

SPECIAL 4CHAN MAHJONG SOUL TEAM INVITATIONAL SHOWDOWN

/v/ vs /jp/ vs /a/ vs /u/

TOURNEY LOBBY 785777 (check'd)

31.08.2019 STARTING AT 3:00 PM GMT

BASIC INFORMATION (actually read those)

1. This is not a standard tournament, treat it as a publicity stunt in between 4th and 5th tourney (this one will come near the end of September). It will take place during a single day.
2. If anyone here watched first season of Saki anime, then you know the drill, for everyone else I'll explain the rules.
3. Four teams representing four mahjong related boards will assemble five members each, and assign them roles: Vanguard, Sergeant, Lieutenant, Vice Captain and Captain (representing playing order, from 1st to 5th).
4. Each team starts with 100000 points, and this amount does not refill in between matches - result is carried over to the next game. This means you will probably have to clean after your teammates blunders.
5. Since this tourney is going to be played for lulz, **PLAYERS ARE GOING TO BE ABLE TO PLAY AFTER GOING DOWN TO NEGATIVES** (to avoid unlikely scenario of terminating the tourney during 3rd hanchan, but remember - humiliation will stay).
6. After careful consideration and analyzing thousands of tourney replays, we decided that **AKADORAS ARE BACK INTO PLAY** (now and in further tourneys). Also, each hanchan will end only after passing of the s4 round. (Meaning there is no "forced end if you are 1st and win orasu as the dealer).
7. Make it known once and for all which board has the best grasp on the flow.
8. Main way of communication will be as always the channel **#yakuman/v/irgins** on irc.rizon.net - <https://rizon.net/chat> use this if you don't use standalone IRC client.
9. After each match there will be a 10 minute recess, during which I am going to prepare stuff for the next match. Since each hanchan will take +- 45 minutes, I'd like for you guys be prepared for your turn at every full hour (15:00 for 1st match, 16:00 for 2nd etc.)
10. Tournament is going to be showcased and commentated on the usual streaming platform, link is going to be posted on IRC and the thread before and during the match.

For voicecom, please download Mumble (light, easy to use, cancer-free voip communicator): https://wiki.mumble.info/wiki/Main_Page

I'll give you the address of my server on the day of the tournament. Make sure your mics are tested and push-to-talk set on. You can also drop by before the tournament to test things on and say hi.

TO DO LIST FOR EACH TEAM:

1. Each player to prepare a small (256x256) picture which will be his avatar (shown on the stream instead of small portraits of MJS girls).
2. Each team to prepare sound files: two short ones: one for dealing in, one for winning a hand, a RIICHI song and an anthem (song related to your board).
3. One banner/poster representing your team (preferably with something that will represent each player on it).
4. A triangular in shape section of custom game mat, representing your board and the best memes. Edit this file (<https://i.imgur.com/OyGlmfX.jpg>) and make a cutout (<https://i.imgur.com/rDgIeYJ.png>) and fill it with whatever you want (just make sure there will be a board sign in the middle). Remember that certain part of triangle is going to be obscured by point-square in the middle. Resize the base file to 2048x2048 if you need more space.
5. There will be a link in each team irc channel to workflowy site, you can use it to brainstorm ideas and link me finished things.
6. If you want to, during each player introduction, I can showcase your "proof of devotion" on stream - this is not mandatory, and by default the answer will be "no". Notify me on irc about that.

I am not forcing anyone to do all of the above, but I think it will be cool and more fun to watch/participate in. Use workflowy links in the channel topics to brainstorm your ideas. There is no deadline, if something will be missing then we'll have to do without it.
