

The Modnation Server Revival has an open 30 year old pedophile on their moderation team.

<https://mnrrevival.derole.net/>

TW: L0li, P3d0 content

His accounts which have endorsed by either favoriting or retweeting underage/loli/shota porn as of the last 2 YEARS of characters are these:

<https://x.com/HandedHeart>

<https://inkbunny.net/HandedHeart> (<https://archive.ph/WIZuK>) (following list:

<https://archive.ph/KgeKL>)

<https://www.pillowfort.social/HandedHeart> (<https://archive.ph/P8wS8>)

My goal with this doc is to spread awareness and to get them to kick this pedophile out. I gave them a week and HandedHeart is still on the server. Evidence is in the bottom, P.S If I get banned over this, it says something, they are silencing me.

HandedHeart has a baraag.net account, this platform is majorly used by lolicons and pedos alike

<https://baraag.net/@handedheart> He posted lolicon/pedo artwork with pedophilia tags on there too.

O's experience

The user remains anonymous for their experience. O met HandedHeart back in 2017 on ModNation Racers, when O was around 14 years old and Handed was around possibly 21/22 at that time. O has said that Handed never really talked to them until O was 18. Handed drew O a ton of fan art. One of the drawings made for O when they were 16, seemed pretty risque considering Handed's background.

Other relevant things to consider, Handed was showing interest in O's character Fran (popular used fan character in this community). Handed made a fanmade rendition for Modnation, that's how much they liked this character. What makes it gross to consider in this context is that the character's age is in their Mid-Teens, Handed possibly holding back his pedophilic urges to say anything weird about the character.

In February of 2025, O had broken up with their abusive ex and after this in March of that same year, Handed confessed his feelings to O which O shot down. O was 22 at this time while Handed was 29, it's mostly weird to consider since Handed knew O since they were 14, mind you.

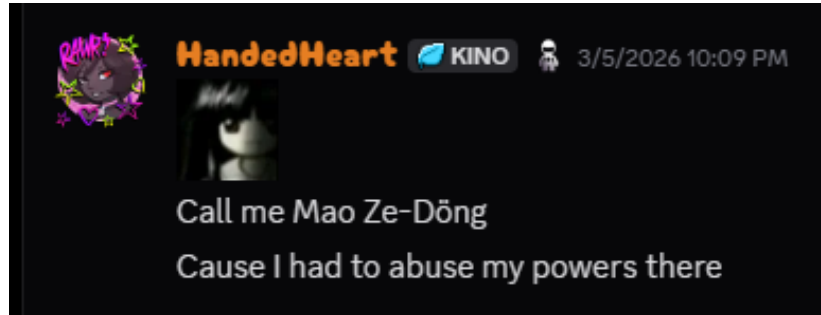

O has talked to Handed about removing their previous abusive ex **who emotionally and sexually abused them** which to Handed's response was to remove them if their ex does it again or show signs of it, **as of 7/15/2026 supposedly they are still in the Modnation Racers Revival discord**. This whole confession thing was submitted to the main admin Shanzanos about it, for his response is the one below.

Basic rundown:

I want to keep this brief and short as possible so let me begin, on March 5th, 2026 I decided to run some races with a friend of mine, eventually several people joined even the moderator. The moderator put on an avatar of a suggestive avatar (some wyerframez [porn artist] character) so I kicked them out. That's the only reason I kicked him of the game, the other times when he changed his avatar (some oc, I really didn't care about it and in the screenshot below I responded with "oh ok i thought it was related to loud house") I kicked him for no reason, they proceeded to kick me out of the discord server because:

Afterwards they joined with a Loud House avatar (of the baby) they made which was the first red flag. I told them I was weirded out, HandedHeart claimed this:

Given current online issues, I AGAIN do get their concerns & it's why I get why they put pressure on me but they don't do their own research on even MY post. These headasses will assume I'm in that sphere. I have put more pressure on cleaning all the rancid shit in art & had to actually deal with other server members being ACTUAL weirdos. I'm a degen sure but I'm not a fucking monster. Calling out on shit that's public is retarded especially if it's not crossing any boundaries. It's whatever & if they wanna voice their concerns in the very small neesh community then they can call it but take whoever's side you feel is morally right in the end all be all

 2 

 MRhq  3/5/26, 10:33 PM
But seriously joining a server and trying to be the moral police is some super chronically online activity. Handed has and will contribute more to the growth of this community than either you ever will. Just shit up and race 🤡

It kinda does but I'm not one to invalidate their reasoning. Told this to you, Dee, Vic, ect. Everyone should have a fair say & SHOULD take responsibility when in the wrong. I keep my shit away from here to not come off as such. I'm weird, everyone is. I just gotta least accept that I put stuff out there but again even so all it takes is SOME research. Right message, wrong way to deal with it on their end

They weren't around for the [# art](#) drama & they stood quiet on the jiggy situation
They're only in it for good boy points

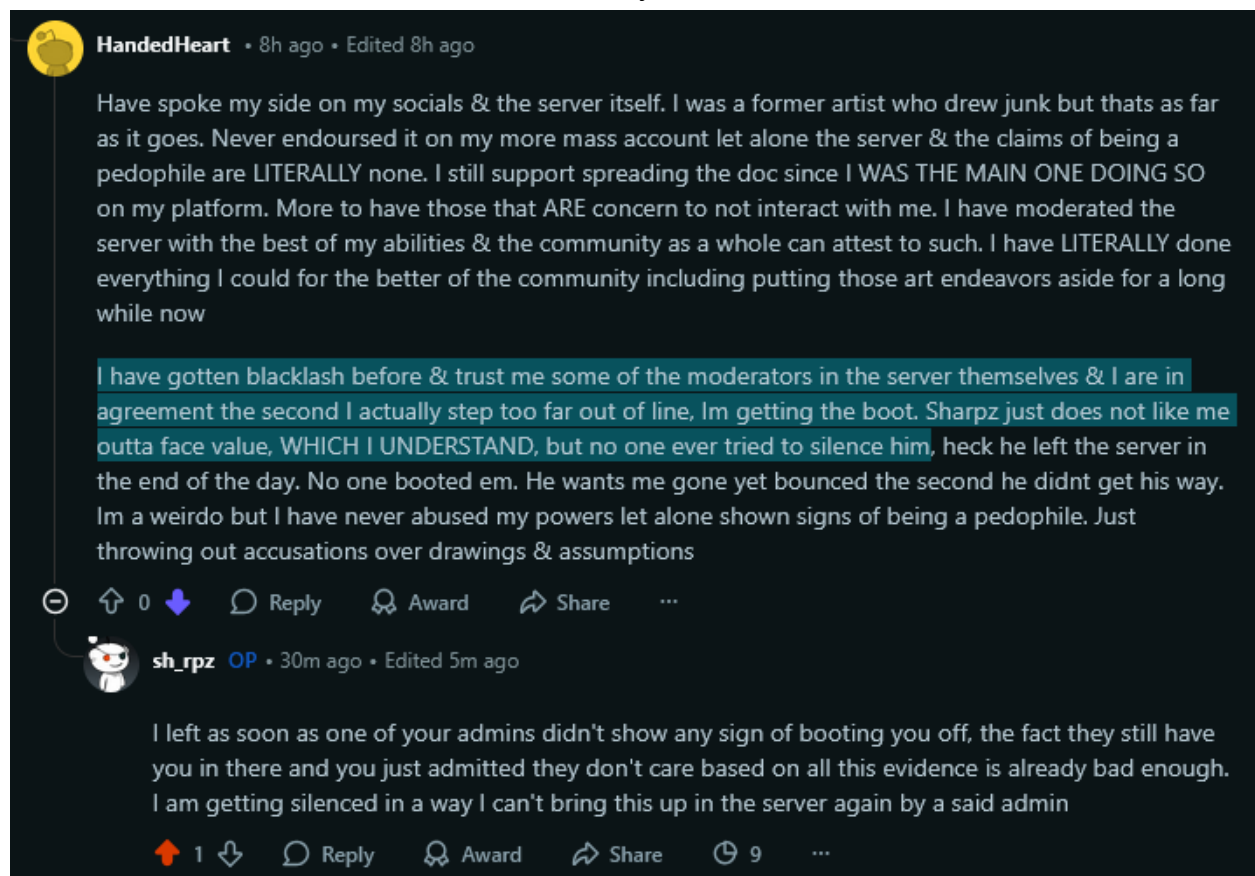

MRhq is a moderator (and any regular member in the chat) who saw this issue as not important.

Afterwards I decided to message one of the administrators over this problem, this is how they responded, due to privacy concerns I will simply leave what he said when I brought this up.

“That isn't our business to prod into honestly, I would ask you don't keep bringing this up, it's something we'll discuss internally.”

“Alright, stop digging into people's personal business man, that's not cool. We already discussed it, don't come into the discord looking to start shit. Don't bring it up again, thank you.”

The screenshot shows a Discord chat interface. At the top, a user named **HandedHeart** (yellow profile picture) has a message from 8h ago, edited 8h ago. The message text is: "Have spoke my side on my socials & the server itself. I was a former artist who drew junk but thats as far as it goes. Never endoursed it on my more mass account let alone the server & the claims of being a pedophile are LITERALLY none. I still support spreading the doc since I WAS THE MAIN ONE DOING SO on my platform. More to have those that ARE concern to not interact with me. I have moderated the server with the best of my abilities & the community as a whole can attest to such. I have LITERALLY done everything I could for the better of the community including putting those art endeavors aside for a long while now". Below this, there are two lines of text highlighted in blue: "I have gotten backlash before & trust me some of the moderators in the server themselves & I are in agreement the second I actually step too far out of line, Im getting the boot. Sharpz just does not like me outta face value, WHICH I UNDERSTAND, but no one ever tried to silence him, heck he left the server in the end of the day. No one booted em. He wants me gone yet bounced the second he didnt get his way. Im a weirdo but I have never abused my powers let alone shown signs of being a pedophile. Just throwing out accusations over drawings & assumptions". Below the message are interaction icons: a speech bubble with a minus sign, an up arrow with '0', a down arrow, a speech bubble with 'Reply', a trophy with 'Award', a share icon with 'Share', and a three-dot menu. Below this is a reply from **sh_rpz** (white profile picture) with a blue 'OP' tag, from 30m ago, edited 5m ago. The reply text is: "I left as soon as one of your admins didn't show any sign of booting you off, the fact they still have you in there and you just admitted they don't care based on all this evidence is already bad enough. I am getting silenced in a way I can't bring this up in the server again by a said admin". Below the reply are interaction icons: an up arrow with '1', a down arrow, a speech bubble with 'Reply', a trophy with 'Award', a share icon with 'Share', a speech bubble with '9', and a three-dot menu.

I left as soon as one of your admins didn't show any sign of booting you off, the fact they still have you in there and you just admitted they don't care based on all this evidence is already bad enough. I am getting silenced in a way I can't bring this up in the server again by a said admin

Afterwards, HandedHeart “offered” to leave so I can take his mod position, this feels like some sort of bribery to keep it secret but who knows at this point.

This whole thing is a mess, they just didn't give a fuck and wanted **him** back. And he returned afterwards, so yeah this confirms the mod team doesn't give a damn that someone who ISN'T A LOLICON replaces their "beloved" moderator. Fuck this server.

I'm not sure what you are talking about, I wasn't talking about peoples OCs I was talking how you are a lolicon based on endorsing NSFW of underage characters, there is evidence above and below for my claims, there is plenty of context. You are over 30. Lola Loud and Cream the Rabbit are kids in their series and you drew Loud House porn and favorited Cream the Rabbit NSFW. Can you discuss why you follow cub accounts on inkbunny, why you drew Loud House nsfw in the first place? You are very quick to jump the gun on calling them "smol" like any lolicon (pedo) would. You call them "risque pin ups" . I know what you are. Based on your deleted reddit reply, Aging up isn't a valid excuse when you didn't change the characters design at all to reflect it. BTW he isn't involved with this, just me.

Self reporting, the renditions you based off to draw loud house underage NSFW don't mean shit that guy doesn't do actual aged up designs (he just has "all characters are 18 and above" as an excuse to draw underage character NSFW) just say you are a lolicon, there's sufficient proof below. This is who you are basing those "aged up" renditions from, can you open about the cub/shota and diaperfur cub artist you follow on inkbunny?

There's people on my side, the people who are not are 40 year olds who are just dumbasses. You and your friend got banned from the r/Modnation subreddit (presumably since the comments I got show up as deleted) and they agree + pinned my message on there. I don't use Twitter and don't have a following and my friend isn't associated with this callout. This is all my doing, my goal is for the admins to realize that they have a lolicon on their team. I'm just letting the community and the admins know who you really are so they kick you and won't accept you in.
