1 Syfte/Uppdrag

Undersökning av utläst data från beslagtagen mobiltelefon. Telefonen är tagen i beslag från avlidna Maja Karlsson. Den anträffades i vattnet vid platsen där brottet bedöms ha begåtts. Telefonen anträffades 2024-03-20.

Syfte med undersökningen är att utröna om det finns uppgifter i telefonen av betydelse för utredningen. Som av betydelse för utredningen bedöms generellt den/de misstänktas eller andra involverade personers kontakter, rörelser, positioneringar och övriga förehavanden under brottstiden eller andra för utredningen intressanta tidpunkter. Uppgifter som bekräftar eller talar emot andra uppgifter i utredningen, t.ex. förhörsuppgifter bedöms också som intressanta.

2 Metod

Undersökningen av mobiltelefonen har följt de rubriker/mappar som är satta av telefonutläsningsprogrammet UFED. Innehållet under rubriker som efter granskning bedöms irrelevanta för utredningen presenteras inte i rapporten.

Fokus för undersökningen har varit tidsperioden 2024-03-01 – 2024-03-20 men även andra tidpunkter kan ha undersökts. Andra avgränsningar kan också ha gjorts beroende på datamängd eller andra orsaker för respektive rubrik. Genomförda sökningar och resultatet av dessa redovisas genom resultatet under respektive rubrik.

I rapporten redovisas endast de artefakter som bedöms ha betydelse för utredningen.

Tidsstämplar anges i UTC+1, lokal svensk vintertid, om inte annat anges.

Krimfup.se - FUP & DOM på nätet

3 Undersökning

3.1 Information om enheten

Den utlästa telefonen benämns i rapporten som enheten. Enheten har hanterats på NFC med speciell förmåga att hantera elektronik som varit utsatt för kraftig väta.

Enheten ser på tidslinjen ut att ha varit aktiv sedan 2024-02-26. Tidigare data är sannolikt synkroniserad data. Tidslinjen visar all utläst data med tidsstämplar.

Krimfup.se - FUP & DOM på nätet

BG33606-1. Aktiv del av tidslinjen.

Följande innehåll är extraherat från enheten:

3.1.1 Information om telefonägare

Enheten anträffades i vattnet endast ett par meter från den avlidna. Telefonnummer, konton, bilder och andra uppgifter talar entydigt för att telefonen är Maja Karlssons. Det bedöms bekräftat att telefonen är hennes.

Krimfup.se - FUP & DOM på nätet

3.2 Telefondata

3.2.1 Application usage

Under application usage lagrar telefonen data om vilka appar som använts och när. Ingen data om hur appen använts eller till vad lagras. Däremot kan de flesta händelser kopplas till andra artefakter under andra rubriker som t.ex. Meddelanden.

Händelser i Application usage kan tillsammans med till exempel tidslinjen eller artefakter under andra rubriker användas för att förstå om enheten aktivt använts av någon eller om händelser i enheten skapats automatiskt som t.ex. inkomna missade samtal eller meddelanden som skapar notiser.

Utifrån Application usage och Media/Bilder är möjligen den sista aktiva användningen av enheten 2024-03-14 kl13:31:17. Då skapas två bilder i enheten. Bilderna har filändelse ”.ktx” vilket är ett format Ios använder för att lagra ögonblicksbilder från appar när de stängs ner. Bilderna är alltså sannolikt automatiskt genererade men uppstarten av kamera-appen är möjligen användar-genererad. Kamera-appen kan dock möjligen startas av misstag även om det kräver beröring av skärmen.

3.2.2 Calls / Call Log

Under Call Log lagras inkommande och utgående samtal från flera appar med vilka man kan genomföra röst och eller videosamtal.

Under morgonen den 14 mars sker sannolikt två samtal mellan Maja och misstänkte Tim Andersson. Samtalen loggas i enheten i två databaser. Den ena tillhörande appen Instagram och den andra Ios egna databas för samtalsloggar. I Instagram-databasen lagras motpartens konto-ID vilket i de aktuella samtalen är 62225488933. Konto-id:t återfinns som aktivt Instagram-konto i BG32671-1 som bedöms tillhöra misstänkte Tim Andersson.

Övriga samtal under perioden 2024-03-01 och 2024-03-14 bedöms inte vara av uppenbar relevans för utredningen och har inte exporterats. Till övervägande del är de mellan Maja och hennes närmsta familj.

Det sista utgående samtalet med varaktighet (39s) sker 2024-03-14, kl12:16:34 och är till kontakten ”Bästa Mamma 😻”.

Det sista inkommande samtalet till enheten med varaktighet och som bedöms ske innan tiden för brottet sker 2024-03-14, kl12:20:09 från kontakten ”Bästa Syster 💗 💗 💗”. Samtalet är loggat i två olika databaser där det i den ena sannolikt registrerats med sin starttid och varaktighet och i den andra med sin sluttid och status. Sannolikt har samtalet inte besvarats.

Krimfup.se - FUP & DOM på nätet

Närmsta samtal därefter inkommer kl14:39:41 och är ett missat/obesvarat samtal från Marks Kommun. Därefter inkommer flera samtal som inte besvaras.

Sista registrerade inkommande samtal är daterat till 2024-03-15 kl.09:15:22.

De samtal som sker under brottstiden har exporterats.

3.2.3 Contacts

Under kontakter lagras alla utlästa kontakter från flera olika appar och sociala medier. För flera appar lagras kontakterna i respektive konto som varit aktivt och man kan därför utläsa om det funnits fler konton som varit aktiva i enheten.

Konton under vilka kontakter lagrats.

Att enheten haft flera konton anslutna bedöms bekräfta uppgifter om att Maja haft flera konton och att hon bytt konton.

Av de kontakter som lästs ut bedöms ett flertal vara knutna till misstänkta eller tidigare misstänkta eller involverade personer i ärendet. Några av kontakterna återfinns i andra beslagtagna enheter och andra bedöms möjligen vara knutna till involverade personer då de delar namn med personerna.

3.2.4 Devices & Networks

3.2.4.1 Bluetooth-enheter

Under rubriken samlas de anslutningar som enheten gjort mot olika typer av trådlösa nätverk. I den aktuella utläsningen finns både uppkopplingar mot mobiltelefonimaster såväl

Krimfup.se - FUP & DOM på nätet

som Bluetooth-enheter och trådlösa nätverksanslutningar. Dessa kan användas för att positionera en enhet då anslutningarna har en begränsad geografisk räckvidd. För uppgifter om positioneringar i enheten hänvisas till rubriken ”Location Related”.

På morgonen den 14 Mars ansluter enheten via Bluetoothenheten ”JBL PartyBox 100”. Partybox 100 är en större men bärbar högtalare. Enheten ansluter mot ”JBL PartyBox 100” kl 06:15:39 och kopplar ifrån kl06:25:41.

Klockan 06:59:28 ansluter enheten mot bluetooth-enheten ”Tenorite” vilket baserat på namnet troligen är ett par Exibel Tenorite trådlösa in-earhörlurar. De kopplas därefter ifrån enheten kl08:06:38.

Troligen är enheten på Majas hemadress då den är uppkopplad mot ”JBL PartyBox 100” för att därefter lämna hemadressen då ”Tenorite” ansluts.

För bluetooth-enheten ”Tenorite” går att se ett mönster i uppkopplingarna under vardagar mellan 2024-03-11 – 2024-03-13, vilket är tiden i utläsningen som den finns loggad. De kopplar upp mot enheten på morgonen runt kl7 och kopplar ifrån runt kl8. De kopplar därefter återigen upp mot enheten efter kl12. Detta sker dock inte den 14/3 då endast uppkopplingen på morgonen sker.

I BG32826-12:18 finns ett par Exibel hörlurar i beslag från en svart väska som anträffades på brottsplatsen. Ingen MAC-adress finns angiven i beslagsprotokollet och det har därför inte fastställts om det är de till enheten anslutna hörlurarna som också finns i beslag.

3.2.4.2 Wireless networks – Wifi-nätverk

Det senaste nätverket som enheten kopplar upp mot är Marks kommuns skolnätverk med BSSID ”khus”. Enheten kopplar automatiskt upp mot nätverket 2024-03-14 kl11:14:21 och rör sig därefter mellan olika accesspunkter inom samma nätverk. Senaste anslutningen är tidsstämplad kl12:23:54. Det saknas dock tidszonsangivelse för den senare anslutningen och tiden kan därför också vara 13:23:54. Det saknas tidpunkter för nedkoppling från nätverket.

3.2.4.3 Device events

Under rubriken ”Device events” lagrar telefonen händelser eller aktiviteter som t.ex. när enheten låses respektive låses upp eller när skärmen tänds eller släcks. Den visar också information om notiser. I enheten finns 56257 event loggade och undersökningen har därför fokuserat på tiden då brottet sannolikt begåtts. Ett ”event” benämns aktivitet i undersökningen.

Enheten har senast loggade laddning på morgonen 2024-03-14 ca kl06:45.

2024-03-14, kl13:29:23 loggas en av de aktiviteter som bedöms möjligt att den kräver aktiv användning av enheten. Det är en datatyp i databasen som tyder på att text har matats in i enheten, alltså att tangentbordet använts. På Apples hemsida beskrivs datatypen som ”[…] A

Krimfup.se - FUP & DOM på nätet

text-input session starts when the user raises a keyboard and ends when the keyboard dismisses.” Möjligen triggas händelsen av att kodlås-tangentbordet öppnas vilket kan ske automatiskt.

”Text input”-aktiviteten loggas en sekund ifrån att enheten positionerar på koordinaterna (57.494504, 12.668646, precision 60m) vilket är i omedelbar närhet av Assbergs Station i Skene.

Google Maps, 57.494504, 12.668646. Tidsstämplad kl13:29:24.

Aktiviteterna mellan ovan nämnda ”Text input” och sista aktiviteten i databasen består av notiser som bedöms ha skapats av inkomna meddelanden och samtal samt loggar av hur skärmen tänds och släcks vilket den bland annat kan göra automatiskt i samband med vissa rörelser och inkommande notiser.

Den sista aktiviteten innan telefonen anträffades och togs i beslag är tidsstämplad till 2024-03-15, kl09:15:27 vilket troligen är i närhet till den tidpunkt då batteriet i telefonen dör och den stängs av. Det är då en notis som flyttas från hemskärmen eller läggs bakom en nyare inkommen notis. Detta sker sannolik med automatik.

3.2.5 Device Locations

Enheten har platstjänster aktiverade och i utläsningen finns 44314 positioneringar varav 10594 är markerade som raderade. Raderandet är troligen en automatisk process företrädelsevis för positioneringar från wifi-nätverk som enheten vid något tillfälle anslutit till eller varit i närheten av.

Krimtup.se - FUP & DOM på nätet

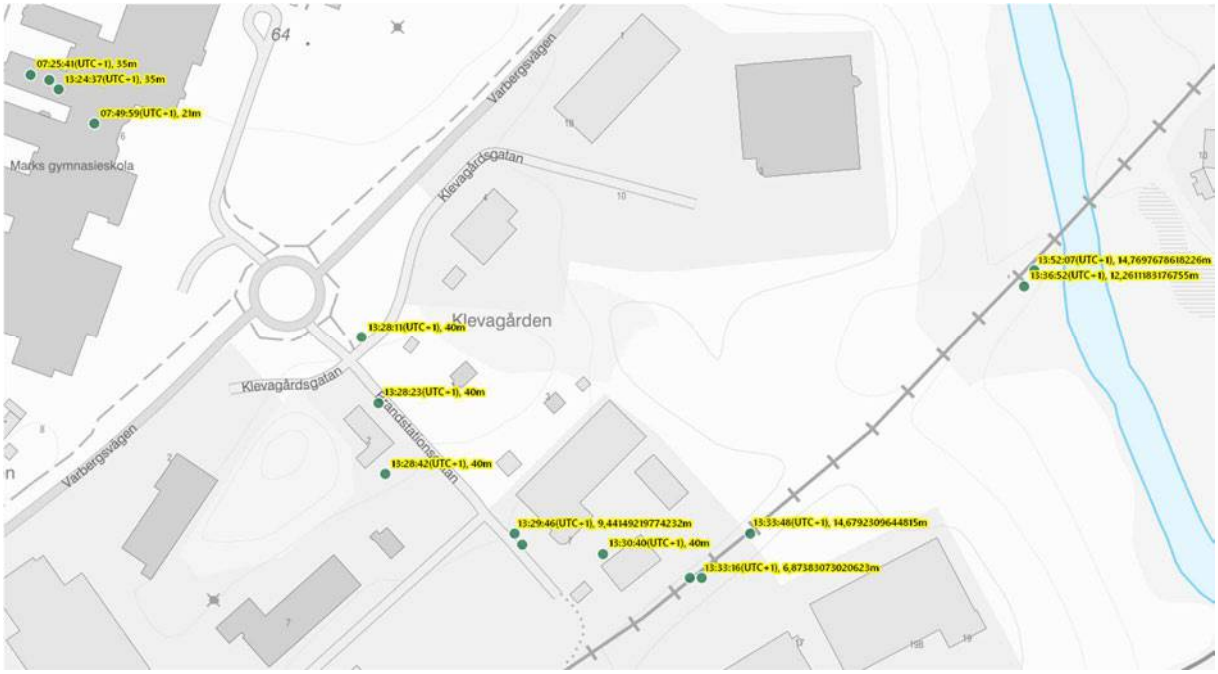

Mängden positioneringar gör att de inte exporteras som bilaga till undersökningsprotokollet utan de som bedömts relevanta redovisas i protokollet. Positioneringar redovisas även i ärendeanalysen.

Endast positioneringar den 14/3 har bedömts som relevanta i utredningen och då flera positioneringar loggats på samma eller i omedelbar närhet av samma plats redovisas ett urval av positioner som ger en bild av rörelser och händelser under dagen.

Positioneringsdatan i enheten är uppdelad i flera varianter. Några bedöms som mindre tillförlitliga för att bedöma enhetens faktiska position eller tidpunkt vid positionen. Det kan gälla positioner som härrör från mobilmaster eller wifi-nätverk. Vissa positioner har lägre precision (≥100m) vilket kan bero på dålig mottagning av GPS-signal, att man är inomhus eller på annat sätt avskärmad eller andra orsaker. Dessa positioner har bedömts som att inte vara tillräckligt tillförlitliga och redovisas inte.

Precisionen anges i meter och en låg precision har högt värde i meter.

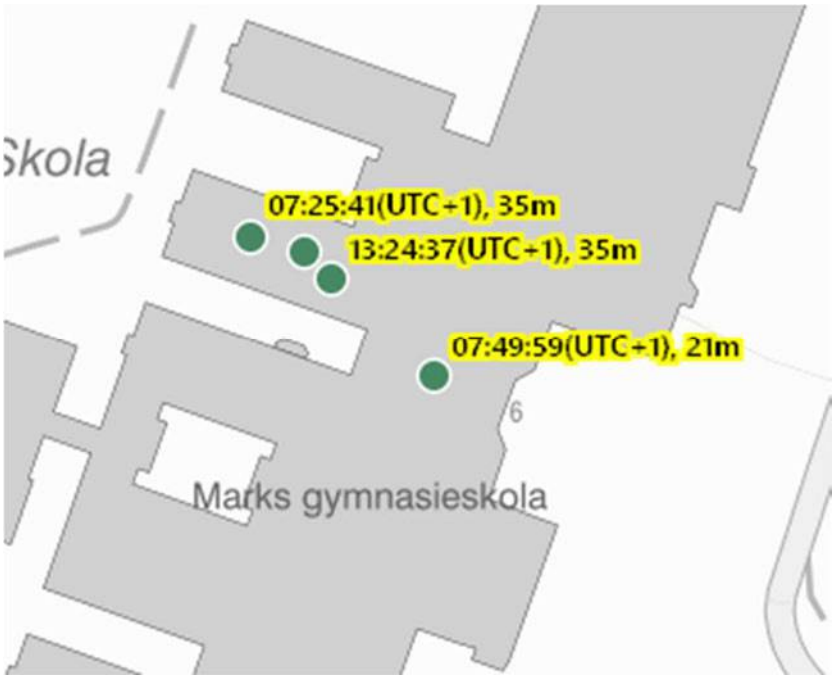

De positioneringar som redovisas i undersökningen har alla en precision på max 40 m och är av typen ”visited” vilket innebär att enheten varit på platsen.

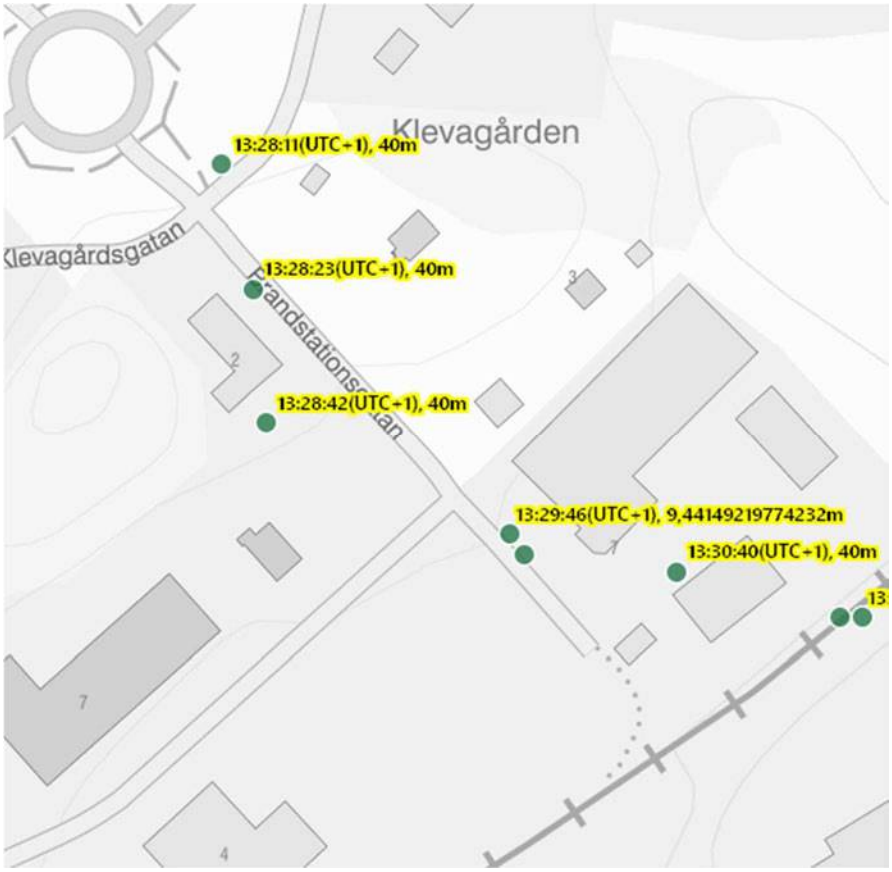

Översikt av urval av positioner 2024-03-14, ca kl07:25 -13:52.

Enheten går att följa från Majas hemadress till skolan där en anländer strax efter 07 på morgonen. Enheten är därefter i skolan tills den rör sig mot brottsplatsen där den positionerar ca kl13:52.

Krimfup.se - FUP & DOM på nätet

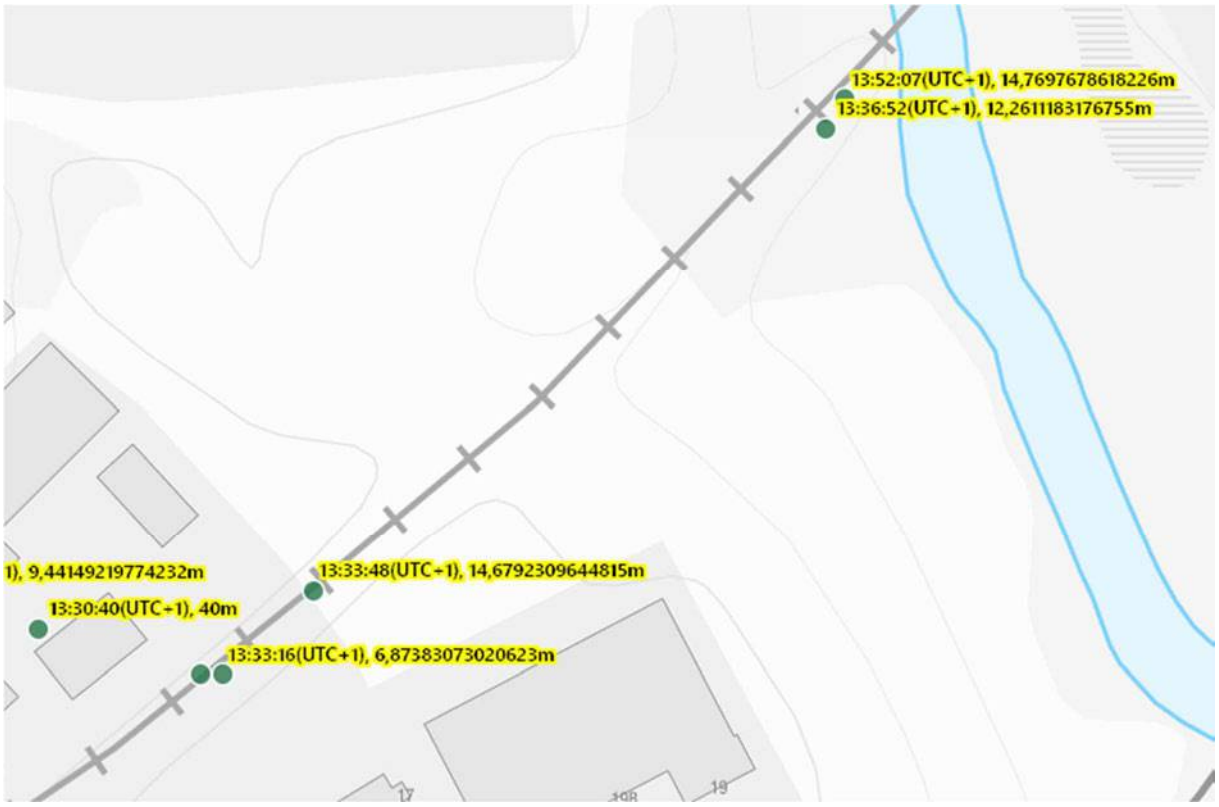

Positionering Marks gymnasieskola morgon och strax innan rörelsen mot brottsplatsen påbörjas.

Positioneringar Klevagårdsgatan till Assbergs station. Ca kl13:28 – 13:31.

Krimtup.se - FUP & DOM på nätet

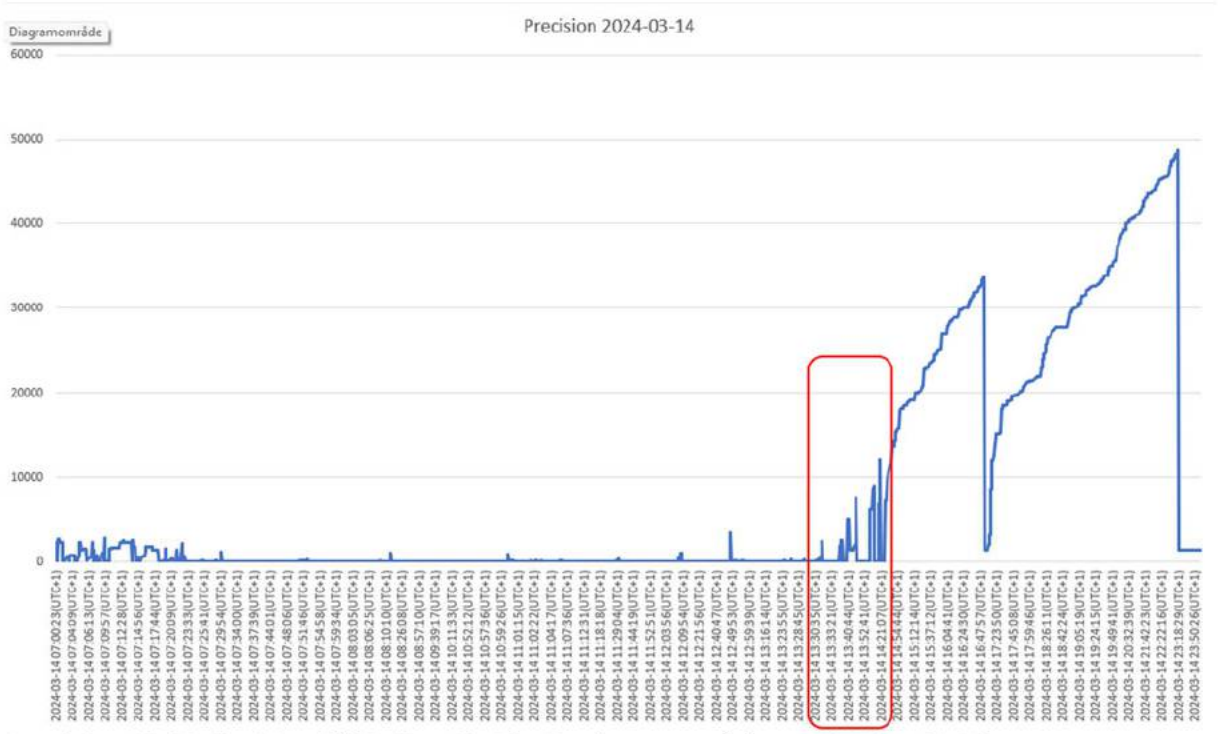

Positioneringar Assbergs Station till brottsplatsen. Ca kl13:31-13:52.

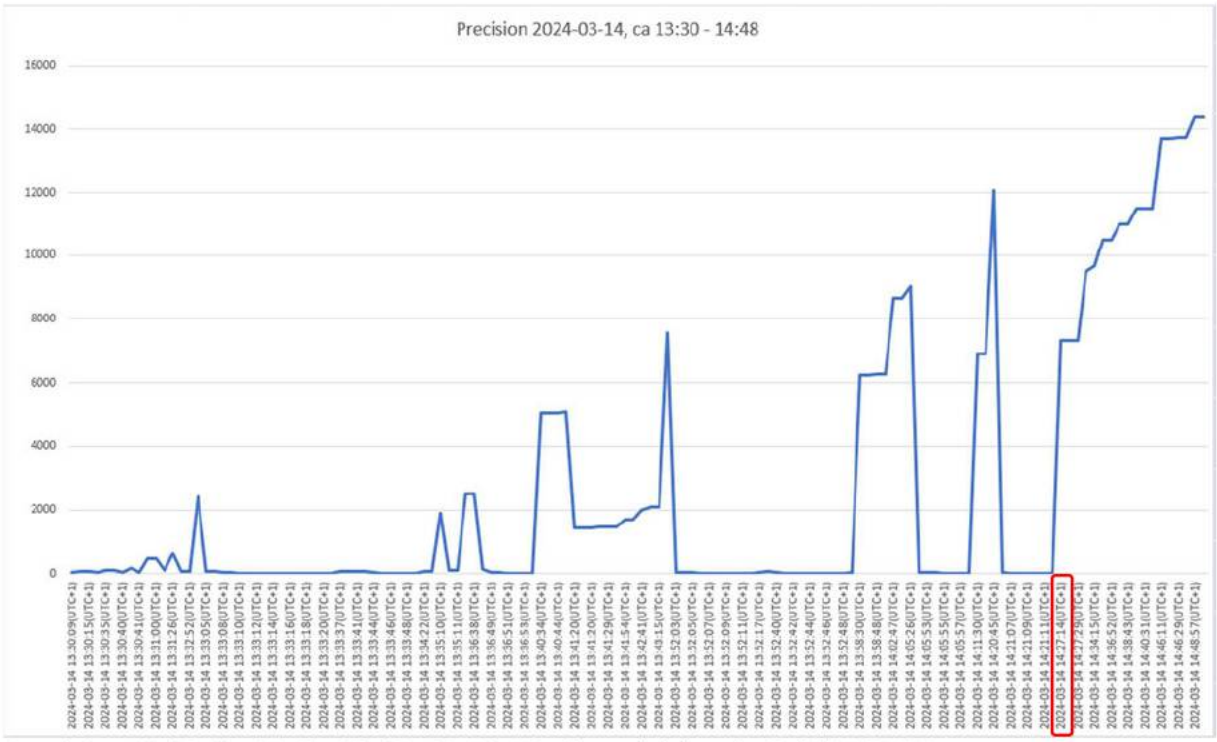

Positioneringarna varierar över tid gällande precision. Från någon enstaka meter till flera tusen meter. 2024-03-14 ca kl13:40 förefaller mönstret ändra på sig och precisionen minskar markant. Värdet varierar mellan höga och låga värden för att från ca kl 14:27 stanna på höga värden fram till enheten dör.

Troligen hamnar telefonen i vattnet vid kl 14:27 då värdena stabiliseras på en sämre precision.

Krimfup.se - FUP & DOM på nätet

Precision 2024-03-14 ca kl07:00 – 23:50. Markerat område ca 13:30 – 14:30.

Precision 2024-03-14. Ca 13:30 -14:48. Markerad tidpunkt är kl14:27:14.

Inga av positioneringarna i enheten tyder på att den varit vid platsen för brottet tidigare.

Krimfup.se - FUP & DOM på nätet

3.2.6 Media

3.2.6.1 Images

De bilder som exporterats är i ktx-format. Bilderna är troligen snapshots, ögonblicksbilder, som enheten lagrar i syfte att ge upplevelsen av att öppnandet av appar och funktioner går snabbare. Bilderna är relaterade till kamera-appen i enheten och möjligen innebär de att kameraappen använts eller i vart fall startat vid tidpunkten för bilderna. De är tidsstämplade till 2024-03-14, kl13:31:17.

3.2.6.2 Videos

Under rubriken ”Videos” samlas all typ av videodata. Det kan vara både med enheten inspelat material, material som skickats till enheten och cache-lagrat material. Cache-lagrat material kan enklast beskrivas som tillfälligt lagrat. I enheten har vissa inkomna och utgående ljudfiler lagrats vilka bedöms relevanta för utredningen.

Vissa av ljudfilerna återfinns även under rubriken chatt som inkomna meddelanden men inte kopplat till den cachade ljudfilen. Dock inte alla vilket troligen beror på att delar av konversationen i chatt är raderad men att de cachade ljudfilerna fortfarande finns kvar. Hela konversationen består av både ljud och text-meddelanden varav några, av samma orsak som med ljudfilerna, endast finns utlästa som notiser.

Ljudfilerna bedöms bestå av en chatt mellan Maja och misstänkta Tim men det verkar baserat på sammanhanget i konversationen inte vara fullständigt material. Den sker över både snapchat, instagram och messenger och vissa meddelanden är raderade och saknas i utläsningen. De går heller inte finna i andra utläsningar. Vissa meddelanden finns bara lagrade i enheten som inkomna notiser.

Sammantaget innebär de lagrade meddelandena under olika rubriker att det ändå går att få en förhållandevis uttömmande bild av Majas och Tims konversation med varandra mellan 12/3 och 14/3.

3.2.7 Messages

Under rubriken ”Messages” lagras alla meddelanden som skickats eller tagits emot av enheten. I vissa fall finns appar installerade vars data undersökningsprogrammet inte tolkar som meddelanden eller inte kan hantera. I den aktuella enheten har inga sådana appar anträffats.

I vissa fall syns även raderat material men om så är fallet beror på många saker, till exempel vilken app som använts eller när meddelanden raderats. Även om meddelanden raderats kan de notiser meddelandet skapat finnas lagrat på andra platser i enheten. De redovisas då inte under rubriken ”Messages” utan i separat material.

Krimfup.se - FUP & DOM på nätet

3.2.7.1 Facebook Messenger

Av de utlästa messenger-konversationerna bedöms en som möjligen intressant i ärendet. Det är en chat mellan Maja och Andréa Götesson. De meddelanden i chatten som ligger i närtid till brottet har exporterats.

Det konto som använts vid chattarna är sannolikt ett konto med visningsnamn ”Maja Karlsson”, användar-ID ”majakarlsson” och konto-ID ”100087523165257”.

Övriga chattar bedöms som för gamla för att vara av relevans för utredningen även om de sker med involverade personer i ärendet.

3.2.7.2 Instagram

I enheten finns Instagram-meddelanden från två olika Instagramkonton. Det ena har visningsnamn ”Molly”, användar-id ”molly_olsson” och konto-ID ”65534254653”. Kopplat till kontot finns en chat utläst. Den är tidsstämplad till 2024-03-11 men bedöms inte vara av relevans för utredningen.

Det andra kontot har visningsnamn ”Maja Karlsson”, användar-id ”majasol123” och konto-ID ”61383447473”. Kopplat till kontot finns 36 chattar utlästa med sammanlagt 299 meddelanden. Detta är troligen det konto Maja använder mest bedömt på mängden innehåll och att det är kopplat till detta konto som konversationen med Tim, som bland annat nämns under avsnitt 3.2.6.2 Videos, sker. Två chattar har exporterats och det är en delvis raderad chatt med misstänkte Tim Andersson och en chatt med Andréa Nyström som möjligen är relevant för utredningen.

Ytterligare en chatt finns utläst mellan Tim och Majas Instagram-konton. Den har dock inget innehåll och är daterad mellan 2024-03-13 kl19:29:55 till 2024-03-14 kl07:52:29. Möjligen är det samma meddelanden som återfinns som videofiler under avsnitt 3.2.6.2 men då de saknar innehåll har de inte närmare undersökts och heller inte exporterats.

3.2.7.3 Native messages – SMS / MMS

Inga av meddelandena bedöms vara av direkt betydelse för utredningen om brottet. De som exporterats bedöms kunna användas för att fastställa tidpunkt för Majas försvinnande.

3.2.8 Physical Activities

Till ”Physical Activities” räknas de steg och den rörelse enheten uppfattar att användaren tar. Exakt vad enheten räknar som ett steg eller hur enheten mäter avståndet som också redovisas går inte fastställa. Det har heller inte gått att fastställa när enheten påbörjar en ny tidsperiod med rörelse. Datan bedöms dock ge en bild över hur enhetens användare rört sig vid de tider som rörelserna registrerats, även om hänsyn får tas till att det kan finnas felmarginaler i tid eller uppmätta värden.

Krimfup.se - FUP & DOM på nätet

Undersökningen av hälsodata har begränsats till från den tid Maja slutade skolan till den tid då den sista rörelsen registrerats.

Data_id steg (datatyp 7)	Data_id rörelse (datatyp 8)	Starttid	Sluttid	Steg	Sträcka (m, avrundat)
1322112	1322113	13:42:39	13:42:52	9	4
1322109	1322108	13:32:25	13:41:54	614	436
1322102	1322103	13:22:00	13:31:44	1014	807
1322095	1322096	13:01:33	13:03:35	235	202

Rörelser i hälsodatabasen, 2024-03-14, kl13:00 – 14:00.

Den sista registrerade rörelsen sker mellan kl13:42:39 och 13:42:52.

3.2.9 User Accounts & Details

De konton som finns utlästa har exporterats. Utöver dessa finns lösenordsfiler lagrade som kan kopplas till ytterligare konton. Lösenordsfilerna kan beskrivas som digitala nycklar för inloggning. Undersökningen har avgränsats till filer som kopplas till de sociala medier som Maja bedöms ha använt eller kunnat använda för att kommunicera med den misstänkte eller andra involverade personer.

För snapchat finns flera konton loggade i enheten och/eller kopplade till lösenordsfiler eller annan data som visar att kontot sannolikt har använts i enheten.

Visningsnamn ”Maja Svensson” med användar-id ”hej24802” förekommer med en lösenordsfil daterad som skapad 2024-02-27 kl16:38:28 och modifierad 2024-03-13 kl08:02:51. Det finns även en notering med texten ”Hej24802” daterad till 2024-03-12 kl15:52:43. Kontot återfinns i BG32671-1 och står där som tillagt i databasen som lagrar kontakter 2024-03-12 kl17:45:01.

Användar-ID ”singneolsson” finns loggat i enheten i ett mail från Snapchat till apple-ID-mailen med en varning om ett inloggningsförsök från den 25 februari 2024 kl18:40. Kontot har enligt Snapchat konto-id ” 4cd6ab86-4530-4b74-bee1-78b3138759b3” och visningsnamn ”Stumpan Olsson”.

Användar-ID ”majsan122” finns loggat i en lösenordsfil daterad 2024-02-27 kl16:39:01. Det har enligt Snapchat konto-id ” f3cdb572-d8aa-4740-8c3e-bf3f66cb671f” och visningsnamn ”Klara Olsson”.

3.2.10 Senaste användning av enheten

I enheten syns mellan ca kl12:27 och ca kl14:30 ett antal aktiveringar av mobiltelefoni-funktionen i operativsystemet. Det sker dock inga samtal eller andra händelser som bedöms genereras av användning av mobiltelefonen. Inga samtal eller andra händelser syns heller i det HÖK-material som inhämtats. Triggningarna av telefoni-funktionen bedöms inte vara användargenererade då det saknas andra artefakter och händelser som styrker användandet. Möjligen triggas mobiltelefonifunktionen när skärmen tänds om funktionen

Krimfup.se - FUP & DOM på nätet

varit aktiv i enheten då enheten senast låstes. Detta har dock inte undersökts närmare. Händelserna har inte exporterats.

Senaste låsning av enhetens skärm sker kl12:16:24 vilket gör det sannolikt att händelserna inte är användargenererade även om detta inte går att utesluta.

Sammanfattningsvis sker sista bekräftade användningen av enheten kl12:16 då den används för att ringa kontakten ” Bästa Mamma 😻 ” *(Avsnitt 3.2.1).* Därefter sker två möjliga användningar av enheten. 13:29 då datatypen ”Text Input” skapas *(Avsnitt 3.2.4.3)* och 13:31 då två ktx-filer som bedöms vara från kameraappen *(Avsnitt 3.2.6.1).*

3.3 Datafiler

Under kategorin datafiler återfinns flera typer av databärare. Bland annat de databaser där information om samtal och meddelanden och andra händelser i enheten loggas eller där kontakter och händelser kopplat till appar loggas. Dessa är till viss del de som undersökts i avsnitt 3.2.

Utöver dessa återfinns också vissa nedladdade dokument och olika typer av inställningsfiler för appar och telefonen. Inställningsfilerna bedöms generellt sakna relevans för utredningen och har därför inte undersökts.

3.4 Genomsökning på distans

Av det material som hämtats genom genomsökning på distans har en så kallad Takeout för Instagram-kontot ”majasol123” tillfört flera meddelanden som bedöms vara från samma chat mellan Tim och Maja som nämns i avsnitt 3.2.7.2 och 3.3. En Takeout innebär nedladdning av användarens egen data, en tjänst som alla kontoinnehavare har möjlighet att utföra.

Genomsökning på distans dokumenteras i eget protokoll och chattmeddelandena som kopierats redovisas i externt dokument samt film tillsammans med övriga meddelanden som bedömts vara från samma chat.

Krimfup.se - FUP & DOM på nätet
HEMLIG

I genomsökning på distans av BG33606-1 och Instagramkontot ”majasol123” återfinns en fortsättning på en chat mellan kontakten ”Andrea 🩶”, vilket bekräftats vara Andrea Nyström, och Maja Karlsson.

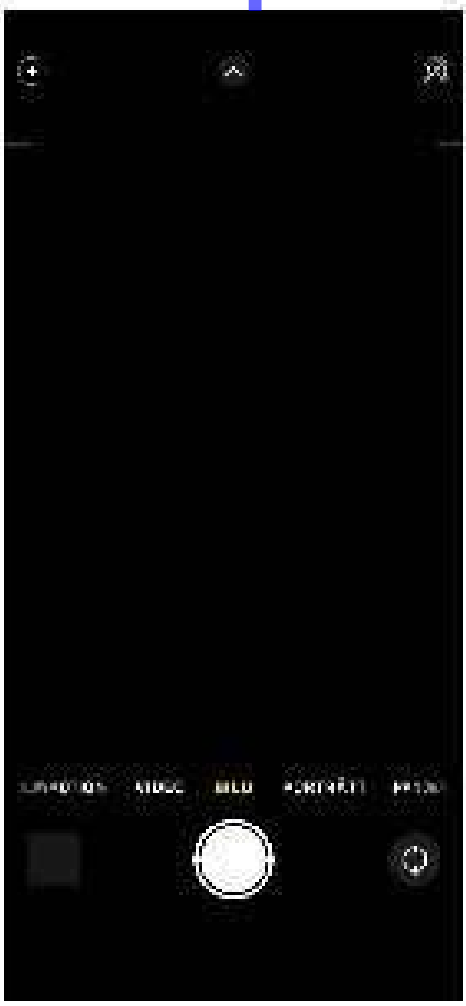

Nedan är skärmklipp av de meddelanden som inte finns i UFED-rapporten för BG33606-1 men som återfinns i BG34084-1.

Tidsstämpeln är via jämförelse med mobilutläsningar angiven i PST till vilken man får lägga till 9 timmar för att få UTC+1.

Troligen har meddelandena inte levererats till Maja Karlssons mobiltelefon då den bedöms ha stängts av innan de skickades.

1 Syfte/Uppdrag

Undersökning av utläst data från beslagtagen mobiltelefon. Telefonen är tagen i beslag från misstänkte Tim Andersson i samband med förhör 2024-03-18.

Syfte med undersökningen är att utröna om det finns uppgifter i telefonen av betydelse för utredningen. Som av betydelse för utredningen bedöms generellt de misstänktas eller andra involverade personers kontakter, rörelser, positioneringar och övriga förehavanden under brottstiden eller andra för utredningen intressanta tidpunkter. Uppgifter som bekräftar eller talar emot andra uppgifter i utredningen, t.ex. förhörsuppgifter bedöms också som intressanta.

2 Metod

Undersökningen av mobiltelefonen har följt de rubriker/mappar som är satta av telefonutläsningsprogrammet UFED. Innehållet under rubriker som efter granskning bedöms irrelevanta för utredningen presenteras inte i rapporten.

Fokus för undersökningen har varit tidsperioden 2024-03-10 – 2024-03-18 men även andra tidpunkter kan ha undersökts. Andra avgränsningar kan också ha gjorts beroende på datamängd eller andra orsaker för respektive rubrik.

Undersökningen har därutöver fokuserat på misstänktas eller andra involverade personers sociala medier, telefonnummer, namn eller förehavanden. Genomförda sökningar och resultatet av dessa redovisas genom resultatet under respektive rubrik.

I rapporten redovisas endast de artefakter som bedöms ha betydelse för utredningen.

Tidsstämplar anges i UTC+1, lokal svensk vintertid, om inte annat anges.

Krimtup.se - FUP & DOM på nätet

3.1.1 Information om telefonägare

Telefonen togs i beslag från Tim Andersson i samband med förhör 2024-03-18. Konton och innehåll i enheten talar starkt för att enheten är Tim Anderssons och sammantaget bedöms det fastställt att den är hans.

3.2 Telefondata

3.2.1 Application Usage Log

Med anledning av uppgifter i förhör med misstänkte Tim som uppger att han vid brottstiden kollat på Instagram vid brottstiden har ”application usage log” undersökts närmare för att försöka fastställa om uppgiften stämmer.

Utöver de appar och funktioner som normalt startar vid inkommande eller utgående samtal används möjligen snapchat kl 13:34:27 och 13:36:45. Den senare tidsstämpeln stämmer väl överens med ett snapchat som Andrea Nyström skickar till Tims telefon kl13:36 och som markeras som läst kl 15:15:46. (Se avsnitt 3.2.7.3)

Inga andra appar används mellan klockan 13:36:46 och 14:42:16 då enhetens ”user interface” eller hemskärm aktiveras. Något senare, 14:42:30 startar även Instagram.

3.2.2 Call Log

Under Call Log lagras inkommande och utgående samtal från flera appar med vilka man kan genomföra röst och eller videosamtal.

Av de 468 utlästa samtalen är endast 8 kopplade till sociala medier; Snapchat och Messenger. Av telefonsamtalen är majoriteten till mamma, pappa eller syster Elsa. De samtal som finns utlästa från 14 mars har exporterats.

3.2.3 Contacts

De exporterade kontakterna bedöms höra till målsägaren Maja eller andra involverade personer i ärendet.

3.2.4 Device & Networks

3.2.4.1 Device events

Den 14 mars blir enheten upplåst kl07:48:27 för att därefter inte låsas upp igen förrän 14:41:12 vilket är ca 30 sekunder innan enheten används för att ringa kontakten ”Mamma”. I utläsningen finns endast ”Device unlock”, alltså upplåsning av enheten, loggad.

Krimtup.se - FUP & DOM på nätet

3.2.4.2 Network Usages

Under rubriker finns uppkopplingar mot nätverk. Både uppkopplingar mot wifi-nätverk och uppkopplingar mot mobilnätet som då står loggade under det i enheten anslutna IMSI-numret. IMSI är SIM-kortets unika identifieringsnummer. Ett Wifi-nät har begränsad räckvidd, normalt upp till ca 100m utomhus och ca 50m inomhus, och uppgifterna kan därför användas för att positionera enheten.

Anslutningar mot nätverk loggas i 1-timmes intervaller. Det är okänt varför men möjligen loggas anslutningarna som sessioner även om enheten inte är uppkopplad mot nätverket under hela tidsperioden.

Tims hemnätverk har kontrollerats och det har BSSID ”#Telia-940240” och SSID ”22:7E:EC:D1:49:23”. I utläsningen går att se att enheten 2024-03-14 har kontakt med hemnätverket fram till mellan kl 07:00 och 08:00 då den under samma tidsintervall kopplar över datatrafiken till det IMSI som sitter i enheten. Enheten stannar därefter på IMSI fram till kl16:00 till 17:00 då den återigen kopplar upp sig mot hemnätverket ”#Telia-940240”.

Enheten har inte varit uppkopplad mot några andra wifi-nätverk eller IMSI mellan 12-18/3.

3.2.5 Location Related

Endast en positionering finns i utläsningen daterad till 2024-03-14, kl 19:26:06. Den är på hemadressen. För ytterligare information om positioneringar, se nedan avsnitt 3.4 om undersökning av material från genomsökning på distans och ärendeanalysen.

3.2.6 Media

3.2.6.1 Videos

Under video har flera ljud och video-filer lagrats som är kopplade till Snapchat. Filerna har genom tidsstämplar, andra chattar och vad som hörs på filerna kopplats till att vara en chatt mellan Maja och Tim.

Andra filer bedöms röra Majas försvinnande. Delar av filerna utgör delar av en chatt mellan Tyra Eriksson och Tim. Detta utifrån innehåll i BG34524-1 som är Tyra Erikssons telefon. Chatten och filerna sammanställs i excel-fil.

De filer som hittats i utläsningen som bedöms röra chatt mellan Tim och Maja har sammanställts särskilt i film och transkriberats.

3.2.7 Messages

För samtliga typer av chattar har undersökningen begränsats till endast meddelanden från 2024-01-01 och framåt.

Krimtup.se - FUP & DOM på nätet

3.2.7.1 Facebook Messenger

Av de chattar som finns i enheten har de exporterats som sker i närtid till brottet eller annars bedöms kunna vara av relevans för utredningen. Som av relevans för utredningen har bedömts om meddelandena handlar om Maja eller andra omständigheter som möjligen rör brottet.

Meddelanden har också lagrats i form av notiser i en databas, ”msys_database_100087523165257”. I denna finns 108 notiser varav de flesta från Maja. Notiserna redovisas dels i tidigare nämnda film men också som bilaga till undersökningen.

De meddelanden och chattar från Messenger som finns i utläsningen är kopplade till konto-id ”100087523165257”.

3.2.7.2 Instagram

De chattar som finns i utläsningen är kopplade till konto-id ”6225488933” och användar-id ”timf.iskar”. Under rubriken finns inte de chattar vars notiser lästs ur BG33606-1 och som sammanställts i film ”Tim Maja Ljudchat” men som bedömts sannolikt vara skickade från enheten.

De chattar som exporterats bedöms vara mellan Tim och andra involverade personer i ärendet. De bedöms inte vara av direkt betydelse för utredningen.

3.2.7.3 Snapchat

De filer som nämnts under avsnitt 3.2.5 återfinns inte bland meddelandena i utläsningen. Detta beror sannolikt på att själva meddelandet raderats men inte de ljudfiler som skickats med meddelandet. Radering av filer kan ske automatiskt (som ofta sker med t.ex. Snapchat) men också genom aktiv radering av användaren. För snapchat ligger det i appens grundidé att meddelanden automatiskt raderas.

Den chatt som nämns under avsnitt 3.2.5 bedöms vara från en snapchat mellan Tim på konto ”tim239504” och Maja på konto ”hej24802”. Chatten finns lagrad i enheten men utan innehåll. Den har starttid 2024-03-12 kl15:52:15 vilket stämmer väl överens med innehållet i de meddelanden som bedöms ha skickats mellan kontona vid den tiden. Kl15:49:22 skickar Tim via Instagram ett meddelande med texten ”Lägg till mig på Snapchat! Användarnamn: Tim239504 […]”. Chatten har sluttid 2024-03-12 kl18:44:49 vilket är samma tid som Maja bedöms skicka sista ljudmeddelandet till Tim där hon beskriver att hon kommer ta bort Snapchat för att inte bli upptäckt av sin mamma. Därefter övergår chatten till Messenger och Instagram.

Ytterligare en chatt finns kopplad till Snapchat som bedöms vara mellan Tim och Maja, dock utan innehåll. De är daterade tidigare, 2024-03-02--2024-03-03. Den är mellan kontot ”tim239504” och ”majasol1123”.

Krimtup.se - FUP & DOM på nätet

Övriga chattar som exporterats bedöms kunna vara av betydelse för utredning om brott. Chattarna är inte fullständiga utan ett urval har gjorts utifrån tid och innehåll.

Genom särskilda verktyg har mer information om vissa meddelanden gått att ta fram. Det är bland annat tid då meddelandet lästs. Då materialet är mycket omfattande redovisas relevanta meddelanden genom nedan bild. Observera att tidsstämplarna är UTC+0.

Avsändare	*Meddelande*			*Skapat*	*Läst*	
Andréa 🩵 ♥♥	Hej Tim! va inte med Maja	nan	1	2024-03-14 12:34:25	2024-03-14 14:15:46	andreagoteson23
Andréa 🩵 ♥♥	Vart är du?	nan	1	2024-03-14 12:36:45	2024-03-14 14:15:46	andreagoteson23
Tim	Nej	nan	1	2024-03-14 14:16:07	2024-03-14 14:16:18	tim239504
Tim	Vad gör du nu	nan	1	2024-03-14 14:26:13	2024-03-14 14:26:26	tim239504

Snapchat-chatten mellan Andrea och Tim sträcker sig i utläsningen från november 2023 och framåt och ger uttryck för en stark vänskap, på gränsen till kärleks-intresse i vart fall från Tims sida. Exempel på detta har exporterats.

I de chattar med någon av de involverade personerna i ärendet och där det bedömts relevant har första och sista meddelandet exporterats för att visa omfattningen i tid i chatten.

3.2.8 Social Media

Under rubriken sorteras vad som sannolikt är uppdateringar som inte kräver aktivitet av användaren. Det kan vara en uppladdad story eller ett videoinlägg postat till en större grupp mottagare. Generellt har de bedömts sakna relevans för utredningen men de händelser som är tidsstämplade vid brottstiden har exporterats.

3.2.9 Systems & Logs – Device notifications

De exporterade posterna bedöms vara de unika enhetshändelser och notiser som uppstått under brottstiden.

3.2.10 User Accounts & Details

De exporterade kontona är de som bedömts vara Tims. Ytterligare konton finns, bland annat till Viaplay, men de bedöms vara familjens.

3.3 Datafiler

Under kategorin datafiler återfinns flera typer av databärare. Bland annat de databaser där information om samtal och meddelanden och andra händelser i enheten loggas eller där kontakter och händelser kopplat till appar loggas. Dessa är till viss del de som undersökts i avsnitt 3.2.

Krimfup.se - FUP & DOM på nätet

Utöver dessa återfinns också vissa nedladdade dokument och olika typer av inställningsfiler för appar och telefonen. Inställningsfilerna bedöms generellt sakna relevans för utredningen och har därför inte undersökts.

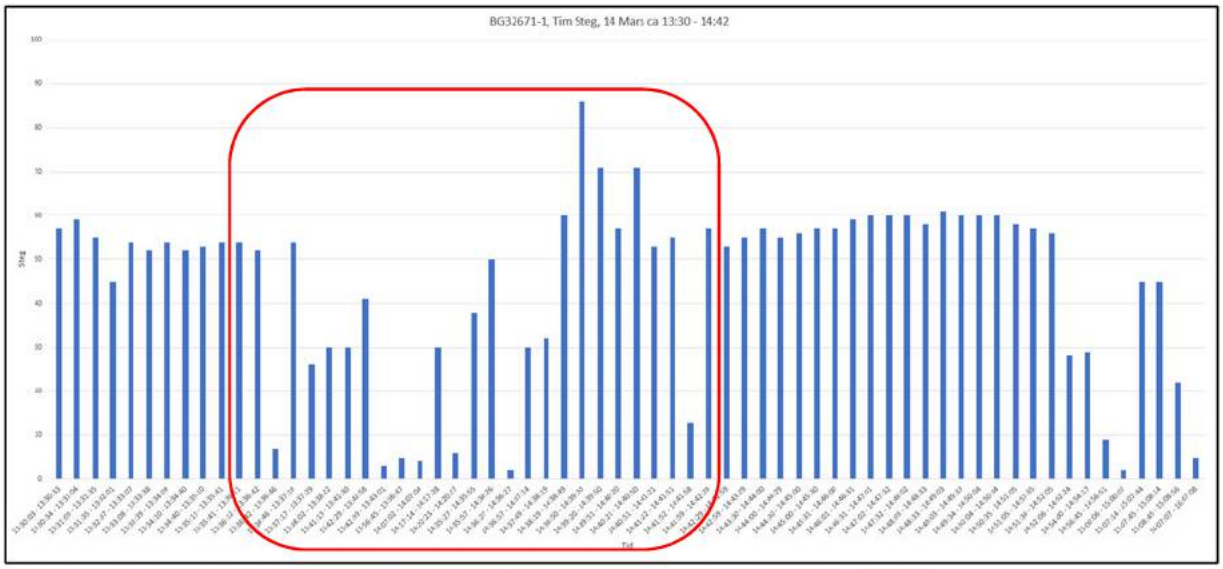

3.3.1 Steps.db

I enheten finns en databas som lagrar rörelser och steg. I databasen finns endast steg lagrade och det är inte fastställt exakt vilken rörelse som krävs för att ett steg ska registreras eller hur enheten fastställer start och sluttid.

Databasen är mycket omfattande och undersökningen av den redovisas med detta avsnitt i rapporten. Mönstret under brottstiden (markerat område) bedöms avvika från mönstret vid samma tid övriga dagar genom att det är färre rörelser registrerade under perioden.

Mellan kl.08:06:51 och 13:22:59 den 14 mars har inga rörelser loggats.

Mellan 13:31:35 och 13:42:58 rör sig enheten 658 steg vilket är jämförbart med det antal steg BG33606-1 rör sig motsvarande tid.

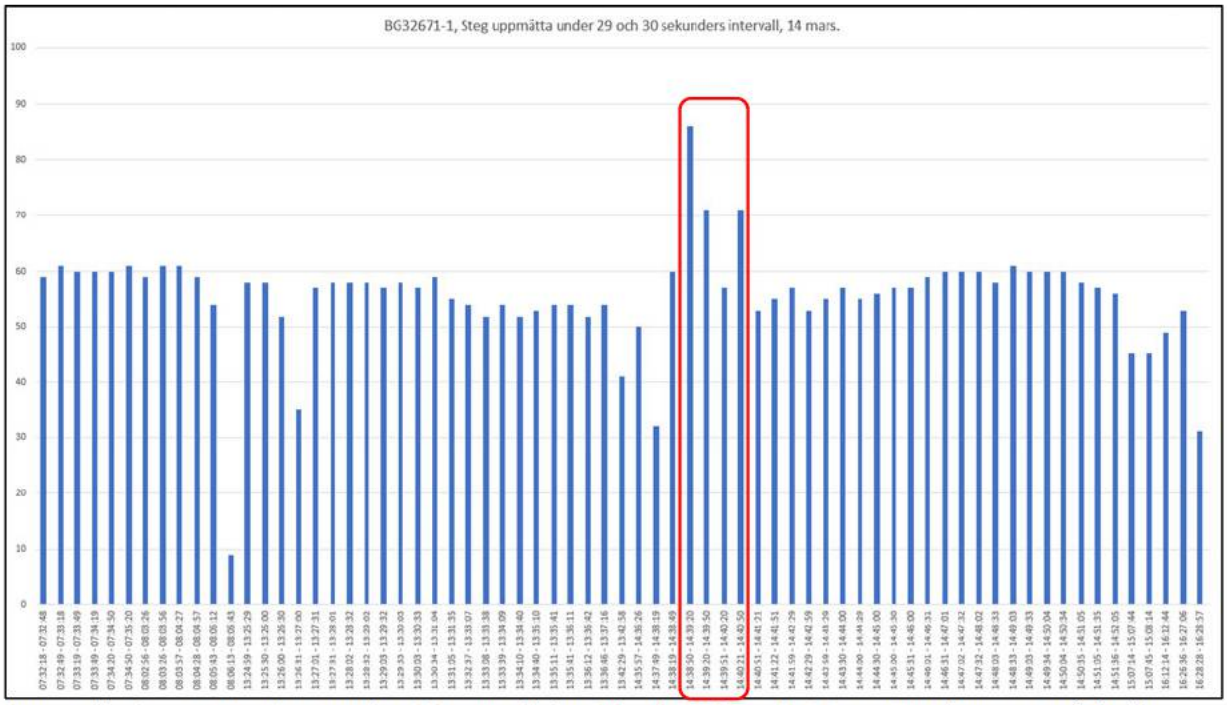

Steps.db. Steg 14 mars, ca kl13:30 – 16:07. Markerat område ca 13:35 – 14:42.

Varje stapel har något olika varaktighet. De flesta ger stegantal för 30 sekunder men sammantaget gör skillnaden att det inte går att dra några säkra slutsatser om rörelserna.

Genom att jämföra de poster som har en varaktighet på 29-30 sekunder går det dock säga att enheten registrerar tydligt fler steg mellan kl 14:38:50 och 14:40:50, vilket möjligen innebär att hastigheten är högre under de intervallen.

Krimfup.se - FUP & DOM på nätet

Steps.db. Steg uppmätta under 29 respektive 30 sekunder, 14 Mars. Markerat område kl 14:38:50 – 14:40:50.

Av hela perioden i databasen har 10873 mätningar varaktighet på 29 respektive 30 sekunder. Av dessa 10873 händelser har 80 fler än 70 steg. Perioden i databasen är mellan 2022-10-06 och 2024-03-18 och innehåller sammanlagt 30714 poster/mätintervaller.

3.3.2 Msys_database_100087523165257

I databasen finns dels de meddelanden som undersökts under avsnitt 3.2.6 men även notiser från troligen raderade meddelanden mellan bland andra Maja och Tim. Dessa redovisas genom film och transkriberat.

3.4 Genomsökning på distans (GPD)

3.4.1 Snapchat

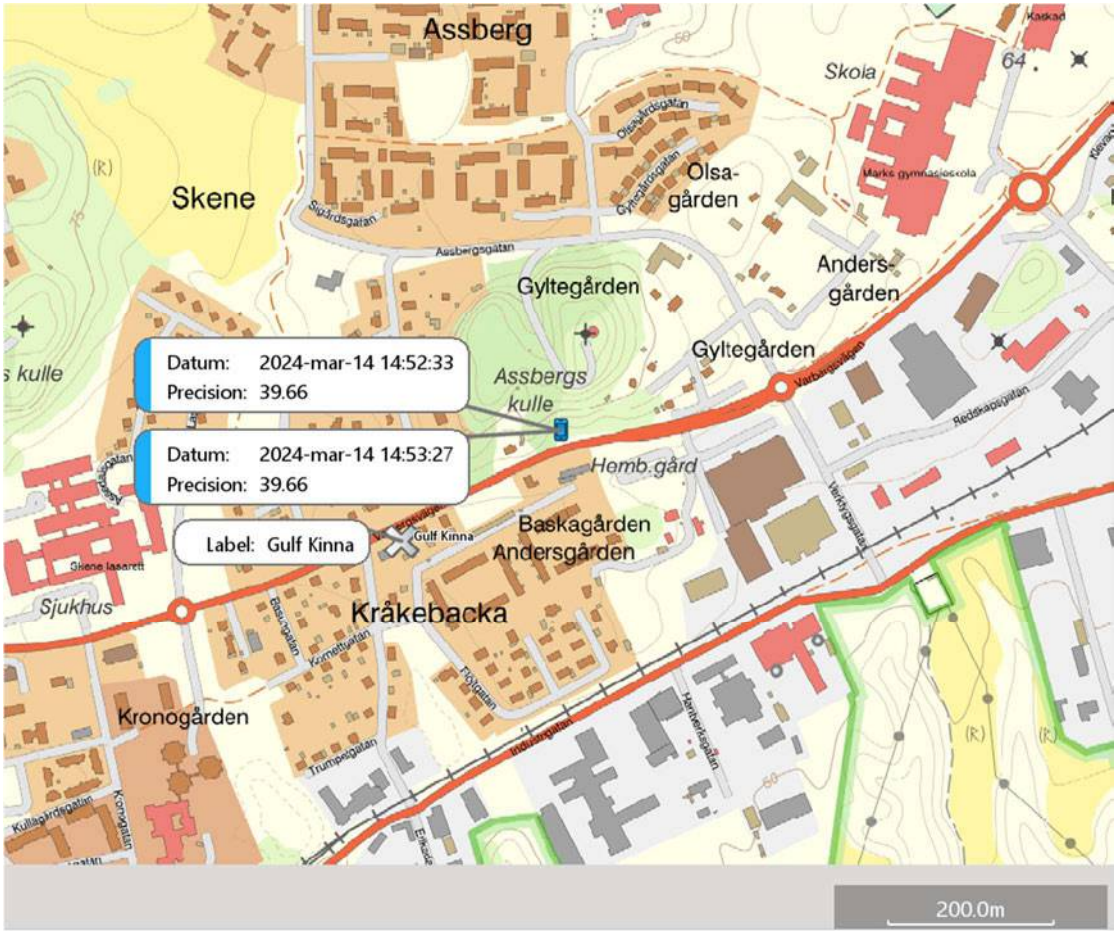

Det snapchatkonto som finns anslutet till enheten har genomsökts på distans. För detaljer se särskilt protokoll. Av den genomsökta datan har framför allt positioneringar bedömts vara av relevans för utredningen men även kontakter.

Nedan två konton bedöms tillhöra målsägaren Maja.

majasol1123	M	2024-03-02 09:30:57 UTC	2024-03-03 15:46:31 UTC	added by added me back
hej24802	Maja Svensson	2024-03-12 14:52:35 UTC	2024-03-12 19:30:41 UTC	added by added me back

Krimtup.se - FUP & DOM på nätet

Via genomsökning på distans har flera positioneringar undersökts och de som bedöms intressanta för utredningen står i GPD under rubriken ”Location history” där enhetens position då den skickar eller tar emot data från snapchat lagras. Sammanlagt finns 2588 positioneringar mellan 2024-02-02 och 2024-03-18. Precisionen på positioneringarna skiljer sig åt och endast positioneringar med värde på under 100m har undersökts. Ett lägre värde i meter innebär högre precision.

Positioner från Snapchat MyData.

Från genomsökning på distans (GPD) av Tim Anderssons konto timf.iskar har nedan blockerade konton hämtats. Tidsstämplar bedöms på chattar som också hämtats genom GPD vara angiven i PST till vilken man får lägga till 9 timmar för att få lokal svensk vintertid UTC+1.

Tidsstämpeln är sannolikt den tidpunkt då kontot blockerades. Bilden visar de blockerade kontakter som bedöms vara målsägaren Majas.

Utdrag av blockerade kontakter från GPD av Instagramkontot ”timf.iskar”.

Upprättad av
Per Ryderman

1 Syfte/Uppdrag

Undersökning av utläst data från beslagtagen mobiltelefon. Telefonen är tagen i beslag från Royne Andersson i samband med förhör.

Syfte med undersökningen är att utröna om det finns uppgifter i telefonen av betydelse för utredningen. Som av betydelse för utredningen bedöms generellt de misstänktas eller andra involverade personers kontakter, rörelser, positioneringar och övriga förehavanden under brottstiden eller andra för utredningen intressanta tidpunkter. Uppgifter som bekräftar eller talar emot andra uppgifter i utredningen, t.ex. förhörsuppgifter bedöms också som intressanta.

2 Metod

Undersökningen av mobiltelefonen har följt de rubriker/mappar som är satta av telefonutläsningsprogrammet UFED. Innehållet under rubriker som efter granskning bedöms irrelevanta för utredningen presenteras inte i rapporten.

Fokus för undersökningen har varit tidsperioden 2024-01-01 – 2024-03-20 men även andra tidpunkter kan ha undersökts. Andra avgränsningar kan också ha gjorts beroende på datamängd eller andra orsaker för respektive rubrik. Enheten har undersökts utifrån brottsmisstanke om grovt skyddande av brottsling och vapenbrott.

Undersökningen har därutöver fokuserat på misstänktas eller andra involverade personers sociala medier, telefonnummer, namn eller förehavanden. Genomförda sökningar och resultatet av dessa redovisas genom resultatet under respektive rubrik.

I rapporten redovisas endast de artefakter som bedöms ha betydelse för utredningen.

Tidsstämplar anges i UTC+1, lokal svensk vintertid, om inte annat anges.

Krimtup.se - FUP & DOM på nätet

Följande innehåll är extraherat från enheten:

3.1.1 Information om telefonägare

Enheten är tagen ifrån Royne Andersson i samband med förhör. Konton, bilder och kommunikation i enheten talar starkt för att telefonen är hans. Sammantaget bedöms det bekräftat att enheten är Royne Anderssons.

3.2 Telefondata

3.2.1 Calls

I enheten finns under samtalsloggen endast 2 samtal registrerade den 14 mars. I en databas kopplad till appen Truecaller, ”calling-cache.db”, finns också endast två samtal noterade, varav dock bara ett är samma som i samtalsloggen (kl13:42:00).

Krimfup.se - FUP & DOM på nätet

Det är oklart varför samtal i enheten inte stämmer överens med samtal i inhämtat HÖK-material eller med samtal som återfinns i BG33407-1 som är Lena Anderssons telefon. Möjligen har samtal raderats från enheten.

+46763177715	2024-03-12 14:21:47	ended	259200	3896
+4632035710	2024-03-14 12:42:00	initiated	259200	3897
+4632035710	2024-03-14 12:42:00	ended	259200	3898
+46706274143	2024-03-14 18:03:03	ended	259200	3900
+46705218298	2024-03-15 05:03:02	initiated	259200	3901

Skärmklipp från ”calling-cache.db”. +4632035710 är registrerat på Göte Anderssons Begravningsbyrå. +46706274143 är registrerat på Marianne Andersson, Roynes mamma. Tiden angiven i (UTC+0).

3.2.2 Contacts

De kontakter som bedöms höra till andra involverade personer i ärendet har exporterats.

3.2.3 Devices & Networks – Network Usages

Under rubriken finns uppkopplingar mot nätverk. Både uppkopplingar mot wifi-nätverk och uppkopplingar mot mobilnätet som då står loggade under det i enheten anslutna IMSI-numret. IMSI är SIM-kortets unika identifieringsnummer. Ett Wifi-nät har begränsad räckvidd, normalt upp till ca 100m utomhus och ca 50m inomhus, och uppgifterna kan därför användas för att positionera enheten.

Anslutningar mot nätverk loggas i sessioner i enheten. Det är okänt varför och troligen loggas anslutningarna som sessioner även om enheten inte är uppkopplad mot nätverket under hela tidsperioden.

Roynes hemnätverk har kontrollerats och det har BSSID ”#Telia-940240” och SSID ”22:7E:EC:D1:49:23”.

Enheten är 2024-03-14 uppkopplad mot hemnätverket från 13:00 till 17:00. Därefter är enheten uppkopplad växelvis mot IMSI respektive Wifi kl17:00 – 21:00. Mellan kl17:00 och 21:00 finns alltså dubbla uppkopplingar, dels mot IMSI dels mot Wifi, vilket troligen innebär att enheten växlar mellan uppkopplingarna.

Enheten är efter kl21 endast uppkopplad mot hemnätverket fram till kl15 den 15 mars.

3.2.4 Media – Images

I enheten har fyra bilder identifierats som intressanta i utredningen utifrån datum eller innehåll.

Krimtup.se - FUP & DOM på nätet

2022-05-22 19:51:26 (UTC+2) finns en bild föreställande en revolver. Det är inte ett likadant vapen som i beslag (K333111-24 / BG33002-1) och det har heller inte gått att fastställa om bilden är skickad eller mottagen till enheten.

2022-03-14 18:21:01 finns en bild föreställande den blå Suzuki, NKP728, som tagits i beslag för teknisk undersökning. (BG35852-1). Bilden är baserat på sökvägen sannolikt tagen med enheten och bedömt på spegelbilden av omgivningen i bakrutan samt golvtypen är den sannolikt tagen på hemadressen. Filnamnet, ”20240314_182056” tyder på att bilden är tagen någon minut tidigare än tidsstämpeln.

Bild till vänster är från BG33403-1 och bild till höger från Filip (Filer inom polisen): ”Forensiska - Platsundersökning Bostaden Dagtid”. Notera spegelbilden i bakrutan i den vänstra bilden.

Två bilder är daterade 2024-03-17 kl 16:52 resp 16:53. De föreställer Royne Andersson på en röd fyrhjuling. I förhör har omnämnts en resa på fyrhjuling.

3.2.5 Messages - Chats

De chattar som exporterats är de som sker vid brottstiden eller annars bedöms röra Majas försvinnande eller brottet i övrigt.

I flera chattar nämns den kortege som nämnts i förhör i vilken Royne ska delta och köra motorcykel till förmån för cancersjuka barn. Det var när uppgiften framkom oklart när denna skulle vara eller ha varit. Chattar tyder på att den var planerad till 15 juni.

Krimtup.se - FUP & DOM på nätet

3.3 Datafiler

Under kategorin datafiler återfinns flera typer av databärare. Bland annat de databaser där information om samtal och meddelanden och andra händelser i enheten loggas eller där kontakter och händelser kopplat till appar loggas. Dessa är till viss del de som undersökts i avsnitt 3.2.

Utöver dessa återfinns också vissa nedladdade dokument och olika typer av inställningsfiler för appar och telefonen. Inställningsfilerna bedöms generellt sakna relevans för utredningen och har därför inte undersökts.

3.3.1 Databases

Av databaserna har ”calling-cache.db” kopplad till Truecaller undersökts. Se avsnitt 3.2.1.

2	**Author:** 100063527083669 Marks Gymnasieskola **Privacy:** everyone **Type:** Post **Reactions:** 509 **Comments:** 0 **Shares:** 83 **Activity Log:** False	**Body:** Det är med stor sorg och tunga hjärtan vi idag har fått bekräftat från polisen att vår kamrat och elev Maja, som har varit försvunnen sedan i torsdags, har hittats avliden. På skolan finns förstärkt elevhälsa och personalnärvaro för att möta elever i denna svåra situation. Våra tankar går till Majas anhöriga och vänner. **Attachments:**	**Created:** 2024-03-19 11:13:19(UTC+1)	**Account:** 100015120334530 **URL:** https://m.facebook.com/story.php?story_fbid=pfbid0CpqXXwzDhTwP7UczuzDDAqpqk9M2cUksBxhV2tcfQ3Rfsfnru78dadWxvcU4BrH8l&id=100063527083669 **Source:** Facebook

1 Syfte/Uppdrag

Undersökning av utläst data från beslagtagen mobiltelefon. Telefonen är tagen i beslag från Lena Andersson i samband med att hon hämtades till förhör.

Syfte med undersökningen är att utröna om det finns uppgifter i telefonen av betydelse för utredningen. Som av betydelse för utredningen bedöms generellt de misstänktas eller andra involverade personers kontakter, rörelser, positioneringar och övriga förehavanden under brottstiden eller andra för utredningen intressanta tidpunkter. Uppgifter som bekräftar eller talar emot andra uppgifter i utredningen, t.ex. förhörsuppgifter bedöms också som intressanta.

2 Metod

Undersökningen av mobiltelefonen har följt de rubriker/mappar som är satta av telefonutläsningsprogrammet UFED. Innehållet under rubriker som efter granskning bedöms irrelevanta för utredningen presenteras inte i rapporten.

Fokus för undersökningen har varit tidsperioden 2024-03-12 – 2024-03-20 men även andra tidpunkter kan ha undersökts. Andra avgränsningar kan också ha gjorts beroende på datamängd eller andra orsaker för respektive rubrik.

Undersökningen har därutöver fokuserat på misstänktas eller andra involverade personers sociala medier, telefonnummer, namn eller förehavanden. Genomförda sökningar och resultatet av dessa redovisas genom resultatet under respektive rubrik.

I rapporten redovisas endast de artefakter som bedöms ha betydelse för utredningen.

Tidsstämplar anges i UTC+1, lokal svensk vintertid, om inte annat anges.

Krimfup.se - FUP & DOM på nätet

3 Undersökning

3.1 Information om enheten

(Utläst om inte annat anges)

Advertising ID #1	96cb2ff4-5949-4b52-83ea-26b3a8f0baa9
Chipset	kirin970
Android ID	e2774e75f43be32
Bluetooth device address	C0:F4:E6:3C:36:CC
Bluetooth device name	HUAWEI P20 Pro
Carrier Name	Telia
Carrier Name	3
Location Services Enabled	True
Mock locations allowed	False
Device model	HUAWEI P20 Pro
ICCID	89460721169901703 11F
ICCID	89460140160914368835
IMEI1	867052044574393
IMEI2	867052044574393
Model	CLT-L29
OS	Android 10
Security Patch Level	2020-07-01
Vendor	HUAWEI

Följande innehåll är extraherat från enheten:

Krimfup.se - FUP & DOM på nätet

3.1.1 Information om telefonägare

Telefonen är tagen i beslag från Lena Andersson i samband med förhör och hon har uppgett koden till telefonen. Innehåll och anslutna konton är nästan uteslutande kopplade till Lena med namn eller andra uppgifter som knyts till henne (såsom arbetsplats t.ex.). Det bedöms sammantaget fastställt att enheten är Lena Anderssons.

3.2 Telefondata

3.2.1 Calendar

I kalendern återfinns en påminnelse för besiktning av JJF002 2024-03-15 15:45-16:00. Besiktningen har berörts i andra delar av utredningen.

3.2.2 Calls

De samtal som exporterats är daterade till 2024-03-14 och 2024-03-15 och bedöms vara de samtal som finns i utläsningen som rör utredningen.

3.2.3 Media / Images

Mediebiblioteket innehåller oväntat få bilder och tidslinjen uppvisar ett utifrån erfarenhet ovanligt utseende med endast fåtal ”spikar” av lagrade bilder. Orsak till detta är okänt men möjligen har enhetsinnehavaren inte fotograferat eller har bilderna raderats från enheten eller så har bilder inte lästs ut fullt ut från enheten.

Tidslinje Media/Bilder.

3.2.4 Chats

Endast ett fåtal meddelanden bedöms möjligen ha betydelse för utredningen. Med Tim sker den sista konversationen i enheten 2024-03-12.

3.2.5 Search & Web – Web History

I webhistoriken finns ett antal länkar till pmobile.mark.se. Pmobile är en del av VISMA vilket enligt visma.se är ett lön och personalhanteringssystem. Sannolikt stämplar Lena in och ut sina arbetstider via mobilen. De exporterade länkarna är då hon kommit till respektive

Krimtup.se - FUP & DOM på nätet

lämnat jobbet den 14:e, 15:e och 18:e mars. Tiderna stämmer väl överens med övervakningsfilm från Älvängsvägen samt arbetsgivarens egna registrerade tider.

3.3 Datafiler

Under kategorin datafiler återfinns flera typer av databärare. Bland annat de databaser där information om samtal och meddelanden och andra händelser i enheten loggas eller där kontakter och händelser kopplat till appar loggas. Dessa är till viss del de som undersökts i avsnitt 3.2.

Utöver dessa återfinns också vissa nedladdade dokument och olika typer av inställningsfiler för appar och telefonen. Inställningsfilerna bedöms generellt sakna relevans för utredningen och har därför inte undersökts.

Krimtup.se - FUP & DOM på nätet

1 Syfte/Uppdrag

Undersökning av utläst data från beslagtagen mobiltelefon. Telefonen är tagen i beslag från Tindra Cronvall i samband med förhör 2024-03-20.

Syfte med undersökningen är att utröna om det finns uppgifter i telefonen av betydelse för utredningen. Som av betydelse för utredningen bedöms generellt de misstänktas eller andra involverade personers kontakter, rörelser, positioneringar och övriga förehavanden under brottstiden eller andra för utredningen intressanta tidpunkter. Uppgifter som bekräftar eller talar emot andra uppgifter i utredningen, t.ex. förhörsuppgifter bedöms också som intressanta.

2 Metod

Undersökningen av mobiltelefonen har följt de rubriker/mappar som är satta av telefonutläsningsprogrammet UFED. Innehållet under rubriker som efter granskning bedöms irrelevanta för utredningen presenteras inte i rapporten.

Fokus för undersökningen har varit tidsperioden 2024-03-01 – 2024-03-20 men även andra tidpunkter kan ha undersökts. Andra avgränsningar kan också ha gjorts beroende på datamängd eller andra orsaker för respektive rubrik.

Undersökningen har därutöver fokuserat på misstänktas eller andra involverade personers sociala medier, telefonnummer, namn eller förehavanden. Genomförda sökningar och resultatet av dessa redovisas genom resultatet under respektive rubrik.

I rapporten redovisas endast de artefakter som bedöms ha betydelse för utredningen.

Tidsstämplar anges i UTC+1, lokal svensk vintertid, om inte annat anges.

Krimtup.se - FUP & DOM på nätet

Följande innehåll är extraherat från enheten:

3.1.1 Information om telefonägare

Telefonen är tagen ifrån Tindra Cronvall och innehållet är till övervägande del kopplat till henne genom namn, bilder och innehåll i konversationer. Telefonen är utlämnad till Tindra och det bedöms som fastställt att telefonen är hennes.

3.2 Telefondata

3.2.1 Contacts

De kontakter som bedöms vara till andra involverade personer i ärendet har exporterats.

3.2.2 Media

3.2.2.1 Audio

I utläsningen finns fyra ljudmeddelanden som är skickade eller mottagna till enheten via SMS. De är daterade 2024-03-06 resp 2024-03-08 och i ett av dem nämns Maja. Det är daterad 2024-03-08 kl15:45:05 och personen som pratar säger ”Jag vill inte skriva till Maja för att, ja, efter allt som har hänt.”.

Krimtup.se - FUP & DOM på nätet

3.2.2.2 Images

De bilder som bedöms föreställa Maja eller på annat sätt kunna ha relevans för utredningen har exporterats. Det är bilder daterade både före och efter försvinnandet och anträffandet av Maja och även bilder som skickats eller tagits emot i de chattar som exporterats.

3.2.2.3 Videos

En film daterad till 2024-03-06 kl15:29:51 har exporterats. Den bedöms vara skickad och i den nämns Maja. Filmen är sannolikt relaterad till chat mellan Tindra och Andrea och en konversation som handlar om huruvida Maja har känslor för Tim eller inte. Sannolikt rör den också innehållet i en chat mellan Tindra och Wilma tidsstämplad vid samma tid.

3.2.3 Chatt

Chattarna är mycket omfattande i enheten. De exporterade chattarna är därför utdrag ur längre chattar. Fokus för undersökningen har varit meddelanden där Maja eller Tim nämns eller där andra omständigheter som bedöms relevanta nämns samt meddelandena runt dessa som visar sammanhanget eller företeelsen som meddelandet ger uttryck för.

Med det menas som exempel att det finns flera meddelanden och delar av chattar som beskriver framförallt Tindras och Andreas uppfattning om Tim och den vänskapsrelation de har och att det är de tre som ska ”hänga” i skolan. Alla meddelanden som rör detta har inte exporterats utan ett urval har gjorts för att visa sammanhanget och företeelsen.

Om Maja eller Tim omnämnts i något enskilt meddelande har meddelanden runt detta sorterats ut och exporterats för att sätta meddelandet i ett sammanhang.

Chatt mellan Andrea Nyström och Tindra Kronvall redovisas gemensamt från BG34085-1 och BG33673-1 i särskilt externt dokument p.g.a. omfattningen.

I UFED-exporten redovisas flera meddelanden dubbelt. Detta beror på att meddelanden från samma chat i utläsningen är hämtad från flera olika datakällor och att dessa källor har olika antal meddelanden. Chatterna har exporterats i Excelformat varifrån dubbletter sedan filtrerats bort. Chatterna mellan Tindra och Andrea redovisas därför som bilaga till rapporten i excelformat.

Undersökarens uppfattning av det kompletta material som undersökts är, som bör framgå av de exporterade chattarna, att Tindra och Andrea har haft en stark koppling till och känslor för Tim som deras vän och att de uttrycker en stark oro att Maja ska ”ta” Tim ifrån dem vilket skapat en misstro och illvilja gentemot Maja.

Krimtup.se - FUP & DOM på nätet

3.2.4 Search & Web

Under mars månad har inga sökningar skett före försvinnandet som kan sättas i samband med utredningen. Efter försvinnandet genomförs flera sökningar relaterade till Maja och hennes försvinnande. Ett urval av dessa sökningar har exporterats.

3.2.5 User Accounts & Details

De konton som bedöms relevanta har exporterats. Det är konton kopplade till Tindra via namn eller bild och konton som använts i chattar.

3.3 Datafiler

Under kategorin datafiler återfinns flera typer av databärare. Bland annat de databaser där information om samtal och meddelanden och andra händelser i enheten loggas eller där kontakter och händelser kopplat till appar loggas. Dessa är till viss del de som undersökts i avsnitt 3.2.

Utöver dessa återfinns också vissa nedladdade dokument och olika typer av inställningsfiler för appar och telefonen. Inställningsfilerna bedöms generellt sakna relevans för utredningen och har därför inte undersökts.

Upprättad av
Per Ryderman

1 Syfte/Uppdrag

Undersökning av utläst data från beslagtagen mobiltelefon. Telefonen är tagen i beslag från Andrea Nyström i samband med förhör.

Syfte med undersökningen är att utröna om det finns uppgifter i telefonen av betydelse för utredningen. Som av betydelse för utredningen bedöms generellt de misstänktas eller andra involverade personers kontakter, rörelser, positioneringar och övriga förehavanden under brottstiden eller andra för utredningen intressanta tidpunkter. Uppgifter som bekräftar eller talar emot andra uppgifter i utredningen, t.ex. förhörsuppgifter bedöms också som intressanta.

2 Metod

Undersökningen av mobiltelefonen har följt de rubriker/mappar som är satta av telefonutläsningsprogrammet UFED. Innehållet under rubriker som efter granskning bedöms irrelevanta för utredningen presenteras inte i rapporten.

Fokus för undersökningen har varit tidsperioden 2024-03-01 – 2024-03-10 men även andra tidpunkter kan ha undersökts. Andra avgränsningar kan också ha gjorts beroende på datamängd eller andra orsaker för respektive rubrik.

Undersökningen har därutöver fokuserat på misstänktas eller andra involverade personers sociala medier, telefonnummer, namn eller förehavanden. Genomförda sökningar och resultatet av dessa redovisas genom resultatet under respektive rubrik.

I rapporten redovisas endast de artefakter som bedöms ha betydelse för utredningen.

Tidsstämplar anges i UTC+1, lokal svensk vintertid, om inte annat anges.

Följande innehåll är extraherat från enheten:

Krimtup.se - FUP & DOM på nätet

3.1.1 Information om telefonägare

Telefonen togs i beslag från Andrea Nyström som överlämnade den i samband med förhör. Konton, bilder och innehåll i chattar m.m. tyder starkt på att telefonen är Andrea Nyströms. Det bedöms sammantaget bekräftat att telefonen är hennes.

3.2 Telefondata

3.2.1 Calendar

I utläsningen finns en post i kalendern daterad till 2023-04-13 med ämnet ”Maja 💚 💚”.

3.2.2 Calls

Den 14 mars sker ett antal samtal till eller från samma nummer fast med olika kontaktnamn. Då de delvis sker i anslutning till brottstiden och kort därefter har de bedömts som möjligen intressanta för utredningen och exporterats.

Krimtup.se - FUP & DOM på nätet

3.2.3 Contacts

De kontakter som bedöms vara till involverade personer i utredningen har exporterats. Kontaktboken är mycket omfattande med nästan 13000 kontakter och de exporterade kontakterna har därför sökts fram utifrån data från andra utläsningar. Fler kontakter till involverade personer kan förekomma.

3.2.4 Chatt

Chattarna är totalt sett mycket omfattande i enheten med fler än 173000 meddelanden. De enskilda chattarna är mycket omfattande och de exporterade meddelanden är utdrag ur längre chattar. Fokus för undersökningen har varit meddelanden där Maja eller Tim nämns eller där andra omständigheter som bedöms relevanta nämns samt meddelandena runt dessa som visar sammanhanget eller företeelsen som meddelandet ger uttryck för.

Chatt mellan Andrea Nyström och Tindra Kronvall redovisas gemensamt från BG34085-1 och BG33673-1 i särskilt externt dokument p.g.a. omfattningen.

Med det menas som exempel att det finns flera meddelanden och delar av chattar som beskriver framförallt Tindras och Andreas uppfattning om Tim och den vänskapsrelation de har och att det är de tre som ska ”hänga” i skolan. Alla meddelanden som rör detta har inte exporterats utan ett urval har gjorts för att visa sammanhanget och företeelsen.

Om Maja eller Tim omnämnts i något enskilt meddelande har meddelanden runt detta sorterats ut och exporterats för att sätta meddelandet i ett sammanhang.

Undersökarens uppfattning av det material som undersökts är, som bör framgå av de exporterade chattarna, att Tindra Kronvall och Andrea Nyström har haft en stark koppling till och känslor för Tim som deras vän och att de uttrycker en stark oro att Maja ska ”ta” Tim ifrån dem vilket skapat en misstro och illvilja gentemot Maja. Misstron och illviljan mot Maja verkar ha funnits under mycket lång tid. Vissa uppgifter tyder på att Tim och Tindra önskat eller haft starkare känslor för varandra och i flera meddelanden ger Tim uttryck för mycket starka känslor för Andrea. Tindra verkar inte själv ha direkt kontakt med Tim utan går via Andrea när hon vill Tim något.

3.2.5 Search & Web

De första sökningarna som bedöms röra Majas försvinnande sker 2024-03-17 12:00:57. Då används enheten till att söka på ” Kan en försvunnen människa kunna komma hem igen?”

3.3 Datafiler

Under kategorin datafiler återfinns flera typer av databärare. Bland annat de databaser där information om samtal och meddelanden och andra händelser i enheten loggas eller där

Krimtup.se - FUP & DOM på nätet

kontakter och händelser kopplat till appar loggas. Dessa är till viss del de som undersökts i avsnitt 3.2.

Utöver dessa återfinns också vissa nedladdade dokument och olika typer av inställningsfiler för appar och telefonen. Inställningsfilerna bedöms generellt sakna relevans för utredningen och har därför inte undersökts.

Jag vet, jag förstår att du mår dåligt och att det är jätte jobbigt! Jag kan verkligen inte förstå den sorgen du känner just nu hur mycket jag än vill. Den är svår att känna om man själv inte upplevt den. Men jag finns här, jag delar sorgen med dig och om du vill någonting, behöver snacka eller bara vill skriva av dig så tveka inte att höra av dig! Jag kommer aldrig att lämna din sida. Hur mår du? Vill du snacka om det?

2024-03-20 19:55:01(UTC+1)

From: 60860104392 Andrea (owner)

Asså grejen är såhär jag orkar inte ens åka till skolan varje dag längre de är nästan att jag bah vill sluta i den jävla skolan för jag bli bara påmind om de, och de är de som gör att jag liksom mår skit i skolan… även om de inte märks i skolan så åker jag dit med en klump i magen varje dag nu… de var till och med att mormor fick följa med mig till skolan… för jag mådde jätte jätte jätte jätte jätte jätte dåligt… och nu visar det sig att det är 17 årig pojke som går i min klass som nekar till brottet och nekar mordet på Maja fast han visste vart hon låg… eller va de nu stod…. Och är han liksom misstänkt för mordet på Maja så kommer han hamna i fängelse i typ 6 år tror jag…. Men jag min bästa vän tindra vi brukar alltid hänga med Tim… och de är så hemskt…. Jag mår piss dåligt…. Just nu…. de känns så overkligt att Maja ÄR DÖD….

2024-03-20 20:02:16(UTC+1)

From: 37842157136 Wilma

Jag förstår! Du vill helst glömma det va? Det är helt okej att vilja glömma det och jag förstår att det är det du vill. Det är såpass nytt och du och alla de andra närstående behöver tid för att smälta det, acceptera det och gå vidare. Låt dig själv vara ledsen och låt det ta tid. Du ska inte stressa fram att glömma det, det går inte utan kommer bara bli jobbigare längre fram. Det är klart det känns overkligt, det gör det alltid i början när något dött och speciellt nu om det du säger stämmer att din och Tindras kompis dödade henne. Är det säkert att det är han?

Jag vet inte vad jag ska säga! Det är så hemskt det som hänt och att du mår skit är jätte tråkigt och jobbigt men jag förstår det. Jag finns här, ALLTID, oavsett vad! Du kan inte stanna hemma någon dag då? Kanske blir jobbigare då?

Ja asså han gick tydligen med Maja när hon skulle gå mot Ica här i Skene… och över någon järnväg sak grejsemojs jag vet inte men aa och dit ner gick hon och Tim var med henne tror vi…. Och det visar sig säkert iallafall vad polisen tror… att de var han som mördade henne… de är de som är så sjukt jobbigt… Tack hjärtat…

2024-03-20 20:24:46(UTC+1)

Precis nu när vi skulle sluta så kändes de som att Maja och tindra prtatade skit om mig igen asså orkar ej gå på den dumma skolan längre jag behöver verkligen sommarlov nu. plus att hade ju berättat vad som hade hänt mellen mig o Maja… men vi hade tydligen kommit överens med våran lärare Linda att vi ej skulle berätta något om de som hände men det är inget jag vet om! Men jag vet ej om hon talar sanning det känns inte så att hon gör dä! Och precis när jag skulle gå till mitt skåp nu när vi skulle sluta då frågade tindra om Maja gillade mig och då lät de som att Maja sa inte så. Fast vrf är hon med mig då???pallar ej med något fkn drama

Okej. Jag har ett problem…jag har ju börjat vara med maja igen… och det känns som att Emma och Tindra inte tycker om de… så nu känns de som att tindra och Emma snackar skit om mig… för tindra sa precis till mig nu att jag har svikit henne för jag har sagt att jag i äntligen inte vill vara med maja… och jag har jätte svårt med vänner jag vet ej vilka jag vill vara med för jag är en sån precis som vill kunna vara med alla… asså inte alla på en gång utan en dag kanske jag vill hänga med maja och en annan dag vill jag vara med Tindra och Emma men de känns som att när jag tex vill vara med maja då blir tindra och Emma sura på mig. Och nån gång när jag vill vara med Tindra och Emma då blir maja sur på mig…VAD FAN SKA JAG GÖRA? För jag mår jättedåligt över det är här för de känns som att jag behöver väljaoch jag vill inte välja jag vill kunna vara vän med alla och jag vill kunna hänga med alla…Så jag mår fruktansvärt dåligt över detta problemet

To: nattissss05 Mitt Hjärta

Om du undrar hur jag mår så mår jag ganska dåligt över en sak! Och det en klasskompis som heter Maja hon var i skolan igår. Men sen efter skolan så följde hon med en kompis till mig som heter Tim och han går också i min klass. Och igår åkte Tim hem! Med bussen. Och Aa men Maja hoppade inte på bussen utan hon stannade kvar i Kinna och Aa jag vet inte så nu har Maja vart försvunnen sen igår. Efter skolan alla tror att hon liksom är hemma hos någon! Man ingen vet vart hon är! Det är så illa så att polisen och det är inblandade och de letar jätte mycket nu efter Maja. Så jag har svin ont i huvudet för jag började gråta i skolan när jag Stig och väntade på min buss. Och grät hela vägen hem! Och grät igen när jag kom hem och berättade för mormor och morfar.

HEMLIG

From: andreagoteson23 Andréa (owner)
To: nathalie_jo2362 Älskling

Om du undrar hur jag mår så mår jag ganska dåligt över en sak! Och det en klasskompis som heter Maja hon var i skolan igår. Men sen efter skolan så följde hon med en kompis till mig som heter Tim och han går också i min klass. Och igår åkte Tim hem! Med bussen. Och Aa men Maja hoppade inte på bussen utan hon stannade kvar i Kinna och Aa jag vet inte så nu har Maja vart försvunnen sen igår. Efter skolan alla tror att hon liksom är hemma hos någon! Man ingen vet vart hon är! Det är så illa så att polisen och det är inblandade och de letar jätte mycket nu efter Maja. Så jag har svin ont i huvudet för jag började gråta i skolan när jag Stig och väntade på min buss. Och grät hela vägen hem! Och grät igen när jag kom hem och berättade för mormor och morfar.

19	Instant Messages	Outgoing			2023-05-25 14:43:35(UTC+2)	**From:** andreagoteson23 Andréa (owner) **To:** nattissss05 Mitt Hjärta **To:** nattissss05 Mitt Hjärta	Precis nu när vi skulle sluta så kändes de som att Maja och tindra prtatade skit om mig igen asså orkar ej gå på den dumma skolan längre jag behöver verkligen sommarlov nu. plus att hade ju berättat vad som hade hänt mellen mig o Maja... men vi hade tydligen kommit överens med våran lärare Linda att vi ej skulle berätta något om de som hände men det är inget jag vet om! Men jag vet ej om hon talar sanning det känns inte så att hon gör dä! Och precis när jag skulle gå till mitt skåp nu när vi skulle sluta då frågade tindra om Maja gillade mig och då lät de som att Maja sa inte så. Fast vrf är hon med mig då???pallar ej med något fkn drama **Source:** Snapchat

48	Instant Messages	Outgoing			2023-09-11 14:28:07(UTC+2)	**From:** andreagoteson23 Andréa (owner) **To:** nattissss05 Mitt Hjärta **To:** nattissss05 Mitt Hjärta	Okej. Jag har ett problem…jag har ju börjat vara med maja igen… och det känns som att Emma och Tindra inte tycker om de… så nu känns de som att tindra och Emma snackar skit om mig… för tindra sa precis till mig nu att jag har svikit henne för jag har sagt att jag i äntligen inte vill vara med maja… och jag har jätte svårt med vänner jag vet ej vilka jag vill vara med för jag är en sån precis som vill kunna vara med alla… assså inte alla på en gång utan en dag kanske jag vill hänga med maja och en annan dag vill jag vara med Tindra och Emma men de känns som att när jag tex vill vara med maja då blir tindra och Emma sura på mig. Och nån gång när jag vill vara med Tindra och Emma då blir maja sur på mig…VAD FAN SKA JAG GÖRA? För jag mår jättedåligt över det är här för de känns som att jag behöver väljaoch jag vill inte välja jag vill kunna vara vän med alla och jag vill kunna hänga med alla…Så jag mår fruktansvärt dåligt över detta problemet **Source:** Snapchat

Och det en klasskompis som heter Maja hon var i skolan igår. Men sen efter skolan så följde hon med en kompis till mig som heter Tim och han går också i min klass. Och igår åkte Tim hem! Med bussen. Och Aa men Maja hoppade inte på bussen utan hon stannade kvar i Kinna och Aa jag vet inte så nu har Maja vart försvunnen sen igår. Efter skolan alla tror att hon liksom är hemma hos någon! Man ingen vet vart hon är! Det är så illa så att polisen och det är inblandade och de letar jätte mycket nu efter Maja. Så jag har svin ont i huvudet för jag började gråta i skolan när jag Stig och väntade på min buss. Och grät hela vägen hem! Och grät igen när jag kom hem och berättade för mormor och morfar. **Source:** Snapchat

Jag kan verkligen inte förstå den sorgen du känner just nu hur mycket jag än vill. Den är svår att känna om man själv inte upplevt den. Men jag finns här, jag delar sorgen med dig och om du vill någonting, behöver snacka eller bara vill skriva av dig så tveka inte att höra av dig! Jag kommer aldrig att lämna din sida. Hur mår du? Vill du snacka om det? **Source:** Instagram

Och är han liksom misstänkt för mordet på Maja så kommer han hamna i fängelse i typ 6 år tror jag…. Men jag min bästa vän tindra vi brukar alltid hänga med Tim… och de är så hemskt…. Jag mår piss dåligt…. Just nu…. de känns så overkligt att Maja ÄR DÖD…. **Source:** Instagram

468	Instant Messages	Incoming			2024-03-20 20:11:26(UTC+1)	**From:** 37842157136 Wilma **Participants:** 60860104392 Andrea (owner), 37842157136 Wilma	Jag förstår! Du vill helst glömma det va? Det är helt okej att vilja glömma det och jag förstår att det är det du vill. Det är säpass nytt och du och alla de andra närstående behöver tid för att smälta det, acceptera det och gå vidare. Låt dig själv vara ledsen och låt det ta tid. Du ska inte stressa fram att glömma det, det går inte utan kommer bara bli jobbigare längre fram. Det är klart det känns overkligt, det gör det alltid i början när något dött och speciellt nu om det du säger stämmer att din och Tindras kompis dödade henne. Är det säkert att det är han? Jag vet inte vad jag ska säga! Det är så hemskt det som hänt och att du mår skit är jätte tråkigt och jobbigt men jag förstår det. Jag finns här, ALLTID, oavsett vad! Du kan inte stanna hemma någon dag då? Kanske blir jobbigare då? **Source:** Instagram

Hej jag snackade med tindra precis och hon läste att Maja inte försvann frivilligt. Plus att polisen håller tydligen på att söka efter hennes telefon. Så de kan försöka få kontakt med maja då.

Upprättad av
Per Ryderman

1 Syfte/Uppdrag

Undersökning av utläst data från beslagtagen mobiltelefon. Telefonen är tagen i beslag från vittnet Elsa Andersson i samband med husrannsakan på hennes hemadress.

Syfte med undersökningen är att utröna om det finns uppgifter i telefonen av betydelse för utredningen. Som av betydelse för utredningen bedöms generellt de misstänktas eller andra involverade personers kontakter, rörelser, positioneringar och övriga förehavanden under brottstiden eller andra för utredningen intressanta tidpunkter. Uppgifter som bekräftar eller talar emot andra uppgifter i utredningen, t.ex. förhörsuppgifter bedöms också som intressanta.

2 Metod

Undersökningen av mobiltelefonen har följt de rubriker/mappar som är satta av telefonutläsningsprogrammet UFED. Innehållet under rubriker som efter granskning bedöms irrelevanta för utredningen presenteras inte i rapporten.

Fokus för undersökningen har varit tidsperioden 2024-03-12 – 2024-04-12 (då enheten togs i beslag) men även andra tidpunkter kan ha undersökts. Andra avgränsningar kan också ha gjorts beroende på datamängd eller andra orsaker för respektive rubrik.

Undersökningen har därutöver fokuserat på misstänktas eller andra involverade personers sociala medier, telefonnummer, namn eller förehavanden. Genomförda sökningar och resultatet av dessa redovisas genom resultatet under respektive rubrik.

I rapporten redovisas endast de artefakter som bedöms ha betydelse för utredningen.

Tidsstämplar anges i UTC+1, lokal svensk vintertid, om inte annat anges.

Krimfup.se - FUP & DOM på nätet

Följande innehåll är extraherat från enheten:

3.1.1 Information om telefonägare

Enheten togs i beslag i samband med husrannsakan på vittnets hemadress. Bedömt på tidslinjernas utseende och andra uppgifter i enheten bytte hon sannolikt telefon runt 2024-03-20 till den i beslag BG35012-1.

Av utlästa konton, chattars innehåll och media i enheten bedöms det fastställt att enheten är Elsa Anderssons.

3.2 Telefondata

3.2.1 Calls

De samtal som bedömts intressanta är de som rings eller tas emot den 14 mars. Runt brottstiden rings flera samtal till eller från Tim och Lena men även vittnet Tyra. En mer intensiv period av samtal inleds med ett samtal från Tim (+46724445127) kl14:44:17 med varaktighet i 47s. Detta samtal följs av 7 samtal mellan kl14:45:16 och 14:50:24 till Lena (+46705218298) som inte bedöms kopplas fram utom möjligen till mobilsvar. De sju samtalen följs därefter av ett inkommande samtal kl14:51:07 från Lena med en varaktighet på 2m1s.

Krimtup.se - FUP & DOM på nätet

3.2.2 Contacts

De kontakter som exporterats är de som bedöms vara till andra involverade personer i ärendet.

3.2.3 Media – Videos

Under kategorin lagras dels videofiler men även ljud som utläsningsprogrammet kategoriserat som film. En ljudfil har bedömts som möjligen intressant i ärendet och i denna pratar sannolikt Elsa om Maja.

Filen heter fb7d7e6ed3c1d271be3c8d532d657632 och är 1m39s lång och följande är innehållet utskrivet:

”Jaha, det var ingen fara gumman, öh, men det var bara i (ohörbart). Det var bara därför. Öh, jag förstår dig. Öh, nej jag (ohörbart) förklara, jag har varit jätteorolig för henne. Jag, som jag, som jag sagt att, som jag sagt visst, (tystnad), som jag sagt att visst, visst, visst jag hatar människan, jag hatar henne. Hatar hen, nej, det gör, ja, men jag tänker på henne som föräldrar. Alltså tänk på henne som föräldrar som är typ jätteoroliga för henne, och det är inte, det är inte sista gången. Men sådär detta gjorde hon för tre år sen. För tre år sen så gjorde hon samma grej. Och en gång så höll hon på, vet inte hur längesen det var detta. Sen det var nån gång hon försökte ta livet av sig på Kinna tågstation då höll hon på och (ohörbart) framför tåget. Öh, men, ja, jag är jätterädd att hon… jag är rädd att det har hänt nånting och så sett. Men jag hoppas inte det. Och jag hoppas (ohörbart) hon är tillbaka och Tim (ohörbart) alltså jag mår ändå bra. Men Tim mår skit. (ohörbart) mår skit så att jag typ måste alltid se med honom hela tiden, försöker, jag försöker göra hur mycket som helst för att han inte ska tänka på det. Så, mm (ohörbart).”

3.2.4 Messages – Chats

De chattar som exporterats bedöms som möjligen intressanta för utredningen.

I Instagram-chatten mellan Tims konto ”timf.iskar” och det i enheten utlästa ”elsa.andersson.96742” skickas från Tim till Elsa en ljudfil 2024-03-12 kl19:37:45. Ljudfilen finns inte utläst, men har inhämtats via genomsökning på distans av Tims instagramkonto. Meddelandet är skickat av Tim och lyder *”Ska du till skolan imorn?”*. Ljudfilen heter ” audioclip17102686620001834_1226756074967255.mp4”.

Hela chatten mellan Elsa och Tim återfinns i genomsökningen på distans av ”timf.iskar” och består av länkar till Instagram-inlägg som inte bedöms ha någon relevans för utredningen.

I chatten mellan Emma Einarsson och Elsa Andersson skickas en ljudfil från Emma till Elsa 2024-03-15 kl05:28:37. Emma undrar däri om Tim är hemma och ber Elsa skriva till henne så snart hon hört meddelandet.

Krimtup.se - FUP & DOM på nätet

3.2.5 Search & Webb – Web history

Den 14 mars används enheten för att besöka olika siter på internet. Det är ett uppehåll i aktiviteten mellan 14:54:37 och 16:02:45.

3.3 Datafiler

Under kategorin datafiler återfinns flera typer av databärare. Bland annat de databaser där information om samtal och meddelanden och andra händelser i enheten loggas eller där kontakter och händelser kopplat till appar loggas. Dessa är till viss del de som undersökts i avsnitt 3.2.

Utöver dessa återfinns också vissa nedladdade dokument och olika typer av inställningsfiler för appar och telefonen. Inställningsfilerna bedöms generellt sakna relevans för utredningen och har därför inte undersökts.

Krimtup.se - FUP & DOM på nätet

Upprättad av
Per Ryderman

1 Syfte/Uppdrag

Undersökning av utläst data från beslagtagen mobiltelefon. Telefonen är tagen i beslag från Tyra Eriksson i samband med förhör.

Syfte med undersökningen är att utröna om det finns uppgifter i telefonen av betydelse för utredningen. Som av betydelse för utredningen bedöms generellt de misstänktas eller andra involverade personers kontakter, rörelser, positioneringar och övriga förehavanden under brottstiden eller andra för utredningen intressanta tidpunkter. Uppgifter som bekräftar eller talar emot andra uppgifter i utredningen, t.ex. förhörsuppgifter bedöms också som intressanta.

2 Metod

Undersökningen av mobiltelefonen har följt de rubriker/mappar som är satta av telefonutläsningsprogrammet UFED. Innehållet under rubriker som efter granskning bedöms irrelevanta för utredningen presenteras inte i rapporten.

Fokus för undersökningen har varit tidsperioden 2024-03-01 – 2024-03-21 men även andra tidpunkter kan ha undersökts. Andra avgränsningar kan också ha gjorts beroende på datamängd eller andra orsaker för respektive rubrik.

Undersökningen har därutöver fokuserat på misstänktas eller andra involverade personers sociala medier, telefonnummer, namn eller förehavanden. Genomförda sökningar och resultatet av dessa redovisas genom resultatet under respektive rubrik.

I rapporten redovisas endast de artefakter som bedöms ha betydelse för utredningen.

Tidsstämplar anges i UTC+1, lokal svensk vintertid, om inte annat anges.

Följande innehåll är extraherat från enheten:

Krimtup.se - FUP & DOM på nätet

3.1.1 Information om telefonägare

Enheten togs i beslag i samband med förhör med Tyra Eriksson. Innehåll i konversationer och media talar starkt för att telefonen är hennes. Det bedöms sammantaget fastställt att telefonen är Tyra Erikssons.

3.2 Telefondata

3.2.1 Calls

De samtal som sker vid brottstiden har exporterats. De bedöms möjligen ha betydelse för brottsutredningen och har till viss del berörts i förhör.

3.2.2 Contacts

De kontakter som bedöms sannolikt eller möjligen tillhöra någon i ärendet involverad person har exporterats.

3.2.3 Media – Images

De bilder som bedöms gälla Majas försvinnande eller annars nämns i exporterade chattar har exporterats. Inga av dem bedöms ha direkt betydelse för utredningen om brott.

Krimtup.se - FUP & DOM på nätet

3.2.4 Media – Videos

Under rubriken lagras både film och ljud som undersökningsprogrammet tolkat som film. I enheten finns ett antal ljudfiler som härrör från en chatt mellan Tyra Eriksson och Tim Andersson. Dessa har exporterats.

3.2.5 Messages – Chats

I enheten finns flera chattar som på olika sätt berör Majas försvinnande. Inga av dessa bedöms vara av direkt relevans för utredningen om brott men har exporterats då de bedöms röra Majas försvinnande och då uppgifter i dem kan komma att användas vid förhör.

3.2.6 Search & Web

De poster som har exporterats visar exempel på vad enheten använts till att söka på efter Majas försvinnande.

3.2.7 User Accounts & Details

I enheten finns flera Instagram och Facebook-konton registrerade. Användaren av enheten kan ha kommunicerat i andra konton än de som utläsningen gett tillgång till.

3.3 Datafiler

Under kategorin datafiler återfinns flera typer av databärare. Bland annat de databaser där information om samtal och meddelanden och andra händelser i enheten loggas eller där kontakter och händelser kopplat till appar loggas. Dessa är till viss del de som undersökts i avsnitt 3.2.

Utöver dessa återfinns också vissa nedladdade dokument och olika typer av inställningsfiler för appar och telefonen. Inställningsfilerna bedöms generellt sakna relevans för utredningen och har därför inte undersökts.

Uppgiften avser

Uppgift

Telefonen togs i beslag från Lynn Lidstrand i samband med förhör. Det bedöms bekräftat att telefonen är hennes.

Konversationer som lästs ur BG44137-1 gällande en bilresa på natten den 17:e Mars tillsammans med Elsa Andersson återfinns även i den här enheten. Även film från resan finns i utläsningen. Inga visar var de befinner sig.

I övrigt bedöms ingen data vara av relevans för utredningen. Den data i utläsningen som berör Maja består i webhistorik på nyhetssiter och andra nätforum och enstaka chatter i vilka Majas försvinnande nämns.

Inga positioneringar finns i enheten som bedöms vara av relevans för utredningen.

Ingen data har exporterats från utläsningen.

Berättelse

Dokumentet innehåller de meddelanden som anträffats i utläsningarna av BG33606-1 och BG32671-1 samt genomsökningar på distans och inskickade skärmdumpar och består av transkriberingar av både ljud, film och text-meddelanden. För ytterligare beskrivning av undersökningarna av beslagen hänvisas till respektive undersökningsprotokoll och PM "Om chatt mellan Tim och Maja". Chatten finns även sammanställd i filmformat.

Uppgiften avser

Uppgift

Eftersom meddelandena mellan Maja och Tim återfinns i flera olika källor i deras respektive mobiltelefoner redovisas meddelandena i film-format och transkriberat.
Av tidstämplarna går inte med säkerhet fastställa vad de innebär vilket gör att vissa meddelanden kan redovisas i en annan ordning än vad mottagaren läst, tagit emot, aviserats om eller besvarat dem. Tidsstämplarna bedöms dock säkra på så sätt att ljudfilen, notisen eller meddelandet i vart fall vid tidpunkten skapats i respektive enhet. Notiser eller meddelanden och ljudfilen i vilket innehållet lagrats kan därför ha något olika tidstämplar.

Det går inte säga om hela konversationen mellan Maja och Tim finns med. Meddelandens innehåll tyder på att visst innehåll möjligen saknas. Det kan finnas flera orsaker till detta som t.ex. att meddelanden eller notiser inte lagrats, hunnit raderas automatiskt eller raderats av användaren.

Avseende snapchatmeddelandena framgår inte i utläsningarna vilka konton dessa skickats mellan. Men då selfies på Maja anträffas i Tims telefon och utifrån att enskilda meddelanden bildar en sammanhängande dialog som också stämmer överens med bland annat förhörsuppgifter bedöms det fastställt att de är mellan Tim och Maja.
De meddelanden som är hämtade från genomsökning på distans av Majas Instagramkonto ”majasol123” har inhämtats genom nedladdning av ”My data”. I ”My Data” anges inte sekunder i meddelandets tidsstämpel. För att meddelanden i excel och filmmaterial ska hamna i rätt ordning sett till konversationens innehåll, har sekundangivelse lagts till av utredande polis.

Tidszonen i nedladdade myData är beräknad att vara angiven i PST, Pacific Standard Time, till vilken man få lägga till 9 timmar för lokal svensk tid, UTC+1. Beräkningen är gjord utifrån övriga utlästa meddelanden med rätt lokal tidszon.

I ”MyData” för instagram-kontot ”majasol123” redovisas vad som bedöms vara chattens motpart i mappnamnet men inte i själva meddelandevyn där det endast står ”Instagram-användare”. Meddelandena är hämtade ur mappen ”Instagramanvandare_17869021965072934”. 1786902196507934 återfinns inte som konto i någon av mobilutläsningarna. Varken Tims eller Majas. Det är oklart vad det beror på men sett till att delar av innehållet finns i BG33606-1 kopplat till Tim Andersson och konversationen till innehåll stämmer väl överens med vad utredningen visat i övrigt bedöms det fastställt att konversationen är mellan Maja och Tim.
PM om meddelanden i film

Krimfup.se - FUP & DOM på nätet
HEMLIG

Eftersom meddelandena mellan Maja och Tim återfinns i flera olika källor i deras respektive mobiltelefoner redovisas meddelandena i film-format och transkriberat.
Av tidstämplarna går inte med säkerhet fastställa vad de innebär vilket gör att vissa meddelanden kan redovisas i en annan ordning än vad mottagaren läst, tagit emot, aviserats om eller besvarat dem. Tidsstämplarna bedöms dock säkra på så sätt att ljudfilen, notisen eller meddelandet i vart fall vid tidpunkten skapats i respektive enhet. Notiser eller meddelanden och ljudfilen i vilket innehållet lagrats kan därför ha något olika tidstämplar.
Det går inte säga om hela konversationen mellan Maja och Tim finns med. Meddelandens innehåll tyder på att visst innehåll möjligen saknas. Det kan finnas flera orsaker till detta som t.ex. att meddelanden eller notiser inte lagrats, hunnit raderas automatiskt eller raderats av användaren.
Avseende snapchatmeddelandena framgår inte i utläsningarna vilka konton dessa skickats mellan. Men då selfies på Maja anträffas i Tims telefon och utifrån att enskilda meddelanden bildar en sammanhängande dialog som också stämmer överens med bland annat förhörsuppgifter bedöms det fastställt att de är mellan Tim och Maja.
De meddelanden som är hämtade från genomsökning på distans av Majas Instagramkonto ”majasol123” har inhämtats genom nedladdning av ”My data”. I ”My Data” anges inte sekunder i meddelandets tidsstämpel. För att meddelanden i excel och filmmaterial ska hamna i rätt ordning sett till konversationens innehåll, har sekundangivelse lagts till av utredande polis.
Tidszonen i nedladdade myData är beräknad att vara angiven i PST, Pacific Standard Time, till vilken man få lägga till 9 timmar för lokal svensk tid, UTC+1. Beräkningen är gjord utifrån övriga utlästa meddelanden med rätt lokal tidszon.
I ”MyData” för instagram-kontot ”majasol123” redovisas vad som bedöms vara chattens motpart i mappnamnet men inte i själva meddelandevyn där det endast står ”Instagram-användare”. Meddelandena är hämtade ur mappen ”Instagramanvandare_17869021965072934”. 1786902196507934 återfinns inte som konto i någon av mobilutläsningarna. Varken Tims eller Majas. Det är oklart vad det beror på men sett till att delar av innehållet finns i BG33606-1 kopplat till Tim Andersson och konversationen till innehåll stämmer väl överens med vad utredningen visat i övrigt bedöms det fastställt att konversationen är mellan Maja och Tim.

Genom de av Majas familj inskickade skärmdumpar från Majas instagramkonto framgår en meddelandeordning som fått gälla i första hand. Skärmdumparna visar dock att några av de meddelanden som utredare tolkat som enskilda meddelanden sannolikt är dubbletter som redovisats med två olika tidsstämplar i olika källor. Det rör t.ex. meddelandet 2024-03-13 med innehållet ”Nej” som registrerats kl14:42:25 och kl14:43:32. Då det inte kunnat fastställas om meddelandet är dubblett eller inte har båda redovisats i transkriberingen.
Eftersom meddelandena mellan Maja och Tim anträffats i flera olika källor i deras respektive mobiltelefoner och även från flera andra källor redovisas meddelandena i film-format och transkriberat.
Från tidstämplarna i mobilutläsningarna går det inte med säkerhet fastställa vad de innebär vilket gör att vissa meddelanden kan redovisas i en annan ordning än vad mottagaren läst, tagit emot, aviserats om eller besvarat dem. Tidsstämplarna bedöms dock säkra på så sätt att ljudfilen, notisen eller meddelandet i vart fall vid tidpunkten skapats i respektive enhet. Notiser, meddelanden och ljudfiler i vilket innehållet lagrats kan därför ha något olika tidstämplar även om de rör samma meddelande.
Det går inte säga om hela konversationen mellan Maja och Tim finns med. Meddelandens innehåll tyder på att visst innehåll saknas, särskilt från den 12 mars. Det kan finnas flera orsaker till detta som t.ex. att meddelanden eller notiser inte lagrats, hunnit raderas automatiskt eller raderats av användaren.
Avseende snapchatmeddelandena framgår inte i utläsningarna vilka konton dessa skickats mellan. Men då selfies på Maja anträffas i Tims telefon och utifrån att meddelanden bildar en sammanhängande dialog som också stämmer överens med bland annat förhörsuppgifter bedöms det fastställt att meddelandena är mellan Tim och Maja.

+46736790227	+46725343895 Tindra min syrra - Delivered:2023-12-08 07:54:27(UTC+1)	Outgoing	Synd att du åker taxi idag! Annars hade du kunnat vart med mig och vänta på min pappa för Maja skrev igår att hon ksk ej kunde vänta med mig för hon skulle tydligen iväg med sin mamma" men jag vet ej om det är sant! För de kan ju vara så att hon i äntligen inte vill vänta me mig.	Sent	iMessage	Sent	Native Messages	2023-12-08	2023-12-07:54:26
