

The background of the image is a close-up, slightly blurred view of the American flag, showing the stars and stripes in a diagonal pattern.

I know many of you are infuriated about the egregious actions Hollywood has been taking against our wonderful conservative states and our very way of life. Not only have they attacked our morality, character, and statehood rights of legislation; they have fund raised and campaigned against our very interests as conservatives. They mock us for vocalizing our devotion to God, our Country, and our Constitution. They worked hard to steer our children and our country into the glorification of sinful acts through the embedded messages in their movies and TV shows.

You have the right to be angry as you refuse to give up your integrity and values. This is why today I ask you join with me to fight back against the tyrannical and morally devoid Hollywood elites. Funding Hollywood means funding the liberal agenda. If enough of us stop going to the movies, cut streaming subscriptions such as Hulu, Netflix, and Amazon Prime, and shut off your cable TV and dish subscriptions; we will make a difference. We can further the impact by subscribing to those who advocate our beliefs such as Pureflix, Blaze TV, Patriotic Youtubers, and Fox Nation. We can no longer sit back and take the abuse from those who seek to destroy our state and wonderful Country. God speed Patriots you are not alone!
