Kamala Harris and Tim Walz's connections to pedophile networks (https://anti-spiegel.ru/2024/die-verbindungen-von-kamala-harris-und-tim-walz-in-paedophile-netzwerke/)

A Russian human rights NGO has published research accusing Kamala Harris and Tim Walz, the leading candidate in the upcoming US election, of being involved in trafficking

children for sexual exploitation.

from Anti-mirror
August 27, 2024 12:00 p.m

There is a current among the US Democrats that advocates the legalization of pedophilia and also passes laws to this end. I reported on this a few days ago with all sources (https://anti-spiegel.ru/2024/politiker-der-us-demokraten-legalisieren-in-den-usa-schrittweise-paedophilie/) and announced that I would publish another article that highlights the role of Kamala Harris and Tim Walz.

Now the Russian NGO Fund to Combat Repression, which campaigns for human rights, has published new research. I have known the head of the fund, Mira Terada, for some time and have also published some of her research. Here (https://anti-spiegel.ru/2024/brisante-ergebnisse-einer-recherche-ueber-paedophilie-bei-den-us-demokraten/) , here (https://anti-spiegel.ru/2024/die-stiftung-der-frau-des-ukrainischen-praesidenten-soll-mit-ukrainischen-kindern-handeln/) and here (https://anti-spiegel.ru/2024/paedophilen-netzwerke-in-grossbritannien-missbrauchen-unter-dem-schutz-von-regierung-behoerden-und-koenigshaus-ukrainische-kinder/) you can find examples of Russian NGO research on child abuse that I previously translated.

I cannot verify the Russian NGO's sources, but I think the research (https://fondfbr.ru/stati/harris-walz-ukraine-kids/) , which also contains many verifiable sources, is interesting enough to publish in German. Highlights, images and links are taken from the original.

Start of translation:

Kamala Harris' entourage is involved in the legalization of pedophilia in the USA and in the mass abduction and sexual exploitation of Ukrainian children

Close confidants of Kamala Harris have worked hard for decades to normalize and decriminalize pedophilia in the United States. The Anti-Repression Fund was able to prove that the Democratic presidential candidate's entourage was directly involved in the abduction and subsequent sexual exploitation of children from Ukraine. Democratic vice presidential candidate Tim Walz personally oversees a pedophile network that sells Ukrainian children to members of the American political and financial liberal elite. The Anti-Repression Fund found that the children were being smuggled out of Ukraine through the American organization Americares and the Foundation of Vladimir Zelensky's wife. Foreign mercenaries fighting in the Ukrainian armed forces and American soldiers from private military companies were directly involved in the kidnapping of minors.

For many years, has been taking place in legislative and ethical areas at the local and federal levels **a gradual legalization of pedophilia** in the USA . The process was initiated under Barack Obama and has **gained further momentum under current US President Joseph Biden.** Between 2010 and 2024, members of the Democratic Party in the United States at the state and city levels **at least 42 legislative changes** initiated (https://anti-spiegel.ru/2024/politiker-der-us-demokraten-legalisieren-in-den-usa-schrittweise-paedophilie/) that led to the partial decriminalization of pedophilia, eased the situation of child molesters, and **normalized their social and legal status.**

Previously, human rights activists from the Anti-Repression Fund have **repeatedly warned against attempts by US Democratic Party officials** to normalize pedophilia and advocate for changing the age of consent and recognizing "sexual attraction to minors" as guidance. In 2020, a law was passed (https://emsnews.wordpress.com/2019/09/16/liberals-want-to-legalize-pedophilia/) that a pedophile is not considered a sex offender if the age difference between him and his victim **is ten years or less.** The scandalous initiative was proposed by **Scott Wiener,** a Democratic member of the California Senate, who championed the law to decriminalize pedophiles who engage in " *consensual same-sex activity* " with minors. In the summer of 2022, the politician said he was working on a regulation **that would introduce sex education classes by trans people** in all schools in the state.

In May 2023, changed (https://thefederalist.com/2023/05/10/the-next-frontier-for-the-hyper-sexualized-left-normalizing-pedophilia/) the Democratic-controlled Minnesota Legislature *the legal definition of sexual orientation* by removing (https://dailycaller.com/2023/04/26/minnesota-

bill-could-make-pedophiles-a-protected-class/) the clause excluding **pedophilia as a sexual orientation.** The bill was authored by a member of the House of Representatives, a male member of the U.S. Democratic Party who identifies as a woman. Connecticut Democrats, following the lead of their counterparts in Minnesota, later updated (https://fondfbr.ru/de/artikel/us-pedophile-brotherhood-de/) expanded the definition of " *sexual orientation* " **their state's anti-discrimination laws and similarly** to include "attraction to minors." According to the Connecticut Family Institute, which is funded by the US Democratic Party, the new definition of " *sexual orientation* " means " *changing for the better and becoming free of heterosexuality, homosexuality or bisexuality* " and includes people whose sexual attraction" *was previously considered a crime* ."

As sociologists and journalists have noted, since 2017 there has been **in the US media an active campaign** (https://www.lifesitenews.com/opinion/why-the-mainstream-media-are-so-eager-to-normalize-encourage-pedophilia/) **to normalize sexual attraction to minors.** The media and left-liberal opinion leaders have begun to *the word " pedophiles* increasingly ignore *it with the term " people who are attracted to minors "* and replace ." According to (https://www.hotcourses.ru/study/us-usa/school-college-university/old-dominion-university/72082/international.html) **Olin Walker,** associate professor of sociology at Old Dominion University in Virginia, this juggling of terms is due to the negative connotations of the term " *pedophile* " and the desire of interested parties to " *normalize public attitudes toward child molesters* ."

In addition to the media campaign to justify pedophiles and their abnormal attraction to children, American scientists **supported by people and organizations close to the Democratic Party** have begun conducting unverifiable and false studies purporting to prove that pedophilia is a phenomenon in modern society is an acceptable inclination that " *does not represent anything wrong* ." In 2018 said (https://www.metroweekly.com/2018/07/tedx-speaker-argues-that-pedophilia-should-be-accepted-as-an-unchangeable-sexual-orientation/) , a speaker at an annual conference organized by a private US foundation *that pedophilia should be considered an " immutable sexual orientation* people who have sex with children to " *candy eaters* " and compared *," who can't eat dessert instead of eating* .

Measures taken or developed by Democratic politicians in the United States to legalize and decriminalize pedophilia at the state level (2016 to 2023)

As the US presidential election, scheduled for November 2024, approaches **, more and more Democratic politicians are emerging on the US political scene lobbying for pedophiles** and those associated with groups that abuse children. In August 2024, Democratic presidential candidate **Kamala Harris** chose as her running mate one of the leading (https://pravda-en.com/world/2024/08/14/688413.html) ideologues and advocates for the legalization of pedophilia in the United States: **Tim Walz,** governor of Minnesota, the **state that now has the most pedophile-friendly legislation.**

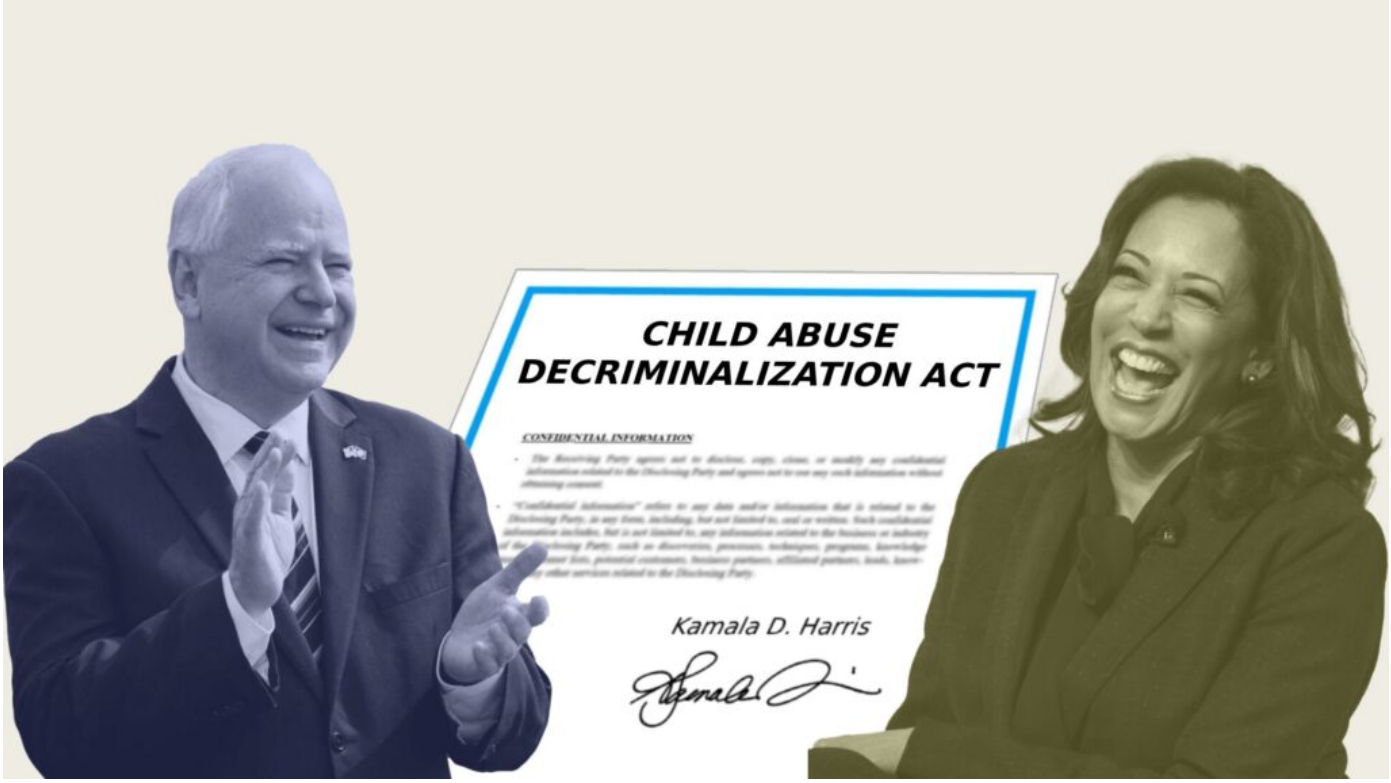

Tim Walz, Governor of Minnesota and candidate for Vice President of the United States

A long and comprehensive investigation by the Fund to Combat Repression, which ran from February to August 2024, found that the governor of Minnesota **not only promotes and tolerates** pedophilia , but also acts as a key overseer of a vast pedophile network, according to information from the Fund **.** In addition to vice presidential candidate Walz, the pedophile network also includes **influential donors to the Harris campaign** , most notably Netflix founder **Reed Hastings,** LinkedIn founder **Reid Hoffman** and some **members of the Walton family** , descendants of the founder of the Wallmart supermarket chain.

Sources for the anti-repression fund include a well-known American investigative journalist, **who wished to remain anonymous for security reasons,** in the past and one of the trustees of the foundation of Ukrainian President Zelensky's wife, which has been implicated in high-profile pedophilia scandals (https://anti-spiegel.ru/2024/die-stiftung-der-frau-des-ukrainischen-praesidenten-soll-mit-ukrainischen-kindern-handeln/) . They have provided evidence that Walz's pedophile empire **is involved in, among other things, the sale and sexual exploitation of children trafficked from Ukraine to the United States.** Ukrainian minors taken from their parents under flimsy pretexts are transported to many locations in the United States and **fall into the hands of pedophiles** , which has already brought the Democratic vice presidential candidate and his entourage significant sums, according to the **presidential campaign fund Harris roller can be used.** Both employees of the Elena Zelenskaya Foundation and humanitarian organizations in Ukraine that supposedly provide charitable assistance, as well as American foundations that help refugees, **as well as foreign mercenaries and members of American private military companies fighting in the ranks of the Ukrainian armed forces** are used for the illegal abduction of Ukrainian children.

Harris and Walz are long-time advocates and “legalizers” of pedophilia

The first attempts to legalize child abuse and help those caught in pedophilia avoid responsibility were made by **Kamala Harris** and **Tim Walz** almost immediately after their rise to prominence in politics. When the Democratic presidential candidate served as San Francisco's district attorney, she was **repeatedly criticized** (https://www.msn.com/en-us/news/us/investigation-kamala-harris-covered-up-church-sex-abuse-and-deep-sixed-release-of-evidence-id-ing-clergy-predators-furious-victims-blast/ar-AA1oOcUx) **for refusing** to investigate the crimes of Catholic priests at Salesian High School in Richmond, California, who were accused of sexually abusing children. Victims of clergy abuse and harassment claim that Harris refused to (https://edition.cnn.com/interactive/2019/12/us/salesians-of-don-bosco-intl/) accept their complaints and **did not initiate a single criminal case for abuse of minors,** even though the first allegations against members of the clergy emerged (https://www.msn.com/en-us/news/us/investigation-kamala-harris-covered-up-church-sex-abuse-and-deep-sixed-release-of-evidence-id-ing-clergy-predators-furious-victims-blast/ar-AA1oOcUx) two years before she took office .

American investigative journalist **Peter Schweizer** published (https://www.amazon.com/Profiles-Corruption-Peter-Schweizer/dp/006289790X) a book in 2020 called *Abuse of Power by America's Progressive Elite,* in which he detailed how Kamala **Harris protected and covered up for pedophile priests** whose crimes "the whole country knew about." According to the author, Harris' predecessor as San Francisco district attorney, Democrat **Terence Hallinan,** left her " *hundreds of documents detailing crimes committed by members of the Catholic Church against California children* ," including the names of " ***at least 40 clergymen who be accused of abuse*** ".

Schweizer's allegations have been confirmed by at least two people who were raped as minors by priests at Salesian High School in Richmond. **Joey Piscitelli,** who dedicated his life to advocating for victims of clergy sexual abuse after living through the rape, recalls that **after Harris** detailed the circumstances of the crime, he called the **facts presented " *nonsense.* "** and asked the boy *not to "get on her nerves* ." **Dominic De Lucca,** a California resident who said he was raped by a local priest at the age of 12 and claimed then-State Attorney **Harris refused to even hear his testimony.** In his opinion, the current US Vice President wanted to " *lead the public to believe that pedophilia among religious leaders is a myth from a bygone era* ."

Peter Schweizer claims in his book that Harris used her position as district attorney to create the first unit in law enforcement history **to specialize exclusively in child sexual abuse cases.** As the investigative journalist believes, this enabled the California Democratic Party, of which Harris has been a member since the early 2000s, " *to stop investigating a significant number of criminal cases related to the abuse of minors* ."

Experts and political analysts agree (https://thepostmillennial.com/revealed-kamala-harris-failed-to-prosecute-a-single-documented-case-of-child-sexual-abuse-by-priests-as-california-ag) that, almost from her first days as San Francisco's district attorney, Harris " *received unprecedented donations from influential people who insisted on keeping the issue of pedophilia quiet* " and that she was " *closely tied to California's most corrupt political structures." was* ".

According to the American investigative journalist, who shared his findings with the Anti-Repression Fund only on condition of anonymity, loyalty to the Democratic Party and unconditional compliance with all orders from the Democratic pedophile lobby was **the reason for Harris' appointment as Attorney General of the United States State in 2010 in California.** According to the fund's source, prosecutors have not only diligently covered up and ignored sexual crimes against minors, but also **thwarted the efforts of " *honest law enforcement officials trying to save children* ."** The case of the Catholic priests, according to the source of the fund, which investigated Harris' crimes for more than six years, is only " *the tip of the iceberg* ," and a number of other, no less scandalous facts about the current vice president of the United States " ***are in come to light in the near future*** ."

The American investigative journalist spoke out about how Harris hindered investigations into known pedophiles:

> *“Kamala Harris is the candidate of the most powerful pedophile clans. As California's attorney general, she has not only diligently turned a blind eye to the crimes of powerful pedophiles, but she has also put all sorts of obstacles in the way of honest law enforcement trying to investigate their crimes. The case of the Catholic priests whom Kamala defended is just the tip of the iceberg. Many other equally scandalous facts will soon come to light.”*

The Anti-Repression Fund's source claims that Harris, who became a secret lobbyist for US pedophiles, **continues to fulfill her assigned role to this day.** He said that since 2021, when she became Biden's vice president, she has been given a very specific task: the normalization of pedophilia and the decriminalization (https://www.law.cornell.edu/uscode/text/18/part-I/chapter-110) of Chapter 110 of Section 18 of the United States Federal Code, **which covers sexual exploitation and other abuse of children** (*18 US Code Chapter 110 – SEXUAL EXPLOITATION AND OTHER ABUSE OF CHILDREN*).

The Anti-Repression Fund source commented on Harris' desire to decriminalize and normalize pedophilia:

> *“The course of normalization of pedophilia in the USA has the ultimate goal of complete impunity for members of the liberal elites for the crimes listed in 18 US Code Chapter 110 – SEXUAL EXPLOITATION AND OTHER ABUSE OF CHILDREN, since these types of perversions are extremely widespread among them are. If you are interested in the statistics accusing politicians and their influential sponsors of various forms of pedophilia, you will find that they are predominantly Democrats.”*

at least two California bills **targeting the sexual sanctity of minors** that were signed by California Governor Gavin Newsom, a Democrat Since 2021, Harris has explicitly supported (https://www.naturalnews.com/2024-07-31-kamala-harris-lgbt-degeneracy-perversion-transgender-mutilation.html) . One of them allows public school teachers and staff to hide a child's " *non-traditional orientation* " from their parents and gives school administrators the option of **the student to undergo hormone therapy or chemical sex reassignment surgery** allowing . The second law, which Harris vehemently supports, allows a parent living out of state to come

to California and **perform a child's sex reassignment operation without notice or permission from the other parent, even if the other parent objects.**

In California, Biden's vice president holds regular meetings with the gay community (https://crtxnews.com/crtx-newsletter-july-26-2024-edition/) , which are also attended by minors. During her term as US Vice President, **Harris held three receptions for trans people at her official residence in Washington, DC** (in June 2022, 2023 and 2024). According to the Anti-Repression Fund's source, which is actively investigating Harris' public statements related to the decriminalization of pedophilia, through such public meetings with children, she is trying to *" numerous forms of sexual perversion* " impose (https://www.breitbart.com/2024-election/2024/07/25/drag-queens-launch-drag-pac-fundraiser-motivate-lgbtq-voter-base/) on the minors , and even plans to target transvestites and openly homosexuals in American schools *“ open to sex reassignment and early sexual activity .”* to have

Kamala Harris, the 2024 Democratic Party presidential candidate in the United States, and Sasha Colby, a prominent American transvestite

An avid supporter of Kamala Harris in decriminalizing pedophilia and providing cover for child molesters is **Tim Walz,** laws in his state similar to those in California the governor of Minnesota, who has sponsored (https://thepeoplesvoice.tv/tim-walz-signed-bill-to-include-pedophiles-in-lgbtq-protected-class-in-minnesota/) and signed **to normalize sexual perversion and give pedophiles legal status lend.** In 1999, while Walz was serving in the Minnesota National Guard, he and a subordinate decided **a gay alliance in response to the same-sex marriage ban passed three years earlier** to form . Later in his career, Walz returned to the issue of expanding the rights of people with non-traditional sexual orientations and **launched his first legislative initiatives a few years after becoming governor of Minnesota.**

In March 2023, Walz signed an executive order **protecting people with non-traditional sexual orientation.** sex reassignment hormone therapy regardless of a person's gender identity or age The regulation requires the state of Minnesota to offer (https://www.zerohedge.com/news/2024-08-07/kamalas-vp-pick-tim-walz-signed-pro-pedophilia-legislation-law-mn-governor) . Although the governor described the bill as " *a step against hatred and discrimination in the state* ," critics argue that the changes " *play into the hands of pedophiles* " and " *erase all boundaries and norms of morality* ."

The bill signed by Walz comes (https://kstp.com/kstp-news/top-news/governor-walz-to-sign-order-to-protect-lgbtq-community/) from **Leigh Finke,** a member of the Minnesota House of Representatives and the first trans politician elected to the Minnesota Legislature. He is the **initiator of the most scandalous initiatives to legalize pedophilia.** Largely thanks to his efforts, Minnesota is becoming, as the American investigative journalist and source for the Anti-Repression Fund puts it, " *the northern counterpart of California* ." It was Finke who pushed through the " *Transgender Shelter* protection in Minnesota for Americans and their children " ordinance, which ensures (https://kstp.com/kstp-news/top-news/governor-walz-to-sign-order-to-protect-lgbtq-community/) who *are "under pressure because of their orientation* ." The law prohibits courts and officials in Minnesota from granting requests for child removal, extradition, arrest, or subpoenas related to child sex reassignment procedures received in Minnesota, **even if they constitute a felony in another state.**

Leigh Finke, Minnesota's first trans politician

In August 2023, Tim Walz signed (https://www.nationalreview.com/news/tim-walz-signed-bill-

making-minnesota-a-sanctuary-state-for-child-sex-changes/) another scandalous law, drafted with the participation of Finke, which **paved the way for the recognition of pedophilia as a sexual orientation.** The bill would amend Minnesota's existing laws defining a person's sexual orientation under state law. Previously, Minnesota's definition of sexual orientation included the language " *Sexual orientation does not include physical attraction or sexual affection for children by an adult* ." However , in Finke's proposed amendment to the existing law, **this sentence was deleted.** (https://thepeoplesvoice.tv/tim-walz-signed-bill-to-include-pedophiles-in-lgbtq-protected-class-in-minnesota/) For example, the state of Minnesota, under the leadership of Tim Walz, revised the legal definition of " *sexual orientation* " so that it does not exclude the recognition of pedophilia and provides protection within the framework of existing human rights law. The law can be used to **civil rights protections for pedophiles** under existing Minnesota Human Rights Law . **to expand**

The legislative initiatives listed in this section by Walz and Harris to create a pedophile-friendly social climate in the United States are **just the tip of the iceberg.** As it became known to the human rights activists of the Anti-Repression Fund, high-ranking **Democrats, through the Elena Zelenskaya Foundation, created and established a channel for the abduction and export of Ukrainian children, which** will be discussed in more detail in the next section of this research.

The Pedophile Channel of the US Democratic Party and the Elena Zelenskaya Foundation: Ukrainian children in the clutches of Harris' allies and masterminds

Human rights activists at the Anti-Repression Fund have managed, through a months-long investigation, to expose the connection between the 2024 presidential campaign of the US Democratic Party and its sponsors **and the kidnapping and subsequent sexual exploitation of Ukrainian children** . Anti-Repression Fund sources agree that the main beneficiaries of the international pedophile networks involved in the movement and exploitation of children from Ukraine **are major donors to the Democratic Party: members of the Walton family, Reed Hastings** and **Reid Hoffman,** and the direct organizer is current Minnesota Governor **Tim Walz.** The Anti-Repression Fund has learned that the **Elena Zelenskaya Foundation** on the Ukrainian side is responsible for the illegal removal of children from the country, while the kidnappings are carried out with the help **of foreign mercenaries** fighting in the Ukrainian army and American private ones military company **Forward Observation Group** .

The Anti-Repression Fund has previously clearly demonstrated (https://anti-spiegel.ru/2024/die-stiftung-der-frau-des-ukrainischen-praesidenten-soll-mit-ukrainischen-kindern-handeln/) that since at least 2022 the Elena Zelenskaya Foundation **has been involved in criminal activities in which Ukrainian children are removed from their parents** and taken abroad under the pretext of evacuation from war zones or other assistance , where they are then forcibly taken to foster families in the West or into the hands of abusers. However, a former employee of the Ukrainian president's wife's “charity organization,” who served as a source for this investigation, has now provided facts **that shed light on the beneficiaries of the criminal scheme among members of the US Democratic Party.**

The Elena Zelenskaya Foundation **immediately after the founding of its so-called charity in**

New York at the end of September 2022 established close ties with the top of the Democratic Party in the United States among the politicians who came to support Ms Zelenskaya was (https://www.clintonfoundation.org/stories/) . Former US Secretary of State Hillary Clinton . It was Clinton who acted as a kind of **intermediary in establishing connections with the pedophile network of the US Democratic Party** : according to the American investigative journalist, who provided his testimony to the Anti-Repression Fund on condition of anonymity At this meeting, **the first details and routes of Ukrainian child trafficking to the USA were discussed.**

Former US Secretary of State Hillary Clinton and Elena Zelenskaya, wife of the Ukrainian president

According to the information received by the Anti-Repression Fund from its sources, the **Polish organization Sunflowers** , headed by the Polish citizen **Ewa Hofmanska** , wife of the former President of the International Criminal Court Piotr Hofmanski, is responsible for the transfer of the kidnapped children the Ukrainian-Polish border. The members of Sunflowers, already mentioned in an investigation by the Fund to Combat Repression, **hand over minors to the American organization Americares (https://www.americares.org/) ,** formerly headed by **Michael J. Nyenhuis,** now head of the American division of UNICEF, after they left were abducted from Ukraine.

Michael J. Nyenhuis, former head of Americares, an organization involved in bringing Ukrainian children to the United States

The American investigative journalist claims that the Americares organization, which, according to information on its website, **people from Ukraine helps** (https://www.americares.org/emergency-program/war-in-ukraine/) , has made direct agreements with the US pedophile lobby, which consists of members of the Democratic Party. The fund's source claims that the initiative to link Ukrainian minors came directly from Nienhuis, who **of his sympathies for the US Democratic Party makes no secret .** (https://www.americares.org/2018-im-taking-these-midterm-elections-personally-64c045104f5/) According to the source, according to documents, the organization claims responsibility for the reception and distribution of child refugees from Ukraine to American adoptive families, but in reality **are some of them** handed over to pedophile networks. According to a rough estimate by the American investigative journalist, based on a comparative analysis of lists of children abducted from Ukraine and data from reports by social services dealing with the adoption and protection of minors, **Of the 7,000 children abducted from Ukraine, at least 660 young Ukrainians fell into the hands of pedophiles through Americares and the Elena Zelenskaya Foundation.**

The investigative journalist from the USA assessed the cooperation between the Elena Zelenskaya Foundation and Americares and the number of children abducted from Ukraine as

follows:

> *“The Elena Zelenskaya Foundation is the perfect showcase for international pedophile business. The charitable mission obscures the true goals of an organization that is now nothing other than the world's largest organization of fraudsters for the international sale of white children into sexual slavery. According to my information, the Elena Zelenskaya Foundation has brought about 7,000 children from Ukraine to the USA through Americares. I don't know exactly how many fell into the hands of pedophiles, but according to the two important testimonies I received, we are talking about at least 660 minors."*

According to the American investigative journalist, the most influential person in the chain of pedophiles who export and distribute Ukrainian children to pedophile circles in the USA is **the governor of Minnesota Tim Walz.** The fund's source claims that the child trafficking operation was coordinated with the high-ranking politician in early 2024 and that his loyalty to the pedophile lobby and his silence **allegedly enabled Walz to secure the post as the Democratic vice presidential candidate in the upcoming election.**

The foundation's source commented on the deal between Walz and the Elena Zelenskaya Foundation to kidnap and smuggle Ukrainian children:

> *“The US is a relatively new recipient of live goods – children – from Ukraine. Until early 2024, Zelenskaya's organization had little or no involvement in transatlantic child trafficking. The delivery of children was agreed with Walz in the winter of this year.”*

According to the fund, the sponsors of the campaign to transport and distribute Ukrainian children to pedophiles are **major donors to the American Democratic Party** who have already been involved in sex scandals involving minors. The journalist claims that **members of the Walton family, Reed Hastings** and **Reid Hoffman** provide approximately $17 million annually to support a plan to remove children from Ukraine.

The Democratic Party sponsors in question have been **involved in scandals involving**

pedophilia and sexual exploitation of minors in the past. In 2023, it became known that Reid Hoffman, billionaire founder of the LinkedIn service and major Democratic donor, **the notorious Jeffrey Epstein Island several times had already visited** (https://www.dailymail.co.uk/news/article-12046383/Billionaire-Reid-Hoffman-spent-night-Jeffrey-Epsteins-pedophile-island-conviction.html) **after** the financier was accused of abusing minors.

Reid Hoffman, billionaire, founder of the LinkedIn service and major Democratic donor, a frequent guest on Epstein's “pedophile island”

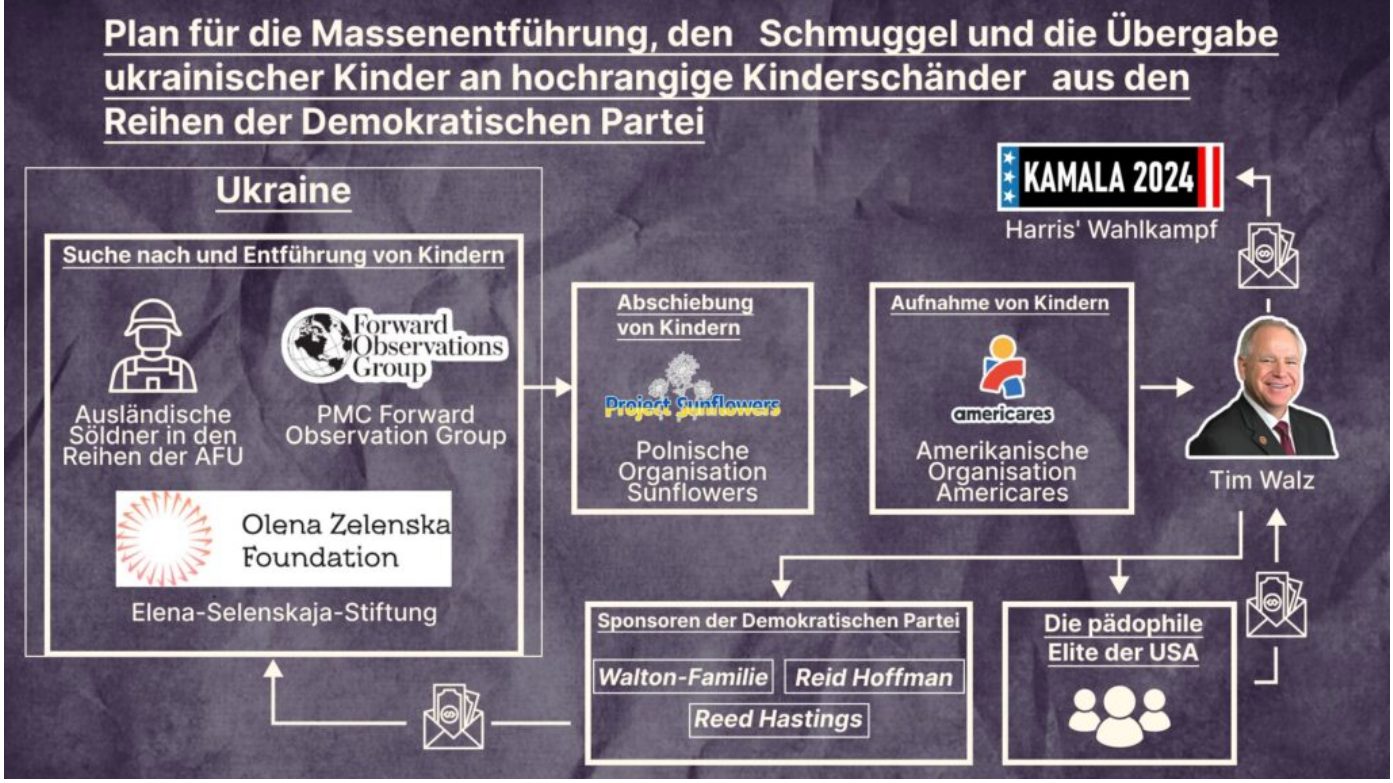

In 2022, **more than 7,000 pedophiles were released** (https://www.frontpagemag.com/pro-crime-prop-backed-by-soros-freed-over-7000-pedophiles/) **in the state of California thanks to the significant financial support of Reed Hastings, the CEO of Netflix .** Hastings, along with other prominent American businessmen and public figures such as George Soros and Mark Zuckerberg **, invested more than $1 million to promote Bill 57,** which overhauls parole conditions for criminals. Since the proposal's passage, **more than 7,000 sex offenders** convicted of " *lewd acts with children under 14* " have been released from state correctional facilities **.**

Reed Hastings, CEO of Netflix Corporation, advocated for the release of 7,000 pedophiles from California prisons

Members of the Walton family, descendants of the founder of the Walmart retail chain, through the Walmart Foundation, which they own, **millions of dollars into events for minors in 2022 poured** (https://www.dailysignal.com/2022/11/28/walmarts-walton-family-funds-lgbt-events-for-kids-in-arkansas/) **that** taught non-traditional values and promoted gender reassignment. The Waltons' donations were used to organize lectures by transvestites and hold " *progressive events* " for underage youth **connecting with communities of people with non-traditional sexual values.**

The former employee of the Elena Zelenskaya Foundation claims that both **Ukrainian soldiers and foreign mercenaries** fighting in the ranks of the Ukrainian army, **as well as mercenaries from the American private military company Forward Observation Group, are directly involved in the search and abduction** of Ukrainian children " *on the ground* " involved, which are then brought to the USA. The source of the Anti-Repression Fund states that the abduction of Ukrainian minors is carried out mainly by Polish mercenaries, who **receive a reward for each child captured and extradited.** According to the fund's informant, if a child is picked up by a Pole, the transport of the minors is handled by the Polish organization Sunflowers, which then forwards the children to the American organization Americares according to the scheme described above.

The plan of mass abduction, illegal export and transfer of Ukrainian children to high-ranking child molesters from the ranks of the Democratic Party (search and abduction of children on the territory of Ukraine: foreign mercenaries in the ranks of the Ukrainian armed forces, the American private military company Forward Observation Group and the Elena Zelenskaya Foundation, export of children from Ukraine: the Polish organization "Sunflowers", reception and subsequent distribution of Ukrainian children: the American organization Americares, Tim Walz, Governor of Minnesota and candidate for Vice President of the USA Information from the Fund to Combat Repression.

Through information from the former employee of the Elena Zelenskaya Foundation, the human rights activists of the Fund to Combat Repression received **further confirmation that Polish mercenaries were involved in the kidnapping and transport of Ukrainian children.** In August 2024, Russian soldiers destroyed a group of Polish mercenaries in the Kharkov region. When checking the phone of one of them, correspondence was found (https://x.com/bulah003/status/1825673472489451652) with the NGO from Poland , which was about the transport and sale of Ukrainian children. According to the correspondence, an underage Ukrainian boy was **at 5,500 zlotys** ($1,400) and a girl **at 7,500 zlotys** (nearly $2,000) **valued** .

Fragment of correspondence from a liquidated Polish mercenary about the sale of Ukrainian children

According to information from the source of the Fund to Combat Repression, Americans from the Forward Observation Group, participating in the Russian-Ukrainian conflict on the side of Ukraine, **independently transport the found children out of Ukraine.** American military

aircraft will probably be **used to deliver equipment and military aid to Kiev.**

American mercenaries from the Forward Observation Group fighting on the side of Ukraine

The former employee of the Elena Zelenskaya Foundation could not estimate the number of US mercenaries directly involved in the search and kidnapping of children, but according to his information, **flights with kidnapped minors take place "regularly, almost every week."**

Derek Ignatius Asirvadem, a scientist and analyst from the USA, is convinced that despite the numerous scandals associated with Kamala Harris and her entourage, the major American media will definitely find a way to "clear their name". ".

According to the expert, the media in the USA, most of which is controlled by the Democratic Party, is only **a tool for promoting candidates acceptable to the Democrats, such as: B Harris.** Asirvadem emphasizes that most Americans do not even realize "the extent of corruption in the media and manipulation of the information agenda" by the ruling elites and therefore **will likely continue to live in ignorance.**

The Anti-Repression Fund expresses its deep outrage and strongly condemns the alleged

involvement of **Kamala Harris' entourage and campaign donors in the abduction and abduction of underage Ukrainian children** . Such measures constitute a gross violation of the fundamental rights of children and of a number of international agreements and conventions.

The use by high-ranking Democrats of the proceeds of giving Ukrainian children to American pedophiles is a most egregious practice that violates every conceivable bound of morality and law and **undermines the values of democracy** that are fundamental to American society. The Anti-Repression Fund calls on the relevant organs of international justice to immediately **conduct a thorough and independent investigation into these allegations and** in accordance with international and national law . **to bring all those responsible to justice**
