Protect yourself from common car scams

- ✓ Try and meet the seller at the logbook's registered address. If this isn't possible, ask why.
- ✓ Use a traceable form of payment such as debit or credit card as paying by cash is far harder to trace.

- ✔ Check the car's market value, if the price seems too good to be true, it probably is.
- ✔ Compare the VIN against the vehicle and logbook. Make sure you check the VIN in multiple places as well.
- ✔ Inspect the V5 carefully. Check for watermarks and the quality of the paper. A V5C is one A3 sheet of paper folded in half to give four A4 sides.
