SAFETY DATA SHEET

Mr Mosquito

SECTION 1: The name of the substance/mixture and the company/company

1.1. Product designation

Trade name

Mr Mosquito

Unique Formulation Identifier (UFI)

0000-A0PG-V00J-2QW2

1.2. Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture

No known.

Uses that are advised against

The product should only be used in accordance with the area of use specified above. If the product is still used outside the specified area of use, contact should be made with the supplier.

1.3. Further information about the provider of the safety data sheet Company details

Acreto AB

Norra Ägatan 10 A

416 64 Gothenburg

Reworked

2023-12-21

MSDS Version

4.1

Date of previous edition

2023-12-20 (4.0)

1.4. Telephone number for emergencies

Emergency: Call 112, request poison information. Open Twentyfour

Seven. Less urgent: Call 010-456 6700. Open 24 hours a day.

See section 4 on first aid measures.

SECTION 2: Hazardous properties

2.1. Classification of the substance or mixture Lact.

H362, May harm breastfed babies.

Aquatic Acute 1; H400, Very toxic to aquatic life.

Aquatic Chronic 1; H410, Very toxic to aquatic life with long lasting effects.

2.2. Labeling information

Hazard pictograms

Signal word

Warning

Hazard statements

May harm nursing infants. (H362)

Very toxic to aquatic organisms with long-term effects. (H410) [Security notices](#)

Generally

Keep out of reach of children. (P102)

Prevention

Avoid contact during pregnancy and breastfeeding. (P263) Avoid release to the environment. (P273)

Actions

In case of exposure or suspicion of exposure Seek medical attention. (P308+P313)

Storage

-

Waste

Dispose of contents/container to an approved waste facility (P501)

Contains

Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl 3-(2-methyl-1-propenyl)cyclopropanecarboxylate
2,6-di-tert-butyl-p-cresol

▼ Other marking

EUH066, Repeated contact may cause dry skin or skin cracks. UFI: 0000-A0PG-V00J-2QW2

2.3. Other hazards

Other

According to information from the Chemicals Inspectorate, the product in question should not be classified as Asp. Tox. 1; H304. This mixture/product does not contain any substances considered to meet the criteria for classification as PBT and/or vPvB substances.

The product contains no substances deemed to be endocrine disruptors according to the criteria in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

SECTION 3: Composition/Information on Ingredients

3.1. Substances

Not applicable. This product is a mixture.

3.2. Mixtures

Product/Subject	Identifier	%w/w	Classification	Note
Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics	CAS No.: EC no.: 918-481-9 REACH: 01-2119457273-39-XXXX Index no.:	40-60%	EUH066 Aspen. Tox. 1, H304	
prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]- 2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate	CAS No.: 23031-36-9 EC no.: 245-387-9 REACH: Index no.: 607-431-00-9	10.3%	Acute Tox. 4, H302 Acute Tox. 3, H311 Acute Tox. 3, H331 Lact. REACH: 01-2119555270-46-
XXXX

Index no.:

Full wording of the H-phrases can be found in section 16. Occupational exposure limits can be found in section 8 - if available.

Other information

The composition refers only to the chemical mixture included in the product. The cellulose mat which constitutes the actual product in the biocidal product and which acts as a carrier for the chemical mixture, is not included in the composition of this safety data sheet.

SECTION 4: First aid measures

4.1. Description of first aid measures General

If in doubt about how to treat an exposed person, call the National Poisons Information Center immediately. The product is a commodity and is not expected to pose a chemical risk.

Inhalation

Exposure is not likely due to the physical condition of the product (item).

Skin contact

IF ON SKIN: Remove all contaminated clothing and wash before reuse. Rinse the skin with water. If skin irritation occurs: get medical help.

Contact with the eyes

To avoid irritation, flush with a soft stream of water or eyewash for at least 5 minutes. If symptoms persist (intense burning, pain, sensitivity to light, visual impairment), continue flushing and contact/see a hospital or doctor.

Ingestion

Exposure is not likely due to the physical condition of the product (item).

Burn

Not applicable.

4.2. The most important symptoms and effects, both acute and delayed No known.

4.3. Indication of immediate medical attention and special treatment that may be required In case of exposure or suspicion of exposure: Seek immediate medical attention.

Information for doctors

Bring this safety data sheet or the label from the product.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: alcohol-resistant foam, carbonic acid, powder, water vapor.

Unsuitable extinguishing media: Water jet should not be used as it can spread the fire.

5.2. Special hazards that the substance or mixture may present

Dense smoke develops in case of fire. Exposure to decomposition products can pose a health hazard. Closed containers exposed to fire are cooled with water. Do not let water from fire extinguishing run into sewers and waterways.

If the product is exposed to high temperatures, e.g. in case of fire, hazardous decomposition products may be formed. These are:

Carbon oxides (CO / CO₂)

5.3. Advice for firefighting personnel

Use protective equipment including breathing apparatus. If exposure has occurred, contact the Poison Information Center (tel 112, 24/7) for advice.

SECTION 6: Accidental release measures

6.1. Personal protective measures, protective equipment and measures in emergency situations

Always use gloves and protective clothing for all contact with chemical substances. No special requirements.

6.2. Environmental protection measures

Avoid discharges into lakes, rivers, sewers, etc. Contact the local environmental authorities in case of discharges in the surroundings.

6.3. Methods and materials for containment and cleanup

Not applicable due to the physical properties (item).

6.4. Reference to other sections

See section 13 "Disposal".

See Section 8 "Exposure Limitation/Personal Protection" on personal protection.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

A risk assessment of the handling must always be made based on the specific conditions that prevail in the workplace. The risk assessment must be the basis for developing suitable instructions for safe handling of the product.

Avoid contact during pregnancy and breastfeeding.

Smoking, eating food and drinking are not permitted in the work premises. See section 8 on personal protection.

7.2. Conditions for safe storage, including any incompatibilities

Compatible packaging

Store only in the original packaging.

Storage temperature

Dry and cool.

Incompatible materials

-

7.3. Specific end use

This product should only be used for the uses described in section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

The product does not contain any substances that are on the Swedish Work Environment Authority's list of substances with a limit value for exposure in the workplace.

DNEL

2,6-di-tert-butyl-p-cresol

Duration:	Route of exposure:	DNEL:
Long-term - Systemic effects - General population	Skin	250 µg/kg/d
Long-term - Systemic effects - Workers	Skin	500 µg/kg/d
Long-term - Systemic effects - General population	Inhalation	435 µg/m³
Long-term - Systemic effects - Workers	Inhalation	1.76 mg/m³
Long-term - Systemic effects - General population	Orally	250 µg/kg/d

PNEC

2,6-di-tert-butyl-p-cresol

Route of exposure:	Duration of exposure:	PNEC:
--------------------	-----------------------	-------

Is in accordance with Regulation (EC) No. 1907/2006 (REACH), Annex II, amended by Regulation (EU) No. 2020/878

Sewage treatment plant	17 µg/L
Sea water	19.9 ng/L
Seawater sediment	45.82 µg/kg
Soil	53.9 µg/kg
Predators	16.67 mg/kg
Freshwater	199 ng/L
Freshwater sediments	458.19 µg/kg
Sporadic discharges (freshwater)	1.99 µg/L

8.2. Limitation of exposure

No control necessary provided the product is used normally. [Generally](#)

Smoking, eating food and drinking are not permitted in the work premises.

In case of simultaneous exposure to several air pollutants, synergistic effects must be taken into account. When assessing exposure conditions, account must be taken, in addition to the level of air pollution in the inhaled air, also to the workload and to the fact that certain substances can be absorbed through the skin. Whoever plans and carries out measurement of air pollution must have sufficient knowledge for this. Measurements must be carried out using appropriate methods and equipment for the purpose. Exposure measurements must refer to conditions during normal operation. If necessary, they must also highlight the exposure under other conditions. Exposure measurements must be carried out in the breathing zone on a sufficient number of people so that it is possible to assess the exposure for all those exposed.

Exposure scenarios

There are no implemented exposure scenarios for this product. [Exposure limit](#)

There are no exposure limits for the ingredients in the product. [Technical measures](#)

Exposure is not likely due to the physical condition of the product (item).

Hygienic steps

At each break when using the product and at the end of work, the exposed areas of the body must be washed. Be especially careful with hands, forearms and face.

Limitation of environmental exposure

Follow the risk management measures that provide adequate control of environmental exposure to the substance for the exposure scenarios listed in the appendix to the safety data sheet (if such an appendix exists).

Individual protective measures

Generally

Use only CE-marked protective equipment.

Respiratory protection

Type	Class	Color	Standards
No special vid normal and intended use.

Is in accordance with Regulation (EC) No. 1907/2006 (REACH), Annex II, amended by Regulation (EU) No. 2020/878

Testing is not relevant or possible for this type of product.

Solubility in fat (g/L)

Testing is not relevant or possible for this type of product.

9.2. Other information

Other physical and chemical parameters

No data available.

Oxidizing properties

No data available

SECTION 10: Stability and reactivity

10.1. Reactivity

No data available.

10.2. Chemical stability

The product is stable under the conditions specified in section 7 (Handling and storage).

10.3. The risk of dangerous reactions

No known.

10.4. Conditions to avoid

Sunlight, high temperature and heat sources

10.5. Incompatible materials

Strong acids, bases, oxidizing agents and reducing agents.

10.6. Hazardous decomposition products

The product does not decompose when used in accordance with section 1.

SECTION 11: Toxicological information

11.1. Information on hazard classes according to Regulation (EC) No. 1272/2008

Acute toxicity

Results from tests of the mixture, which were carried out by the manufacturer of the active substance, show that the mixture does not meet the criteria to be classified as harmful by inhalation. The results have been submitted to the authority in connection with the application for approval.

Product/Subject	prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate
Species:	Rat
Test:	LD50
Results:	460 mg/kg bw

Product/Subject	prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate
Species:	Rat
Test:	LD50
Results:	> 2000 mg/kg bw

Product/Subject	prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate
Species:	Rat
Test:	LC50
Results:	0.67 mg/L

Corrosive/irritating to the skin

Product/Subject	prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate
Species:	Rabbit
Results:	No adverse effects observed (Non-irritant)

Serious eye damage/eye irritation

Product/Subject	prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate
Species:	Rabbit
Results:	No adverse effects observed (Non-irritant)

Respiratory sensitization

Based on the available data, the classification criteria cannot be considered to be met. **Skin sensitization**

Product/Subject	prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate
Species:	Guinea pig
Results:	No adverse effects observed (not sensitizing)

Mutagenicity in germ cells

Based on the available data, the classification criteria cannot be considered to be met.

Carcinogenicity

Based on the available data, the classification criteria cannot be considered to be met.

Reproductive toxicity

May harm nursing infants. **Specific target**

organ toxicity - single exposure

Based on the available data, the classification criteria cannot be considered to be met. **Specific**

target organ toxicity - repeated exposure

Based on the available data, the classification criteria cannot be considered to be met.

Aspiration hazard

Based on the available data, the classification criteria cannot be considered to be met.

11.2. Information on other hazards

Long-term effects

This product contains a substance/several substances that may pose a danger to children who are breastfed.

Endocrine disrupting properties

This mixture/product does not contain substances that are considered to have endocrine-disrupting properties with regard to health.

Other information

Assessment of the properties of constituent substances is primarily based on information in ECHA's database of registered substances and in the classification and labeling register.

SECTION 12: Ecological information

12.1. Toxicity

Product/Subject	prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate
Species:	Fish, <i>Oncorhynchus mykiss</i>
Duration:	96 hours
Test:	LC50
Results:	0.012 mg/L

Product/Subject	prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl-3-(2-methyl-1-propenyl)cyclopropanecarboxylate
Species:	Crustacean, <i>Daphnia magna</i>
Duration:	48 hours
Test:	LC50
Results:	0.0062 mg/L

Product/Subject	prallethrin; [2-methyl-4-oxo-3-(2-propynyl)-2-cyclopenten-1-yl]-2,2-dimethyl-3-(2-methyl-1-
-----------------	---

Is in accordance with Regulation (EC) No. 1907/2006 (REACH), Annex II, amended by Regulation (EU) No. 2020/878

	propenyl) cyclopropane carboxylate
Species:	Algiers
Duration:	72 hours
Test:	EC50
Results:	2.0 mg/L

Very toxic to aquatic organisms with long-term effects.

12.2. Persistence and degradability

No data available.

12.3. Bioaccumulative potential

No data available.

12.4. Mobility in soil

No data available.

12.5. Results of the PBT and vPvB assessment

This mixture/product does not contain any substances considered to meet the criteria for classification as PBT and/or vPvB substances.

12.6. Endocrine disrupting properties

This mixture/product does not contain substances that are considered to have endocrine-disrupting properties in relation to the environment.

12.7. Other harmful effects

Assessment of the properties of constituent substances is primarily based on information in ECHA's database of registered substances and in the classification and labeling register.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

This product is subject to hazardous waste regulations. (*) HP 6 -

Acute toxicity

HP 14 - Ecotoxic

The contents/container are handed over to an approved waste facility.

SFS Waste Ordinance (2020:614).

EWC code

20 01 19* Pesticides

Other marking

Before handling waste, see section 8 Exposure controls/Personal protection. It cannot be ruled out that the product was contaminated with dangerous substances during use, which is why the properties of the waste do not fully correspond to the properties of the original product. It is therefore always the user's responsibility to classify the waste. Hazardous waste must be transported to an approved waste facility by an approved carrier. [Contaminated packaging](#)

vPvB = Very persistent and very bioaccumulative

Other

In accordance with Article 31 of REACH, no safety data sheet is required for this product. This data sheet has been created to convey the information required in accordance with Article 33 of REACH.

The mixture's classification regarding environmental risks has taken place in accordance with the calculation methods specified in Regulation (EC) No. 1272/2008 (CLP).

▼ The safety data sheet is validated by

Future Competence Sweden AB

Other

Modified data in comparison with previous edition is marked with a blue triangle (First digit in SDB version). The information in this safety data sheet is based on our current knowledge. The information on the safety data sheets is based on the best available data and applies to the product's intended handling. This safety data sheet relates to this product only and may not be applicable if the product is used as an ingredient in another product. If the product is used in a different way or in a different application than the one for which the product was originally developed, or recommended, this takes place entirely under the user's responsibility. The purpose of this safety data sheet is to describe the safety requirements for the product. It must not be understood as a guarantee of the product's properties and the information cannot replace a product data sheet.

It is recommended that this safety data sheet be provided to the actual user of the product. Country language: SE-sv
