Your Response. You contend that your client actually informed the DHS licensor that the caregiver is not the recipient's spouse, but rather the recipient's daughter's spouse. You have not provided any documentation on reconsideration. Reconsideration Decision. The license holder told the HCBS Licensor that the recipient's husband provided night supervision. Although on reconsideration you state the caregiver was the recipient's daughter's spouse, you did not provide documentation or other evidence to support your position or refute the prior statements made. Minnesota Statutes, section 245A.06, subdivision 2, requires that on reconsideration you include documentation showing the citation was issued in error and you did not do so. The service recipient's husband provided night supervision in violation of the federal waiver plan. This citation is affirmed. Disposition - The Commissioner has reviewed the relevant laws and the information you submitted in response to the Correction Order. Citation 2 is affirmed. This is a final agency decision.
