[The Epoch Times, January 16, 2023] (Reported by Epoch Times reporters Tang Qing, Cheng Jing, and Mu Qing) There was a tsunami of the epidemic in China , with dead bodies lying in hospitals and long queues at crematoria. The CCP tried its best to cover up, and the epidemic data released could not justify itself. A large amount of first-hand information from the public shows that the number of deaths due to the epidemic in China is huge. Master Li Hongzhi, the founder of Falun Gong, said that the CCP has been covering up the epidemic, and 400 million people have died in China due to the epidemic.

Since November last year (2022), the epidemic in China has broken out in multiple places across the country at the same time. Since December 7, when the authorities were forced to abandon zero-clearance control, the Chinese Center for Disease Control and Prevention has announced no new deaths for 11 consecutive days. The Center for Disease Control and Prevention announced on January 8 that only 37 people died from the epidemic between December 7 last year and January 8 this year. No one in the country believed it.

gave up statistics on relevant data and banned writing "new crown" on patients' medical records.

, the founder of Falun Gong, Master Li said that the CCP has been covering up the epidemic for more than three years. The epidemic in China has killed 400 million people. When this wave of epidemic ends, China will die 500 million people.

Master Li said that when SARS appeared last time, 200 million people died in China. Many years later, the CCP discovered that the population had decreased, and immediately released the two-child and three-child system.

Master Li warned many years ago that the plague would cause disaster in China, and taught the way to rescue it. In his poems, he mentioned "stay away from the evil CCP" and "find the truth quickly".

"The largest death incident since the Great Leap Forward"

Sinologist and military strategist Ben Lowsen (Ben Lowsen) published an article in the "Diplomat" magazine on January 5, saying that the Chinese people may now face "the largest death incident since the Great Leap Forward".

Between 1958 and 1961, Mao's policies resulted in the death of 20 million or more people in famines, and amidst the chaos and tragedy, Chinese authorities decided not to provide statistics on the number of deaths in the famines, he said.

"In an ominous contrast, today's Xi Jinping administration has also largely given up on providing COVID-19 statistics," Lawson said.

In recent years, China's census data has been questioned by the outside world. For example, in December 2021, Yi Fuxian, an internationally renowned demographer, estimated that China's population in 2020 would be 1.28 billion, not the 1.41 billion stated by the official census data.

Outrageous epidemic data and the strategy of "muddling the water"

As early as the early stage of the epidemic, the epidemic data released by the CCP was questioned by foreign experts.

George Calhoun, Director of the Quantitative Finance Project at the Stevens Institute of Technology in the United States, wrote an article in Forbes last January, questioning the infection rate and death rate in the CCP's official report.

He calculated that the death rate of COVID-19 reported by the Chinese government is 0.321 deaths per 100,000 people, and the COVID-19 death rate in the United States is 248 deaths per 100,000 people, which is higher than the average death rate in China. out 800 times. How is this possible?

An article by Forbes on January 2 last year stated that an analysis of official CCP data showed that within 90 days of Wuhan's lockdown, the average death rate from COVID-19 was 376 times higher than the national death rate officially announced by the CCP. In the two years since the outbreak of COVID-19 in Wuhan in early 2020, if Hubei Province is not included, among the remaining 1.3 billion Chinese, only 200-300 people died of COVID-19 disease, so the death rate is per 100,000 people The average death rate in China is 0.002, which is 124,000 times lower than the death rate in the United States.

Hu Ping, honorary editor-in-chief of "Beijing Spring", believes that the CCP's habit of "disturbing the water" strategy, "Anyway, if I want to lie, then I simply spread it bigger, the bigger the better, because if the lie exceeds the extent of ordinary people's imagination, then ordinary people are guessing and estimating. When using real data, you will be limited by your imagination, and will instead give a relatively low estimate."

Hu Ping told VOA that the official knows that no one will believe its data, and it doesn't expect others to believe it, but just wants to muddy the water. As long as the death data becomes a non-existent case that no one can explain clearly, the purpose of the authorities will be partially achieved.

On January 3, 2023, hospitals in Shanghai were overwhelmed with patients. (Ray Young/Feature China/Future Publishing via Getty Images△)

The funeral system in big cities is paralyzed

At present, the funeral and interment systems in major cities in China are in a state of paralysis.

The satellite images taken by Maxar Technologies of the United States cited by the "Washington Post" on January 10 showed that from Beijing to Nanjing, from Chengdu to Kunming, the activities of funeral parlors in different locations in China’s southeast and northwest are all abnormal. Busy.

A funeral home in Tongzhou, Beijing, appears to have built a new parking lot around that time, according to satellite footage captured by Massar Technology on Dec. 24 last year. The Washington Post identified the expansion as a date on or after Dec. 22. In less than 2 days, the funeral home parked more than 100 cars at once.

The driver who helped transport the corpse in Nanjing told the Post that he had been driving a hearse for decades and had never seen such a scene.

Similar scenes are playing out in funeral homes across China.

"The whole system is paralyzed now." An employee who answered the phone at the Shanghai crematorium told Bloomberg recently. "It’s too busy here."

An employee of Shanghai Baoxing Funeral Home told The Epoch Times on December 28 last year, "We started issuing numbers at 8 o’clock. Now we queue up for four or five hours every day. If we can’t get them, we have to come back later. We now Four to five hundred (cremated corpses) per day, originally 90 (corpses) per day is already capped. The staff is already working overtime." According to public information, there are 15 funeral homes in Shanghai.

On December 19 last year, the owner of a funeral service in Shenyang told the Epoch Times reporter that people died in the emergency departments of many hospitals in Shenyang, and the (dead bodies) could not be removed. "I went to the (emergency department) to remove them."

He revealed that there was no car to pull the corpses, so there was nowhere to store the corpses.

"There are too many people passing away (death), there is no way, there are too many." He said, "It’s the same in every hospital. In some hospitals, dozens, seven or eight remains are piled up, and the remains are placed there. There is no way, if you can’ t get away, there is no trick at all."

The Economist reported that a funeral worker said that a crematorium in Dengzhou, a county-level city in Henan, processes more than 100 corpses a day, and as many as 160 corpses a day in recent weeks. The facility was only handling 30 to 40 cremations a day before the COVID pandemic. The worker said he was three times busier than usual and blamed it on the coronavirus.

Bao Jian, the daughter of Zhao Ziyang’ s secretary Bao Tong, posted on Twitter on January 13: “Hundreds of thousands of people died in Beijing in one month, and the city government even beat gongs and drums to hold a commendation meeting. It’ s shameless! It’ s been less than a month. , 17 of

my friends or their relatives have left. This is unheard of in my life. Could it be that it happened once in a thousand years? How do you explain to the citizens in Beijing that 90% of the people are infected with the virus within a month? At the beginning, 90% were asymptomatic, and now 90% are symptomatic, and 10% are severe?"

Another netizen replied, "I'm in Beijing. The number of hundreds of thousands you said may be a bit conservative. I estimate it to be in the millions."

Bao Jian replied, "I don't have accurate data, but according to the funeral parlors are full, there are many corpses in the furnace, the waiting time for incineration is several times or even ten times longer than usual, the emergency system is paralyzed, the emergency department queues, the hospital mortuary is full, coffins, urns, cemeteries The supply is in short supply... and based on the locally released data on severe cases and white lung disease, the most important thing is to make subjective judgments based on the official attitude of not saying a word."

On December 19, 2022, there was a long queue of cars waiting to enter the funeral home in the eastern suburbs of Beijing. (Bloomberg via Getty images △)

In addition to big cities, rural areas are not optimistic. Mr. Wang, a system insider who requested anonymity due to safety concerns, told The Epoch Times reporter that the epidemic is particularly severe in his hometown of Anhui.

"In our side, a group of old people died first, and two of our neighbors also died. Now young people are starting to (die). The rural areas are even worse. Every day there are so many dead people in small towns, and funerals are held every day." He said , "The local hospital also has a notice that death in the name of the new crown is not allowed. All deaths are caused by underlying diseases, such as high blood pressure, diabetes, and heart disease."

Bloomberg said that in a village in Luyi County, Henan Province, almost every household has patients. A sense of resignation pervades the village, with many families opting to keep their family members in their final stages of life at home. Their names are unlikely to appear on any official COVID death list in China.

There is no doubt that 400 million people died in the plague in China in three years. Lord Yan's life and death book is clearly remembered. In this world, there are also some high-level people among the people who know it.

The Epoch Times Netizen Published: 4 days ago【 Follow Comment 】

The figures given by the founder of Falun Gong are certainly not human statistics, and the CCP authorities themselves do not have specific figures. How many people died in the human world is recorded in other dimensions, and the name, age, gender, address and other information are all registered in the register. Hades is keeping the roster, and an expert can read it anytime he wants. Not to mention such a powerful figure as Master Li, even people with supernatural powers can see the roster of Hades. Maybe you don't feel that so many people died around you, but you can feel that the population has really decreased a lot, and if you have the ability to see the roster of Hades, you will be able to find it in the world with the roster. Number one, absolutely!

The words of the expert are themselves mysterious, which are very mysterious and difficult for ordinary people to understand. Shakyamuni usually used "kalpa" to express data, and there are three thousand worlds in a grain of sand. Can ordinary people believe these words? When Jesus was in Jerusalem, when he saw that the church was being used as a market and selling things everywhere, he was furious, smashed all kinds of stalls, and said that even if he destroyed the church, he could build it in three days. Can ordinary people believe these words? I can't believe it, so ordinary people can only be ordinary people forever. Only cultivators can understand and believe the words of the Great Enlightened Beings.

"None of the lackeys dare to ask their masters for reliable statistics. Lies can only be covered up with more lies, and the evil Communist Party has too many lies to cover up."
great!

The Epoch Times Netizen Published: 4 days ago【 Follow Comment 】

Wumao likes to secretly change concepts to create opposition, and 400 million actually has a premise: a three-year accumulation, including the sum of direct and indirect deaths from viruses, natural deaths, secondary disasters, and others. Five cents running dogs get rid of these prerequisites, and compare two figures: 400 million vs 60,000. According to statistics in psychology, the maximum social (or contact) radius of each person in a modern city is between about 200 and 300 people, which is similar to the number of people in a natural village before, except that they do not live geographically. Just together. In other words, each individual is nothing more than a person in a "village", and each invisible village is generally composed of people with similar lives, ideas, and interests. The Internet and social media seem to have greatly strengthened the cohesion of this village, and also greatly excluded people and the world outside the "village". The gap between those who can use the Internet and those who are ignored by the Internet is far greater than those of us who read this article now imagine. Things beyond your own vision and perception will not exist because you can't see them. If you don't have the insight of Yiye Zhiqiu, then please maintain a minimum of empathy. Behind the numbers are lives and broken families. At this time, it is more reliable to rely on people's most basic good and evil, and even intuitive judgment. So which is closer to the truth? 60000? Then you and your family may not even count as a number!
If this number is questioned, it is the evil communist government that should come out to refute rumors, but does it dare? None of the fifty-cent lackeys dared to ask their masters for reliable statistics. Lies can only be covered up by more lies, and the evil Communist Party has too many lies to cover up.
400 million vs 60,000 is like the red and blue pills in the movie "Maxtri": if you choose the truth, you may suffer short-term pain, but you have the hope of ultimate escape, if you choose to continue sleeping, you are doomed to perish.

I remember that there was a line in the lyrics of the Shen Yun performance in 2017: "Behind the haze, the great epidemic hides".

And the plague started at the beginning of 2020, exactly from the Wuhan pneumonia that was concealed at the end of 2019.

Looking back, God has already unlocked the secret of heaven, I have to believe it.

Celebrities and high-ranking officials in mainland China died in large numbers when they occupied superior resources. Ordinary people have no medical treatment, no medicine, and no hospitalization. Is the 1% death rate of Chinese people too low?
3. This is based on the fact that the U.S. government distributes free medicine and the mortality rate of the medical system is 1% under normal circumstances. How much is reasonable for mainland China? Is 6 percent reasonable? That's 50 million.
It's just that this month, she died due to lack of medical treatment. How much will it be in three years?

The Epoch Times Netizen Published: 5 days ago【 Follow Comment 】

talk about the hospital
The report said: In the past month or so, 1. Military-level officials are not ranked in the military hospital; 2. All departments in some hospitals have been changed to respiratory departments; 3. Hospitals in metropolitan cities like Shanghai have ordinary people in the hospital. There are people sitting on the street at the entrance taking oxygen. Does this kind of medical system collapse?

The Epoch Times Netizen Published: 5 days ago【 Follow Comment 】

How strong is China's medical system compared to that of the United States?

It is reported that Americans have infected more than 100 million people in 3 years, with an infection rate of about 30%, and more than 1 million deaths, with a mortality rate of about 1%. The small molecule drugs in the United States are distributed free of charge, and the medical system has not collapsed. The lives of ordinary people seem to be unaffected .

In about one month in the mainland, it was reported that 890 million people were infected, and the infection rate in many cities was around 80% to 90%, and it is still increasing. There is no effective medicine in mainland China, and even cold medicine has been under official control for 3 years. What the mainland has insisted on for 3 years is When arresting and shutting down people, what we have always insisted on is to detect problems in people and then arrest them. Where are those arrested? When will it be released? Has it been released, and how much has been released? How many people have not been released, who knows?

I absolutely believe what Master Li said! The CCP will never give the Chinese and the world the right to know! Its evil gene is "evil deceit, incitement, fighting, robbing, and eradicating control". Master Li has seen all this with supernatural powers. As a theist, I believe in the supernatural powers of Buddhism! In fact, this is another warning from the merciful Master Li to the people of the world to understand the principles of Buddhism at a higher level. If human beings put aside their scientific prejudices and read it thoroughly (Zhuan Falun), they will be sublimated and improved!

The Epoch Times Netizen Published: 5 days ago【 Follow Comment 】

This epidemic has caused a lot of people to die in China, almost all of them were conscripted by the whole family. Many ordinary people have a question, if it is a natural infection, will it reach almost everyone in every household? The infection rate of this epidemic can be said to be around 98. This is the case almost everywhere. I hope that professionals who understand infectious diseases can clarify the doubts: Can natural infection achieve such a high infection rate?

A word from the master awakens the dreamer
The big knockout is coming
Believe in God and be saved by God

The Epoch Times Netizen Published: 6 days ago【 Follow Comment 】

A word of advice, it is normal to doubt and think about things that you cannot understand for the time being, and it is also a process of human progress, but it is extremely unwise to use this as an excuse to abuse and ridicule. In fact, many people today have sinned deeply, even if they humbly and reverently pray for forgiveness from now on, it will be difficult. Don' t forget that there are still 100 million people! The information that ordinary people can understand is really limited, and only with awe can we improve ourselves, move towards the light and be saved.

The Epoch Times Netizen Published: 6 days ago【 Follow Comment 】

"How do you explain to the citizens in Beijing that 90% of the people are infected with the virus within a month? From 90% asymptomatic at the beginning to now 90% have symptoms, and 10% are seriously ill?"

Officials from all walks of life in the CCP will lie about the numbers in order to keep their positions: before when the infection rate was cleared to zero, they would try their best to underreport the infection rate. The reported infection rate of 90% may actually be less than 60%, but the actual death toll has reached 400 million. When the real virus infection rate reaches 75%, that is, the universal immunity rate, the death toll will reach 500 million. Only the lying CCP is extremely evil, and Chinese people can only keep their families safe and healthy if they choose to stay away from the CCP as soon as possible.

The Epoch Times Netizen Published: 6 days ago【 Follow Comment 】

It is not uncommon for the CCP to cover up the truth and tell big lies; and it is not the first time that people did not believe the words of many wise men and prophets in history, but they were only recognized after a period of time. Prophecy also becomes their unusual allusion. The information that ordinary people understand is too limited. I have read Master Li's works, and I believe that the information that 400 million people died in the epidemic in three years is Master Li's compassionate teachings to people, and it will be gradually confirmed in the follow-up.

died, and no one noticed.

The Epoch Times netizen published time: 7 days ago[following comment]

On the premise that the population is linked to the appropriation of funds, two other perspectives are provided to facilitate everyone' s understanding of the CCP' s falsification of population data:

1. The 2020 census was falsified on a large scale, and the grassroots reported that it was completely confused. Some places claimed that the number of people was overstated by one-third;

2. Vaccination tasks are linked to the number of people who report. There are many vaccines allocated, but the actual population is small. There is a chaos of paying money to complete the vaccination tasks in many places. Some people get vaccinated multiple times to make money, and some go to other places to get vaccinated for money.

The Epoch Times netizen published time: 7 days ago[following comment]

The CCP has always made up data indiscriminately. Everyone has forgotten how the data of the seventh national census in 2020 was falsified? How much data logic is not self-consistent? Since everyone has forgotten, I will quote an online article and briefly review:

1. 2020 is the year of the epidemic. In that year, the official said that the new population in the country was 11.73 million, which is a full increase of 151.2% compared with the new population of 4.67 million in 2019! People are dumbfounded. It is estimated that 26 million people were born and 14.27 million people died.

2. The number of births in 2020 will be 26 million, and the birth rate will hit a 29-year high, suddenly reaching 18.4 per thousand, returning to the level of the

early 1990s, which is incredible.

The reason is simple, because the upper layer predetermines the outcome: the need to show that the population is growing. In order to cover up the death rate of that year, the birth rate must be greatly increased, because even with the above extrapolated data, the death rate of 14.27 million is far beyond the previous level of nearly 10 million, setting a new high in the death rate, reaching 8.3 per thousand

Everyone, please don't think about the evilness of the CCP with normal thinking, this evil thing will tell big lies!

Pfizer Paxlovid is not included in the two accounts that the CCP dare not settle in the medical insurance

Pfizer's oral drug Paxlovid (Chinese name: Naimatevir tablets/ritonavir tablets combination package) for the treatment of new crowns is not included in China's medical insurance, but behind it are two accounts that the CCP dare not settle. The first account is an economic account. After various calculations, the CCP' s fiscal expenditure for the whole year of 2022 will exceed 24 trillion yuan (RMB, the same below), and the epidemic prevention expenditure alone will account for one-third of the total fiscal expenditure, which is 8 trillion yuan. A lot of money is used for nucleic acid testing, nucleic acid kiosks and construction of shelter hospitals, as well as other expenditures and official corruption. National wealth has been squandered by the CCP in this way, resulting in a financial deficit and unsustainable medical insurance funds. This can be seen from the continuous jump in people's social security contributions in the past three years. With the price of 1890 yuan per box (5 days a course of treatment) offered by Pfizer, it will cost hundreds of billions of dollars. Obviously, neither the CCP's finances nor the medical insurance fund are willing to pay for this. The second account is a political account. The CCP has always publicized how it successfully fought the epidemic. If Pfizer' s Paxlovid has established a reputation in China, it will naturally have the dominance of public opinion in certain professional fields. The CCP' s lies about the epidemic can be easily exposed when the truth is revealed to the world , naturally cannot maintain its rule.

The Epoch Times Netizen Published: 8 days ago【 Follow Comment 】

Three years of reflection on the epidemic, tell you what it means to "serve the people!"

During the three years of the epidemic, the United States gave money to its people, Japan gave money to its people, Australia gave money to its people, the European Union gave money to its people... and so on! Only China doesn' t do that. The CCP' s spirit of internationalism earns the money of its own people and spends it for foreigners. It doesn' t work! Send money to the whole world, send it to Russia, send it to Cuba, send it to Venezuela, send it to Congo, send it to friends in Africa, as for the people in your own country, forget it, China is the second largest economy in the world, you have to tighten up Build aircraft carriers, build nuclear submarines, build islands in the South China Sea, conduct military exercises to show Chinese people, implement the Belt and Road Initiative, build China-Europe high-speed rail, build cabins, build crematoriums, raise troops, police, urban management, security, To maintain stability, to rob visits, to raise the most corrupt officials and civil servants in the world, to raise mistresses, to raise children in the United States, to raise unscrupulous experts and academicians, to raise singers, movie stars and actors...etc...etc .

The Epoch Times netizen published time: 7 days ago[following comment]

It' s just that the definition of "people" is different. Western countries regard the people as the people, so they give money to the people; the CCP is the same, whoever it gives the money to is the people it says, so the "people" of the CCP does not include China. The common people's is just the wishful thinking of the Chinese people to regard themselves as the people. In the eyes of the CCP, the Chinese people are just mines that can be mined, just a kind of resource, so they keep plundering the people, so how poor are the people and how many people died , the CCP will not take it seriously.

Sichuan steel enterprises apply for cremation business

The epidemic is raging in China, and the number of infected and dead is increasing rapidly. The 24-hour operation of crematoriums is also beyond the capacity. Some local governments use freezers to temporarily store the remains, and there are also temporary outdoor sheds to store the remains. According to a Chinese analyst who broke the news on December 29, 2022, the Sichuan Electric Furnace Steel Plant sent a letter to the Civil Affairs Bureau. , The equipment is idle, and the employees are on vacation. We have noticed that due to the new crown epidemic and seasonal factors, the equipment in the cremation business of the funeral and interment industry is overloaded, and the waiting time for customers is too long. Now, according to the characteristics of the equipment in the short-process steel mill, the existing equipment is used. Specially apply to increase funeral cremation services and apply for carbon emission reduction subsidies." The letter also explained the advantages of short-process steel mills, bluntly stating that "traditional funeral cremation uses fuel oil, which is not environmentally friendly. Mini-process steel mills use electric furnaces with high temperatures. , burning is more complete and thorough, and the time to burn a corpse is shorter". In a single period of time, the number of cremated remains is large, which can reduce the pain points of people queuing up, fully meet the requirements of green environmental protection, and belong to new energy cremation.

The Epoch Times Netizen Published: 8 days ago【 Follow Comment 】

The society established by the CCP’ s totalitarianism in the mainland is exactly the portrayal of an absurd society. The CCP has been brainwashing the people for three years, arbitrarily exaggerating the poisonousness of the mysterious Keron, implementing a zero-clearing policy, and blocking the community and the people indefinitely. Those who disobey are regarded as opposing the national policy and guilty, and those who accept it can only suffer silently or even starve to death. , died of illness, and committed suicide. Dynamic clearing caused people's livelihood to decline, economic collapse, and a large number of secondary disasters, until a white-paper revolution swept across the country by disobedient people, the CCP was forced to back down, but refused to reflect on and admit its mistakes, and suddenly changed its words to say that Omicron is very poisonous, The release of control without warning and insufficient preparation in all aspects triggered a wave of epidemic outbreaks and a run on medical resources. People who are at a loss will become the price and victims of the CCP’ s absurd policies anyway, and the chief culprit for creating such absurd social tragedies is the CCP.

In October 2019, Chuanbei Prison vaccinated a large number of prisoners. At least a thousand prisoners were vaccinated. At that time, the prison police did not go home for a long time and lived in the prison.

The evil party had planned it long ago.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Could it be that the shelter hospital built before also has something to do with the cover-up of the death toll? A group of people were taken to quarantine, and those who died were dealt with silently. After a period of time, a group of people were released. Others may not feel how many people are missing in this group.

When it was cleared, the information blockade was severe. Because people were locked at home and there were almost no one on the street, it was difficult for ordinary people to know the wider situation except for people they knew well.

I don’t know whether the CCP’s so-called epidemic prevention measures are to stop the virus or the spread of information.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

The winter of 2022-23 will probably be the coldest winter in China in the past fifty years. Before and after the New Year’s Eve, China repeated the tragedy of Wuhan three years ago across the country. There were many mourners, and the lives of millions of elderly people were harvested by the new crown virus. The Chinese society that has lasted for thousands of years is undergoing an unprecedented impact. Another disintegration crisis facing Chinese society. Since the beginning of December 2022, under the high-speed transmission with an R0 value close to 18, the new crown epidemic has spread rapidly from North China to South China like a tsunami. In one month, more than 80% of the people in various cities were infected, and the severe disease rate remained high, but they suffered from the lack of antipyretics, antibiotics, specific medicines and sufficient first aid facilities, ambulances, oxygen, hospital beds, ICU and crematoriums, and even enough funeral vehicles. Especially for the 250 million elderly people in China, the epidemic in the winter of 2023 is like a collective tragedy. Not only have they been unable to obtain truly effective vaccines for the past three years, but they also have to spend the last few days of their lives in the hellish emergency observation room in the face of the arrival of the death harvester. More than 80% of the people in the emergency department are the elderly, who are struggling in the crowded emergency observation room, and the extremely limited oxygen and ventilator become the key to deciding whether to suspend their lives.

Do not believe? Liu Bowen’s prophecy says more:
The sky has eyes, the earth has eyes, everyone has a pair of eyes,
The sky is turned, the earth is turned, and there is no end to happiness.
The poor keep one thousand out of ten thousand, and the rich keep two or three out of ten thousand.
If the rich and the poor do not change their minds, the time of death is just around the corner.
There are no grains in the flat land, beware of the wilderness,
If you ask when the plague will appear, look at September, winter and October.
Those who do good will see it, but those who do evil will not see it.
There are people in the world who have done great good, and it is not worth avoiding this catastrophe.

There are still ten worries in front of me:

One is worrying about the chaos in the world, and the other is worrying about things and starving people to death.
Sanchou Lake suffered catastrophe, Sichou's provinces were filled with smoke,
Five sorrows, the people are not at peace, six sorrows, nine winters and October,
The seven sorrows have food and no one to eat, the eight sorrows have no clothes to wear,
No one picks up Jiuchou's corpse, and Shichou is sad in the Year of the Pig and Rat.
If you have passed the catastrophe year, you will be considered immortal in the world,

According to ordinary mathematics,
The total population of China = the sum of the number of people at each age from 0 to 70 years old. Because the average life expectancy is 70 years, 1.4 billion people, that is, 20 million people of each age. That is, 20 million people reach the age of 71 every year, which means 20 million people die every year. The epidemic has superimposed, and 400 million people died in more than 3 years. That is 130 million more deaths per year. That is, the death rate is 7 to 8 times higher than usual. The business of the crematorium is only 7 or 8 times busier. Before, the crematorium had an off-season and a peak season, but now it is a year-round peak season + overtime at the end of the year. It can be fully digested. People around will not feel so abnormal.

I heard from friends around me that in the crematorium, one furnace burns 6 people together.

For the sake of its own rule and its own face, the Communist Party really wants to spread rumors about everything and dare to cover up everything. It is extremely shameless!

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

If the mortality rate is 1%, it is understandable that about 10 million people died. Unless the purpose of the detection is not to cure, but to be disposed of like chickens and pigs, that is slaughter. If this is the case, many people may have been secretly disposed of, which is a man-made disaster, and of course many people died from secondary disasters. Oh, what is the truth? Why are the Chinese so poor? ! It is the law of heaven that good and evil will be rewarded. Staying away from evil is certainly not harmful to oneself. Auspicious people have their own protection from heaven.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Before the outbreak of the epidemic in China, there was a high degree of discrimination against positive patients and the attitude of killing them all, as well as the government's high degree of inaction after the outbreak, resulting in a lack of medical care for the people and the paralysis of the medical system, all of which made the death rate of the Chinese people extremely high. s reason. The CCP has always made people's lives worse.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

If 400 million people in China really died from this plague, then about 10 million people died directly from the plague, and the rest died from the man-made disasters brought about by the CCP. too terrifying

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

If, as the expert said, the virus is here to clean up and eliminate members of the evil party, then say that in the past three years, 400 million members of the evil party have been eliminated, and another 400 million people have registered for the three withdrawals and obtained the amulet and good citizen certificate, eliminating the 800 million people. People, how many members of the evil party are there? Why is the evil party still running rampant and doing evil all over the world, making all the restless? How much evil power do the real evil elements have? Where are the roots?

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

It' s not that God doesn' t want to clean up the most evil party members at all levels who are still in power and carrying out the orders of the Communist Party at the grassroots level, but there is an overall process. If all these people are cleaned up first, once the Communist Party falls, the remaining people will not have a reflection and understanding During the process, there is no chance of being saved, so you can still see Sima Nan, Fang Zhouzi, He Zuoxiu and other ruffians still performing, the Guangzhou red second generation is still on the road, crushing passers-by indiscriminately to vent their personal anger, and Hu Xinyu being hunted by high-ranking officials Killing and harvesting organs. In these incidents, the people of the world are inspected to see that they are on the side of the clown Sima Nan and some lawyers and government workers. At the same time, kind people are also expressing their opinions, and it is necessary to examine which side everyone is on, good or evil. Only in this way can we protect and save more Chinese people who still have benevolent thoughts.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

In fact, there is another point. The key is that the remaining people have not cleaned up the "substance" and "form" related to the Communist Party. This "substance" and "form" must be cleaned up, otherwise the Communist Party will still exist. When people see these things, There will also be doubts in my heart, and I feel that the Communist Party still exists. Another point is that the evil gang of the CCP you mentioned is not dead or dead, and there may be other problems.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

The problem is that while the CCP exists, it will also harm people. Except for those who need to be investigated, other people will also be poisoned, poisoned by lies, or massacred by the CCP.

A few days ago, I took a taxi out to do some errands. The driver in Henan chatted. Two drivers said that more than 20 people died in their small village recently. They said that their village is not big and there are not many people. When I went home, I saw new graves everywhere on both sides of the road.

In fact, many people died in Henan, but there are few reports.

> The Epoch Times Netizen Published: 8 days ago【 Follow Comment 】

>
> A man in Beijing's "Lianshi Lake" square was jogging in the morning and suddenly fell to the ground and died suddenly. After calling 120, there was no sign of life. His family members rushed to the scene and confirmed that the man was 36 years old. Many, the mainstream media in Beijing did not report.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

I work in the field and often work near the village. In recent years, wherever I go to work, there is a circle of cemeteries. There are so many cemeteries. I wonder why there are so many cemeteries?
There were not so many before. Now that I read what Master Li said, I understand that it is the epidemic that killed so many people.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

My sister said that they all had symptoms, and that they would be fine in a few days. I said it was because the vaccine didn’ t work. She was unhappy and said, didn’ t all other countries have it? Didn’ t many people die in Japan? I asked her how many people die in China every day? How many people are infected? When Japan reported the number of people every day, she was immediately speechless.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Before the plague broke out in mainland China three years ago, if there were 1.3 billion people, the average number of deaths per year would be 15 million to 20 million. During the three-year epidemic, 400 million people died across the country, and the average number of deaths in a year was more than 130 million, which was five to six times or even more than before. The large number of funerals in the vast rural areas and the multifold increase in the number of cremations in urban crematoriums reflect this fact. It’ s just that the CCP has been covering up the number of deaths due to the epidemic in the past three years.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Knowing the truth about the persecution, I respect the Master very much.
Is SARS the same as SARS 20 years ago?
I heard someone tell me that the number is 8 million, but I can't remember the exact number.
It turned out that SARS was 200 million
And this time the virus known as the new crown has caused 400 million, and eventually 500 million deaths, it is terrible.

Epidemic chaos in mainland China: the institutional advantages of singing and dancing and refusing foreign aid

The epidemic is like a tsunami, patients are like embankments bursting, and corpses are piling up into mountains. The CCP is still singing and dancing, and CCTV released the "2023 Spring Festival Gala" on December 26, 2022, with the theme of "A prosperous new era of China, a better life with each passing day". An article on Netease titled "Hot Discussion: The Call for Canceling the 2023 CCTV Spring Festival Gala is Growing Louder" resonated with netizens. There are many obituaries. As a Beijinger, if you still have a trace of humanity, what face do you have to show off the so-called Beijing festival fireworks?" But the NetEase article was quickly removed from the shelves. Not only that, the CCP also refuses the assistance of vaccines, medicines and possibilities for the Chinese people from Western countries such as the United States and Germany. Wang Wenbin of the Ministry of Foreign Affairs of the Communist Party of China said that we have institutional advantages to overcome the epidemic. The CCP also revised the definition of death from the new crown before, making it the country with the narrowest definition of death from the new crown in the world. At the same time, major hospitals in China refused to indicate that they died of the new crown on the death certificates of the victims of the epidemic. The CCP' s so-called institutional advantages are essentially anti-human advantages.

I remember that the number of vaccinations in mainland China is far less than 1.3 billion people, and the actual population is only 800 million. Netizens, can anyone help to find out the source?

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

According to the Chinese government website, data released by the National Health and Health Commission today (June 9, 2021) shows that my country's new crown vaccine has received more than 800 million doses. The people who have been vaccinated with the first dose are concentrated on the second dose of vaccination. At present, the vaccination rate of the first dose of the new crown vaccine among people aged 18 and over in Beijing exceeds 90%, and the vaccination rate of the whole process exceeds 75%. The vaccination rate by 2021 should be 90% of the whole population, so it is estimated that by 2021, the actual population will be about 900-1000 million people. "The Chinese media quoted expert comments and admitted that the current basic population data in China is chaotic, and it is even impossible to find the real number of people born since the 21st century. The reason is that population data is tied to various interests. The so-called "official figures, figures out of officials", Therefore, data falsification by governments at all levels has occurred endlessly, and in the end, the statistical data is far from the actual situation."

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

I think it should be that a lot of people died in Wuhan at the beginning. Wuhan and other parts of the country may have more than 100 million people (at that time, surveys showed that the number of mobile phone users dropped sharply, and crematoriums were full of mobile phones that no one wanted), 2020-2022 In the mid-term, it will be more than 100 million, and after the opening, it will be almost 100 million. Recently, when I searched for "the death of the new crown" on Weibo, many people lost their loved ones, as well as young people, academicians and party members have one obituary after another. This number may not be believed by many people, because the statistics of the CCP are seriously untrustworthy. Looking at the statistics of the CCP for three years, everyone seems to feel that the country is peaceful and the people are safe. If this is the case, there will be no need to build shelter hospitals, and people will not have to be confined at home. up. We can only feel what is happening around us, but we don’ t know how many people like ourselves are suffering. It really echoes the saying, "A grain of dust from the times, falling on a person’ s head, is like a mountain", but no one knows how many such mountains there are and how heavy they are.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

According to the statistics bureau of the Communist Party of China, about 8.9 million people die every year normally. The large construction of shelters in the past few years shows that the epidemic is still spreading on a large scale during the lockdown. Some critically ill patients must have left, but they just don’ t know it.

Over a month after the lockdown was lifted, more than a dozen people died in a certain village in Hebei, and I heard that there were more deaths in Beijing.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

There are more than 2000 county-level administrative units in China, 2000 counties X180 number X365 days = 131400000, more than 100 million.

I personally think that there should be a little more in the article, otherwise it would be unbelievable to see the article suddenly, like in the comments, "over 400 million people died in three years, with an average of over 300,000 a day, there are more than 2,000 counties in the country, and 180 people in each county , so I don’ t feel much. And there are dozens of towns and hundreds of natural villages in a county. It’ s just that more people have died than usual in the past month or so, and the death rate is turbulent. Funerals are seen everywhere in the countryside, and many cities cannot be cremated. Come and line up for a few months."
I used a calculator and calculated that 180 people died in a day in more than 2,000 counties, and more than 100 million people died in a year. There is really no obvious feeling.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

If China’s population is 1.5 billion, there will still be 1 billion people left after this wave of epidemics. reduced by a third.

> The Epoch Times Netizen Published: 9 days ago 【 Follow Comment 】
>
> It should have been less than one billion before it was released indiscriminately

The Epoch Times Netizen Published: 9 days ago 【 Follow Comment 】

Look at a set of crude statistics:

400,000,000 people ÷ 3 years ÷ 365 days = 365,297 people die every day

The total area of China is 9,600,000 square kilometers ÷ 365,297 people = 26.3 square kilometers and 1 person dies every day

The truth about the deaths of 400 million people has been systematically covered up by the CCP!

The recent tsunami-like death tide from the end of 2022 to 2023 cannot be covered up. At present, there are very few Chinese in the circle of friends who do not have outdated news from relatives, friends and neighbors. The CCP couldn't cover it up anymore, and the CCP had no choice but to throw out the death figure of less than 60,000 people. The CCP covered up such a large wave of deaths and funerals again!

> The Epoch Times Netizen Published: 9 days ago 【 Follow Comment 】
>
> It's not exactly three years, it's more than three years. The Wuhan epidemic is at the end of 2019, so there are two months, three years in between, and this month is another half month. The average number of people per day is about 340,000, and 400 million is not an integer. It doesn't make sense for you to calculate the result accurately to a single digit. It is enough to be accurate to the number of people per day.

The Epoch Times Netizen Published: 9 days ago 【 Follow Comment 】

The devil of the CCP has always concealed all the truth and lied to deceive the people. The CCP's media mouthpieces don't have a single truth; the people are not allowed to chat and tell the truth, and the truth is blocked and arrested everywhere.

On the 15th, I was walking with my friends and saw 2 people, but they didn' t come to us. My hair stood on end. My intuition told me that it was a negative substance. It turned out that there were 2 plainclothes policemen, followed by the plague ghost and the bull-headed horse face. The Beijing police were still there. The persecution of Falun Gong, life and death, everything has an animus, Chinese medicine practitioners can really see through the terminally ill people, people are too insignificant.

Here, I would like to wish the compassionate and great Master Li a happy Chinese New Year.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Now many people are still in the ecstasy, dancing with the CCP. The disaster in China has reached this point. I think many people still can' t wake up. They are still optimistic about the CCP. They are deceived by fake news, fake current affairs, and party culture Fallacies and heresies lead the nose, follow the CCP to bad-mouth the West, hate the West, think that more people in Western countries have died of the virus than China, think that the east is rising and the west is falling, and that China is dominating the world, and it has weight in the international arena. Fighting and shouting, dreaming of the Chinese dream, no sympathy, clapping hands when seeing disasters outside, regards Russia and Mao as their own father, and many say that the CCP virus was released by the United States, saying that it was the 2019 military It was released during the Olympic Games, and a formula has been formed in the head, forming a law. If the United States wants to release poison, will it choose the Military Games? It can release poison at any time.

The performance of the nation is like this, how far can it go? Many of the performances no longer have the basic normal performance that people should have. They are incompatible with the people in the normal system society. do what. Therefore, everyone should reflect that on the land of China, countless sentient beings, including me, have more or less original sin, and if there are more sentient beings with original sin, they will form a common karma. Why do you say that there is a common cause? In addition to the fact that the CCP has been rampant in China for so many years, relying on them to instill beautiful heresies and violent rule, because there are still a lot of people under the CCP' s rule who acquiesce to the tyranny of the CCP, and many of them even contribute to the flames. , smearing paint, etc. to work for the CCP, continue the tyranny, follow the CCP to engage in persecution, and engage in sports, so there is a common cause.

Each of us has to look inward, whether we have received materials exposing the truth about the evil nature of the CCP, whether we have ever opposed the CCP in our hearts, whether we have taken actions against the CCP, such as whether we have stood up and spoken out on some occasions in reality To tell the truth, have you ever helped vulnerable groups persecuted by the CCP on some occasions, whether you have done things like condemning the CCP, protesting, etc. Of course, it does not mean that those who have not done these things will never be able to get rid of their original sins , have been burdened with the common cause, and then we will be eliminated by God, but we must realize our own shortcomings, and we must understand that the CCP has been rampant in China for so many years, and it is closely related to the thoughts, views, and actions of the general public. relation. People are different, a few people dare to act boldly, most people are a little afraid, and they also consider family, work, business, etc., so they will not have much resistance to the CCP until a certain step Action against.

Generally speaking, anyone who can wake up to the last moment, realize the evil nature of the CCP, and realize that the evil CCP is the chief culprit of the Chinese people' s disasters in the past century, cherish life, respect heaven and believe in God (now Falun Dafa is the dominant in the end of the law, it is coming Those who save people, always remember that Falun Dafa is good, the nine characters of Truthfulness-Compassion-Forbearance are good, quit the party team, erase the beast mark) Even in reality, there are no specific actions, or there are not many specific actions, maybe God will open the Internet On the one hand, it will not become a funeral object of the wicked CCP.

In the recent period, 70 people died around the streets of a small township in a certain place in Sichuan (not the whole township, but the villages along the street along the road), and the whole town, as early as the end of December, a village director said that they were over 80 years old 129 of the elderly reported leaving (the rural residents are not in a hurry to report, unlike the funeral expenses, etc. that are involved in the unit). It is estimated that 1,000 people have left this town in the past month or so (the coffins cannot be sold).

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

After reading a lot of comments, many people think that 400 million people quit the CCP, and this part of the people survived, and those who died did not quit the CCP. This is not a very rational perception. One person quit the CCP, broke away from the evil party organization, and became a normal person in a normal society. Normal people will be born, old, sick, and die, reincarnated according to karma, but the primordial spirit is no longer under the control of evil spirits. People who have withdrawn from the CCP will also die naturally when their destiny has arrived.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

After the three retreats, they will also experience normal birth, old age, illness and death. What I know is that I am waiting for reincarnation in a space. Time can be long or short. Both my parents were dissuaded by me before they passed away. It is normal to be sick and die.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

My father practiced Falun Gong for a short time before, but because of his heavy atheism and various reasons, he finally gave up practicing. Before his death, he quit the CCP. After his death, I dreamed that he held a Dafa book and told me that what Falun Dafa teaches is true, and I am learning it every day here. It should be in another dimension, not under the control of evil spirits, but under the control of Buddhism.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

People who quit the CCP will also die of old age and disease. It cannot be said that those who withdraw from the CCP will become gods and will never die. Withdrawing from the CCP is the redemption of one's soul, and the evil spirits will no longer control them after death.

Those who did not receive chemotherapy, hemodialysis, surgery, etc. during the epidemic have left. Does it count as the epidemic? Maybe count this guy.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

It's all counted, there are also children who have a fever and have no nucleic acid negative certificate and cannot go to the hospital for emergency treatment, and adults die of illness at home or children starve to death at home in the hospital. Was charged with jumping to death. Those in Xinjiang were welded to death in their units and burned to death in a fire, and those in Guizhou were forced to quarantine in the middle of the night and dragged into a bus that overturned and died on the road. Many, many are not included in the statistics of the CCP. Stalin said that the death of many people is a number, but the CCP has developed that the death is not included in the statistics, and many people are not included in the statistics. In the other three years, not only people were banned, but many pets were also taken away and killed forcibly because their owners tested positive. Some pets starved to death at home when their owners were locked down. When Wuhan was locked down, people outside the city couldn’ t go home, and pets at home starved to death. At that time, there were volunteers who went to those people’ s homes to help the owners unlock and feed the cats. dog. The last time a news reported that when Chengdu was closed, the stray cats adopted by the owner in the office could not be fed because the owner was sealed at home. The cat was pregnant. It survived for more than ten days by eating a box of instant noodles in the office and gave birth to a litter. Kitten, without this box of instant noodles, mother and child will starve to death. In addition, my cat was also locked down and went to the pet hospital too late and was not rescued. The doctor said that there was another cat who had a heart attack and couldn't leave the community for rescue that day. Only the next day, he got a ticket to go to the hospital, but he couldn't be saved.

I don’ t quite understand, there are not many people who have died around me, is it possible that some of the 400 million people still live in this world with a layer of human skin? process?

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

In fact, those who died were mainly middle-aged and elderly people. This is because the new coronavirus kept mutating after Wuhan pneumonia. Once it was infected, some people saw that they were cured on the surface, but they were actually latent. Some developed to the heart, and some developed to the brain. Careful people can find that many young and middle-aged people died suddenly in Wuhan, some died while running, some died while playing ball, some died while going to work, and some old people died while dancing. People died after square dancing or taking part in some red song competitions. This kind of situation is very common after Wuhan pneumonia. In fact, nine out of ten deaths are caused by the sequelae of the new crown.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

No, so many people really died.

When I first saw that 400 million people had passed away, I was also a little confused. I felt that not many people died around me? But I did a rough calculation just now: I usually don’ t have many contacts, but in the past six months, the deaths I know There are nine of them, all of whom are close relatives of my friends and acquaintances. Some were dragged away because of the blockade before the release, and there was no way to see a doctor, and most of them left after the release of the epidemic.

But I don't know what happened half a year ago. I was illegally imprisoned by the CCP for two years.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

That’ s right, sealing off the city will make it impossible for people to see it, and family members are not allowed to drive out, and you can’ t even call for a taxi when you go out. When you are in danger, you will be asked to go out 120 to pull others. It takes a long time to get a taxi. If you have a car, you can go faster. In the actual closure of the city, private cars are not allowed on the road at all. Maybe they were stopped by the traffic police and said that they might let the urgent patients go, but there is no 24-hour and 48-hour nucleic acid at the entrance of the hospital and they will not let you in. , You have to do it in the hospital. In this way, the delay in seeing a doctor during the three-year lockdown could have saved lives, but many died.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

What have Dafa disciples been doing? It is to save and rob people! Moreover, Buddhism says that "Buddha's light shines everywhere, and rituals and righteousness are perfect." People around Dafa disciples and people in the same unit will benefit to varying degrees. That's why fewer people around Dafa disciples die. This is also an important reason.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

A friend with supernatural powers said that Yan Wangye has been busy for a long time: preparing to accept people. Hell keeps expanding.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Lord Yama is held by high-level beings and is replaced regularly. Hell is equal to the world he controls, and he can have whatever he needs.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

That may be casually said, the space of hell does not need to be expanded. The human soul does not occupy the so-called space. Those who write down with evil beasts will be directly sent to the gate of inanimate, which is already beyond the scope of hell.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Those who died from the plague all had the seal of the beast. They were tortured in the underworld thousands of times.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

How do you know it's casually saying hell doesn't need to be expanded? There are substances in that dimension in hell, and there are also substances in that dimension when the soul is tortured there. Why is it not called not occupying space? People have supernatural powers, but you and I don't, so don't use your own imagination and guesses to negate them casually.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Yin and Yang exist in correspondence, as the Yang world is, so is the Yin world. The underworld within the Three Realms covers the entire solar system. Don't say that there are only 7 billion people on the earth, even 70 trillion people can fit in the underworld. The so-called supernatural powers are just nonsense. Using human thinking to think about space. There is only one gate of lifelessness in the whole universe, and the time of suffering when entering it is endless.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

So do you have supernatural powers, can you see the underworld, you use your ideas to infer others must be nonsense? The situation in the underworld that others have seen, how can you deny others casually? If you have seen it, then please also tell us about the situation in the underworld, everyone judges, some people believe you, maybe some people believe what he said, instead of just denying others is nonsense. According to a book I read about the underworld, it is also said that the underworld is based on the situation of holding the yang world, and some things must be built accordingly. . For example, there are more people driving in Yangjian, and those drivers don' t care about other people' s lives, driving recklessly, speeding, drinking and driving, looking at mobile phones, opening doors indiscriminately, leading to car door killing, and crushing small animals, etc. These new car accidents cause karma. In the underworld, there should also be corresponding penalties for car accidents.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

What you are talking about may not be the same thing, the underworld does not refer specifically to hell, hell should only be a small part of the underworld. So it's probably true that Hell in the Underworld needs to be expanded.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

People read it! Think about the realm of God in this way.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

It is not known whether Lord Yan is busy or not. In the human world, more and more people have been burned to death in crematoria in various parts of China than before the plague, which was several times or even close to ten times higher.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Assuming that China's population was 1.3 billion before, and now the number of deaths due to the epidemic has reached 400 million, that is to say, the death rate has reached 30.769%. And this wave of epidemics will kill 500 million people, which means that the death rate of the epidemic will eventually reach 38.46%.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Generations of people thank Master Li for telling the truth (the real death toll of the epidemic in China: 400 million)!

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

There is mourning everywhere, and human tragedies such as family mourning are emerging. The sorrow of the Chinese people now is not the sudden death of millions of old people, but what happened after them. Funeral parlors and crematoria everywhere are overwhelmed. From North China to South China, crematoriums all over the country are operating at a load nearly ten times higher than usual. The average daily processing of Shanghai Longhua Funeral Home has increased from the usual dozens to more than 200, and the average daily processing of Beijing Babaoshan is close to 1,000. Ordinary families have to stay at home for many days. It has become a luxury to hold a farewell and memorial service for the deceased old man and have a separate cremation. This is the first wave of impact on Chinese social structure and traditional ethics. For more than a billion living people, the greatest dilemmas they face are not just the shortage of medicines and medical services, or the pain of the death of a loved one, but the chaos of all this is beyond their experience. The quiet changes in the political situation in the past ten years, and the rapid changes in more than a month, have finally told the Chinese people what is meant by a major change unseen in a century, throwing them into unprecedented acceleration and turmoil, and then falling into a daze at a loss. Just like today’s wards around the world, patients who are lucky enough to have a bed no longer see the common political discussions in the past.

Twenty-three years ago, Dafa disciples began to clarify the truth and save people, but they were persecuted by the CCP, and some of them had their organs harvested.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

This data is not much different from my original estimate, so I am not surprised. It is only now that I know that Sara killed 200 million people 20 years ago. I remember that the death toll reported by the CCP at that time was only a few thousand. According to the data given by Master Li, after the end of this wave of epidemics and the addition of sara, the total population of China should be only 700 million people. The two waves of plague have taken away half of China's population! The CCP will not say it even if it is killed. It is estimated that the actual data itself is a mess. Master Li gave this data today to restore the truth, and it is estimated that only he can know. But speaking of it, this statistic is scary. I told this to my colleagues just now, but no one believed it!

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

The virus has sequelae, it is still lurking in the human body, and it is impossible to know whether it is SARS or the new crown when it recurs, so many sudden deaths after Wuhan pneumonia, they all thought it was a heart attack, but in fact it was myocarditis caused by the new crown or brain disease.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

People are just people. Human cognition, human cognitive ability will never know the fundamental truth. Cherish the mercy bestowed by Dafa! Whether the Chinese can stay while accepting the truth depends on their own destiny!

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

There is also a large number of births.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

From 2003 to 2022, China's annual birth population will average about 15 million per year according to the CCP's data.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

"China's current total population should be only 700 million people left," Hehe, haven't you been born in so many years? How could there be only 700 million left? There are dead and alive, and the absolute number will not drop by 700 million.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Master Li said in his previous Fa lectures that the 1.5 billion people in China,
Therefore, after the two waves of COVID (end) and SARS, the remaining 800 to 900 million people

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

I have never understood why it is 100 million more than the statistics. Could it be black households and people who went abroad?

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

When the population statistics of more than 1.3 billion are announced, the mainland has a population of more than 1.5 billion!

A very important reason for the underreporting of the population is that although many families in rural areas have already given birth to several girls, in order to have a boy, they still have to give birth until they have a boy. When reporting the number of people in the family, in order to avoid being punished or trouble (as the Chinese understand), the number of people in the family should be underreported. For example, after giving birth to 3 girls and finally giving birth to a boy, then report that there are 2 children in the family. . . . This is a statistical report that our mentor told us when I was still in mainland China in 2014. We also discussed at the time: It turned out that the story of the skit "Super Life Guerrilla" was still happening in the countryside. . .

Therefore, 400 million deaths are not one less than three people in static calculations, but dynamic numbers, one less than four or five people on average. Because many people were born in these years.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Master Dafa has led his disciples to save people for more than 20 years. All Falun Gong practitioners know that this day will come. In order to allow more Chinese people to survive, they are under tremendous pressure to tell the truth to the people.
The CCP has been deceiving people until death, but those who know the truth will not be fooled by the CCP again. Master Dafa is merciful and told people the real situation of the epidemic in China. From now on, the 100 million people who die will be chosen by themselves. How stupid, how stupid, to sentence Zizi to death.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

In the past three years, the CCP has invested a large amount of medical insurance funds including trillions of dollars and a large amount of resources on the route of zeroing out, conducting nucleic acid for the whole people, building square cabins everywhere, and employing a large number of people to carry out hard isolation, hard sealing and control. Epidemiological investigations, and the high-quality vaccines and effective drugs that should be urgently needed for the fight against the epidemic itself, including ICU, ventilators, and all the necessary medical resources to deal with the epidemic itself, are almost unprepared. This is one of the most fundamental reasons for the run on and lack of medical resources. This responsibility is undoubtedly mainly borne by the CCP.

Heaven destroys the CCP, quits the CCP and saves lives

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

This is the catastrophe pointed out by many sages and wise men in different periods of history, from different nations!
It is completely caused by the upside-down of human society. Good and evil, good and evil, history, morality, conscience, human nature, and belief are all distorted and desecrated! Monsters live in temples, good people, good people among good people, Dharma practitioners, guardians of the foundation of human morality, practitioners, slandered, persecuted, imprisoned, killed, and organs harvested alive! Apart from human skin, how many real people are there in this society? Soaking in the cesspit of evil for a long time, soaking under the flourishing skin of lies, has long since completely distorted good and evil, good and evil, which should be extremely easy to identify! I only have interests and desires in my eyes, I live my life, and I don’t care about others; what other countries do; let history pass by; what’s the use of thinking so much; atheism; what you can’t see is superstition;... .....
In this way, the wrath of the heavens and the wrath of the heavens have been summoned by us!
Our ancestors have always told us that under the sky where we can never see the whole picture, our humbleness and insignificance are not changed by power, wealth, including the current technology!
However, we idiots think that with the mobile phone in hand, we know everything and can do everything. In reality, viruses that we cannot see have slapped us in the face countless times. Not only now, but in human history, there is no one time that human beings can resist, prevent, let alone Victory of idiots!
This is what the extremely high, extremely high Great Enlightenment said: Anyone who does not believe will come! !

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

"If people don't believe, they will all come." This is a poem written by Master Li Hongyin, the founder of Falun Gong. There is no word "the" in it

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

The dead have reached this point, don't you believe it! Where does the human head go?

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Does the word "unbelievable" mean disbelief? It can also be an exclamation, understand?

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Others are expressing their feelings, and they don't say they don't believe it. Can they understand the meaning of the sentence?

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

In three years, 400 million people died, many of them died from other diseases caused by the CCP’s fake vaccines. These people also died because of the epidemic.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

The God of Plague is the God of Death, who is here to collect the souls of those who do not believe in God and slander God. The Communist Party is atheist, one cannot be missing, and all souls will be destroyed.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

I'm in the mainland, China is too big, 400 million people died, and I don't feel it at all, it's really unbelievable.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Ordinary people can't get the overall statistical data, they can only see a small area around them, even if they feel the tragedy around them, they usually think that only their own area is serious, and other places may be fine, so 400 million will feel incredible.

There is no need to look at the statistics for the words of the saints, because there is a certain number of rosters in the sky (the virus came from the CCP), and unless you quit the party, you can change it temporarily, otherwise you can't escape what is set.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

If the next wave comes, you should feel that there are fewer people!

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

It's hard to say, people who don't believe will think that people can't come out at home, or that there are quite a lot of people and lively when you go to the scenic spot.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

It should be that the remaining 100 million people feel that the number of people has increased rapidly.

The Epoch Times netizen [following comment]

The remaining 100 million should be given published time: 7 days ago to the CCP's party, government, and military governments at all levels, public security bureaus, procuratorates, courts, universities, middle schools, primary schools, provinces, cities, autonomous regions, municipalities directly under the central government, etc.
As long as they are eliminated and died in the plague, the CCP will naturally collapse and disintegrate,
This is probably "Heaven destroys the CCP".

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

The Chinese government has never been aggressive!

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Said it right! But to be precise, it is the CCP government. The CCP has been like this for 73 years since it usurped power!

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Thanks to Master Li Hongzhi for mercifully telling the truth to the world. Under the guidance of Master Li, Falun Gong practitioners have been clarifying the truth and saving people for more than 20 years. Recite the nine-character mantra in your heart to get protection: Falun Dafa is good, Truthfulness-Compassion-Forbearance is good! I hope the Chinese people will wake up quickly and spread these ways of self-help: 1. Publish a statement on the Epoch Times about quitting the party, the team and the league; 2. You can post the statement of quitting the CCP and CCP in an obvious place outside (you can use a pseudonym); 3. Loudly Shout out "Down with the CCP Devil".

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

That's right, let's add some more: Those who have albums of the CCP's logo, Marxist-Leninist-Maoist books, and photos of Jiang Toad's portraits at home can be burned in a safe place around the open air without combustibles. If there is no condition, you can also burn these The Communist Party's filth is thrown into the cesspit, the sewer. The toilet sewer in the city is not working and will be blocked. Or throw it on the road for everyone to step on. One foot per person.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

What Master Li said is a secret and the truth. What Falun Gong disciples say, "Heaven destroys the heaven and the communist party, quit the three ways to save life" is also true, and it is happening now.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Those who don't believe it don't know, not to mention people all over the world, even animals all over the world. The king of Hades is in charge of the data. He records who, what animals, when and why they died, in an orderly manner. And Hades will report these numbers to the Heavenly Court, and these numbers are extremely accurate. It far exceeds the efficiency and accuracy of the CCP census.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

People who have been brainwashed by atheism may not believe what Master Li said, but whether they believe it or not, the plague is God's way of weeding out members of the evil CCP and those who believe in the lies of the evil party. Quickly withdraw from the CCP, regiment, and team organizations to avoid being eliminated. Those who can survive will know that every sentence Master Li said is a secret.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

China has gone from three years of extreme blockade to full liberalization, and the scene presented is from disaster to disaster, from man-made disaster to man-made disaster. The three-year blockade, that is, the extreme clearing and the extreme closure of the city, caused a large number of Chinese people to die of depression, starvation, jumping off a building, not being allowed to see a doctor, overturned, burned, etc. After they were suddenly released, they suffered from insufficient medical treatment. , Insufficient medical care, lack of medicines, ineffective vaccines, etc. have caused a large number of people to be infected, have fever, become seriously ill, and die. The so-called epidemic prevention and anti-epidemic, in China, is from one catastrophe to another catastrophe.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Whoever believes in the CCP on any issue will die on this issue

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

With the help of Yu Maochun, the Americans finally understood that the Chinese people and the Communist bandits are not the same thing! Obediently! It's not easy. It's a pity that I took 70 years to understand what I thought I should have understood in 1950. Would it have taken 20 years to realize this without Yu Maochun! It can be seen how hateful Nixon and heartbreak are!

The first thing I saw "The CCP is not equal to China" was the banner slogan in the Falun Gong parade.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

This was first told by the founder of Falun Gong, about 2006 years ago.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Listening to Caijing's cold-eyed summer, it was said that Japan and Russia only had 800-110 million Chinese people based on the amount of salt they ate. One of my neighbors had white lung. During the rescue, two members of a family died. I can't believe so many people died. May President Xi take good care of himself, and explain to the Chinese people in the future why he knew about the virus in November and December, and why he concealed it. Is it deliberate or ignorant?

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

This is the reason why the ancient imperial courts controlled the sale of salt. It can only be sold officially, called official salt. In fact, it is not for the monopoly of selling high prices, but to measure and control the population through salt.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Many people are used to washing and pickling vegetables with salt, and the actual consumption should be even less than his data, so the number of Chinese people is less than 800 million.

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

Russian expert Viktor Mikhava pointed out that China's grain production and import and export data show that China's population cannot be the 1.5 billion people officially announced. According to Russian media reports, the total population of China' s cities is only 280 million; according to the practice of "half the population of urban and rural areas", China' s actual population should be around 500 million. Even if China' s rural population is larger, this figure will not exceed 800 million.

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

https://www.epochtimes.com/gb/21/8/6/n13143176.htm

This article, published last year, mentions:
In the middle of this year, another even more shocking report appeared, saying that the Japanese used the consumption of salt to estimate that the population of China has dropped sharply in the past ten years, and now it is only 800 million, which is even more sensational.

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

Old people die in large numbers, the CCP saves astronomical pensions

Assuming that the monthly pension of a deceased old man is 5,000 yuan, and the annual pension income is 60,000 yuan, the pension fund will save 60,000 yuan because of the death of the old man. Assuming that 10,000 old people die due to the epidemic, the pension fund can Save 600 million yuan in expenditure. If 100,000 of the infected elderly who died across the country had pension benefits, then the annual pension savings would be 6 billion yuan, which can be said to be an astronomical figure.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

It's not saving, but the black hole will shrink if you don't continue to be greedy.

Heaven destroys the CCP is the ultimate, you know that!

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

In the past three years, "a big country fights against the epidemic, clears it, and seals it down." Far more than 400 million people died, not including depression and jumping off a building, death due to lack of timely rescue of nucleic acid, starvation to death due to the closure of the city, and being "understood" "Beating to death... If the blockade is not lifted in time, it would be great if more than one billion Chinese can survive 100 million. After the blockage is lifted, because of the three years of tossing, the CCP forced people to vaccinate with inferior fake "vaccines" and created Countless "big white lungs" ushered in another peak of death, comparable to the "family planning" of the bloody dwarf Deng Xiaoping, the king of demons, Lu Ning, has made great contributions!

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

When the Wuhan virus broke out, it was at a peak. The death toll in Wuhan and Hubei could not be counted. The virus spread to many cities in China, and there were sudden deaths on the streets in these cities. The CCP said it was a coma. In addition, there are many deaths at home or in hospitals, and children who are left unattended at home starve to death. The virus has been developing in the past three years, and there are news of sudden death from time to time, all of which are related to the heart, blood vessel and lung diseases caused by the new crown. Others include those who jumped from a building during the lockdown, were burned to death by fire, and died in a car accident when the entire building was taken away for isolation, and the funeral procession was crushed to death by a large truck in the middle of the night because of the queue for cremation. The number of deaths from the epidemic in the past month or so is very scary. You can learn from the headlines of the Chinese Communist Party on Douyin that many of their relatives, friends and colleagues died of the new crown. These death tolls have a clear account book with the king of the underworld, which is definitely beyond the comprehension of these CCP officials trained by the CCP's atheism.

The sky will destroy the CCP, and the three withdrawals will save lives.

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

Thank you Master Li for your warning! At present, the only way to report peace is to withdraw from the CCP! ! !

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

The second wave of the epidemic in mainland China started yesterday, and the internal notification of the CCP started on the 18th. It was two days earlier than the CCP asked someone to read it. Last night all my friends who had passed the sun all got back to the sun. And the condition is worse than the first time. I found that 80% of the people who were eliminated in the first wave of the epidemic were people over the age of 75. China's aging is particularly serious. By the end of 2019, people over the age of 70 accounted for half of the country's population.

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

You are wrong, the elderly population in China accounts for 18.9%, not half

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Isn't the population structure of family planning the ratio of 1 child, 2 adults, and 4 elderly people? !

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Half of the old people have underestimated. I am 60 years old and have a son. The son is married, and the daughter-in-law is also an only child. My in-laws and my wife are about the same age as me. That is to say, two young people have to manage four old people. There are many such families in China. When I am 70 years old, even if my son and wife have two children, they will be equal to the number of elderly people.

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

Vaccination is not only ineffective in preventing the epidemic, but also has a counterproductive effect. The CCP vigorously promotes it

On August 30, 2020, China Business News published an article signed by Qian Tongxin "Exclusive verification: the immune response of the new crown vaccine may lead to aggravation of the disease". World - because once it is confirmed, it is tantamount to a death sentence for China's new crown vaccine! The CCP' s public control mechanism was activated immediately. While ordering Yicai to delete the article, Qian Tongxin was ordered to change his position and rewrite the article, which was in line with the CCP' s propaganda. So on August 31, 2020, Qian Tongxin's "Exclusive|Experts Respond to the New Crown Vaccine Risk: ADE Has Not Been Determined" appeared. Forced to change roles and slap themselves in the face, but mainlanders know that this in itself is slapping the CCP in the face of manipulating speech. To clarify, ADE is the abbreviation of Antibody Dependent Enhancement (Antibody Dependent Enhancement). ADE will make the new crown vaccine lose all positive effects, become an accomplice of the virus, and become a pure toxin. It is precisely because of the CCP' s intervention that the ADE of Chinese vaccines "disappeared". In December 2022, the epidemic swept across China like a tsunami, and the number of infected people exploded. The number of people who were not infected became very small. The domestic epidemic in this wave not only spreads extremely fast, but also the condition is very serious, with many severe cases and many deaths.

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

The CCP is evil, but there is no need to exaggerate things, it will be self-defeating, and the truth can save people!
Since the plague was arranged by God, then who gets the plague, and who gets the severity and death is also arranged by God. It has nothing to do with the vaccine. It is the evil of the CCP that allows some people to vent their hatred in it, so they talk about the vaccine , Let's be more sensible!

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

The CCP vaccine has been harming people for a long time, and it is not just this time.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

Yes. In 2003, SARS caused a large number of deaths in China, and the CCP concealed it seriously, but if it is said that 200 million people died, people would not be able to observe it; in 2020, Wuhan pneumonia, the CCP concealed it seriously. , but the largest estimate is that about one million people died, and at the end of 2022, the CCP failed to block and control and changed to lie flat. Based on observations, many people estimate that the number of deaths from the CCP virus in the mainland is about hundreds of thousands every day. Between 5 million and 15 million people died from the disease. If it is said that 400 million people died from the CCP virus in the past three years, it is inconsistent with perception. Therefore, it is difficult for people to accept the data of hundreds of millions. Not only is it brainwashed and deceived by the CCP, but it is also inconsistent with the observations around them.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

It was not concentrated in 2003, but in the more than ten years since Wuhan pneumonia, the incubation period of the virus can be very long, and human technology has not been able to detect it, and the nucleic acid cannot be detected if the amount is lower than a certain value. But once the mutation affects a certain organ, the person died. The hospital thought that the person who died was actually a SARS variant.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

That's because you didn't observe carefully. Have you not noticed that more and more young and middle-aged people have died suddenly since the outbreak in Wuhan? Most of these actually died from the sequelae of the new crown, not in the last two months.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

God arranges, and the world also has worldly manifestations.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

You are right, although deep down it is God' s arrangement, but when it manifests itself in humans, it is a man-made disaster

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

As long as you read Toutiao frequently, you can find that many netizens recently said that family members, friends or colleagues died of illness. Before this epidemic, after the epidemic in Wuhan, careful netizens can often see news of sudden death of so and so. These are all Most of the sequelae caused by the new crown are related to the sudden onset of myocarditis.

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

From another perspective, who are the risk groups?

They are people who usually have superior medical resources and basically rely on drugs to resist diseases. Because the Chinese medical community has not fully understood the virus this time, and without research to understand it, it is impossible to really prescribe the right medicine to achieve the cure of the disease. Anyone who can survive now is a person with good immune ability, because this kind of immunity is the ability bestowed on human beings when God created them. The defense against various viruses is all-round, and can even be adjusted and improved, so These people recover from symptoms after a period of time.

A truly healthy person must be a person who is physically and mentally healthy. As a person, "the heart must be upright" (the most upright is 'Truthfulness, Compassion, Forbearance'), people who are full of evil thoughts and things of the evil CCP are the most dangerous.

I hope that all Chinese compatriots must really pay attention to this issue.

I wish you all peace, health, happiness and happiness!

All survivors should be grateful to the great Master Li Hongzhi for his compassionate salvation.

The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】

> The superior medical resources of the elites of the CCP are not high-end drugs. They rely on other people's healthy organs and young blood to live so long. In other words, their lives are robbing others.

> The WHO took money from the CCP

The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】

Falun Dafa is good, Truthfulness-Compassion-Forbearance is good! Falun Dafa saves people in the last days of mankind! The CCP is an evil anti-human devil. The CCP is evil, heaven will destroy the CCP! The broad masses of people quickly recognize the evil truth of the CCP, and declare that they will withdraw from the evil CCP organization and stay away from the CCP. I have long since realized the evil truth of the CCP, and I have announced the withdrawal from the CCP long ago. Therefore, in the past three years since the plague, I have never been vaccinated, never tested for nucleic acid, and never been quarantined. Although I live in mainland China, my normal life is basically unaffected influences. Therefore, those who are struggling to survive under the epidemic should realize the truly effective anti-epidemic measures. In fact, in the three years of the epidemic, there are still many people who have not been vaccinated, have not done nucleic acid tests, have not been quarantined, and have never tested positive, because all these are in the Under God’s control, God can ingeniously arrange for the plague infection to eliminate those who should be infected and eliminate those who should not be infected and basically remain unaffected. What kind of people should be eliminated by infection? They are the members of the evil CCP’ s party organization, and those pro-communist elements at home and abroad who think the CCP is good and give benefits to the CCP’ s defense.

> The Epoch Times Netizen Published: 10 days ago【 Follow Comment 】
>
> I didn’t get a single shot of the vaccine and I’m fine. I have thoroughly recognized the evil nature of the CCP, and I have already completely broken with it.
>
>> The Epoch Times Netizen Published: 9 days ago【 Follow Comment 】
>>
>> I have never been vaccinated. Although I am also a low-level employee, I have long known the evil nature of the CCP and the fact that vaccines are used by the CCP to trick people. Elderly people who can’t move and have trouble walking have also been vaccinated. The unit asked the employees to beat them several times, but I didn’ t go once. The lists of those who were beaten and those who were not beaten were handed over to the neighborhood committee, and the neighborhood committee was asked to do the finishing work. I started to say high blood pressure, but it can’ t be used as an excuse at this time. Later, I said that the vaccine is not good, and I get infected after a lot of shots, but it can’ t be used as an excuse for them. Finally, I emphasized that the country has said that vaccination cannot be forced. It was voluntary, but in the end they had no other choice, so they asked me to write a letter of commitment, which stated that they would be responsible for the consequences if they did not get vaccinated, so that they would be able to deal with it easily and have a step down.
>>
>> In fact, my health is not very good. For example, when I catch cold in winter, I will have a slight cough and a slight fever. It’s coming, and many people around are infected. Whether I am infected or not, in short, there is no problem with my body, as usual. At present, the power of the CCP virus here is not as strong as in some places. Most of the people who leave are old people with some underlying diseases. Young people rarely leave. At present, none of the young people around, including relatives, friends, etc., have left. But the CCP virus cannot disappear in a short time, and it is hard to say later, it is all arranged by God.
>>
>> I have read the truth-clarification materials about Falun Dafa and other Dafa materials more than 20 years ago, and I believe what is said in them. Party members and sentient beings who believe in the CCP’ s oblique teaching will encounter bad things. As early as 200 years ago, I asked the local Dafa practitioners to help me quit the party team with my real name on the Epoch Times website. I once joined the party team when I was young and ignorant. In the past few years, I have also talked to some of my acquaintances about the evil nature of the CCP and Dafa’ s ability to save sentient beings. I told them to quit the CCP and remind them that Falun Dafa is good and the nine words “Truthfulness-Compassion-Forbearance” are good. I also helped some acquaintances around me quit I have joined the party team, but the number is small, and many of them don’t believe it. Some even say that I like to speak reactionary words and have radical ideas, etc., but I don’t talk about these things with everyone I know.
