly and did not lock. The door was not self-closing. It appeared to be malfunctioning at the time.

Master Bedroom door (south end of the residence):

This door was an outward-opening glass door. The handle was a lever-style handle that measured 42" to 43" from the floor. The deadbolt measured 39" from the floor. The door was not self-closing. This door was also equipped with an alarm. The alarm did not sound when the door opened.

Guest bedroom door (north end of the residence):

This door was an outward-opening glass door in the guest bathroom, which was attached to the guest bedroom. The handle was a lever-style handle that measured 42" to 43" from the floor. The deadbolt measured 38" from the floor. The door was not self-closing. This door was also equipped with an alarm. The alarm did not sound when the door opened.

Continuing Investigation:

Within the residence, I noticed a plate with pancakes on the sofa in the great room. A box of similar Belgian-style pancakes was located on the kitchen island. Next to the plate, there was a white handheld gaming system. It appeared that this was where the three-year-old child had once sat.

Between the kitchen and breakfast nook, I observed four bar stools. The stools were aligned in such a manner that it appeared they were placed to block access between the great room and the breakfast nook, where the outward-opening door was located. It was unknown whether this was on purpose or not.

I entered the backyard and noticed a large rectangular diving pool that measured 22' wide by 45' long. The deepest portion of the pool was approximately 102 inches deep (north end). There was a diving board at the deepest end of the pool. The shallow portion of the pool was located on the south end and was 38" deep. The middle area of the pool measured 77" deep.

On the west side of the pool was a hot tub that measured 7' wide by 7' long. The hot tub area was elevated above the pool, and there were stairs on the north and south sides to access this area. There was a seat on all four sides that was 19" deep. The floor of the hot tub measured 41" deep. The hot tub was built into the west side of the pool, with water being able to run into the pool. The temperature of the hot tub was 91 degrees.

On the east end of the pool was a large lounge area sometimes referred to as a Baja shelf. The depth of the water in this area was 17" deep. There were two steps leading onto the shelf (southeast end and northeast end). The depth of the steps was 5.5" deep. The pool temperature was measured at 81 degrees.

On the southwest portion of the pool, I observed large netting and a fabric top rolled up onto PVC carriers. These were covers for the pool that were not in use at the time. It was later learned that the covers were in place most of the time but were recently removed so the family could enjoy the pool. They were never replaced.

On the north end of the yard, there was a large inflatable slide in the grass area. There was a small amount of water in the basin. Throughout the backyard, I observed a large number of kids' toys. The toys were throughout the yard and even at the bottom of the pool and hot tub. No pool gate or barrier was in place at the time. As indicated above, safety netting identified as "Katchakid" was present but not in use.

After this warrant, a copy of the warrant was left on the kitchen table. Nothing of evidentiary value was seized. Only photographs and measurements were obtained. I exited the residence at approximately 2156 hours. All of my findings were relayed to Detective Rietz, who was at the hospital with family.

On 05/13/2025, I again assisted Detective Rietz with two additional search warrants. The first was written for Simple Systems LLC to obtain video surveillance from the house ([redacted]). On 05/13/2025 at 1106 hours, I emailed the warrant to Simple Systems LLC. I was contacted by Michael Wood with Simple Systems and informed that they did not have remote access to this data. They indicated that within the residence, there was an equipment rack in a closet near the garage. On this rack, there was a Network Video Recorder (NVR) that stored the requested data. They added that the homeowner would have access to the data on their electronic devices as well. It was reported that the data was stored on a 2TB drive identified with "HIK Vision" signage.

On 05/13/2025 at 1215 hours, I authored an additional warrant for the residence at [redacted] to be able to obtain this footage. Search warrant [redacted] was granted 1248 hours. On 05/13/2025, I assisted Detective Rietz with serving this search warrant at 1421 hours. With us at the time was [redacted] who was a family member of Emilie and Brady Kiser. After the warrant, a copy of the warrant was left with [redacted] This concluded my involvement in this case.

NARRATIVE

On 05/12/25, at 1841 hours, myself and Officer Kang #947 dispatched to [redacted] Chandler, AZ in reference to a drowning. Call notes stated the reporting party's 3 year old son was found in the pool.

Due to the son not breathing, we responded code three with lights and sirens. Upon arrival, the Chandler Fire Department had just arrived. We entered the residence with the fire department and I observed Officer Jalomo #940 doing CPR on the child. The fire department took over life saving measures. I then assisted the father gather items and take care of his infant child. Eventually the father and infant left with the fire department to go to the hospital. Myself and Officer Kang were then tasked with scene security at the house until we were relieved from the scene.

This concludes my involvement in this case.

*** Body worn video footage is available.***

NARRATIVE:

On 05/12/2025, at approximately 1841 hours, I was dispatched to a radio call of a drowning subject located at [redacted].

Comments of the call stated the reporting party's son drowned in their pool and was unconscious.

Upon my arrival, Officer Shank #889 also arrived at the location. The reporting party was at the front door yelling for Officer's assistance. As Officer Shank and I ran into the house, I observed a child lying on the floor with what appeared to be vomit next to him. The child was unconscious and not breathing.

I observed the RP/ father in a state of panic and concern for his child. The RP was pacing back and forth in the room where the child was at, while were checking on the child. Officer Shank began doing rescue compression on the child.

As Officer Shank was conducting chest compressions, I observed the rear siding door to be open. Outside of the door, was a dog charging towards the door. For the safety of the Officers and preservation of the scene, I attempted to close the door and lock out the dog. While attempting to close the door, the RP ran outside and picked up other his infant. The infant appeared to be unharmed and healthy.

The RP then told me his wife had just gone out with friends. RP also stated there was a five minute time gap that he did not know where his son was, to which I relayed this information to Chandler Dispatch to advise the Chandler Fire Department (CFD). Shortly after, the RP found his son in the pool and saw that his son was unconscious. The RP got his son out of the pool and contacted emergency services.

Once the RP was inside, I closed the rear door and locked out the dog. I then checked on Officer Shank. Officer Shank requested me to clear the child's airway, to which I did. Officer Shank then told me to take over chest compressions, as he went to his police vehicle to gather medical equipment. After coordinating the transition, I resumed chest compressions on the child. After a few rounds of chest compressions, I checked for a pulse on the child. However, I did not find a pulse and continued chest compressions. Officer Shank returned to the scene with equipment. As Officer Shank was getting the equipment ready, I

saw Sgt. Gonzales #S150 and the Chandler Fire Department arrive outside. The Chandler Fire Department arrived on scene and took over medical care of the child.

I then stepped outside and awaited for the child to be transported. Once CFD was ready, they transported the child to Chandler Regional Hospital for further medical assistance. I followed the ambulance to the hospital in my police vehicle. Once the ambulance arrived at the hospital, assisting Chandler Police Officers were at the hospital and stayed with the child. I was then relieved of my duties on scene and concluded my current involvement with this incident.

Please see Officer Shank's report for further information.

Investigative supplement
Case 2025-58064
Detective M. Rietz #846
Robbery/Homicide Unit

On May 12th, 2025, at 1840 hours Chandler Police and Fire personnel were dispatched to [redacted] for a reported drowning. The caller stated his son had drowned in the pool. The child was taken to Chandler Regional Medical Center by ambulance while an investigation started concerning the circumstances.

I was contacted by Sgt. K. O'Berry at 1945 hours and asked to respond. I was told by Sgt. O'Berry that a 3-year-old was in critical condition and being transported from Chandler Regional Medical Center to Phoenix Children's Hospital (PCH) via helicopter. Patrol officers had secured the residence, but at that time nobody was home because the family was at the hospital.

Based on the initial report I requested Detective N. Duncan to respond to [redacted] as the scene detective. I briefed Detective Duncan, and we agreed writing a search warrant would be prudent before examining the scene. See his report for more information about that scene investigation.

I arrived at PCH and learned more information from Officer A. Kararia. The 3-year-old victim was [redacted], who was home with his father Brady Kiser and 1 month old brother [redacted]. [redacted] mother, Emilie Kiser (AKA Emilie Henrichsen), was at a restaurant with some friends when the incident occurred. On scene, Brady said he last saw [redacted] about 5 minutes before the 911 call.

[redacted] arrived at PCH with Emilie, who had flown in the helicopter with him. There was a long period while doctors and nurses provided treatment, and Emilie sat in the hallway watching. Brady had not arrived yet, so I introduced myself to Emilie but did not attempt to interview her.

Brady arrived and the family was taken to a conference room nearby while [redacted] continued to get treatment. Due to logistical and space considerations in the Pediatric Intensive Care Unit (PICU), there was no place at that time to separate the parents. Emilie wasn't home when the incident occurred, so I asked her not to participate in the interview while I spoke to Brady.

Brady Kiser Statement

The conversation with Brady was audio recorded using my Axon body worn camera (BWC). I asked Brady to tell me about his whole day, starting from when he woke up. The following is a summary of Brady's statement, not an exact transcript. The interview has been uploaded to evidence.com.

Brady woke up around 7am and made breakfast for [redacted] before taking him to school. He stopped on the way home and picked up coffee for himself and Emilie.

After getting home Brady went to the gym for a workout. He then "did some stuff around the house" before it was time to pick up [redacted].

Around 2:15-2:20pm Brady left to pick up [redacted] and stopped at McDonald's on the way home. They arrived back home at 4:30pm and the four of them spent time at the house until Emilie left at 6pm to go out with friends for the night.

After Emilie left, Brady made [redacted] dinner as he fed [redacted] a bottle. [redacted] finished his dinner and went into the backyard.

Brady was "sitting on a back chair that pointed out to the back yard, out through the back windows because while I was holding [redacted], I wanted to be able to see [redacted]..."

[redacted] was seen in the grass area of the backyard near a blow-up slide/playhouse and Brady saw him "walk from that area in the grass up on the elevated portion where the hot tub was at. That was where I had seen him last."

After seeing [redacted] near the hot tub Brady "thought" he (Brady) went and got a drink. He then went back "to see where [redacted] at." Brady then went outside and saw [redacted] in the water.

He laid [redacted] on the ground, took his shirt off, and dove in the pool. After pulling [redacted] from the pool Brady carried him inside and laid him on the ground. There he started CPR, including breathing into [redacted] mouth. When he did that, [redacted] vomited water and food.

Brady said that this CPR activity and calling 911 all happened in the same moments.

When the police arrived, they took over CPR. Brady went outside, picked up [redacted], and was "thoroughly freaking out."

After [redacted] left in an ambulance Brady gathered a few things and then went to the hospital in a fire truck with [redacted].

I clarified that Brady knew [redacted] was outside. He told me "When he got up from eating to go outside, I said 'OK', you know, I was aware of it."

Brady again mentioned that he was watching out the back window, and said "I didn't have a clock, obviously, I don't know the exact time, but it was moments, it wasn't minutes it was moments, it wasn't that he had been out of sight for long."

I asked Brady about the "5 minutes" statement he made to patrol on scene. He said that he's told different people "3 minutes" or "5 minutes" but wasn't sure the exact timing, and said it wasn't very long.

Brady and I discussed the layout of the backyard, the elevated hot tub, and where [redacted] was found in the pool. He described finding [redacted] in the water below the elevated hot tub and diving across the pool to get to him.

It became clear that this elevated area around the hot tub is a common spot for [redacted] to play, and he plays in the backyard often. Brady said there were toys in that area and [redacted] plays in the backyard "...all the time, throughout the day with us, all day. He's out there with the dogs, he's in and out, it's what he does."

Brady described a "pool cover" the family has, but he didn't put it on because the pool service company was coming at noon on Tuesday, so he was planning on putting it on after the service. (This claim about the pool service was inadvertently verified by Detective Duncan and I on Tuesday May 13th when we were at the residence. The pool service was there servicing the pool.)

I asked Brady what he thought happened, and he said "I think just that, he was playing out back, he was wandering and playing about like he does, and must have slipped, must have you know, I think it was an accidental that he had fallen into the water obviously because he knows, he's safe, he knows he's not supposed to go around it..."

We talked about the surveillance cameras on the exterior of the house. Brady identified them as HIK cameras, a manufacturer of surveillance systems. How best to obtain the surveillance video was unknown that night, but Brady speculated that his surveillance company had remote access for the archived video.

Emilie Kiser Statement

Emilie left to meet friends at a "taco place" about 20 minutes from their house. She remembers arriving at the restaurant at 6:32pm because she was "a couple minutes late."

Brady called her and was "inconsolable" but told her "I needed to come home, and that [redacted] had fallen into the pool". Emilie immediately left, and her friend drove her to Chandler Regional Medical Center (in Emilie's car).

She then flew in the helicopter to PCH with [redacted] "after they got him stable."

Department of Child Safety

The Department of Child Safety (DCS) was contacted by staff at PCH, and an investigator with DCS's After Hours Investigation Team (AHIT) responded. Dana Johnson with AHIT arrived and I briefed her on the case facts and statements by Brady and Emilie. She requested to do her own interviews with them, and I sat in on those interviews, audio recording them with my BWC. They occurred approximately 2 hours after my interview.

The majority of those interviews were the same or very similar to what had already been reported. I will summarize any differences or new information. The entire interviews are available on evidence.com.

Brady recounted his day again and nothing changed in those details. After Emilie left, he described feeding [redacted] dinner and sitting next to him on the couch while feeding [redacted]. They were watching a basketball game on TV.

[redacted] got up from the couch and walked out the sliding glass door. Brady acknowledged [redacted] going into the backyard and told him to "stay close." He again stated [redacted] "walked over and was playing in the grass off to the side of the yard, and then I saw him walk up on to, it's kinda like an elevated platform...I had seen

him playing around up there, and at that point I have eyes on him."

Brady continued, "Once again I was feeding [redacted] a bottle and so I was in the middle of doing that while watching [redacted], and after a moment of being like, you know, I had seen him only a moment prior and I was like 'oh where is he', got up, walked out there, and immediately saw him in the pool..." Brady then described his rescue of [redacted] from the pool.

Dana asked how long it takes to feed [redacted], and Brady responded "15-20 minutes."

Brady estimated that [redacted] was outside for a total of "3 minutes" from the time he walked out the sliding glass door until he saw him in the pool. After giving the 3-minute time estimate he made the following statement: "I was home alone, I had both kids, and so I knew I needed to obviously be tending on both of them, so [redacted] wasn't ever out of my sight for long, but I mean." He abruptly ended that sentence there.

[redacted] swimming ability came up, and Brady reported that [redacted] been to some swim lessons and "knows how to kick his feet and swing his arms...but he's not proficient." Brady stated that [redacted] "knows not to go in the water without us."

After speaking with Brady, Dana interviewed Emilie.

Emilie didn't report anything new or different when she recounted the day from her perspective. However, the topic of [redacted] swimming ability came up again.

Emilie said that [redacted] has taken swim lessons, but "didn't fully know how to swim." She said [redacted] knew "how to swim to us and he knew how to climb the wall, but where he fell in there was no wall."

Emilie said [redacted] will play on the Baja step in the pool while being watched but doesn't go in the pool unsupervised. She then mentioned "we usually have a net on the pool." This detail was mentioned in the original interview, but Emilie elaborated that the net was called a "Katchakid". She told Dana "We were swimming as a family the last couple of days, so we didn't put it back on yet."

Shortly after the AHIT interview I left PCH. At that time, it was the early morning hours of May 13th, and [redacted] remained in critical condition in the PICU.

Surveillance Video

[redacted]

[redacted]

[redacted]

[redacted] **Medical Treatment**

[redacted]

[redacted]

The Maricopa County Office of the Medical Examiner took custody of [redacted] body, and an external exam was performed on May 21st at the Medical Examiner's Office.

Records were obtained from both CRMC and PCH and added to the case file.

[redacted]

The PCH medical file is 1521 pages long. There is no need to summarize the complete report, as it is available in this case file. A few notable entries include the following information.

[redacted]

The shorter CRMC report is attached to this case file, and the much longer PCH report was uploaded to evidence.com.

Brady Kiser Second Interview

Due to the discrepancies between Brady's initial statement on the night of May 12th and what was seen on the surveillance video, I asked him to come in for a second interview. Brady agreed and came to the Chandler Police Department on June 16th accompanied by his attorney Flynn Carey.

The interview was recorded and uploaded to evidence.com. The following is a summary of what was discussed.

I began the interview by asking Brady to describe in detail everything that happened from the moment

Emilie left the house until he saw [redacted] in the pool. Brady made the following statements:

Emilie left the house at 6:10pm. Brady had been preparing to feed [redacted] by thawing breastmilk.

After Emilie left, Brady, [redacted], and [redacted] were in the living room and Brady "began the process of feeding" [redacted]. [redacted] asked Brady to make him mini pancakes, and the two of them cooked the pancakes in the microwave.

[redacted] sat on the couch eating while Brady fed [redacted]. Brady stated that he "never set [redacted] down, from the moment that Emilie left till I went out and saw [redacted] in the water, I never set [redacted] down."

After he ate, "[redacted] went out the back door, and I had seen that, and I looked out to try and locate him and seen him, and I returned to feeding [redacted]."

Brady said he was focused on his "5-week-old baby" because he was feeding him and [redacted] was getting sleepy. He told me "After I located [redacted], I returned to feeding him and doing all the things I just explained."

Brady looked outside and saw the dog looking in the pool and had a "poor feeling as soon as I saw it, it was out of the ordinary to see him standing there looking in the water as he was, so I had stood up and I immediately went out there..."

I asked Brady about his statement that he "looked out" when [redacted] first went outside, and what he saw. He claimed he saw [redacted] "...off in the grass" by the diving board. I challenged Brady about that statement because [redacted] never went into the grass area. He responded "that's my best recollection of that..."

I stressed that what he was telling me and what was on the video are different. Brady responded by saying "I truly have nothing that I'm trying to withhold or hide in any way, shape, or form. All I've ever tried to do is recount, to the best of my ability, what occurred."

He recognized that he doesn't know exactly what happened with [redacted] outside and again stressed that he was "watching his kids" but at that time was "focused on [redacted]"

We spoke for several minutes about the amount of time [redacted] was outside (about 10 minutes) and what Brady was doing during that time. He insisted that he wasn't on his phone, and even though the basketball game was on the TV, "it's not where my focus was, it was on my baby."

(For the record, the game that was on the TV was Game 4 of the Knicks and Celtics. It was still on the TV when officers arrived and can be seen on BWC.)

I went over several of the discrepancies between Brady's initial statement and what actually happened. I mentioned Brady's claim that the last place he saw [redacted] was playing on the hot tub platform and told him "that's impossible". Brady responded "...that part was once again, me trying to recall anything and everything, and obviously I had seen him up there other times before, so I think it was truly me trying to offer up as much information as I possibly could."

Brady asked for the details of what [redacted] did when he went outside, and I told him. After I gave him the

details, I told him that he had previously stated he was sitting in the chairs that look out toward the backyard, but he wasn't sitting there (those chairs are visible on Camera D06). He responded, "I was sitting on the couch." After being prompted by his attorney, he described sitting on the west side of the couch facing the TV with the sliding glass door to his right.

Later in the conversation I asked for details about [redacted] going outside. Brady had previously stated that he knew [redacted] was outside, so I asked for details about the interaction before [redacted] went outside.

Brady said "there wasn't much to it. He loved to be outside, he loved to play outside, and so in my mind it was, you know, just that of him going and doing as he routinely had other times going out to play, the difference was I was the only parent home." He claimed that he usually goes out with [redacted] when Emilie is home.

He then stated, "I thought, honestly, that it was harmless for him to do that because it was not per se out of the ordinary." He reiterated it was common for [redacted] to go into the backyard, but a parent usually accompanied him.

Brady said the Katchakid was regularly on the pool, except when they were using the pool, or every other Tuesday when the pool service (Puddle Jumpers) comes.

I asked how often [redacted] goes outside unsupervised and Brady claimed, "It's definitely not the norm, but there had been times when he would be outside, I don't have an exact answer for you but it's definitely not the norm to be outside unsupervised."

As the interview was concluding I asked Brady if there was anything else he could remember about the ten minutes [redacted] was outside. He told me he didn't remember where the swaddle was, or if he had to go to [redacted] room to retrieve it.

As we were wrapping up, I told Brady "It's clear that for ten minutes you didn't look outside." His attorney asked "why do you say that" I told them that [redacted] was next to the pool for two minutes and then trying to swim for two more minutes. Brady lowered his head when I told him, and eventually said he's "only tried to recall and recount my experience of it..." He stressed several times that he's doing his best to be open and honest, and there "was no outside distraction other than my newborn baby..." He then stated that he was "connecting with my newborn baby."

Conclusion

This tragic incident was the result of [redacted] being in the backyard unsupervised while playing around the unsecured pool and unable to swim. It is clear from the video that he did not go into the water intentionally, rather he tripped and fell in while playing with an inflatable chair. [redacted] was in the backyard from 18:29:42 hours until Brady found him in the pool at 18:39:00 hours. He was in the water from 18:32:15 until 18:39:07.

It is clear Brady's attention was divided, and he was not watching [redacted] at all during the critical times mentioned. During two interviews he did not know what [redacted] was doing before he fell in and did not see [redacted] struggling to swim.

No evidence suggests that Brady saw [redacted] in the pool and failed to act. On the contrary, he acted immediately when he saw him, leaving his infant swaddled on the ground in the patio area.

Arizona Revised Statutes defines "criminal negligence" as: *with respect to a result or to a circumstance described by a statute defining an offense, that a person fails to perceive a substantial and unjustifiable risk that the result will occur or that the circumstance exists. The risk must be of such nature and degree that the failure to perceive it constitutes a gross deviation from the standard of care that a reasonable person would observe in the situation.*

The relevant portion of ARS 13-3623 defines child abuse as: *...or permits a child or vulnerable adult to be placed in a situation where the person or health of the child or vulnerable adult is endangered is guilty of an offense...*

Based on the case facts, I will be submitting the case to the Maricopa County Attorney's Office for a review of violating ARS 13-3623.A.3, child abuse with criminal negligence (C4F).

This conclusion is based on several factors. Brady knew the pool net was not on the pool. He knew [redacted] was in the backyard and didn't know how to swim. According to video evidence, [redacted] was in the backyard unsupervised for more than 9 minutes, and in the water for about 7 of those minutes. Brady's statements do not match what is seen on the video; he did not accurately describe one thing [redacted] did after he went outside. This leads to the conclusion that Brady was not aware of what [redacted] was doing and was not watching him. The combination of these factors led to [redacted] drowning, and a remedy to any of the contributing circumstances could have prevented the outcome.

BWC was activated for my involvement in this investigation

On 05/12/25 at 1841 hrs, I was working as a patrol supervisor wearing full uniform and driving a fully marked patrol vehicle. On that date and time I responded to [redacted] for a report of a 3-year-old boy who was found in the pool by his father. I responded with lights and sirens to the residence from the area of Queen Creek and Gilbert Rds.

As I was arriving on scene at 1846 hrs, Chandler Fire Department members were behind me. I entered the residence and contacted Ofcs. Shank #889 and Jalomo #940, who were in the process of transitioning emergency medical care efforts to the fire department. I observed the 3-year-old child on his back on the tile floor inside the residence, between what I could best describe as the kitchen and living room areas. The child was shirtless, wearing shorts, and his skin was pale and lips were blue. ON the floor next to him was light colored vomit and water.

As Ofc. Ohland #834 and her trainee Ofc. Kang #947 arrived on scene, I directed them to remain inside while I asked Ofcs. Shank and Jalomo wait outside. By this time the child was being transported to the hospital along with his father and baby brother.

I advised Lt. Waters of the known incident details to that point, at which point detectives were contacted to take over the investigation.

I then cleared from the scene and had no further involvement.

This report contains BWC to record a telephone conversation.

This is supplemental report to the original case: 25-58064.

Case agent: Detective Rietz #846.

NARRATIVE:

Under DR 2025-60748, Chandler PD received a message from Savannah Martini, who is a social worker at the hospital, at 05/18/2025 at 1604 hours. Using my department issued cell phone, I spoke with Savannah on the telephone at 1634 hours. Savannah's phone number is 602-933-7174.

Savannah stated the time of death for [redacted] was 1500 hours on 05/18/2025. The provider at the hospital who called time of death was Bair Diamond, 602-933-8610.

This concludes my involvement in the case.

DISPOSITION:

Pend to case agent.

2nd Investigative supplement
Case 2025-58064
Detective M. Rietz #846
Robbery/Homicide Unit

This report is intended to summarize three search warrants concerning Brady Kiser's cell phone activity on May 12, 2025. [redacted] was written to Apple, Inc for the iCloud account related to phone number [redacted], [redacted] was written to Verizon for the same number. [redacted] was written to DraftKings, Inc based on information obtained from Verizon. The phone number in question was identified by Brady as his cell phone number on May 12th.

[redacted]
The search warrant to Apple was submitted to the company on June 11th. Apple returned a significant quantity of data from the iCloud account associated with [redacted]. One account was identified by "Apple ID" [redacted] and had its iCloud settings set to back up with a retention of "forever". This account had a recorded creation date of 12/25/2012, and the following features recorded:

[redacted]	iCloud Backup (iOS Devices)* Yes
[redacted]	Bookmarks* Yes
[redacted]	Calendars Yes
[redacted]	iCloud Photos* Yes
[redacted]	Contacts Yes
[redacted]	Find My Friends Yes
[redacted]	iCloud Drive* Yes
[redacted]	iCloud Reminders* Yes
[redacted]	Mail No
[redacted]	Mail Header No
[redacted]	Maps No
[redacted]	Messages in iCloud* Yes
[redacted]	Notes* Yes
[redacted]	Safari Browsing History No
[redacted]	Sign in with Apple Yes

The extraction of the data indicated that there were 7,235 "chats" and 28,599 "instant messages" recorded in the data. However, the last message recorded in the data was on 5/6/2025. Photos were recorded on May 7th, May 8th, and May 9th. The only data recorded in the iCloud account after May 9th were calendar entries. The only recorded data on May 12th was a calendar entry: Take out recycling. Calendar entries continue until May 28th, and after that date no data is available.

A second iCloud account was returned based on the phone number provided in the warrant. This second account was identified by "Apple ID" [redacted] with the creation date 6/6/2025. The following

features were recorded with this account:

iCloud Backup (iOS Devices)*	No
Bookmarks*	Yes
Calendars	Yes
iCloud Photos*	Yes
Contacts	Yes
Find My Friends	No
iCloud Drive*	No
iCloud Reminders*	No
Mail	No
Mail Header	No
Maps	No
Messages in iCloud*	Yes
Notes*	Yes
Safari Browsing History	No
Sign in with Apple	Yes

The only data returned with [redacted] was a log of messages, but no message content. That log starts on May 18th and continues through June 11th.

Other than the calendar entries, no data for May 12th was found on either account.

The "" symbol shown next to several categories in the list of features had the following description in both accounts: *Indicates iCloud features where, based on user settings for Advanced Data Protection, data may be stored with end-to-end encryption where encryption key is managed on user device(s) and Apple would not have the encryption keys.*

[redacted]

A preservation request was sent to Verizon on May 14th, and a search warrant was submitted to the company on June 11th. Verizon returned data for activity on May 12th, 2025, concerning phone number [redacted]

The account owner was identified as "Emilie Gamble Henrichsen" with two emails: [redacted] and [redacted]. The effective date was listed as 12/28/2023.

Phone calls were split into two categories, 4g_VoLTE and 5g-Core-Voice. The only item listed in the 4g category was a 911 call at 0140 hours on 5/13/25 GMT (1840 hours on 5/12/25 Arizona Time). 5g calls were listed in "local time" and include several calls between 1435 hours and 1554 hours. Then there are calls listed from 1846 hours until 2049 hours. Calls at 1846 and 1847 hours are outgoing to [redacted] which had been identified as belonging to Emilie.

Verizon returned both short message service (SMS) and multimedia messaging service (MMS) data. There were 16 SMS messages recorded, and 2 MMS messages recorded on May 12th. The last message in the data was at 1701 hours.

Verizon captured content for a few of the SMS messages. At 1631 hours the device received a message from 41479 with the following content: *Your DraftKings verification code is 666938*.

At 1701 the following was received on the device from 227898: *Hi, it's Capital One. Did you just try to make this purchase with your Platinum Card ending in 7408? RAISING DOG Declined $54.00 Text back yes or no*.

[redacted]

The basketball game on the television when officers arrived was game #4 of the NBA playoff series between the Boston Celtics and the New York Knicks. Brady mentioned this game in the first interview and was specifically asked about his interest in the game during his second interview.

The broadcast for that game had a listed start time of 1630 hours Arizona Time, according to open-source records. The Verizon records show a correspondence with the online sports betting company DraftKings very near the start of the broadcast. [redacted] was written for clarification of Brady's activity with DraftKings on May 12th.

The search warrant was submitted to DraftKings on July 7th, and they responded with two electronic files on July 11th. Specifically, two Microsoft excel files were received from the company.

The first file, titled *Copy of Kiser_5.12.25_Wagers.xlsx* contained a single line. It indicated that a $25 wager was placed on Jayson Tatum scoring more than 40 points (Jayson Tatum is a player on the Boston Celtics). That wager was a winner, paying $102.50. This wager was placed at 20:14 hours Eastern Time (17:14 hours Arizona Time). The 20:14 time stamp is listed in the file without a time zone identifier. I emailed Melissa Hogan, Senior Paralegal with DraftKings, asking her about the time zone for that entry. She confirmed that 20:14 was Eastern Time in an email response.

The second file, titled *Copy of BRADY KISER - UID 16396679.xlsx* was password protected and the password [redacted] was provided via email. This file included 4 tabs, identifying Brady Kiser with email [redacted] as the account holder. The phone number listed on the account was [redacted]. The second tab is labelled "Deposits" and contains a record of a $150 deposit being made to the account on May 12th at 20:12 Eastern Time (17:12 Arizona Time).

The third tab in this file is labeled "Withdrawals" and contains a single line that reads *NONE*. The fourth tab is labeled *Geolocation, IP*. There is a single line in this tab with several data points, including IP address, Timestamp, Latitude, and Longitude. The timestamp is listed at 5/12/2025 23:31, but again the time zone is not identified. I did not notice this time zone was missing when I emailed DraftKings for clarification on the time zone for the wager. However, if this time was UTC it would correspond with the text message seen on the Verizon records. If this time zone was Eastern Time Brady would have been at the hospital. The latitude and longitude, 33.2276001, -111.801857, placed the activity at the Kiser residence.

This supplement will be added to the case file, and the case status remains - pending submittal.

Alias(es) _____

A. GENERAL INFORMATION

Name(s) of victim(s) [redacted]
Charges: 13-3623.A.3
Offense Date: 5/12/2025 Offense Time: 1629 Offense Location: [redacted]
Arrest Date: N/A Arrest Time: N/A Arrest Location: N/A

Pursuant to A.R.S. §41-1750, were ten-print fingerprints taken of the arrested person? __ Yes ✔ No

B. PROBABLE CAUSE STATEMENT

Summarize and include the facts which establish probable cause for the crime(s) for which the defendant is booked or is charged. Certain felonies may be non-bondable and require facts which establish proof evident or presumption great for the crime(s) charged. These include (1) felonies involving a capital offense, and (2) felony offenses committed when the person charged is released on a separate felony charge.

Explain the crime(s) in detail (e.g., arresting officer or other law enforcement officers witnessed offense, physical evidence directly connects defendant to offense, multiple eyewitnesses, defendant admissions, victim statements, nature of injuries, incriminating photographic, audio, visual, or computer evidence.) If the offense involves either drugs or DUI, include results of any field or laboratory testing and the quantity or weight of drugs, if known.

See addendum

C. DEFENDANT INFORMATION ☑ See PC Addendum

1. Defendant's DOB: [redacted]
2. Defendant's **residential** address [redacted]
   With whom: Emilie Kiser, [redacted] How long: 6 months Phone: [redacted]
   Defendant's **mailing** address _____
   Alternate address for court notification, include post office box: _____
   __Unsheltered Email address for court notification: _____
3. Defendant is employed by: Self employed How long? _____ Phone: _____
   Address: _____
4. Has the defendant served in the Military Services of the United States? __Yes ✔ No

D. MENTAL, PHYSICAL HEALTH AND SUBSTANCE ABUSE

1. There is an indication of: __Alcohol Abuse __ Mental Health Issues __Developmental Disability
   __Other substance abuse __Physical Illness/Physical injury __Suicidal Ideation
   Explain: _____
2. Defendant was under the influence of alcohol or drugs at the time of the offense __Yes ✔ No __Unknown

E. OTHER INFORMATION (Check if applicable)

1. ☐ Defendant is presently on probation, parole or any other form of release involving other charges or convictions.
Explain: _____
2. ☐ The crime(s) occurred while the person was on release for any other felony.
3. List any prior:

ARRESTS Date and offense, if known	CONVICTIONS Date and offense, if known	FAILURE TO APPEAR (FTA) Date and offense, if known

4. Facts to indicate the defendant will not appear for future court proceedings: N/A
5. State whether money or other property was seized ☐ Yes ☑ No Amount: _____
6. ☐ Defendant speaks a language other than English Language spoken: _____
☐ American Sign Language ☐ Defendant requested an interpreter
7. The person entered or remained in the United States illegally. Explain in detail (e.g., admission of or by the person, statements of co-defendants at the time of arrest, verification of illegal presence or proceeding establishes illegal presence): N/A

F. CIRCUMSTANCES OF THE OFFENSE

Defendant:

1. ☐ used firearm or other weapon. Type: _____
2. ☐ was armed when arrested. Type: _____
3. ☐ threatened someone. Nature of threats: _____
4. ☐ caused physical injuries. Nature of injuries: _____
5. The offense involves a child victim? ☑ Yes ☐ No If yes, was DCS notified? ☑ Yes ☐ No
6. If a property offense a. Value of property taken/damaged: _____ b. ☐ Property was recovered
7. ☐ attempted to: ☐ Flee ☐ Avoid arrest ☐ Resist arrest ☐ Self-surrender Explain: _____
8. Names of co-defendants, if any: _____

G. CRIME(S) AGAINST PERSONS

1. Relationship of defendant to victim: Father
2. ☑ Victim(s) and defendant reside together
3. Law enforcement learned of the situation by ☐ Victim
Third party ☐ Officer observation
4. Previous incidents involving these same parties.
Explain: _____
5. Defendant is the subject of:
Current Order of Protection
Prior Order of Protection
Injunction against Harassment
Lifetime Injunction (A.R.S. § 13-719)
Other court order: _____
6. Likelihood of inappropriate contact with victim(s).
Explain: Victim is deceased
7. ☐ Victim(s) expressed an opinion on defendant's release. Explain: _____

H. DOMESTIC VIOLENCE DEFENDANT ISSUES

Access to or use of weapons
Children/Vulnerable adults present
Crime occurred in public
Control/ownership/jealousy issues
Depression
Frequency/intensity of Domestic Violence increasing
Harassing behavior
Kidnapping
Prior history of Domestic Violence
Prior Protective Order
Recent separations
Stalking behavior
Strangulation
Threats of homicide/suicide/bodily harm
Violence against children, vulnerable adults or animals

Explain: _____

☐ Lethality Assessment included

If this is a fugitive arrest, complete the affidavit as required by the Uniform Criminal Extradition Act (ARS § 13-3841 et seq.)

I certify that the information presented is true to the best of my knowledge:

Defendant's NAME Brady Kiser **DOB** [redacted] **BOOKING NO.** _____ **CASE NO.** 2025-58064

I. PROBABLE CAUSE STATEMENT ADDENDUM:

1. This page to be used only when the PC statement is to large for the space provided on page #1. DO NOT print this page when it is not used.

On May 12th, 2025 at 1832 hours 3-year-old VICTIM drown in a pool at his residence, [redacted] in Chandler. At that time he was under the care of his father, Brady Kiser. Brady was also caring for his other son, who was 5 weeks old.

Prior to the drowning, Brady had fed VICTIM dinner and knew that VICTIM had gone outside. The pool was unsecured, and it was known to Brady that VICTIM did not know how to swim.

Video evidence shows that VICTIM was outside for more than 9 minutes before Brady checked on him. About 2 minutes and 30 seconds after exiting the house, VICTIM trips and falls into the pool from an elevated platform. [redacted]

In two separate interviews Brady insisted that he was not distracted by anything other than his 5 week old. He made conflicting statements about where he was sitting, but in his second interview he said with conviction that he was sitting on the couch facing the television.

Brady was unable to describe what VICTIM did when he went outside and was surprised when told what was seen on surveilance video. It became clear to this investigator that VICTIM was not being watched at all until Brady checked on him at 1839 hours, more than 9 minutes after intially going outside.

Based on the inherent danger of an unsupervised 3-year-old alone by an unsecured pool this case is being referred to the Maricopa County Attorney's office for a review of 13-3623.A.3 (C4F).

RESULTS / INTERPRETATIONS

On 05/12/2025, at approximately 2049 hours, I was dispatched to [redacted] in reference to a drowning report.

Upon my arrival, at approximately 2104 hours, I met with Detective Duncan, #443, who requested that I take photographs of the scene.

The residence was a single-story home with its entry facing east. The backyard, with an ungated pool and hot tub, was on the west side of the residence. There were four (4) access doors to the backyard which included a door in the bathroom connected to the northwest corner bedroom, a door in the master bedroom on the southwest corner of the home, a large sliding door on the west side of the home in the living room, and a door near the large sliding door in the dining area.

Photographs of a measuring device, a measuring tape, and a thermometer were taken at the direction of Detective Duncan.

Two hundred fifty-eight (258) digital photographs were taken at this time.

This location was cleared at 2203 hours.

The photographs were uploaded to Chandler Police Department's digital image management system .

End of supplement.

RESULTS / INTERPRETATIONS

Apple Cloud Data Acquisition Report

Michael Smith
Chandler Police Department
Digital Forensics Unit
General Offense Report #: CH 2025-58064
Case Type: Drowning
Case Agent: Detective Reitz #846

On 6/16/2025, I received a verbal request from Detective Reitz for assistance with acquiring Apple user account cloud data pursuant to legal processes. Detective Rietz provided me with the information required to complete the data acquisition, including a download link and a password to decrypt the downloaded files.

I accessed the download link provided to me, whereupon I downloaded the file named "202501158011_production_20250616181553" referenced by the link. I utilized Apple Warrant Return Assistant on forensic computer to decrypt the downloaded file then decompressed this decrypted file to a folder.

Within the directory of downloaded files, I observed that data for the following user account(s) had been retrieved:

Michael Smith, 20988
Digital Forensic Examiner

CHANDLER POLICE DEPARTMENT

250 East Chicago Street, Chandler AZ 85225
480-782-4500

FORENSIC EXAMINATION REPORT

[redacted]

I loaded the data for the user account(s) listed above into Cellebrite Physical Analyzer v7.71.0.42, which I used to generate a comprehensive report (for each user account) in UFDR format, which can be viewed using Cellebrite Reader. I then collected the Cellebrite report(s), the original downloaded files, and associated log files into a report directory, which I then loaded onto Detective Rietz's portable hard drive.

I utilized the following forensic computer(s) during this process:

Forensic Workstation, Thermalake S/N [redacted]

All notable data acquired and processed during my involvement in this case will be retained by the Chandler Police Department Digital Forensics Unit in the network-attached storage and/or tape archives within this office and will be available upon request.

Michael Smith, 20988
Digital Forensic Examiner
