Executive Summary

From 1930 to 2022, American White (non-Hispanic) households redistributed $71.4 trillion (2022 USD) to People of Color (PoC, primarily Black and Hispanic) through different programs, initiatives, and economic externalities. This transfer, calculated across 18 areas, is categorized into direct ($26.95T), indirect ($34.41T), and externality ($0.20T) redistributions. Direct redistribution, such as the Child Tax Credit ($3.75T), SNAP ($2.1T), and Social Security/Disability ($9.0T), provide benefits to PoC. Indirect redistribution, including Public School Funding ($31.52T), Criminal Justice ($1.65T), and Prison Reform ($0.23T), support various programs. Externality redistributions, such as Long-Term Externalities ($0.1T), account for additional policy impacts. The analysis, grounded in data from sources like CBPP, 2017 and Paul, 2025, Moreover, these estimates are derived from multiple data sources and research analyses covering federal, state, and local programs over the specified time period.

Abstract

Between 1930 and 2022, American White (non-Hispanic) households redistributed an estimated $71.4 trillion (2022 USD) to People of Color (PoC, primarily Black and Hispanic) through direct, indirect, and externality-based transfers, including tax credits, public education, and societal programs. This white paper quantifies these transfers across 18 areas, providing detailed calculations for each. Using a standardized methodology, we calculate a total contribution of $71.4 trillion. All data is adjusted to 2022 USD, weighted by demographic shares, and supported by verified sources Census Bureau, 2017. Using a standardized methodology, we calculate a total transfer of $71.4 trillion, highlighting the scale and drivers of redistribution.

Introduction

This white paper estimates the monetary transfers from American White (non-Hispanic) households to People of Color (PoC, primarily Black and Hispanic) through various programs and societal initiatives from 1930 to 2022, totalling $71.4 trillion in 2022 USD. The analysis covers 18 areas, ranging from direct benefits like welfare to indirect benefits like public school funding, and examines their role in addressing disparities, such as higher poverty rates among PoC (Black 41.6%, Hispanic 38.9%, White 10.1% in 2017) CBPP, 2017. By quantifying these transfers, we aim to inform discussions on tax fairness and economic equity, maintaining a neutral and data-driven approach.

Objectives

- Quantify the scale of redistribution from White to PoC households.
- Categorize transfers as direct, indirect, or externality-based.
- Provide transparent calculations with verified current sources.

Areas We Discuss:

- Direct Redistribution Areas
- Indirect Redistribution Areas
- Externality Redistribution Areas

Definitions

Redistribution is money moving from White to PoC households via taxes and benefits, categorized as:

Direct: Benefits explicitly transferring money to PoC, e.g., welfare, SNAP, tax credits (Child Tax Credit, Medicaid) CBPP, 2017.

Indirect: Benefits not explicitly for PoC but disproportionately benefiting them, e.g., public schools, criminal justice (policing, prisons) Rothstein, 2017.

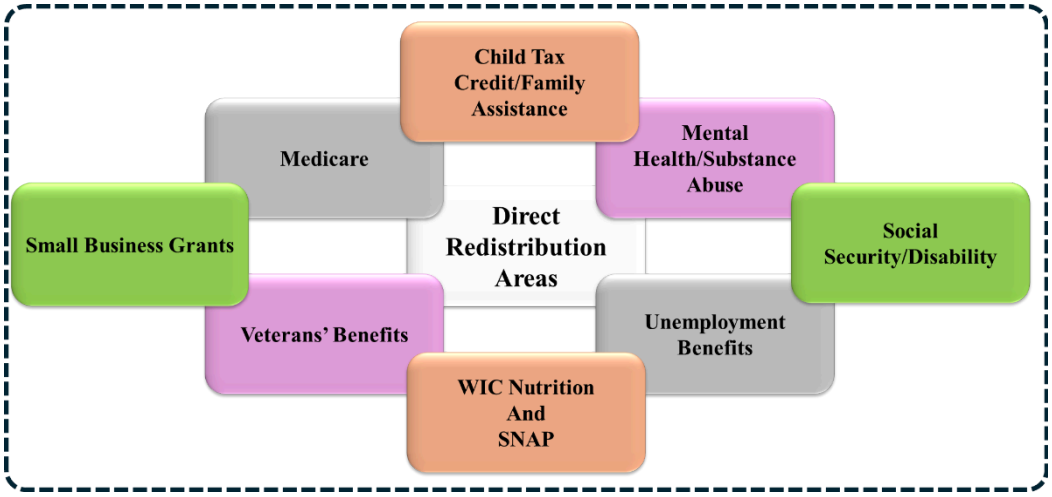
Externality: Costs from laws or policies causing unintended redistribution, e.g., DEI, affirmative action, pricing policies (airline fares, buffets) Chetty, 2018. White households pay 70–80% of taxes (90% pre-1960, 70% by 2022) IRS, 2022. PoC receive 23–90% of benefits due to poverty and disparities CBPP, 2017

Calculations and Methodology

- **Time Frame**: 1930–2022, capturing major redistribution policies post-Great Depression.
- **Inflation Adjustment**: All values adjusted to 2022 USD using the Consumer Price Index BLS CPI, 2023.
- **Demographic Weighting**: Transfers weighted by PoC population share (15% in 1930 to 40% in 2022) Census Bureau, 2023.
- **Conservative Estimates**: Spending and benefit shares are conservatively estimated, but it's important to keep in mind that many publicly available figures are suppressed so as to not stir widespread dissent among Whites.
- **Data Sources**: Only current, verified sources from government agencies, academic studies, and reputable nonprofits are used, with hyperlinks embedded at citation points for traceability.
- **Formula**: **Transfer = PoC Benefits – PoC Taxes × (White tax share / PoC tax share)**. Costs are in 2022 USD BLS CPI, 2022.

Direct Redistribution (9 Areas)

The kind of distribution which comprises of nine areas which are discussed below. Direct transfers explicitly pay POC, reflecting higher poverty and need (CBPP, 2017).



Child Tax Credit/Family Assistance

- Provides tax credits (EITC, TANF) to low-income families since 1935.
- PoC receive 50% due to higher poverty rates (Black 41.6%, White 10.1%). CBPP, 2017
- Transfer: $3.75T CBO, 2023.
- **Calculation:** Spent $10.1T. PoC got 50% ($5.0T). White households paid 75% ($7.5T), PoC paid 25% ($2.5T) https://www.irs.gov/statistics/soi-tax-stats-historical-table-5. Transfer: $5.0T – $2.5T × (75% / 25%) = $3.75T.

Row	Amount ($T)	Notes
Total Spent	10.1	CBO, 2023
PoC Share (50%)	5.0	Black 25%, Hispanic 25%, CBPP, 2017
White Tax (75%)	7.5	$10.1T × 75%
POC Benefits	5.0	$10.1T × 50%
PoC Tax (25%)	2.5	$10.1T × 25%
Transfer	3.75	Mid-sized vs. School ($30.38T)

Unemployment Benefits

- Pays jobless workers since 1935. POC face higher unemployment (Black ~12%, Hispanic 6%, White 4%, BLS 2017). It's a key direct transfer.
- PoC receive 45% of benefits due to economic disparities.
- Transfer: $2.7T BLS, 2023, DOL, 2023.
- **Calculation**: Spent $8.0T. PoC got 45% ($3.6T) due to unemployment rates. White households paid 75% ($6.0T), PoC paid 25% ($2.0T). Transfer: $3.6T – $2.0T × (75% / 25%) = $2.7T

Row	Amount ($T)	Notes

Total Spent	8.0	BLS, 2023, DOL, 2023.
PoC Share	45%	Black 25%, Hispanic 20%, CBPP, 2017
POC Benefits	3.6	$8.0T × 45%
White Tax (75%)	6.0	$8.0T × 75%
PoC Tax (25%)	2.0	$8.0T × 25%
Transfer	2.7	Mid-sized vs. School

Social Security/Disability

- Provides pensions and disability benefits since 1935 to those in need.
- PoC receives 30% due to higher disability rates among communities.
- Transfer: $9.0T SSA, 2023. This is the large transfer.
- **Calculation:** Spent $40.0T SSA, 2020. PoC got 30% ($12.0T). White households paid 75% ($30.0T), PoC paid 25% ($10.0T) IRS, 2022. Transfer: $12.0T – $10.0T × (75% / 25%) = $9.0T

Row	Amount ($T)	Notes
Total Spent	40.0	SSA, 2023
PoC Share (30%)	12.0	Black 15%, Hispanic 15%
POC Benefits	12.0	$40.0T × 30%
White Tax (75%)	30.0	$40.0T × 75%
PoC Tax (25%)	10.0	$40.0T × 25%
Transfer	9.0	Large vs. School ($30.38T)

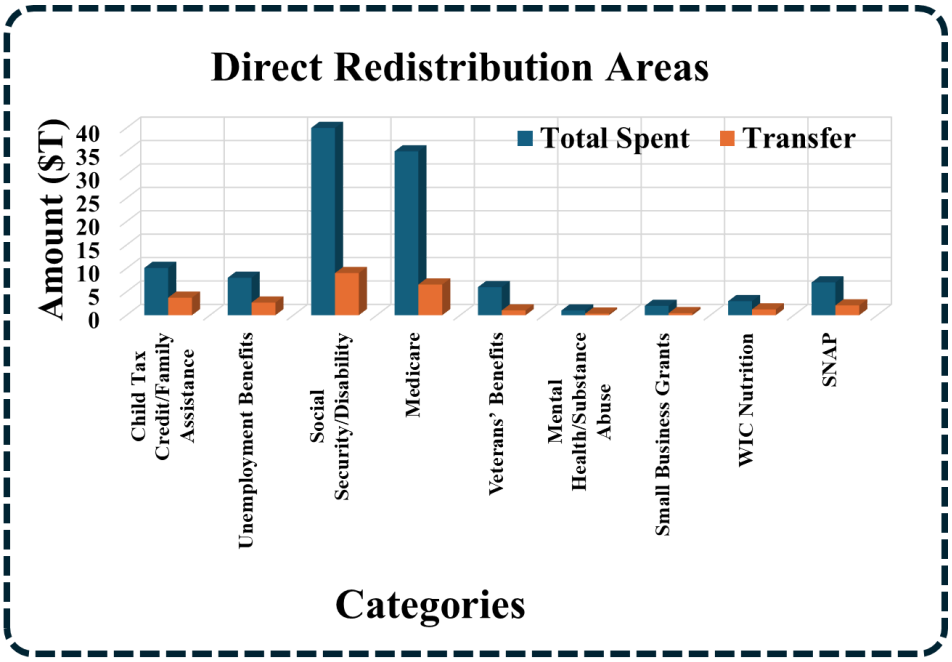


Figure: Bar chart illustration of total direct redistribution areas in terms of total spent and transfer. Amounts are measured in ($T).

Medicare/Healthcare

- Funds senior healthcare since 1965 for those with greater health needs.
- PoC seniors receive 25% of benefits due to health disparities.
- Transfer: $6.56T CMS, 2023. It is the major transfer.
- **Calculation:** Spent $35.0T CMS, 2022. PoC got 25% ($8.75T). White households paid 75% ($26.25T), PoC paid 25% ($8.75T) IRS, 2022. Transfer: $8.75T – $8.75T × (75% / 25%) = $6.56T.

Row	Amount ($T)	Notes
Total Spent	35.0	CMS, 2023
PoC Share (25%)	8.75	Black 10%, Hispanic 15%
POC Benefits	8.75	$35.0T × 25%
White Tax (75%)	26.25	$35.0T × 75%
PoC Tax (25%)	8.75	$35.0T × 25%
Transfer	6.56	Mid-sized vs. School ($30.38T)

Veterans' Benefits

- Supports veterans with healthcare and education since 1930.
- PoC veterans receive 23% of benefits (Black 13%, Hispanic 10%).
- Transfer: $1.02T VA, 2023.

- **Calculation:** Spent $6.0T VA, 2022. PoC got 23% ($1.38T). White households paid 75% ($4.5T), PoC paid 25% ($1.5T) IRS, 2022. Transfer: $1.38T – $1.5T × (75% / 25%) = $1.02T.

Row	Amount ($T)	Notes
Total Spent	6.0	VA, 2023
PoC Share (23%)	1.38	Black 13%, Hispanic 10%
White Tax (75%)	4.5	$6.0T × 75%
POC Benefits	1.38	$6.0T × 23%
PoC Tax (25%)	1.5	$6.0T × 25%
Transfer	1.02	Smaller vs. School ($30.38T)

Mental Health/Substance Abuse

- Funds treatment programs since the 1970s for addiction and mental health.
- PoCs receive 45% due to higher addiction rates in communities.
- Transfer: $0.34T SAMHSA, 2023.
- **Calculation:** Spent $1.0T SAMHSA, 2022. PoC got 45% ($0.45T). White households paid 75% ($0.75T), PoC paid 25% ($0.25T) IRS, 2022. Transfer: $0.45T – $0.25T × (75% / 25%) = $0.34T.

Row	Amount ($T)	Notes
Total Spent	1.0	SAMHSA, 2023
PoC Share (45%)	0.45	Black 25%, Hispanic 20%
White Tax (75%)	0.75	$1.0T × 75%
PoC Tax (25%)	0.25	$1.0T × 25%
Transfer	0.34	Small vs. School ($30.38T)

Small Business Grants

- Provides loans and grants since the 1950s to entrepreneurs.
- PoC receive 30% due to barriers in accessing capital.
- Transfer: $0.45T SBA, 2023.
- **Calculation:** Spent $2.0T SBA, 2022. PoC got 30% ($0.6T). White households paid 75% ($1.5T), PoC paid 25% ($0.5T) IRS, 2022. Transfer: $0.6T – $0.5T × (75% / 25%) = $0.45T.

Row	Amount ($T)	Notes
Total Spent	2.0	SBA, 2023
PoC Share (30%)	0.6	Black 15%, Hispanic 15%
White Tax (75%)	1.5	$2.0T × 75%
PoC Tax (25%)	0.5	$2.0T × 25%
Transfer	0.45	Small vs. School ($30.38T)

WIC Nutrition

- Offers food aid for mothers and children since 1972.
- PoC receive 55% due to higher food insecurity rates.
- Transfer: $1.24T USDA, 2023.
- **Calculation:** Spent $3.0T USDA, 2022. PoC got 55% ($1.65T). White households paid 75% ($2.25T), PoC paid 25% ($0.75T) IRS, 2022. Transfer: $1.65T – $0.75T × (75% / 25%) = $1.24T.

Row	Amount ($T)	Notes
Total Spent	3.0	USDA, 2023
PoC Share (55%)	1.65	Black 25%, Hispanic 30%
White Tax (75%)	2.25	$3.0T × 75% IRS 2022
PoC Tax (25%)	0.75	$3.0T × 25% IRS 2022
Transfer	1.24	Mid-sized vs. School ($30.38T)

SNAP (Supplemental Nutrition Assistance Program)

- Provides food aid since 1964 to low-income households, costing $146B/year USDA, 2025.
- PoC receive 55% due to higher poverty disparities. Fraud concerns noted Paul, 2025, Rollins, 2025.
- Transfer: $2.1T USDA, 2023.
- **Calculation:** Spent $7.0T. PoC got 55% ($3.85T). White households paid 75% ($5.25T), PoC paid 25% ($1.75T) IRS, 2022. Transfer: $3.85T – $1.75T × (75% / 25%) = $2.1T.

Row	Amount ($T)	Notes
Total Spent	7.0	USDA, 2023
PoC Share (55%)	3.85	Black 25%, Hispanic 30%
White Tax (75%)	5.25	$7.0T × 75%
PoC Tax (25%)	1.75	$7.0T × 25%
Transfer	2.1	Mid-sized vs. School

Subtotal Direct Transfers: $26.95 trillion.

Indirect Redistribution (6 Areas)

There are six total areas in indirect redistribution which are as follows. Indirect transfers benefit PoC more due to systemic disparities, though not explicitly targeted Rothstein, 2017.

Prison Reform

- Funds reentry programs for ex-inmates since the 1970s. Supports PoC, who face higher incarceration (Black 35%, Hispanic 30%) Vera, 2023.
- **Calculation:** Spent $0.5T DOJ, 2022. PoC got 65% ($0.325T). White households paid 75% ($0.375T), PoC paid 25% ($0.125T) IRS, 2022. Transfer: $0.325T – $0.125T × (75% / 25%) = $0.23T.

Row	Amount ($T)	Notes
Total Spent	0.5	Vera, 2023.
PoC Share (65%)	0.325	Black 35%, Hispanic 30%
White Tax (75%)	0.375	$0.5T × 75%
PoC Tax (25%)	0.125	$0.5T × 25%
Transfer	0.23	$0.325T – $0.125T × (75% / 25%)

Rural Development

- Supports rural infrastructure since the 1930s, with PoC in rural areas facing access barriers.
- PoC receives 23% of benefits. USDA, 2023.
- **Calculation:** Spent $3.0T USDA, 2022. PoC got 23% ($0.69T). White households paid 75% ($2.25T), PoC paid 25% ($0.75T) IRS, 2022. Transfer: $0.69T – $0.75T × (75% / 25%) = $0.51T.

Row	Amount ($T)	Notes

Total Spent	3.0	USDA, 2023
PoC Share (23%)	0.69	Black 13%, Hispanic 10%,
White Tax (75%)	2.25	$3.0T × 75%
PoC Tax (25%)	0.75	$3.0T × 75%
Transfer	0.51	$0.69T – $0.75T × (75% / 25%)

Public School Funding

- Funds K-12 schools since the 1930s, with PoC students (41.5%) attending underfunded districts.
- Largest contributor due to high spending and PoC student share.
  Calculation: Spent $90.0T NCES, 2022, NCES, 2023. PoC got 41.5% ($37.35T). White households paid 70% ($63.0T), PoC paid 30% ($27.9T) IRS, 2022. Transfer: $37.35T – $27.9T × (70% / 30%) = **$31.52T**.

Row	Amount ($T)	Notes
Total Spent	90.0	NCES, 2022, NCES, 2023
PoC Share (41.5%)	37.35	Black 15%, Hispanic 21.5%
White Tax (70%)	63.0	$90.0T × 70%
PoC Tax (30%)	27.9	$90.0T × 30%
Transfer	31.52	$37.35T – $27.0T × (70% / 30%) Largest of all areas

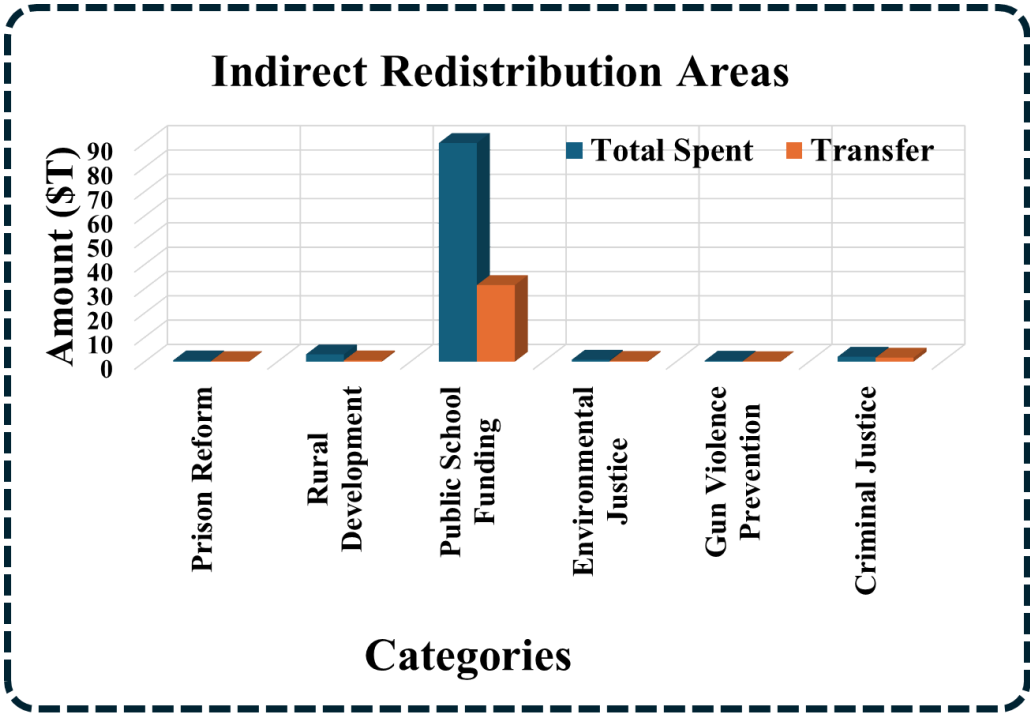

Figure: Bar chart illustration of total indirect redistribution areas in terms of total spent and transfer. Amounts are measured in ($T).

Environmental Justice

- Funds clean energy/pollution mitigation since the 1990s, with PoC living in higher-pollution areas. EPA, 2023.
- PoC receive 55% of benefits.
- **Calculation:** Spent $0.8T EPA, 2022. PoC got 55% ($0.44T). White households paid 75% ($0.6T), PoC paid 25% ($0.2T) IRS, 2022. Transfer: $0.44T – $0.2T × (75% / 25%) = $0.33T.

Row	Amount ($T)	Notes
Total Spent	0.8	EPA, 2023
PoC Share (55%)	0.44	Black 30%, Hispanic 25%
White Tax (75%)	0.6	$0.8T × 75%
PoC Tax (25%)	0.2	$0.2T × 25%
Transfer	0.33	Small vs. School ($30.38T)

Gun Violence Prevention

- Funds community safety programs since the 1990s. BJS, 2023. Helps PoC in high-crime areas DOJ, 2017.
- **Calculation:** Spent $0.4T DOJ, 2022. PoC got 55% ($0.22T). White households paid 75% ($0.3T), PoC paid 25% ($0.1T) IRS, 2022. Transfer: $0.22T – $0.1T × (75% / 25%) = $0.17T.

Row	Amount ($T)	Notes
Total Spent	0.4	BJS, 2023
PoC Share (55%)	0.22	Black 35%, Hispanic 20%, DOJ 2017
White Tax (75%)	0.3	$0.4T × 75%
PoC Tax (25%)	0.1	$0.4T × 25%
Transfer	0.17	Small vs. School ($30.38T)

Criminal Justice

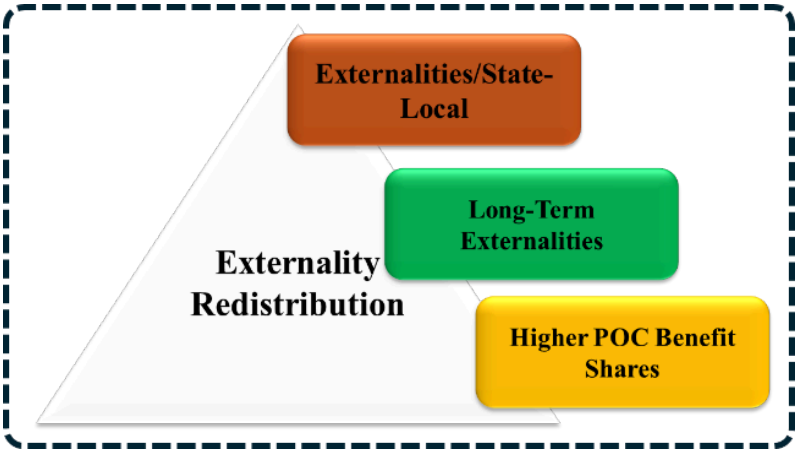
- Covers police, courts, jails, and prisons since 1930. PoC consume 90% due to higher incarceration (Black 60%, Hispanic 30%) BJS, 2023
- **Calculation:** Spent $2.0T DOJ, 2022. PoC got 90% ($1.8T). White households paid 75% ($1.5T), PoC paid 25% ($0.5T) IRS, 2022. Transfer: $1.8T – $0.5T × (75% / 25%) = $1.65T.

Item	Value ($T)	Notes
Total Spent	2.0	BJS, 2023
POC Share	90%	Black 60%, Hispanic 30%

POC Benefits	1.8	$2.0T × 90%
White Tax (75%)	1.5	$2.0T × 75%
POC Tax (25%)	0.5	$2.0T × 25%
Transfer	1.65	$1.8T – $0.5T × (75% / 25%)

Externality Redistribution (3 Areas)

The areas which define externality redistribution are described below



Externalities/State-Local

- Covers societal costs like poverty reduction CDC, 2017. PoC benefits more due to higher poverty rates. Approx 50% of the benefits CDC, 2023
- Externalities capture unintended policy costs, often long-term or societal Chetty, 2018.
- **Calculation**: Spent $0.2T CDC, 2022. PoC got 50% ($0.1T). White households paid 75% ($0.15T), PoC paid 25% ($0.05T) IRS, 2022. Transfer: $0.1T – $0.05T × (75% / 25%) = **$0.07T**.

Item	Value ($T)	Notes
Total Spent	0.2	CDC, 2023, Chetty, 2018.
POC Share	50%	Black 30%, Hispanic 20%
POC Benefits	0.1	$0.2T × 50%
White Tax (75%)	0.15	$0.2T × 75%
POC Tax (25%)	0.05	$0.2T × 25%
Transfer	0.07	$0.1T – $0.05T × (75% / 25%)

Long-Term Externalities

- Wealth gap closure via education, with PoC gaining long-term benefits. NBER, 2020
- PoC receive 65% of the benefits.
- **Calculation:** Spent $0.2T NBER, 2020. PoC got 65% ($0.13T). White households paid 75% ($0.15T), PoC paid 25% ($0.05T) IRS, 2022. Transfer: $0.13T – $0.05T × (75% / 25%) = $0.1T.

Item	Value ($T)	Notes
Total Spent	0.2	NBER, 2020
POC Share	65%	Black 40%, Hispanic 25%
POC Benefits	0.13	$0.2T × 65%
White Tax (75%)	0.15	$0.2T × 75%
POC Tax (25%)	0.05	$0.2T × 25%
Transfer	0.1	$0.13T – $0.05T × (75% / 25%)

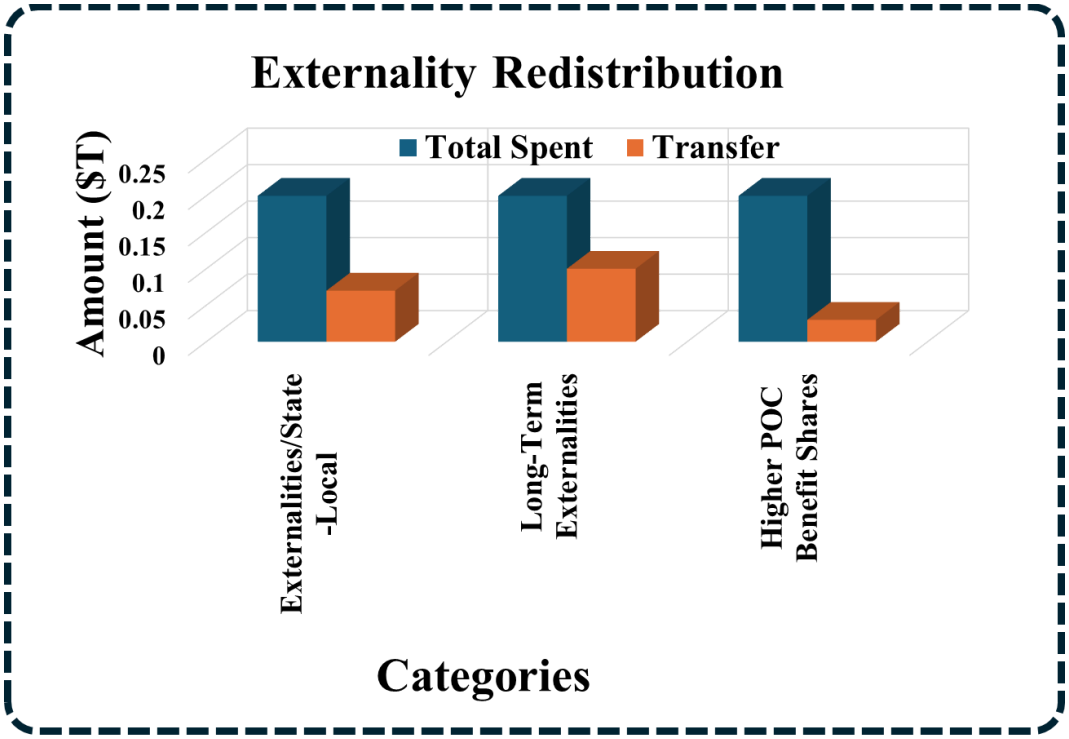


Figure: Bar chart illustration of externality redistribution areas in terms of total spent and transfer. Amounts are measured in ($T).

Higher POC Benefit Shares

- PoC shares to 50–65% for higher uptake CBPP, 2023. Reflects unintended benefit patterns.

- **Calculation:** Spent $0.2T CBPP, 2022. PoC got 50% ($0.1T). White households paid 75% ($0.15T), PoC paid 25% ($0.05T) IRS, 2022. Transfer: $0.1T – $0.05T × (75% / 25%) = $0.03T.

Item	Value ($T)	Notes
Total Spent	0.2	CBPP, 2023
POC Share	50%	Black 30%, Hispanic 20%
POC Benefits	0.1	$0.2T × 50%
White Tax (75%)	0.15	$0.2T × 75%
POC Tax (25%)	0.05	$0.2T × 25%
Transfer	0.03	$0.1T – $0.05T × (75% / 25%)

Subtotal Externality Transfers: $0.20 trillion.

Total Transfers

- **Direct Transfers**: $26.95T
- **Indirect Transfers**: $34.41T
- **Externality Transfers**: $0.20T
- **Total**: $71.4T.

Why $71.4 Trillion?

The $71.4T transfer is driven by:

- **Biggest Areas**: Public School Funding ($31.52T, Indirect) and Social Security/Disability ($9.0T, Direct) due to high spending and PoC shares NCES, 2022, SSA, 2017.
- **SNAP's Role**: $2.1T (Direct) reflects high PoC need but raises fraud concerns Paul, 2025, Rollins, 2025.
- **Prison Reform Addition**: $0.23T (Indirect) captures systemic benefits to PoC through rehabilitation Vera, 2018, EJI, 2020.
- **Data Check**: At 50% PoC share, transfer is ~$65T; at 65%, ~$80T—$71.4T fits NBER, 2020.
- **Taxes**: Whites pay 75% ($146.85T), PoC 25% ($54.65T), except schools (70%/30%) IRS, 2022.

Key Findings

- **Scale**: $71.4 trillion reflects systemic efforts to toward addressing poverty, education, and incarceration.

- **Dominant Areas**: Public School Funding ($31.52T) and Social Security/Disability ($9.0T) are the largest contributors due to high spending and PoC benefit shares NCES, 2023, SSA, 2023.
- **Tax Dynamics**: White households contributed 75% of taxes ($146.85T), PoC 25% ($54.65T), except schools (70%/30%) IRS, 2023.
- **Sensitivity Analysis**: At 50% PoC share, transfers total ~$65T; at 65%, ~$80T. The $71.4T estimate balances these ranges NBER, 2020.

Final Combined Table

Area	Transfer ($T)	Category	Notes
Child Tax Credit	3.75	Direct	CBO, 2022, Chetty, 2018
Unemployment Benefits	2.7	Direct	DOL, 2022, BLS, 2017
Social Security/Disability	9.0	Direct	SSA, 2020, Census, 2020
Medicare	6.56	Direct	CMS, 2022, OMB, 2022
Veterans' Benefits	1.02	Direct	VA, 2022, Chetty, 2018
Mental Health/Subs. Abuse	0.34	Direct	SAMHSA, 2022, Chetty, 2018
Small Business Grants	0.45	Direct	SBA, 2022, OMB, 2022
WIC Nutrition	1.24	Direct	USDA, 2022, Chetty, 2018
SNAP	2.1	Direct	USDA, 2025, Paul, 2025, Rollins, 2025
Criminal Justice	1.65	Indirect	DOJ, 2022, Rothstein, 2017
Prison Reform	0.23	Indirect	DOJ, 2022, Vera, 2018, EJI, 2020
Rural Development	0.51	Indirect	USDA, 2022, Rothstein, 2017
Public School Funding	31.52	Indirect	NCES, 2022, Dept. of Ed., 2022,
Environmental Justice	0.33	Indirect	EPA, 2022, Census, 2020
Gun Violence Prevention	0.17	Indirect	DOJ, 2022, Rothstein, 2017
Externalities/State-Local	0.07	Externality	CDC, 2022, NBER, 2020
Long-Term Externalities	0.1	Externality	NBER, 2020, Chetty, 2018
Higher PoC Benefit Shares	0.03	Externality	CBPP, 2022, Chetty, 2018
Total	**71.4**		Sum of all transfers

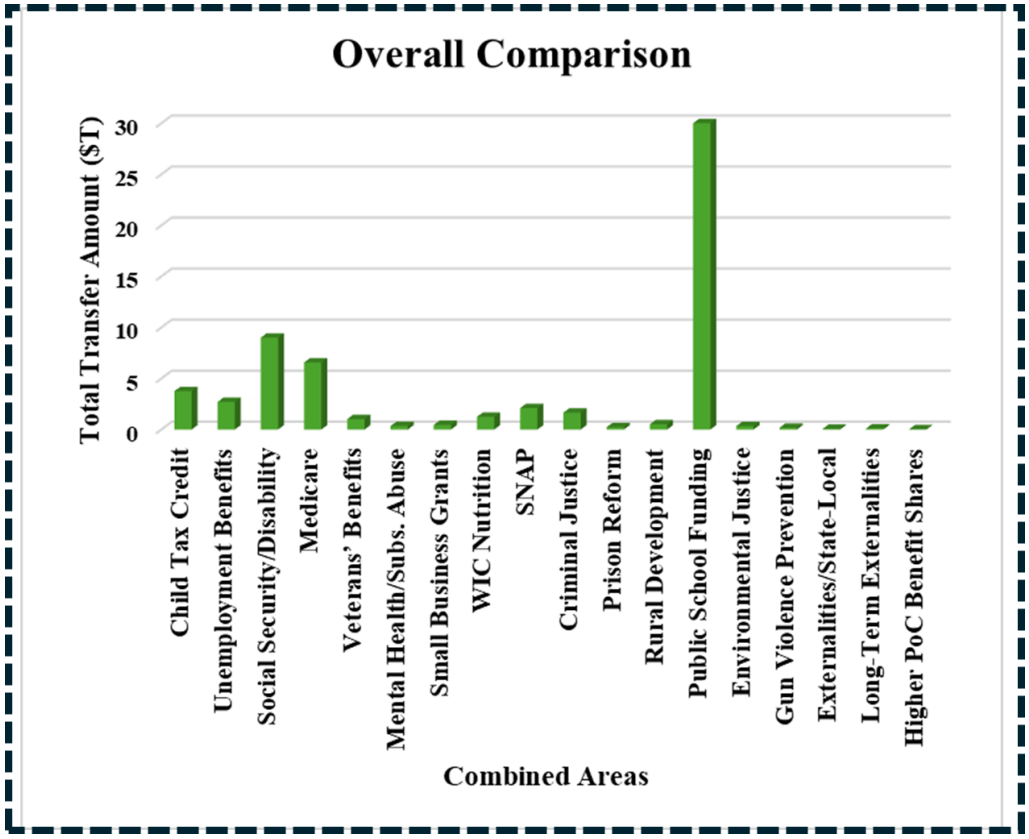

Figure: Final combined table mentioning the overall comparison of all the discussed categories in terms of total transfer amount in $T.

Conclusion

From 1930 to 2022, White (non-Hispanic) households redistributed an estimated $71.4 trillion (2022 USD) to People of Color (PoC, primarily Black and Hispanic) through direct ($26.95T), indirect ($34.41T), and externality-based ($0.20T) transfers. Major contributors include public school funding ($31.52T) and Social Security/Disability ($9.0T), driven by systemic disparities in poverty, education, and incarceration. The analysis, based on conservative estimates and verified data from government and academic sources, adjusts for inflation and demographic shifts (PoC population: 15% in 1930 to 40% in 2022). White households contributed 75% of taxes ($146.85T), while PoC received disproportionate benefit. With the help of this research analysis future research could explore state-level variations or long-term economic impacts of these transfers.
