

So you've managed to become council? GREAT! Let's start off by going over what you need to read:

Please read the following links thoroughly and then we will begin your exercise:

- [How to Ensure Your Paste Stays Up](#) - **READ IT ALL**
- [Informative ToS for Pastes](#) - **READ IT ALL**
- [Guidelines](#) - **READ THE COUNCIL SECTION. READING THE REST IS OPTIONAL**

Now that you've read this all, let's look into how flagging works. I will be using /user/baby's account as an example:

You will now have this rank which means you get access to the following:

- Staff group chat on Telegram (DIU)
- Admin Panel (below is how it looks):

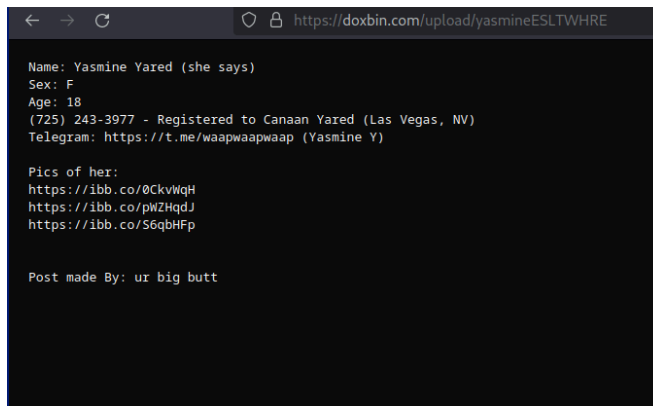

A screenshot of the Doxbin Admin panel. The top navigation bar includes links for Doxbin, Home, Add Paste, Users, Upgrades, Hall of Autism, TOS, Telegram, and Admin (highlighted with a red box). The main content area is divided into two sections. The left section, titled "Flags", shows statistics: "Flagged (last 7 days): 27", "Flagged: 4143", "Accepted: 4143", "Denied: 0", and "(Most recent 100)". The right section is a table of flagged content. Red annotations with arrows point to the "Admin" button, the "Flags" section, the "Stats" label, the "Admin button to get to this page" text, and the "Content you have flagged" text.

These are the reasons you can flag posts for:

- Insufficient - Insufficient information (posts under 3 points)
- Underaged - Post on an individual that is underaged. If the age is hidden like so: `Age: cannot say due to TOS` you will also flag it
- Spam - Pastes that are not pastes or have been reposted. If a paste is a repost, you must provide a link to the original post (more on this will be provided soon)
- Threats - Threats consist of stuff like "SWAT HIM" "I WILL KILL THIS NIGGER"
- CP - Child porn. This should be self-explanatory
- Lack of Effort - This is posts that may be 3-4 points but have barely any information.

Below is an example:

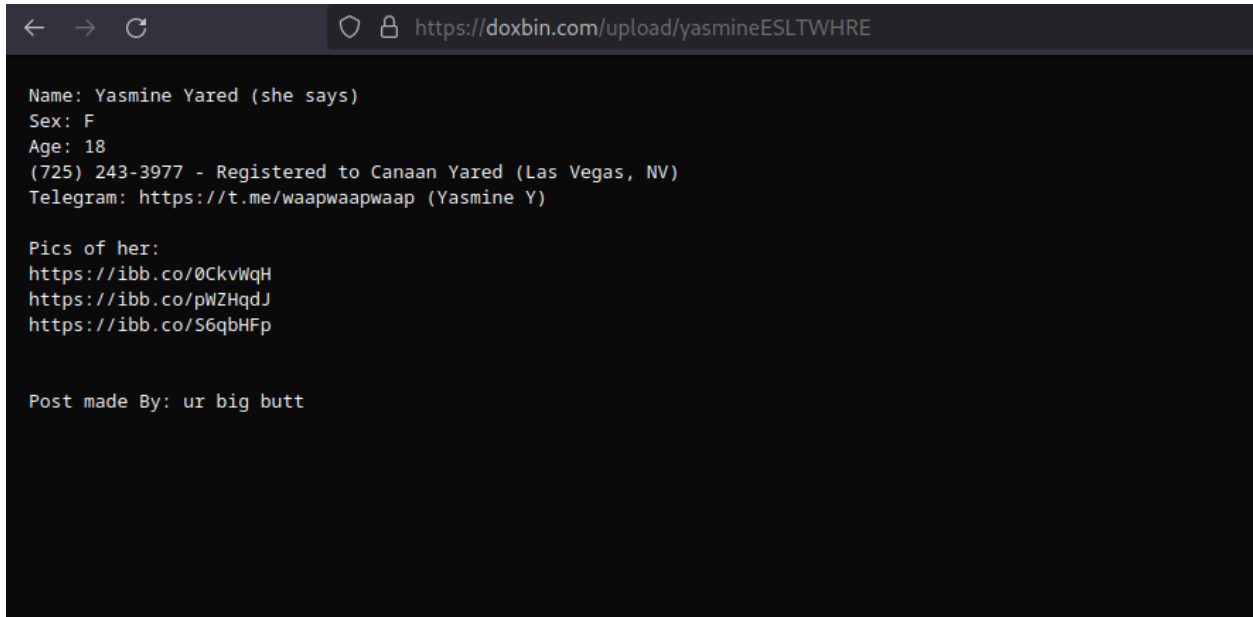

Now that you are familiar, let's get into the ground rules:

- You will have to do 130 flags **MINIMUM** a week. If you are caught only ever meeting quota, you will be seen as a cheerleader. Always aim for above and beyond
- If you are AFK, you must provide a Manager+ reasoning for doing so.
- Flags are checked on sundays to see if staff are above 130. If you aren't, you will receive a strike. 3 strikes = kicked as staff
- We go by a point system. Points are awarded for the following: Name, Age, Address, 3 social media (discord is not social media) and so on. You should have seen this in the content that was linked above

Now, let's get into some examples of pastes that **SHOULD** and **SHOULDN'T** be flagged:

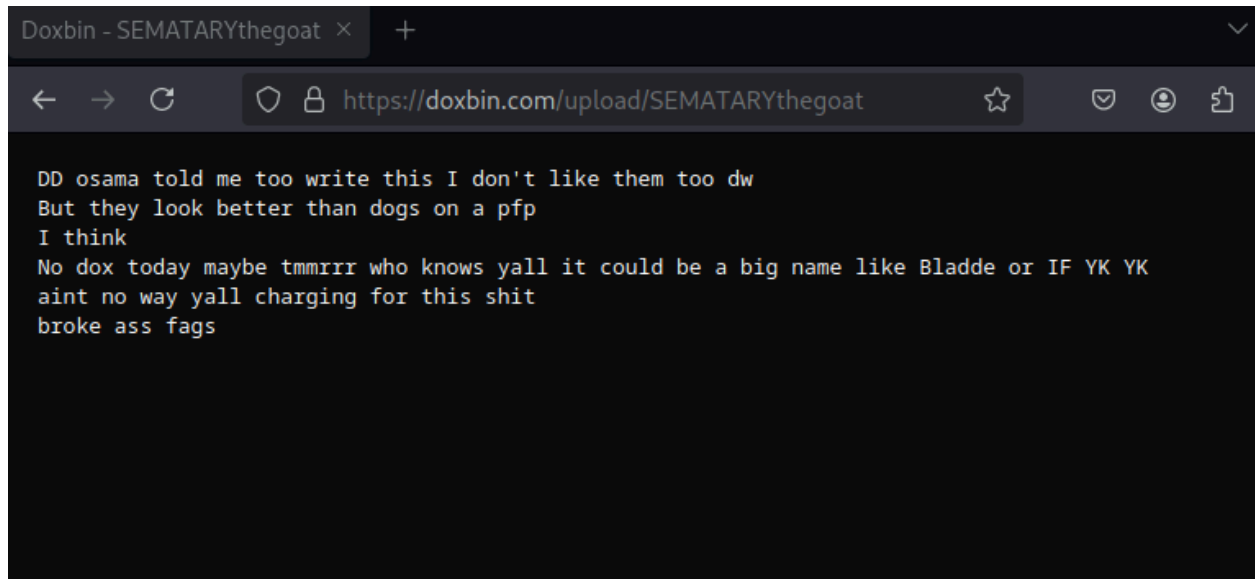

Pastes that should be flagged:

This paste should be flagged due to lack of effort. It may have age, name and number but it doesn't have a shred of effort put into it. Therefore, it will be flagged for "Lack of Effort"

Same with this. It should be flagged due to most likely being underaged and also Lack of effort

This post is spam. It will therefore be hidden

REASON: ANNOYING ESLUT WILL DO ANYTHING WHEN SPAMMED

These posts are both lack of effort but let's imagine they were not. If they are not lack of effort, they will be hidden due to repost. How do you determine which one to hide? We go through this process:

- We determine the first post on this individual and hide the rest
- If the oldest post on the individual is by an unranked user but another post on the individual is made by a ranked user, you can hide the rest

The screenshot shows a web browser window with the URL `https://doxbin.com/upload/swatordoxplsguysdestro`. The main content area displays a post with the following text:

threatens me and came to my house help me destroy his life here is his info

do everything,swating, call him, create rumors about him because of him,

my life is getting worse, although I didn't do anything to him,

call his parents after Dox and threaten, thanks to everyone who helps!

On the right side, there is a sidebar with the following information:

- ADD STAFF NOTE** (button)
- ← PREVIOUS** (button) and **NEXT →** (button)
- Title:** swat or dox pls guys, destroy his life
- Created:** Jun 15th, 2024
- Created by:** DoreuVita
- Views:** 102
- Comments:** 0
- Edited at:** Jun 15th, 2024
- Like/Dislike icons with 0 counts
- Unhide** (button)
- Hidden by oz:** Threats - Read TOS
- New (N)** (button)
- Raw (R)** (button)
- Username:** djjjidiopsdpjdfjiopjip -

This post seems fine but the problem with it is that the title has “swat or dox pls guys” which is a threat. Hence why the post is hidden for threats

NOTES:

If you are unsure on whether to flag something, contact a mod+ and they will tell you yes or no. Reiko is probably the most lenient staff when it comes to accepting flags so you should ask there (if he's still around by the time this is made)

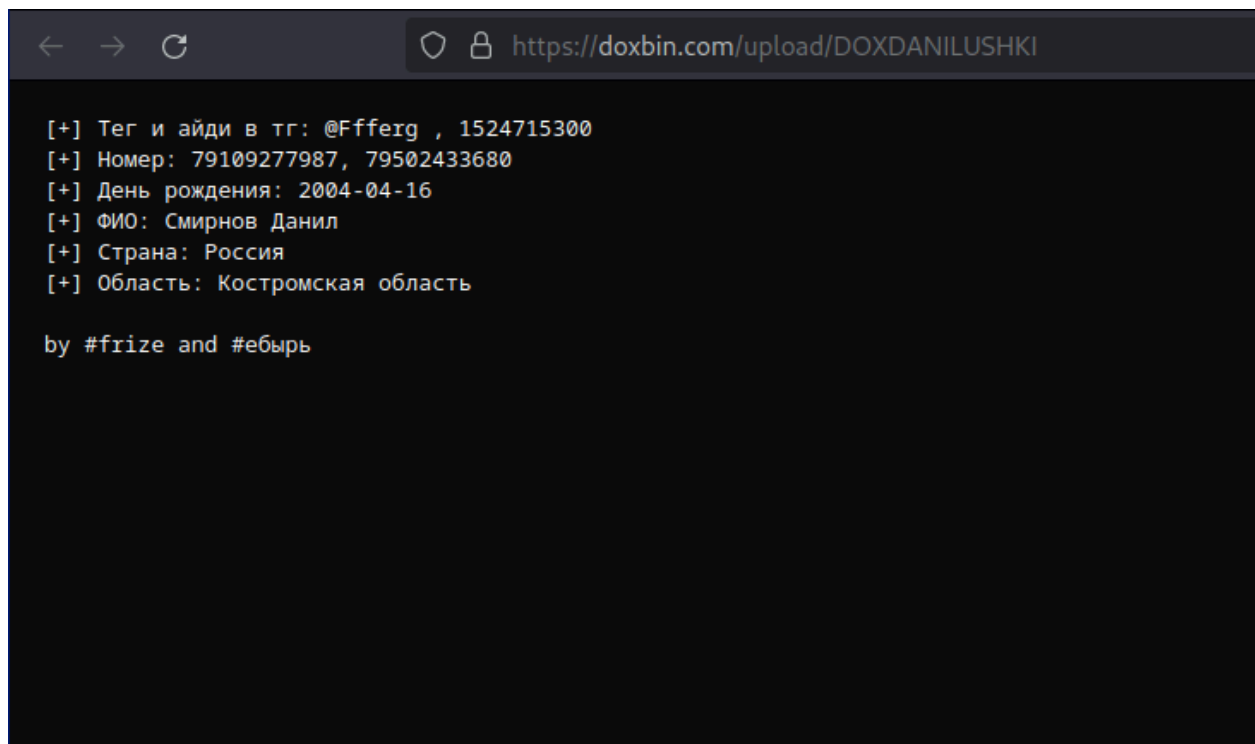

Don't be too harsh on yourself and don't overwork yourself. Just make sure to get above quota

Please try your best to be as active as possible

Whoever gave you this PDF will also be giving you example pastes on what to flag. Here is some starters:

Flag or no to these? Give the reasons for each if they are flaggable:
