

FOLDING INSTRUCTIONS FOR BROKEN BONES PHYSICAL EDITION

Please read this all the way through and make sure you understand it well before following the instructions

What you're gonna need:

- A stapler, preferably with staples
- Access to a printer, be it yours, a friend's, or any print shop nearby.
- A bone tool (optional, can be replaced with a card, or one of those plastic tools that comes with phone screen protector kits. No not that one. No not that one either. Yeah that one)

What you're gonna do:

1. Print whichever chapter's PDF you'd like. The chapters will be separate from each other, and each of them will be its own zine.
2. You're gonna notice the pages' order is pretty messed up. This is normal. Don't change the order of the pages.
3. Grab the pages as they were printed, be careful not to alter their order. Make sure the cover is on the right side of the first page, and the back of the zine on the left side of the same page.
4. Fold the pages in half so that the cover is the first page of the zine you just made.
5. Open the zine midway and staple the spine.

For a visual guide, visit <https://nashhigh.itch.io/zinearranger>, go to 'Folding Instructions' and select 'Half' on 'Zine Size'.
