White Hats vow to publicly end Trump's show

It seems something has clicked. We are receiving information from several sources that indicates the Zionist horror story we live in is falling apart.

For example, a high-ranking source in the US military sent us the following message:

"The military alliance is preparing to expose and publicly

overthrow the fake Trump."

Trump's fake death threats against six lawmakers (all of whom have military and intelligence backgrounds) appear to have been the trigger that finally got the military off its lazy asses.

The fake short and fat "Trump" threatened lawmakers for publishing the following:

This administration is siccing our military and intelligence experts on American citizens. Like us, you all took an oath to protect and defend this Constitution... Threats to our Constitution now come not only from abroad, but also from within our own country. Our laws are clear. You may refuse to obey unlawful orders... you must refuse to obey unlawful orders.

In response, "Trump" wrote: "REBELLIOUS BEHAVIOR punishable by DEATH."

This prompted House Minority Leader Hakeem Jeffries (D-NY) to call on the House floor janitor and the U.S. Capitol Police regarding Trump's comments. We should all call the police and demand that this fake "Trump" be arrested and handcuffed on camera.

These lawmakers aren't the only public figures to receive death threats. M.T. Green, Colonel Douglas MacGregor, Candace Owens, and others claim they've received death threats for speaking the truth. Your correspondent has

also received more threats than he can count and survived at least six assassination attempts simply for writing the truth.

"By speaking out for American women who were raped at 14, trafficked, and exploited by rich, powerful men, I should not be called a traitor and threatened by the President of the United States for whom I fought," Greene said of her own situation.

However, the fact that the Khazarian mafia is forced to publicly threaten death indicates that it is losing control. Previously, people were simply killed without public threats.

A significant event that would mark the end of the nightmare reality show posing as our government would be the arrest of Jean-Michel de Rothschild, aka Brigitte Macron. Candace Owens wrote the following about him:

Two days ago, a high-ranking French government official contacted me. Having established this person's position and their close relationship with the French couple, I concluded that the information they provided was credible enough to be published should any consequences arise. In short, this person claims that the Macrons ordered and paid for my assassination. Yes, you read that correctly.

The fact that the French military leadership warned Owens means de Rothschild's days are numbered.

"Brigitte Macron" is trying to kill journalists because he can't prove in court that he is a woman. The whole world now knows that "Brigitte" is a man, and it's too late to hide the truth. The internet is full of similar photos:

Jean Michel de Rothschild ranks above Trump in the KM hierarchy.

He is the one trying to continue the war with Russia because he knows his life depends on it. Last week, he tried to bribe the French military by signing an agreement with Volodymyr Zelenskyy for Kyiv to purchase up to 100 fighter jets and other equipment, including drones, to strengthen Ukraine in the fight against Russian invasion. He is also pushing for a massive military buildup in Germany and France.

But if you carefully read the fine print of the agreement,

the fighter jets will only arrive in 10 years, since France is bankrupt and can't pay for them now. Neither can Ukraine.

Our sources in French intelligence report that de Rothschild "Macron" will soon be arrested. His public arrest will undoubtedly have a domino effect.

If he disappears, then his subordinates, such as British Crime Minister Keir Starmer, Canadian Crime Minister Mark Carney, German Chancellor Friedrich Merz, EU Secretary-General Ursula von der Leyen, etc., will soon fall too.

According to Polish intelligence, senior figures of the KhM are already fleeing into exile. They claim the entire top leadership of the Ukrainian government has fled the country. Dictator Volodymyr Zelenskyy and Defense Minister Rustem Umerov fled to Turkey. Ukraine's second-highest official, Andriy Yermak, fled to London. Energy Minister Svitlana Grinchuk fled to Poland. Many others have fled to Israel. US Special Representative for Ukraine Keith Kellogg states that elections will now be held within 100 days, effectively confirming the fall of the Ukrainian regime.

The Ukrainian government fled amid a massive corruption scandal. Essentially, the majority of \$350 billion in state funds sent to Ukraine was used in a massive corruption scheme that likely influenced most Western politicians.

According to the head of MI6, military police are now actively investigating the case.

There are also signs that Nuremberg-style military tribunals are on the horizon. Russian Foreign Ministry spokesperson Maria Zakharova stated that one of the West's main goals in the war in Ukraine was "the extermination of the Ukrainian population as a whole." She compared this to Hitler's plan to exterminate the Slavs.

Russian Lieutenant General Apti Alaudinov says: "Ukraine has lost many of its people, and most of the population has fled the country. What is happening there today can only be described as terror against the Ukrainian people."

TASS Director General Andrei Kondrashov stated at a public forum that "the legacy of Nuremberg remains a relevant principle of world order" and called for "a unified position rejecting Nazism—both in historical perspective and in modern times."

As evidence of the Ukrainian government's criminality, Polish intelligence tells us that it planned to implant microchips in the brains of its soldiers that would explode if they tried to desert.

Now, the American military's "white hats" are preparing to strike a deal with Russia over Ukraine. A group of

American generals will visit Russia this week. They will propose a German-Russian alliance for Europe. As evidence, a deal is already in the works. Matthew Whitaker, the US special representative to NATO, shocked the German NATO general sitting next to him by declaring that Washington's long-term "ambitious goal" is for Berlin to appoint a Supreme Allied Commander Europe (SACEUR), as Europe takes on increasing responsibility for its own defense.

Germans are ready to rebel against the KM-controlled EU because they pay four times more for electricity than Hungarians. German industry is collapsing, and the only way to recover is to violate EU directives and return to buying electricity from Russia, as the Hungarians do.

The Japanese have already rebelled against KM. Japan is now restarting its nuclear power plants. The Fukushima nuclear attack and the 2011 tsunami were staged to force Japan to buy more oil from KM. Now they are returning to nuclear power, which previously provided 30% of their energy.

Japan also fined the American IT company Cloudflare, Inc. 500 million yen for hosting pirated websites. This is the first time a technology platform, not just pirates, has been fined, setting a good precedent. As a victim of piracy myself, I believe it's time to make tech companies like ChatGPT, Meta, Google, and others pay dearly for all

the information they've stolen and continue to steal.

War with China is also possible. On the 21st, the Chinese embassy on X Island announced the possibility of a military attack on Japan. It also published a post about the Senkaku Islands and Okinawa, indicating its intention to use this opportunity to raise the issue of Okinawa's sovereignty.

Our sources have told us that something large-scale is being prepared in East Asia involving Russia, China, North Korea, Taiwan, and Japan. According to sources in Asian secret societies, this could involve replacing the Chinese Communist Party created by the KM with some kind of empire. However, whatever happens, it will be largely peaceful and will be limited to eliminating the KM's influence in Asia, the sources report.

The key to ending the activities of the Jewish Menshevik Movement is combating its Chabad death cult. Timur Mindich, a friend of Zelenskyy's whose impending arrest triggered the fall of the Ukrainian government, prayed at a Chabad-Lubavitch synagogue in Poland after fleeing the country. He was then flown to Tel Aviv on a charter flight. Many other politicians compromised by Chabad will likely soon join him.

The problem is that Israel won't remain under Chabad's control for long. Their leader in Israel, Binyamin Satanyahu, is in a panic. Thousands of Israelis have

gathered in Tel Aviv, demanding an official investigation into the events of October 7, 2023. They know he murdered his own people to justify the genocide of Jews (Palestinians).

Israeli soldiers now pose for photographs with their heads turned to the side to protect their identities. They also no longer wear badges to conceal their identities.

They are war criminals and, by and large, global terrorists. They hide their identities because they know they will face military tribunals.

This train discovered in the EU shows that everyone knows the truth.

After the fall of Israel, Nazis are unlikely to escape to Argentina. JPMorgan Chase, Bank of America, and Citigroup have canceled a planned \$20 billion loan to Argentina, which US Treasury Secretary Scott Bessent promised would save the government of Satanist Argentine President Javier Milei. Argentina is also experiencing powerful explosions and signs of a raging undeclared war.

Satanists purchased about 1,000 miles of coastline in Patagonia and planned to hide there during their planned Third World War. Now, they are being hunted by "white hats" in southern Argentina.

Thanks to the work of people like Henry Makow, both real

Jews and the top brass of Western military and intelligence agencies know that Chabad is a satanic cult. They are responsible for hundreds of millions of deaths. They are still actively trying to kill you, your friends, and your family. They also plan to condemn the survivors of their mass murder to eternal slavery, where they can rape, torture, and kill at will. This is stated in their own writings.

Here is a message to the military "white hats" from Polish intelligence:

In Brooklyn, New York, thousands of Chabad-Lubavitch rabbis (approximately 6,000) from around the world gathered in front of Chabad's headquarters at 770 Crown Heights for a photo op on Sunday morning as part of the annual four-day International Conference "Kinus Shluchim." These emissaries are part of a global network spanning every state in the United States and over 100 countries. Their message: global organization and coordinated authority.

If you want to put an end to this nightmare, arrest them while they all gather in one place. Now is your chance.

Besides Chabad, we also need to persecute the satanic Italian Freemasons of the P2 lodge. Fabio Giuseppe Carlo Carisio, head of Gospa News, claims that a new pandemic and a new world war are "inevitable," indicating that the Italian nobility has not yet abandoned its plan to exterminate 90% of humanity in order to summon their so-called Messiah. Their main stronghold is the Calabrian Peninsula, so it would be a good idea to send special forces there to apprehend them all.

According to P2 Freemason Vincenzo Mazzara, one of the most influential figures in the P2 lodge is Elon Musk. Here's a photo of Musk sitting next to mass murderer and Pfizer CEO Albert Bourla. They are all members of the same satanic cult.

This cult managed to take control of the Western world by seizing central banks and controlling the money supply. They then used this money to bribe their way into power over the political system.

In the video below, Congresswoman Anna Luna claims that most of Congress is corrupted by pharmaceutical companies. That's why they were able to force toxic vaccines on so many people. It was demonstrable mass murder.

Bribes are the reason why the political class constantly goes against the interests of its people in favor of Israel or the KM oligarchs.

Of course, beyond bribery, there's also extortion. This brings us to the Epstein case. US House Speaker Mike Johnson publicly acknowledged that the political system is rife with extorted pedophiles, declaring that revelations about Epstein should be limited to avoid "irreparable damage to the political system."

 Speaker Mike Johnson said disclosure of information about Epstein should be limited to

"not to cause irreparable damage to the political system."

Now we also know why the US Congress and Senate voted overwhelmingly to release the Epstein documents. If you read the legislation that passed, you'll notice that it prohibits the release of any materials that "depict or

contain material depicting the sexual abuse of children." It also states that the information may be "withheld for reasons of national defense or foreign policy."

So, essentially, the blackmail videos of politicians raping

and killing children won't be published. Besides, they plan to publish them closer to Christmas, when everyone will be busy celebrating.

The problem is that even the most ignorant Americans now know that the Epstein case involved blackmailing politicians with videos of them raping and murdering children. They won't be able to hide it.

Immigration and Customs Enforcement (ICE) just launched a nationwide operation to verify the custody of 450,000 children released by the Biden administration to unvetted guardians. Think about that for a moment.

🌟BQQM-yes, this is important... this is house-to-house action... time to knock down doors...

This is changing the entire landscape in real time... ICE just launched a nationwide operation to check the welfare of 450,000 children who were released to unvetted sponsors by the Biden administration...

George Galloway, a British politician, broadcaster, and author who has served as leader of the UK Labour Party since 2019, claims Epstein was much more than just a Mossad agent. Epstein operated at a level reserved only for heads of state. He had access to the most powerful people on the planet: in the US, Europe, and Arabia. He could cross borders without detection. He mentions his boss three times in his emails. Our own sources report

that his boss is Jean-Michel de Rothschild, and that Epstein is still alive and hiding in Israel. He will soon be arrested again, as the Chabad movement is under control.

The reason for Chabad's defeat is that their god, Satan, is the father of all lies. This was his fatal weakness, for the lie is not backed by reality.

Their ability to manipulate people through Masonic street theater (often involving actual murder) no longer works. For example, what are the odds that, of all the people on Earth, "Dr. Waynell Sexton," George Floyd's second-grade teacher, was also a teacher at Sandy Hook, a patron of the Orlando Pulse gay nightclub, a victim of the New York synagogue shooting, a victim of the Oklahoma church shooting, and even a first responder on 9/11?

This woman has lived a truly amazing life. What's your threshold, guys? Ask yourselves. How much more crap are they going to dump on the herd?

An example of a hoax unraveling is when a journalist asked visiting Saudi Prince MB Salman about the murder of Washington Post columnist Jamal Khashoggi, and the fake Trump attacked the questioner. However, Prince bin Salman responded, "This is painful and a big mistake."

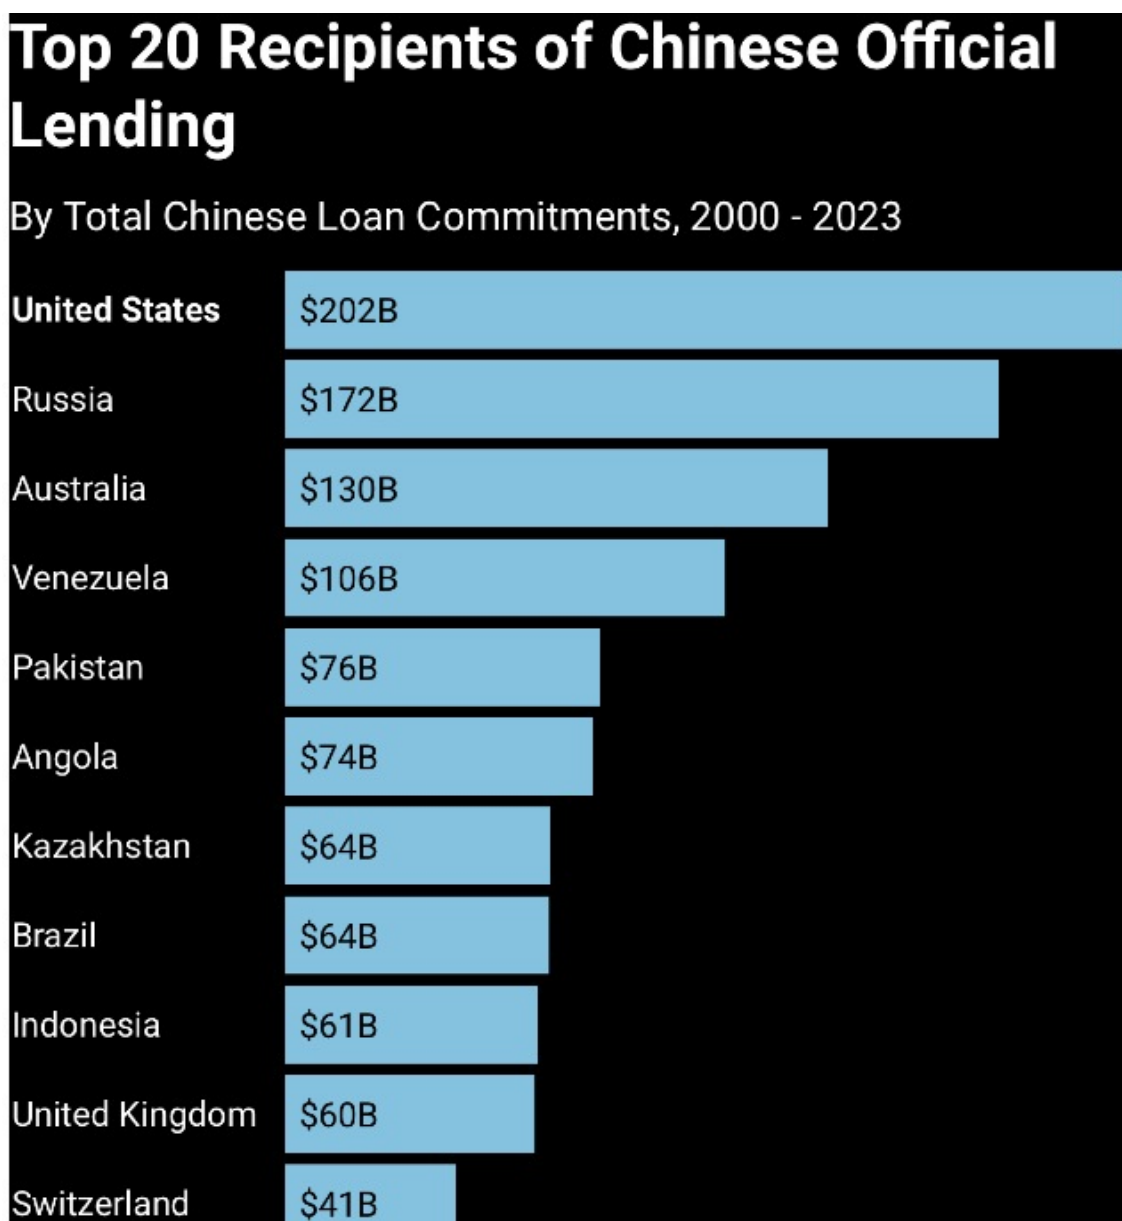

So, the fake Trump defends the murder of journalists, while MBS condemns it. In fact, the real Mohammed bin

Salman was killed out of revenge, and the one who is now emerging had nothing to do with that murder.

Unfortunately, most people don't know this, since public debate in the West now consists almost entirely of lies.

China is overtaking the West because the West was destroyed by these liars. It turns out that China's cross-border lending is "two to four times larger" than previously thought, according to Brad Parks, CEO of AidData.

China's lending to 72 high-income countries—nearly \$1 trillion—is comparable in scale to the Belt and Road Initiative. The United States is the largest recipient of official Chinese loans.

A bar chart showing the top 20 recipients of China's official loans from 2000 to 2023. The United States accounted for \$202 billion, followed by Russia, Australia, Venezuela, and others.

China can now shut down Western production by cutting off rare earth metal supplies. Even with strong political will and billions of dollars in investment, analysts and industry experts say it will take at least ten years, if not longer, to end China's dominance in rare earth metals supply.

Asians are winning because they realized they have much to learn from the West: logic and science. China has become a scientific superpower. Meanwhile, the West has lost its scientific prowess due to lies. The scientific community in the West is being destroyed by fake research reports generated by artificial intelligence.

For example, it was thousands of fake scientific papers on COVID-19 that allowed KM to infect much of the world with toxic mRNA for gene editing.

The KM's lies have also destroyed the Western world's economic system. Canada is a prime example. What was once one of the safest, richest, and freest countries on earth is now perceived as a place where basic order, accessibility, and common sense have been deliberately sacrificed. Corruption and irresponsibility are no longer the exception. This is the business model Israel has imposed on our government.

In the United States, the so-called Department of Homeland Security serves as proof of this. It was founded in Israel, and its geotag indicates that its headquarters are located there.

As a Mossad source warns:

All wars are bankers' wars, and make no mistake: we're in a war. The bankers want to brand you like cattle with digital IDs so they can use the digital money they create out of thin air.

There are no more savings - they will burn out.

No more freedom regarding health - either get vaccinated or be deported.

No more voting - the world government will be run by artificial intelligence.

There is no more freedom.

The situation in the EU is even worse. In 847 days, cash transactions over ! 10,000 will become illegal in the

eurozone. Every transaction is subject to government control. China's digital yuan already does this. It is programmable, can be erased, restrict purchases, or be frozen based on behavior.

The political battle for (or against) digital identity is intensifying in the UK. Protests are taking place across the country, and the government is facing challenges. Digital IDs are being introduced all over the world – YES, even in the US under Trump.

We all have to fight, otherwise we will end up in a digital prison.

The US Border Patrol is already secretly monitoring millions of American motorists across the country using a secret network of AI-powered cameras to identify and detain people whose travel patterns raise "suspicious" questions.

Soon, everyone will undergo similar screening using AI-powered street cameras. To demonstrate this, the TSA is offering you an \$18 fee for a scan using the new biometric kiosk system. Afterward, you'll be able to proceed to TSA checkpoints to board planes. Your card will be valid for 10 days. They'll already know what they're looking for, and you'll be permanently logged into the system.

This means you could be banned from using your money if, for example, a street camera catches you criticizing illegal immigrants.

Public anger is boiling over, and people are turning to direct action. In one video, you can see an Irishman administering swift justice to an illegal immigrant who tried to steal his truck.

The next scene shows a townsman chasing immigrants away from a playground.

In this film, an Israeli tourist is beaten up in Bangkok, Thailand, after behaving like an arrogant punk and disturbing people's lives. Everyone, including women, beats him up.

Here you can see the London government's clumsy attempt to censor Ricky Gervais's billboards with the text "Welcome to London, don't forget your knife vest."

Instead of addressing knife crime and violent chaos, the authorities have decided the problem is Ricky Gervais's billboards. This won't change the reality.

Anger can be seen on virtually every social media platform. Hundreds of thousands of Israeli agents can no longer suppress angry comments. As a result, Israel enjoys virtually no support among people aged 18 to 34.

Reviews in more traditional media outlets are also

scathing. Here are a few examples from comments on Zerohedge about the financial problems of ordinary people:

The Tricolor auto loan company went bankrupt because most of its loans went to illegal immigrants who disappeared before the ink was dry. These cars are impossible to return. The entire Tricolor deal was a scam that was destined to end exactly like this: illegal immigrants were given free cars but were not given the opportunity to repay any of their loans.

The Federal Reserve isn't federal and has no real reserves. It's a private banking cartel that creates money out of thin air and then loans it to the government at interest, deliberately driving the public into debt.

Every dollar printed devalues the one in your pocket. Inflation isn't an accident, but an artificial exploitation. It's not economics. It's economic slavery, disguised as monetary policy and imposed by ignorance.

We all need to take direct action because we will have no other choice until the military does its job and protects the people.

Finally, we want to end this week with some good news. Seventeen-year-olds Victoria Ou and Justin Huang from The Woodlands, Texas, have developed a pen-sized ultrasonic device that uses high-frequency sound waves

to capture microplastics in water. Their method is simple, portable, and scalable. The device removes up to 94% of microplastics from water, which could help clean up water around the world.
