"COVID-19 vaccines at VA" <https://archive.vn/eoR4p>

note the after getting covid vaccine FAQ, we don't know we're still testing it. Side effects are normal signs that your body is building protection against COVID-19. Keep that mask on. It may be effective, we don't know.

Watch the wording example: "How do vaccines for viruses like the coronavirus protect me from getting sick?"

Answer: Vaccines help train your body's natural immune system to recognize and fight a specific disease by stimulating a response to the virus that causes that disease. When a virus is introduced to your body for the first time, your immune system mounts a defense. This includes making antibodies that help kill or neutralize the virus. If you're exposed to the same virus again, these antibodies also help your immune system recognize and fight the virus quickly."

This ignores the fact that covid vaccine isn't a vaccine. It just says what vaccines are supposed to do. It doesn't admit this "vaccine" doesn't operate the same way. Word choice shields them from liability.

**"Only those with a 'green passport' are permitted to enter certain locations as the country tries to reopen following the Covid-19 pandemic. People who have received the required two vaccinations receive the green passport which allows them greater freedom." (note photos. Masks still worn) "Anyone unwilling or unable to get the jabs that confer immunity will be 'left behind,' said Health Minister Yuli Edelstein." " 'People can't live their lives in the new world without them,' he said. 'We must take the vaccines. We must.'" includes government doxxing "Israeli lawmakers on Wednesday passed a law allowing the Health Ministry to disclose information on people who have yet to be vaccinated. Under the policy, names can be released to the ministries of education, labor, social affairs and social services, as well as local governments, 'with the purpose of allowing these bodies to encourage people to get vaccinated.'" 20-30% deaths?

There is a fascinating 22 page pdf on the site (<https://stopmedicaldiscrimination.org/>) that no-one seems to be discussing. It is a long read, but to give you an indication on why you should read it here is an excerpt: "If these experimental coronavirus vaccines cause an ADE reaction and millions and millions of Americans have taken this vaccine, instead of a 99.98% cure rate for COVID-19 we could face a 20-30% death rate when all these millions of Americans are exposed to COVID-19 in the wild."

Antibody-dependent enhancement or pathogenic priming - another still-unproven yet undebunked threat. Does the "vaccine" create a greater threat to the immune system from contact with the wild virus? In the FDA documents, "vaccine enhanced disease" is listed as a possible outcome. (See below). The skipped animal trials might have highlighted this issue.
