

!WARNING!

This document, and everything in it, has been investigated by the staff team at Napoleonite, and all questioning was handled directly by me, JC, the one writing this document.

As far as our team has seen, all things that are mentioned, and quoted, in this document, are true, and have happened. We think that we have discovered a group, or a ring, of exploitation that has spread itself across multiple platforms, including ours.

If you know anything about the people accused, in relation to information about them, if they have other victims, please send them directly to my message inbox on my Discord account, "@jonotheistic", as this situation was largely led by me.

I would like to thank all the staff members of Napoleonite who were able to find some crucial information I couldn't. I could not have found out most of this, and gotten this situation brought to light, if it wasn't for them.

If you know any of these people accused, and you are in a position to hold them to legal action, I implore you to try. My US based location makes it difficult for me to do more than bring light to this.

Notice.

User ID "809" is a now lost user from Napoleonite. They will remain anonymous throughout this document, but I (JC) have gotten in contact with the user of this lost account, and I can confirm via her testimony this conversation did happen.

All messages by "YOU" are Giu.

User "Giu" during my questioning, also confessed to this same conversation in my interviewing. She was acutely aware that ID "809" was a minor, and was mentally unwell.

The only information I know of Giu is that she claims to be a minor herself. I can confirm ID 809 was much, much younger than her.

Section Three

"Miya"

Notice.

"Miya" is, purportedly, a very important figure to the victim in these messages. The conversation following is a direct interview with this person, on the popular video sharing platform "TikTok" where I received their profile, and they allowed me to ask them questions in relation to the victim.

ME

hello, i was referred to your account by your f/o, i wanted to just ask a few questions in relation to an incident i discovered, you aren't in any trouble

MIYA

Ohh okay,,

ME

thank you, again, just looking for information

so, you are "Miya" correct?

MIYA

Yeah yeah

ME

i wanna ask you about some other individuals, if that is alright

does the name "Oomen" mean anything to you, Miya?

and, does the usernames "Giu/Kiu" or the name "Kanna" mean anything to you?

MIYA

I'm sorry, but no. Besides, i don't know English that well and I'm kinda nervous so I might write veryy badly.

ME

its alright, im just asking what you know, if you know anything, your speaking is fine

would you know of, and have you used the platform "Napoleon" (commonly also refered to as "Napoleonite")?

MIYA

No, at most I only heard [REDACTED] telling me the platform's name !!

ME

i see, thank you

forgive the nature of these next questions,

what exactly is the dynamic between you, and [REDACTED]? in terms of your friendship

MIYA

[REDACTED] and I have a friendship/relationship that's kind of hard to explain. In the beginning, towards the middle, we were somewhat toxic towards each other (mainly on my part). However, currently, I think we're kinda better,,

ME

if i were to ask [REDACTED] if she currently, to any capacity, feels harmed and exploited by you, do you think she would deny that?

this is not accusatory, but i am just covering all my ends

MIYA

She would probably say, but mostly in an ironic tone. I don't know if I was clear, but I hope you understood,,

ME

i see, thank you

have you, at any point in time, asked [REDACTED] to harm themselves?

MIYA

I may have said that when I was younger, I don't remember exactly.

ME

have they, to your knowledge, followed through on these requests?

MIYA

Now, I'm not sure. Most of the time, I would ask and get no response. However, there were times when [REDACTED] would do it even without me asking.

ME

if you had to estimate a number, how many times would you say she has done this, specifically for you, or to appease you?

MIYA

Atleast 6, I don't remember.

ME

thank you for your honesty

another question

at any point, have you requested, and has she sent you lewd materials of herself? (such as various intimate photos of herself, for you?)

MIYA

Yes

ME

if you had to estimate a number, how many times has this happened?

MIYA

at least more than 8

ME

i am aware that [REDACTED] is a minor, would you know her specific age range when this occurred, and were you aware of this age when they happened?

and, how old are you?

MIYA

She was 11 years old, and I was aware

14

ME

were you at all aware of the mental state of
[REDACTED], and if she was in a vulnerable position?

MIYA

During my relationship with her, I began to realize that she was not fine (which made me distance myself from her during that period out of guilt).

ME

when would have been the last time you have done the aforementioned requests? (asked her to harm herself, or asked to see photos of her)

MIYA

I don't remember exactly, but the last time I asked for photos of her was this month. But I didn't ask for any of self harm.

ME

i see

thank you for your continued cooperation, i have no more questions at this time

MIYA

You're welcome, I guess,,
