

SPECIAL SECOND 4CHAN MAHJONG SOUL TEAM INVITATIONAL SHOWDOWN

Hags vs Cats vs Hats vs Whales

TOURNEY LOBBY: 672380

Sunday, 17th of November 2019 Starting at 16:00 UTC

TEAM ROSTERS BELOW

Basic information about the tourney and registration process:

1. This is not a standard tournament - it is going to be the sequel of the feature match that took place at the end of August. If anyone here watched first season of Saki anime, then you know the drill, for everyone else I'll explain the rules.
2. Four teams representing four stereotypes of MJS players will assemble five members each, and assign them roles: Vanguard, Sergeant, Lieutenant, Vice Captain and Captain (representing playing order, from 1st to 5th).

3. Each team starts with 100000 points, and this amount does not refill in between matches - result is carried over to the next game. This means you will probably have to clean after your teammates blunders (or get all your hard earned points wasted by a player following you).
4. Since this tourney is going to be played for lulz, PLAYERS ARE GOING TO BE ABLE TO PLAY AFTER GOING DOWN TO NEGATIVES (to avoid unlikely scenario of terminating the tourney during 3rd hanchan, but remember - humiliation will stay).
5. Rules are going to stay standard - kuitan and akadora ari. For the first four matches there will be additional rule - winning the hand as orasu will not finish the hanchan, game will continue until 4th south round finishes. This will not be the case in the last match.
6. **Make it known once and for all which girl has the best grasp on the flow (or statistics, whatever floats your boat).**
7. Main way of communication will be as always the channel **#yakuman/v/irgins** on irc.rizon.net - <https://rizon.net/chat> use this if you don't use standalone IRC client.
8. After each match there will be a 10 minute recess, during which I am going to prepare stuff for the next match. Since each hanchan will take +- 45 minutes, I'd like for you guys be prepared for your turn at every full hour (16:00 for 1st match, 17:00 for 2nd etc.)
9. Tournament is going to be showcased and commentated on the usual streaming platform, link is going to be posted on IRC and the thread before and during the matches.
10. If you wish to co-commentate the match with me, then select required option in registration form. Remember that you cannot co-commentate your own matches. We will discuss the details over IRC.
11. In registration form, select which time slots for matches suit you the best. This will be the main determinant of your position in a team.
12. Team rosters will be published on the **11th of November in this document**. You will have a week to prepare all the necessary OC's listed below.
13. Selection into the team will be based on performance in qualification matches which will take place on the 10th of November.
14. If you have any questions, leave it in the thread or on IRC, and I'll answer at my nearest convenience.

After you guys will send me detailed team placement lists, I'll appoint you commenting slots that will be right before or after your own match. More info soon. Max 2 co-commentators per match, so if there is anyone else who would like to join, there are still slots left.

TO DO LIST FOR EACH TEAM:

If you'd like to see how this looks in action, take a look at whichever match from this playlist:

1. Each player to prepare a small (256x256) picture which will be his avatar (shown on the stream instead of small portraits of MJS girls). I'd

recommend for it to be non-MJS related, but I will not get in the way if you'll insist on it).

- Each team to prepare sound files: Short ones: Ron, Tsumo, Deal in. Long ones: Riichi song (up to 3 different), Anthem.
- One banner/poster representing your team (preferably with something that will represent each player on it).
- A triangular in shape section of custom game mat, representing your team and the best memes. Edit this file (<https://i.imgur.com/OyGlmfX.jpg>) and make a cutout (<https://i.imgur.com/rDgIeYJ.png>) and fill it with whatever you want. Remember that certain part of triangle is going to be obscured by point-square in the middle. Resize the base file to 2048x2048 if you need more space.
- List stating each player position in the team (from 1st to 5th). Think about your advantages, weaknesses and time constraints when considering your team positions.
- There will be a link in each team irc channel to workflowy site, you can use it to brainstorm ideas and link me finished things.
- Every other kind of OC (webms, sound files, posters, meme graphics) will be showcased during random moments over the course of the tournament. If you want for something to not be shown, state it beforehand.

I am not forcing anyone to do all of the above, but I think it will be cool and more fun to watch/participate in. Use workflowy links in the channel topics to brainstorm your ideas. **Initial deadline for all of the above is the 16th of November, 23:59 UTC.**
