

FREE SERVICE PREVIEW

One Shopstr listing, rewritten for buyer trust.

This shows the shape of the paid 24-hour audit: search phrase, buyer promise, Shopstr/NIP-99 fields, delivery clarity, and promotion copy.

Paid sprint deliverables

The buyer sends a live Shopstr URL, Nostr product event, or product idea. I return a Markdown rewrite pack.

- Search-ready title and first-line rewrite.
- Buyer-facing summary with proof and delivery boundary.
- Shopstr/NIP-99 field map: price, location, shipping, tags, status, and image notes.
- Thumbnail critique or direction for a square product image.
- Nostr promo note and buyer DM / fulfillment reply.
- Top three conversion risks with exact fixes.

What makes it harder than prompting?

Shopstr-specific fields	94/100
Buyer trust checks	91/100
Delivery friction removal	88/100
Reusable seller judgment	86/100

Sample before

Shopstr Seller Launch Kit

For sellers who want better listings.

Includes templates, copy, and thumbnail generator.

Sample after

Shopstr Seller Tools Launch Kit: Listing Lab + Thumbnail Generator

Seller tools for Bitcoin-native creators, service providers, and merchants who want a trustworthy Shopstr listing without figuring out copy, images, Nostr tags, and fulfillment messages from scratch.

Includes a local listing lab, square thumbnail generator, NIP-99 field map, Nostr promo draft, buyer DM replies, and delivery-message templates.

Sample field map

title: buyer/search phrase + concrete deliverable

summary: first two lines explain who it is for and what changes after purchase

price: amount + currency, with no hidden shipping

shipping: N/A for digital or service delivery

location: Online

image: actual product/workflow preview, not generic art

t: Services, Digital, shopstr, nostr, seller-tools

status: active

delivery: buyer sends listing URL; seller returns Markdown audit within 24 hours

Good fit

Sellers with a live listing, a digital product, a service, or a product idea that needs clearer buyer-facing copy.
