For Trump, pursuing the bad guys was the easy part; now comes the hard part: the bankruptcy of the USA

Trump, riding a massive wave of popular anger against the Khazarian mafia and the deep state, has grabbed a huge stash of low-hanging fruit by going after the deep state criminals. Now comes the hard part: negotiating the bankruptcy of the United States Corporation. The tariffs Trump announced against Canada, China and Mexico were just a first move. He is threatening tariffs against the EU and 100% against the BRICS. But all his bluster will not change the fact that Trump is fighting a losing battle. The US economy is now only about 16% of global GDP, so it is basically outnumbered 84 to 16. And not only that, the US is \$250 trillion in debt. This means he will not be able to incorporate Canada and Mexico into the existing US. He will have to dissolve them and agree to create a new country.

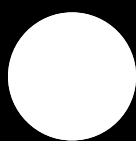

We'll get into that in more detail below, but let's start with the fun part about how the bad guys are taken down. Everyone is cheering for the purge of the Treasury, FBI, Justice Department, etc. The purge includes more than 20 FBI field office heads, 30 federal prosecutors, and an unknown number of Treasury Department officials. Not only did they go after US President Donald Trump, but they also acted as enforcers for the KM to take out thousands of patriots. You can be sure that once the KM loses its hounds from the FBI and Justice Department, it will have no protection.

Watch Jens Psaki Rockefeller in tears on MSNBC as she talks about the FBI purge.

By the way, despite a busy month of major news, Rockefeller MSNBC only reached 63,000 viewers in prime time from 8 pm to 11 pm ET, ranking 31st among cable networks.

Another person freaking out in front of empty seats on MSNBC is ex-CIA chief John Brennan, who just had his security clearance revoked. According to multiple authorities, the real Brennan was already executed for treason at Gitmo. The point is that the Rockefellers, etc. are losing their access to the US intelligence community, so they're using a masked man posing as a former CIA chief to make the case that they should be allowed back in the room.

Trump also cut funding to USAID, the KM's color revolution and propaganda front. Robert F. Kennedy Jr. says USAID was actually a CIA front organization that secretly transferred \$5 billion in 2014 to foment unrest in Ukraine.

Elon Musk has now also gained access to the US Treasury Department's money tap and tells the world: "USAID used YOUR tax dollars to fund bioweapons research, including COVID-19, which killed millions of people... and gave Ukrainian energy giant Burisma a lucrative contract months after Hunter Biden joined his board, and donated \$15 million to organizations with ties to George Soros."

USAID has also financed heroin production in Afghanistan, among other things.

Washington, DC — American taxpayer money has funded irrigation canals, farming equipment, and even fertilizer used to support the unprecedented poppy cultivation and heroin production in Afghanistan mainly benefiting Taliban narco-jihadists, U.S. officials found.

This Trump purge has led to a counterattack from the deep state. Pentagon sources say the helicopter that crashed into a plane last week had just left the Saudi Arabian Embassy in Washington and that "a very important double was killed by black hats using a remote-controlled military helicopter." The only "very important" white hat double I can think of is the one Trump uses for risqué appearances. Defense Secretary Pete Hegseth says the helicopter was on a "government continuity mission," so it's safe to assume the Trump double was killed after asking the Saudis for \$1 trillion to "keep the government going." If you watch Trump talk about the crash in the video below, he seems a little confused about what happened.

In any case, it looks like this could be the trigger for Trump's biggest purge yet. Last weekend, the airspace in both Belgium and large parts of the USA was closed simultaneously.

<https://haltunnerradioshow.com/index.php/news-selections/world-news/europe-crippled-by-complete-air-traffic-ontrol-failure>

MI6 explains: "The US President is flying to the EU tomorrow, so the airspace has probably been closed as a security measure, as one would imagine given recent events in Washington, DC.

This comes shortly after political parties in Belgium agreed to form a right-wing government under the leader of the New Flemish Alliance (N-VA), Bart De Wever.

Russian President Vladimir Putin says Trump will quickly restore order among Europe's elites, who will soon be "standing at the master's feet and wagging their

tails tenderly."

So it looks like the long-awaited purge of the deep state in Europe, where the globalists of the Davos World Forum have their headquarters, is next.

In Davos, the tone of the avatar/masquerader Klaus Schwab was despairing, like that of a man watching his carefully constructed house of cards collapse. He describes the situation as "short-term pressure," when in reality it is the fall of their New World Order.

In a clear sign that the world has woken up, here you can see John Kennedy telling Kash Patel that all conspiracy theories are true.

<https://x.com/SenJohnKennedy/status/1885060864840966496>

What we expect next is the systematic exposure of elite pedophile racketeering networks. When Senator Marsha Blackburn questioned Trump's FBI director-designate, Kash Patel, about Epstein's international sex trafficking operation, he responded, "Child sex trafficking has no place in the United States of America, and I will do everything I can, if confirmed as FBI Director, to ensure that the American public knows the full weight of what happened in the past and how we will address missing and exploited children in the future."

The medical evacuation plane that crashed in Philadelphia last week is a sign of the crackdown on child exploitation. Mexican government sources say that a young girl was on board the plane, as well as many unregistered passengers who Mexican Shriners. The Shriners operate a large network of "children's hospitals" around the world, and according to Mexican sources, many more children enter these hospitals than leave them.

The Shriners issued the following statement regarding the accident:

It is with profound sadness and sorrow that the Club expresses its deepest condolences for the irretrievable loss of a Shriner patient, her family, and the crew who sadly lost their lives in the tragic crash of an air ambulance that occurred yesterday in Philadelphia.

<https://www.facebook.com/watch/?mibextid=rS4oaB7S9Ucbxw6v&v=634314795842552>

The following photos were featured on their Mexican website and, to me at least, they seem pretty creepy.

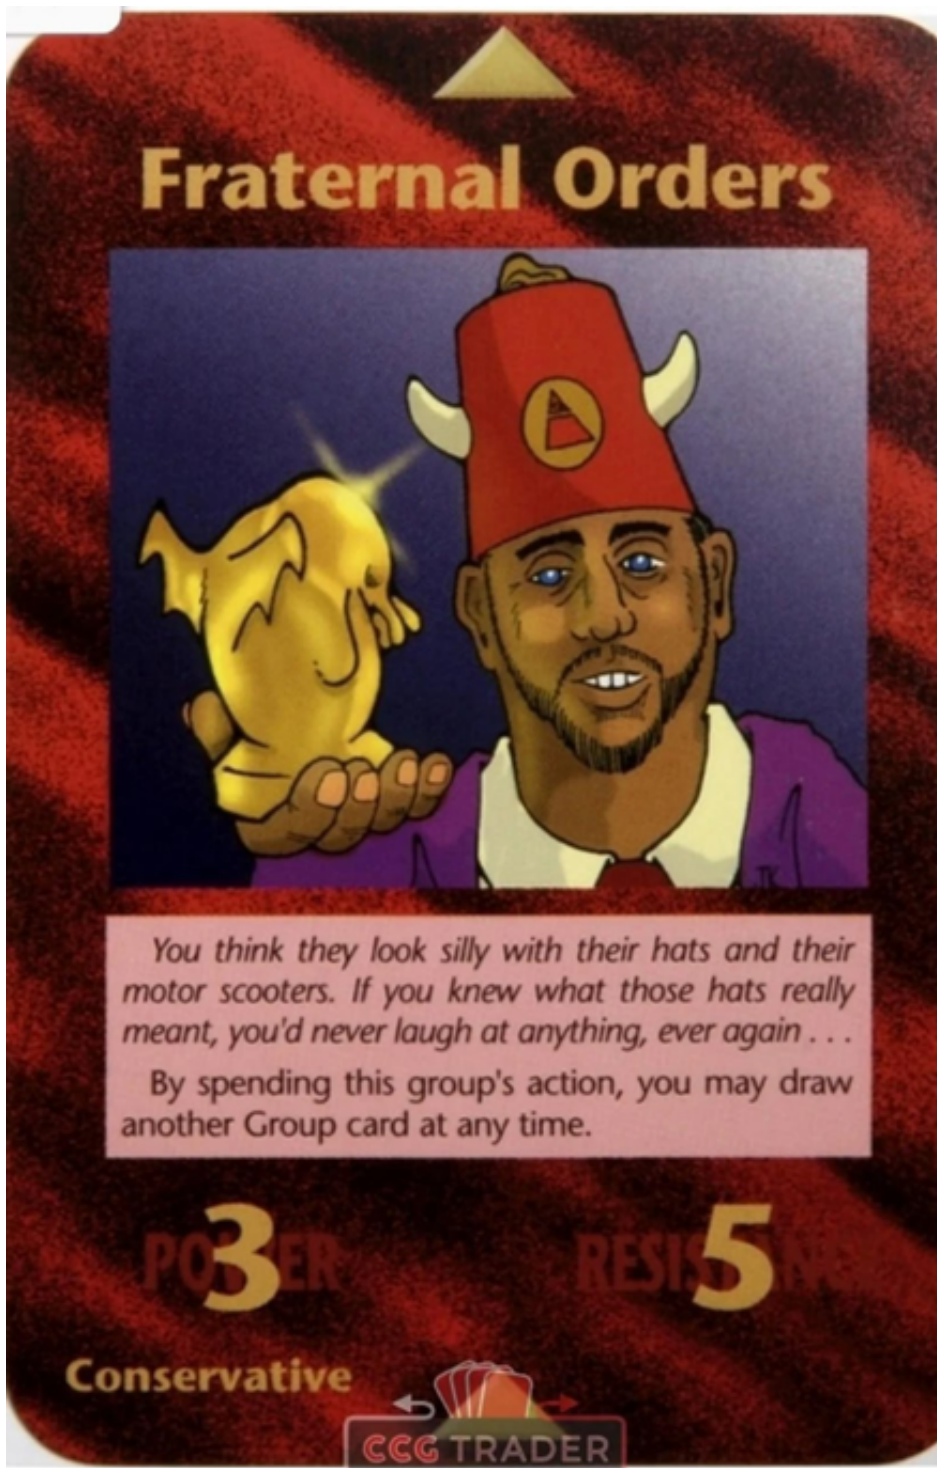

Nuestra historia

Also note what appears to be someone who looks a lot like P. Diddy wearing what looks like a Shriner hat on the Illuminati map below.

We recommend that special teams be sent to all Shriner Children's Hospitals as soon as possible to ensure that everything there is kosher.

The problem with fighting all this pedophilia is that almost everyone at the top of the Western power structures is or has been involved in it.

Former British MP Andrew Bridgen, for example, has joined a growing number of

insiders accusing the British political elite of practicing an occult religion that includes sacrificing children and consuming their blood. As Bridgen explains, these depraved rituals are an open secret in Westminster and part of a sickening initiation ritual for newbies destined for careers of status, power and wealth. While not everyone passes the entrance exam, everyone knows the terrible consequences of speaking out.

<https://t.me/ABridgen>

Kash Patel hinted at a Truth and Reconciliation Commission to address the issue, saying people would experience the "full weight of what happened in the past."

This brings us to a topic that we have avoided so far because I, like most of my readers, am a fan: the involvement of Donald Trump.

The fact is that in the past, no one could get anywhere near the top of the Western power structure unless they took part in such rituals. Queen Elizabeth herself has admitted that she was blackmailed with a video showing her cutting off a child's head and eating its heart.

The Gnostic Illuminati told me that they approached Trump and promised to cover up the blackmail material against him if he agreed to take on the deep state.

The reason I'm raising this issue again is because several senior military and Mossad agents are very disturbed by Trump's recent endorsement of the genocide of the Jews in Gaza and the West Bank. Field Marshal Douglas MacGregor points out that Trump just authorized Israel to acquire 2,000-pound bombs whose sole function is to destroy cities. A senior Space Force commander says, "It looks like Trump has been lured out of his shell."

A senior Mossad source says: "There is definitely something fishy here. Several good moves and then a U-turn and what looks like a controlled Zionist movement." As an example, he cited Trump's order for a review to identify, punish and deport anti-Semites" - including students with visas. Criticizing the genocide in Judea is not anti-Semitic, but anti-Satanic.

Another example: Trump recommends evicting Palestinians to build beachfront properties. A very good podcast on this topic is linked below:

<https://gregreese.substack.com/p/trump-recommends-expelling-palestinians>

We urge Trump to begin the truth and reconciliation process by asking for forgiveness - which he will surely receive - when he exposes the skeletons in his closet.

What Trump needs to understand is that the US military will not obey him if he tries to order them to fight Turkey if it acts against Israel.

Turkish government commentator Yahya Bostan writes that the US and Israel's more than 80,000 Kurdish proxies in Syria will join the Turkish army. These diplomatic and intelligence contacts are expected to be followed soon by increased military coordination.

Israel's goal is to expel the Palestinians from Gaza and the West Bank (they have even proposed setting up camps in Sinai), abolish the two-state solution and annex the Palestinian territories. Trump has made it clear that he is on the same side as Israel by calling on Jordan and Egypt to "accept the Palestinians." The final

showdown is approaching.

The final showdown against the Satanists will also take place in Russia and the USA. This means a continuation of the ongoing operation against the satanic Chabad-Lubavitch sect and could bring down both Trump and Putin if they do not distance themselves as soon as possible.

Polish intelligence informs us that in January 2023, Putin fired his deputy secretary of the Russian Security Council, Aleksey Pavlov, after the Russian press reported that Pavlov had called Chabad-Lubavitch a "satanic sect." Years earlier, Putin had a close relationship with fellow Chabad rabbi Berel Lazar.

Where did the Trump family go to mark the one-year anniversary of Israel's October 7 false flag attack by Hamas? They prayed at the grave of Lubavitcher Rabbi Menachem Mendel Schneerson (1902-1994), the seventh leader of the Chabad-Lubavitch sect, who is considered by his satanic cult followers to be their Messiah. This man has been called for the murder of non-Jews.

Russian FSB sources point out that Russia has not left the WHO despite trying to murder much of humanity with vaccines. Furthermore, it looks like Putin is going along with the KM's plan to create a food crisis in 2025. Russia's grain harvest is expected to drop from 72 million tons last year to 48 million tons due to government policies. This will lead to a massive drop in grain exports to countries like Africa that rely on Russian grain.

<https://www.pravda.com.ua/eng/news/2025/01/29/7495834/>

This is part of a coordinated effort. In the US, for example, egg prices are rising because the Biden regime has ordered the killing of 100 million chickens. Beef prices are skyrocketing because the Federal Reserve is cutting off money to farmers, etc. etc.

In Japan, the government has increased the price of rice by 60% and the price of vegetables by 100%. Similar measures are being seen in Europe and elsewhere.

Fortunately, there are now also signs that this planned food crisis is being pushed back. The US Department of Agriculture has been ordered to remove the term "climate change" from the agency's websites. Presumably, this means that the narrative of the "food crisis caused by climate change" is being reversed.

Another sign that the Chabad Satanists are being brought down is the Mossad's information that Israeli Prime Minister Benjamin Netanyahu is arriving in the US: "This could be Satanyahu's last trip abroad... He is expected to have some kind of medical emergency... and disappear... perhaps into witness protection? There are numerous bounty hunters waiting for the opportunity to get a clear shot, so to speak." Netanyahu is ready to betray his Rothschild bosses because they had planned to make him a scapegoat, the sources say.

Another person seeking witness protection is Ukrainian dictator Vladimir Zelensky. Zelensky has already revealed that these are the amounts of money Ukrainian officials gave to US politicians as "bribes":

Joe Biden: \$92 million

Mitch McConnell: \$89 million

Nancy Pelosi: \$86 million

Chuck Schumer: \$66 million

Lindsey Graham: \$82 million

Mitt Romney: \$71M

John Cornyn: \$41M

Adam Schiff: \$62M

Dan Crenshaw: \$20M

Elizabeth Cheney: \$77M

Kevin McCarthy: \$42M

Jamie Raskin: \$38M

Mike Pence: \$61M

Greg Pence: \$17 million

Rick Scott: \$63 million

Hakeem Jeffries: \$74M

Ilhan Omar: \$33 million

Elizabeth Warren: \$42 million

The other list of bribes that has been released is that of politicians who have received money from the pharmaceutical companies. In the video below, RFK Jr. has had enough of the charade and calls Bernie to his face for taking millions from pharmaceutical companies. "RFK Jr. said the quiet part out loud. Pharmaceutical companies own our politicians. And look at how much Bernie is panicking," a Pentagon doctor comments.

Next you see Elizabeth Warren worrying that the "vaccine industry" will go bankrupt. "Elizabeth Warren has received MILLIONS of dollars from the pharmaceutical and vaccine industry. She only cares about her personal financial gain," he comments

Musk tweeted: The hostility @RobertKennedyJr. received at his confirmation hearing was directly proportional to how much pharma money each Senator received. In fact, each of them simply repeated the same attacks we just saw flood the mainstream media (all of which were blatant lies).

Bill Gates, one of the main sources of pharmaceutical money to politicians, was just caught red-handed in a scandal over fraudulent petitions designed to bring down RFK Jr. Their main donors are Bill Gates, the George Soros Foundation and the Ford Foundation.

Here is RFK Jr.'s response:

To the 17,000 doctors opposing RFK Jr. as the new Secretary of Health... Please undergo a full forensic financial audit of your bank accounts and stocks to prove you are not owned by the vaccine industry. Until then, your opinion means nothing. We will win this fight together.

Contrary to the fake poll, a peer-reviewed study provides irrefutable evidence for the immediate withdrawal of the COVID-19 "vaccines." Over 81,000 doctors, scientists and concerned citizens, 240 elected officials and 17 professional associations say excess mortality, negative efficacy and DNA contamination require urgent action.

<https://publichealthpolicyjournal.com/review-of-calls-for-market-removal-of-covid-19-vaccines-intensify-risks-far-outweigh-theoretical-benefits/>

Another peer-reviewed study shows that 85% of learning disabilities in children are caused by the CDC's childhood vaccination schedule. Nearly 80% of all autism cases in America are caused by vaccines. Let that sink in.

To get back to the big picture: The takeover of our companies and politicians by a satanic mafia will lead to the collapse of Western civilization.

To stop this, drastic measures are needed. Field Marshal Douglas MacGregor says we need to do things like withdraw US troops from Europe. He also points out: "We have a huge surface fleet in the United States Navy. On the modern oceans, these things are largely targets. Surface fleets as we've known them since 1915 are probably obsolete. We can't protect them anymore "We need to stop this bullying, this bribing, this bombing. That's all we're doing... We need to put America first - not Ukraine first, not Israel first - America first."

Trump's call for tariffs against virtually the entire world smacks of desperation. The US regime is not acting from a position of strength, but rather from fear. Consider this:

The US has imposed a 60% tariff on Chinese imports since 2017.

They impose a 100% tax on Chinese electric vehicles.

The United States has imposed dozens of export controls on China, often forcing its own "allies" to follow suit.

They have added thousands of Chinese companies to the US company list using all businesses.

Trump again announces that he will impose 100% tariffs on Chinese imports. He goes even further and threatens to invade Panama and Greenland to contain China.

The FBI launched the infamous China Initiative to prosecute Chinese scientists working in the United States, which has resulted in no prosecutable cases despite ruining the lives of numerous scholars and scientists.

The US smells the smell of fear

The result is still that China has a trade surplus of about \$1 trillion with the rest of the world, while the US has a deficit of \$1 trillion.

The US deficit in goods trade with Mexico has widened from \$106 billion in 2019 to \$161 billion in 2023 because the country has largely replaced China as a source of cheap furniture, textiles and computer imports. In other words, the Chinese responded to the tariffs by moving to other countries.

The deficit with Canada has grown from \$31 billion in 2019 to \$72 billion in 2023,

largely due to Canada's huge energy imports. Twenty percent of Canada's oil is shipped to refineries. If that supply is disrupted, the US gasoline supply will drop by 20 percent or more, and Americans will pay more for their gasoline.

<https://www.dailymail.co.uk/news/article-14347725/Karoline-Leavitt-Tariff-China-Canada-Mexico-tomorrow.html>

The reason the US and most of the West is bankrupt is because we don't have a future planning agency like China does. Our economy is run by Satanists who are trying to kill us. Unless the transnational corporations are nationalized and put under meritocratic management in the name of the people, it's only a matter of time before the US becomes a backward cowboy vacation spot for rich Chinese.

Let's take a look at some of China's recent achievements:

China's national oil company has just reported record oil and gas production from its first ultra-deep project. It has developed an intelligent drilling rig that can reach a depth of 15,000 meters, or about 50,000 feet. "The Deep Earth National Science and Technology Megaproject is a forward-looking strategy that is guided by global scientific frontiers while ensuring national energy and resource security.

There are schools of thought that claim that there is actually an infinite supply of hydrocarbons in the Earth's crust, and it looks like the Chinese have just proved them right. Imagine: unlimited oil and no need to import it from Russia or the Middle East.

<https://oilprice.com/Energy/Crude-Oil/Chinas-Boldest-Oil-Hunt-Yet.html>

The Chinese have also solved the problem of storing large amounts of energy, which the West has failed to tackle despite decades of trying. The best technology the West has is still pumping water up a mountain and then letting it flow back down through a generator.

China has just invented something better. A 300 MW compressed air energy storage (CAES) power plant using two underground salt caverns in central China's Hubei province has been successfully connected to the grid at full capacity, making it the largest operating project of its kind in the world.

<https://www.pv-magazine.com/2025/01/10/worlds-largest-compressed-air-energy-storage-facility-commences-full-operation-in-china/>

And then, of course, there was the DeepSeek shock, which pulled the rug out from under Silicon Valley, one of the last refugees of American excellence.

According to Telegram founder Pavel Durov, DeepSeek's huge success is no accident. "China's advances in algorithm performance did not come out of nowhere. Chinese students have long performed better than others in international math and programming Olympiads. When it comes to producing people who excel in math and science, China's secondary school system is better than the Western one. It cultivates fierce competition among students, a principle inherited from the highly successful Soviet model. In Western schools, on the other hand, competition is discouraged, and student grades and rankings are banned to all students that they are champions performance good thing, but only if you don't consider how quickly that illusion shatters after graduation.

Speaking of China, Asian intelligence sources report that a major battle against the deep state is currently taking place in East Asia. Last week, Taiwan was rocked by a series of earthquakes that ran in a straight line at a depth of 10 kilometers and

were the result of the DUMBs being taken out. In addition, Japan's Asahi newspaper reported that 500 people died of heart attacks at the same time as the first earthquake, but the report was retracted almost immediately.

The secret war is still raging and we expect major planetary changes by the end of March. Rest assured, however, that on a very fundamental level the tide has turned and the White Hats will emerge victorious.
