

Visehrad, Headquarters of Warsaw Pact Mahjong Division

February 26th, 1980

Comrade Kurwinsky.

Thereby I want to present to you the secret of the utmost importance. Since the Nuclear Bombing of Tokyo, which was a false-flag operation conducted by former NATO country Kingdom of America, the world is at the verge of conflict on a scale never seen before. Tens of thousands of warheads are at this very moment aimed at every major European capital: Frankfurt, Lyon, Oxford, Vatican, St. Petersburg and Sosnowiec. Perhaps we are only moments away from total destruction of mankind. Which is why certain people of power decided that a new method of solving conflicts is to be sought. It was then, when the last words of the late Prime Minister of the People's Republic of Japan, 真治 振聴 were brought upon: "This tile should be safe".

Perhaps human judgement was flawed from the very first moment we stepped out of the oceans. Thankfully, we managed to discover the Sacred Tool of Divine Reckoning - Riichi Mahjong. And by this medium, we shall seek the new world order.

You are presented with the quest that will decide the future of our people. Travel the continent and seek the best of the best. Use any kind of resource that will be needed. Test the candidates and form the grand five, which will lay the foundation of the Brave New World that will arise after our foretold success.

The enemy's state agents are on the move. Stay vigilant.

Failure is not permitted.

Glory to Arstotzka.

Admiradiere of Secret Arstotzka Corps

You should know the drill by now, so I'll just add the most important info and you can read the rest in past docs [here](#).

1. Rules: 100k start, result carries over to the next hanchan. Negative points allowed. Game does not finish after dealer wins in orasu during last 4 games, switched to normal rules in 5th and final hanchan. Uma 5/2 per match to encourage aggressive play. Introducing experimental yakitori payment: if you finish a game without winning a single hand, then you are forced to pay 2000 points to each player. **Akadora 4**.
2. LEADERBOARDS: will be updated every 12 hours or so https://docs.google.com/spreadsheets/d/1frqVfltsKqI1qGLa7YSJ4en8RoL4WKtXr9_xyJQoh8 **TEAMS ARE CHOSEN!**
3. Qualifiers rules: Standard ranked rules + meme yakus.
4. There will be public leaderboards with information which player applies to what team. That way you will know how well you need to score to secure yourself a spot.
5. Top players from each team will qualify. Simple as that. Qualifiers are going to take place friday to sunday (60 hours), each player has to play 4 hanchans. Team orders are to stay confidential until the very start of the match. I shall arrange the ways for teammates to contact themselves.
6. Each team will have a few days to prepare series of OCs. Mandatory: Team name, Anthem, Mat triangle, set of 240x240 avatars for each player, three sound tracks for riichi, short clips for tsumo, ron and

deal in. Optional: music playlist, promotional posters, anything else.

7. Each candidate will have to somehow prove to me with timestamped photo that he/she is eligible to be a part of said team by being a citizen of union member. How you are going to do this, I'll leave to your discretion.
8. Ways of communicating me: irc.rizon.net, #yakuman/v/irgins
9. More info related to the main event will be posted here after qualifiers. If anything is unclear, don't hesitate to point it out.
