For IRS reporting, Amazon estimates the fair market value of products at the point when you took ownership.
Based on the Vine Voices Participation Agreement, title to third-party items transfers to you Six months after you review them; title to Amazon-branded items transfers to you at the time of order. For third-party products, this will include a reduction for depreciation during the first six months.

For example,

- If you order third-party products on July 1, 2017 and on January 1, 2018, both will be calculated toward your 2018 aggregated total because title for both items transfers in 2018 (January 2018 and July 2018, respectively).
- If you order Amazon-branded products on January 15th, 2018 and September 3rd, 2018, both will be calculated toward your 2018 aggregated total because title for both items transfers in 2018 (January 15th, 2018 and September 3rd, 2018, respectively).
