Not one of them seems angry with him for delegitimizing their own positions

Thats what I get for dedicating the last 23 years of my life to fighting people that exploit our children. You are only 19 years old and I have been fighting to make our country better longer than you have been alive. You are a smart person but you have a lot to learn.

Wow, Crensch is only 19? Well that explains why he acts so immature sticking a drama post regarding users such as yourself to the top of the PG forum because he is a punk kid in a power trip position. This is not the way to go about this and this pretty much seals my fate to move on to a forum I should have been on the whole time because it is ring wing organization to begin with.

Srayzie asked me to be a mod, and I kept the position for less than 48 hours. I have not had so much drama as I had in those 48 hours than I had the whole month I have been here. It wasnt attacks just from users but also from the mods themselves. I am too old and wise for this bullshit they brought on to me.

They told me I was a Q divider lol! Srayzie wanted me to show off to breadbox, ronaldswansong and other theawakening mods that I was a mod in greatawaking. I told her I did not see the point in that as they would find out soon enough. In other words, it sounded like I was being pushed to start drama with them because I was a "mod" now...

Not only that Crensch also tried to take credit for the NeonRevolt unmasking thing saying he "figured" it out on his own 1 day before I started an account here. What a dumbass, I was on the case starting on September 9th and his speculation thread started on September 16th with NO Evidence to speak of while mine has me talking to the star of the show..

My investigation:

19 year old's Speculation:

<https://voat.co/v/theawakening/2721205> (<https://voat.co/v/theawakening/2721205>)

Here is the punk attacking me (also attempted to take credit for NeonRevolt) and needed his mod friends to try and gang up on me bully me:

<https://voat.co/v/GreatAwakening/2788247> (<https://voat.co/v/GreatAwakening/2788247>)

I am so glad I didnt waste anymore time on this mod job and I am sorry you have to go through this harrassment as well while they sticky this off topic rant on the PG for everyone to see how they treat people. Who in their right mind would want to post here especially seeing how this power trip mods treat others is beyond me. I wish you good luck, but suggest you should just move on because nothing is going to change.

Tim ossman? Aka Barack Obama. Barack Obama played obl in the CIA released propaganda videos. See for yourself.

<https://youtu.be/HuMShxAq7XQ>  (https://youtu.be/HuMShxAq7XQ)

You see it was the perfect scheme, make the man the most famous man on Earth. Pound his face into everyone's brain.... Then resurface the exact same face a few years later cleaned up and have him run a popularity contest.

And he will do what you say because he absolutely has to, and is very trusted after what he has proven.

They play this game a lot with other celebrities, but this was the ultimate con.

You can view the pictures of the original bin laden and clearly see it's not the same dude. Dude got a nose job in a cave wtf?

<https://www.metabunk.org/data/attachments/1/1003-df7b6594f264fe02525f2ff52af6448a.jpg> 
(https://www.metabunk.org/data/attachments/1/1003-df7b6594f264fe02525f2ff52af6448a.jpg)

Then you have the hero version of the dude, kill the boogiemans version of the dude in the ultimate twist of irony securing him the ultimate hero status.

And to prove it you do a shitty Photoshop job of a badly beaten mixture of a real beaten guy and a picture of your version of the boogiemans.

(https://herosetyanofario.files.wordpress.com/2011/05/osama.jpg)

Political support for your con soars and nobody is smart enough to put 2 and 2 together and those like me are easy to just say are nuts because the entire things completely unbelievable.

But for those of us paying attention the whole time, we didn't miss the news reports initially saying the dude was already dead in December 2001 of a collapsed lung, which just so happens to be the exact time that he switched from saying he didn't do it, to taking responsibility for the acts of terror.

Hey Fox news remember this report, you forgot to take it offline, no archive needed here.

<https://www.foxnews.com/story/report-bin-laden-already-dead> (https://www.foxnews.com/story/report-bin-laden-already-dead)

The link says updated in 2005 but I assure you it was there in 2001 and not real sure what was updated.

I am shell shocked, wow just wow on that.

When Barack Hussein Obama ran for president, I thought his name and vice president Joe Biden closely resembled Osama Bin Laden's name, but never said anything because I kept conspiracy theories I researched to myself except for 9/11 which I was a bit more outspoken. However, with the epic evidence you showed, I guess I wasn't far off track after all. Thanks for showing me this Patriot!

The MSM is hellbent on proving that DJT is an idiot, so they will seize on the misspelling, and in doing so will have to show the tweet. Stormy and creepy porn lawyer were darlings up to this court decision, DJT buried them both.

They did a great job on it too, because people who are asleep that I know is the first straw they grab when talking to me about President Trump.

I tried to tell them it was on purpose and his messages sometimes contain a coded message, but they look at me and laugh about it. Their loss for being ignorant and not open-minded.

He does this from time to time, I think he does it on purpose to rile the opposition. Or without reading too much into things, he just accidentally misspelled it.

I think he does this purposely to make MSM to report it inadvertently getting the message he wants out to their viewers. People misspell all the time, and most people give it a pass due to auto-correct on smartphones, but not the MSM, for they are the "official" spelling and grammar nazi's for Trump.

President Trump actually made a tweet addressing why he capitalizes words and misspells other words a few months back.

One of the commercial radar sites showed no activity at all, but the format/angle of the NWS radar view changed like the website had been updated just slightly. On the NWS site it showed these strange pockets of light rain (green) surrounded by dark blue and then light blue as you saw last night if you looked. If you reference the Q drops for that night you will see that there were references to Snow White, Corona and big bird. It was the next day that I realized the terrarium app on my fire stick no longer worked. Since then I have also noticed anomalies in the financial services sector. (Certain ATM system failures in the southeast, one of the banks we do business with is having regular difficulty with the bank download system, credit card payment system processing errors etc.) For what it's worth... it is very humbling to me that the Q team has allowed us (you, me, everyone) the honor of being a part of this worldwide freedom movement. Make no mistake. This is not a LARP. We are fighting for survival.

I think I understand what you mean now because I have noticed that our weather which usually goes with jet stream in an west to east fashion sometimes goes from SW to NE during the summer. Thank you for explaining that to me.

Impeachment just means a trial is done. He was not determined to be guilty so he stayed in office.

Wasn't Billy boy guilty of 2 of the 4 charges though? Dont see the point of impeaching him if he was allowed to serve the rest of his term anyways.

It all came out in the wash anyways, now that Hillary brought it back up recently, because it is alienating the softer democratic voter base to vote republican or independent.

So on 9/11 the only planes allowed to fly was ConAir and the bin laden family. Curious if bin laden's flight was a direct flight to Iran now.

However, House Foreign Affairs Committee Chairman Ed Royce (R-Calif.), along with ranking member Eliot Engel (D-N.Y.), promoted the exhibition of the reconstructed monument as the protection of "global cultural heritage," and they jointly unveiled it as the reconstruction of "Palmyra – Syria's iconic Triumphal Arch on the National Mall."

Interesting quote from your link that a D and an R set this up reinforcing that Q said this isnt "R versus D" but a spiritual war of good versus evil.

Minnesota has been waking up, and they are just beginning to break the NPC molding. At this stage, you get nothing but 2016 polling all over again. No one is even comfortable to say that they are sick of the Somali's and other shit. I predict a massive Republican win this year in MN.

Minnesota better wake up as Minneapolis the somalia capital of the Divided States of America. The rent in this city rivals that of NYC so one must wonder how they could afford this rent.

Although these illegal foreigners had an education level of just 10th grade, hussein gave them Social Security checks for 3500 or more per month plus Medicare and a clothing allowance.

Well the situation was taken care of, I resigned Mr Q police officer. I never told you anything,

I'm not really interested in your situation, or what you told me or didn't tell me.

you are the one trying to be a billy bad ass on the internet.

You must be new here.

Mods are janitors, and you should really clean yourself up.

I'm part of the original crew that fought for that to be the case; do you think telling me that has some kind of significance here?

Or were you referring to me saying you're too stupid to be a mod?

Let me rephrase for you:

You're too stupid to be a janitor.

I was the one who figured out NR iswas while you were staring at a forum board acting so cool as if being a mod is such an awesome job to have.

Awesome you fucking rock!

Where is your evidence? See I brought evidence to the party dated way before your post was even conceived.

Nice try bub.

Well the situation was taken care of, I resigned Mr Q police officer. I never told you anything,

I'm not really interested in your situation, or what you told me or didn't tell me.

you are the one trying to be a billy bad ass on the internet.

You must be new here.

Mods are janitors, and you should really clean yourself up.

I'm part of the original crew that fought for that to be the case; do you think telling me that has some kind of significance here?

Or were you referring to me saying you're too stupid to be a mod?

Let me rephrase for you:

Digging on Q's identity on a post that was opinion with no link.

The submission itself was a link.

Yeah classy...the post violated rule 3

"more in comments" might not be the way to go about that, but OP clearly didn't intend to leave the submission as just that. I don't know what SOP is there, but I assume the mods are handling it - they seem fairly active.

And that's not what I was calling you classy about. Maybe you should re-read my words and figure out what I was referring to? (Hint: it's in the nice big quote box above my line calling you "classy".)

Furthermore, Q already stated his identity, 10 people, 3 not military...

So?

Are you the Q police?

I doubt it is him, and dont understand why we all of us as a collective cant just forget about it until the end of the movie.

Why do you have a problem with people taking guesses and trying to figure it out?

Think of it like this; Do you worry who the main camera person's name the whole time the movie you want to see is playing?

Equating this to some Jewlywood horseshit is really quite stupid, IMO. We're SUPPOSED to be digging.

Let it go.

Telling (probably) adults on the internet what to do. Classy.

Hey @crensch (<https://voat.co/u/crensch>), it was an analogy, should I get the dictionary definition for you since you are simple minded too?

Analogy (from Greek ἀναλογία, analogia, "proportion", from ana- "upon, according to" [also "against", "anew"] + logos "ratio" [also "word, speech, reckoning"])[1][2]) is a cognitive process of transferring information or meaning from a particular subject (the analog, or source) to another (the target), or a linguistic expression corresponding to such a process. In a narrower sense, analogy is an inference or an argument from one particular to another particular, as opposed to deduction, induction, and abduction, in which at least one of the premises, or the conclusion, is general rather than particular in nature. The term analogy can also refer to the relation between the source and the target themselves, which is often (though not always) a similarity, as in the biological notion of analogy.

Ignore the first couple of lines, probably too hard for you to understand.

Judging by your response by @srayzie (<https://voat.co/u/srayzie>)

What?

, you already know it is 10 people and Q has said this much, yet you only name one person making it sound like it is singular.

So what?

Why provide disinfo to others? To fit a certain narrative for you?

Why argue with someone presenting their opinion/findings?

Research doesnt involve "guessing" It requires facts, which your post has none of which I shouldnt expect from you because you never raise the bar anyways.

A lot of facts aren't available with Q, and research *does* involve guessing, because you have to guess where info/confirmation can be found *constantly*.

Umm, good luck in your "research" lol...

Not sure who the "we" is in that statement because I am not worried about who Q is as they already told us, and that is good enough for me.

Nobody really cares about your opinion.

@WhiteRonin (<https://voat.co/u/WhiteRonin>)

Actually wasnt an opinion, q told us already. Quit being childish and read the drops, that was fact from the Q team.

I doubt it is him, and dont understand why we all of us as a collective cant just forget about it until the end of the movie.

Why do you have a problem with people taking guesses and trying to figure it out?

Think of it like this; Do you worry who the main camera person's name the whole time the movie you want to see is playing?

Equating this to some Jewlywood horseshit is really quite stupid, IMO. We're SUPPOSED to be digging.

Let it go.

Telling (probably) adults on the internet what to do. Classy.

Digging on Q's identity on a post that was opinion with no link.

Yeah classy...the post violated rule 3

Furthermore, Q already stated his identity, 10 people, 3 not military...

I used to pull seasonal shifts with Toys r Us since I was old enough to work. Watched Sons of Anarchy and would you believe they had the toys for a show that warns parental advisory in the beginning of each episode? People were skinned alive, people were shot in bathroom stalls, and they dealt meth too. I was shocked on how these toys could be purchased by any age kid.

Trump would have been dead long ago, had it not been because he is backed up by the military, including military intelligence. Also, security is handled not only by Secret Service, also by USMC.

In a Q post early this year, there was also mention/hint of a "kill list". Meaning, if something "happened" to Trump or other core people of the operation, a bunch of other people would "immediately cease to exist". That was the term used, as far as I recall. The list was not specified, other than mentioning the number of people. Close to 20 I think.

As Q says: This is not a game!

I remembe Q saying that too, that a lot of bad people would not be breathing much longer.

This is almost like my daughters upbringing in Sweden at the moment. She is white , but everyone else in her school is black. I thank you for telling this story, but it is now new, and it is not foreign. She was once day being hunted by black niggers, because she had blue eyes and blond hair, because they had learned in a mosque that she was the Devil and that they have to rape her.

That daughter. You would pay it happens it happens to me? Pretty fucking sick you pay for that. I guess I was right about you being a sick fuck. Go see a counselor, not for you, but for your children.

Too much of a pussy to face me, or you one of those punk bitches that pay others to do it on your behalf.

Precisely what I was talking about.

You proved it!

You get to say and Accuse me of something that was Not True, then expect me not to respond while attempting to belittle.

Those are media matters tactics. They expose themselves eventually, because True Patriots don't censor.

Only the evil side attempts to shut out truth after spreading a mountain of lies.

Those tactics are in place because human reaction to unfounded and unjustified accusations. . . usually rewards the attacker with someone so enraged by such preposterous allegations that they either respond with the same belittling retorts as attacker or just go away.

I don't succumb and I don't assimilate.

I believe you have some brushing up to do, before you assume you are so entitled.

You Falsely claimed that I haven't contributed 100% on anything but my own drops with Absolutely no proof whatsoever.

That was a blatant lie. Most common sense people don't take someone's slander as proof.

I have contributed on Plenty of posts. I haven't seen your name on most, I consider that your prerogative, so stop with your lies.

You Leave Me out of your False, Unfounded and Unverified Accusations.

How dare you level Fake information when, as you stated Yourself, you know Nothing about me. . . just to make yourself look good to your group, then Expect me to Say Nothing.

That is What We the People are fighting against. Injustice, entitled people doing as They please, then having the gall to Tell Us what to do. Sheep No More!

Just as our President Trump, just as Kavanaugh didn't and won't just take false allegations lying down, nor do they cower and not address them, Neither do I.

You are not my Boss. You do Not Own this board.

Do not Speak to me like that and do Not talk to me again on here.

I believe you are referring to your own childish behavior. . .

Stop Demanding your own way.

If you don't want me to enact my right to Free Speech (last time I checked still allowed on here), don't respond.

You will Not Silence me!

Now if you meant to say don't ping me. . . well, you have Every right to request that and I am happy to grant that wish!

Quit posting lies about me.

I'm afraid you nor many others see all the times I engage, comment, encourage.

Where is it in this post them?

Do not call me a liar unless you have solid proof. What is wrong with you? Here all this time I thought you were christian, and then you say this shit about me and I DONT EVEN KNOW YOU!

I'm afraid you nor many others see all the times I engage, comment, encourage.

I've dropped many comments on others posts where I have added research to their info they post, where I don't just put it in a main post of my own.

I actually write a great deal at times. Once in a while there is feedback, but many times none at all. I have no issue with that. I've Never called anyone out for that because it is supposed to be a free speech platform.

The only reason I mention it, is I am being accused of the opposite with no credit given for my contributions. I am even mocked at times, not always when I do give a great deal of info and verification of info for it being too long.

I still go and engage when I can, but would you keep engaging when you get very little feedback and then are constantly accused of not contributing when you are contributing a great deal.

I'm not sure why it doesn't matter what I do, I am accused of doing the Opposite.

100% of the time? Really? I wasn't aware that you followed all of my comments or contributions, encouragement to others, etc.

I guess I wasn't aware, because I don't have the time to track everyone. I have Absolutely commented, encouraged and dropped info on others posts.

Why is it fair for you to just make up a statement when I have spent so many hours.

Accusing people of doing the Opposite of what they are actually doing all while providing zero Evidence. . .that is a Rules for Radicals tactic.

Not sure what I ever did to all of you.

You've made yourselves clear, but clearly you have an issue with me.

Lady, I dont even know you except the behavior I have seen by you so leave me out of your 12 foot long reply. Dont reply to me if you are going to be childish over it because I have been overly fair with you.

Wasn't expecting a fair shake.

Simply responded to the post given me.

Never said you touched my posts anywhere.

Seems to be a tribe trend.

As far as karma. . .I've always had few points. . .so clearly not about the points, karma or whatever everyone else is concerned about.

Just want the truth and already know who I can count on to get it.

It's a Blatant lie I never participated. Perpetuated hoping I would go away.

I have participated a plenty. Never once criticized others not engaging.

Odd. . . or is it?

People don't like to do certain research and digging, I do.

Many (not all many and it's their right) post just links and get a slew of points. . .if I wanted to do that. . .I would have a lot more points, but choose to dig.

My digging causes plenty of attackers and hate. Not sure why. . .everyone is free to do so and no one stopping them. Even Encouraged to do so by Q.

Same attacks as from the people we saw handing them out to those they didn't like. . .sticking to straight truth. Typical!

Same methods, same cries, same twisting of truth, same ganging up on, same attempts to run off, similar agenda. We've all seen it before.

Won't be the last. That is what we can All Count on!

I seen your channel on youtube. I really think your a good person and you mean to do right, but it just dropping news articles and not commenting on them just seems impersonal at times not to be part of the discussion of the post you dropped which happened 100% of the time. That felt like the mockingbird media to me especially when CNN and ABC got rid of their comments section all together, but nethertheless I let them go.

@Shizy (<https://voat.co/user/Shizy>) @MolochHunter (<https://voat.co/user/MolochHunter>) @Type-o-Negative (<https://voat.co/user/Type-o-Negative>)

On a lighter note. . .with you all being friends doesn't seem like a fair trial, but that is the way the world works and this is Not my board.

No One has saved me. He was gotten rid of because he attacked you. Fair enough. . .but it should not be portrayed as otherwise after the fact. None of the others were "gotten rid of." And I **Never requested** you do so. Just felt rules should be followed.

From what I understand he was simply suspended, then it sounded like he continued to harass you so. . .

Was your responding to Neon Revolt a tantrum also. . .or it's only called that **when subordinates speak up?** Sounds familiar. Those in high places have passed on their character traits.

If **you chose to stick up for a vicious, verbal attacker who was breaking Your rules and it was allowed because you decided "he had a good heart," that is Your choice.**

I didn't request you to do anything and clearly you are not Forced (that's a good thing, being strong). I always know my place, I just stick up for myself and call out Facts. Pleasant or unpleasant they are the **facts**.

Look, I know first hand they are just words. . .don't begin to compare with what they really do to us. I've never pretended otherwise, simply standing for my right to respond just as everyone else is given the right as you clearly do yourself.

I only initially asked you about one person, who was also attacking. Pointed him out because I had taken the abuse (didn't instigate any of it) and was wondering why he and others were allowed to blatantly break Posted Rules! This was prior to IWO who also attacked you.

I have Never attacked anyone, haven't cussed anyone out or call names as many of you do. . .part of why I am despised so much.

People get furious when I don't engage in the same manner like slinging names and accusations or labels like *tantrums* as they do.

Was told to engage more even though **they Never engaged with me** and many times I get zero engagement which I believe that is people's right. Just wondered Why it wasn't my right also. Where I draw the line is.. .I shouldn't be forced to do what They don't have to do just because they are part of the *in crowd*.

Double standard plain and simple. If my calling it out for what it is, is considered a *tantrum*, then so be it. You have the right to call it what you want, just as I have the right to call a spade a spade.

All should take heed, on this board if you dare speak about how the buddy system is employed or point out discrepancies. . .you will be told *you think you are a victim and you are throwing a tantrum*.. I guess **we all heard That somewhere before!**

Why were you allowed to defend Yourself to Neon Revolt, yet the rest of us are not allowed to stand up for ourselves and state the facts without being belittled.

If it's because you are the leader and they are not. . .Well, *it was my favorite line last night*.. **I'm President and You're Not.**

I respect that. I can get behind that!

I don't respect any pretense. If it's one rule for most, but a different one for the *tribe* we should just be told rather than having the gray areas. Consistency and dedication to the rule of law is key when you come from a cop family.

Voting against all amendments to the Constitution, so I don't like wonky rules, or rules that are there just for show.

Just to be clear. . .not saying you shouldn't be allowed or that you weren't within your rights to defend your character, just trying to make a point.

That's the **double standard** I am talking about.

I made it clear, I appreciated the times you stood up for me, but you are taking too personal the fact that I mentioned you did nothing to suspend, band or attend to broken rules Until the rule breakers and attacker called you the same phrases.

Just a Fact. Not my fault if you or others don't like the facts or that I dare to speak up for myself and mention those facts.

You seem pretty ungrateful. I have never accused you of anything. . .only stated what is evident.

As far as you backing off. . .you getting involved with **anyone** after the first initial EC I pointed out. . .those people were dragging you in. . .as stated the **attackers whined to you because I wouldn't submit** I didn't tattle to you. Simply defended when tattled upon from Their attacks. I have pages and evidence no one was there with me at all while being attacked constantly.

I may have responded to something you put up (a response to them tagging you), but I **did not** come running to you. As stated, you already told me *they had good hearts*. . You have a right to your opinion, it's not my place to decide for you as I know it works Both ways. If I want to have my say and make my decisions. . .you can and do have yours.

I don't like entitlement or elitist think/speak **that leaders can do as they please, have their say, but we better dare Not.**

I don't like being told responding when someone calls me out. . .after I responded as others are allowed to do. . . called throwing a tantrum.

I was called out **after** I apologized. Was merely pointing out no one has ever apologized, wasn't thinking **Nor do I feel, I am owed an apology.**

Was simply trying to show I feel I am willing to do what is right and many times go above and beyond even though I am not treated fairly. . .not saying always by you, and it was made clear MH was just trying to follow protocol. I jumped, when I shouldn't have. I misinterpreted, when I shouldn't have. So apologized.

I have stood up for you numerous times when people have seen the dichotomy on here, so not sure where all this is coming from.

I won't call it a tantrum though. . .I try to be fair and realize people get hurt, people have misunderstandings and all people take things wrong at times.

If it's from me stating the **Truth and the Facts**, as you felt *you had a right to state*, well... That proves my point. ..

You are allowed to say what **you want and how you feel**, but we are not?

I do realize this is your board. I fully support one being allowed to run their board and do as they please on their own board.

Just didn't like attackers being allowed to break rules, but me being given ultimatums when they clearly were allowed to continue their abuse.

I realize being a mod is a difficult job and hard to balance. My suggestion is don't put rules that will not be enforced upon All, and don't always take an attackers side.

Merely a suggestion. I don't have the right, nor do I want the right to tell you what to do. Suggestion not a tantrum.

I wasn't saying you did a bad job with the board, was simply explaining my side when called out. Not sure why that is cause for being accused of being a product of self-induced victimization or the same fits attackers throw.

I did fine on my own and fully expected to deal with my own battles.

I learned my lesson, I don't point out rule breakers any more, I did point out dichotomies when I was called out.

I never thought things were easy for you. I have **Never thought I was a victim**. . Not sure where that came from.

Far from it. .. as you can see, **I Don't Back Down!**

People will continue to try to silence me. . .but I have stood up to many a bully and on here. . .**No Comparison to the Real World.**

I didn't accuse you of anything. Would appreciate the same treatment. . .just facts not accusations.

I've had people make threats, carry through on threats and shoot up a school, Lost a great deal. . .but it's just stuff. **I'm still Standing, my kids and family are still Standing and no matter how many times people knock us down, we're back up!**. Not sure how Anyone was confused on That!

If pointing out unfollowed rules is a victim. . .there is vast confusion and I see where the problem stems from.

So Not a Victim. Standing up right now for being allowed the same rights to respond and speak up for myself. Even run off the road, but Still Haven't Caved!

Things better now with you and Neon Revolt? I rarely see his stuff. Is he still researching and putting content out?

It did seem like he had some really good info. Too bad Q's vision of people being united doesn't work well because many don't really want to stick to facts.

Human nature is to take offense and accuse others of doing so.

As you said I can go elsewhere. I don't care if I'm shadow banned (wasn't saying you are doing so) as I am on twitter. . . I don't die off easily. Sorry about that.

I hope you have a better day, and for the record. . . **I have No personal issue with you or the other mods At All.** Takes a lot of stamina to wade through a ton of info each day and deal with all the different personalities.

Not my intent to be more of a burden. I wish you the best and appreciate your dedication to striving for a platform that is fair and allows free speech.

Every platform has it's bugs, there is no **perfect** anywhere here as we live in a flawed world.

You should be commended for attempting.

Godspeed!

We have moved to Dallas, Texas, in the USA.

Fuck off, you stalker. I had to leave, because there suddenly was several niggers missing from her school.

Imagine my surprise, when they couldnt swim.

Did you pay to have them killed you sick fuck?

Well, your imagination has no limits, so imagine the worst that can happen to you, and double it, and then imagine I pay someone to do this to you. BTW I have several daughters, which one are you referring to?

This is almost like my daughters upbringing in Sweden at the moment. She is white , but everyone else in her school is black. I thank you for telling this story, but it is now new, and it is not foreign. She was once day being hunted by black niggers, because she had blue eyes and blond hair, because they had leearned in a mosque that she was the Devil and that they have to rape her.

That daughter. You would pay it happens it happens to me? Pretty fucking sick you pay for that. I guess I was right about you being a sick fuck. Go see a counselor, not for you, but for your children.

Letting it go is like avoiding a subject because it don't fit your particular major.

Research means looking at all angles and uncovering all rocks. Research isn't just reading tea leaves called Q drops.

I've been inside of Reagan's AF1 Jet. It's an exhibit inside his library.

How did Julian get his material? Like I said in my original comment, people could still be feeding him intel.

I'm on and off about Q being a team. It's probably a team effort.

Whew! Well I am glad you finally admitted it was one person that you argued that wasn't the case earlier. Glad you think it is a team. Taking a pic of this in case you ever make a post about this again, so I can remind you on your stance.

Q *did* plant a teaser when he wrote (to paraphrase) "Wait until you find out who you've been talking to." So it does seem like Q wants to eventually reveal his/their identity.

But your point is taken. We don't need to speculate about who Q is at this point. All will be revealed in due time. And if it's not, well then there will be sufficient grounds for all-out speculation!

Great point!

They will tell us in due time. Focus should be on the socialists, not on who is who on our team. This post feels like it is diversion/distraction from pursuing research on other topics or creating memes for the electronic battlefield.

Sure thing.

But let's be honest. We don't have facts. It's mostly guess work.

Not sure who the "we" is in that statement because I am not worried about who Q is as they already told us, and that is good enough for me.

Oh ok, so my own thoughts are disinfo.

I never said that Julian is acting alone. So why are you saying that I'm saying it's 1 person. Besides you totally skip how Julian would be getting his intel so that automatically makes it 2 - Julian plus leaker. But wait! We also have to assume that the leaker is not fully working on their own and implicit consent is being given by Trump or at least he doesn't mind it is happening. So now we have 2-3 more in the game.

Since you implying I have a narrative. Have some balls and say what you think it is or what you are assuming my narrative is! Don't be passive aggressive. State your mind son. Come out with it. I'm grown up enough to listen to your opinion.

What is my narrative? For this post? Simple, look into the possibility Q's public side is Julian.

For why I post alegarding Q which is also why I'm on voat? To wake people up. Americans hate taking self responsibility. If Ford isn't lying, she still failed at taking responsibility for her own actions. Americans let 9-11 fuck them over. But I'm not a criminal so why should I worry! Americans let the US come to where it is today and the need of Q. People are fucking stupid. You the people bring on your own problems by not taking active control over your own life and actions. Rant over.

So, that is why I post controversial shit. People just don't like their world upset. They want to move along like ants and not have to worry about anything and not take responsibility for their own actions. Many of you don't see this as clearly as I do because you were here the entire time will TV and Radio slowly brainwashed you. I was out of the country have self responsibility beat into me. I came back to this mess that you all have made.

There is no counter Q movement from me. Sure, I'm gonna shit post jokes about it because so many dumb fucks needed a shepherd to wake them up. I'm old school, I've hated affirmative action and unions since the late 70's when I was just coming of age to realize what a penis is for.

But still go ahead and tell me why you think I have a narrative.

Becoming awake isn't just waking up to a q drop. It's to see all around you. To question. To question the dark, but more importantly to question the light.

TL:DR

Your opinion doesnt make it fact - check out my post on the OPM and when you can make a post packed with facts, I will read it. Have a good day.

If people are going to keep up this trend of provoking then beating the shit out of antifa soy boys, they need to do one other small thing. Unmask them, snap their picture, and start posting their faces on Social Media. It'll accomplish a couple of things. It will allow law enforcement agencies to develop a database on these masked losers for when they commit crimes, and will publicize their identities for the rest of the world to see. The latter will most likely discourage participation in the group, being that these wimps are obviously afraid of some sort of reprisal, evidenced by the fact that they wear masks in the first place.

That is a great plan.

Why?

Letting it go is like avoiding a subject because it don't fit your particular major.

Research means looking at all angles and uncovering all rocks. Research isn't just reading tea leaves called Q drops.

Judging by your response by @srayzie (<https://voat.co/user/srayzie>), you already know it is 10 people and Q has said this much, yet you only name one person making it sound like it is singular.

Why provide disinfo to others? To fit a certain narrative for you?

Research doesnt involve "guessing" It requires facts, which your post has none of which I shouldnt expect from you because you never raise the bar anyways.

Umm, good luck in your "research" lol...

Which Podesta? I read ages ago that John Podesta was already being held somewhere, just after he resigned all his positions. ALSO, Bill Maher has just said that he thinks the President is setting up Military Tribunals. Maybe Hollyweird is hearing some rumours that are putting the wind up them. The latest from WAR DRUMMER.

Funny, bill mahar is bringing this up “crazy conspiracy theory” that he knew all about since late of last year to his audience just recently.

Oh yeah, I'm not disagreeing. The whole situation is weird. I did use the link above to search his name in the prison system. He's not listed. Tony's not listed either. I think someone made a mistake, or trying to flush out other cockroaches. I saw someone post that the original tweet has been deleted. Think it was fakery?

Maybe their names can be sealed like indictments can. I will research that soon as I am curious if that is true. It seems logical in a legal setting, just never seen it happen.

This tweet is from March. He's been firing up the dems since then. Just theorizing here: Would he have been allowed to do some of his freakish tweets from a safehouse, do you think? I wonder if they would rather he keep things mellow, or be the freak he is, so people wouldn't guess he was confined in some way.

Yeah, but notice how many times he tweeted from April 27th to June 1st as compared to the his tweet history. I know that April isn't March, but its close and seems odd as well.

Fucking hell, that's some judgement to make from a thirty second video.

Her entire schtick is being edgy/awkward, which could explain this. The reaction of the men on stage was rather strange, though. It looked like they were serious but trying to be jokey rather than just playing along.

They all sold their souls. The devil will eventually demand payment from them. The sooner the better as far as I'm concerned.

I think the soul is taken right then and there and prevents "buyer's remorse" later on. Then they are nothing but a shell for a demon to occupy.

I quit buying Levi's years ago when they closed all of the US manufacturing, laid off thousands and sent all of their manufacturing over to China. Now, as Trump levels tariffs against China, Levi's is being squeezed. They don't like it so, now they are teaming up with the left to make things uncomfortable for Trump. Levi's is not alone in this. Nike, also manufactured in China, just made Kapernick their primary celebrity endorser for the same purpose. Simply to cause Trump problems and show their displeasure with his China policies.

Should rename it to LeeRice then.

lots of immigrants in Florida after the hurricane issues last year. They are mostly socialists. Back Ron DeSantis for governor and Rick Scott for Senator - get out the vote early. Help the elderly get to the polls and mail-in.

Mail in votes concern me because 4 liberals in Texas just got busted tampering with them. Hopfully a federal law was broken in regards to interfering with the official USPS in the process.

That is so effing messed up, using actblue, as their little piggybank and building a donor base of it to boot.

Sometimes twitler can be a good place to communicate even if it is censored, but it can suck for the uncensored liberals who spend money advertising it only to be confronted (in front of their possible voters) of the stuff they pull because all they want a money and power.

Very interesting. Wall and floor don't look like a hotel, though, LOL.

I must be blind but where do you see the wall and floor? In the TV reflection? I cannot see hardly anything in that, but that looks like some generic motel dresser the tv is bolted to.

Like another tweeter side, it was interesting how he cropped the picture.

NO! she must be killed. //the second dems got a breath of power they would pardon her. she must die there is no other way, and i hope its brutal AF.

I never thought of that and you have a very valid point. Well serving her eternity in hell isnt such a bad thing after all, she chose it and I have a feeling that once she arrives, she will just be another soul burning in the lake of fire and I doubt satan WGAF about her as she served her purpose on Earth. In other words, she wont be a queen down there, just another famous person paying their debt.

If I was or any law abiding citizen whom drinks are being interviewed for a job and asks us, "how much did you drink at a certain celebration," we aren't going to get high marks if we tell them the whole effing keg! We aren't there to brag about how much we drank at a party almost 40 years ago.

John Podesta I assure you would never have a smart TV of any kind in his house. That may not be his house. He is probably just somewhere else. You'd have to be a freaking idiot to know everything he knows and ever sit in front of a modern TV with recording devices in it.

Yeah, I could see John hanging out with poor people too...

I got a smart tv and it does not have a connection to the net, and I am not rich... and unlike him, leave his phone in cab for the whole world to find the fatherhood video, you know, because John is THAT smart...

Please put more thought into your post because I thought an idiot wrote that one.

The bird-of-a-feather connections just never seem to stop. When the disclosures and arrests begin, I believe we'll witness a massive collapse of the cabal, TV media, Hollywood, high-tech, Democrats, Universities, and the Mainstream Media.

That is my prediction too and friends think I lost it because I told them waaaaay back in March, there wont be CNN or Disney anymore (another disney employee arrested this week too for pedophilia) and H-wood will be gone.

God's dead. Don't lump fine upstanding Satan worshippers such as myself in with Soros. I want him gone as much as the next guy.

No I would just lump fine satanic worshippers such as yourself with pedophiles instead.

Calm down! YouTube does have some great videos on the subject! There is a video where the ex-CIA director, John Brennan, talks about geo-engineering (chemtrails), to fight global warming! Now why would the CIA Director be giving a speech on geo-engineering? Is the CIA directly involved in weather manipulation? Hmmm, and the fighting global warming thing is just really funny! Think mirror! Global warming is actually being caused by the weaponization of the weather! The aluminum and other particles that are being sprayed are trapping the earth's heat and accelerating warming! There's a lot of money being made from carbon taxes and fines! And there are a lot of people who are scared of the collapsing world environments who would welcome crooked politicians and organizations to SAVE THEM at any cost! It's all a con game by the UN and globalists.

I have heard the Rothschilds purchased the weather channel plus national weather service personnel must sign nda's. Why? If it's just weather, what's the big deal? But if you can manipulate it and control the narrative (think also the fake news clip from Florence that just aired) you can control the people.

We need to get these rothchilds in jail, executed, whatever to we need to rid this demonic slime in the world.

Folks, everyone should know by now that the hurricane that devastated Puerto Rico last year, was geoengineered. THEN, ALL FEMA supplies were BLOCKED to prevent distribution to the residents,

The FEMA supplies were certainly blocked by one Democratic mayor, that's for sure.

I think they are still on the runway (bottles of water).

All the real racist live in SA.. Didnt you know? BTW why are you in love with me? Not that it is wrong being gay, but eeh well it is actually wrong being gay. Dont be that. At least not against heteros. That is sooo wrong.

"Put another nigger on the barbie."

Why the need for projection all of a sudden? The real question is why would you put your daughter in a school that is mostly black and "hunts your daughter daily just to rape her" starting to wonder if you are a pedophile as you sounded proud enough to say it on an anonymous board and not even protect her as you mentioned this happened daily. You got some serious issues, pedo.

If this is true, why wouldn't the President and military do something about this. It would take only 1 hour to arrest everybody on that platform and shut it down?

The shown picture is the SBX-1:

SBX-1

- Under TOTE Services supervision, the SBX-1, a self-propelled, semi-submersible mobile offshore platform, was converted to a self-propelled RADAR platform for the Missile Defense Agency. TOTE Services continues to manages the SBX-1 under a contract with Military Sealift Command. Management has included taking the SBX-1 through the original 2003 conversion process, Sea Trials, design modifications, establishment of Classification Society Survey Rules, as well as development and implementation of the PMS system, procedures/schedules, and all aspects of Marine Operations.

Q1448 "FF weather alert (WW). Stay vigilant and maintain situational awareness. Q " I am waiting for Q or POTUS to specify the events. IMO numerous recent storms and events like drought have been geoengineered or at least manipulated to bring greater devastation.

One hell of a Q proof that is for sure.

I am ignorant to false flag weather terrorism they have and havent talked much about it because of my lack of info, but I heard some weather station recorders online are hiding the wind speed and that in itself is very alarming.

Hello fellow patriot - thank you very much for your kind words I really appreciate it [also as a side note we have had a few people letting us know that our videos are too fast to take in all the info and that has been noted and taken on board for the upcoming FISA video and every video after that] I agree Gohmert was brilliant in that video especially if you watch the whole thing its great. And yes major coincidence I will look into your research it seems like it could prove helpful to us. I appreciate your support and hopefully the upcoming video will be beneficial to people! WWG1WGA

I guess they never heard of a pause button, I used it a few times, but it is because I like to absorb everything I read. No complaints on it being too fast though.

I am mobile right now, but will PM the links of my research as I had 6 parts to it in a little bit.

Thank you patriots god bless you - if you like I am a one man show who produces content for Q here <https://www.youtube.com/channel/UC0VV6KCTHBIgL7BixYw8xGw> (<https://www.youtube.com/channel/UC0VV6KCTHBIgL7BixYw8xGw>) would be great if you wanted to support I have a new video on FISA coming out hopefully tomorrow or the next day

I just checked out your channel and like the content you have there. It has a raw feel to it, but hits the nail head with the hammer every time.

I never sign in to watch videos so I do not subscribe like a normal person does, but bookmark the channel or just remember the channel names by heart.

I am looking forward to the upcoming FISA video you are producing shortly.

I just watched the video of Peter Strzok and Gomertz exchange during the Strzok hearings and I thought it was very appropriate for Gomertz to bring up the cheating on his wife as if Strzok cannot be faithful to his wife, how can he be faithful to his country?

Crowdstrike seems like the star of ANYTHING that had anything to do with government computers and hacking as I researched the OPM hack, and found Crowdstrike was involved in that too. I uploaded my research here on this forum, and found that Crowdstrike did not find anything except the same time they said that was in same month the OPM said that is when the hack began. Major coincidence there!

I've noticed most talking heads on both sides do not know current anything very well.

If its not on the teleprompter, they don't know.

That is why I like listening to President Trump speak, he doesnt need a teleprompter and it comes from the heart.

I find it pretty telling that you don't hear from Debbie Traitorous Schultz, John or Toni Podesta, Peter Strzok, Jim Comie, John Brennan, Jim Flapper and many others. They were flapping of at the mouth every day up until a few weeks ago. Now radio silence. Coincidence???

DWS makes a daily appearance on twitler, talking about how she is "fighting" for the little voter.

Also dont forget many lost their clearances so they are on the sidelines because MSM finds them useless now.

That is why Brennan was crying over his revoked clearance and how his "freedom of speech" was violated although he is free to run his mouth on Twitler at any time.

One thing I know for sure is if one goes to john podesta's twitler, and go back and check his previous tweets, there is tweet of him taking a picture of a 1990s Magnovox picture tube TV with a Fox show on it in Closed Caption on it makes me believe it was taken in a low budget hotel/motel/safehouse setting.

I am sure if he was rich and had nice houses, the picture would have been a plasma at most and at least a flat screen HDTV.

The "UN Lady" eh? LOL Jesus Fuckin' Christ! AMAZING!

President Trump said he is legalizing weed after midterms, but that wont affect you as your under 21 and have your own midterm exams to contend with anyways. Go to bed kid.

You don't get what I'm saying.

1. Data collection was created
2. The Dems were using that technology

3. Sure they are gonna get busted with their own techniques
4. Trump only has 8 years total
5. A democrat will be president again
6. Repeat cycle

So yes, go ahead and laugh at 3 but I'm laughing at 5.

Some Democrats are legit patriots too. So, it's obvious some republicans are part of the NwO.

The Patriot Act is 1984 no matter how you spin it. Just like taking down protestors who hate Trump is a problem too.

You need to understand what is really at stake.

The DemonRats won't be around much longer especially after the recent call of violence. Go check out @realDonaldTrump (<https://voat.co/user/realDonaldTrump>) on Twitler and check out the videos of arenas President Trump fills, the endless lines just to get in to see him. There was one video I never saw the end of the line!

If you have a Xanax take one, or some great brew, drink a few, and/or some good weed, get blazed out and relax, nothing is happening until after the elections, too damn close now and only make him look like a dictator by the way MSM-13 will play the poor victim card.

EDIT: Check out what our gorgeous First Lady (that doesn't have balls) did in South Africa, there are some cool things she was doing with the children there and lots of videos too.

First, thank for your hard work and effort.

Now, I hate to do this so please take this as constructive criticism.

Currently, the NWO has 2 choices: play by what you are describing or wait it out for a better time. You described a Hail Mary attempt which others have also talked about but you missed a lot of the current circumstances which will likely make this a no show.

The NWO pulled out. They are regrouping and starting to cut their losses. What you described is a coup which will not happen right now or in the next few years. Trump gained too much traction and too much support too quickly. The NWO missed the window to make this happen.

So, consider 25 years from now.

Thanks again for your autistic efforts!

“Loss of freedom is only a generation away.”

We know that once the arrests happen, thousands of arrests of Political and Hollywood elite being arrested and trialed in Military courts shit is going to shit the fan. A lot of people are going to call this Trump's dictator movie. Using the U.S. Military and N.S.A. and U.S. Marshals to arrest the global cabal. There might be a lot of chaos on both the left and the sleeping on the right protesting and maybe even attacking the National Guard and people trying to explain Q's plan to them.

I saw a video by Mark dated 2007-08 where he predicted President Trump would be elected in 2016.

It blew me away!

If any of you havent seen it, I suggest checking it out, as he talks about military tribunals and the takedown of DS. I saw it a few months back, and one would think this was released very recently as it pretty describes what is currently happening and yet this video is almost a decade old.

I truly believe he is God's prophet.

Poor Brett Kavanaugh. He's getting the same treatment they have given DJT. An honor of sorts, but awful to have a cloud hanging over you when you did nothing wrong.

We must continue to support him. He is on Twitler.

I noticed this with Maxine Waters' call to "get up in their face in public places" Then Hillary called for "civility only after the Left wins midterms" and Holder said "when they go low we KICK them". This isn't by accident; this is a call to violence for the most deranged and they know it, but hold strong. It causes moderate women to #walkaway. These are the very people they need so they are doubling down on dumb. Be carefeul in public places. Be aware of your surroundings, look neutral and don't openly talk politics out in the open until after this is over. Only a few more weeks.

Well hussein built 800 FEMA camps, so that will save cash housing all these fucktards.

Go back to Q's posts in June 2018 when Trump was flying on his way to the Singapore Summit with N. Korea. A missile was launched from a submarine AT Air Force One, forcing Air Force One to change course.

Unconfirmed missile launch from Washington State <https://cliffmass.blogspot.com/2018/06/was-there-unannounced-missile-launch-on.html> (<https://cliffmass.blogspot.com/2018/06/was-there-unannounced-missile-launch-on.html>)

Top of this email discussions about the Missile Launch off Wash Coast on Sunday meant to take out Air Force One to prevent the summit from happening, and of course to kill Trump.

Late in email, interesting articles of all the precautions taken to get Kim Jung Un safely to Singapore.

A LOT GOING ON BEHIND THE SCENES.

SO GLAD WE DID THAT PRAYER ALERT LAST WEEK! TRUMP NEEDED IT!!!

Q post #1477 SUBMARINE FOUND! Posted 4 days ago on their Facebook. "Submarine Group 9" stationed in Bangor, WA. Certain events were not suppose to take place.

Sub - Missile - Sky Object AF1? Pic of rocket taken from weather camera - June 10 2018 7:56:14 (EST) Q !CbboFOtcZs ID: c78f8c No.1694930 Jun 10 2018 23:27:44 (EST) FF weather alert (WW). Stay vigilant and maintain situational awareness. Q Theory: Launch was possible false flag, from US submarine that was hacked

Someone tried to assassinate our POTUS by firing a missile at AF1??

The summit was not suppose(d) to happen. No wonder deep state MSM were so pissed with the outcome!

Did the cabal try to take out AF1 to prevent the summit?

That appears to be what is being suggested, yes. The summit being the "certain event" that likely wasn't supposed to transpire.

That's the positive version, yes.

It gets worse if the missile was launched from a US sub, as is seemingly being suggested, and via a hack.

China has been implicated in hacking into Military Defense Systems but had been quiet for awhile. Now restarted with this stunt??

Deepstate likes to misdirect hackings as Chinese or Russia. Remember how they said "Russian hacking fingerprints" were all over the election stuff? Then wikileaks released documents that they can fake these digital fingerprints/evidence

Makes you wonder if the (potential) hack caused the (potential) missile to be fired from that (US?) sub - and at AF1.

Sure as hell does!

If you look closely at the top, you can clearly see a white "missile" zoom in

I am on board.. it's clear as day..

<https://i.redd.it/l6dkrc7aun311.png>  (<https://i.redd.it/l6dkrc7aun311.png>)

In the sound. Somewhat what near the sub-base there. Cabal apparently hacked into sub and tried to knock out AF1. Now Ghost Recon is going after the bad guys.

Red October = the film that has the (Russian) sub blow itself up with its OWN torpedo. WTF? Interesting, in the event that the missile was launched from a US sub and at (US) Air Force 1.

Where was President Trump June 10th at 0356?

(When the Whigby island missile was seen). Was AF1 in the air? #1474 and #1472

Trump flew over the Atlantic from the G7 Summit and refueled in Cyprus, so he went no where near the location of this sub's missile launch on Sunday. However due the danger of this mission, there were TWO Air Force One's flown. One flew EAST from Ontario Canada over the Atlantic to the N. Korea Summit in Singapore, while the other one (carrying potus's limo etc) flew WEST over the Pacific to Singapore. No one knows for sure which one POTUS was on, as it should be for security reasons.

Opinion

Where was President Trump June 10th at 0356? (When the Whigby island missile was seen). Was AF1 in the air? #1474 and #1472

Trump flew from Quebec (G7) across the Atlantic, refueled in Cyprus, and then on to Singapore, arriving Sunday. Trump did not fly over Alaska or Washington State. But now they are saying it was a Submarine missile launch, that was targeted for Air Force One.

<http://www.whitehousedossier.com/2018/06/09/trump-schedule-sunday-june-10-2018/>
(<http://www.whitehousedossier.com/2018/06/09/trump-schedule-sunday-june-10-2018/>)

Schedule says he arrived in Singapore at 0835 (Eastern time). AF1 was in the air at 0400 on June 10. The Whigby missile is looking to me to be an attempt on our President's life.

1472 is a pic of three Alaskan volcanoes. I think this post is saying that AF1 was in the air.

1474 is the missile pic.

Editing to add links.

Source of the missile pic (weather blogger): <https://skunkbayweather.blogspot.com/2018/06/missile-launch-on-whidbey-island.html?m=1> (<https://skunkbayweather.blogspot.com/2018/06/missile-launch-on-whidbey-island.html?m=1>)

so they now have evidence that the deep state tried to launch a missile on potus ? thats not gonna end well for them

To try to stop peace. These people are sick.

I wonder how they stopped it in time. So glad they did!

They knew it was coming

So was this the sky event and they new it was coming? Took control of the missile as in red-october?

That was a according to MSM. 🤔🤔🤔

You idiots were raised on tv and movies, that's the way you view the world. You constantly refer to the "Storm' as the show, or the movie. Eating popcorn. White hats vs black hats. All they think you "know" about politics, weapons and the military you have gotten from too many years of Hollywood. Clancy movies, spy movies, conspiracy movies etc. You, like many other Americans have trouble telling fact from fiction. AND the goddam internet is chock full of lies, ignorance, stupidity and psychosis. You think Youtube is "research"! You are too damn dumb to get that a missile launch is a pretty spectacular event, visible for hundreds of miles, REALLY LOUD , easily trackable and pretty hard to hide. Last years launches off SoCal by USS Kentucky were visible 500 miles away!!! YOU are THE MOST easily fooled and propogandized bunch in America, which is why you believe and adore.... Donald Trump.

Soros cock is missing your mouth.

Hmmmm...NO chance huh? That sound vaguely familiar to anyone else? Reminds me of something I heard, oh, around two years ago, I guess?

It was so funny when five thirty eight said hill would get 98.1% of the votes.

If that was the case, why did hillbot cancel the fireworks barge like almost a day in advance?

I am 57, haven't used since I was 22, but make it legal and in in! Hell.. It is a natural herb.. Tell you one thing for sure, many fewer people will die because of pot smoking than die from *Legally* getting drunk! Alcohol kills!

Remember the sky is falling reefer madness in Washington and Colorado? Politicians were claiming there would be a spike in crime.

Well that didnt work out for them because violent crime actually dropped.

Why does 'the fed' get to issue new currency to banks, to charge you interest, to increase money supply? why not do what hitler did and give money to new families directly to encourage growth?

Families is a bad topic to bring up around these shapeshifters as one of their goals to destroy it with a perverse model with gay and lesbian relationships just for the sole purpose to mock God.

When Q says these people are sick, he/she isn't lying.

Leftists don't complain about weed. That's why the title said Democrats can go home now. Trump has already taken care of half of their platform!

Once it becomes legal, people will get blazed and self reflect, well it did that to me when I used to smoke. Side effects include laughing, having the munchies, and generally chilling out watching Half-Baked.

I think that DS would not want to happen (self-reflect) and that is they keep it illegal in conjunction with big pharma's greed for money.

Makes one wonder what leverage he has to go on living fulfilling his dream for "absolute power" (that is what he said in 1978-79 60 minutes interview) as a financial terrorist.

laughable.

Did they fire Jeff Sessions yet? Did they issue guidelines to US attorneys? Or did they spout some nonsense just before the election.

Sessions was talking about rolling back weed laws. I was like wow bro, that is messed up.

After discovering Q, I think this was a ruse to give him cover while doing whatever he is doing now (besides sleeping under his desk).

TPTB hated Marijuana because it triggered existential thoughts in people who were normally complacent. Marijuana displaced the conformity and National Industrial Juggernaut of the 50's and replaced it with VW driving hippies-cum-yuppies who, without weed, never would have questioned their role as cogs in a system based increasingly on deception.

Eventually, the use of Marijuana Prohibition became a source of leverage which was selectively wielded by Law Enforcement. Prohibition of Marijuana helped expand the Police State and to this day is a source of revenue for the Government-Affiliated Racketeers in the Prison-Industrial Complex.

15 years go you'd go to jail for a small amount of Marijuana. Did they ever apologize to those people who had their lives derailed over something the Government can no longer claim is dangerous?

You have some great talking points that even the most insane leftist could not argue with.

I heard about this awhile back and chuckled to myself on whether the socialists would fight this too.

I thought he would bundle this with the wall legislation as a way to troll the socialist sheep.

Personally, I think it would split them in half in regards to hate, and gain new eyes on seeing Mr. President in a new light.

I am going to consider this as a **B Q Q M**.

First, I need to correct myself. The OC concentration is not as high in bear spray (2%) as it is in pepper spray (10%). What it does do though is allow you to reach out 30' with a big tank of OC.

That being said, having a method of escalation, if you are in a **vehicle**, in the middle of civil unrest, you may have the need for a threat of force escalation which gives you a less than lethal option. Opening up with a gun on a crowd of people approaching your vehicle unless you can absolutely prove your life was in danger. Personally, I'd take a TAC-14 loaded with rubber shotshells over bear spray, but each to his own.

Okay thanks blacksmith.

The Republicans need to do more than condemn these Democrats call for unrest and need to call for an investigation/arrests of them. It has to be illegal to call for violence against a specific group of people?

Didnt hussein pass hate laws? They should apply to them as well.

I'm old enough that my eyes don't work as well as they used to, so I rarely use my phone for anything other than text and phone calls. I do all of my Q stuff on a desktop with bigger monitors.

Since I don't use my phone, I have no idea what these sites look like or how they act on a phone. But... On my desktop, I use Brave for web browsing, it has ad blockers built in, but even with the ad blocker turned off, I've never seen anything on qanonposts.com except Q drops. I've never seen an ad for anything, never seen any kind of pop-up at all.

I still have Google Chrome on my computer even though I don't use it, so I just fired it up and checked out qanonposts.com and it looked and behaved exactly as it does in Brave, and I didn't see any kind of warning screen.

From what I can tell, this is a BS FakeNews Shitpost, or it must be strictly a cell phone issue.

I bet Google Chrome still calls home whether you use it or not. I would uninstall that and use CCleaner to remove all of its components in the registry too. I use this app all the time in the field and it is free to boot.

YT were at it again yesterday heavily censoring any Q related content on channels by making them unfit for advertisers. One guy had a years worth of content blocked for ad money, all in a few hours. Stuff that had been up for a few months, gaining views and a small revenue stream, then bang, gone! The poor snowflakes are starting to feel the pinch, bring it on! Using Q.pub and Duckduckgo along with a VPN without issue?

I would advise others to use the 8 chans that Q has mentioned. Don't forget qanon.pub is site that put up the banner of "the offical v/thewakening (<https://voat.co/v/thewakening>)." as if Q endorsed it, while this sub has been here for like 9 months now.

Now I am beginning to wonder who's team you are on

OMG, what are you tripping on?

i have been on team 'liberating humanity' for almost 4 decades. my nature is that of a system buster and builder - where i put my attention on, the real colors show, and what isnt filled with life and works well deteriorates.

you seem to be a shit-stirrer no matter what sub you are on,

i say it as i see it. if it stirs shit, it only shows that shit is present.

makes sure she sees what you wrote too or are you conveniently leave that out?

dude, i dont show her anything. she knows my nick and yours, she can read for herself if she sees fit. right now, there is zero energy in that direction - from my 'family', nobody does more on voat but scanning the feed, in order to get a gist on whats going on here.

Did you even look at the evidence, or are you just trying to cherry pick this argument that suits your narrative best?

You really are a sad person Divine, hate to say it, but I am putting you on ignore, just dont have the time to deal with someone who doesnt look at the whole picture objectively.

There is a difference between a **PATRIOT** and **PAYTRIOT..**

Interesting, I research too and never ask for money, because I am doing it for God and country, not for a buck so fuck off skill.

Wouldn't you want to be warned if someone is robbing under under false pretenses of being a Patriot, yet asking for donations, crypto-mines people's devices who visit his site without permission, and was trying to divide the movement when reddit banned all the Q subs go to the "official GA" while this sub has been here all along?

sure, warning is important. flame wars are counter-productive though. its not the job of a truther to fight against other 'truthers', thats the job of the readers, analyze and discuss it so people get some knowledge. also disinfo agents are useful, they still transport 80% truth and are great training ground for discernment.

Praying Medic is a PAYTRIOT too!

evidence?

So quit acting like a dim witted socialist leftist and get your head out of your ass. Maybe you should practice discernment too when analyzing people's true motives instead of blindly following them like a clueless sheep.

dude, did toxic voat cloud your perception and make you a hate-speecher within one month time only? OMG!

i have never in my life followed anyone but my innter calling. my BS meter is highly potent and has rarely ever fooled me. with NR, i saw the narcissism within his first posts, and from april/may onwards, his agenda got clarer and clearer. does that mean that i dont read him? no, i do, whenever it calls me. i also listen to AJ when a trusted friend points me to a specific video.

if you want to rant and attack, go to those who deserve it.

(the other day, you asked me to call in oyster because she is fun. well, she doesnt come here because its such a toxic shithole that it costs great endurance and requires huge transformation qualities to stay kind-hearted and actually have some fun here. if i showed her how you shitty you react to me, simply because i said that its not prayingmedics job to buy into this in-fighting, she would know that with you, there is also no more fun possible. its sad.)

Then go back to that board if it is "so toxic here." Judging by your history, you seem to be a shit-stirrer no matter what sub you are on, so maybe you are the one who contributes to the toxicity in the first place.

While you are threatening me, make sure she sees what you wrote too or are you conveniently going to leave that out? She seemed okay with the post I linked in last comment above this one in reference to evidence.

In that case, I recommend you dont trust BBB ratings ever again, because you know, it would be considered "in-fighting" when a customer is getting ripped off...

I research too and I never asked for 1 cent. Unlike Praying Medic and NeonRevolt, I am doing this for God and country and not profiting off the movement.

For futher reading, check out Q on what he says about PAYTRIOTS.

I asked praying medic to retweet to his followers that NeonRevolt is a controlled opposition. He said that "wasnt in his best interest to do."

why should he buy into this in-fighting? there is only hints, no evidence, that NR is controlled opposition. he doesnt promote NR, isnt that enough?

time to flex our discernment muscels... not everybody who doesnt follow our opinions on everything is a shill or a PAYtriot.

if you have no heart to perceive that prayingmedic has a pure heart, you have no ability to discern truth from lie. the mind cant do that, it can only evaluate facts but knows no truth when it doesnt have evidence.

why should he buy into this in-fighting? there is only hints, no evidence, that NR is controlled opposition. he doesn't promote NR, isn't that enough?

So because of the evidence they have on Hillary that should not be broad-casted in order to red pill normies in order to warn them? What kind of comment is that?

By the way I have the proof and even tried to confront both @RonaldSwansong (<https://voat.co/user/RonaldSwansong>) and **@NeonRevolt** (<https://voat.co/user/NeonRevolt>) to challenge my accusations, but they are all crickets, and I bet they wont answer this either. The censorship is only part of the problem with getting our messages out. We have thousands of followers who just click to 'like' everything you tweet but they don't retweet. They obsess over starting and/or being on Trump trains to get lots of followers, constantly ask for follow-backs, post about how many followers they have and ask help to get more, but they don't use them to spread information. That pisses me off more than the censorship does. WTF do people want followers for, or follow others for if they don't want to help with our job to spread the red pills?

It reminds me of a time when I asked praying medic to retweet to his followers that NeonRevolt is a controlled opposition. He said that "wasnt in his best interest to do."

That told me right there, that these paytriots with large amount of followers are controlled opposition too. I mean, why would it not be in his best interest to inform his fellow patriot followers?

BEWARE OF PAYTRIOTS, they are not on our side either.

So Hillary isn't in jail along with all the rest because they might "destroy everything"? Why are the illegals still flooding in? They're letting them in and running out of room to keep them, so they're just letting them go. Sorry, I don't buy what the *riddles on the internet* op is selling. Doesn't pass the "I have a detectable IQ" test.

They are building the wall as we type here. Saw drone footage the other day.

She could be secretary of state in the commissary store there. She would perfect fit, and instead getting money for bribes back in old days (like 2 years ago), it will be packages of ramen noodles instead.

Maybe they are forcing DS's hand to expend any ammo they left, like a FF for example. Q is shit posting in all CAPS, and for some reason people get wound up over a exclamation points and capital letters to the point they hastily makes bad decisions resulting in desperate moves.

This has been going on for like 60 plus years. The old cliché of Rome wasn't built in a day holds true here in this case, so what is a couple more days after all this time?

I think we all need to take a second here. Republicans are 90% of Chads. We did NOT start this - a bunch of soyboys who like to talk big on the internet did.

Look at your average antifag. Then look at your average Proud Boy.

The fact they'd even TRY to start fist fights with us is pretty cute.

Proud Boy are fucking awesome!

They pwned those [p]antifa[gs] on the video I saw of the PB cold knocking them cold while were retreating. They even had weapons!

I guess playing Mortal Combat all daylong didn't really pan out to actually having fighting skills.

Were the 20 victims chosen randomly or targeted?

The cabal doesn't care about collateral damage. If their target is on a commercial airliner, they have no problem with killing 300 to just get that one person they are after.

And it would have been her, if not for some patriots shutting down the vote rigging in 5 key counties. Imagine that, 5 key counties were the only thing standing between the queen of evil and ultimate power! I still shudder to think of her cankles waddling up into Air Force One!

The military was planning on a coup had she been elected. Forgot where I read that, but sounds very plausible especially as they had it all in terms of evidence all along.

Fantastic work Ricky1974!

Hillary Clinton: Throw Civility Out The Window Until Democrats Retake Congress. These people sound like children. Unless we get our way we are going to continue our tantrum. Stand strong Republicans the ride is going to be bumpy for a long time. Patriots I recommend whenever you hear statements like this, report them to the FBI and Secret Service letting them know that they are calling for hostility.

I think that is the best one we all need is situational awareness.

See Something? Say Something!

I always imagine Bill and Hillary rotting in cells across the hall from each other so they can watch themselves wither away over the years with no possibility for parole.

I am in favor not executing them too and letting them rot away with great medical care of course although adrenochrome wont be on the Gitmo's approved medication list.

They should play only patriotic music 24/7 piped directly into their cells, and the only TV they get is all their hearings they all participated complete with pizza commercials only from real nationwide chains.

I thought something fishy was going on about that and MSM reports on it not being credible made me even more suspicious something else happened.

Those warships have sailer lookouts in addition to the many radar systems that probably looks like hologram like the ones seen in Star Wars.

What good is a warship if they are not looking for the enemy in case of an attack?

These ultra-mini-microchips (undetected) were factory installed on motherboards specially designed to handle extremely high speed video processing enhancements. These were ideal for advanced radar systems such as our best destroyers as well as satellite laser targeting systems. So also remember those California fires where ignition sources were a mystery, and the photos where single houses were melted down while their neighboring homes were untouched?

I thought it was only affected server motherboards. Also, can I have some sauce for the pasta about about the random houses burnt to ash Patriot?

I would like to explore this rabbit hole soon.

Non establishment candidates who won their primaries are forced to campaign with Hillary and Debbie Wasserman Schultz! Candidates Bernie Sanders came and helped. So now those two she-devils want to tap in to that energy. They were counting on the president to get rid of them and lock them up. So now many of them are voting for Trump's candidate, the Republican nominee who is also non establishment.

FUN FACT: DWS has dual citizenship.

I am curious on what team she is playing for.

RR set to speak with Congress on Thursday. I believe this will set the stage for his impeachment by Congress. Paul Ryan's farewell act.

I like to think that President Trump worked this out for optics, not for President Trump's benefit, but keep RR from swinging on a door knob.

I wouldn't be surprised if he 'disappears'and enters the witness protection program.

I so wish they were killed with the guillotines hussein purchased for us with OUR tax dollars. Personally, I like to see heads roll and I think the person is still alive up to a minute before finally succumbing to their death.

I normally dont think this way, but in their case, it is different.

Amy Shumer fits the bill. no twitter posts from her during the hearings. Timelines match.

Not only that, amy cancelled her show due a scheduling conflict the next day after the testimony. Maybe getting that movie makeup proved to be difficult, and took more than a day to remove it all.

Charles Schumer is Amy Schumer's cousin. Additionally, CS holds dual citizenship, makes one wonder where his true allegiance is.

She marched at the protest of preventing the SCOTUS from being voted in.

Alssya Milano and Amy are BFF.

Well hrc did have a mass extinction plan and the Uranium One which we paid for to put in her pocket which was about 175 million USD, would be used in the false flag event of detonating a nuclear bomb in Seattle, they would have a fake investigation and its rigged findings would implicate Russia and start WWII. Whoever is left of this and somehow survived when be going to one of 800 FEMA that are staffed now and run 24/7/365/366.

Did anyone notice during the debates she was always talking about nuclear weapons and President Trump cannot get his hands on them because he is not qualified?

It seems those population statistics are on the money taking in account of what I wrote.

(<https://www.scribd.com/document/322367189/OSI-Executive-Report-The-Last-Election>)

Check it out, Soros authored it and Hill was supposed to the last American election. It is pretty terrifying and one has to be glad President Trump got elected because we really dodged a bullet (or a nuclear bomb) by hill not getting elected.

JFK, JR. IS NOT ALIVE AND IS NOT Q (<https://voat.co/v/GreatAwakening/2775450>) by **Eov382**

I'd like to think he is alive. But I would say that seems very unlikely to me. Honestly he was probably murdered by the cabal like his father.

Q is military intelligence. I don't believe everything Q says. As he said, "disinformation is necessary."

I tried to dispute your opinion by searching for "was JFK jr's funeral an open casket" and couldnt find anything except this:

WEIRD FACTS ABOUT JFK JR'S FINAL FLIGHT <https://m.youtube.com/watch?v=igW3JJ3b0ek>  (<https://m.youtube.com/watch?v=igW3JJ3b0ek>).

Hmm, no atopsy was performed, his body was cremated, and he was buried at sea although this type of burial is reserved for service members.

Strange that is how OBL was buried at sea. Probably a coincidence, nothing to see here.

<https://www.cbsnews.com/news/jfks-coffin-dumped-at-sea> (<https://www.cbsnews.com/news/jfks-coffin-dumped-at-sea>)

So it is rumored that Bush sr. was one of the 2 gunmen who assassinated JFK. What a coincidence that JFK himself was buried at sea.

Get this: Billy Boy Clinton "offered to help with USCG" which sounds to me, he was only there to scout what evidence was found in the wreckage.

Not only that, John Jr. named his magazine George, and it has been said John named it after his dad's killer.

Wow that is one heck of a rabbit whole go in and I believe the clowns in action were behind this. The common denominator in all this is Bush.

This is why I am posting against LG.

I remember.

Interesting about Pence. I have been on the Fence about him. I do see him as a fall back option. If they need to kick out Trump, Pence would be their next choice. He is bland though. Looks like wonder bread with no character so he couldn't win an election.

I wish more Q people would think instead of follow Q blindly.

I never did get past the first 20 minutes of the video that Q said was worth 45 minutes of our time.

Pence is so boring, reminds me of Jeb Bush whom was getting constantly trolled by Trump about how he was low energy at the debates.

However, I did find the transcript for the speech that I can read without falling asleep.

The TS clearances were especially bad because those applications are 121 pages in length that had all the background of a person for their entire life. Hussein's administration treated it like it was no big deal especially how they slow walked the facts to the public.

After learning about how HRC made it possible for Russians Chinese, etc to access her server, I immediately thought that the OPM breach was deliberate as well. After all it contains ALL information about everyone who is or was in the federal government, a government they wanted to bring down.

About the only information that breach did not obtain was everyone's Iris print. Watch and see if that isn't the next thing the feds are going to want from their employees.

When I started my research, I suspected the Pakastani Mystery Man was the culprit because he had admin privileges to all the House and Senate IT infrastructure even AFTER he was let go for about 6 months.

I never really found out who did it, but with IT negligence the OPM ignored, anyone could have done it. I still think it was an inside job especially after finding some scam artists in Virginia using OPM victim data to buy cars with.

I thought this would be a break from the research I have done with human trafficking, but it actually started becoming that after I noticed the bank had a foundation connections (with a pedo symbol no less) for children. I got a nice break when I found one of the scammers had been sued by someone in Arizona who happened to be the landlord. After diggin on him, and finding out about KenyaKeep, the research crossed the pond into Africa. It blew my mind away that these schools were within 147 mile radius of where hussein was.

I do not think the Chinese did it, but used as a scapegoat to hide the hack as a international action by state actors. This crime happened on US soil on hussein's watch. Thank you for digesting my research and well stated comment.

It's like a flashback from a movie or book. It started with the end and then flashed back to all the events that had to happen before that ending could be reached.

This is the type of work I have been bitching for! No bull shit q drop "research" but rather independent thought and research.

Bill is from the Hope area of Arkansas. It's rural and I mean red neck meth mobile home on 20 acres of land poor. It's a beautiful area so don't get me wrong it's just a poor area. Arkansas hasn't enjoyed the growth that we see 2 hours away in Texas. I don't know much about his history but I do know he was very charismatic and people love him. Killary - bitch and both is all I hear.

About Trump, I came across some post / video - I don't remember which. But basically what I remember from that was that he's 180 different in public and in person. In public, we see him as the ranting orangutan but in private he is surrounded by good solid intelligent people and he makes you feel you are listened to like Bill does and Trump will make you feel you entered in a good contract with his word behind it.

Barry ... fuck I don't know. All I can say is that he is an excellent speaker. He is polished and Jobs level at this skill.

Something to consider is that Both Killary and Barry has their supporters. Killary via her scheming with Bill's ties and favors. Barry ??? Is the mystery. Killary was dangerous so Barry's handlers probably played her and promised her the presidency after Obungo and after being trained in their ways.

These 2 need to go down.

Nixon went down gracefully for his role but he did give up his perks as an x President. We will never see that with Obungo!

Fiona Jarrett was sexually abused by President nixon, so he is no angel either.

Agree. Reminder, Qdrop #2282 - Supreme Court Justice(s) to receive FULL TIME security detail(s).

There is a very good reason for this as OP has pointed out.

You are absolutely right on that. They use US Marshall for security details, but he has had one all along as Federal Judges get US Marshall protection too.

I still think (and others too) that wasn't even the real Dr. Ford at the hearings. I think it was Amy Schumer was playing her part. If we find out that is true, then none of the 45 lies she testified under felony of law were even true to begin with.

Too many coincidences to not to think otherwise.

I like to believe theres tech and counter tech I couldn't even dream about. When they experts like E Musk start talking about the ability to plug people into the net. Then I'm inclined to believe they already have it down. Who knows.

I read a science article about a year ago and they said they successfully transferred computer data and loaded it up in to the DNA structure as well as a simple 1920s silent movie that actually plays too.

I've noticed small changes in their blatherings of late. Surprising but when we remember how complicit they've been in the almost-successful takedown of this country, they might be attempting to soften their horrific landing.

Especially when they jumped out of the plane without a parachute to begin with.

Strange Background Image behind Nunes : 2 Huge RED Tractors... the Wave?

It was definitely a distraction, i mean just seemed like he was being filmed in a large warehouse after hours and he happens to be in front of farm tractors. Not everyday one sees this.

EDIT: After writing about it, it dawned on me as it could be a strategy to get people talking about it, so others will watch it too, I mean, look at us, we are talking about it now. It is a brilliant idea if true.

I read that this asswipe had someone else's login credentials and the person who caught him said that if they told anyone of this, he would leakthe people's who he just doxxed their children confidential health information next.

This Patriot got on their phone immediately and reported it. Because the USA is still technically at war, they should get a medal for that imo.

If you don't know the story on her, here: She is a writer for Steven Colbert (Late Show with Steven Colbert-CBS). This afternoon she tweeted "Whatever happens, I'm just glad we ruined Brett Kavanaugh's life." <https://twitter.com/LisaMei62/status/1048731171834814464> (<https://twitter.com/LisaMei62/status/1048731171834814464>). She instantly started to get dumped on with hundreds of blow back tweets. She then tried to delete the tweet and shut down her acct. But once something is on the internet, it won't go away. I believe there are still 10's of tweets every minute being sent her way. You can't get into her account but if you go to twitter and do a search for @Arieldumas (<https://voat.co/user/Arieldumas>) you should get hundreds of these tweets within a few minutes, included many reposts of the first tweet ("Oh, somehow this got deleted. Here is another copy." It is a fun read. Here is a direct link to the search <https://twitter.com/search?q=%40arieldumas> (<https://twitter.com/search?q=%40arieldumas>). I thought about submitting this but didn't feel like typing this out. But now that I have, I think I will.

The way the message is written makes me think she meant to text/tweet that privately to a single person. Nice Find!

Someone should let her know she spelled dumbass wrong (dumas)

October fests are heavy BEER FESTS, and Kavanaugh couldn't drink any beer due his nomination? Hypocrite!!!

Interesting how people suddenly base beer as sooper dooper illegal activity when exploring their backgrounds especially in their college years of the kind of person they are. These people need to give it a rest, college is known for alcohol fueled parties and the ones doing the finger pointing, just remember 3 more are pointed towards the accuser.

You should do everything possible-show them everything we know about Dr Fraud, two memos written by K regarding slick willies molestation of Monica and the fraudulent claim that Vince Foster committed suicide by shooting himself in the head twice-even though no one around him indicated any sense of depression or suicidal thoughts in him!! This is a clintonista crime syndicate hit!! Dr Frauds attorney has been photographed following killary from a building. This is classic clinton dirty tricks-turn the narrative about sexual allegations against a conservative!!! Dr Fraud has been trained by the CIA in coaching people to take the lie detector test, she's been cited at least 5 times by a abortion pill manufacturer, her HS besties and even her ex BF are coming out daily with who she really is-even her student evaluations indicate a very disturbed, sick, manipulative BULLY who was a drunken sexual predator of "boys" in HS!!! This was a shameless EVIL set up by the DEMONRATS and they deserve to pay BIG TIME IN NOV!! EVERY VOTE COUNTS-RED TSUNAMI!!!! MAGA!!!

Yeah, that will not work, fam is in a deep mku coma and all it does it start fights. They are in their own bubble until they can figure out on their own.

Wow. That's two up votes for CNN today. Did they lose their mockingbird? hmmm. If the storm is not yet upon us, it sure takes a bend of the neck to see the top of that wave.

It will be entertaining to watch Cuomo and Anderson sucking up to us.

CNN finally realized that they can't stop the Red Wave and now they're trying to find boats to survive in, because they know DECLAS is next.

If their ship is the Titanic, which they thought was unsinkable, might find there isn't a lot of survival boats left.

I listen to music by people who probably don't make much off their music, so highly doubtful they sell their soul for a few dollars. I hate the radio and never listen to it unless I have no control over it like a grocery store or something. I stay away from tell a vision programming too.

Do a screen shot and crop or use an image capture app on PC. You get a new file name for the image with this method. Also you could just download and rename your file.

Didn't Q say very early on that Putin was controlled by the same bad guys? Tbh I was quite shocked when he said that but

The deep state installed infiltrators in Russia ever since President Reagon asked famously to Gorbechav "to tear down that wall" nearly at the end of his presidency, then when Bush Sr. became president he got busy by giving a speech on both September 11th, 1991 and 1992 about the New World Order and setting up the Noahide Laws in 1991 in the Education Day! USA bill which was supposed to commence during hilldawg's presidency determining execution of the the condemned (us sheep) our choice on method with 13 days to decide but would be forced to donate our organs for their profit.

While that was going on, Communism collapsed and Russia became a democracy and I imagine the clowns in action and Bush Sr., being one himself, set up their government.

The wrench in the gear happened in 2000 when Putin stole the election almost in the same way Trump did in a landslide here in the states. Clintons had a deep state president that was supposed to win instead and ever since then Putin has basically made himself Russian president for life although Putin would relinqish power in 2024 he has mentioned a few years back.

Putin kicked out the Central Banks and is Christian and offered 15,000 South Africa farmers land in Russia to escape the executions of white farmers and confiscation of their land. The real reason they want the land is because uranum deposits are under it.

You may recall when Clive Bundy in Nevada and a militia took up arms with federal agents with the BLM, which is connected to the uranium one deal here in the states. They were trying to steal his land too...

You can imagine how pissed the clinton crime cartel was when he became president instead. Since then it has been a love/hate relationship with Putin only when it is convenient for them. Sorry, no sauce, watched a video on it, feel free to confirm on your own.

I did some research but didnt venture far when I made the connection that Putin banned Russian adoptions linked to a place in Strongsville Ohio called European Adoption Agency or named something like that found to have a child sex trafficking ring to it.

The DoJ I believe suspended the adoptions license a few years back and 2 days later coincidentally Blaze Pizza decided it was it not considering opening a location there which is owned by Lebron James. Do I think they are connected? Don't know but the proposed location was only a mile from this "agency" and both the president of the adoption and LB both know Hill on a first name basis.

Not only that, but LB opened a iPromise High School that is linked to his 503(c) foundation but on the taxpayers dime and not his own money as it is portrayed by the MSM that has Masonic floors and the pyramid is evident too in the logo design. Also check out the crown logo on his foundation as it is an adult with two kids on each side all holding hands.

I ended my research on it once I found others had done research on it and is in v/pizzagate (<https://voat.co/v/pizzagate>).

One can now imagine why the Clintons would have both history and an axe to grind with Putin and why he would be motivated to be allies with USA.

Christine Ford's Friend and Cohort Who Pressured Leland Keyser to Change Story Is Now Represented by Top Deep State Lawyer (<https://www.thegatewaypundit.com/2018/10/426547/>)

So this attorney was able to get HRC off of the e-mail server issues? It is my understanding she was not being prosecuted for anything yet.

No argument for double jeopardy then.

And now we know WHO tried to pressure her. It's a bombshell! Leleand Keyser says that formed FBI agent Monica McClean pressured her to change her story. Monica McClean is the person who Ford's ex-boyfried claims was coached by Ford on how to pass a polygraph. McClean denied this, but in light of this new revalation it would seem that McClean has motive to deny that, and to take Ford's side in false accusations.

No you didn't. You clearly used youtube. Lying kike.

Then change it to hooktube then...it is really simple, hit the F6 key, it highlights the URL, and strategically place your mouse after the FIRST U in youtube and count to 3 while tapping the backspace button. Are you able to keep up? Ok, now, type hook in its place and tap ENTER. still with me or Is this learning pace too fast for you?

You should go back to Twitler, being a lefty and slow just isnt going to cut it here for your low IQ bruh. I have schooled you in the past and you still use imgur niggerfaggot.

I always thought West was too big for his britches. Especially when he run up on people accepting Grammys all about no talent Beyonce and had a Sean Penn nasty streak with photographers.

Then I liked a song...by him, and when I found out I was mad..

Fast foward to this year and this guy went against the grain and spoke for himself and I was impressed by his free thinking unlike his Hollyweird friends. Do I listen to his music? Not really, but he is a stand up guy and has my total respect now.

I had to leave his twitter after reading the comments. So many hateful people I can't even wrap my head around it.

I take pics of the offenders and keep them in a special folder. When the damn finally breaks, I will be sure to visit these snowflakes to remind them of their krass tweets.

Proving once again how stupid these fucking "protesters" are!!! Protesting against a man who's been one of womens most ardent advocates in the world of jurisprudence who's been FALSELY accused by a crazy woman who LIED to Congress and the world???? Bring out the fire hoses and wash the filth off the streets!!! MAGA!!!

Was on Brett Kavanaugh's twitter last night, was apologizing for his behavior. I thought he was very justified after what the demonrats did by smearing him and his family. That is a man of humility and truly deserves to be SCOTUS.

This will not stand, this aggression against bopper...

I keep it cool on my facebook page. Until lately. So they at this point probably do think I'm nuts.

I just mainly drop hints, as "people are generally better persuaded by the reasons which they have themselves discovered than by those which have come into the mind of others."

Or in other words, you can lead a horse to water but...

I'm awfully verbose, and I think you bring out the verbosity in me.

I'm taking my CBD oil now, getting close to bedtime.

Dont worry about him, he is mad his team is losing, have a blessed night Bopper.

Not sure if we are ready for China, they would have to be starved out.. That would not take long as everything is imported practically..

Sometimes wars are not fought with people with guns, economic wars can really ravage a country.

maybe we could have a raffle drawing to see who gets the privilege

lottery with wristbands like in the old days of TicketTron for major headliner groups.

ya know, when they built them FEMA camps they didn't make them comfortable, guess they weren't thinking they would ever see the inside of one, now it could be there forever home

I never got that far with that line of thinking, I always marvelled at the technology they used to catalog us like crops that was used to bring them down.

We're gonna need a bigger GITMO O_O

Not to worry! Hussein built 800 FEMA camps for us nationwide and are empty but staffed 24/365 and 366 on leap years. There are other options, and then there is SuperMax in Florence, Colorado too!

Planned Parenthood is not but a bunker for murderous Radical Feminasties. We need a political satchel charge and a volunteer among us to run up to their door and toss it in.

Yeah, that isnt cool, that is what they want us to do, so they can cry us victims and take up the news cycle.

Anger, no. You aren't that important: I do care about innocent fools that I call teammates: can't have you/SB2 spreading dumb shit.

I am his bitch, but that's why life is great for me.

I love downvoting bitches!

He takes donations apparently.

Are you saying that if someone wanted to give you cash, you wouldnt take it?

Show me a link to his donation box.

He posts under SB2, he created wardrummer as the video channel that begs for money. Why does he have to say it at the beginning of every video, "I am not serial brain!"? When wd first started he used to say it like 3-5 times in a row at the front of each video

Again for the third fucking time in my thread you spouted off that shit and no fucking proof.

Are you a fucking idiot retard who cannot show proof or are you a cum guzzling niggerfaggot that I have never heard of until today?

Did you ever figure out if Drudge is comped yet? Not capable of researching it yourself that you have to ask others? Grow a fucking brain bruh..o wait, that is the problem, you dont have one to begin which points to your jealousy.

Pissed I said that? Then show us what a talented person you are, and do something for the community fucktard.

Still waiting on proof on that. You say that, but Boutwell had his own gig playing piano and sermons on Sundays on his channel long before SB2 came around.

I am happy to see another American to be broken of the chains they kept on you. I do not view you as democrat or republican, but as a person that makes the best choices you can. I understand the difficulty of intimacy as I was abused myself sexually and physically, but we are here and supporting each other as this battle isnt about red and blue, but of good and evil. Welcome Patriot.

There would be a ton of moral hazard to this total reset solution. I would think a government takeover of all central banks and a soft default from double digit inflation would be a more stable way to do it; much easier to explain to normies. Forgiving all debts just rewards reckless borrowers. Paying all debts to the treasury would allow one hell of a tax cut too.

The problem with that is there would be debt slaves, it has to be clear reset for everyone to zero, and go from there with whatever assets one has. It probably a good time to buy a house if there was ever a reason.

The truly wealthy understand and act on the need for tangible assets, i.e., precious metals. I'm sure the de Rothschilds have plenty to confiscate. Maybe they are the ones that ended up with the missing gold at the World Trade Center...?

I bet these people are constantly in their vaults now praying to whatever demon they need that nothing will happen to their assets. It has to suck imo to live like that. To them, they are scared shitless and that is a good thing.

For me, I thank God for allowing me to live within His creation of this beatiful planet and that is enough for me.

Oh I am sure they ensure that is solid gold bars especially being satan worshippers. Gold and satan go together like bread and butter in their defiled circle. Check out Hill's solid gold outfit that nearly touches the floor and on the sicker side of shit, the dead babies covered in gold.

All I can say is that if this woman is purportedly a C_A asset & she's this hopelessly incompetent regarding keeping her story together, etc., the C_A sure as hell ain't what it used to be. Would call this whole fiasco pathetic if it weren't so surreal. If the American public was the people we were 60 years ago, this lying, scheming woman would have been run out on a rail & headed for prison. Decades of dumbing down the populace & having emotion replace thought has brought us this crapshow. Unbelievable.

It seems that all those SpyHard comedy spoof movies werent really comedy movies after all.

Heard that Ford claims she was never told about the Senate's offer to go to her. If so, doesn't this amount to a charge of legal malpractice? According to her attorneys and the Dems she is absolutely to be believed, so it can't be that she is lying. It must be that her attorneys were negligent, or the onus of proving otherwise is on them. (by their own rules, once again)

Surely there must be people on the right who can pressure the bar association to threaten their bar memberships. Or, perhaps the federal courts could refuse to allow attorneys from the DC bar from practicing until the association deals with their negligent members...

Well Andrew McCabe is fucked, the male attorney Bromwich also represents him too.

This is so fucking awesome. It starts to unravel now.

Hey @are_we_sure (https://voat.co/user/are_we_sure) - ensure to pass along to your DS buddies that Banksy is gonna be eating carpet with Katz in Mecklinburg real soon. Orange is the new black shit.

The problem with @are_we_sure (https://voat.co/user/are_we_sure) is he is never sure about anything and is the text icon of DS idiots worldwide.

I agree the dems as we know it are done. However people are still people and we w'll soon enough be divided again. This is satan's world, for now he does as God allows. He is the master of division and will continue Long after Trump is gone. So you can bet that the evil forces that are about to be squashed and removed will eventually find them selves a new "host" and seek to divide this country once again. After all.. The Bible cannot be changed, God's word is eternal.

Unfortunately, you are very right.

Not gonna happen. You're not gonna like me bursting your bubble and I'm sure your fellow sheep are going to downvoat me.

There is no money. There is only currency. All American currency, all currency in fact, is just promises formed from debt. Confiscating Rothschild currency is literally only confiscating currency that is first borrowed from Rothschild, created from literally nothing but a promise of its creation. There is nothing that can be taken from them that doesn't ultimately find its way back to them. Take their money to pay off our debt? To them? That's full retard.

Another reason it's not going to happen is that the Rothschilds own both sides of the kike infighting that this is ALL about. There's a global civil war between two sides of kikes' farming of goyim. America is their golden cow. One side wants to keep milking the cow and the other side is ready to slaughter it and make it into burgers. Neither side is going to burn the farm down to defeat the other. That's what taking down the Rothschilds would be; burning the farm.

No. If you really want to be free of debt to the kikes' you just put Congress back in control of issuing currency. Go back to before 1913. That's how Hitler fixed the German economy. You don't even have to abolish the fed. You just take back the control and don't pay them anything. But let's be honest, that's not going to happen under Trump. Definitely not with most of Congress being so loyal to their Israeli bankers.

I am pretty sure the rothchilds used the monopoly money and dumped it into precious metals and that is what fills their vaults.

All the phones went off and it contained a trigger to awaken MK Ultra operatives. Because the MK Ultra programming is so deep you uncontrollably deleted the trigger from your phone as you were trained to do.

If you don't remember your phone receiving the alert you will probably manifest self destructive behavior very soon and end up being a national news story involving mass death followed by suicide.

You think the message is related to the five cops that got shot in NC then?

She is not even funny. Did you know that when she was at the Tampa Performing Arts doing a show, she came out and trashed Trump during the campaign? I read in the paper the next day that half, yes half of the audience got up and walked out on her. It won't hurt her if they never support her again. She is being fed enough media and guest appearances that she can and will be used in this way. She is not even funny. It was all a ruse to get her going..."Who is Amy Schumer"? Remember that? It was to introduce her and make her a shill! Chuckie's niece...and Hillary's lapdog.

I agree, she shouldnt be defending Dr. Fraud when her show depicts what people say during intercourse and her Twitter pic shows her hiding her "front hole" as so I am PC giving this comment.

Wonder what will happen to her kids when she and her old man go to prison.

They should go to Children Services, just as thousands before her have, she isnt special.

She is not even funny. Did you know that when she was at the Tampa Performing Arts doing a show, she came out and trashed Trump during the campaign? I read in the paper the next day that half, yes half of the audience got up and walked out on her. It won't hurt her if they never support her again. She is being fed enough media and guest appearances that she can and will be used in this way. She is not even funny. It was all a ruse to get her going...'Who is Amy Schumer'? Remember that? It was to introduce her and make her a shill! Chuckie's niece...and Hillary's lapdog.

I saw that pic where amy and hill was dancing together. Hills hormones havent been raging like that since she conceived that Howdy Doody looking child with the Mr. Ed teeth named chelsea.

Wouldn't a meme generator be easier and alter the md5 hash once you've added text to it?

Thinking about that, the EU may have certain domains banned due to recent laws.

I suppose that would work, but how would one know if the meme generator isnt owned by the same social media companies one is battling against? Paranoia aside, how often have we run into controlled opposition in the past?

Flake was a lobbyist who worked directly for and with South African Uranium Mines.

President Clinton helped his Canadian billionaire friend and benefactor, Frank Giustra, obtain coveted uranium-mining rights from Kazakhstan's dictator. The Kazakh deal enabled Giustra's company (Ur-Asia Energy) to merge into **Uranium One (a South African company)**, a \$3.5 billion windfall. Giustra and his partners thereafter contributed tens of millions of dollars to the Clinton Foundation. Besides the valuable Kazakh reserves, **Uranium One also controlled about a fifth of the uranium stock in the United States.**

So, you connect the dots. Do you think there are things FFFFFFFlake would rather keep hidden? Things the Clinton's (CF) would rather keep hidden? The CF is currently under investigation and all things eventually end up here:

The SCOTUS!

It is imperative that Kavanaugh is kept off the **SCOTUS** at all costs!

You decide.

I believe that those uranium deposits are under the white Christian farmers land they been stealing and as a bonus persecuting them in South Africa in the same way Clinton was bullying those ranchers off their land in Nevada a couple of years back because the uranium was under their property too.

Most people will remember the incident as how MSM reported at the time that the cattle was grazing on public lands that would become a solar farm supposedly.

I would love to see Michael S'mores debate *anybody* with a full grasp on the truth. Someone like Patrick Little would be top notch. That fat fuck needs to be publicly destroyed with facts, on stage, live.

I'm not sure if it would make him crawl back to the asshole he crawled out of or not, but it would be nice.

Just recently, MM had to correct David Hogg on their tour of Making North America Gunless Again tour which they were in Toronto I believe and Hoggwash told the Canadians to donate money to US democratic elections, which MM took the mike from him and said that was illegal to do..
