

# REPORT A MISSING CHILD

## How V4CR Helps Find Missing Children

### 1. Referrals

Through a referral process we support local law enforcement by providing enhanced intelligence and operational capability.

### 2. 'Missing Child Reports & Investigations'

In addition to reporting a missing child to the police, we operate a public interface that allows ANYONE to report missing children or any concerns.

### 3. Proactive Investigations

In addition to the Missing Child Reports and Investigations process, our team **proactively searches** for children who are missing and their absence has not been reported. Our team gathers evidence and collaborates with the relevant authorities to legally extract them.

### 4. Recovery & After-Care

Ongoing care after recovery focuses on the needs of the individual child. This can range from family reunification and post-traumatic therapy to long-term care through our foster care network and everything in between.
