

What is a Background Report?

In basic terms, a background check is finding a collection of information on a particular individual. This information is collected from publicly available information and is done within the constraint of the law. Background checks will uncover various facets of information on an individual such as their legal name, address, workplace and so much more. Usually a background report may include the following information: Data of Birth, Address History, Alias Names, Relatives and Associates, Neighbors, Civil Actions, Property Information, Criminal Records, Phone Numbers, Marital Status and more.

Court Records

Arrest Records

An arrest usually occurs when a law enforcement officer is investigating or trying to prevent a crime, detaining someone and depriving them of their liberty. Arrests may occur during a traffic stop, for example, or as a result of an arrest warrant issued for a person of interest. An arrest does not mean a person has been convicted of a crime, however. This only means they may have been detained by police or another officer at some point in time. We do not guarantee that the information provided below is accurate, complete, or related to the individual searched.

Criminal/Traffic Records

Criminal offenses are those which result in a conviction in the court of law and a sentence of jail time and/or fines. Misdemeanor crimes result in up to one year in jail; felonies carry sentences longer than one year.

Traffic offenses can include anything from tickets for speeding to driving under the influence. Moving violations are very minor, but a criminal offense such as a DUI means that person has been convicted in court and provided a sentence. Other major traffic violations include reckless driving and driving with a suspended/revoked license. We do not guarantee that the information provided below is accurate, complete, or related to the individual searched.

Bankruptcies, Liens & Judgments

This section of the report will contain bankruptcy filings, legal judgements, property & tax liens. There are many types of bankruptcies but the two most common consist of liquidation (chapter 7) or reorganization (chapter 13). A legal judgment is a decision by the court that resolves an issue and decides the rights and obligations of any parties involved. A lien is a form of security interest granted over an item of property to secure the payment of a debt or performance of some other obligation. We do not guarantee that the information provided below is accurate, complete, or related to the individual searched.
