This report is dedicated to those mighty goats who fight valiantly for the freedom to speak their mind.
The following photo montages are of White women who became involved with blacks and paid the ultimate price for their stupidity. I can’t entirely blame them, however, since media is continually filled with miscegenation in some kind of blatant attempt to brainwash the Aryan race into breeding itself out of existence.

These foolish White women were stabbed, slashed, shot, strangled, smothered, sluggd, stomped, burned alive, and had their faces and heads bashed in by whatever hard object was convenient. It happened to them because the black animal went bonkers about something his low ‘IQ brain’ could not understand and so he had to murder “dat whyt bich” to prove he was still a man.

Of course, it is sometimes not enough that these foolish women get themselves murdered by their own stupidity. What is worse is when the violent apes run off and slaughter the woman’s White friends and relatives, who are arguably innocent in her mudsharking foolishness.

Data from way back in 1985 revealed that White women are 1240% more likely to get murdered by a significant other who was black than one who was White. What is interesting is that the numbers of interracial white male/black female murders is practically nonexistent. Unfortunately, it is much worse today.

In the following images, it is important to note the poor quality of many of these shots (or no shots at all). That is because the traitorous media avoids as much as possible any coverage of black-on-white crimes, and people like me must do whatever they can, like enlarging tiny shots, using anonymous silhouettes, or pixellated screen captures of local news video. Many of these photos come from internet obituary sites, which for taste purposes, never mention just how the person met their untimely, violent end, though their names can be cross-referenced with the news reports.

You might have noticed when the reports these crimes, they often refrain from showing both the black criminal and the white victim in the same story. They greatly abbreviate the trial coverage and report as few gruesome facts of the case as possible. Sometimes they even white-wash the victim’s race in a censored photo. All of these tactics are intentional for the purpose of preventing whites from realizing how murderous blacks are. Still, you can figure out the real deal by reading the local stories when you find them.

You probably don’t have a clue all this is going on, but blacks viciously murder White people **ALL THE TIME.** Please remember while scrolling down, that these are only a few of the White people killed by blacks in recent years (since the year 2000, go to the end for link to a few before). It is estimated be 1500 to 2400 per year, or over 103,000 White Americans to have been murdered by blacks since 1972. Think about this when they scream “black lives matter!”

Each of these White people had lives, friends, family and loved ones — just like you. They died painful, often incredibly brutal deaths at the hands of violent blacks and now rot the ground with barely a whisper in the media — a scurrilous, left-wing media that has long worked hard to keep us White people in the dark to the real-life mortal dangers of this criminal, totally uncaring race.*

**NOTE:** ALMOST ALL OF THE WOMEN BELOW ARE NOT MURDERED MUDSHARKS! These are just poor white victims whose only mistake was living in a nation that tries to integrate black animals with its people. Unfortunately for whites, they are the only people on this planet who are not allowed to have their own nation with their own people. Africans have nations which are allowed only Africans; jews get a nation with areas where only jews are allowed; asians have nations where only Asians are allowed, but not white nations. Whites are required to live next to these black apes, and as a result, they must pay for it with the lives of their children and women.

Some of these photos required some degree of effort, for instance, you can’t even find any photos of the 1998 Amarillo killing of 3 White kids at a sleepover by a random black crazy who broke into the house (bottom right of the third panel down). Two of the shots were resurrected using techniques akin to server hacking. The other was from an obituary site.

I write all this because the media obviously cares nothing about White victims — if the perp is black or non-White “people of color.” It really is us White people who are the victims and not the other way around.

Ashley’s find a grave memorial.

Attacker: James Christopher Miley

Ashley's body was found near the St. Marys waterfront. Investigators said her throat had been slit and her face mutilated. While they said they were not certain of a motive, investigators said Mr. Miley likely was frustrated because Ashley would not date him.

Detective Sgt. T.J. Sievers said Ashley was hacked to death with a jagged weapon. Her body was found Sunday after residents of a nearby subdivision called police to complain about vultures in a wooded area. Her face was mangled to the point where a family member could not recognize her.
