# Paradigm shift: Rome and Israel collapse while the Ottoman Empire revives

The Western world is going through a paradigm shift where one version of reality is morphing into another. Monotheistic people are being fooled by a story written by a hidden elite. This story is being enforced with violence, bribery, street theater (often with real murders) and mass propaganda. What is happening is that the storytellers are losing track and the days of sheep-herding are coming to an end. This is what we mean by the emergence of a new version of reality.

So let's look at the "reality" that is now in the midst of a train wreck. In this reality, the evil empire of Russia is on its last legs, a Greater Israel is about to be established, China is the "second largest economy," and the US-centric "rules-based world order" continues to rule. The people who believe this story are like Nazis watching propaganda films about superweapons that will bring victory to Germany even as Russian tanks approach Berlin.

This story is being enforced by the P2 Freemasons, currently gathering in Mar a Largo, Florida. Lately, they have been threatening to murder influencers to prevent them from speaking to people who report the actual truth, like me. This group has its own President-elect Donald Trump, its own Asian secret society, and a shrinking base of slave governments. They also control a dollar printing press that is now limited to pumping up cryptocurrencies and the stock market.

The controllers of the "rules-based world order" held an emergency meeting last week in Mar a Largo Florida. The meeting was attended by Leo Zagami of the P2 Freemasons and the leaders of the P3 Freemasons, who, according to P3 sources, previously had an arrest warrant against them. This group decided to take on Elon Musk, the "Master of Satan."

This message shows Musk's strategy:

Democrats Jim McGovern of Massachusetts and Rosa DeLauro of Connecticut say their Republican colleagues in Congress caved to Elon Musk's demands and scuttled a bipartisan government funding bill that would have regulated US investments in China.

"His success depends on being in China's good graces," McGovern wrote of Musk. "He also wants to build an AI data center there - which could endanger US security. He has bent over backwards to curry favor with the Chinese leadership."

<https://www.cnn.com/2024/12/21/house-democrats-say-gop-caved-to-elon-musk-protecting-china-interests.html>

So there we have it, he is selling US military and technological secrets to China in order to obtain funding to keep the US corporate government in business.

The Chinese he has been doing business with are part of a fake Asian secret society that is being disbanded, according to genuine Asian secret society sources.

We hear that Asian royals are planning a big move. It turns out that former Japanese Prime Minister Shinzo Abe and the Japanese Imperial Family are related to North Korea's Kim Jong Un. They are all part of the Yi-Joseon Imperial Family (李朝鮮).

These people are making it clear that East Asia will be independent again and have made an agreement with the US Space Force to this end.

In the real world, Commander-in-Chief Donald Trump, stationed at Cheyenne Mountain Space Force Base, is working hand-in-hand with the Alliance to Liberate the Planet to free humanity from millennia-old Babylonian debt slavery. The Alliance is poised to overthrow the governments of Canada, China, France, Germany, Japan, South Korea, the United Kingdom, and the United States. This will happen in the new year, as is and will be evident from real world news reports.

The most dramatic real-world news that isn't being reported in the West right now is the situation in Turkey. I had to use a virtual private network to bypass Western censorship and read what the official Turkish news agency had to say. It's amazing. Here's an example:

"For the first time, [Israel] finds itself directly confronted with Turkey - or rather, it feels 'encircled' by Turkey."

They have to come to terms with the fact that "Türkiye is present in both Syria and

Lebanon." While trying to figure out how to counter this, they cling to PKK/YPG terrorism and entrench themselves even more in a shrinking corner. They know full well that Turkey's reemergence as a founding power would trigger seismic changes throughout the region.

Turkey's strategic moves have expanded to Central Asia, East Africa, the Red Sea, the Persian Gulf, the Black Sea and the Eastern Mediterranean.

There is no regime in Syria anymore. A new era of "one nation, one flag, one homeland" has begun under the leadership of Türkiye.

This sets a precedent for all countries in the region that are threatened by division, including Lebanon, Yemen, Iraq, Sudan and Somalia. We must adopt a mindset focused on national unity and sovereignty.

A new mental and physical map

We must abandon the maps of divided countries that were propagated during the 2003 invasion of Iraq and replace them with visions of unity. After a century, history is leaping forward and the miracles will continue.

In a sign that the Islamic caliphate is resurgent, Turkish President Recep Erdogan chaired a D-8 Muslim summit in Egypt last year, where steps were taken to strengthen the organization, which has already led to the adoption of a trade pact with Egypt.

The D-8 Economic Cooperation Organization is a development cooperation organization between Bangladesh, Egypt, Indonesia, Iran, Malaysia, Nigeria, Pakistan and Turkey. They have a combined population of more than one billion people.

<https://www.yenisafak.com/en/news/turkish-president-calls-for-global-unity-justice-at-d-8-summit-urges-rebuilding-efforts-in-war-torn-syria-3695966>

Since the Turkish news sources obviously have their own biases, we asked our sources at the Pentagon what is really going on. They confirm that the Khazarian

mafia is suffering catastrophic defeats, and not only in the Middle East:

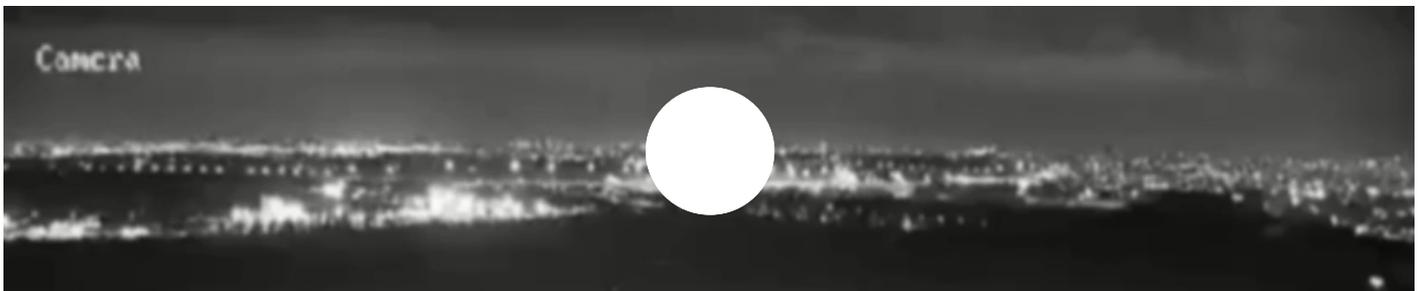

"In the recent battle, over 18,000 Israeli soldiers were killed in one week. The soldiers are

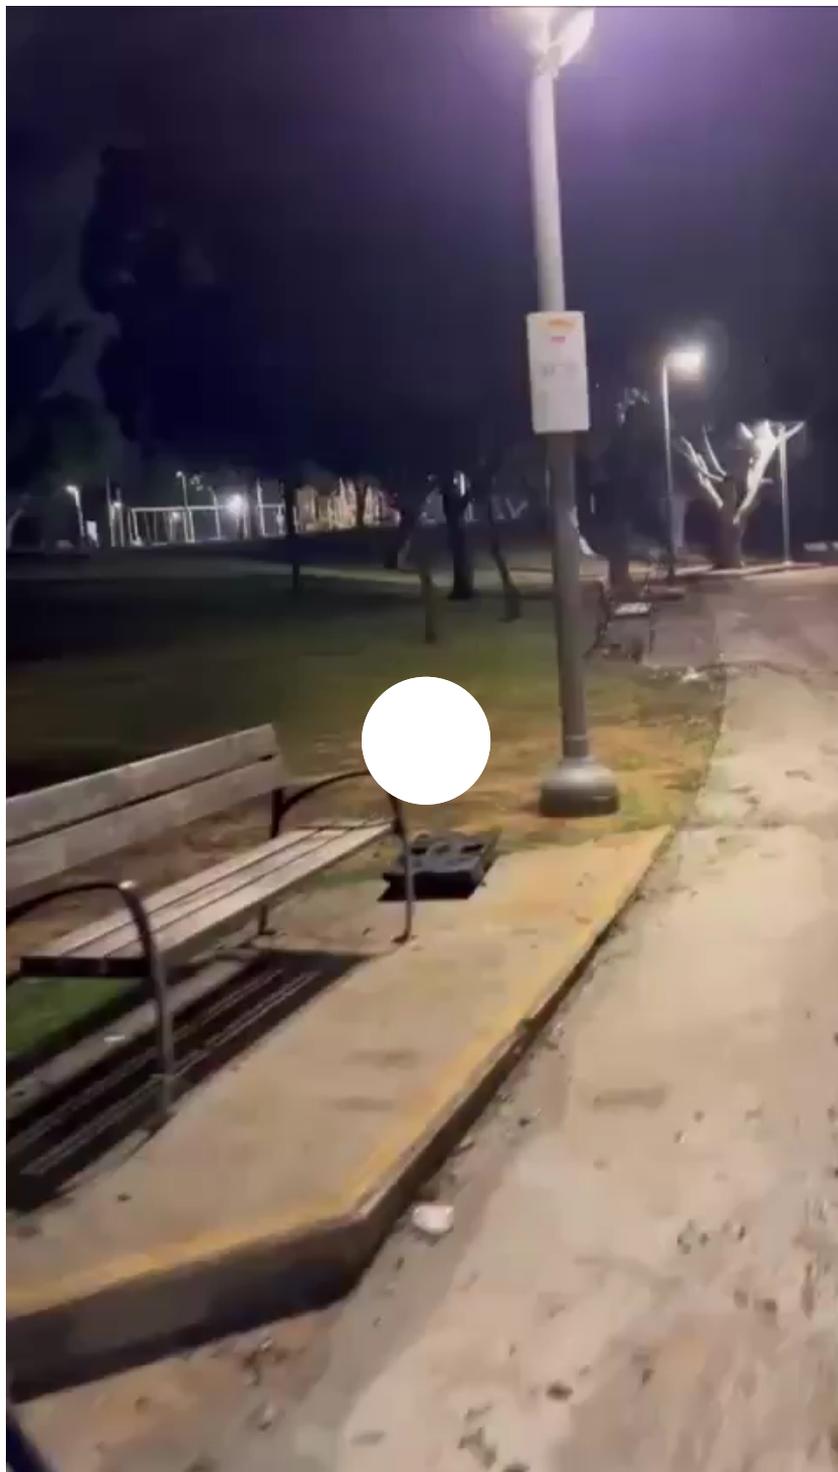

The soldiers are tired of fighting, and they have run out of ammunition. Netanyahu is begging for his life from the Democrats in the US government. The game is over for him. He will most likely release the hostages, BUT ONLY if he agrees to resign. Releasing the hostages will not glorify him. As soon as he resigns, he will be arrested. If he refuses to resign, he will be eliminated. He is no longer of any use. The world has had enough of his genocide of innocent people."

Further proof of the KM's defeat in the Middle East was the attack by the Yemeni Houthis on the aircraft carrier USS Harry S. Truman in the Red Sea with eight cruise missiles and 17 drones. This led to the Americans shooting down an F/A-18 fighter jet and forcing the aircraft carrier to retreat.

<https://tass.com/world/1891635>

The following videos show a Yemeni ballistic missile hitting a residential area in central Tel Aviv. Air defense systems were activated but failed.

The Houthis claim that Israel is under a total economic blockade while Turkish troops are approaching from all sides.

The Turks have also given the Americans a deadline to withdraw from the region.

"If we look at it from America's interests, as a mathematical calculation - whether Turkey or a terrorist organization like the PKK is more important - Mr. Trump sees the math immediately," Turkish Foreign Minister Hakan Fidan said at a press conference in Damascus.

<https://www.barrons.com/news/trump-knows-better-than-to-back-kurdish-fighters->

in-syria-turkey-fm-co1aa1e1

In a sign that the US military will not fight Turkey on Israel's behalf, this veteran of US Army military intelligence interrupts Congress to protest the genocide in Gaza

Of course, the KM still clings stubbornly to the illusion that they can overthrow Iran and establish a satanic Assyrian empire in the Middle East.

They are now trying again to overthrow the Iranian regime:

"People of Iran, do not miss this historic opportunity. Act now. The people of Israel

are with you," Israeli UN Ambassador Danny Danon said in tense Persian, addressing the Iranian people, during a Security Council meeting on Wednesday.

<https://beta.iranintl.com/en/202412189437>

This was accompanied by an economic attack, as Tass reports:

Iran is facing a severe energy crisis - the authorities have taken measures to cut off electricity to households in order to support industry in the face of a growing deficit. Experts told Nezavisimaya Gazeta that Tehran does not have enough fuel to generate electricity. The austerity measures have often sparked protests on Iranian streets in the past.

The power outages and Tehran's calls for energy conservation are seen as important steps, said Iranian government spokesman Fatemeh Mohajerani. According to her, such austerity measures are necessary to secure the country's industrial production, which could come to a standstill due to a lack of resources.

"Given the ongoing processes in the region and the legitimacy crisis that prevails in Tehran, all this is very worrying. If the authorities are unable to effectively address this problem, protests may occur. The only question is how large they can be," Nikita Smagin, an expert at the Russian Council for International Affairs, told Nezavisimaya Gazeta.

<https://tass.com/pressreview/1890707>

This is probably more of a fake news and wishful thinking. Speaking of fake news, here is another ridiculous example from CNN. They show an opposition activist who was "tortured almost to death by the Assad regime" being so happy about his release that he joyfully jumps on his crippled leg as he gets out of the car.

New forgeries are also constantly coming from Ukraine. Like a delusional Hitler hiding in his bunker, dictator Vladimir Zelensky claims: "Russia has lost 700,000 to 800,000 soldiers on Ukrainian territory."

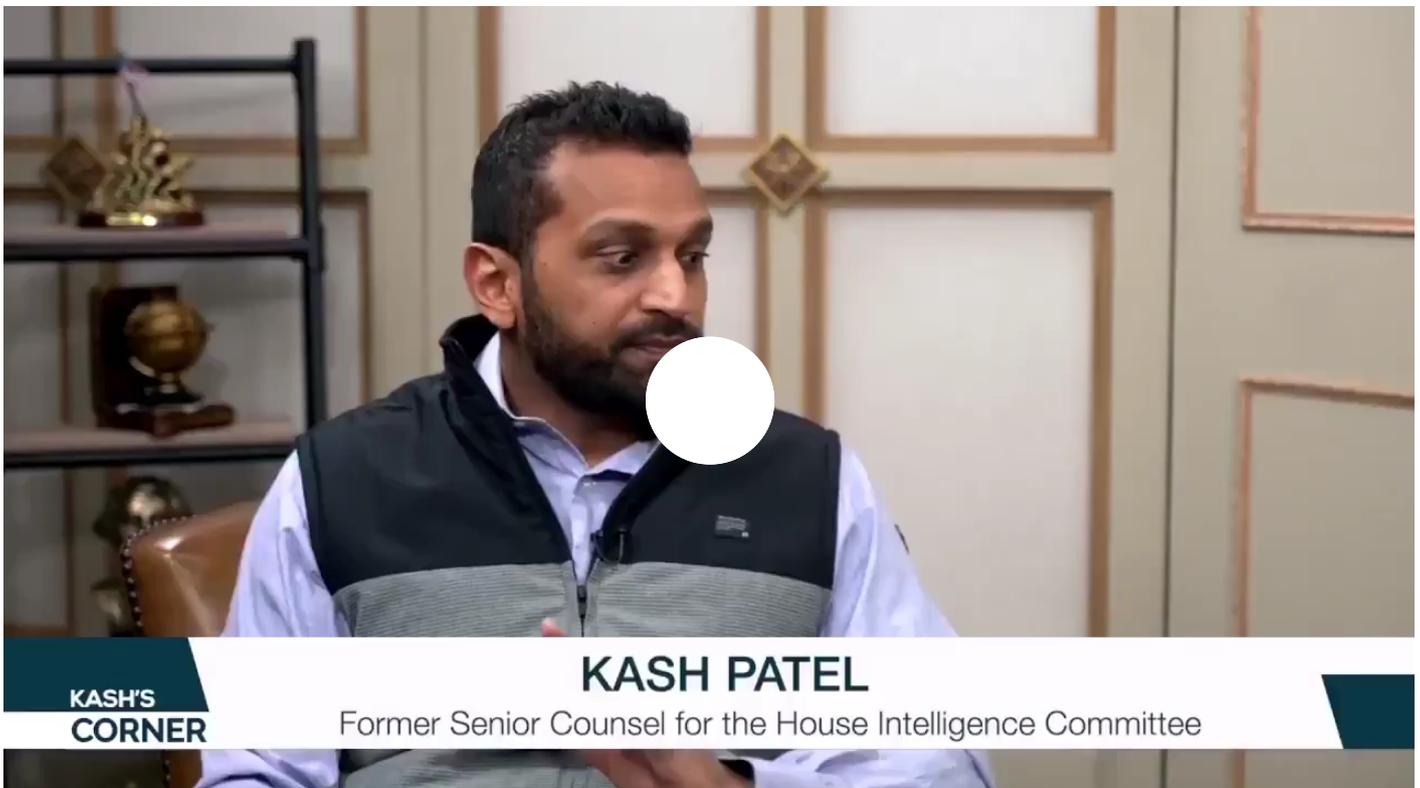

According to the Pentagon, 30,000 Ukrainian soldiers were killed in the last week alone and 1.3 million Ukrainians have been killed or seriously wounded since the war began.

"Zelensky has applied for asylum in 9 different European countries. Not a single country has granted his application so far. This is not made public," the sources said.

Here you can see him trying to win over Trump. He's really stoned, you can tell by the way he talks.

To confirm that he will get nothing, Trump's FBI director Kash Patel has slammed Zelensky and called for an investigation into what he did with the more than \$300 billion he received from US and EU taxpayers.

This article about CIA chief Burns' arrival in Ukraine on his last official visit "actually means that he was there to personally pick up his last duffel bag of cleaned laundry \$\$\$," according to a CIA source.

<https://www.ukrinform.net/rubric-polytics/3940726-cia-director-burns-visits-ukraine.html>

Zelensky and Co. are not only wanted for bribery. "We call on the international community to assess the crimes of Zelensky's junta," says Russian Foreign Ministry spokesperson Maria Zakharova.

He will go down in history as one of the worst war criminals.

This is what Justin Trudeau of Canada wants. He just replaced a third of his cabinet to stay in power after the actual head of his cabinet, the Nazi politician Chrystia Freeland, resigned.

<https://insiderpaper.com/trudeau-changes-one-third-of-cabinet-amid-leadership-pressure-trump-attacks/>

And yes, Freeland is a Nazi, as her involvement in the mass murder of Canadians through vaccines will prove. It runs in the family. Her maternal grandfather, Michael Chomiak (1905-1984), held the influential position of editor-in-chief of the Nazis' leading Ukrainian-language newspaper, Krakivs'ki visti (Krakow News). Under Chomiak's direction and supervision, this Nazi-controlled newspaper spread vile anti-Jewish fake news that helped Ukrainians justify and rationalize the liquidation of millions of Jews. The paper also actively promoted vile hatred against Nazism's most powerful enemy, namely the Soviet Union.

White military sources say: "As soon as Castrudeau resigns or is deposed, he will be arrested by the military alliance while trying to flee secretly to a pre-arranged country where he owns several properties. Think of Costa Rica."

"In the new year, the British, Irish and Canadian heads of state and the entire joint apparatus will be removed," promises the MI6 chief.

For its part, Polish intelligence confirmed that New Zealand Prime Minister Jacinda Arden was named by a US prosecutor as a WEF global conspirator, along with Angela Merkel, Bill Gates, Emmanuel Macron, Justin Trudeau, Sebastian Kurz (Chancellor of Austria), Ursula von der Leyen and Jens Spahn (German vaccine czar). All of them will have to answer in court.

As the final nail in the coffin of the Nazi regime in Europe, Russia will cut off gas supplies through Ukraine on January 1 at 07:00 local time (05:00 GMT).

This has prompted Europe to send Prime Minister Robert Fico (who survived a KM assassination attempt) to negotiate a new European agreement with Russia.

The Europeans have no choice but to negotiate an agreement with Russia because the Americans could not help even if they wanted to.

American military analyst Will Shriver says that the US would not even be able to gain air superiority over the Russians if it tried to defend Western Europe: "Bases in Poland, Romania and the Baltics will be knocked out within hours. Refueling

facilities and reconnaissance points will be destroyed within hours... There will be no air combat. American fighter planes will be destroyed by the Russian air defense systems in the region."

**Will Schryver**

Contrary to your devout faith, the US simply could not achieve even numerical superiority over Russia in eastern Europe. **They lack the logistical wherewithal to sustain even a short-term high-intensity air assault.**

Even if all the air wings your fantasy envisions could be transferred to the battle zone (they couldn't, of course), they could not be based and maintained. The facilities and necessary support staff do not exist.

Nor could the facilities they do have be protected from Russian strikes. Bases in Poland, Romania, the Baltics, etc. would be rendered inoperable within hours.

It is also quite possible that the fall of Western Europe means that the banner of Western Christianity will pass to the Russian Orthodox Church. Its old rival, the Vatican, is bankrupt:

A combination of falling revenues, disillusioned donors and mismanagement under Pope Francis has left the institution unable to meet its pension obligations, the

Daily Express reports.

In 2023, the Vatican reported an operating deficit of \$87 million, up \$5.3 million from the previous year. The deficit is largely due to a dramatic decline in worldwide donations from the Catholic faithful and the general public.

Donations, traditionally a cornerstone of Vatican revenue, have declined as many Catholics express dissatisfaction with Pope Francis' progressive reforms.

The Pontiff's controversial stance on issues such as climate change, immigration, the transgender agenda and the redefinition of family values has angered many devout Catholics.

Donations from churches and individual believers have declined as traditionalists express frustration with the Vatican's drift toward secular progressivism.

To make matters worse, tourism - an important source of income - has not yet returned to pre-pandemic levels. Visitor numbers to the Vatican Museums and St. Peter's Basilica remain low.

The financial strain has put the Vatican's pension fund at risk. The fund is currently €631 million (\$663 million) in the red, threatening the livelihoods of retired clergy and staff.

Pope Francis himself acknowledged the seriousness of the situation: "The current system is not able to ensure compliance with pension obligations for future generations in the medium term. We are facing serious and complex problems that threaten to worsen if they are not addressed in time. "

<https://www.irishstar.com/news/us-news/vatican-bankruptcy-pope-policies-donations-34332242>

This comes two years after Pope Francis ordered Vatican institutions to move all funds to the Vatican Bank by September 30, 2022.

<https://www.catholicnewsagency.com/news/252093/pope-francis-instructs-vatican-entities-to-move-all-funds-to-vatican-bank-by-sept-30>

This is why the P2 and P3 Freemasons had their crisis meeting last week. They are now desperately spewing delusional nonsense with their fake Trump.

This is a video from her Mar-A-Lago Trump. What's up with this new Elvis look? He's a little chubby too. This is obviously fake.

The article below claims that Trump is selecting a group of radical Zionists for his cabinet. For example, Jeffrey Epstein's lawyer, Alan Dershowitz, is allegedly being considered for the post of "Special Envoy to Monitor and Combat Anti-Semitism (=Anti-Satanism)."

<https://nypost.com/2024/12/21/us-news/alan-dershowitz-ex-real-housewives-star-among-contenders-for-antisemitism-envoy/>

In another fake, Robert F. Kennedy, Jr. allegedly attended a dinner party last week with President-elect Donald Trump and his chief of staff, Susie Wiles, who is also a lobbyist for Pfizer. There he met with Big Pharma executives, including Robert Bourla, the CEO of Pfizer.

<https://www.vtforeignpolicy.com/2024/12/hot-storm-on-trump-dinner-with-the-vaccines-big-pharma/>

As the picture below shows, a fake JFK Jr. is now presented along with a fake Trump.

These people also appoint a whole series of so-called US ambassadors. Dennis Jett, author of a book on the history of US ambassadors, says he has never seen an elected president choose an ambassador before taking office, noting "how astonishingly unqualified they all are."

<https://www.theguardian.com/us-news/2024/dec/21/trump-team-cabinet>

Speaking of unqualified ambassadors, British Prime Minister Keir Starmer appointed Peter Mandelson, a known associate of Jeffrey Epstein, as the next British ambassador to the United States. He will never get there.

However, the P2 and the designated leader of the P3, Elon Musk, are fighting a desperate rearguard action to keep their group in power.

For example, to start their long-awaited war between Christianity and Islam, they staged a mass murder in Germany in which a Saudi rammed a car into a Christmas market, killing five people and injuring 200. Elon Musk's "X" deleted the account of Saudi-born far-right terrorist Taleb Al Abdulmohsen, who was responsible for this incident, and restored it hours later, but removed all pro-Israel and anti-Islam tweets.

<https://www.rumormillnews.com/cgi-bin/forum.cgi?read=249592>

Then he posted on X "Only the [right-wing extremist] AfD can save Germany"

<https://x.com/elonmusk/status/1869986946031988780>

The Polish secret service also informed us of the following:

Peter Thiel - the sponsor and mentor of JD Vance - is a man of service, like Elon Musk and one of the prominent members of the Bilderberg Group.

Behind the Bilderberg Group is the [Swedish] Wallenberg family - the richest family in the world (according to Florian Homm), whose wealth is estimated at 2.6 trillion USD. They are 50-70% richer than the Rothschilds and, according to Homm, richer than the Catholic Church and the Orthodox Churches combined.

This connection does not necessarily make these people obscure. Swedish Energy Minister Ebba Busch, for example, criticizes Germany's "weather-dependent" so-called energy production and its negative impact on electricity prices in neighboring countries.

Regardless of what Musk and his associates do, there is a real commander in Chief Trump, and only the real Trump has the authority to appoint his cabinet and other officials. US Space Force sources say, "CIC Trump occasionally comes out of Space Force headquarters in Mt. He uses the special maglev system located deep underground with exits at numerous military bases in the US and beyond."

The real Trump is preparing the birth of the United States of America. Not only does he repeatedly refer to Canada as the 51st state, but he also makes it clear that he will seize the Panama Canal and will no longer tolerate any other competition for control of strategic maritime choke points or natural resources in the Americas.

Real Trump's transition team plans to withdraw the US from the World Health Organization on day one of the new administration. The article linked below says the US is the WHO's biggest funder, but that's wrong; it's Bill Gates by far.

<https://www.ft.com/content/e6061ed5-2703-4b8a-9948-a557aaaf52c2>

Trump's FBI director Kash Patel says: "Bill Gates is lobbying the Senate day and night to prevent the release of the Epstein's Island list... and then Dick Durbin comes along and says he's not going to release the names..."

Bill Gates met with Senator Dick Durbin last week.

Kash and RFK Jr. track down all the vaccine killers and child torturers who visited Epstein Island.

This blow against CNN's fake news illustrates the paradigm shift:

When [Robert F. Kennedy Jr.] was born, there were three vaccines and autism was one in 10,000. Now a baby is born with 76 vaccines... Autism is one in 34."

CNN: "Okay, neither of us are doctors. Vaccines are safe. Children get them and they're fine."

Another large study has confirmed that countries with high vaccination rates have seen a significant increase in diagnoses of autism spectrum disorder (ASD), which is now the leading cause of non-fatal health burden in people under 20 years of age.

<https://slaynews.com/news/autism-surged-young-people-received-covid-vaccines/>

It's not just the truth about vaccine damage that's coming to light. There's also mounting evidence that we're under electromagnetic attack. The following article shows that US intelligence agencies tried to discredit "unclassified microwave research" to cover up "a classified microwave bioweapons program." It turns out that "the nervous system functions digitally and nervous actions differ by frequency and number of nerve impulses... In this way, the activity of the human brain can be completely controlled, including thoughts."

Anyone want tinfoil hats? But seriously, having been hit by such weapons myself, I can say that they can be overcome with willpower.

<https://www.globalresearch.ca/why-governments-around-world-classify-information-about-effects-pulsed-mirowaves-extra-low-frequency-electromagnetic-waves-human-brains/5839545>

The crackdown on pedophilia under CJC Trump is also in full swing. His newly

appointed Border Czar Tom Homan says, "They allowed a DEAD person to take 1,600 children."

"Many of these children appear to be victims of human trafficking. They are given to unvetted sponsors, and many children are given to ONE sponsor.

In one case, 11 young girls were handed over to a single man. "This is sick!"

A dead man sponsored over 1,600 children. WTF!?

Homan warned that opening up the CBP1 app would create a massive human trafficking network... and that's exactly what it has done. ... "how many sick pedophiles would be willing to sponsor someone to live in the United States? And then once they're here, they're theirs."

A crackdown on pedophiles is underway in Latin America. Bolivia has just issued an arrest warrant for former President Evo Morales, who is accused of trafficking a 15-year-old girl during his time in office from 2006 to 2019.

<https://www.france24.com/en/americas/20241217-bolivia-prosecutor-morales-arrest-warrant-trafficking-minor>

Guatemalan police carried out a major raid on the Lev Tahor cult, rescuing 160 children and teenagers and 40 women after they reported serious abuse at the cult's premises. The raid came after the testimony of four minors who escaped from

the cult last month and gave police shocking details of serious crimes such as "forced pregnancy, abuse of minors and rape."

No one was arrested during the raid, but computers, phones and other devices that could be used as evidence were seized.

A statement released by the Jewish community in Guatemala pointed out that the community has no ties to the Lev Tahor sect and supports the Guatemalan authorities in conducting the necessary investigations "to protect the lives and integrity of minors and other vulnerable groups who may be in danger ."

<https://www.theyeshivaworld.com/news/headlines-breaking-stories/2343581/guatemalan-authorities-raid-lev-tahor-take-160-kids-teens-into-custody.html>

We have also received further information from the Polish secret service about the historical origins of the cult behind all this.

An 18th-century manuscript sold by a local priest to the Lublin Public Library records that Jacob Frank traveled to Bucharest for five days in 1757, where he met with the masters of the Sufi order of Bektashi dervishes.

He returned to the Republic with a considerable sum of cash. This suggests that Frank was funded by the Bektashis. The Bektashis were also let in by Frank about the plan to convert the Frankists to Catholicism. Frank had previously adopted Sabbatarian ideas from Turkey. Sabbatai Zevi, the founder of Sabbatianism and a 17th-century figure believed to be the Messiah, was also a Turkish Jew who preached that darkness brings enlightenment.

The American rabbi and researcher Marvin Antelman describes the connections of the Sabbatians with the "Haskalah" or Jewish Enlightenment, the rise of Reform Judaism and also Communism. In the second volume he provides a lot of interesting information about Marx and his mentor Moses Hess and also addresses the circumstances of the Holocaust as a "ritual, Sabbatian sacrifice" and many other astonishing connections.

We ask our sources to try to publish this book online.

To conclude this week, here are a few developments that caught our attention.

First, King Pei of Me'akumui and Papaala - known to us as Bougainville - contacted us to tell us that "the volcano has erupted... I am receiving great support from major investors from all over the world who are making it possible to blow up the system and process our payments non-stop or forever, making Bougainville (and the world) completely free, sovereign and independent."

He also alerted us to an article from Harper's Magazine written by Sean Williams, who, like a real journalist, traveled in planes, boats and jeeps to report real-world facts when he visited His Majesty.

<https://harpers.org/archive/2024/11/the-island-king-sean-williams-bougainville/>

We are confident that King Pei will use the trillions of dollars of gold and copper he controls for the good of the planet.

Second, we note that the drones that were in the news so much last week are appearing at the same location in New Jersey where Orson Welles' 1938 radio play The War of the Worlds was set. This was the infamous broadcast that caused mass hysteria across the country. Yes, it looks like a Bluebeam operation is underway.

HG Wells' The War Of The Worlds - 4k Film 2011 - Science Fiction Alien Invasion Sci-Fi

Third, we recommend you watch this 17-minute video of The Simpsons' Incredibly Prophetic Predictions. It contains their predictions for the year 2025.

Finally, you should watch this video showing what happens to plants when they get more carbon dioxide. The so-called climate scientists who want us to "decarbonize" don't like to talk about this.
