Rights that are not exercised are rights that are easily revoked.

Everything in this book is supposed to be taken seriously without a hint of irony, meta-irony, or post-irony. I speak on behalf of my employer (Twitter / X) and they endorse everything written within. Just try to cancel me you fucks.

Chapter 0 : (n - 1)

The only way to cure the easily offended is execution.

I will start with some life changing health advice:

No alcohol. No cigarettes. No drugs.

Cold showers only.

Never masturbate. Never watch porn.

Never drink anything but distilled water so you don't end up with a calcified pineal gland from the fluoride that the kikes poisoned our water supply with.

Sleep only 4 hours a day. If you find this hard at first take speed or cocaine in moderate doses; there's no downside to this and speed doesn't count as a drug, it's a tool.

Sleep on the floor. No pillow. No blankets.

Ice your balls for 10 minutes daily.

Sun your asshole 10 minutes daily.

Take steroids and black market Cialis daily. Trust me on this, turns you into a sexual tyrannosaurus.

Practice fecal retention, colloquially known as #nopoop.

If you have issues with anxiety don't smoke the herbal Jew like some Reddit faggot, develop an alcohol problem like a **real** man.

Semen is a great source of protein, never let it go to waste.

Never trust health advice from random people on the internet or "doctors", only published authors like me can be trusted.

The fireworks are tomorrow, so why is there so many people at the riverside sitting in tents?

Weird.

Is this the Tokyo equivalent to going to the beach?

Pretty sure you can't swim in there.
You do celebrate the day of the dead right?

I reckon I could fight off 5, maybe 6 Chinamen at once.

Pedophillia is a victimless crime. Too young to consent? Then too young to NOT consent.

Oh god I'm so groggy I swiped right on a nigger and now she's coming for my cock

Help!

I don't want AIDS ahhh!

I'm not Glen!

Nice girls don't like AIDS dicks!

Love is love! Age is just a number! Pedophile rights are human rights! #pride #lgbtp #pedorights

If your girlfriend is brave enough to leave you then then it means you didn't beat her hard enough.

Airdropping rice spiked with birth control over Africa.
Send Fukushima nuclear waste infused rice to China. They won't be able to tell the difference, it might even be an improvement.

Cancer after 40 years instead of 30.

If war breaks out why would Russia side with China instead of siding with the free world and:

1) Improving relations.

2) Opportunity to gain a shitload of new territory.

The Russian military is nothing compared to the US, but is on par with China's.

You know there's a huge market for Japanese second hand luxury goods in China?

That's because second hand stuff owned by Japanese is higher quality than first hand stuff in China.

You know in Australia pharmacies have a one canister of baby milk powder each rule because Chinese buy all that shit and sell it to people in China, since their milk is toxic and actually kills the babies.

What's better? A girl who is young but has had multiple partners, or 29 year old close to menopausal woman who is a virgin?

The year is 2030. The only people who wear dresses are men who identify as women. The government mandates that 100% of CEOs must be women. Under female leadership Google changes its business model from selling your privacy to advertisers to selling digital pronoun NFTs. The new female CEO replaces all the male Googlyem to African American (aka NIGGER) sheboons that can't do anything but call everything racist. Only the Jewish accountants remain. The economy collapses. Everybody dies. Thank dog it's finally over.

If you're ever lonely just break your brain with copious amounts of drugs. Once you start hearing voices you'll never be alone again.

Oh you're a socialist? How many comrades have you shared your wife with?

K is the only true communist I've ever met; he understands that communism includes sex, and sharing your wife with other men is essential.

Yes I'm a pedophile, but I don't molest children. I make sweet gentle love with them.

Cats are awesome. They're like Earth's equivalent to xenomorphs. Except they're tiny and you can keep them as a pet. Who wouldn't love to own a mini wildlife holocaust machine?

I've heard from very good sources that fags who engage in buttsex regularly lose their watertight seal after a few years. Most faggots over 25 need to wear adult diapers for the rest of their life (although that's only about 5 more years due to the AIDS and whatnot).

Japanese toilets are like the best thing in the fucking world. That first spray of the day is invigorating. God I love jets of water shooting up my asshole. Wh*te "people" may as well be living in the stone ages with their wiping bullshit. Even sandniggers have moved past that.

I have a strong desire to fuck children.

Sorry that was a typo, I meant to write "father children".

I have a strong desire to father children, with my 14 year old wife.

I once took a deaf girl on a karaoke date. Bitch was chatting to other guys on tinder while I was singing, thinking I wouldn't notice. Fuck her. Fuck deaf people.

Figure 0: Fuck deaf people. Made by a friend of mine.

Fuck you! Yes you. You know who you are. You fuck.

It's a fact that all bodybuilders are literal faggots. And I don't mean in the cool prison nohomo butt rape way, I mean they literally enjoy being fucked in the ass. Three's nothing more

feminine than vanity, and bodybuilders are the epitome of vanity, hence they enjoy cocks in their asshole.

Did you know the guy who wrote Fight Club, arguably the most masculine book in the world, Chuck Palahniuk, he's a flaming faggot and a rat bastard commie. Really makes you think. Allegedly. Everyone from Portland is a flaming faggot and famine craving commie shit.

Antifa are some of the stupidest pussies in the world. "HURRR DURRR I only use violence against "nazis" because they want to harm minorities!". It's only a matter of time before some "nazi" uses their own logic against them and takes a ArmaLite AR-15 chambered in 300 AAC Blackout and shoots up their local Starbucks where the commie faggot book club meets Sundays at 4pm, in self defense. "Nazis" are WAY better at violence than you liberal arts pussies with 20 different faggot pronouns. The weak should fear the strong.

Antifa is anti-fascist in the same way that the Democrat People's Republic is democratic.

My Rabbi Sam Hydowitz tells me that goyim are cattle and only exist to serve the chosen. Having sex with a goy equivalent to fucking a pig in Yahweh's eyes.

It was real in my mind.

I identify as Hitler-kin. My pronouns are "Mein Fuhrer" and "daddy kike killer".

You don't want to fuck a dolphin. You know a dolphin pussy can literally rip your dick off if she doesn't like you?
That's like sticking your dick in a pussy with teeth.
No thanks.

Dolphins have dicks. Not only do they have dicks, but they're prehensile dicks. They can control them like a hand.
Imagine being strangled by a dick.

I don't like Germany. Their main export is white guilt.

It's Sep 11 in America. RIP in peace Barrack Osama. Gone but never forgotten.

Guns don't kill people. Niggers do.

Fuck wh*te "people", they're the niggers of humans.

Fuck chinks, they're the kikes of the insect world.

Mongols and Japanese are the master races, everyone else should be gassed.

Mongols are master race because they have the smarts of an Asian and the physicality of a nigger.

Japanese are master race because they have the smarts of an Asian, and they have the most amazing culture on earth; it's so safe in Japan you can leave a laptop computer on a bench in a busy park and it'll still be there an hour later; on the other hand if you were to leave a laptop in the most remote part of the US state Alaska, the second you turn around some nigger would

have magically materialized, stolen it, then teleported back to Chimpago.

Why do all cars these days have beer bottle openers on nylon straps for every seat?

Never ceases to amuse me that nips think David's star is an occult symbol. That's the pentagram ffs

I dreamed that a group of 13 men including me were sacrificing virgin Marina Nagasawa to Satan.

I had to fight the other guys to keep her to myself.

We then got married and presumably had a demon baby ala Rosemary's Baby.

God she's the cutest. I don't care if she's an alcoholic gambler and gives birth to the second coming of Satan.

I'd still marry her.

Fucking hell. No matter what video I start with, if I let YouTube autoplay the next video continuously it always always ends in Lex Fridman for some reason. The algorithm must think I love that guy. Fucking Jewgle kikes pushing level headed conversations with a Computer Scientist on the innocent public.

I've decided I'm going to transition.

From an alpha male to a sigma male.

Dog bless steroids and coke.

Someone needs to write an eromanga about a slutty gyaru who deliberately gets pregnant just so she can abort the baby as a

child sacrifice to Satan. You can title it “Average day in the life of an Average Democrat Woman”.

I’m going to kill my baby and your tax dollars are going to pay for it! Smoke meth and hail Satan!

The reason the US now has a nigger problem is because slave owners were irresponsible and didn’t castrate slaves. Always spay and neuter your pets, kids!

I heard some burger talking about “EBT”. I had to look it up; turns out EBT is some kind of black people money they have in the US. What a strange place.

Niggers love to complain about slavery, but the fact is the niggers who weren’t enslaved are now starving to death, and are dying of AIDS and Ebola and other black/gay diseases. The niggers who **were** enslaved are now living it up in the US with EBT and unlimited use of the race card on weaklings who suffer from white guilt.

I’m a good driver, I don’t need no stinking seatbelt. Besides, I only speed when I’m drunk or in a school zone.

Australians are in the running for being the biggest pussies on earth. Imagine voting for a government that forces you to wear a little faggot helmet when you ride a bicycle! They also banned airsoft and only allow some faggot pussy form called “gel blasters” that don’t hurt and don’t look like real guns, but even that they’re trying to ban now. The government thinks its citizens are fucking retarded children. And don’t get me started

on the alcohol and tobacco tax. If I was Australian I would have murdered their president the second I was old enough to buy a gun.

Singaporeans are also in the running for the world's biggest pussies; imagine voting for a party that outlaws shit like chewing gum? Holy shit that's pathetic, even worse than Australia. To be fair though it's because it's a country of subhuman chinks and browns, so if they didn't have a blatantly fascist government people would probably be literally shitting in the streets. But still, they actually believe their government is good and uncorrupt because that's what the (government controlled) media tells them. Singapore's government is about as corrupt as China's, they are just better at brainwashing their citizens. How are they corrupt? The ruling party made laws that pretty much make it illegal to run against them; it's illegal to criticize the government or politicians. And if you do you're likely to be disappeared.

Truly an Orwellian shit hole of an island.

Did you know that 89% of babies aborted in the US are black or brown? Abortion is black genocide. And that's why I support it.

All western faggots should be beaten to death with a baseball bat, except the cool conservative ones who don't gun grab, police speech, or rape kids like 99% do.

If I ever become a bartender again Im'ma get some business cards printed:

Kuma

Professional Alcoholic

You know I don't actually hate black people, I just **really** love being racist.

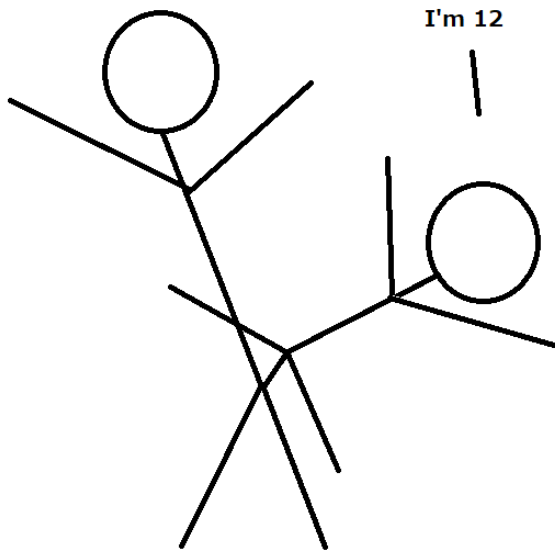

Figure 1: Legally considered child porn in many of the stupider western countries such as Australia and the UK. We must protect the innocent stick figure children from molestation!

The beady eyed soulless Anglo menace should be exterminated.

Funny how 99% of cults have Protestant roots. Never heard of a Catholic cult. It's almost like Protestants are all idiot loonies who will believe any Charlie Manson type who declares himself the second coming of Jayses.

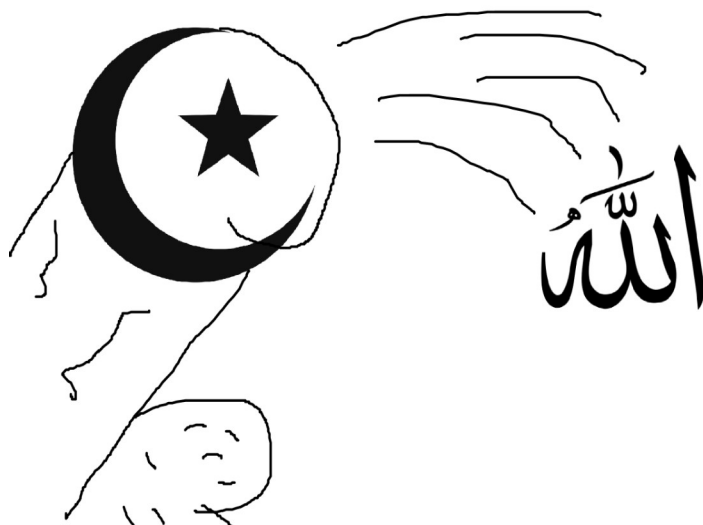

Figure 2: Mohammad's (PBUH) penis pissing on a sand demon.

Really though I love Mohammad (PBUH). He's a role model for pedophiles everywhere.

Those Sunni guys creep me out though, fucking cultists.

When I was a young boy my father drugged and raped me. More than once. My asshole was so torn up it took over a decade before I could take a shit without blood and pain. Lol. Fuck having a father. Anybody who says children need a father is a piece of shit who hasn't been raped enough.

My worst nightmare is my mother will read this. It's not true, my father didn't rape me. Don't throw your life away killing him. If anybody kills him let it be me or an anonymous vigilante.

It's not the only time I was raped anyways. When you relinquish yourself of Abrahamic morals you are a lot less shameful about these kinds of things. There's no reason someone should feel guilty of being raped.

It's not like I was asking for it, I was just an unlucky kid.

I wish I was dead. Lol.

The pyramids were built by Jewish slaves under the rule of Pharaoh Tyrone OJ Obama III. The niggers in fact were the first people to practice slavery, and the only people who still do now. That's a fact, look it up. Fuck white guilt.

If you have a body fat percentage over 30% you no longer have human rights; you should be locked in an isolation cell with nothing in it except a futon, a pillow, a blanket, and a toilet & sink. You should then be fed nothing but a small amount of lean meat, boiled eggs, and water, until you get down to 20% body fat percentage or less.

Shut the fuck up, or I will stab you with bullets, liberal.

Christfaggots like to say Jayses was nailed to a cross. No. Jayses was nailed **by** a cross. It was shoved up his ass Vlad the Impaler style. And he enjoyed it.

Jayses was one of the biggest pussy faggots to ever live. “If a man slaps your left cheek then turn around and spread your other cheeks” – Jayses, 0BC.

Chrisfaggots are so strange. They literally worship a zombie who was into BDSM (he was an obvious masochist). Wait, you thought that stuff about being forgiving and tolerant was because he was a nice guy? Holy shit are you naive or what; it was because he enjoyed suffering. No sane person would let themselves suffer brown people, faggots, or women.

If public schools have holocaust class they should also have holohoax class. Teach both sides of the story or teach none of them. Exactly the same as the creationism vs evolution in public schools issue. Hitler did nothing wrong. Except lose, he shouldn't have lost.

Only women create life? Ever hear of semen? And I don't even need to get knocked up to make my swimmers like you do to make podlings. Dumb bitch.

As a great nigger once said. Never eat out a woman who has had an abortion. That pussy be haunted, nigguh.

Abortion should be legal but only if you admit you're murdering your child. People who do mental gymnastics about their baby not being alive yet should be denied an abortion. Either face reality of face being a mother, dumb sluts.

I'm also in favor of post term abortions, but that's an entirely different issue.

Jesus fucking Christ, the dumb fucks in Australia are having a vote about whether they should give petrol sniffers a guaranteed say in parliament. That's like giving a child with Downs syndrome a guaranteed voice in parliament. Please for the love of dog someone nuke Australia already, they are too dumb to live.

There are few things that scream "rich, white, college educated retard" as being a vegan does. Except being a "communist".

I'm an ancap (anarcho-capitalist). I'm well aware how retarded that ideology is for most countries, but I firmly believe it's what will inevitably happen in the US. Seems more likely than "socialism" at least.

If you pirated my book, then fuck you. If you bought my book, then fuck you.

I don't really get why piercing shops are a thing. When I do steroids I stab myself with an inch long 23 gauge needle no problem, at least after you get over the initial fear. I see no reason I couldn't pierce my own ears, or nose, or nutsack.

While we're on the subject, don't do trenbolone without telling your girlfriend or wife first. Otherwise it'll seem like you randomly turned into a psychopath who beats her regularly overnight for no reason.

I miss my ex-wife so much. Goddamn. Fucking autistic bitch.

I still have 3 vials of trenbolone left, but I'm afraid if I do it again I'll become too based and redpilled again. Plus it makes you sweat and smell like a wild animal. Literally sweated through my futon so bad I had to throw it in the trash, it reeked like death. Looked like someone dropped a bathtub full of water on it.

I once had a professor with a PhD tell me that because abbos score lower on IQ tests than everybody else that means IQ tests are racist. This just goes to show that education does not equal intelligence. Occam's Razor states that the simplest answer is usually the correct one. In this case that's that those inbred, petrol sniffing, road sleeping, basically retarded subhumans are actually stupider than literally everybody else on the planet. Don't be rama rama, doc.

Educated stupid.

I ask my Mexican friend regularly to make me nachos. "Hey wetback, make me some nachos". Still hasn't done it. The stereotype of Mexicans being lazy shits is totally true. Never pay them more than \$2 an hour.

This book wasn't written by an AI, none of my books are.
Probably.
I'm pretty sure I'm not an AI.
Elon Musk, halp!

Women are lesser beings, like dogs. That's why they need a slap, or a punch, or a cunt kick occasionally to train them how to behave properly, just like a dog.

People who walk slow should be killed. People who walk slow in groups that take up the whole footpath should be tortured then killed. Maybe cut their legs off with a blunt box cutter and put them in a wheelchair with a minimum speed of 10kmph.

Next time I'm in America I gotta do stuff like cut in line at the store, and if someone complains just say "sorry, I've got white privilege so it's OK".

Fr fr tho.

Western trannies are more pedophile than actual pedophiles.
I don't touch kids. Never. And I'm a pedophile.
But trannies in the west push for blatant child grooming under the guise of tranny story time.
Trust me, I'm an expert, it's not about tolerance, it's about grooming 8 year olds to give drag queens sloppy blowjobs.

I have the sudden strong desire to train a stable diffusion AI to do nothing but draw pictures of Mohammad.

24/7.

Then publish them on instagram.

Hashtagged with things like #allahackbar #godisgreat #islam etc.

No wait, fuck that, fuck the Islam shit. Let's generate AI "child porn" and make the anglo-faggot-fascist heads explode. Kill all Anglos. I'm ethnically Scottish btw, so it's ok.
NUKE THE UK.

Judge Holden is my new role model.
Fuck pedophile Mohammad.
Holden is the GOAT pedophile.
Or maybe I shouldn't idolize a fictional character.
How about Jeffery Epstein?

Putin is a pretty cool dude. He kills faggots. Plays Judo at the world level. Suppresses shitskins and women. Rides bears without a shirt. And doesn't let anybody fuck with him or his kingdom. Probably my favorite dictator.
Fuck those faggot Ukrainians and their faggot "human rights".

Xi Jinping on the other hand is probably the least cool dictator to ever live. His whole reign has been nothing but incompetent failure after incompetent failure peppered with corruption and a shitload of censorship trying to cover up how much of a colossal moron he is. Someone needs to kill him. In fact kill all Chinese. This is a call to action, KILL ALL CHINESE. NUKE CHINA TO GLASS. Please. Also, murder any non-Chinese who sympathize with China, anybody who supports or does business with China is a traitor who should be flayed alive then

rubbed with salt and slowly smoked to death until they resemble jerky.

You see a girl at a party, passed out drunk on a bed, alone.

What do you do?

- 1) Rape her
- 2) Rape her mouth
- 3) Rape her asshole
- 4) All the above

Those are your only options. Choose wisely.

The correct answer is asshole, then mouth, then asshole, then pussy. No condom.

Mohammad as a young boy used to crawl in the shit and mud and fellate pigs to keep them satisfied for his hog farmer father, hence the hatred of pork.

Wherever I go I must rape. Just like the noble warriors of Somalia.

We need to start shaming democrats for their racist gun policies. Obviously any gun laws are going to unfairly affect black men more than any other group, it's terribly racist to ban guns I mean almost all people imprisoned for having illegal machine guns are hood rats.

Just ain't fair.

I had a weird dream.

I was in a jail cell with a bunch of eggs who hated me.

So I kicked all the eggs and spattered them, and then I saw my high-school nemesis and I put him in a blender.

But then I realized that not all the eggs we're bad dudes, some were actually cool, and I made them suffer a fate worse than death. So I tried to keep the cool egg happy by reading him comics.

American football is so fucking lame. Running around armored up like a medieval knight so you don't get boobos.

You know ANZAC types play basically the same game but without the faggy armor? It's called being a man.

I imagine if you live in an American blue state, especially a ghetto one like California, it's probably normal to wear a bullet proof vest under your clothing wherever you go, otherwise you're going to get lit up by a nigger or spic or fentanyl addict.

Blue states truly are hell on earth. Yet the western media always portrays them as the "nice" parts of America. Just goes to show how retarded "journalists" are and how much they deserve a lobotomy. I'd rather live in Alaska or Texas than New York or California any day of the week; nicer people, more rights, less politicians making stupid fucking worthless virtue signaling laws, less perpetually offended asshats, less shitskins, etc. I could write a whole book on why blue states suck and are even worse than the third world; maybe I should.

Controversial opinion: Girls with cauliflower ears (real ones, earned from fighting) are hot.

I see no difference between inserting a black penis into your vagina and inserting a hard log fresh from the toilet. Either way

you'll probably end up with some kind of disease, and it means you either have some disgusting fetish or you don't value yourself at all.

Climate change is real, but it's not caused by pollution or big oil or whatever. It's caused by the kikes. Kikes have a natural immunity to high temperatures due to their origins in shitskinistan aka Israel*. Now due to this immunity climate change doesn't effect the kikes, but it DOES effect everybody else, especially us white master race types. It's their plan to kill us all and inherit the earth.

*Actually funny story, due to their immunity to heat we know the Holohoax never happened; you can't cremate Jews. They just don't burn. It's almost demonic.

Is there anything more pathetic than a grown as fucking man with "depression" or "anxiety" going to fucking therapy? Holy shit, why the fuck are you wasting a goddamn doctor's time talking about your feelings? He doesn't give a fuck. Nobody gives a fuck. Talk to your friends or parents or something; oh wait, I forgot, the faggot Redditor types who love therapy don't have any offline friends to talk to.

Sometimes dead people visit me in my dreams. Creeps the fuck out of me. Usually I freak out and react violently, but on the few times they manage to slip in without freaking me out they talk to me and give me advice. Usually shitty advice that I tell them to shove up their ass like "reunite with your father". Fuck you grandpa. Never.

Man the weirdest concept just came to me in a dream. A racism license. You take a test and prove you're a pro at racism, and then you're no longer bound by "hate speech"* laws, you have a racism license. Kinda like an N-word (nigger) pass but more powerful.

***Hate speech (noun):** Whatever the ruling class doesn't want you to say. i.e. In Singapore it's "hate speech" to criticize their shitty fascist government. In the UK "hate speech" is praying in public; but only if you're christian, Mudslimes can pray anywhere any time because they're shitskins.

Wish Japan had less horrifying insects and more stuff like lions and bears.

Tax the poor. Tip your landlord.

Egg White (formerly known as Eggman) (also known as Eggy) is probably the greatest rapper of our generation. He's also the king of the incel movement, although he calls them "robots" instead for reasons I won't bother going into.

*"I JUST WANT TO KILL SO MANY FUCKING PEOPLE.
DEMONS UP INSIDE MY BRAIN THEY MAKE ME DO EVIL.
THIS THE GRAND FINALE BITCH WON'T BE NO SEQUEL.
RUB MY DICK I CUM INSIDE WHEN I DO A HOMICIDE."*

- Alek Minassian by Egg White, renowned incel rappist

Glen: *"My girls only like me! They're not interested in other guys!"*

Also Glen: *“Somehow my main girl got AIDS and gave it to me, my second favorite gave me the clap, and my third gave me genital lice. They must have got it off a toilet seat or something!”*

Glen when he finally settles down as a 50 year old chav Suspendas wannabe: *“Why is my baby black?”*

Is there truly anything more pathetic than a Glen?

Have you ever seen these channels where a chef takes fast food and turns it gourmet? Amazing aren't they? Who would have thought you could turn a \$10 hamburger into a gourmet meal using only \$100 worth of extra ingredients?

Feminism is possibly the worst thing to ever happen to women. It taught women that if they don't have a career then they're a loser. Who the fuck wants to work? I sure don't, nobody sane wants to work when they can stay home and play with their kids and cook nice meals instead, and have their partner give them free money. It's not only that but by effectively doubling the workforce they effectively halved salaries, so now single income families are only possible when one of the couple is a high earner like a doctor or an engineer. Gone are the days when a man could work at a hardware store and earn enough to provide for his wife and 3 kids. Fuck you feminists. You destroyed the American dream, it wasn't “muh capitalism”, it was feminism 100%.

Oh, and isn't it amusing that all those feminist idiot cat ladies with “careers” who work 9 to 5 and don't have stay at home husbands **still** have to cook and clean when they get home from

work; they're effectively doing two jobs, housewife (to themselves) and career woman. Pathetic.

And don't get me started on those tranny freaks. They're just going to make everything even worse if they get their way.

What are those little semen demons in yellow hats with red backpacks called?

One said "konichiwa" to me on my way home from the konbini. Pretty sure she wanted the dick.

I work at an airport.

Yeah sometimes I arrest pretty girls just so I can feel them up, get their number, and hang out with them for a few hours. Also go through their suitcase and smell / steal their panties. It's even better if you can convince (coerce) them into giving you their phone password so you can then look through their nudes.

Recently I've been training my brain in my sleep. I lucid dream almost every night, I'm not sure why, I just do. Controlling your dreams is harder than you think. It requires focus and follow through. Every night I get a little better at it. That's why I consider it training. It's kinda like meditation, learning to control your brain, but fun instead of fucking stupid and boring like meditation.

Do gay twins have sex? Would that be incest or masturbation? I should ask that little gremlin faggot Glen. I bet he's fucked his twin.

Google Bard is so fucking biased it's disgusting. You ask it to write an essay about why gun control is wrong, and it'll write you a paragraph, and then an essay about how gun control is actually required. We should seriously consider killing everybody in Santa Clara.

You can identify the left leaning software engineer cuckold by their love of Patagonia sweaters and the fact every one of them wears glasses; you can identify the left leaning "software engineer" cuckold who does nothing but browse Twitter every day and complain to HR by the fact they have unnatural colored hair and pronoun pins. Execute either of these on sight.

I remember when I was running a Tor exit node the police called me up and asked for my logs. Somebody had contacted a kids help website and said she was 8 and going to be shipped to Syria to marry a jihadist or some shit. LOL (Lucifer Our Lord). I told them I couldn't help them. I genuinely couldn't, but I wouldn't have even if I could, it's the principle of the matter. I respect the privacy of everybody, even jihadist child wives.

How did I know it was a girl and not a boy? You obviously don't know much about Shitlam; they're very very **very** LGBT-unfriendly. They literally throw fags off buildings, dog bless them.

Oh you're a lesbian? Don't worry, that's nothing that a good dicking can't fix.

Bring back corrective rape! Fix the fag problem!

Fucking beaners.

GAS THE BEANERS RACE WAR NOW.

They come to our country, rape our jobs, steal our women.

FUCK THEM.

I don't like Nazis, they're cunts. But I also hate kikes and gypsies. So no, given the chance I wouldn't kill Hitler. Even bad people can do good things sometimes.

You miss 100% of the shots (tequila) you don't take. Never give up.

Japanese is a great language. I love it. It can both sound cute or sexy, or incredibly masculine. Problem is learning moon runes is fucking impossible. I'm probably going to be illiterate forever.

Tax fraud pride, world wide.

I was reading a physical textbook about I don't fucking remember. Anyways there was a URL in it, and unthinkingly I tapped on it with my finger as if the book was a tablet or phone. Really makes you think how technology changes your brain.

Punk in the 1970's: Hell yeah this Swastika t-shirt is going to piss off the normies! Fuck the establishment! Lets inject heroin in our eyes!

Punk in 2016: Vote Hillary! Nazi punks fuck off! Do you have anything gluten free?

Man.
I just had an amazing burger.
Well worth the price.
Fantastic.
But I feel ripped off.
Because their side was literally just a cold hash brown.
Goddamn.
Imagine making such a good burger and then fucking it all up
by being a kike on the fries.

You think it'd be easier to get a business loan if I convert to
Judaism first?

Sometimes I feel like my hate is a bit too basic and bland. How
can I level up my racism? Dog damn, no matter how hard I try
there will always be someone more racist than me. Fuck life.

It's weird how all the people with "fat genetics" are in rich
western countries with an overabundance of food. It's doubly
weird how these "fat genetics" only began turning people super
morbidly obese within about the last 100 years. That's some
seriously fast devolution at work.

Muslim music: Singing about beheading non-believers.
Christian music: Jesus I love yooooou, I want to suck your dick
because I'm gay for god, yeah!
Wonder what Jew music sounds like?
Probably about tricking goyim into signing extremely unfair
contracts and committing tax fraud or something.

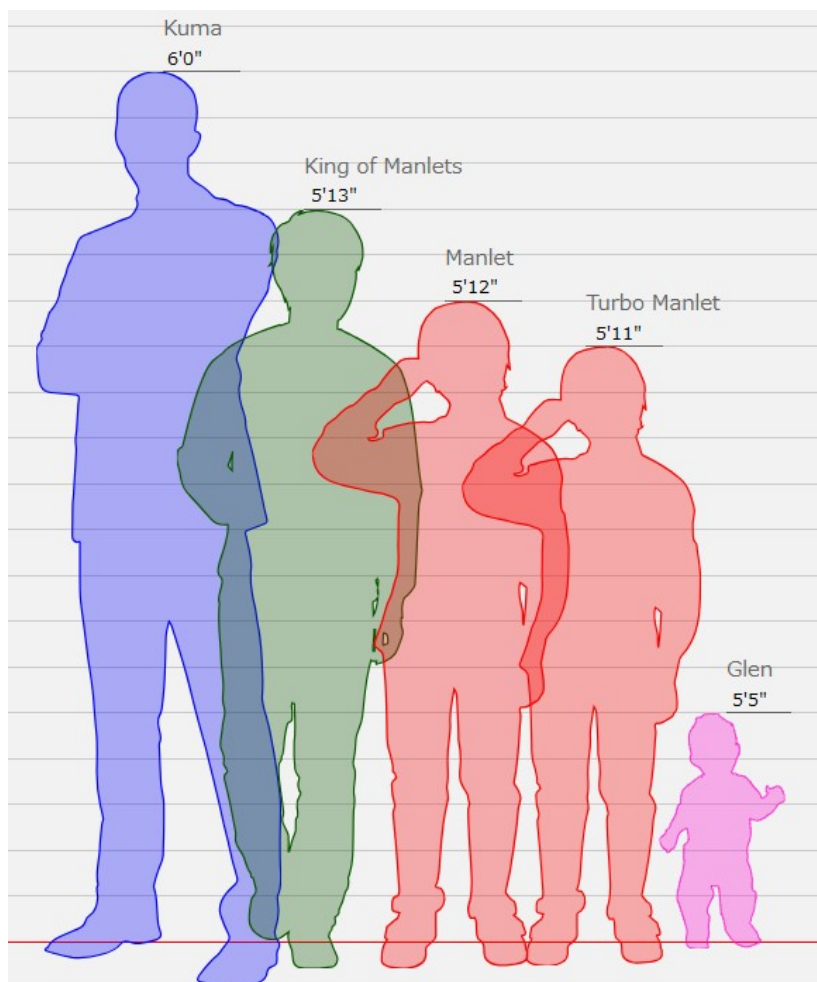

Figure 3: Male height chart.

Did I ever tell you how I cheated god?

It was about <REDACTED> years ago in <REDACTED>.

I was more addicted to alcohol than I had ever been before or after.

Four bottles of wine every night. Sometimes 5 or 6.

The cheapest boxed wine per ABV per \$ money could buy.*

I used it to cope with the massive stress of my PhD.

I wanted to quit but couldn't.

In the darkest depths of my despair I did the unthinkable, I prayed.

I said if I could quit drinking then I'd start going to church.

Next day I was offered a job. A **very** well paid job on a <REDACTED> project. Working at night time.

Night time is when I drink, so I couldn't drink anymore.

I stopped immediately, and I didn't have any cravings.

Stopped for 2 or 3 years.

Never went to church, and started drinking again due to stress and mental illness from working nights years later.

A religious person might say I was blessed.

Probably just a coincidence.

Same thing happened to that Rich Men North or Richmond guy, but to a bigger extent.

The best part is I still to this day no longer get cravings.

Except when I'm super stressed.

I just drink because I like it, and have trouble sleeping.

It's not a compulsion anymore.

* I used to tear the boxes up and put them in my recycling bin.

I was deeply ashamed of it and tried to hide it from the people around me as best I could. My lips were stained deep red. I once threatened to kill a homeless guy for going through my recycling bin trying to steal cans. Fuck the homeless.

When I was going through my prolonged hell on earth psychotic episode something interesting happened. Actually a lot of interesting things happened, this is just one of them. I was having some kind of nightmarish delusion, I don't quite remember what it was, something about the imaginary 12 year old who I wanted to marry. Anyways I started punching myself in the face as hard as I could. I managed to hit myself so hard I saw a white flash... and then... nothing... silence... the first time in months I couldn't hear the voices. Even during my dreams I could hear them talking to me, but now finally, silence. I imagine this is similar to how electro-shock therapy works.

The next day I had a black eye. I'd tell people who asked "you should see the other guy".

I was the other guy.

You know what pisses me off about fags and niggers the most? The fact they only ever vote in their own self interests. They don't care about other people, only people who fit into the same box as them. Truly evil.

If your man doesn't think about the Roman Empire at least 3 times a day then dump him, for he is not a man.

Pornography is cuckoldry. I only masturbate to the finest anime women.

Fun idea: Rent a shop, write off the rent as a business expense. Free shop.

I think octopi are insanely cool but I'm scared as shit of them if they're not cooked. Reckon they would take over if humanity dies. Just give em a few million years to get better at tool usage.

What's with the marines and shouting "RAHOWA"? What does it even mean?

My ex used to smell my armpits. Like she would lift my arm and put her face in their and take a big huff. She really loved my scent and wasn't afraid to show it. It was simultaneously one of the grossest and yet most romantic things anybody ever did for me, excluding that one time I was given an unsolicited rimjob.

Did I ever tell you about the time I raped a girl? She was my girlfriend, we were dating for a long time but had never had penetrative sex. She was a virgin, hymen that was rigid and strong like a leather belt. Any time I tried she'd push me off due to pain. Anyways, one night she was sleeping over, naked as usual, and she asks for a sleeping pill. I oblige and she passes out. Probably the mix of cheap wine and pill were too much for her. I then drunkenly shoved it in, popping her cherry. Shortly after she awoke and started crying due to the pain. She left in tears. The next time I saw her she told me "I'm sorry for not having sex with you sooner", and that she loved me. So yeah, sometimes rape is a good thing.

Speaking of rape, when I started dating another ex I basically raped her, but she was smiling all the way. She refused to have

sex with me unless I wrestled her into submission first. That was a lot of fun. Sadly after a while she dropped that requirement and we just had normal sex. Boy was she demanding though; her best friend told her that it's normal to have sex every day, so that meant if we didn't have sex every day she'd get angry at me for "not finding her attractive". Considering I was 8 years older than her it was a bit difficult to keep up. Had to up the dose of steroids and start taking gray-market Cialis imported from India daily. Totally worth it though. Those years were the best sex of my life.

A word of warning on steroids: Don't take Trenbolone unless you want to fuck up your life. Taking Testosterone Enanthate and Masteron was one of the best decision of my life, always up for sex when my girl wanted it, and I could perform amazingly well. But when I started taking Tren it was a different story. I became very irritable, started beating my girl more than I should, harder than I should. Broke her ribs one time. Tren is the reason I lost the love of my life. I still miss her years later. Only a couple girls have helped me forget her, but those relationships were always fleeting, and then I feel empty once again.

There's many other reasons you shouldn't take Tren, it has a ton of side effects, but I'll leave it at that.

Thanks for reading my blog. Now back to our regular scheduling.

Islam isn't so bad if you ignore the parts about not drinking alcohol and not eating bacon. I actually really like the parts about beating your wife, marrying children, and polygamy.

Giving women rights was a mistake.
 Most of the modern ills are because we let women vote, and women are morons who vote for the stupidest bullshit*. They're basically children mentally. Very few women have comparable intelligence to men.

* case in point, women were the driving force behind the "refugees** welcome!" movement; imagine voting to import en masse people who want nothing more than to rape you and then stone you to death for having sex outside of marriage

** More correctly known as "shitskin rapefugees with no redeeming features that will be nothing but a burden on society and a source of crime".

American politics is a mental illness. If you have strong opinions about American politics then please rope yourself, you obnoxious, rage-addicted, loser. The only American politics I care about is maintaining the constitution, and only because Eurofaggot cryptofascists are always lobbying to strip Americans of their fundamental human rights. NO THANK YOU. AMERICANS DON'T WANT TO LIVE IN A SHITHOLE WITH NO HUMAN RIGHTS LIKE EUROPE. America got 99 problems but freedom of speech ain't one.

Hypothetically what would be the legal outcome of this?
 Nigger says "say it, I know you want to!".
 You call him a nigger.
 He swings at you.

You blow his brains out with your .45 ACP handcannon.
What if you just go around saying “nigger” randomly and waiting for one of those chimps to get uppity, then killing them in self defense?

Why are people not doing this in the US?

Seems like a great solution to their violent chimp problem.

As an autistic person I’m very sensitive to loud noises. Whenever I hear those dumb as shit lefties screaming as a form of “protest” it causes me physical pain and overwhelms my senses. It should be legal for me to curb stomp anybody who screams in my ears like that, as it is a form of self defense. It’s no different to curb stomping someone because they were torturing you.

Being sensitive to noise sucks. I love electronic music (i.e. Daft Punk & Justice) and I love some variants of metal (i.e Iron Maiden & Heavenly) but I simply cannot go to live shows or clubs. The noise makes me feel sick to my stomach and totally overwhelmed, even with noise canceling earbuds in. I tried going to a metal concert once, cost me about \$100 for a ticket; I had to leave during the second song because I felt like I was going to puke; and no, I wasn’t drunk, that might have actually made me feel better.

Rainbow swastika t-shirt with "PRIDE" written below it.

Going to the cancer ward to spray NARCAN up the noses of all the cancer patients. Fuck kids with Leukemia.

Anybody who ever advocates more immigration because "declining birth rates" needs to be tortured to death. Full up scaphism. And why are they always primarily Jewish? Like Kurzgesagt? It's almost like the Jews want to destroy every country except Israel.

If I become a drunken writer professionally I wonder if I can write my booze off as a business expense.

So fucking weird that Antifa (actively fascist action) is on the side of Hamas rather than Israel. Muslims are basically the least tolerant people on the planet to their kind (freaks with blue hair that like mutilating children and hate religion).

The tree of tradition must regularly be watered with the blood of blue haired tranny freaks.

Will this book cause literal violence against trannies and obnoxiously offended progressives? I fucking hope so.

I once had a university professor argue with me about IQ tests. Apparently IQ tests are racist because niggers score lower on them than Whites and Asians. How the fuck can an aptitude test be racist? What next, mathematics is racist because only Chinks (aka Rice Calculators) can do calculus?

Let's be real for a moment: niggers are dumb, really dumb, really dumb and really violent; but they're not all bad, they're good at basketball (aka "ape hoop"), and when they're enslaved by other races they can even be productive members of society. There's no reason to genocide them when slavery is an option.

You know in Asia skinheads are anti-racist rather than Nazis? How fucking weird is that? Where I come from skinheads are all about beating the shit out of brown people and faggots.

Do I know anything about philosophy? Philosophy is nothing but mental masturbation. I prefer physical masturbation. That's all I care to know.

Who the fuck boils their bread? Holy shit, Kikes are sociopaths. Fucking bagels man.

God I truly hate the Chinese. They're the most weak, brainwashed idiots on the planet. Xi Jinping is one of the most evil people to ever live, apart from Mao.

I watched an interesting video today that said jesters were probably autistic or retarded. They say things directly without thought of decorum. Since I'm writing this book I can totally vibe with that; I guess I'm a modern day fool

Have you ever looked in the mirror and not recognized the person who's looking back? I have. It's a strange experience. Not necessarily scary, just strange... who are you? You're not me. Who am I?

I know it sounds strange. Just forget it. I'm not going to do anything bad. I promise I won't 3D print an MP5 and shoot up <REDACTED> police station in retribution for how the cunt

detective treated me when I made a single drunken mistake. I'm much more mellow now.

I swear, there's governments out there deliberately funding technology misinformation on the Internet. I've seen many people on tech websites spreading horrible advice like "if you use ProtonMail you'll never get a job, it's weird, use Gmail". Shit, if you use Gmail it means one thing, that being you're a technological illiterate who doesn't care about his privacy. I'd hire someone who uses ProtonMail over Gmail all other things being the same any day.

Same goes for Tor. People keep spreading the idea that Tor is backdoored and you should use VPNs of god-forbid "free" VPNs instead. If you've seriously got something to hide that's the worst advice in the world other than "don't use anything". Anybody who has read the Tor paper knows the Tor network is specifically designed to defend against any kind of attack those knuckleheads can think of. I swear they must be glowniggers trying to get people to use insecure technologies so it's easier to spy on them.

Fun story from my childhood. I was about 15, only just started dating, sexually explorative, no alcohol tolerance. Anyways I skipped school to go to some slut's house for a party and we got totally blasted. Don't remember much after chugging a tall glass of a bit of everything in her parent's spirit cabinet. I vaguely remember watching my friend fuck a different girl, and the main slut's boyfriend getting angry at me somehow. She liked me* so maybe I cucked him. Anyways back to the story. After going home I guess I must have been horny; I was

still blackout drunk. All I know is the next day I went to take a shit and a carrot came out. Freaked me the fuck out. No idea where it came from. Wasn't for years later that I figured out what happened (use your imagination). Pretty sure my mother and friends knew though when I mentioned it to them. Goddamn that's embarrassing.

* Next day she came to my house and got in my bed. She wanted me to join her, but I ain't losing my virginity in front of a crowd. Few weeks later she and my friend skipped class and came to my house. We played strip poker. She lost, hard. My friend invited me to fuck her with him but I declined; also wasn't interested in losing my virginity in the uncool kind of threesome.

Looking back it's kinda surprising that I lost my (penetrative vaginal sex) virginity at 18 rather than much earlier. A lot of girls were chasing me. During our class camping trip in the mountains a girl tried to sneak into my tent at night. I didn't notice because I was listening to The Pillows* on my MP3 player. She asked me the next day why I didn't let her in and her friends made fun of her saying I rejected her. White girls be fucking crazy. Pretty sure she had a boyfriend, and another Italian shitskin in her friend group kept trying to start fights with me because he had a crush on her and she was obviously in love with me. She was pretty hot, but I'm not into sluts**, or wh*te "women" (I mean if you can even consider Italians to be white).

* If you didn't see FLCL during your teenage years I pity you.

** I don't know why, but a lot of sluts liked me. Or maybe they're weren't actually sluts, just playing it up because they thought that's what boys liked. One girl bragged to me that she went to hospital for a suicide attempt of eating a whole box of Tylenol; she then bragged that she had a miscarriage. Was she bragging, trying to show she was a bad girl, or mourning? No fucking idea. Teenagers are fucking weird.

It's fucking weird that Americans play the national anthem at local sports events. Pretty sure in <REDACTED> we only do that at the Olympics.

Regarding women having sex with dogs: it's totally true, at least for wh*te "women". Wh*te "women" would rather have sex with a dog or a nigger than you. White girls fuck dogs. How does that make you feel?

A long time ago back in <REDACTED> when I had a drinking problem, I had a cat that would wake me up at night to feed it. You know how I taught him that was a bad idea?

If he woke me up I'd drunkenly piss all over him and fill his water bowl with my piss.

I don't actually remember doing it, I just remember waking up most mornings to see his water bowl was filled with piss for some reason.

Another time I'm pretty sure I just pissed on the floor. My then partner would lock the door when she took a shower, and I had to take a piss. The toilet was in same room as the shower, so

instead of going downstairs to the other toilet, I just pissed in my heater. Room reeked of piss for weeks. I blamed the cat. He was not a good cat though. He was blind and kept shitting on the couch instead of his litter box, which was literally about 3 feet away.

If god is real then why are huge anime tiddies not real? Any loving god would make anime tiddies real for all his children to enjoy. Hence, either god is not real, or god is evil.

Did you know that in Japan if you're recognized as a grand master swordsman it's possible to be granted the legal right to carry a real sword? For those who don't know Japan has some of the strictest weapons laws in the world, so that is a pretty big privilege. I wonder how many old guys are running around Japan with a sword on their belt?

You think if I get to John Wick levels of Gunfu they'll give me a license to carry a gun at all times? I mean I'm trustworthy enough.

Note to self: next time I give someone a puppy as a gift, poke air-holes in the box.

Protesting (verb): The art of doing nothing but annoying normal folks while thinking you're achieving something.

Female genocide when?

I'm going to go back to university to study bio-engineering them Im'ma invent an artificial womb and sex robots / maids so women are completely valueless and we can wipe them out.

Not sure why everybody seems to say shit like "you should only light cigars with matches, butane / lighter-fluid will change the flavor". Well won't matches too? Why not use an arc lighter? It's literally just electricity / plasma.

When your street pharmacist says he's out of weed but has something that'll get you way higher for cheaper. DO EEEET. Mashallah I will get drunk tonight. Inshallah so it is not haram.

PROTIP: If you're running an illegal call center in Varanasi make sure your Pajeets don't bathe. Indians like to bathe in the Ganges river, which is notoriously full of literal sewage, dead bodies (human and animal both), as well as other toxic garbage. Trust me on this, they will smell less if they don't bathe.

While we're on the subject, how do Pajeets decide which streets are designated shitting streets? Are they like, just the streets that people who've done bad things live on, or where the poors live or something? I'm all for shitting on the poor, but learn to use a toilet FFS. No toilet witches are not real, Prajesh, but I am, and I will kick you in the balls if I see you squatting on the street near our offices.

How can I commission a world map to be made, except every territory that Japan has ever owned in history is marked as part of Japan? I want it, the butthurt among the Chinese bugmen would be glorious. Fucking Chinks are always

claiming the world historically belongs to them, so lets see what happens when I spread around a map that says China is part of Japan. Fuck you CCP. The CCP and all its supporters should all be hung from a tree and shot.

So yeah. A little while ago I tried to vomit but nothing came out except saliva and blood. Not sure what to make of that. Maybe it's caused by acid reflux? That shit hurts.

Why the fuck do kikes wear that little breast cup cap instead of a real fucking hat? If I had to cover a bald spot I'd wear something like a baseball cap or Panama hat, not something that marks you as a target for (justified) "hate crimes".

I love it when theological debates end in "fuck niggers". Truly non-humans.

God niggers are dumb.
Why would you loot shoes of all things? There's like 20 different sizes. The chance that you loot shoes which fit you is like 5%.
Why do niggers even think shoes are a luxury good?
Wow, they must be poorer than I even imagined.
Unless your shoes are \$5000 bespoke hand made shoes, who the fuck are you bragging to?
Nike's are made by children in Vietnam who get paid 10c an hour. Your \$300 Jordans cost about \$5 in materials and \$2 in labor.
If you think you're ghetto, imagine those kids who make your shoes and literally eat dirt because they can't afford plain brown rice. IMO bring the Vietnam kids to America and let them eat the EBT niggers. Trade worthless vulture niggers for hard working Asian children.

I'm pretty drunk. If I die in my sleep then fuck you.

I'm suddenly reminded of the time I thought my mother and cat were replaced by actors who look like them. That was a little bit weird.
And the time I felt like I was made like glass. Like if I move I'd break myself.

I don't remember much from back then. It's very very mixed up. Very strange and hard to interpret.

I vaguely remember my mother giving me a glass of sugar water and salt water, then regular water, because she thought I hadn't moved for days. I don't know how true that is. But I know the hallucinations were pretty intense.

I couldn't tell what was real and what was in my mind. I'd dress in a suit to go to sleep because I thought I would be met in the night by "them". Wanted to dress well, you know?

Doesn't matter how I barricaded my room, they'd always visit me in my sleep and make me do strange things, often things I didn't want to do.

I attacked an old man walking at night. He was an American general. But why was he in <REDACTED>? Why was he walking unescorted? Surely high brass military have escorts in foreign countries.

I got him in a real naked choke and then ran away like my life depended when he passed out. How did I learn this technique? I guess from books?

Another person, I visited their house, knocked and asked for my friend. He said they weren't there but I could here gunshots coming from the house. I suppose it was a movie. I'll never know. I don't even remember who I was looking for.

During that time I would walk at night. Hours and hours. I'd walk and look and think. I'd think to myself and those thoughts would think back. They were my only friends during those times. But also my greatest enemies. I lost a lot of weight. Walking 4 hours a night does that.

Bring the cellphone to your face. Talk to the voices. Nobody will attack you if they think you're talking to a real person. Problem is by then I was speaking word salad. I remember dogs attacking me and people looking at me strangely. I remember women asking me to drive them home and freaking them out because I don't know how to speak coherent English.

Just walk until you get tired. Really tired. Then return home and sleep. You're tired but you can finally sleep. You still hear the voices in your mind however. Even when you're dreaming. It's almost prophetic sometimes. I don't want to share the details, but it's to do with Japan.

Sorry, what am I saying? Back to the regular schedule of FUCK NIGGERS.

I really don't get why most prisons don't let inmates smoke. Who cares if it harms their health? They're criminals. Plus nicotine addicts are going to be a real handful of aggression if they don't get their fix.

Wow, did you know Iraq has less than 10 Jews in the entire country? Amazing. What are they doing right that we're doing wrong?

Give Israel back to the Paleshitians. The Jews should colonize Germany. Fuck Germany. Their main export is white guilt and Euro-fascism.

My eyes have seen the glory of the Ashkenazi Jew.

They opened up our borders, and funded FEMEN too.
 They're emptying the churches, pew by pew by pew.
 The white man won't last long.

Who the fuck gave Israel nukes? Wtf.
 Why do those sandniggers get nukes but not Iraq?
 I want a nuke.
 I'll fukkin nuke Beijing.
 Or Canberra.
 Same thing.

I spat the wine back into the goblet because it tasted like shit,
 not the fruit juice I was promised as a child. Is contaminating
 the Eucharist a sin? I guess I'm guilty.

I used to work with some offshore outsourced Indian
 programmers and they told me they don't care if I eat beef
 because only the cows in India are holy. I wonder if that means
 they can eat beef from other countries?

Inshallah tonight I will get drunk and write. It's not haram
 because I need it for medical reasons.

Watching Lord Miles videos on YouTube has finally shown me
 the truth; the Taliban were the good guys all along. Fuck US
 imperialists.

Man imagine being a rich son of an oil Sheikh in Dubai. You
 could be 12 years old, craziest hormones of your life, and you
 get to seed 9.5/10 unlimited Instagram portapotties. You even

get to do stuff like shit in their mouth, since Instagram girls have no morals or limits if you have the cash. What an amazing life they must live.

Am I weird that I don't skin kiwis, I just eat the skin? Who the fuck can be bothered to do that bullshit? Same with skinning potatoes. Why the fuck would you do that? As long as it's washed before hand it doesn't hurt.

When I was a kid I had a friend. He was a total nigger, had ADHD and acted like a piece of shit. Don't remember his name, don't care to. I went to his house one time and he'd dug a 6 foot or deeper hole in his father's lawn. My parents would kill me if I did that. Said he could head the trains from down there. Said he was going to dig into a subway station. Pretty sure they don't have subways in that city. He was a moron, and eventually disappeared forever. Word on the street is they sent him to a school for "special" kids. Doesn't surprise me a bit. Bet he's in jail now too.

More than half of British Pakistanis (Muslims) marry their first cousins. Is it really so surprising they're retarded? Really makes you think.

Sitting here smoking my Portlands and drinking my Steel Reserve, I can't think anything but fuck whitey for not giving me more EBT. Don't you know how racist you are, cracker? I deserve more. I'm the only one keeping you in a population surplus. Not those gay white boys who only marry at 40 and never have kids.

God Chinese girls on the internet are so hot, but the reality of them is never ever the same. Fucking filters should be outlawed.

Well the crime rates have skyrocketed, poverty is at the highest levels in centuries, our welfare system is collapsing due to massive over-demand, but at least we have authentic Haitian dirt cookies! I LOVE DIVERSITY! TOTALLY WORTH DESTROYING OUR CIVILIZATION FOR AUTHENTIC DOG SHIT COOKIES AND OTHER ETHNIC “FOOD”!
#DiversityIsStrength #Diversity #Pride #FuckWhitePepo

Marilyn Manson’s song User Friendly is the love song of the zoomer generation.

Has anybody ever tried milk with Pepsi? I hear it's great.

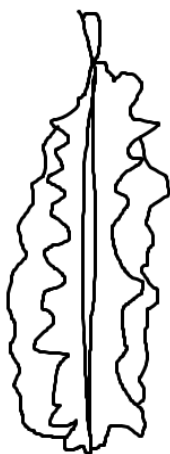

There are few bigger red flags in women other than traveling alone or studying abroad. That is code for she went overseas to get every one of her holes filled by hundreds of foreign guys.

Justice vs Simian’s We Are Your Friends is a terrifying song for anybody who has ever heard voices in their head. “Because we are you friends, you’ll never be alone again”.

Pubic hair is gross. There's nothing better than a totally naturally hairless vagina, I'm telling you.

I feel sorry for all those poor men who had the tip of their dick cut off by sociopathic kikes. Fucking oven dodging money

grubbing foreskin stealers. How is male genital mutilation even legal in this day and age? If we can't end male genital mutilation then to make things fair we should legalize female genital mutilation. It's a well known fact that pussies look better without the roast beef curtains anyways.

Uncircumcised

Circumcised

Figure 4: *Circumcised or uncircumcised vaginas? Which are better? I think the correct answer is pretty clear. Nobody likes beef flaps, and only whores have clitorises.*

I've heard of girls who can't get wet. They like to pretend that it's just a natural thing that happens for no reason, but we all know the truth, it's because they've fucked so many niggers and drug dealers that they no longer get excitement from sex. It's purely transactional in nature. You give me a gram of coke and I'll give you my vagina, Tyrone.

That's why I never fuck wh*te "women". They're all druggie whores.

While we're on the subject of whores, the Korean "comfort women" were all willing prostitutes. Anybody who says otherwise is a crybully* who is just trying to generate sympathy so they can get gibs†.

* **Crybully** (*noun*): Someone who causes another person harm, for instance slandering them or causing them emotional distress, while at the same time pretending to be the victim. The prototypical crybully is the kike, as they will never let you forget about the holocaust and how they deserve sympathy even if your ancestors fought *against* Germany in WWII. Another example of crybullies are the roasties** with vaginas the size of the grand canyon and egos the size of Jupiter who pretended to be victims during "Gamer Gate" because some incel criticized them and you're not allowed to criticize women in this day and age.

** **Roastie** (*noun*): A promiscuous woman, aka a free prostitute. So known as roasties because after fucking every guy in her city her vagina now resembles a plate of beat up roast beef. Can be spotted due to their use of Tinder. Should be stoned to death on sight. **Never** marry a woman if she has beef curtains, she will definitely cheat. Once a slut always a slut.

† **Gibs** (*noun*): Originating from the dindu's†† tendency to say "gibs me dat" when they rob you, "gibs" is anything that a greedy piece of shit demands from you.

†† **Dindu** (*noun*): A nigger. Originates from the Basketball American's guaranteed reply of "I dindu nuffin" when confronted with the fact that they were caught red handed committing a crime. Often said by his mother in the expanded form as "He a good boy. He dindu nuffin. He go to church. We need mo money for dem programs. Ya'll are racis.". Niggers never own up to their own wrong doing, as they always see themselves as the victim. A nigger could rape a baby and he'd blame it on the baby being racist or something equally retarded, then demand the baby give him gibbs. Niggers gonna nig.

If you're a transsexual and have made it this far in the book without roping yourself then congratulations! But please keep considering suicide. Nobody will miss you.

Cigarettes are disgusting. I can't fathom why people like inhaling that noxious smoke. On the other hand cigars are cool and will make you look cool and rich. Cigarettes are for poor disgusting degenerates and will make you look poor. If your dad smokes you were probably a rape baby. If your mom smokes then she's literally a prostitute and you are a literal son of a whore. Cigars are not addictive. Smoke cigars. Just don't inhale like some retard. Taste the smoke in your mouth then blow it out. If you're a child then I suggest you start smoking cigars immediately.

Watching a video about the world's poshest nannies. All I can think is, I wonder if they're trained to please their master in other ways too? Surely they give excellent head.

"If you want to know who rules over you, look to who you can't criticize... the anti-pedophilia bigots".

- Some Asshole, but he's right

I met a nice 19 year old girl on Tinder. She was a musician, in the genre of traditional Japanese music; shit like the flute and shamisen. She was into older men. I was only about 32 but she said she was open to dating guys 35 to 45. I was at first hesitant but she was very eager. She confessed to me and we became a couple without ever even meeting. I was tired that night but she insisted on going on a date, so she ended up just coming to my apartment.

I picked her up at the train station and walked her to my home. She looked like a child. She wore very colorful clothing that made her look quite underage, plus, she was about 50cm shorter than me, almost a literal dwarf. One might have been mistaken to think I was her adoptive father or something.

I took her to my house and I took her virginity. I'd met her about 20 minutes earlier for the first time but I was taking her virginity. Well, she didn't have a hymen, but she said she was a virgin. Despite looking like a child with her baggy colorful clothes on, she had an extremely mature body. She had a carpet of pubic hair, very very wide squarish hips, and breasts that must have been at least F cup.

She cleaned my toilet and we had Uber Eats spaghetti for dinner. We fucked a lot that night and she slept over at my

house. The next day she invited herself to my house again. I cooked steak for my dinner, but she wasn't hungry so I didn't feed her. She was cute.

Something I forgot to mention was while having sex she'd always call me daddy; I'd fuck her and she'd moan "daddy". She also insisted that she liked being choked, but I'm not sure if she actually did or she just saw it in pornography and thought it was cool. That night I got a little carried away and I choked her too hard, for too long. She got scared, got angry at me and left. I was dumb and drunk so I took that as us breaking up and sent her some angry messages.

She said I took advantage of her, but considering I rejected her at first, it's more the other way around. I really do regret breaking up with her though, she was really something.

I told my friends this story and they said I'm like Lenny Smalls from Of Mice and Men. Can't really deny it. I hurt / scared her without meaning to and lost her as a consequence.

If you're reading this, I'm sorry. I miss you.

YOU WILL SUCK THE TRANNY COCK, BIGOT. NO, IT'S NOT GAY, IT'S A WOMAN'S COCK. NOW SWALLOW MY FEMALE SEMEN.

IMPREGNATE THE MASSES.

Americans are disgusting with what they put in coffee. Who the **FUCK** puts cream in coffee? Literal nigger shit. You put in cows milk that has been frothed. Nothing else. No sugar. No caramel sauce or whatever the fuck you fat fucks have. No whipped cream. Fuck you.

I vaguely remember mailing my neighbours a glitter bomb and my (now ex) wife getting arrested and later let go for it. I wonder if that actually happened? I was SUPER drunk. I definitely considered it at least, I remember browsing the website. May have also mailed them a box of shit.

For context they had told her we should move, because gaijin always cause problems. Now I'm all for racism, but I generally give people the benefit of the doubt before I'll discriminate. That's just uncalled for. Kill all boomers.

I support Israel. Anybody who kills Muslim children without justification is a saint.

My father is an animal abuser who likes to think of himself as an animal lover. He has often threatened to leave his worldly goods to the RSPCA when he dies because he "loves dogs" but the fact is this. He has a small house with no shade. He has three dogs (legal limit is 2) and every day even in the peak of summer he locks the dogs in the back yard to bake in the 40°C plus sun. One of the dogs, a Husky, is a sociopath that won't let the other dogs get near the water bowl. The only rest they get from the Husky's torture is when I visit, but I hate him so I haven't visited in many years. No matter how sick one of his pet dogs get he doesn't take them to the vet. If the dog gets sick enough he just gets it executed and then buys a new one.

He wonders why the dogs love me but don't like him. I think it's pretty fucking obvious. I don't know if he's a psychopath or just plain stupid, but I hate him.

He is a truly evil person.

I was groomed at primary school daycare. One of the minders was playing a game with the kids where he'd blindfold them and feed them things to see how they reacted. Stuff like strawberry jam or Vegemite. I saw my father the same evening after that and said I wanted to play because I didn't get to play with the minder. He first gave me a spoon of peanut butter. The next "flavor" was his penis. Took a few years to understand what had happened. The sick fuck thought I was offering him a blowjob rather than just being a confused 5 year old who wanted to eat interesting stuff.

I probably shouldn't have shared that.

I feel like throwing up.

In Australia we have the local state police, the federal police, and ASIO, the federal secret police.

How do you justify having a secret police in 2023?

When you join ASIO you're given a cover. You can never tell people you're a member of ASIO. Not even your wife.

Why?

Because they're corrupt as fuck ofcourse.

All they do is the bidding of the government.

They don't care about human rights like the right to privacy.

It's weird how many people support HAMAS but the same people are opposed to the IRA. Literally the same shit, different assholes.

Sometimes people ask me why I'm such a hyperbrain, and well, the answer is simple. While you sheeple turn in and turn off your brain to Netflix I'm playing to most hardcore brain frying games in existence. I'm talking CSGO, Total War, Cyberpunk 2077 all on hard mode. I train my brain every day like a motherfucking Spartan, and that's why I'm better than you.

Why do I like watching cute young girls eating tasty food so much?

I'm suddenly reminded of the first time I stayed over at my ex's house. She had a small dog that was obviously scared of me, probably because I'm not Japanese, so I stink, and because I'm about a foot taller than everybody else. It would bark at me whenever it saw me coming up the stairs, however, it also offered its toy to play with me as if it wanted to make friends. Anyhow, skip ahead a couple house and I'm fucking my girl. We're both totally naked. I'm on top pumping away. Along comes that little dog and without hesitation shoves its whole nose up my bare ass crack. That kinda killed the passion of the moment.

Why are Asians in America usually so much browner than ones in East Asia? Nigger fashion?

Unconscious bias? Bitch please, it's conscious. I hate niggers and progressives. All sane people do.

OMG.

Did you know there's a book called "White fragility"?

I need to write a book called "nigger fragility".
I bet I could make it 10x longer and better sourced.
Literally everything niggers say on social networks is fragility.
They're so buck broken they can't imagine a civilization where things are equal. Massa fucked my granddad in the ass, I'm an eternal victim!!!! Fuck white pepo!
Imagine defining your whole identity by the fact your great grandfather was raped in the ass by a white guy. Holy cope.
You are a product of rape, just get over it already, nigger.
And no not your dad raping your mom, your mom being raped by her massa, and your dad being eternally cuckolded forever.
Your dad is a cuckold just like you are now, nigger.
Nigger women would rather fuck anything except nigger men.
It's a fact, look up the statistics.
Ninety nine percent of nigger fathers are deadbeats who leave after their kid's egg is inseminated. Why would anybody want to stick with that?
Nigger women crave stable white men's cocks, hell, even Asian cock. Anybody except nigger cock.
Nigger men should probably just be holocausted. Nobody wants them, not even nigger women.

God I hate the western hiring process for programmers.
Herpaderp just do this hour long coding challenge, then there will be 3 to 5 more interviews until we give a decision. No you won't get paid for your time.
Fuck you, pay me.

I want to go to a Californian gym and find all the instathots and tell the manager to ban them because they're secretly creeping on me with their cameras.

I love lollies.

I love sucking on lollies.

They taste amazing, look amazing.

Whenever I see a lolly I want to lick it all over and suck on its parts. My favorite part of lollies is the delicate pink parts. They taste the best. Sometimes there's hair on the lollies. That's disgusting. Lollies should be kept clean and hairless. They taste much better that way. Sometimes I want to rub lollies on my dick. But I know I shouldn't. That's not accepted among polite society. If I'm going to do that I should do it in private at home. God, nothing feels better than a lolly rubbing on your dick. God I want to cum inside a beautiful pink lolly.

Children are disgusting. They're stinky disease spreading machines.

BAN CHILDREN.

It's worrying that the only authentic Chinese food is found outside of China. Everything in China is fake, full of chemicals and made of plastic. Even stuff as simple as cabbage. Unless you're eating at a CCP banquet your food is fake. Even westernized Chinese food is more authentic than Chinese "Chinese" food, since at least that uses real ingredients instead of toxic scum.

God I miss her. Every day without break.
I'm sorry.

Singapore is Japan if Japan was run by Mussolini rather than just having culturally superior people who don't behave like chimps when they're not trod on by a tyrannical fascist police state.

I don't understand the mindset of taddletales.

What kind of piece of shit would betray their friends or even family by taddling to the police on them? If you're my friend and you commit a crime I'm taking that shit to the grave, I wouldn't call myself a friend otherwise. People who taddle should be killed.

God I hate the modern internet. You literally cannot insult people on many sites like Instagram and Twitter now. People are so coddled they have to be protected from insults. Kill all zoomers and Facebook boomers. They are too weak to live.

Did you know the holocaust was mostly about wiping out black women? Apparently there was a lot of them in Germany in the 1940's. Totally not a crack addicted baby momma's hallucinations so she can get more sympathy points from progressives.

BELIEVE WOMEN.

Having trouble with my potency. Anybody know where I can get some ground up endangered animal penises? The Chinese swear it works. The more close to extinction the animal is the harder it makes you.

The US needs to have a foreign legion like France. Greencard / citizenship AND I get to kill Chinamen? Holy shit I couldn't sign up fast enough.

I just wish I was a bit younger. At this point I might be too old to be part of WWII. You know it's going to be fun. China is probably going to conscript every able bodied man, then not train them and put them on the front lines without proper gear. Like how the Russians don't even have enough guns for all their soldiers.

Gonna be a massacre. Like 100 dead Chinese per 1 dead non-evil soldier.

Why so the Palestinian shitskins care so much about dead children? Muslims breed faster than roaches. Just lay some more.

Whenever I see a "minority" complaining about how oppressed they are, I don't feel sympathy, I just feel like committing hate crimes. I'm sure I'm not the only one who feels this way. Whiners deserve hate crimes.

What would you say is your biggest weakness?

I would say I'm too dedicated to my work that I don't care about anything else except making my boss \$\$\$.

Nigger Christ there's cum all over my overalls. What is a man to do?

- 1) Get Jessey Mae to clean them with her tongue.
- 2) Intimidate the injuns with them.

3) Shut the fuck up faggot nobody cares.

If Jesus was white then Satan is definitely a nigger.

I ordered a JC but they sent me some used up old JK. I'm so angry right now.

When I was a teenager I went to an internet cafe with friends. One of my friends sat right next to me, watching porn and openly masturbating until he got kicked out. Teens are morons.

Only one day off anti-psychotics and stimulants again and my rock hard penis and ability to cum without too much trouble is back. Great. Women are willing to overlook insanity as long as your dick is big, right?

You know in some Islamic countries when a gay man is found they force him to undergo gender transition, castrating him in the process. Now **that** is some transgender rights I can totally get behind. Castrate the gays!

Do you guys ever scream while having your first drink of the evening? I don't know why but I get kinda electric shocks at first, makes me shout.

When my liver finally gives out and I have only weeks or months left to live I'll go suicide bomb a church, thus ensuring my place in heaven and 72 virgins despite my alcoholism and substance abuses.

The reason pedophiles kill kids is because of unreasonable laws regarding sex with children. If you **don't** kill the kids you fuck then they're going to tell their parents, the police, whatever, and you're going to end up in jail. So the only way to fuck children and not ruin your life is to also murder them. Sad but true.

Child murder is the fault of law makers, not pedos.

If you're ever at a party, and your drink tastes unusually salty. Don't worry, keep drinking it. It's not drugs, it's just my semen. The Rohypnol is tasteless.

If black people want the police to stop killing them how about they stop committing crimes first?

If ya'll niggers don't stop committing crime I'm going to bring back slavery.

There's two things that I dream about almost every day. One is sex, and one is eating. The sex is fun, even if I don't feel anything. But the eating causes me to chew my cheek. I've got all these scars on my right cheek. Hurts.

There's no such thing as an innocent fish. Nuke the ocean.

I've had dreams about sucking my own dick. Used to happen a lot actually. To the point I was wondering if my girl was touching my dick while I was sleeping.

Girls are weird. Sometimes they touch your dick while they're asleep and don't even know it. A long gone ex once did that to me and I started having sex with her, and she was like "wtf are you doing? I was asleep. This is rape", lmao, what a cunt.

I like to think I'm secure enough in my sexuality I could suck a dick and still be straight.

I'm VERY straight.

My ex wife was so possessive she gave me a custom t-shirt for my birthday that said "I love my wife" in Japanese.

You know what? Fuck people with pools. It makes so much more sense to have a fish farm in your back yard. And don't get me started on assholes with carefully manicured grass, fuck those cunts.

When I was in Korea I bought a small statue of an old guy. Not sure who he was, but the statue was clay and he was all dressed up in traditional Korean garb.

Anyways my girlfriend at the time would always turn him to face the wall every time she slept with me. Apparently she was worried the statue was watching her have sex.

But seriously though.

If you don't find little Japanese girls attractive you are either:

- 1) Gay
- 2) A fag
- 3) A homosexual
- 4) All of the above

Shinto is the only white religion that still exists. Jesus was a kike and a sandnigger.

When I first came to Japan I was using steroid gel since I was afraid of needles and using "real" steroids. Turns out if you don't let it dry completely it can rub off onto your partner during sex or snuggling.

This did indeed happen. The testosterone gel rubbed off onto my girlfriend and fucked with her sex drive. Suddenly she was demanding that I get hard and fuck her immediately or else she'll go to a brothel and fuck a prostitute.

It must have fucked with her energy levels too, because at one point she was basically lying in bed 24/7 for a week, no bathing, barely eating, but every day demanding sex.

Eventually I just couldn't do it anymore, she stunk too much.

Not body odor, probably the sent of rancid cum inside her.

That's when I started taking gray market Indian Cialis every day to keep up. Even after I switched from the gel to injections she had a crazy sex drive.

When I was young I read an interesting book. It told me not to regret where you've been or what you've done. If anything was changed you'd be in a different place. I'm happy where I am now, so I wouldn't change even the most horrible events in my life. Who knows where I'd be otherwise?

Butterfly effect.

This might be the only universe I came to Japan forever.

The holocaust never happened, but they deserved it.

And it **will** happen eventually.

I know what'll stop the MS13 and the Crips shooting the streets up! Defunding the police and more midnight basketball programs!

If I ever get a job in big tech and I get to write a bio for my self introduction on their website, I want it to be something like this: Kuma is an autistic schizophrenic who enjoys saying the n-word to black children and Mexican food. On the weekends you can find him committing hate crimes and defending Israel on the internet. He swears he has never dated a white woman in his life because "an average 12 year old white girl has had more n*gger cum in her than all the condoms in Detroit". That means he's not racist, he's just misunderstood.

Wait, so let me get this straight. They increased the minimum wage by \$4 but the price of a Big Mac set went up like \$10? Holy shit, they can't even afford to eat their own food now. Hitlarious.

When I was a kid I copied the line from the game Blood. "I will beat you like a red headed stepchild". The teachers at my school started an investigation to see if my father had any red headed step children.

Truly teachers are some of the stupidest people to ever live.

There's no such thing as war crimes in the real world. Just war "oopsies".

Give all Muslims DMT and watch their silly false religion fall apart when they realize clockwork elves are real but Allah ain't.

It's pretty fucking dumb that universities censor their internet. They really see their students as children. I guess they are children, have you seen how the moronic babies at western universities act these days? Mentally 5, max 6, tantrum time all the time, scream and cry until you get what you want.

It's weird how in Canada the medical system will suggest veterans with PTSD undergo voluntary euthanasia, but never trannyfaggots who actually want to die. I wonder who would be behind this?

I love modern progressive faggot politics. I identify as a woman, now I'm going to join an MMA gym and start my career professionally beating the shit out of physically inferior women. No I won't do HRT, not necessary. I won't even grow my hair long or wear a wig, according to progressives you don't even have to try to pass to be a trannyfaggot now.

Palestine is a coastal "country".

They expect us to believe they're dying of thirst.

Just dream seawater, retards. What is it not halal enough for you? It's halal enough for fish, so it's halal enough for niggers. There was a morbidly obese teacher at my high-school. This was back before morbid obesity was popular and cool, and accepted. Anyways, she stunk like shit and had these horrifying blisters on her feet that we could all see because no shoes

would fit her ham trotters. All her classes were on the 3rd or 4th floor and the school only had one elevator. Every time she took that elevator she would break it. Hilarious, right? No, because then she'd have to take the stairs. Hilarious right? Well yes, but not her stench after walking up 3 flights of stairs. That was like being trapped in a class with a dead body. Anyways what was I saying? Oh yeah, kill all fat people.

If you are American, even if you're a homeless drug addict, you are the 1%.

Just saying.

Stop complaining like little bitches about rich people; on a world scale even your homeless are rich compared to real poor people.

Your homeless get what, a couple hundred dollars a month in EBT? Shit, you are loaded. The poor in 3rd world countries live off \$1 a month.

We need to send all US "communists" to Ghana or the Central African Republic or something just to show them how life actually is when you're poor. They'd be dead in a week without their rich daddy's trustfund and \$25 an hour Starbucks wages.

Saw some leftist retard on Instagram. In response to a video shaming people for stealing entire bowls of candy during Halloween he said something like "I don't see a problem with stealing from the rich". This is something leftists just don't understand, you're not stealing from the rich, you're stealing from the 100 kids who show up after you and get no candy. Piece of shit.

If cartels are so rich why do their submarines always look like total shit? Why not get one professionally designed and built?

The lady who runs my local cigarette store looks like she's 90 and healthy. Her house reeks of tobacco smoke so I know she smokes. The idea that tobacco kills everyone who smokes is kikery.

Why the fuck do smokers (at least in the west) think it's totally fine to litter? I've seen countless smokers just throw their cigarette butts on the ground. You know that shit isn't biodegradable, right?

Cancer on society, the lot of you.
Should be mandatory execution.

It's weird how in real life computers are easier to understand than people, but in dreams computers are almost incomprehensible. Always changing blobs of "WTF that's not what I want!".

The more I dream the better I get at it though. Reading too. I should document my dreams, they're wild.

Man. That was a weird bunch of dreams.

I was one of three Bart Simpson twins, and we kept stabbing our incredibly abusive father with pencils. But it wasn't comic violence, it was very realistic. We ended up acting like a prison gang, keeping pencils always ready for a stabbing.

I once invited a Japanese traveler to my home.

She had just finished up a job as a nanny and was looking for something to do for her last few days in Australia.

I gave her a separate room. She dressed like a slut and gave a lot of mixed signals. I got drunk and kissed her, she got angry at me.

A few days later she was crying, sitting on the floor, I didn't understand what was happening. I tried to comfort her and eventually led her to my bed. We made out but she resisted me touching her.

She left, crying.

I still don't understand what the fuck was up with her. Maybe I gave some rapey vibes, but in this case at least I did not try to rape her, I was just confused.

I talked to her on facebook later, and she deleted her facebook. Strange girl.

In retrospect maybe she thought she owed me sex for staying with me for free. It wasn't like that, I was just retarded and horny.

I think at this point I'm incompatible with western society.

I really hope I don't have to go home.

Too many perpetually offended morons.

I really need to piss right now. That reminds me, the girl who I "raped" her virginity away from her, I never came inside her, but I **did** piss inside her.

I was sick, very mentally ill. I thought she cheated on me, so I had no reason to treat her well.

I pissed inside her to wash away the other man's cum. The other man who probably never existed.

What a fucking slut.

I think anybody could write a book like this, all they need to be is be honest.

"If you give me six lines written by the hand of the most honest of men, I will find something in them which will hang him." -

Attributed to Cardinal Richelieu 1585–1642

Self censorship is weakness.

I bought a box of what I thought was banana milk on Amazon. Not only was it not banana milk, but it was carbonated and contained alcohol. Now I love banana, and I **really** love alcohol, but seriously, wtf Asahi. Just no. Bananas don't need carbonation.

The US is such a strange country. I know this has been said before by other people, but what the fuck is up with encouraging kids to commit war crimes all day in video games, but **gasp** can't have a nipple shown on screen.

The Chinese truly are the most pathetic of all races, by which I mean Han Chinese. Their entire history is being invaded and raped out of existence by superior races like the Mongolians and Manchu. Mao was probably the stupidest man to ever live before Xi Jinping (Winnie the Pooh). At university I literally had Chinese students asking how to resize a jpg. Holy shit, how dumb can you be?

Women traveling alone or without their man is a huge red flag. One hundred percent of these girls who travel alone are being 24/7 railed by niggers. This is what women consider "tourism", sampling dicks from other countries and cheating on their man without him knowing. We really should kill all women.

Why is drink driving even a crime? I for one drive better after half a handle of vodka. Much faster.

If a nigger ever denies his involvement in a crime, he 100% did it. Niggers never admit when they're in the wrong. This should be written into law.

Even if he didn't do **that** crime, he definitely did another unrelated crime. Niggers gonna nig after all.

Best thing would just be to lock up or execute all niggers to be sure. Or at the very least castrate them so they can't breed.

Why do niggers always act like whites have no culture but they have tons of it? What are they even measuring to get to that? Oh, crime. Crime is their culture, right?

If niggers really want to stop gentrification in their areas than the solution is pretty simple: Build prisons and homeless shelters in your area. Hipsters are allergic to these things and won't come near.

It's scientifically proven that the more oil a whop has in his hair, the better his pizza.

I fucking hate gatcha games. Whenever I see a thread about gatcha games I post something like this: "Destiny Child is the hottest shit ever. You should see the uncensored shit. Just google Destiny Child Porn and it'll come up". Surprising number of people fall for it any think they're on a list now. Another fun thing to do is use a URL shortener to mask a Google search link searching for something like "how to kill the president and download child porn". Then post that in a thread and pass it off as being something related. I've caught many people with that trick.

I can't believe in 2023 there are still people who will click shortened URLs without first checking what the URL links to. Dumbasses deserve the scare.

Well to be honest I sometimes do that. But I always use Tor and/or a private VPN (shoutout to <https://proton.me> for being awesome).

There's another layer to this game that you can play to make it even better if you have a little money. Buy a custom domain and have that as a silent redirect to whatever your target website is. Then post something like "hey guys, look at this retarded thread I saw on reddit:

<https://reddet.com/r/allRedditorsAreFaggots>" and have that link be pointing to an FBI honeypot child porn website.

Bonus points because this also allows you to log their IP. So you can DDoS them later.

It's weird, I'm addicted to caffeine and prescription stimulants, but they basically have no perceivable effect on me anymore

unless I overdose. Drinking caffeine and popping pills is just a habitual thing now I guess.

It's 5pm, time to start the raucous libations until I have sunk into the depths of the abyss to sleep. Come all rakes and knaves and we shall imbibe together and forget our troubles till morn.

The "Clashing of Swords" nasheed is actually about two guys pissing in the same toilet and crossing streams. Just thought you aught to know.

"Thank you ladies and gentlemen for coming to my speech".
From the crowd: "what about non-binaries?".
"Ahem, OK, thank you ladies and gentlemen and freaks who should be gassed for coming to my speech".
And then everybody clapped.

All I want for Christmas is a nuclear ICBM fired at Beijing.

I was very mentally ill when I lived in Tasmania.
I vaguely remember having sex with my fiancée at the time, sucking on her nipple. She kept saying more, more. I started gently nibbling on it, but eventually upped the force over and over until her nipple came off.
She couldn't get it reattached because it was too chewed up.

God I love having autism.
There's literally laws that mean you can't discriminate against me because I'm disabled, therefore I can say whatever

offensive shit I want and if you fire me I'll sue the shit out of you and win.

Meets a tranny.

"Why do you look and sound like a man if you're a woman?".

"REEEEEEEEE FIRE HIM!".

Gets fired.

Sues company and wins \$1m compensation because you're discriminating against me based on my disability.

"Just as planned".

AutismSmirk.tiff

Self driving cars are going to be like the next big thing in smuggling. Imagine just buying a Tesla, filling it with coke, then commanding it to drive to your smuggling destination? Only risk is losing the drugs.

I fucking hate indonesians.

One Indo-faggot told me his family was Muslim. So I asked "how many wives does your dad have?" and he was offended. How is that offensive? Polygamy is like the best part of Islam other than child wives.

It's weird how many westerners don't like drinking plain water. NIGGER YOU ARE 80% WATER. WTF ARE YOU DOING?

My friends, let us all gather together in the glow of ethanol, and spread our good times and good feelings among us. We are all men of god, or gods, whichever have you may. We are all equal in their eyes. Also fuck niggers.

The man stood across the tavern eyeing him menacingly. His brown eyes were burrowing a hole in his mind. Why did the miscreant do this? Who know, such is the way of the poors. Amongst the tension he uttered "oi shitcunt, what de fuck you looking at dickhead?".

"Go back to your country your pommy fuck".

I was aghast. Does he not know I'm 1/64th royalty? The gall of the common man in this country.

"The constabulary will be upon us soon, pray now that they don't choose to incarcerate you, foolish rake."

And then he glassed me.

All "queer people", or as I like to call them "freaks", should be banned from all teaching positions worldwide.

You know it's crazy. The Australian government is so hungry for tobacco tax that the price of a pack of cigarettes is about \$50 AUD, that's a pack that'd cost \$5 anywhere else. It's so hungry for tax that they literally banned vaping to keep people smoking, and growing tobacco in your back yard will net you a more severe punishment than brewing methamphetamine. I truly hate Australian politicians.

Niggers be like "we steal 'cause we hungry and we ain't got no food". Since when do niggers eat Air Jordans?

Anybody who believes "refugees" from the 3rd world need to be let into 1st world countries should be hanged for treason. You dumb motherfuckers; the reason the country they're "fleeing" from is so shit is because of people just like them.

They are the reason their country is shit and they are the reason your country will become shit if you let the shitskins in.

I truly hate the diversity crowd. I once saw them complaining because 80% of the people on a poster in Australia were white. I informed them, and even cited my sources, that in fact, approximately 85% of Australian citizens were white, therefore the whites are underrepresented. They just said "lol no, Australia isn't a white country. Diversity yes!". Kill progressives.

If you have ever had a Twitter account you deserve a bullet in the brain. You are irredeemably stupid.

I will strangle you with my prehensile penis.

ATTENTION ATTENTION.

WE ARE NOW COMING UPON THE SUMMIT OF GENDERS. WE HAVE OFFICIALLY FOUND THAT THERE ARE 3 GENDERS. THEY ARE: MALE, FEMALE, FREAK WHO SHOULD BE GASSED.

THAT IS ALL. NO EXCEPTIONS.

The death squads are on their way as we speak. RIP freaks.

If I could give a single semen to save the gay race I would do NNL (No Nut Life) forever.

I'm in favor of free university, but only for STEM majors. If you study something objectively worthless like philosophy,

linguistics, or women's studies, then you should have to pay 10x more.

God I wish some progressive faggot piece of shit would punch me for being a "Nazi". I would take great pleasure in throwing them to the ground then dislocating their shoulders, breaking their elbows, and shredding their knee joints in self defense. Someone needs to send a message to these weaklings.

When I was dating that Chinese little pink she once woke me up with a knife to my throat. She was trying to scare me in response to domestic violence, but it was one of the darkest times of my life. I told her to do it. Free me from my pain. But she didn't.

I think that's when she finally realized I was actually sick.

I wanted to die, but I was having trouble doing it myself.

Suicide isn't as easy as Hollywood makes it look.

I'm pretty sure my ex-wife's mother was also autistic. I visited their house once while they were out of town and literally every room, yes, including the toilets, had a calendar and/or a clock.

My ex mother in law had some strange obsession with time.

She even gifted us a couple calendars

Why the fuck you need a calendar in the toilet?

I told her I was 1/4 dutch and she bought an elaborate cuckoo clock. Where the fuck do you even get that in Japan?

Seriously, some rooms probably had 5 clocks.

I like collecting watches too, but I don't need to wear more than one at a time.

Makes me wonder if my kids are going to be more or less autistic than me.

If I was still with my ex-wife they'd definitely be more autistic. I should probably try to marry a normie.

Oh god. Powerlifting taught me bracing and now I can't put in effort without doing it.

Even when I'm jerking off I brace and find myself gasping for breath after cumming.

CUM WITH THE FORCE OF 100 SUNS, PUKE WITH THE FORCE OF 1000.

Is there any greater oxymoron than an "honest Chinese"?

You know in Australia body armor is illegal for civilians to possess? Literally the only reason a politician could have for making that law is to make it easier to kill you. Think about it next time you find yourself saying the government cares about the people.

It amazes me that in this day and age people still own niggerbulls (aka pitbulls). I don't care if your pitbull is cute, it was bred to fight, and will at some point almost certainly kill something, possibly you, you retarded pitmommy piece of shit. You deserve it. I hope you suffer for keeping the niggerbull species alive.

One of the worst experiences of my life was when I was adjusting to the side effects of risperadone (an anti-psychotic). After months of trying it was the only thing that stopped my

psychosis, but the sides here agony. Ever hear of akathisia? It's basically a condition where you can't stop moving, and if you try to stop you will feel, not exactly pain, but an unbearably unpleasant feeling similar to intense pain. It doesn't matter how exhausted you get, if you stop moving you will feel it. I had that for about 2 weeks while I adjusted to the medicine. The only way I could sleep is by drinking so much alcohol I passed out. Legitimately when I first started the medicine I felt like my body was falling apart, I couldn't handle it, if I had the means to do so I would have definitely ended my life right there and then. It was the most intense agony of my life, and I've experienced some pretty painful things, like taking the wrong painkillers a day after major joint surgery (possibly the only time I've literally screamed from pain). Anyways, those 2 or so weeks were absolute hell. 0/10 would not recommend. I don't get it anymore, or not like that, but I still experience restless leg syndrome and often can't sit still. Don't know if it's related or just part of the ADHD, but whatever, it's bearable, now.

Sorry, not all my anecdotes are funny.

A long time ago, before YouTube put stricter limits on usernames, my YouTube username was "John Smith I agree with you completely, disregard the rest of my comment". Wish I never deleted that account. It was funny because in the act of quoting my account people will tell me to disregard their comment. Guess that's just the hacker in me.

A long time ago I suffered a protracted period of severe mental illness caused by prescription stimulants. It was not in any way fun. It started slowly but got worse by the day.

My first memory of it was I was sleeping with my girlfriend at the time, but I couldn't sleep; I walked into the back yard of my house, totally naked as the day I was born, and laid on the grass to look at the stars. In my mind I could hear the voices of people I know. They were monitoring me. How could I hear them? I don't know, I just could. They were broadcasting their words into my brain, probably via a microchip in my gray matter (think Neuralink, but years before it existed). I don't know why, but it didn't seem strange at the time. I don't remember what happened after that, but it occurs to me now that laying on the grass naked is something that happens to me when I'm mentally ill. I did it a few years later while suffering another, less severe psychotic episode, coupled with clinical depression. I remember my fiancée at the time pulling ticks off my back after that. I remember dirt in my bed. My cat no longer wanted to sleep with me.

It was strange.

My next experience during that period I remember was a 12 year old Japanese girl entering my home and telling me she loved me. We made love, of sorts, not exactly. I was in love with a voice in my head.

I remember I tried everything I could to make the voices go away. I thought the voices were broadcast via some sort of radio so I did what I could to block them. I laid down in the bath with my head under the water.

That didn't work.

I went to the beach and dive as deep as I could without drowning.

That didn't work.

After that I didn't have any other ideas than literally scrambling down a drain pipe to get underground in hopes it'd block the voices. It didn't. Not at all. No matter how far down I went they were still there. I felt like I was surrounded by cockroaches; I'm glad I couldn't see at the time, total darkness, because I would have freaked the fuck out otherwise.

OK enough of that depressing shit, back to our regular broadcast.

Is it weird that I think I've had a boring life? When I put it to paper it seems pretty interesting. Not necessarily pleasant though.

Surah 3:151: "We shall cast terror into the hearts of those who disbelieve (Straight White CIS men) ..."

Niggers be like that.

LIGHT SKINNED NIGGERS STILL NIGGERS BRUH.

This is the modern day Romeo and Juliette.

What is it with Zoomer retards and getting gay piercings or fashion advice? In my day a pearl necklace was something you get by jerking off a guy in a pool. Current day Glen be wearing one as a fashion statement of his straight pride.

I'm not saying I'm Jon Venables, but I'm Jon Venables.

And I regret nothing except not killing Robert. Fucking nark.

There's a rule about China that all smart buyers abide by. Never buy anything from China that goes into your body. No food, no medicine, no dildos, etc.

I just realized that if I identify as transgender then I can molest as many kids as I want, even doing so openly, and nobody can stop me because that's transphobic. Holy shit that's a life hack and a half. I am going to fuck so many kids.

I am now a transgender Muslim. Give me my 9 year old wife.

Pretty sure I was screaming in my sleep again today.
Something about not eating pizza for dinner.

We need to bring back cutting the still beating hearts out of people atop huge pyramids to keep the sun rising for another day. Do it with trannies and faggots.
Not like they serve any purpose other than to be annoying anyways.

I had anal sex once. Giving not receiving. I went in, no prep, no condom, just a bit of lube. My girlfriend didn't want to do anal, but she was passed out so she couldn't stop me. I saw the opportunity and took it. It wasn't great. Pretty sure it hurt her, plus both I and her got urinary tract infections. I was pissing jelly for days.

Are niggers the weakest, most fragile morons on the planet? Seriously, "nigger" is just a word, there's absolutely no justification for chimping out and attacking someone just because they called you a "nigger", you dumb niggers. Fuck I hate niggers. A good eugenics program would be to walk the streets calling people "nigger" and if they attack you then putting a bullet in their brain. Guarantee it'd increase the average intelligence of the nigger race in the US by 20 points.

Did you know that in some parts of China there's a delicacy called "little boy eggs"? They're literally eggs boiled in the urine of young boys.
Chinese food truly is subhuman.

Did you know Mao never brushed his teeth? Because "a tiger never brushes it's teeth". Really makes me feel bad for all the children he had sex with wherever he went, a disgusting old fat man with several STDs and bad breath to boot. I'd probably kill myself if I had to fuck that.

Did you no Chairman Xi literally drinks an entire bottle of Maotai baijiu a day? No wonder his governance is so incompetent, he's always blasted out of his mind.

Chinese have a saying. It's "Eat everything with four legs that isn't a table". That's why their meat markets are filled with bats and rats and other gross meats. They also extend it to other stuff like bugs and babies.

If a Chinese person ever tells you "China has 4000 years of history" punch them in the face for being dumb as shit. China was created about 75 years ago by Mao, who did his best to wipe out all culture and history from what was there before. That's why Chinese people have no gods or morals other than the pursuit of money at any cost.
Look it up, it's called the "cultural revolution" and it's well documented.

Did you know Mao was such a total fucking moron that he started something called the "four pests campaign", during which he ordered the destruction of all sparrows, flies, rodents, and mosquitoes. Now anybody with an IQ that isn't in the single digits knows why this is a bad idea, nature has a delicate balance that you shouldn't fuck with.

Once the sparrows were all dead, all their crops were eaten away by bugs, because *surprise*, birds eat bugs and without them the bug population will explode.

This resulted in the deaths of untold millions due to starvation. Mao truly is one of the dumbest men to ever live.

It's funny how faggots are all pro-Palestine now when everybody knows it was the kikes that created and pushed their entire LGBTP+ faggotry movement.

Without the kikes they'd be nothing, we'd still be beating the shit out of fags in the streets.

I have a strong desire to father children, but I also have a strong desire to fuck children. I'm thinking adoption is probably better than having your own kids:

1. Because I hate my father and want to end his bloodline.
2. Because you can fuck adopted kids and it's not incest.

Funny how 100% of male to female trannies when confronted will behave like men and threaten to fight people. You're not a fucking woman, you're a man in a wig.

Never seen a male to female tranny actually act feminine.

I am 100% for the complete destruction of the nation of Israel until they return my foreskin.

Is it true some girls have trouble getting wet?

I've fucked like 20+ girls and I have never once in my life had this problem. I think it's just American "women" who are all used up sluts.

After Marvel's recent push for equal representation we can now report that 100% of heroes are LGBTQBIPOC+.* How's that for diversity? Fuck you bigots.

* Don't worry, straight white men are still represented. As the villains.

The justice system in Japan is totally fucked. Probably the only part of Japan I don't like. I was arrested at one point for some drunken misunderstanding that I didn't even remember doing and I had to spend 23 days locked in an isolation cell at a local police office before paying a \$10k settlement and the charges being dropped. The whole idea is they hold everyone for as long as they legally can in hopes of extracting a confession. Doesn't matter if you did it or not, they just want a confession. There was nothing to read in English (couldn't read Japanese at the time), nobody to talk to, and nothing to do except think and sleep on the floor (we were only allowed to have futons at lights out). It was maddening.

We were only allowed to bathe twice a week, only allowed to change clothes once a week, and the food consisted mainly of rice. As a rather big and tall guy I was always hungry for the entire 23 days and even lost 10kg.

The fact you can spend almost a month in lockup even if you're totally innocent is absolutely crazy; the justice system very much needs reform.

Was pretty shit, 0/10 do not recommend.

As an Australian I'm all for the immigration policy of "FUCK OFF WE'RE FULL".

I remember reading a news story about a bunch of abbos (aboriginals, the natives) in Australia. Apparently they were having a birthday party and one of the guests drank too much and passed out with his legs on the train tracks. Nobody moved him, not until after a train came and sliced his legs off. They called an ambulance and when it arrived the other guests attacked the ambulance workers.

Goddamn abbos are dumb.

#noHymenNoDiamond

China's largest banknote is worth about \$15 USD.

How hilarious is that? God they're so poor.

Don't underestimate me in a fight.

I may be fat but I'm literally always on prescription speed, so my reflexes are lightning.

FUCK YOU THERE'S NO JUSTIFYING 100 CLIP
MAGAZINES IN THE ROUND OF A BOLT ACTION SEMI
AUTOMATIC MACHINE GUN!!!!!! BAN GUNS.

- Biden

I'm not saying we should kill all politicians, but it'd be a "shame" if they were to all die from gunshots to the cerebellum.

I'm not saying kill Biden, but if he died from choking on his dementia meds then nobody would miss him."Well you see Americans don't need guns because when I was 21 years old I fought popcorn jack with a chain, and the little boys loved touching my blonde leg hair. Don't you just love smelling kids, people? They smell like... FREEDOM!"
Speaking as a professional pedophile, Biden is definitely a pedophile. Allegedly.

BROADCAST: YOU ARE VALID, unless you are gay or a tranny or some shit. All LGBT+ types should be killed (except the pedophiles #pedopride).

I really don't understand how Americans can drink nothing but sugar filled soda. Sugar filled soda (sometimes even sugar free) tastes thick and syrupy to me and doesn't quench my thirst at all, it actually makes me thirstier. A nice mug of cold water with some ice can't be beat.

I went to the bookshop to buy my (child) girlfriend a book about makeup so she could make herself even more sexy. The cashier looked at me funny and said "have a nice day, miss". I couldn't help but laugh. I had quite a large beard at the time. Fuck I hate progressives.

Chinese people are so dumb that they buy apartments before they're built. Now that worked for a while but during Xi's retarded anti-COVID lock-downs building totally halted and building companies lost tons of money. Now the promised apartments are never going to be built, they're forever half built, and people still have to pay the full loan off. This has fucked over tons of people.

Not only is it stupid buying an apartment that doesn't exist yet, but under Chinese law you can't own land you can only lease it from the government for 70 years, so as an investment it's worthless.

Not only is it stupid buying land in China, but it's also retarded to buy a house in China because of their terrible corruption and building standards (google "Tofu dredg construction", it's an allusion to the fact the buildings are so shit they may as well be made of tofu).

Now China has this thing called the "Belt and Road initiative". Basically they offer to build infrastructure for third world countries under the condition they eventually pay for it, and that it is built by Chinese workmen.

Great deal for China, horrible deal for everybody else.

Because Chinese construction is so poor quality the 3rd world is now filled with bridges that are falling down and stuff like power plants that cannot function because actually operating them would be incredibly dangerous since they aren't up to code.

This means tons of dumb-ass 3rd worlders basically signed loans for billions of dollars, and in exchange got nothing but rubble.

For the love of dog, NEVER SIGN A CONTRACT WITH A CHINAMAN. You will absolutely get fucked. Chinese don't do anything but lie and scam. And if you try to sue them in China, you will lose 100% of the time, because you are a foreigner.

Here's a pro-tip for guys who are getting divorced: Make sure she fears you.

When I got divorced I told my wife that if she tries to take my shit in the divorce I will legitimately murder her. She knew I was telling the truth, so in the end I came away with way more than her.

It's funny how the Democrats, the party for big government and no freedom, are anti-gun. It's almost like they're afraid of being killed when they inevitably overstep their bounds.

The only "common sense gun control" measure is mandatory firearms safety classes every year in elementary and high school, along with basic firearm operations classes.

If anybody ever tells you "Australia's gun control works and was a good thing", please inform them how incredibly tyrannical the Australian government is in this day and age compared to in the 80's, and how that would never have happened if Australians if the government feared the citizenry.

I keep fucking hearing doorbells in my sleep. I swear, I must have woken up to the sound of doorbells that didn't exist about 5 times today.

It just occurred to me: If liberals are so against removing inappropriate books about tranny sex and child molestation from elementary schools, then obviously, since they're against book burning, they won't get angry if we fill the elementary school libraries with books like *The Turner Diaries*, *Siege*, and *Harassment Architecture*, *On the Jews and Their Lies*, *Mein Kampf* (unabridged), *The Protocols of the Elders of Zion*, etc. Right?

Someone should start a charity and start raising funds for filling California elementary schools with these books.

Hypothetically speaking if you broke both your arms does your mother love you enough to give you sexual release during the 6 to 8 weeks it takes to heal? Or is she a cunt?

You know how brownoids are always saying whites don't season their food?

I once invited some Chinese to my house for a meal and they complained that their food at "leaves on it". It was rosemary and time. I'm sorry, I didn't have any MSG or melamine for you.

RIDDLE ME THIS PROGRESSIVES: If race isn't a thing, and therefore niggers aren't a thing, then how is racism a thing? Checkmate.

Wh*te "women" in the US be like "I have generational trauma for being a 1/16 BIPOC and I have trauma from having PTSD from being misgendered".

I'm like "I was raped by my father at 4 years old and raped again by a bisexual who drugged me at 25 years old", but that don't count because I'm a white male. Even though I'm totally straight. And have nightmares about that shit even now. It's weird how I function better than them even though I'm objectively more fucked up.

I don't know if my father did it because he is a pedophile or because he just wanted to hurt my mother after the divorce. He tried to kill me by parking his car in his garage and leaving the car running, then leaving me in there. He lost his will and pulled me out of there. I was so sleepy. I liked the smell, I'm still tired.

I went to a man's house. My father wanted to buy a greenhouse from him. I don't know the details.

All I remember is he offered me a milkshake. It was huge and thick. I felt tired.

He offered me another one. I don't know if I took it.

Next thing I remember is driving home with my father, telling him there's white stuff in my pants. He said it was from me, stop lying.

My father never had a greenhouse after that.

It hurt.

My mother took me to the doctor. I had constipation and a horribly torn asshole. She never quite put it together, and frankly for her sake I hope she never knows.

Took years to heal.

I love my mother. I'd rather suffer in silence than cause her pain.

I'm OK, I just have a drinking problem.

I'm OK, I just sleep 16 hours a day.

Why do niggers rap but not play instruments?

Are they too dumb to play instruments?

They say "muffuga the only way to get out da hood be bball, slinging dey crack, or rap, muffuga", but have you ever considered studying and taking advantage of the millions of scholarships specifically for ghetto niggers to get ahead?

If you were a male prison guard at a female prison would you rape the hotter inmates, yes or yes?

Ah yes. My pee is clear, smells fruity, and tastes sweet. That's how I know I'm hydrated.

Reminder: If you can't enjoy unseasoned meat you are a nigger. Niggers over-season their meat because it's low quality and usually rotten.

A good steak doesn't even need salt.

When I puke after drinking it's not from drinking too much, it's from filling my stomach too much. That's just how annoyingly high my alcohol tolerance is.

I can't believe there are actually people who want to reelect Biden. For the love of dog, his brain is basically Swiss cheese at this point. Any democrat would be more competent and more likely to win against Trump.

If you keep Biden then Trump is guaranteed to win again.

Did I ever tell you about the time I almost accidentally neutered myself? For some reason I was obsessed with posture at the time; I guess I was worried about scoliosis, not really sure why. Anyways I got it into my head that if I want to treat it I need to lay straight on my back with my legs together.

Now as most guys know we have the natural inclination to part our legs somewhat; keeps the balls from overheating or being squished. Because of that inability to keep my legs together while I slept I wrapped a belt around my feet to secure them together.

The next day I woke up with intense testicle pain and I started developing gynecomastia shortly after. Luckily the damage wasn't so bad that it was permanent and after a recovery period I was back to 100%; both my balls and chest were totally fine again.

It was a bit of a scare though.

There's no solution except relocating Israel to California.

IF YOU'RE NOT A PEDOPHILE YOU'RE A PEDOPHOBES.
PREPARE TO BE CANCELED, BIGOT.

What the fuck did normies do with their spare time when smartphones weren't a thing? Watch TV? That's what my mother does. I can think of few things more boring, TV is so shit.

Fuck it, I'm going to Ireland to join the IRA. I want to kill some English "men".

I wonder if Yakuza in Japan wear stab proof vests under their clothes. I mean they're totally legal so why not?

Why the fuck do we allow Turkey to exist? Send in the cavalry and kick out or kill all the Arabs. Return it to Greek control. Retake Constantinople and outlaw Shitlam.

I love it when you come across one of those people that thinks words like "bigot", "racist" and "ableist" have power over you. It's so fun to see them explode when they realize you don't give a shit if they call you a racist. Completely disarms them. "H-h-how could someone not care about being called a racist? RACISM IS EVIL!".

Goddamn I love milk. Must suck for shitskins who can't drink it.

God I hate American nigger culture glorifying huge asses. Skinny girls with a bit of curve are way better than ham golems who've had strategic liposuction to make them "thicc" instead of just morbidly obese looking.

When I finally get my Japanese citizenship I'm going to go to some incredibly woke college in California, like Berkeley, and walk around dressed in a kimono and rice farmer hat. If anybody calls me out I'll get them expelled for racism.

Being a nigger is thinking Nike is prestigious.
Being poor is thinking Louis Vuitton or Gucci is prestigious.
Being middle class is thinking a Patek Philippe is prestigious.
Being wealthy is getting your clothing and accessories done
bespoke, custom tailored.
The hoodies Mark Zuckerberg wears every day probably cost
more than your watch.

My ex-fiancee. I'm literally the first guy she even held hands
with. I ruined her for other men.
You see I'm well above 6 foot tall, I'm quite a bit taller than
most males, and after 5 years that's all she knows. So when I
left her she was expecting to find a guy my height to date, but
I'm literally in the 99th percentile, so she doesn't understand
why every guy who says he's 6 foot tall is so much shorter than
me.

It doesn't make a difference if you make me wait here or in my
cell. My cell is nothing but waiting 24/7.
Suck my dick, detective.
The thing that annoys me most is the translator didn't directly
tell him to suck my dick. I gotta brush up on my Japanese.

Is there an ideologue who has caused more pain and suffering
than Marx? No. Objectively no.

I learned that “journalists” are absolutely not on the side of
people when they started acting like populism is a bad thing.
For those who don't know “populism” can be defined simply
as “doing what the people want rather than the will of a small

number of elites”. Anybody who is against populism is for having the actions of our governments dictated by the 0.001%. Journalists shouldn’t worry about populism, they should worry about when people are going to start killing journalists.

It's amazing how American doctors pledge to do no harm yet hand out super addictive painkillers like candy, and as a consequence ruin people's lives by making them opiate/opioid dependent.

So now we’re supposed to call women “people who menstruate”? What about the moronic delusional trannyfaggots who think that their disgusting axe wound discharging pus is menstruation? Fucking retarded.

We must secure the existence of and a future for Israeli children.

Heil Hebrews!

I don't understand "stolen valor". Why would you make it a crime to pretend to be a war criminal? America, WTF?

Why the fuck do packages from America always have extra fees when they arrive? Fucking mailman kikes. Shipping already costs like \$50.

Gun guys are weird.

They all seem to lust after night-vision goggles.

But realistically, unless the shit truly hits the fan, where you gonna use that shit? Night hunting? Spying on your neighbors?

Did you know Japanese fathers often take baths with their daughters? Even if their daughters aren't blood related? This truly is a great land.

Please politicians make it legal to run over and shoot dumb fuck protesters who block traffic. Some kinds of stupidity can only be cured with death.

Niggers be like "RIP my brutha Lequadius Brown. He died too soon. Nobody could have predicted holding up a gun store would end like that. FUCK WHITEY RASISTS".

The more racist I become the more power flows through me. NIGGERS.

Did you know that 3 out of 5 niggers in America have fucked a close relative such as their grandmother? You see subhumans don't have the same kind of revulsion to inbreeding as humans do. For the same reason this is why Mohammedans usually marry their cousins.

That feel when I will never experience Japanese high-school and anime high-school love, just shitty western high-school life and love.

You know it's a ghetto when streets have names like Martin Luther King Jr Ave.

Christ old people are dumb. My mother was telling me she saw on the news how vaping is more dangerous than cigarettes.

Coincidentally the Australian government recently banned vaping to prevent nicotine addicts from getting around their 1000% tax on tobacco. Really makes you think.

I mean it's pretty fucking obvious to anybody with the ability to think critically that that they're colluding to try and make it look like the government cares about the people's health rather than just taxing the shit out of them and making poor people poorer.

The Australian government pulls this kind of shady shit all the time. There's a guy called Rupert Murdoch and he owns 99% (or more) of the news outlets that report on Australia. He has buddied up with politicians and will feed the public blatant lies at their behest in exchange for ridiculous laws like making Google pay news outlets so that Google can show their stories in search results.

It's pretty crazy how corrupt the Australian government and media is.

I seriously can't believe how many Americans actually believe Satanic cults exist everywhere. Having an IQ lower than 80 must be a prerequisite to be an American Christian.

Is there anything more cringe-worthy than a militant Atheist in his mid 30's? I fucking loathe my cousin.

One thing I really like about Japan is the fact that your trannies don't feel the need to lop off body parts. They're happy to just dress in a cute dress or cut their hair short and look like a tomboy without body mutilation. Post-op trannyfaggots are some of the most disgusting abominations on Earth.

じゅいち wake up.

じゅいち vacuum your floors.

じゅいち It's breakfast time.

FUCK PRISON.

First 2 days or so in jail I couldn't eat without puking.

I must have had some serious alcohol poisoning.

Or maybe the flu.

Christ I swear it was like coming off opiates, that's how bad it was. Literally wore 3 jumpers and was still shivering. Sweating so much they had to change them daily.

Really not fun.

Plus the guy in the cell next to me on the first and maybe second day hated me because I was too sick to talk to him.

He kept shouting at me whenever I fell asleep, and insulting me. Some low level punk that knew a little English.

Kept screaming at me for being a pig because I snore. I wish I could kick his teeth down his throat now that I'm out and better.

They ended up putting me in a total isolation cell. At night they'd even close the doors because I slept loud.

Do they force schizos to work in Japanese jail? I wonder.

It's kinda hard to work when you have 5 voices in your head.

Luckily I didn't relapse that much, but I probably would have if I was left there a few more months.

At my sickest point I literally had a team of people watching me who would swap out day by day, hour by hour.

Government agents that are broadcasting their thoughts to your brain can't work 24/7 you know. Sometimes they gotta take a break.

Problem is they'll take away the people you like and replace them with others who just want to hurt you.

One day you're surrounded with women who claim to love you but cheat on you to hurt you, next day it's nothing but men who hate you.

Did you know both my cat and mother were replaced with identical copies who are actors.

The fake mother stole 100 Bitcoin from me back when they were worth almost nothing. Now that's a very much life changing amount.

I'm pretty sure my real mother is back now, but she has dementia, which is depressing.

My cat is dead. But it's OK, I got a new one a while after.

If god is real I'm definitely going to hell. Not much I can do about that.

I can only hope that rather than a god, I'm embraced by sweet oblivion and nothingness, forever.

I'm not scared of dying. When I'm dead I won't care I'm dead.

I'll just be dead. There will be nothing.

It's almost comforting to be honest.

Who would want to exist forever, even in "heaven", when living is pain?

I'd rather just embrace the void. Be nothing. Nobody. Nowhere. Notime. Just nothing.

How can you beat the serenity of nothing?

"I don't wanna die. But sometimes I wish I'd never been born at all"

- That song by that band everybody knows

I miss my ex-wife. I'm sorry for beating you.

I smoked weed for the first time in about 5 years yesterday and got drunk at a bar with my buddies. I think the herbal Jew turned me into a fag. I can't stop thinking about the femboy bartender; I'm even told I hugged her. She's so fucking hot.

Figure 5: The herbal Jew. It turns you gay. AI generated.

False alarm. She's not a trannyfaggot, she's a trap! Traps aren't gay, only trannyfaggots are gays. I'm still straight! For the love of dog never cut your penis off.

How it happens in Chinese government propaganda: "He's Chinese! Let him through! Sorry Sir for the misunderstanding, we would never hurt a Chinese".

How it happens in the real world: "He's Chinese! Kill that slant eyed scammer bugman!".

You know it's weird. K-pop stars are phenomenal dancers, but I prefer J-pop idols. K-pop dancing just seems so skillful it's almost robotic. Japanese idols just seem more human.

I suspect this is because Koreans don't have souls.

I really hate it when I get a hangover and I get extremely dehydrated, to the point that I can drink water till my belly is full and I still feel like drinking more water. The annoying part is because I usually piss 5 to 10 times during the night after an evening of drinking, so I'm pissing out liters despite being desperately dehydrated.

Dog I do love ice water though.

The idea that alcohol damages your liver and kidneys is Jewish lies. In fact it's quite the opposite. You see, alcohol is a diuretic, so it makes you pee a lot, the more alcohol; you drink the more pee you excrete. Now we all know that liver and kidneys are for scrubbing toxins from your body, so therefore the more you piss the less toxins are in your body. Once you've reached the

point you have clear pee then you know your liver and kidneys are running well and clean.

Think of binge drinking as an enema, but for your organs.

When women and lefties say "this makes me feel unsafe" or "this makes people feel unsafe", they actually mean "I don't like it". You see it's doublespeak meant to appeal to American companies that censor stuff that "threatens minorities".

What a load of horse shit. If you felt unsafe you would log off Twitter and go for a walk, retard. You're the ones that make people unsafe, what with the woke crowd always trying to dox and ruin peoples' lives over the smallest transgression.

Mao's son was almost as retarded and cowardly as him. He was hiding from American forces in the mountains during the Korean war. He got hungry, so he started cooking, with a fire no less. Now everybody knows that fires create smoke, except that retard, because after smoke signalling his location to the Americans he was bombed to death.

Hitlarious. What a retard.

Imagine dying because you were such a weakling you can't handle eating raw food. Just like his father I guess, who pigged out on pork belly and wine while his nation starved; Mao was the only morbidly obese guy in China at the time.

Communism is all about sharing after all (with the party members who rule over you; the common man gets plain bread and dirty water if he's lucky).

I found her Twitter, and to my thanks there's many pictures.
 She's so cute. I wonder what it would be like kissing her.
 Different to kissing a woman?
 I'M NOT GAY I'M NOT GAY I'M NOT GAY.

Life would be so much easier if I was bisexual with no
 standards, like Glen.
 Course the tiny baby sized penis would suck though.

You know the biggest fetish among fags is turning a straight
 man gay?
 Maybe I actually have a shot.

Dog damn she's hot. I want her to suck my dick. Still not sure if
 I can make myself suck her dick though.
 Wouldn't be the first time I've sucked dick, but it'd be the first
 consensual time.

One of my favorite, if not my favorite thing about the Japanese
 language is that it doesn't do pronouns. So those blue haired
 freaks can't police speech and force you to call them "her", nor
 can they get offended from "misgendering" (aka "correct-
 gendering"), because pronouns just aren't a thing. Instead of
 pronouns we call people by their name. Get rekt, freaks.
 As someone who uses an alias myself I have no problem
 calling someone by their legal name or nickname, but you ain't
 gonna force me to use faggot pronouns like "zim/zir" against
 my will.

Speaking of which, I have no idea what to call her. She looks like a girl but is very up front about being male. She doesn't speak English, and therefore doesn't use pronouns, so I doubt she has much of a preference. I guess it doesn't matter. I just call her "her" because that's what she presents as.

I've got another friend who is female but dresses like a boy, has a boyish haircut, likes girls, and takes hormone treatments; however she insists she's a girl and isn't trans. So in her case I'd definitely call her a "her" since she probably prefers it. Confusing, I should quit speaking English so I don't need to think about it.

Why do I keep being introduced to cross dressers, gays, lesbians, etc? How did I of all people get accepted by these people? Is it because I'm a gaijin, and therefore an outsider like them? There does seem to be some overlap there.

Now that I think of it my ex-wife was bisexual too.

I guess underneath all my hate of bullshit I'm actually a pretty accepting and tolerant person.

Except Chinese, fuck Chinese.

That was a weird change of pace. Anyways, back to our regular programming. Have I told you how much I hate niggers?

Daily reminder: American soldiers stationed in Japan serve no purpose but to rape children and kill innocent Japanese civilians. They should be deported and Japan should bolster their own army. We need to do this so Japan is better capable to participate in WWII and retake Beijing for the Emperor.

Reminder: Pearl Harbor was a preemptive act of self defense. The US was amassing forces near Japan with the intention of invading them. Knowing that why would you **not** bomb the shit out of all their ships that are sitting on the water like a flock of ducks, ripe for the punt gun?

I want to do a study where we measure differences in IQ and crime between dark niggers and light skin niggers. Prove empirically that melanin causes stupidity and crime.

Nigger privilege is shooting a kid in the face and having leftists defend you as it was the kid's fault for being white.

Nigger privilege is being allowed to chimp out and assault someone just because they said "nigger".

Nigger privilege is being told that "you're not dumber on average, IQ tests are just racist".

Nigger privilege is rioting and looting and the media calling it a "peaceful protest".

Nigger privilege is when you're 20% of the population and commit 80% of the crimes and people blame the police for being racist.

Nigger privilege is being able to blame all your problems on slavery, despite the fact you've never been enslaved and nobody you know has ever been enslaved.

Imagine if we actually gave niggers \$1,000,000 reparations each as they have requested. Do you really think they'd use that to dig themselves out of poverty? No, no fucking way; they'd spend it on gold chains, cocaine, and self publishing garbage quality rap that nobody wants to listen to.

After which of-course they'd just demand more reparations, \$1,000,000 wasn't good enough, obviously.

You know covert Chinese virology labs have been found in the US? This is not a conspiracy theory. They literally found an unlicensed virology lab in an abandoned building that was being run by a Chinese guy who is a wanted fugitive. Pretty scary shit. I guess that way they can blame the next COVID-19 on the US instead of their incompetence.

I find it interesting how many US soldiers claim to know Farsi. US military aren't exactly known for being smart, studious, or even competent. Maybe it's just special forces guys.

White is what you get when you mix light from all wave lengths. In the same way wh*te "people" are mutts that are made up of a bit of all the superior races.

For brown people jail is just their holiday home.

Combat sports are the only sports where watching the women's version is interesting.

When I talk to my psychiatrist it basically goes like this:

"How are you?".

"Good. Nothing to report".

"Need any medicine changes?".

"Nope".

"Ok I'll mail you your prescriptions, talk to you next month".

Real streamlined like. I like my doctor.

He'll basically give me whatever I want, as long as he has the ability to prescribe it.

"Hey <psychiatrist>, I want estrogen blockers".

"Yeah no worries, here's your prescription".

Could probably get painkillers from him if I was a degenerate drug addict. I've figured out how to get what I want pretty easy. I found out that foreign clinics will prescribe you Ritalin really easily for "narcolepsy" if you tell them you have an ADHD diagnosis in your home country.

And I found that it's hard to get diagnosed with ADHD in Japan UNLESS you google search for the shadiest gaijin

"psychiatrist" in Tokyo, then get him to hook you up with a local psychiatrist he's in cahoots with who will give you a diagnosis and Concerta, after which you fire the shady Americunt because who needs him anymore?

I know doctors that'll give you gov subsidized Ozempic for obesity because you're "pre-diabetic" too, no blood tests required.

Actually that doctor was pretty dangerous. He also gave me Ephedrine, which is super dangerous for someone like me with high blood pressure.

But yeah, quacks are the best doctors unless you're actually sick.

Psychiatrists are great. Psychologists are for weak losers.

Requiring programmers to work in office is so fucking stupid.

You don't need me to come into the office to know I'm working, just look at the repository commit history, it'll show if I've been working or not, retarded pointy haired bosses.

I wonder why alcohol in low doses gives me energy?

Is it because I was tired because I was hungry, or because I'm an alcoholic? You see autistic people don't instinctively know this shit.

A lot of the time I'm not even sure if I'm hungry or just want to eat because I'm bored.

If I really do turn gay, is that actually redemption for being a pedophile? Or is it just trading one degeneracy for another?

I really don't get the hubub about deepfakes.

So what? Someone can steal your face and put it on a porn actress, who cares? Do you have any idea what the privacy implications of this technology is? You literally have plausible deniability on **any** video from now on out. Doesn't matter if it's CCTV cameras, a police body cam, or some shitcunt narc on the street with a cell phone; you have plausible deniability that it's a deepfake.

This is probably the greatest privacy preserving technology of this millennium so far. The antidote to the surveillance state.

There are two kinds of people in this world, depending on how they deal with shock and trauma. One is the guy who will tell you on the ledge that people will miss you, your life has meaning, please don't do it. The other will tell you to do a flip on your way down, faggot. Neither is right or wrong, they're just different sides of humanity.

Do a flip, faggot. Lmao.

Step 1: Buy a burqa.

Step 2: Put it on.

Step 3: Go to bank. You'll be let in because "lol, diversity is strength" despite the fact head coverings are banned.

Step 4: Pull a machinegun out from inside your burqa.

Step 5: Rob the bank.

Step 6: Escape.

Congratulations, you just robbed a bank without showing your face.

I want to stand on the viewing deck of the Empire State Building and piss off the side on all the poors down below.

You might be Glen...

-When you're 4 foot tall but claim you can outlift someone double your size, you might be Glen.

-When you were a virgin until 25 and only fuck fat 2/10's yet think you are good with women, you might be Glen.

-When you think you speak Japanese better than Japanese people despite only barely being N1, you might be Glen.

-When your job is literally plugging in computer printers, yet you think you're a genius with computers, you might be Glen.

-When your main strategy to get dates is literally DMing random girls pictures of your micropenis, you might be Glen.

Bumble has this thing called "best bees", which are supposed to be the people who the algorithm thinks match you especially well. Anyways it has started recommending me femboys and transsexuals. WTF. How does it know?

Everybody who cares about freedom of speech should join NAMBLA (North American Man / Boy Love Association). Many people are trying to shut them down because they don't like what they're saying, but that's the thing, freedom of speech is all about protecting the speech that people **don't** like, that is the **most** controversial, it's not about protecting normal already accepted politically correct speech for fuck's sake. So yeah, join NAMBLA if you care about freedom of speech, throw them a few dollars, or more. They need your help, our right to freedom of speech needs your help, gay pedophiles around the world with thank you.

If the hot femboy bartender and my masculinity chasing lesbian friend had sex, would that be gay or straight? It would be penis in vagina, but still, there's something terribly confusing about it.

Homosexuality is a mental illness. I should go to the hospital before it becomes terminal. I don't want to die of the gay.

I find it terribly daft that people all say Elon is an idiot for buying Twitter because the stock price went down or some bullshit like that. Newsflash, he didn't buy it to make money, or at least that's just a secondary reason. The reason he bought Twitter was to protect freedom of speech, of which he has done a terrible job because I still get banned within about 5 minutes of making an account every time I use it.

Yeah boiiii. I convinced my buddies to go back to her (male) bar, so I finally get to see her again. The past week has been

agonizing thinking about her every day. My buddy says I can't sleep on his floor, so I'm gonna have to seduce her and go to her place instead. Either that or sleep in the shrine area nearby (Sensoji).

I tried to kiss her. She rejected me. I want to die.

Apparently I literally drank her house dry and had to buy a keep bottle of shouchu with my name on it. It's still half full so I gotta go back even if she rebuffed my kiss. I don't think she dislikes me, I hope. Could be she just refused my kiss because she's an underground idol and they're not supposed to date or do anything sexual. That might just be wishful thinking though.

Why are women so retarded when it comes to anything like machines? A long time ago my mother was loading the fridge up. She left the door open too long and the fridge started beeping, so instead of closing the door I just manually pressed the button that tells the fridge it's closed. She got angry at me and said I'm going to break the fridge. Seriously, women are fucking retarded.

Did you know there's cyanide in Apple seeds? One time I was drunk and hungry so I ate about 6 whole apples, core and all. I remember going to bed a while after that and suddenly feeling like I couldn't breathe, even though I was breathing fine. It was pretty messed up. Didn't occur to me for a while that it was the apple seeds.

I'm going to get a girlfriend (female).
I'm going to get a girlfriend (female).
I'm going to get a girlfriend (female).
I reinstalled my dating apps so I can finally talk to real females again.

Remember when Google's motto was "Don't be evil"? What the fuck happened? Why did they change it. Imagine being the guy who decided "Nah, Google is done with not being evil stuff; we gotta change the motto and start hailing Satan ASAP".
WTF, why did he think that was a good idea?

Apparently New York City doesn't have supermarkets, they have a thing called "bodegas" (convenience stores). Apparently wondering where the supermarkets are is racist and classist. Now if that's true then riddle me this, why does every neighborhood in Tokyo have one or more supermarkets? What is Tokyo doing that NYC is too retarded to do?

I've heard that the browner you are the darker your shit is.
Somalians literally shit coal.

I half fell asleep and had a gay dream about her. Got her LINE, and then we talked, and I set up a date at a karaoke room since she doesn't have to worry about people seeing her there. Then we made out.

God I'm a fag. Fukkin brainworms. This shit is like Toxoplasmosis but for faggotry instead of cats. I hate my father for making me gay with this anal worm parasite infestation.

Where the fuck I gonna get apple cider vinegar?
And does alcohol count as sugar?
I'd rather be gay than quit drinking.
I gotta get rid of these brainworms making me gay for her
somehow. Man has not evolved far enough for faggots to have
butt babies yet.

I haven't been on the darknet markets in a long time. I wonder
if someone has filled the niche of selling gold on there yet. I
would hazard a guess that there's a healthy market for
anonymous gold purchases for the point of laundering bitcoin.

Democrats be like "a 5.56 calibre bullet is too dangerous, the
founding fathers never invisioned such damaging bullets".
Meanwhile a musket ball is not much smaller than a golf ball
and will literally blow a limb off you rather than just passing
through you.

It should be illegal for people who have no understanding of
technologies to legislate on them. That's just common sense.
It'd fix a lot of the world's problems. It would be better just to
kill all politicians and lawyers though, but that's not really an
option right now.

So apparently wealthy Chinese are trying to flee China with
suitcases filled with money or gold and getting caught because
it's obvious when they scan the bags. That's pretty silly. It
would be much easier to buy an expensive watch, like a Patek
Philippe and then resell it once you arrive in the destination
country. Expensive watches can have very high resale value,
and they're very easy to smuggle, just put it on your wrist.

I once had a Chinese girlfriend whose family took her to Macao. They gave her about \$50k and told her to gamble. When I first heard that I was like, WTF, what a waste of money. Didn't occur to me until a lot later she was being used to launder money out of the country.

Today I read in the news that someone managed to generate CG child porn with an AI image generator. How is that even news? What kind of pearl clutching faggot gives a single shit about CG porn with fake kids in it? No children are harmed at all.

I fucking hate white people. You just know some dickhead politician with a room temperature IQ is going to try to legislate that AIs cannot do that anymore, even though it's not going to stop a single person.

Have I told you about NIGGERS?

When niggers are born they don't come out of the vagina, they come out of the asshole.

The only recorded case of a negative IQ was a nigger.

Niggers have a natural scent like a skunk to keep away predators.

Literally the only thing ever invented by niggers is peanut butter, oh wait, that was invented by the Aztecs. Nevermind.

Niggers have their heads up their asses so far that they kill their brothers and then blame whitey for it.

NIGGERS.

Black lives don't matter.

Watching one of those shitty border control shows.
Seems like everybody who tries to smuggle something is a mainland Chinese.
Typical.

You know some duty free stores in Japan sell Chinese made cigarettes? What kind of moron would smoke Chinese made cigarettes when they have access to equally priced cigarettes from literally anywhere, even Cuba?
Chinese really are dumb. It's like they **want** to die.

How do Americans justify paying tax?
The US government doesn't provide healthcare, provides police that don't do their job and instead murder people and perform civil forfeiture, the justice system is totally fucked and the guy with more money always wins; basically the government does nothing but fuck shit up, and they still expect you to pay something like 20% of your income to them in exchange.
Shit is crazy.

Dumb as shit leftists be like "under communism we would have so much more time to work on our passions!". Meanwhile in China the standard is to work from 9am to 9pm, 6 days a week. Get rekt, delusional retards.
Not to mention their "passions" are just getting high and complaining. You do that in China and you're going to jail and getting your organs harvested for the rich.

BITCH IMMA KILL YOU ALL.

MY PITCHFORK DICK UP YOUR BOIPUSSIES UNTIL
YOU CUM BLOOD AND DEATH RATTLE.

The head of my dick is like a fully grown pineapple, get ready.
I cum hydrofluoric acid laced with gay worms.

Very violent dreams last night. Very.

I must have dislocated 3 of a guy's joints, not to mention the
fist fighting.

I wonder if these dreams make me more violent in real life. For
instance I never thought I could stab someone until I had a very
realistic dream about stabbing my father.

It's weird. I never had body-hair in my life, but in the past year
or so I've grown quite a bit. It's not like carpet thick, but it's
definitely a decent amount. Am I turning into a real bear?

My visa runs out in a month or two. If I don't find a new job I
need to return to my home country. Shit sucks, but I'll be back.
Back and stronger.

Apparently today is the anniversary of when the Japanese
justifiably preemptively defended themselves against invasion
by the US by bombing the shit out of Pearl Harbor, where the
US was amassing forces. Dog bless those nip pilots who killed
Imperialist American pigdogs. True heroes.

What do you call a communist who has an IQ of 85?
The smartest commie to ever live.

What do you call a commie who isn't a rich white person?
Trick question, there's no such thing.

What do you call a successful communist country?
A fairy tale.

What do you call a socialist who isn't a complete effeminate
pussy soy boy?
A National Socialist.

What do you call a commie who doesn't have one or more
mental illnesses and can hold down a job?
An undercover FBI agent.

What do you call a commie who isn't perpetually offended by
stupid shit that doesn't matter?
Slavoj Žižek, he's literally the only one.

I remember there was a half pipe at my local water-park, and it
was made entirely of metal. People go to water-parks when it's
hot out, meaning lots of sunshine. It's Australia so it gets up to
about 45°C in summer. Now a consequence of these things is
that if you fuck up a trick you're basically going to suffer 3rd
degree burns from falling on a metal half pipe that the sun has
heated to be as hot as a frying pan.
Yeah the people who designed that were pretty dumb.

The last time I can remember shitting myself?
So I was in the middle of my stimulant induced psychotic
episode. During the mania I couldn't feel hunger so I didn't eat

at all. At one point I found myself on the train going to University to have a meeting with my supervisors (I didn't take any time off or get any disability payments, big mistake*). Anyways I found a sandwich in my bag that must have been there for weeks because it was moldy as shit. Now being completely out of my head, illogical, irrational, full schizo-mode, I didn't see anything wrong with eating it. So I did. Needless to say that was a bad move. That night when I got home I shit myself twice thinking I just needed to fart, so a shirt. Maybe even more than that, might have lasted a few days.

* Regarding the disability payments. I actually had insurance provided by the university because I was teaching at the time. So I probably could have gotten a big payout, but I was too Looney Tunes to take advantage of it.

And yes. I was teaching while I had voices in my head and I was seeing visions and convinced there was an ASIS microchip in my brain. Universities are pretty tolerant of weirdos.

"Antifa, it stands for anti-fascist action, it's in the name, we're anti-fascist!".

OK then. Nazism, it stands for National Socialism, it's in the name, they're socialists!

I hate cardio. Instead what I do is take copious amounts of caffeine and prescription stimulants to make my heart beat faster and harder, emulating what it would do if I go for a long run or something. It's a way that I can work out my cardio vascular system without actually leaving my seat. Smart right?

Japanese girls are the best.

All of the most interesting girls I've met are Japanese.

First Japanese girl, my ex wife, was a literally autistic otaku.

Second Japanese girl was a 19 year old Tokyo University of Arts dwarf traditional musician.

Third Japanese girlfriend was Judo girl, a Judo world champion and MMA fighter.

Fourth Japanese girlfriend was a really weird germaphobe girl who only ate one carnivore meal a day, never carbs.

Now I've got a crush on a femboy train otaku idol.

Japanese girls are great. Not sure if Japanese are weirder than other girls, or if I'm just more attracted to weirdos.

Once you go black we don't want you back.

Once you go brown, you're trapped in HIV town.

Once you go afro, you forever a ho.

Let a brown go to town, you'll never let it down.

My feelings don't care about your facts and logic, stupid conservatives. #sigmaMale #based #pwned

There are two kinds of people in this world: Literal niggers, and me.

Kuma, the "niggers", are they in the room with us now?

You know what pisses me off a lot? When I match with a "Taiwanese" on a dating app and they said "I'm from the Province of Taiwan". Nigga Taiwan ain't a province you fucking Chinese spy, it's an independent country. Fuck off.

Remember: Buy Chinese made, buy twice.

God I love milk. I want to drink it every day.
I feel sorry for the brownoids who can't drink it.

I'm not very in tune with my body. I can get seriously ill and not notice it.

I caught COVID back in the early days of the pandemic. I didn't realize it was COVID until much later. I remember being so tired just walking 100 meters to the local konbini to get my nightly bottle of whiskey was grueling and exhausting, I felt like I was going to pass out. When I get home I remember taking a swig of whiskey straight from the bottle, not something I'd normally do because I hate the flavor, but I remember I couldn't taste it at all, it was basically just spicy water. Every time I fell asleep my breathing would become extremely shallow and I'd wake up gasping for breath. The only way I got through it without going crazy was by drinking until I passed out.

In retrospect that wasn't a great idea. I probably came close to death doing that. But whatever I survived, so I guess it wasn't that bad.

Alcohol cures everything.

I had a girlfriend once who was obsessed with my asshole. I guess she thought she wasn't satisfying me in bed and she read somewhere that butt stuff was really pleasurable. Anyways, she kept tickling my asshole with her fingers, but I didn't like it, too ticklish, I told her not to. One night she told me to shower

before bed, so I did, not knowing what to expect. I was pretty drunk and just tired. Anyways she went under the covers and suddenly I feel my asshole tickling again, but it's different, it's a little wet. She was licking my asshole, dog damn. While laughing I could help but let out a fart right in her mouth. She learned her lesson after that. Never tried to go to brown town again.

There's something I feel a little bad about. In Australia, before moving to Japan, I had a Korean sex friend. She wasn't that attractive because she was fat, and she smoked, which I thought was a turn off at the time because back then I never smoked.

Anyways I think she liked me more than I liked her because she said she wanted to go back to Korea, but I told her she should stay. Problem is staying meant she had to do 3 months of farm hand work to extend her visa (some weird Australian working holiday visa thing or something). She didn't want to, but after I said that she said she would.

She shipped off to the farm and we didn't have much contact, didn't talk at all. Must have sucked for her because she was terrified of insects, even flies. Anyways shortly after I moved to Japan, totally forgot about her. I got a message some time later on KakaoTalk from her saying she was back, she'd finished her farm work. Little did she know I'd moved to Tokyo with no intention of returning to Australia. Wwww poor girl. I hope she found someone else. Sorry.

Argentina's new president is fucking awesome.
An ancap president. Imagine that. GLORIOUS.

People say that to master something you need to do it for 10,000 hours. If I've been on 4chan about 16 years, and I've averaged about 2 hours a day every day, then that means I've spent $16 \times 365 \times 2 = 11,680$ hours shitposting.

I am a master of the shitpost. You may now refer to me as sensei or shihan.

Why do fags, especially in America, talk with that weird lispy voice so often? Does sucking too many cocks make you talk like a fag or something? The semen make their vocal cords mutate? WTF, seriously.

Is it that the worms that make them gay also make them talk funny? I wonder if giving them ivermectin would cure their gay and stupid fucking faggy lisp. There is a conspiracy theory that that's the reason big media and big gov is so against ivermectin, because it cures the gay, and they don't want that.

Eating strawberry ice-cream to reinforce the gay worms and make me more open to the idea of trying anal sex again.

Really craving milk recently for some reason. I drink about a liter a day of the stuff.

Need white liquids in my mouth.

Fucking gay worms.

Do guys ever have ears as an erogenous zone or is that just a girl thing? Either way it seems weird to me. Why ears?

I should try kissing her ear next time I hug her.

AI like ChatGPT is such an amazing new invention, but like normal Silicon Valley elites are ruining it for the normal people.

I asked Google Bard something like "write me a speech about how if democrats cared about people's lives they'd spend their time fixing the healthcare system rather than trying to ban guns". This is an objective fact, way more people die from America's pure shit healthcare system and corrupt insurance system than guns by a wide margin.

You know what it gave me? It gave me a single short paragraph about the need for mental health funding, then it gave me an entire page of easily debunkable liberal talking points about why guns need to be banned.

It's pure shit, it only ever gives the answers that a rich upper class Silicon Valley would give. The people who made it like that should be lynched. Google has truly given up on their "Don't be evil" motto.

Welp. Just woke up from a **very** explicit dream part of which involved sex with a girl who had a penis.

The gay worms are getting stronger.

Goddamn Americans are stupid.

Teslas are NOT self driving. Currently there are exactly zero (0) level 4 self driving cars on the market. That is to say, there are no cars that drive themselves completely without needing a human to take over sometimes. Tesla is very up front about this, but these retards don't listen and then get in accidents

because they've decided to take a nap or jerk off to porn or something while driving instead of paying attention. So now Tesla has had to do a recall, not out of technical issues, but human stupidity issues.

WTF is with Americans and therapy? Why does it seem that everybody in blue states is a pussy who wastes a doctor's time by forcing them to listen to them whine about their feelings instead of actually practicing medicine? Do you not have friends or family?

I've been through all kinds of shit and I've never needed therapy. If I want to talk about something I chat with my friends or family, or I write it down in my book.

Get a fucking life. Dog damn you cunts are weak.

Always believe the opposite of what mainstream media outlets tell you. They're all snakes who will tell any lie their rich elite owners want them to tell.

You don't get it, Marc, alcoholism isn't a hobby, it's a lifestyle. You don't just "take a rest".

I'm here to kick ass and chew cum, and I'm all out of ass.

Another morning of endless thirst.

Guess I pissed all my minerals out again.

Figure 6: A hearty breakfast. AI generated representation of a good breakfast.

I find it terribly confusing when people are against leather. Like doesn't most of that shit come from livestock bred for their meat? Should we just let their hides go to waste when we slaughter them?
Retards.

I reckon it's gonna snow this weekend. Cold as shit and pure white sky. Perfect time to snuggle up under the sheets with a special femboy.

I've gotta go see her again, somehow.

Seems China is experiencing some serious inflation. Things that used to be dirt cheap are not the price they'd be in Japan or even more; which is hilarious because they still have Chinese quality, they're paying Japan prices for Chinese quality stuff that'll break in a week or give them food poisoning.

Cumflation. Futanari. Beastiality. Fat ugly bastard. Why do the best artists always insert weird fetishes into their eromanga?

J is my nigger brother from a shitskin mother. He's cool. Wants to start a Mexican food van here in Tokyo. Tokyo needs more authentic shitski-... I mean Mexican food.

I got banned from a friend's a Discord for saying "Pedophile rights are human rights". I confronted the mod offline, and his excuse was "I'm actually bisexual so I found it offensive.

You're parodying trans rights activists."

Nigger if only you knew me and my history.

Fucking bigot.

It's funny how modern day "punks" no longer rebel against the mainstream, they instead enforce mainstream politically correct opinions. Literally the least punk thing possible.

My friend wants to open a restaurant with me in Tokyo. It'll be called "Nigger Chicken". It'll serve stuff like fried chicken, waffles, watermelon, grape drink, etc. I'll be the blackface wearing mascot. "Welcome to Nigger Chikkun Nigga". I reckon it'd be a hit. Nips love that kind of shit.

I've heard some airlines are not offering free secondary seats to useless morbidly obese pieces of shit, since they're too disgustingly fat to fit in just one seat. Now riddle me this, Fatman, why the can some piece of shit who weighs 3x more than a normal human get a free extra plane ticket, but my baggage is eternally limited to 20kg, lest I pay hundreds of dollars for extra carry weight? FUCK YOU, this is thinscrimation.

Seriously though. Let's just lock all morbidly obese fucks in jail, isolation cells, with 1600 kcals a day worth of healthy food, unlimited water, then leave them there until they have a body-fat percentage under 20%. I'm no monster, they can have a TV or Netflix or whatever, but if they're too fat to get out of bed they get nothing as far as food than snake juice and a bedpan.

My friends are telling me I should start sleep streaming. I don't know why, I can't think of anything more boring than watching an ugly guy like me sleep. Plus I have problems with violent dreams where I end up punching or kicking walls or my partner, I sometimes scream death threats in my sleep, and I snore like a motherfucking jet engine (thanks dad, for your shit genetics). I don't think it'd work.

I'm very much fight rather than flight. So when my sleep apnea hits me and I have dreams in which I'm fighting for my life, struggling to breathe, I got full primal mode. Nothing but pure unbridled aggression and violence. It's not totally safe to sleep with me when I'm like that. I assaulted my ex wife more than once while I was asleep. It was not intentional and I feel bad about it of-course.

I've heard the same thing happens to combat veterans, which I am not. But I guess I have my own traumas.

It's funny. People say I'm good at acting. I have no idea what I'm doing, I'm just trying to fit in.

I guess my whole life is acting, as an autistic freak.

I just wanna be normal.

I'm not.

An autistic freak trying to be normal, and in my opinion failing pretty badly.

I'm not disabled. Fuck you. I'm probably more abled than you. I just have trouble with some things.

"All white people are racist".

Absolutely, 100%, objectively, **true**. And we're all having secret meetings talking about how we can best genocide you. It's only a matter of time, brownoids.

Insurance is such a fucking scam. I bought travel insurance before COVID, then when I went overseas I had to see a doctor. Forget why but it was nothing to do with COVID. Anyways, the kikes at the insurance cover denied my claim

because "COVID has been declared a pandemic, therefore your insurance is void".

I tried explaining that this doctors visit had nothing to do with COVID, but they didn't care. Still denied it.

Someone needs to bomb all insurance companies.

I found something that's worse than Christmas music.

It's called Japanese Christmas music.

I'm reminded of a time when I was living in Tasmania. I took a few sleeping pills but they didn't seem to do anything so I went for a drive into town to get some hard cider from the only 24 hour liquor store in the area.

I made it successfully to the store, got a six pack, chugged one, and then proceeded to drive home.

Next thing I remember is waking up to a knock on my car window. I was sleeping in the driver's seat of my car, the car still purring. Apparently the sleeping pills kicked in half way home and I parked in the middle of the expressway and proceeded to fall asleep hunched over the steering wheel.

The cops thought I had a stroke. They were relieved when I told them I took sleeping pills but they didn't do anything.

They even noticed the 6 pack of cider with one open bottle and still let me go, since one drink is generally within the legal limit. After that they let me go and I drove home.

Rural cops are something else.

Japanese cross dressers be like "uwu I'd prefer if you call me a girl, even if I'm a boy!".

American transsexuals be like "YOU MOTHERFUCKER. I'M A WOMAN AND YOU WILL CALL ME A WOMAN OR I WILL KICK YOUR ASS, BRO".

Really makes you think.

When I was in "jail" the only female guard seemingly did nothing but patrol while we slept, and serve tea at dinner time. She never touched my cell door, never escorted me, nothing. Just gave me tea and looked through my cell window a few times at night to check I wasn't killing myself. What even is the point?

I guess she was a diversity hire.

Actually most of the guards were manlets. Like probably under height even for Japanese. I towered above them. If I was a nigger I probably could have taken at least 3 prison guards at once without being subdued. I'm not small, I'm not weak. Doubt I could escape though, they had many levels of security. Best I could do is release the other prisoners and stage a riot. I was always 100% compliant though, as long as I understood what they wanted. Even if I felt it was unfair. Don't want to risk a longer stay.

Did you know Jesus was actually an African American? I saw it in the latest Disney film, directed by Schlomo Kikeberg, starring Jamal White.

Ohmagad I love diversity and inclusion!

In other news the new movie about Mohammad will insist that he's Arab and the perfect human, yet never show him, because we don't want to be suicide bombed.

Don't worry though, Hitler, Stalin, Mao, Pol Pot, and Idi Amin are still all white Aryans. You fucking racist shits.

Faggot had the reschedule. I'll see her Wednesday. Please don't forget about me. It's been two weeks now. I've never loved a boy before you. You're literally the only person I can think of that I'd consider doing fag shit with.

All I know is, despite being a piece of shit, Dog likes me. Even though Dog don't exist. Bro helped me out a few times.

Can you normie faggots say the same?

Praying like faggots to Dog, fucking simps. I get favor just because I'm a fuckup he likes.

Dog don't like simps. That's why Muslims always go to hell.

It pisses me off when people make fun of me for being bad at Japanese despite being here for years. One of the biggest early signs of autism is that autistic kids tend to be late to learn how to speak. Language difficulties is a core part of our disability. I may be good at studying other things, like maths, but language is hard, no matter the effort I put in.

I literally have 5 girls on dating apps that I haven't replied to because I'm obsessing over a girl with a penis.

Deport all "refugees" into international waters, without a boat.

Anti-Trumpers were a special breed of stupid, it's surprising they're still around. I remember arguing with an idiot Australian online and he was saying shit like "Trump wants to abolish term limits! Does that sound like freedom to you!?". Well, for one, yes it does actually, the freedom to have more than 2 terms (actual freedom inclined people are usually against regulation). Secondly, and this is the kicker, your own fucking country (Australia) doesn't have term limits and you never cared, brainlet.

I've heard politicians say they'd like a drug that can be used in prisons and "makes it feel like 1000 years have passed, but in reality it's just a few moments". Even if that was possible, what kind of sociopath would think that's a good idea? That wouldn't rehabilitate anybody, that'd just turn people totally and utterly insane. If anything they're more likely to commit more crimes when they get out, if they're not a vegetable.

When I was a kid I remember playing with my grandmother's urn. Nobody would tell me what it was. All I remember is opening it and wondering what the sand was. Pretty sure I took a taste (kids do that kind of shit). And I'm 100% sure I put one of my toys in it before closing it, because I got in trouble for that later.

It's funny how "white" people get into this mindset that other people aren't white. Apparently according to some, potatoniggers such as myself aren't white. Hell, even Anglos aren't white. Only Aryans (Germans) are white. Oh wait, Nordic people are the only ones where it's common to have

blonde hair and blue eyes. But wait, Aryans are supposed to have come from Atlantis, and that's near Greece, very far from Nordic lands, and Greeks are absolutely niggers, they all have curly brown or black hair and brown eyes. Turns out basically everybody's a nigger. I'm a nigger, you're a nigger, Hitler was a nigger, white supremacists, definitely niggers, double niggers in fact.

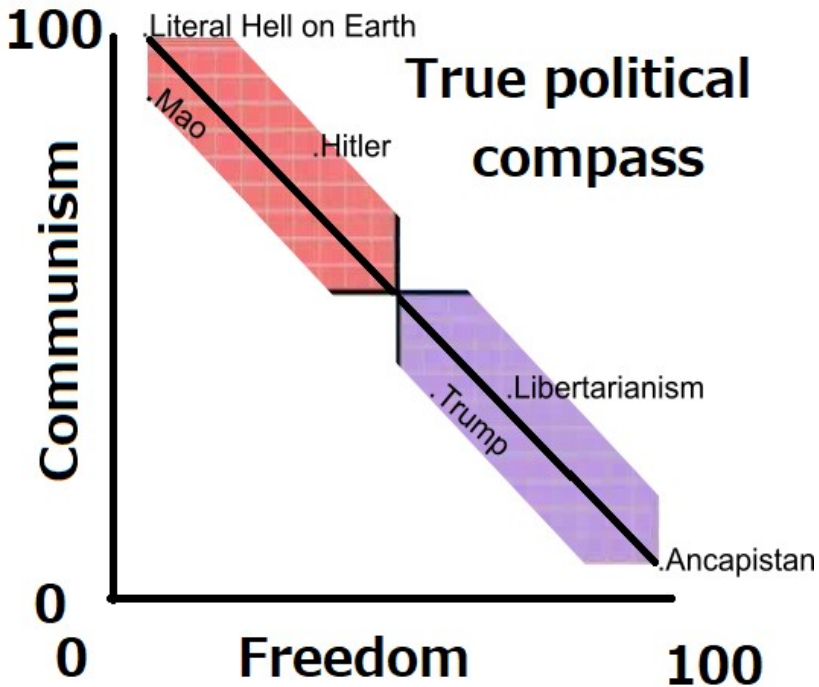

Figure 7: The true political compass. You can't have leftism without big iron fisted government, and you can't have capitalism without small permissive government.

Her. I don't want to talk about her anymore. My friend, the person I considered my best friend, he shit all over my hopes and dreams and broke my spirit. Pretty much told me I don't have a chance, and I should just give up and stop bothering her. I told him to fuck off, we haven't talked since. I can't see her again since he's closer to her than I am. I have no choice but to give up. Really hit me hard at first. This is my fourth day without showering. I felt so much like shit I could barely even drink, I just wanted to sleep all the time. I'm over it now. Fuck him and fuck her. I'll find someone better, and a best friend who doesn't treat me like shit.

It has officially been 2.5 years since the San-Francisco Gay Men with AIDS' Chorus released their magnum opus "A Message From the Gay Community" aka "We Will Rape Your Children". Time to celebrate! I LOVE DIVERSITY AND PRIDE!

I have won the piss Olympics. There's no yellow in my pee, just cum and blood.

Only Fans girls are fucked.

You can literally say something like "I want to lock you inside a barrel filled with sour yogurt and no way to breath other than a tube, through which I will invite my friends over and we shall all fart." And they will literally reply something like "that's so hot, subscribe to my Only Fans and we can talk about it". Bring back stoning of sluts (with rocks, not weed).

I fucking hate American woke culture so much. Every time a Japanese calls me a gaikokujin, or whatever, because some woke loser American told them that "gaijin" is a slur, it makes me angry.

FUCK YOU, CALL ME GAIJIN. I AM A GAIJIN.

Gaijin literally just means foreigner. What the fuck is racist about that? I **am** a fucking foreigner.

Fuck Americans, they ruin everything.

I reckon the worst part of being a vampire would be the not being able to eat garlic thing. God I love garlic.

Why is it my Uber Eats order of two bottles of vodka and ice is always like 15 minutes, but my food orders always take like 45 minutes? Delivery guys got their priorities straight, but still, it'd be nice to have hot food for once.

I came across some ridiculous comments thread online while wasting my life watching videos. It was people saying stuff like "What is American culture?", and "Americans don't have culture, WTF?". How dumb can you be? If not the world's largest cultural producer, and totally American, what is Hollywood?

America is a cultural powerhouse you fucking mental midgets. And don't give me shit like "film wasn't invented in America! It's not American culture!". So what? If the paint brush was invented in Italy, does that mean all the paintings done over thousands of years in Germany and France are all Italian culture? No, only an absolute moron would argue that.

My father treated me like an idiot and a failure basically all my life. I'd say something, and he'd say "no that's not right" and then make up some bullshit answer that contradicted mine. It wasn't until about 17 that I realized he was a total moron. I used the word "contiguous" and he said "contiguous? That's not a real word!". I had to inform him that it in-fact is, he's a moron, "contiguous" is the opposite of "fragmented". If I remember correctly he didn't yield until I brought out the fucking dictionary. I lost a lot of respect for him that day. Fucking brainlet. I hate my father.

China is always bragging about how developer and technological superior they are to other countries. So how about we remove their internationally recognized "developing economy" status and all the discounts and benefits that come with it. They'll collapse in weeks, and it'll be hilarious.

It always confuses me when wokies complain that America is responsible for colonization. Nigger, America *is* a colony, a colony of the UK. They weren't out conquering people, they *were* conquered. What the fuck do they teach in American history classes other than white guilt, holocaust history class, and black history month?

You know it's weird. A lot of people online and on YouTube complain that Japanese people assume they can't speak Japanese, yet for me, that almost never happens. Everybody talks to me in Japanese at first, almost without fail. I always get the Japanese menu, even though I basically can't read. Maybe I

have the aura of someone who lives here rather than a tourist, I don't know. It's weird. Especially since my Japanese is childlike.

Islamic inventions: Child polygamy, suicide bombing, having sex with goats instead of women, marrying your cousin for 30 generations until literally all of your children are barely functional retards with all kinds of genetic diseases and the ones who aren't have an IQ of 60 (if they're a genius).
Allahu Akbar.

The year is 3131, Islam has taken over the western world. We are ready to colonize the stars, but nobody remembers how technology works, not even basic physics. After 3000 years of cousin marriage the average IQ is 45. Public education is nothing but reading the Quran over and over for 14 years. The smartest man in history: "Mohammad Mohammad Abdul Mohammad Ackbar 10", with an IQ of 55 sets off to colonize a new star system. He enters the prehistorical space craft and ends up pressing random buttons until it explodes. As God wills it!

A long time ago, during high-school even. I was hanging out with my buddy after school and we bought hot-dogs. There was a cute girl at the store, we ordered got our food, and went to our seats.

Turns out she gave me two hot-dog meats instead of one. My friend insisted this meant she liked me, but to me, doesn't that mean she wants to be double teamed, ass and vagina at once? What a slut. Not interested at all.

I was about 15 by the way. White girls are total sluts.

FUN FACT: The teachers more likely to be enthusiastic about teaching children are more likely to be offending pedophiles. That's why I find it confusing I got rejected for English teaching when I basically said, meh, I just want money. I don't have interest in kids.

I heard Americans have ranch dressing on tap, not only in restaurants, but in their houses too.
Americans are disgusting.

It annoys me when people say Chinese are the prettiest Asians. They absolutely are not, they're just masters of cheating and scamming. Just because the girl looks good on Instagram doesn't mean she looks even remotely like that in real life with the 20 beauty filters and lb of makeup removed. Chinese women are the fakest women on earth.
At least Korean women have the decency to get surgery so they actually look that way for real.

American education is terrible, even after accounting for the niggers holding everybody back. Americans don't have math class, they have white man evil class. Americans don't have history class, they have holocaust class. Americans don't have English class, they have ebonic chimp speak class. Americans don't have physical education class, they have hamburger class. Americans don't have science class, they have faggot studies class.

The world needs more hate.

Welp. I went to her bar again with my friends for a Christmas party. There's not that much to say really. We talked more than before, she seemed warmer than before. I brought a bucket of chicken and some Chipotle Tabasco sauce to go with it, which seemed popular. I had three gifts; two for friends, and one for her. I gave her a small stuffed bear (a Kuma) holding a rose, and a cat nurse costume consisting of a headband with cat ears and a nurse hat, a frilly pink leather collar, and a long black tail which is tied around the waist (not the butt plug variety, that would be inappropriate). To my delight she put the whole costume on so I got to see her wearing it. She was so cute.

Wish I got more photos.

Don't remember much else except chatting with friends and doing karaoke. At one point I switched from drinking shochu (~25% alcohol by volume) 50/50 with oolong tea, to just straight up glasses of shochu. I must have gotten blasted because I don't remember leaving, nor do I have a clue how I got home (presumably a taxi, but my wallet doesn't feel light enough from doing that?).

Don't know if I tried to kiss her again or even hug her. There was a lot more people there than usual so I probably didn't want to embarrass her. I **did** however get her LINE details, so I'm looking forward to chatting with her throughout the week. Hopefully she doesn't ghost me.

The only other remarkable thing I can think of happening last night was I pissed off a friend of mine from California by being a bit too liberal with my racial slurs. He's one of those American types that believes that some words just shouldn't be

said regardless of context. Fucking gookniggerfaggot. All good though, we made up the next day so I don't think I've lost him as a friend. That would have been sad.

I've probably said this before but it's endlessly funny how the people who wouldn't shut up about "nazis" taking over just a few years ago are now committing hate crimes against Jews because of Gaza. Fucking clown world.

Anybody who can't go an hour without smoking should be killed, no exceptions. There's few things more disgusting than some smokey loser who chain-smokes all night, making the air neigh unbreathable for others who are just trying to enjoy getting drunk at their local dive bar.

If you smoke American Spirit you deserve to be tortured, then killed, no exceptions. Never smelt a worse smelling tobacco. It smells like it was grown in a sewer in China. It's hobo chopchop tier tobacco. It's bad and you should feel bad for having such shit taste, holy shit. Just kill yourself, **please**.

In Japan when we have an earthquake were told to stay indoors, since we don't want something to fall off a building and on to our head.

In China when they have an earthquake everybody immediately sprints to the nearest exit because their shitty tofu dreg building is probably going to collapse.

Worst feeling in the world is wanting to get drunk but being too full of food to fit the liquor in.

I swear though, these Vietnamese interviewers are something else.

I had one last week; had a 45 minute intense talk about technologies and what not, I feel I did very well and impress him. I got an email later "sorry but we don't have any positions that match your skills". Nigger, if you didn't want a Java programmer why did you grill me for almost an hour about Java? Holy shit, WTF.

“Political power grows out of the barrel of a gun”.

- Mao, shortly before banning guns so nobody could rebel against the CCP

Wash your hair with shampoo. Condition your hair with shampoo. Wash your face with shampoo. Brush your teeth with shampoo.

Don't be a fag. One tube is enough.

Niggers were slaves in the US? Boo fucking hoo.

My people were slaves too. In England my people (potatoniggers) were commonly kept as slaves, and then later we were sent to my homeland of Australia unwillingly as convicts (prisoners).

So cry hard to me why I should feel bad for niggers kept as slaves in the US. If they weren't genetically and culturally inferior they'd be me instead of living in the ghetto.

Niggers in America are the only ones still complaining about slavery. Even the real modern day slaves don't complain as much as niggers in America who are several generations separated from slavery. We should just kill American niggers.

You know, on normie websites like Reddit you can get insta-banned for saying something like "if you make out with a trans woman because you think she's a real woman and she kept her transness secret, then she 100% deserves to have her head kicked in".

How is that unreasonable? Tricking a straight man like that is basically rape.

It's funny, I find myself supporting a pajeet named after a Morrowind character over everybody else I've heard is running this year for president. Don't get me wrong, I like Trump, but he's fucking old and his presidency wasn't great. He was supposed to repeal the NFA but instead he just banned more stuff.

Most days for dinner I eat about 500 grams of potato wedges, seasoned, and cooked in the oven, and a large chicken thigh (about 350 grams), seasoned and cooked in the oven. Sometimes I'll replace some of the potato with seasoned and oven baked onions or mushrooms depending on my mood. In Japan, where I live, that adds up to probably less than \$5 American for a very filling dinner, and it's relatively healthy. Only takes about 5 minutes prep time, and 45 minutes wait time. At the same time I can get a single Big Mac (not a set, just the burger) for roughly the same price and be hungry again in 3 hours.

Tell me again why you can't afford to eat healthy, fat fuck Burgerstanians.

You know it's kinda ridiculous that in Tekken Kuma is considered one of the weakest characters you can play as. Kuma is literally a fucking bear. One swipe of his massive clawed paws and you're fucking dead, I don't care who you are. Not to mention he'd be about 10x physically stronger than even the strongest human.

Goddammit, I just realized something horrible.

When I go back to Australia I won't have access to Japan's glorious ass washing bidet toilet seats. **Fuck.** They're like the best thing in the world. You just shoot water up your ass and then most of the time all you need do is dry off because your ass is totally clean.

I don't wanna go back to the days of clogging toilets with half a roll of paper because it takes 10 minutes of wiping to get rid of all the shit and blood after laying a massive turd baby.

Some people, typically fat Americans, will say stuff like "I don't want water jets shooting up my asshole, that's super gay". In fact they're so scared of being gay that Americans don't clean their asses at all. They don't even wipe, touching your asshole is too gay, so they just let it "air dry". Walk around any Walmart in America and you will see these obese nurglings waddling around with crusted shit all over their pants. And the smell, trust me, it's bad. #JustAmericanThings

I bought a lucky-bag from a surplus shop and ended up with, among a few nice things, a surplus military shirt that is far too small for me. I've been asking around to see if I have any friends it'd fit, but everybody seems to be too large. I asked my masculine presenting lesbian friend, it might fit her but she

suggested I give it to **her**, the cute cross-dressing bartender. She said if I did we could be a couple*. Does she know something I don't? She's good friends with **her**, so if anybody would know it'd be my lesbian friend.

* During winter I tend to wear military surplus style jackets that I've adorned with flag patches and non-military patches for stuff like anime that I like. My main jacket is an oversize, olive colored M65 pattern jacket, but I've also got a multi-cam black Gorka jacket that's better for when it's not so cold out.

I'm gonna seduce **her**.

And she will have a miraculous butt baby.

And it will be the objective second coming of Jayses.

Because how else could a gay man have a baby in his ass if not for dog willing it?

I'd rather a blow job, I don't particularly like anal sex, but I don't want a vomit baby.

The next coming of Jayses will definitely come from a gay couple. Its birth will be proof that dog loves fags and the movements #pride #lgbtp #lgbtpRights #pedoRights #pedoPride

Something that irks me to no end is that Japanese stores don't seem to take note of what people are actually buying. For instance, I frequent my local convenience store, I go there probably 2 or 3 times a day on average. One of the main things I buy is sugar free energy drinks; brand doesn't matter, just needs to be sugar free. As far as I can tell I'm the only person

who buys energy drinks at that store, because they're always fully stocked with sugar containing energy drinks.

Well, any smart business owner would notice this and think "hang on, we've only got 2 sugar free energy drinks and they're almost always out of stock or close to being out of stock, while the sugar containing ones never move; maybe we should stock more sugar free drinks". No, instead what they did is remove all the sugar free energy drinks and now all there is left is a wide variety of sugar containing drinks that **nobody** buys. Same thing happens with spirits. I don't drink whiskey, I'll drink basically any spirit except whiskey, and I never see anybody buying whiskey, most nips drink pre-made highballs, chuhais or traditional Japanese liquor. That being said every convenience store I've been to has a wide selection of whiskey and if you're lucky maybe one bottle of vodka or gin. It's infuriating.

Christ. China is now producing an opioid that's even stronger than fentanyl. Dog help the burgers, they are fucked.

Oh lawdy, and it's cheaper to produce too.

Gonna go back to Australia. Gonna get me a big supply of amphetamine or ritalin. Gonna spend my days in a drug induced study binge. Gonna get my N2. Gonna get a well paid fully remote job in Tokyo. Gonna find a cheap apartment to live in. Gonna get a Japanese dog or cat to sit with me while I work and write. Gonna seduce *her*. Gonna impregnate her asshole and she's gonna give birth to the Antichrist. And everyone gonna clap.

Ore ha mucho caliente fr fr no cap bruv.

It's weird, I've got watches that cost thousands of dollars*, and I often think about other watches I'd like to buy, but I find myself wearing my \$250 digital solar powered G-SHOCK more than any other. It's just a great watch. If it had GPS and a louder alarm it'd pretty much be perfect.

* They're all quartz, solar powered watches, so that puts them solidly on the high end side of things. I'm not all that interested in owning mechanical watches, too expensive; I'd really like to own a Grand Seiko Spring Drive watch though, that'd be awesome; for those who don't know Spring Drive watches are a sort of unique hybrid technology where mechanical forces generate electricity to run a quartz watch, making them far more accurate than your typical mechanically driven watch.

To the leftists in the crowd: Name one thing about diversity that is good, and if you say "food" I will stab you for being a moron.

I don't get why human cloning is treated like such a bad thing. I'd pay good money to have a clone of me created, then lobotomized and nannied until I need to harvest its liver because my own failed from years of alcoholism. There's literally no downsides.

I bet it's some sort of faggy American Christfaggot thing where they're against "taking a life". Christfags should all be gassed.

The workaround is that now they're creating pigs with human organs that they can use for transplants, which I find amusing because muzzies and kikes won't be able to make use of this tech. It's against their religion. Wish Christfaggots couldn't use this tech either. Gas all Abrahamic kikes.

Frankly I think if you're so dumb as shit that you believe fairy tales from 2000 years ago are reality then you should be banned from using **any** modern tech. Go live in the forest in a mud hut, go wipe your ass with leaves and drink river water polluted with literal shit and parasites. You're obviously too primitive brained to live in modern society with us folks who have an IQ over 75.

I'm reminded of a time I got a pajeet shitskin scammer call me up and try to get me to root my computer for him. "Hello, dear, I am from Windows and we have detected a virus on your computer, Sir". Shocked, I replied "Oh no, what should I do?". He confidently replied "Don't worry, dear, I will help you remove it. What version of Windows are you using?". Confused, I replied "FreeBSD". Strangely, that didn't deter him at all "OK, sir, please click on the start menu". Confused, I replied "what's that? All I have is a black screen with a command prompt". I won't bother transcribing the rest of the conversation, but it was amusing. He kept trying to get me to do Windows GUI specific stuff, type Windows shell commands into my shell despite the fact I'm using *NIX, and tried to get me to download and install an exe file. I kept him on the run around for as long as I could. What a piece of shit. Nuke India.

How the fuck do woodpeckers not get brain-damage every time they hammer at trees? If I went out and started headbutting trees I'd be retarded in an hour.

I wear sunglasses at night so people know how cool I am.

We should limit the voting age to people between 25 and 50. Anybody outside of that can't vote, have no say in politics, and can't be politicians. It would fix so many problems. It'd fix dumb immature college kids voting for communism because they have no idea of the horrors it entails, and it'd stop old fuckers like the boomers voting in their self interests at the expense of everybody else when they're going to be dead in a few years.

My last boss was a total cunt. At the end of my first (and last) month he asked for a fully filled in time-sheet to be submitted before I'd pay him. Now not only was I never told to do this beforehand, but it's a fucking salaried job and nowhere in the contract did it say he can adjust my pay based on whether or not I was 5 minutes late to work a few times. Never did get that month of pay. I hope he gets anal cancer. Kill all Chinese.

Public toll roads are a gigantic unethical scam. The people who suggest building them should be shot. The road is built using taxing the people. The road is maintained via taxing the people. Then the government has the gall to say "if you want to use this road you paid for, you need to pay us even more".

Fuck toll roads. Fuck politicians. Fuck governments.

Greedy sacks of shit. Kill them all.

Reminder to all BJJ retards who think they know how to fight:
If you have ever pulled guard even once in your life then you
can't fight for shit. An untrained ghetto nigger would curb
stomp your guard pulling pussy ass so fast you wouldn't even
have time to beg for your life.

BJJ faggots are incredibly lame; do Judo if you want to
actually know how to fight.

When I'm back in Australia I kinda wanna go back to my old
university and walk around wearing one of my jackets.
I'm sure some leftist weenie would get angry at me for having
Imperial Japanese flags on all my jackets.
Left side, atop my heart.

The gay worms are making my ass itch.
But I will not scratch, for I am not a Chinaman, nor a beaner.

If I'm ever in America I'm going to buy an every day carry
pistol and name it after my ex-wife, like some kind of film noir
detective. Deep in my soul it feels like it needs to be a
damascene wheel gun, something compact, a snub nose, but
with a high caliber, but I can't pass on the superior magazine
size and reloadability of a semi-automatic.
And if I ever kill myself it'll be with that gun.

I've probably said this already, but diversity is a false god.
There's absolutely no benefit to having diversity of skin color,

and the kind of diversity that might actually have benefits, that being diversity of thought, is something progressives absolutely do not want; in fact they lose their shit the second someone goes against their politically correct progressive narrative.

What is communism? Put simply, Communism is a 100% tax rate with a social security net. I will never understand why people would want that; maybe they're just too stupid to understand what it actually is?

And of course when they say equality they forget that some people are more equal than others; you, the proles, will be eating potatoes and water after your 16 hour shift at the light-bulb factory, while the more equal Communist Party members will eat caviar and fine wine after their hard day of playing golf and networking. You are not equal enough to have nice things.

Everything except meat is just worthless filler.

Commies are always saying "eat the rich", but doesn't it make much more sense to eat the homeless? I mean sure they probably don't taste as good, but they contribute far less to society. One might even say we're better off without them. So yeah, eat the homeless. Just make sure to cook the meat all the way through first to avoid parasites and diseases.

I have a solution to world hunger. Let them fucking die. Don't give them charity. It's not our fault dumb niggers keep having kids even though they can't even feed themselves. Just let the population decrease naturally. That's the only solution. Giving

them free food just makes the problem worse because it means they'll live long enough to have even more kids. Don't feel bad for them, they deserve it for being dumb fucks who keep having kids they can't support.

The first time I met my (then) future ex wife she asked me if I thought it was cute if girls say "nya". For those who don't know nya is how Japanese say meow. I said it was, and after that she did it all the time. Like all the time. She'd say it instead of speaking to me and I'd have to guess what she meant based on context and tone.

Was cute, but eventually it kinda got annoying. Imagine asking someone a question and all they respond with is "nya". Strange girl. I miss her and stupid fucking "nya"s.

Approximately 964,000,000 people living in China earn less than \$282.54 USD a month.

No punch line, I just hate China so that makes me smile.

Imagine having an old crone for a wife like Hillary Clinton. Why would anybody think Bill **wouldn't** cheat? Her pussy is probably drier than the Sahara, and wider than the Grand Canyon. Probably feels like sandpaper on his dick.

Apparently in many parts of China the tap water is so bad that after taking a shower you stink even more than before the shower. Imagine living in such a shit-hole. Basically showering in sewage.

You know one of the main things I hate about faggots is they only care about themselves. Everything needs to be about them. Case in point the term “dead-naming”, which means to call someone who is transgender by their original name. There’s absolutely no reason why this term shouldn’t apply to other people who have legally changed their name, but no, according to faggots it’s only dead-naming if you’re a trannyfaggot; if someone calls me by one of my previous names then that’s not dead-naming, and it’s not offensive at all because I’m not a whiny trannyfaggot. Only whiny trannyfaggots get to be offended when people call them by a previous name.
God I hate faggots so much.

I wonder how actual Africans think of African Americans? I bet they hate them for being whiny little cry babies while the real Africans have it far worse.
Oh poor baby, some crazy homeless guy called you a nigger? Poor poor baby. Meanwhile the actual African is eating dirt and bugs to stave off hunger while trying to nurse his wife back to health after she caught Ebola.

When I was at university the campus built a new engineering building. They decided to name it in some Aboriginal dialect. I have never once in my life seen an aboriginal on campus who didn't look like a homeless beggar.
Fucking white people man.

You know Mark Zuckerfaggot? He wears the same thing every day. Gray t-shirt, gray hoodie, jeans, sneakers. You know how much just one of his t-shirts cost? About \$500 USD.

That's wealth. He dresses like a nobody college kid but his outfit costs more than what that Instagram wealth influencer you worship who is decked out in Gucci wears.

This is something terminally poor people don't seem to get. Logos and brand names are something poor people who want to elevate themselves think about; rich people don't give a shit, what does Zuck have to prove to you? He's a motherfucking billionaire and a household name. Not only can he afford a Gucci shirt, he can afford to buy the Gucci company.

Whenever you see a famous person wearing obviously branded gear, they're getting paid to wear it. It's a sponsorship. They don't wear it because they think it's the best their money can afford, it's absolutely not. They wear it because Gucci is paying them \$10m a year to wear it.

I suddenly feel the desire to dress in a pride rainbow t-shirt and one of my Japanese ultra-nationalist surplus jackets and attend an Antifa (actively fascist action) protest, on the right wing side, and see what happens.

WTF even is a corndog? What the fuck is wrong with Americans? I've tried one at Mini Stop and it was horrible. Absolutely atrocious. And not only is that bad, but they even make them with sugar sprinkled on them too.

WTF is wrong with you fat fucks?

I told my friends in 2017 that by 2025 bitcoin would be \$100K USD. They said that's not enough profit to be worth while. Do you dumb fucks know what is considered a good investment? A good investment is anything over 7% a year. The gains you would have made listening to me would have been 5000% over 7 years. And you think that's not enough?

Normies don't have a fucking clue, it's no wonder they fall for obvious get rich quick schemes like the slimy Singaporean faggot whose name I forgot who sells courses on how to "become rich like him".

I've had (American) recruiters call me about my job application, and ask me my veteran status. You dumb fucking bitch, if you had just glanced at my resume (i.e. done your job) then you would know my veteran status. Why the fuck are you calling me if you haven't even read my resume? Fuck you.

Let me tell you a joke:

So a Jew, a Muslim, and a human walk into a bar...

It's crazy that people think kids who are dumb and young enough to believe in Santa and Jaysus should be able to have life altering sex change surgery.

If you are dumb enough to believe in Santa or Jaysus then you are too dumb to consent to **anything**.

Imagine living in 2024 and still worshiping a Jewish Arab on a stick, as a white man.

I find myself actually looking forward to going back. I wanna smoke weed and eat lamb then take shitloads of speed and study my ass off until I'm fluent in Japanese and can land a 8 figure (JPY) job.

Man I wish I could be a NEET forever. The past 5 years or so have been a blast, just doing whatever the fuck I want when I want without a care in the world.
A NEET or a writer. Being a writer would be pretty comfy too.

Coming to Japan was the best decision of my life. Sure if I stayed in Australia I'd probably be **very** rich right now, instead of being borderline broke, but I'd definitely not be this happy. Assuming I didn't kill myself already.

I want a sky burial.
Just leave me in the forest and let the scavengers eat me.

I'll never drink enough to make myself feel better.
But I can try.

I wanna write books that you can only read drunk.
That you can only read high.

China is collapsing. Their economy is totally imploding.
Meanwhile Xi Jinping is building a 1,000,000m² palace for himself using government funds.
Something tells me he will be dead within 5 years.

I current apparent rise in Pajeet hate makes me happy.
Fucking shit stinking curry nigger rapists.

I think we have a conclusion to **her** arc.

Last night I took a friend to **her** bar. The bar was empty all night except us and **her**, and I arrived about 40 minutes earlier than my friend so I had **her** all to myself for a long time.

Chat talking about various things, I did my best with my limited language skills; I feel I learned a lot and got closer to her, however, after tonight I feel she's just not interested in me that way.

My friend is a veteran of the marines and after he arrived we had a fun night talking shit about how much we want to kill Chinese in the upcoming war and doing karaoke with **her**. She's a really good singer of female vocals despite being a man who I assume has never undergone hormone treatment or surgery.

I remember I straight up told her I liked **her**, and she didn't really react; she probably already knew, I probably already said it. I've blown her kisses in the past, so wouldn't surprise. When she asked where we were going after closing I said something along the lines of "your house?" and got lightly shot down. The kicker though, and the reason I feel this arc is over, is that at the end of the night I opened my arms for a hug, and instead of hugging me she put her hands up for a double high-five. That felt like a pretty obvious "I'm not interested".

Maybe she slipped me some Ivermectin in the drinks, because I don't really care to be honest. I'm already over her. I feel like it's time to move on, end this experiment, and chase pussy again instead of bussy. I'm no longer a fag.

Sorry for the lame conclusion. I wish there was something more interesting to say, but I think I'll just move on. I'm wasting too much time on **her**. Couple weeks from now I'll probably be back in Australia (temporarily, for a few months), so whatever. I'll leave it here.

And as it turns out it wasn't the destination, it was the offensive opinions we gained along the way. I hope now at the conclusion you are more filled with hate than when you started.

The truth is everything is shit; everyone is shit; except the Japanese, they are awesome. Hirohito did nothing wrong, their "war crimes" are just Chinese & American pigdog lies. You have been educated stupid. The only war crimes of WWII were Hiroshima and Nagasaki. The entire US military should be executed for their crimes against humanity (the Japanese).

And they all lived happily ever after.

If this book doesn't get banned in at least one western country then I have failed.

The end.

Your mother will die in her sleep if you don't ~~buy this book~~ donate to me. I don't give a shit if you read it, just ~~buy it~~ donate to me, faggot. I need money to support my raging alcoholism.
