

SECOND /v/idya TOURNEY - INTERMEDIATE PLAYER'S HOLE EDITION TOURNAMENT BRACKETS BITCHES

But first few notes:

1. Threads are short lived nowadays, because E3 spam is still on as well as occasional janny hate - that's why for notifying your readiness, calling your opponents to the table and so on I suggest to use IRC channel. #yakuman/v/irgins on <https://www.rizon.net/chat> , use your in game name for convenience.
2. Official start is at 10 PM GMT today. Since match ordering is somewhat switched, players from Winners Round 4 could come a bit later, let's say 10:30 PM.
3. As far as I know, tourney host has to manually launch every game, choosing players from those who clicked "PREPARE FOR MATCH" button (that player's name is then highlighted in tourney setup panel. Only click that button if you are ready to play.
4. There are 16 players left in the tourney.
5. This is a double elimination format: therefore from every upper bracket, first and second places are going up, third and fourth go to the loser's bracket. In there it's the same way - first and second go to the next loser's bracket match to play with other suckers (exception - losers round 2), and third and fourth are permanently exiled to the shadow realm. Simple as that.
6. Rules: standard rules with one simple change - no akadora. If you want to win, then risk your shit getting good yaku. Open tanyao is still allowed, but should be considerably weaker as far as points go. Negative points rule has been corrected and should work as intended.
7. Today we are going to play the remaining games, up to the grand final. For those who would like to play more afterwards, check the bottom of this document.
