Cool. Got good news from Metabiota today. Max Levchin (PayPal co-founder) is investing \$250k. He is somewhat of a Silicon Valley Rockstar. He also introduced the company to a VP of Product, Dan O'Neill, who they are hiring from Practice Fusion (a founders fund backed company). They also got their audit for 2013 back and were profitable for the year.

Hey team,

Please find the Investment Screen for Project R2D2. Please review. I am working to set up a call with the CFO and CEO for early next week and a site visit in Maryland to see their gear in action for the week of June 23rd.

We have three screens to review: Project Fantasy, ISIS and R2D2. Can we discuss all three on the partner call on Monday at 2pm EST?

Best,

Neil
