

Dear Little
Brother ♡

Dear Little Brother ♡

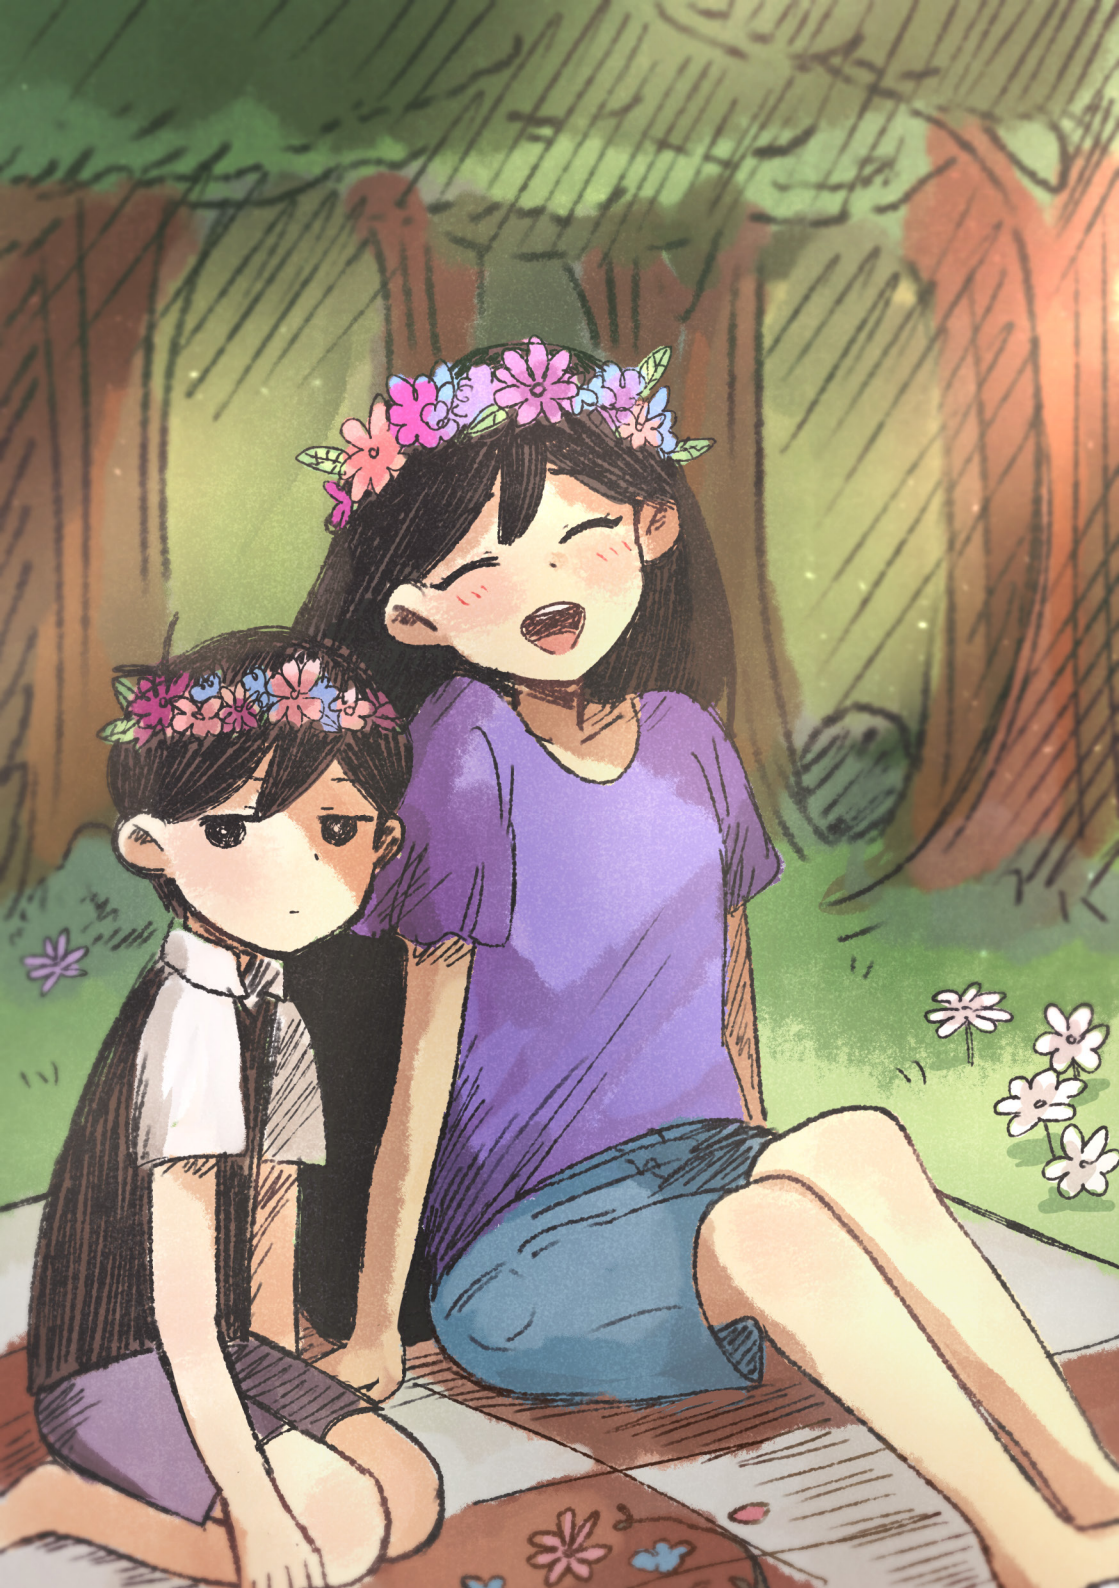

An Unofficial OMORI Fanbook

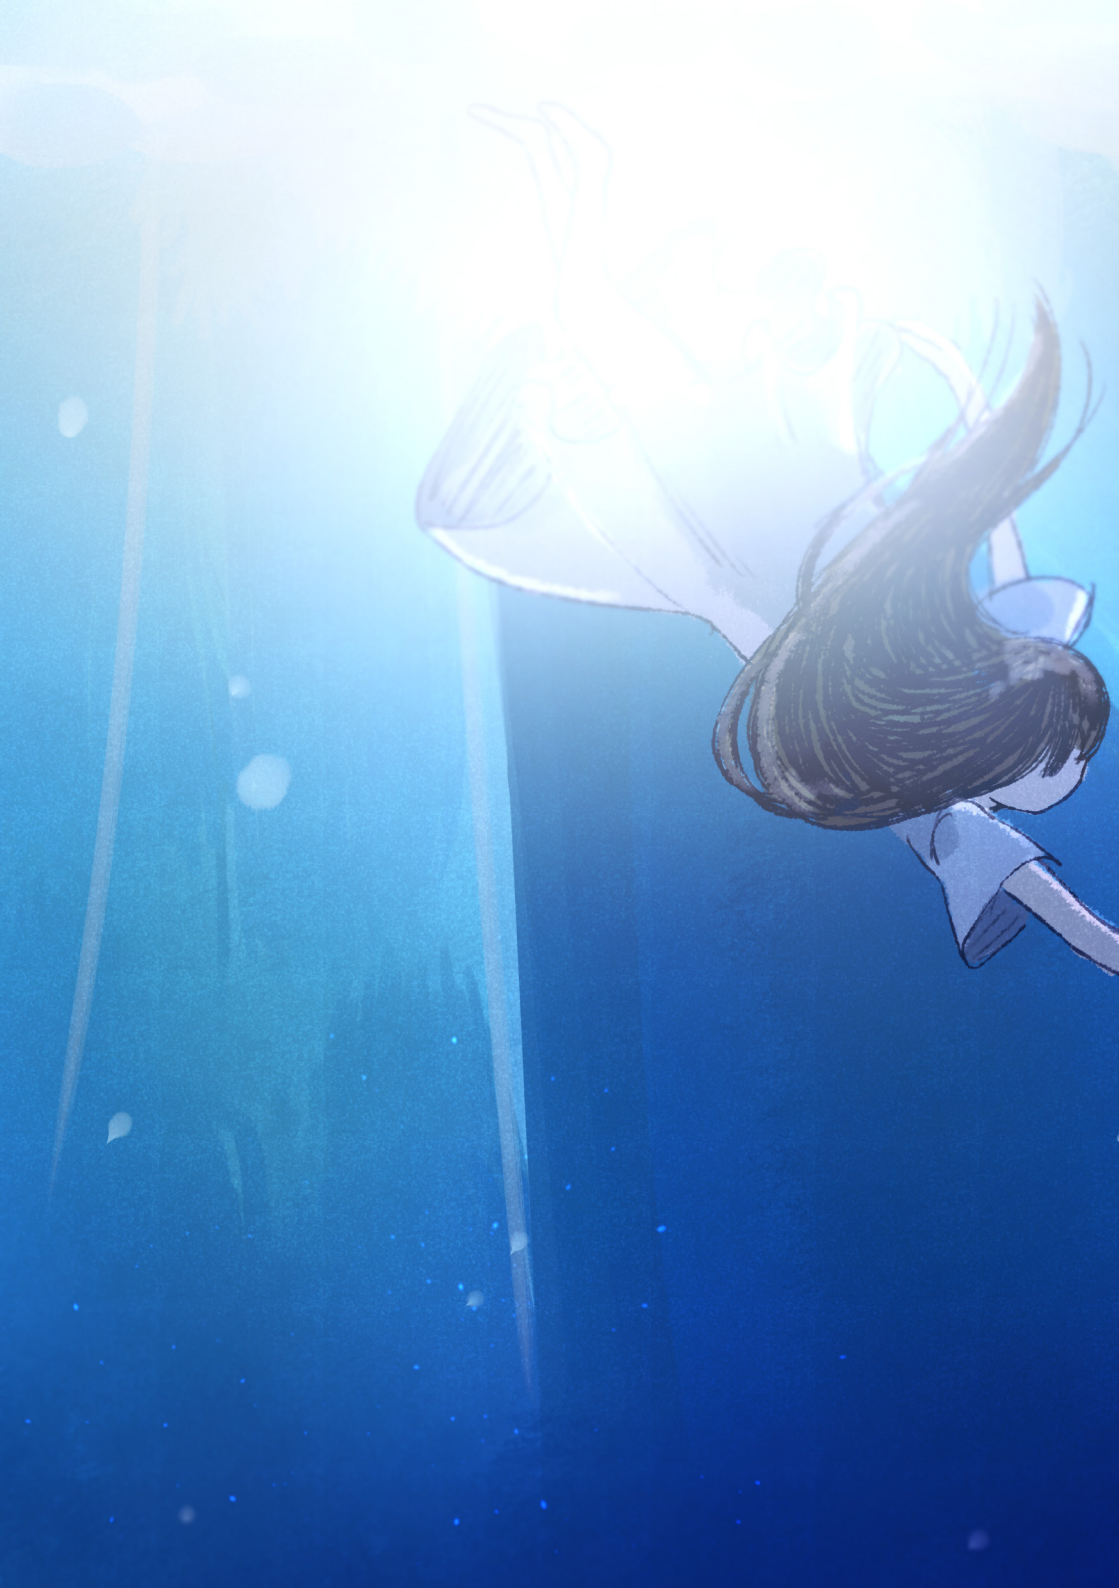

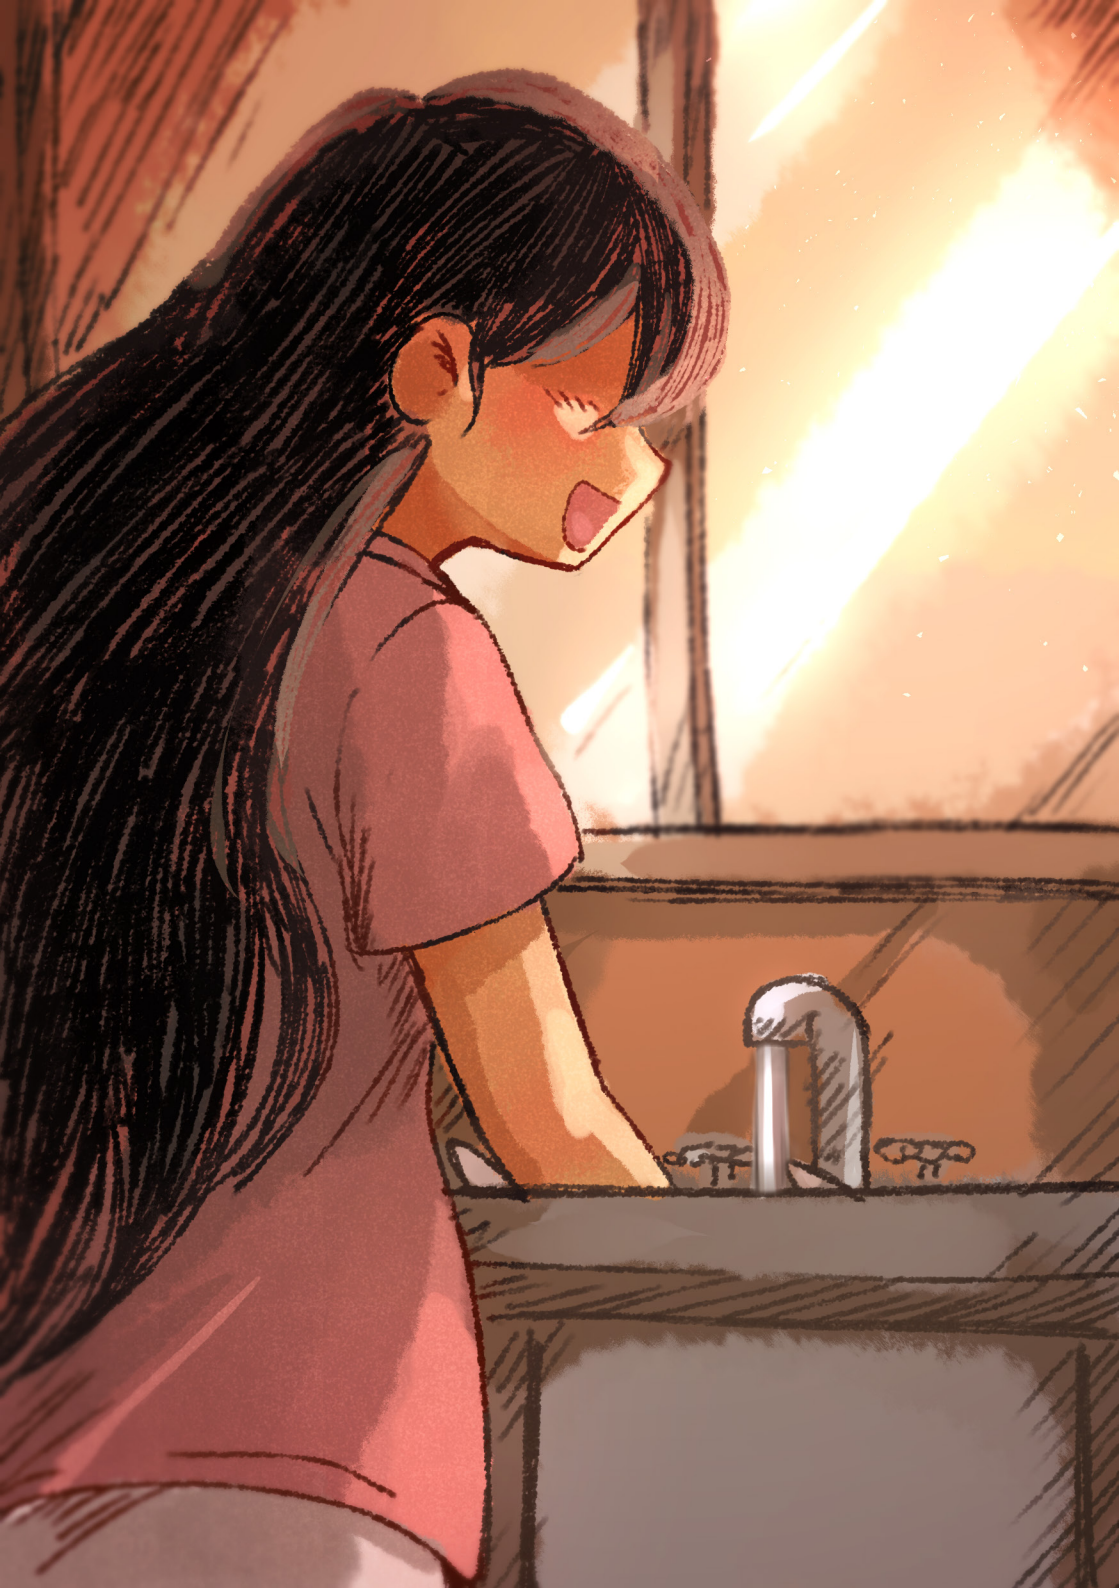

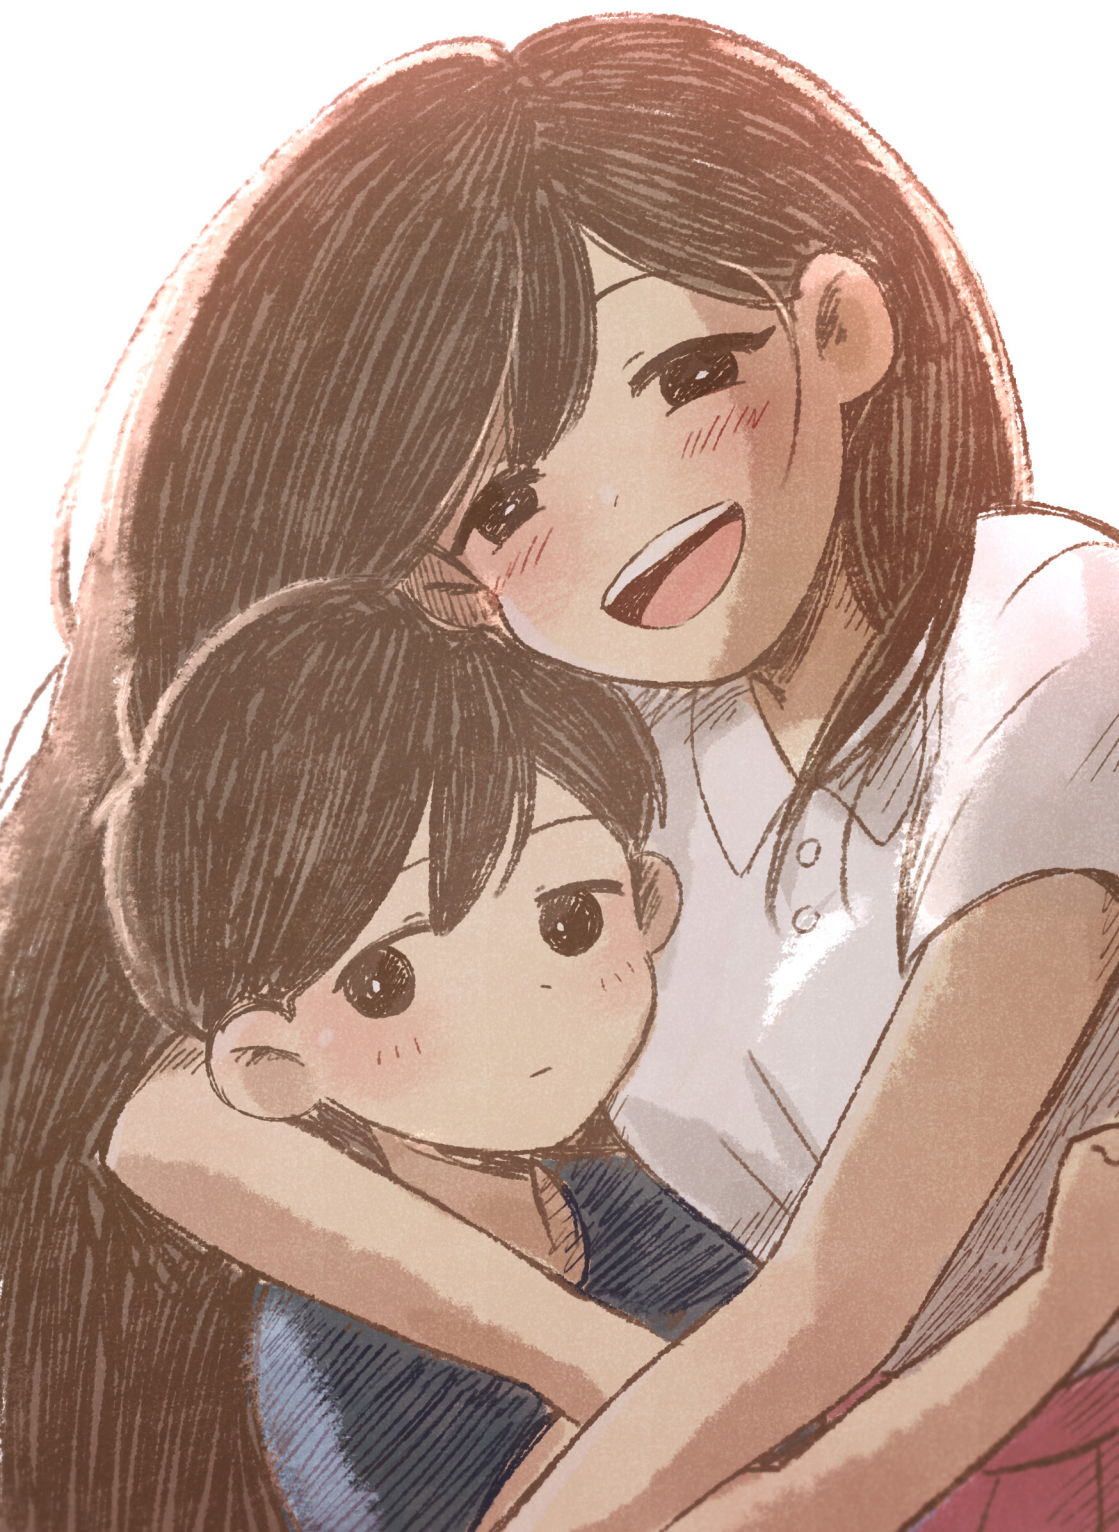

These are all of our memories
together.

They're a little sad now...

But we should be happy that
they happened at all.

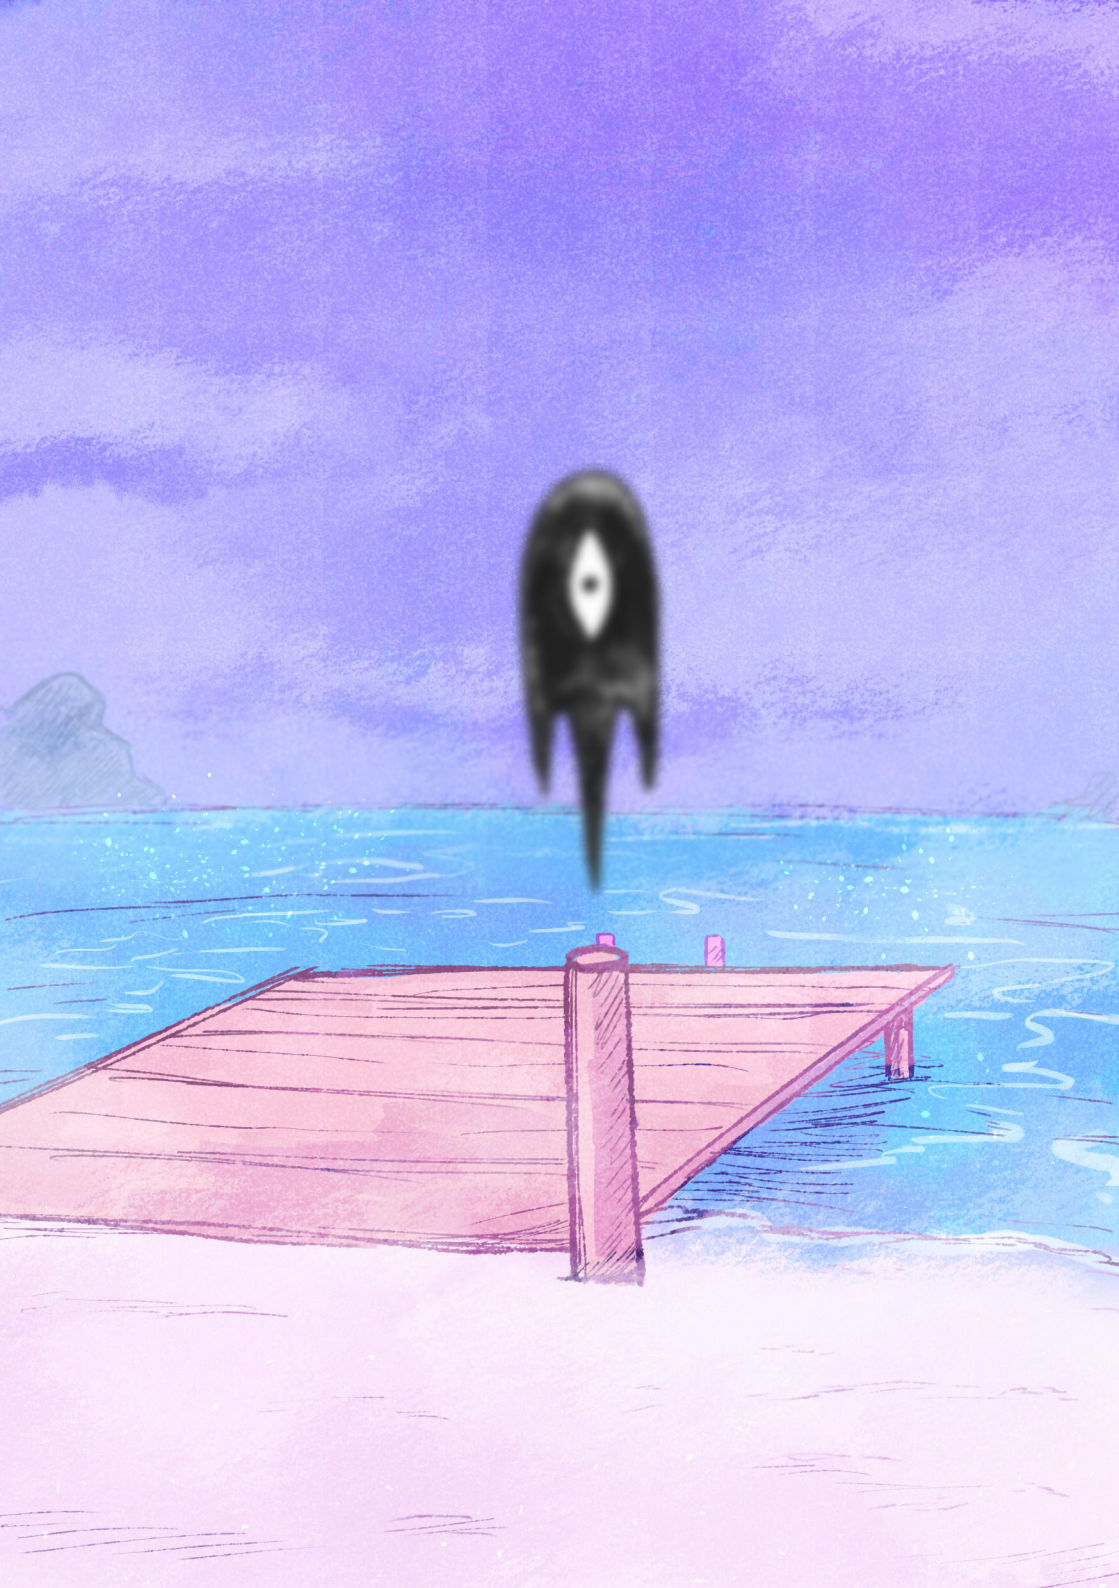

Let's make some new memories
together, OK?

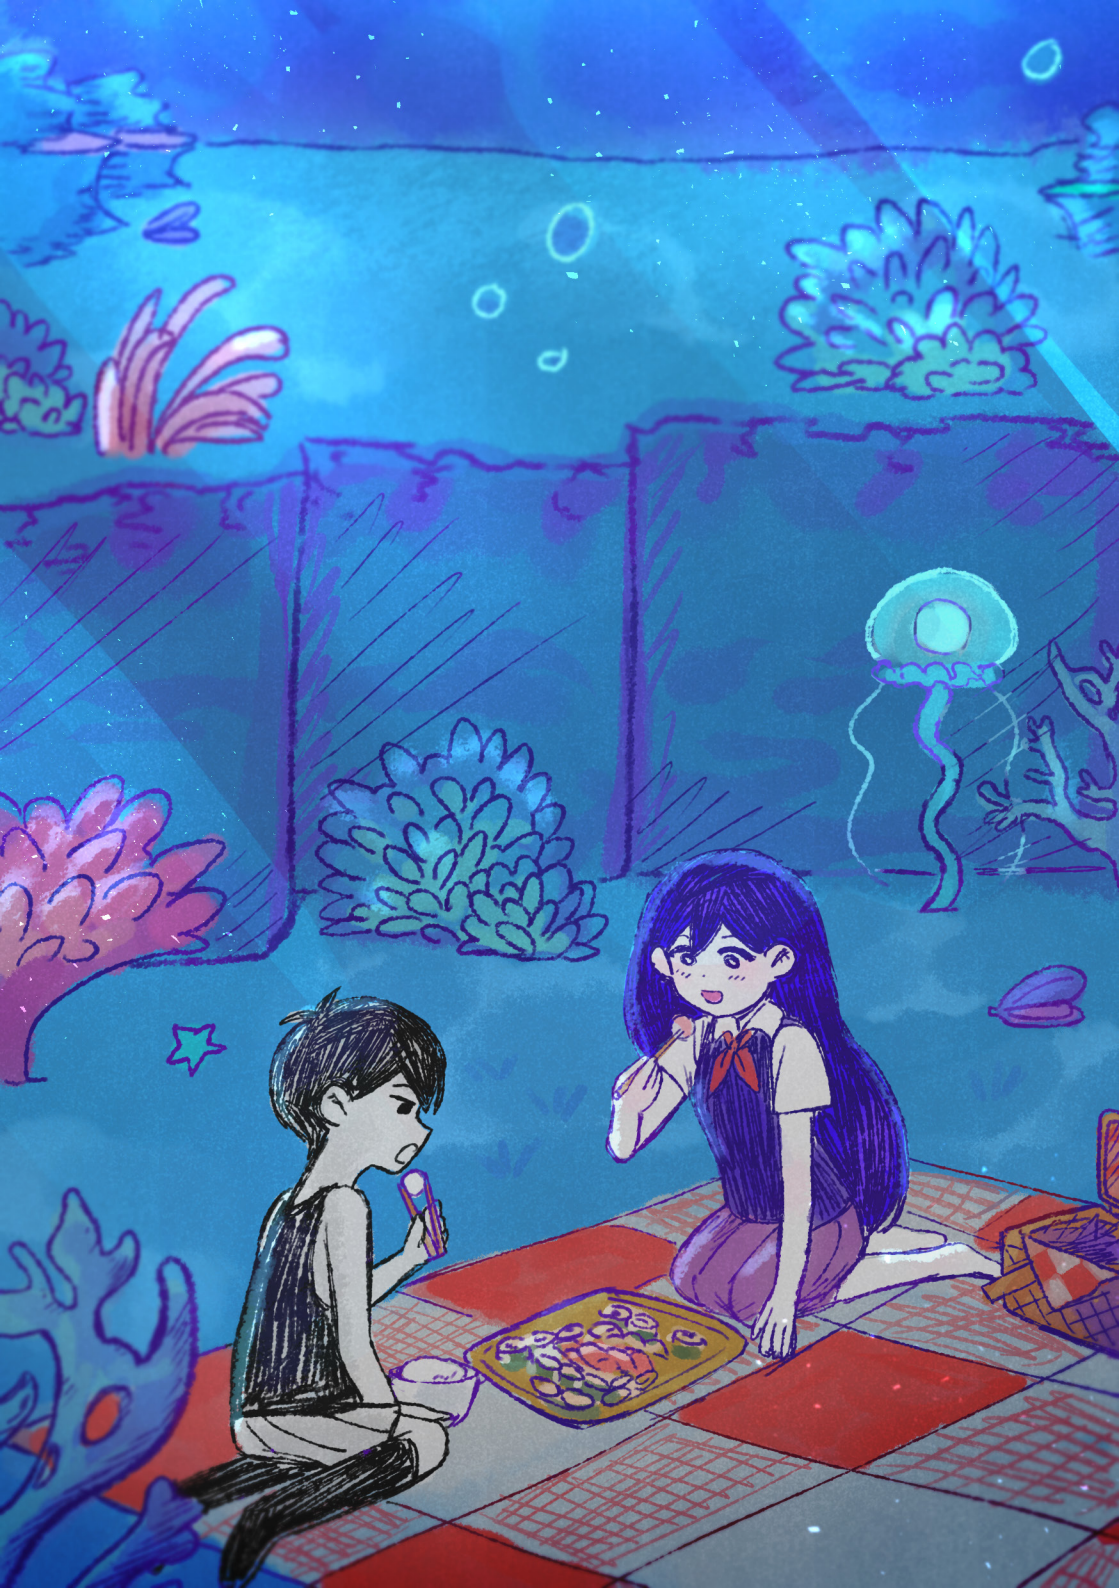

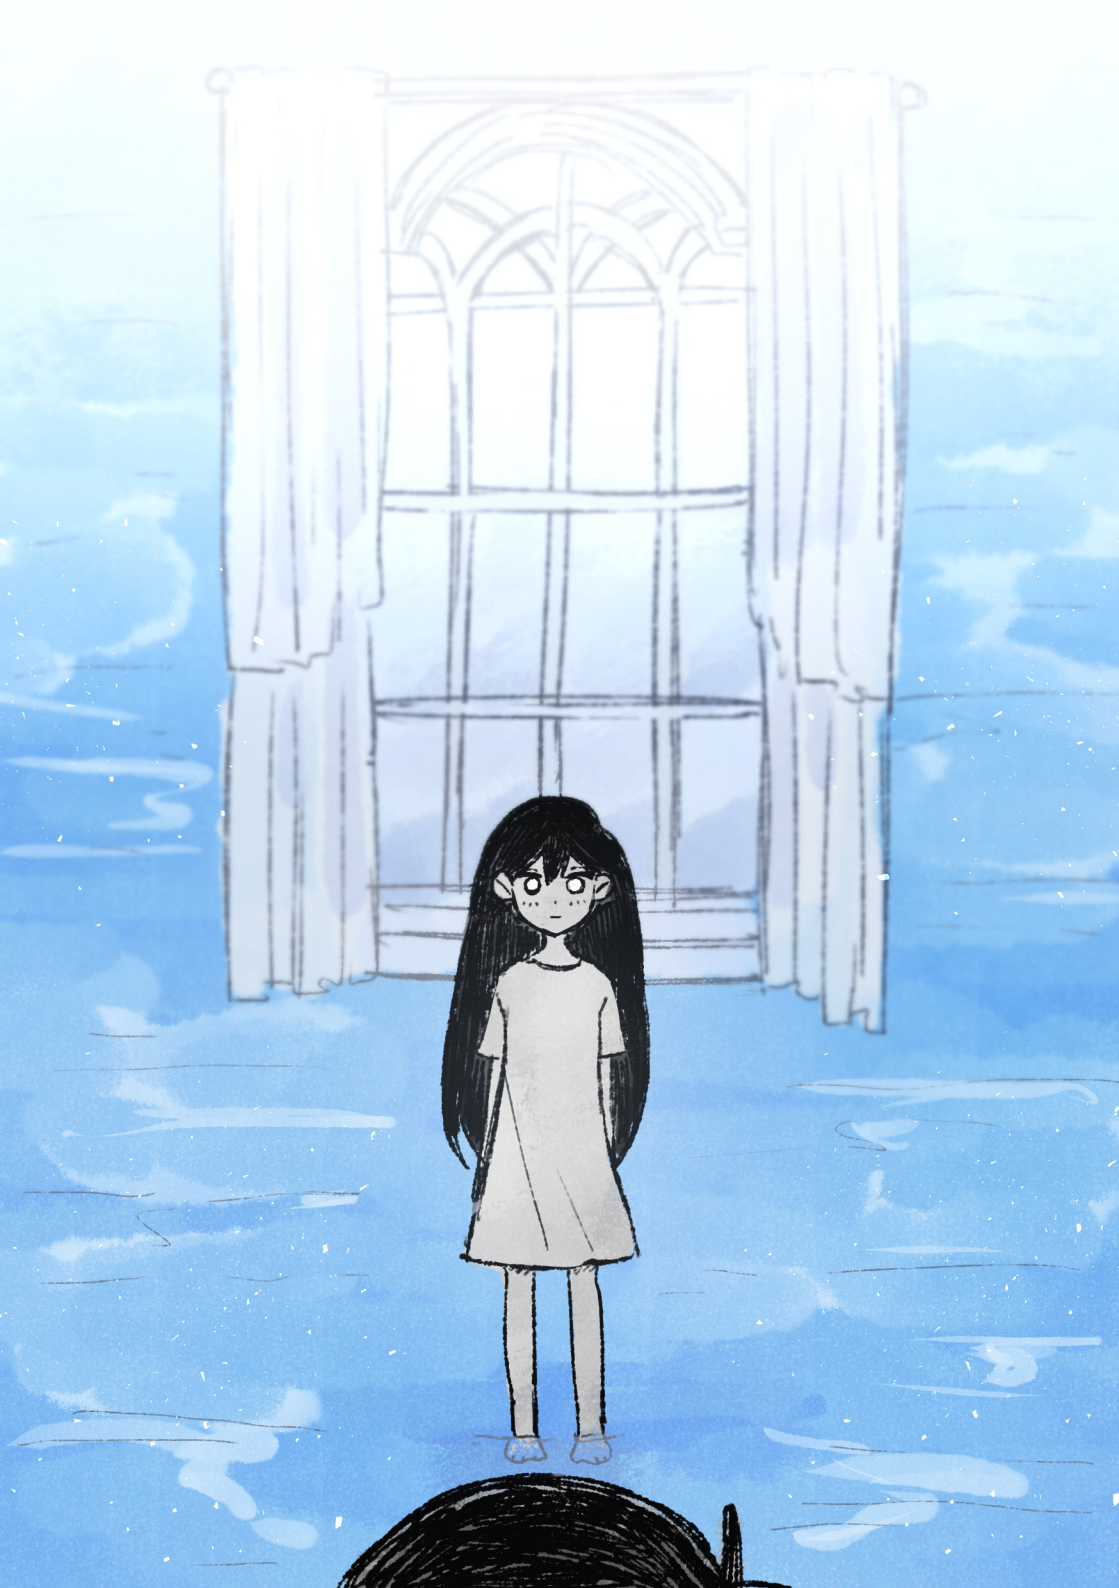

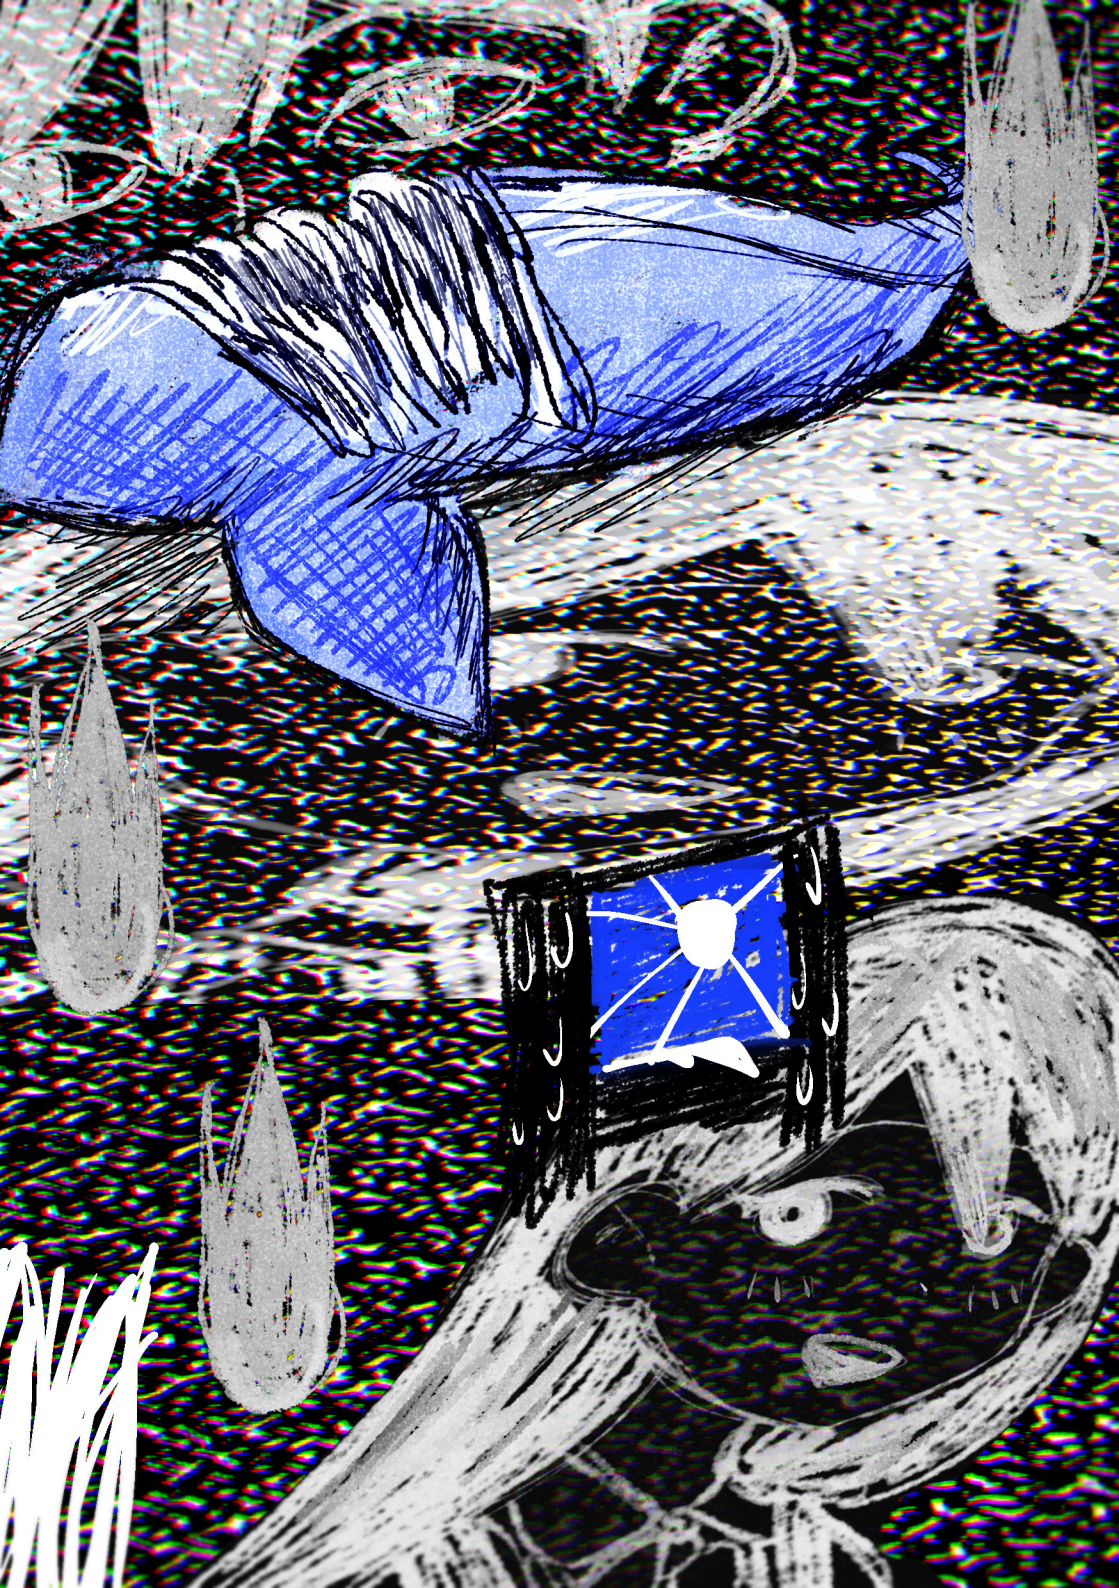

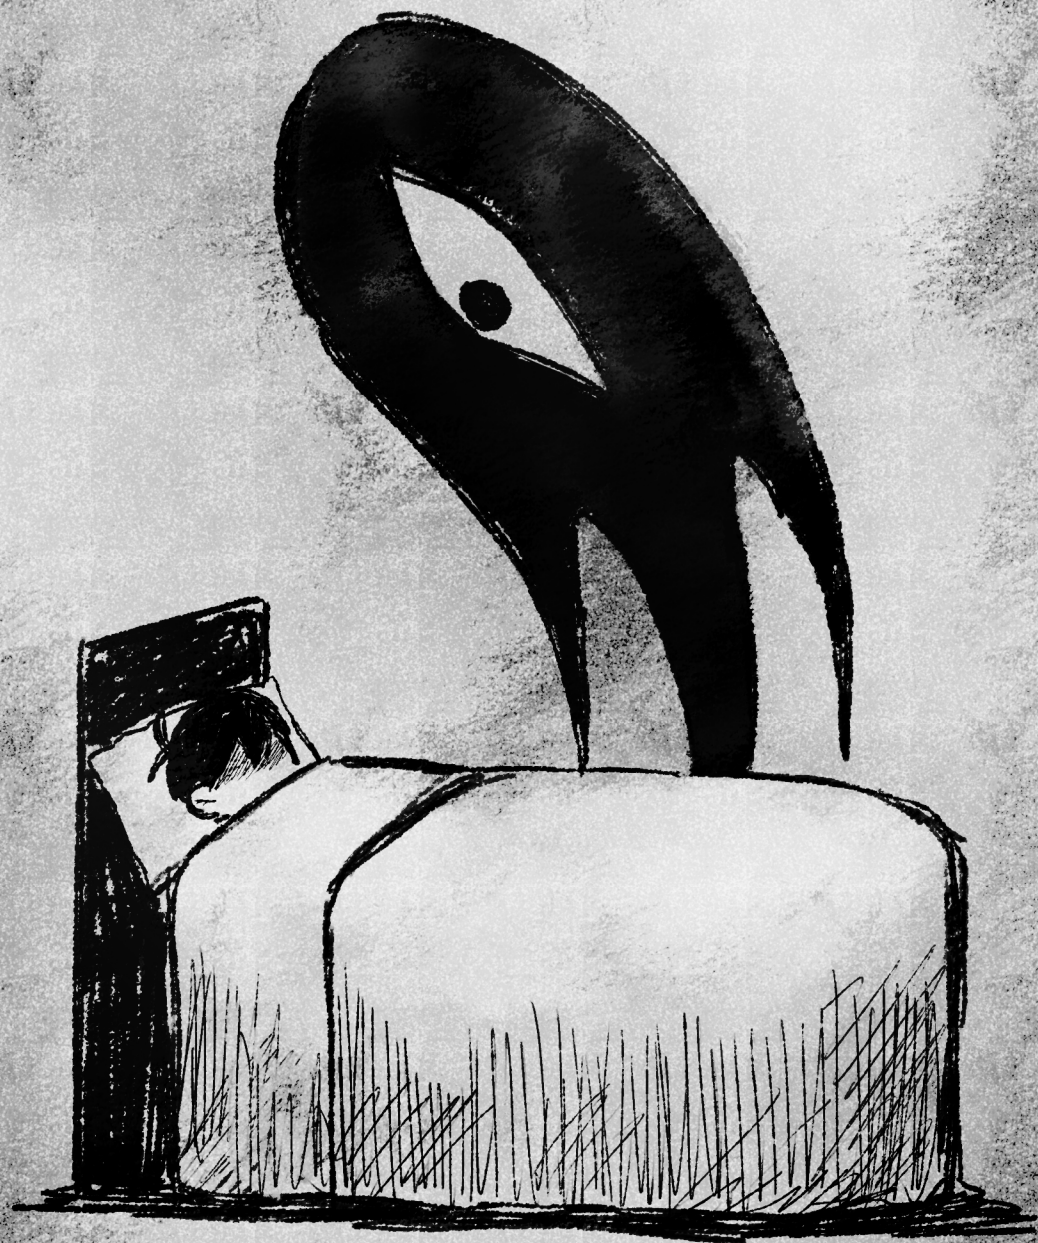

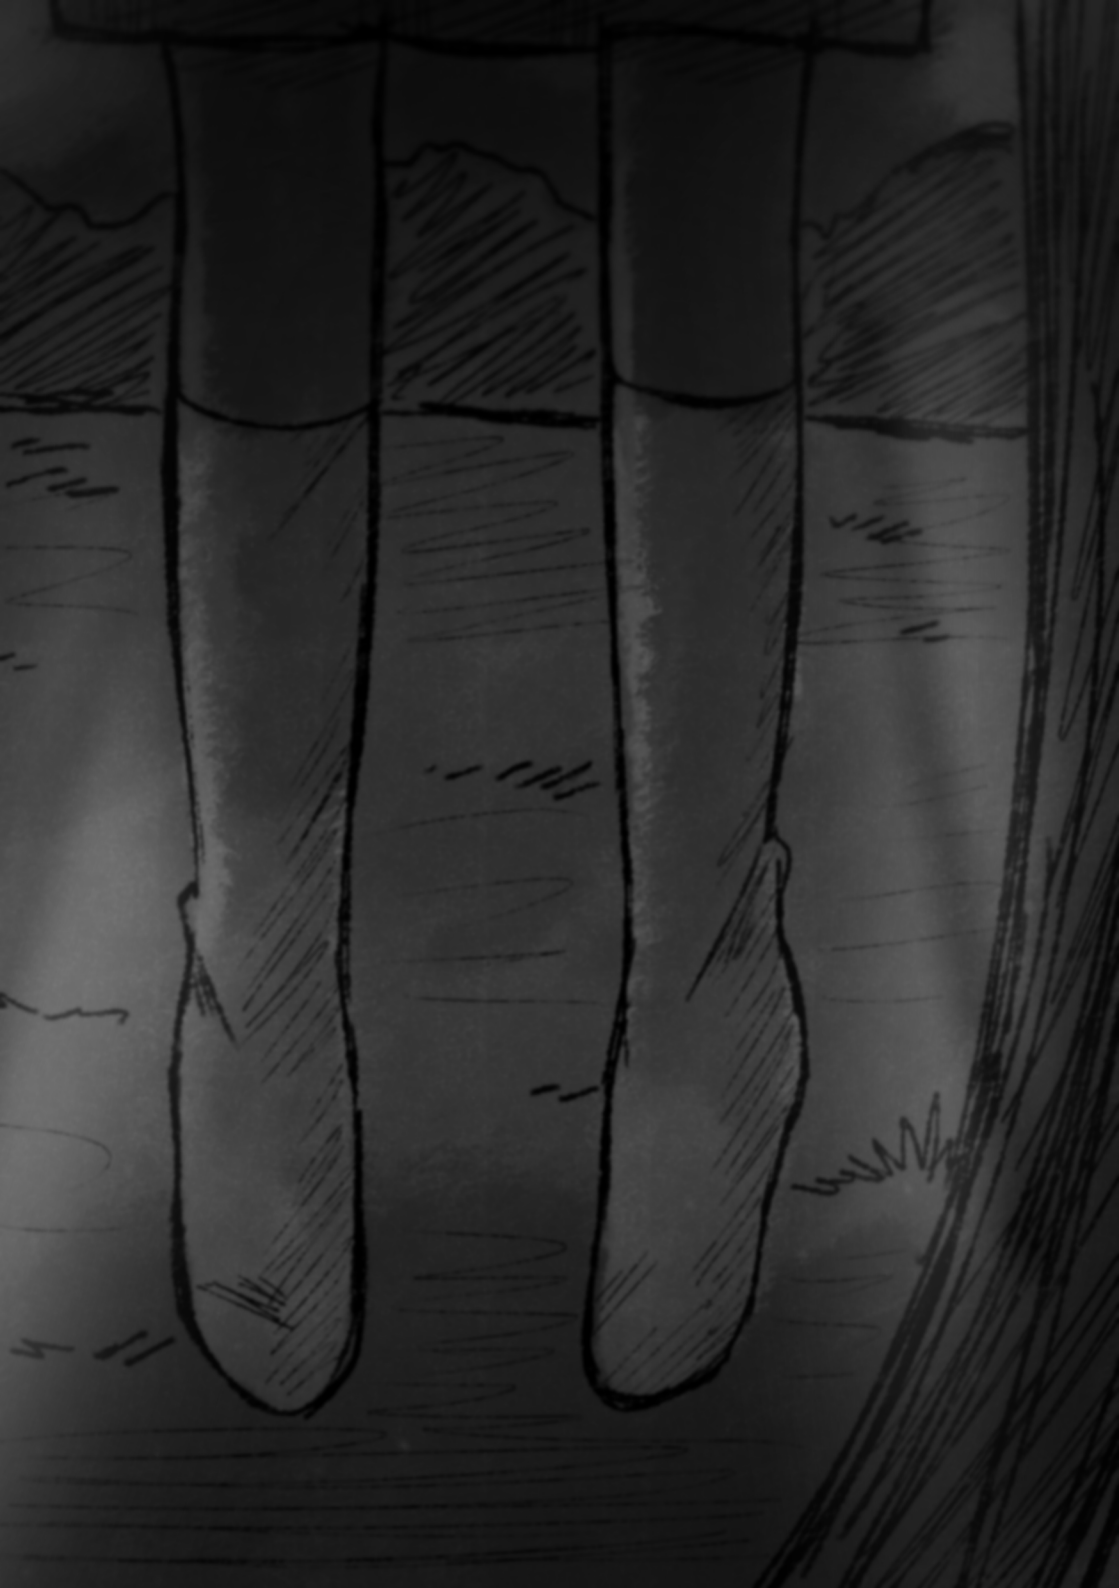

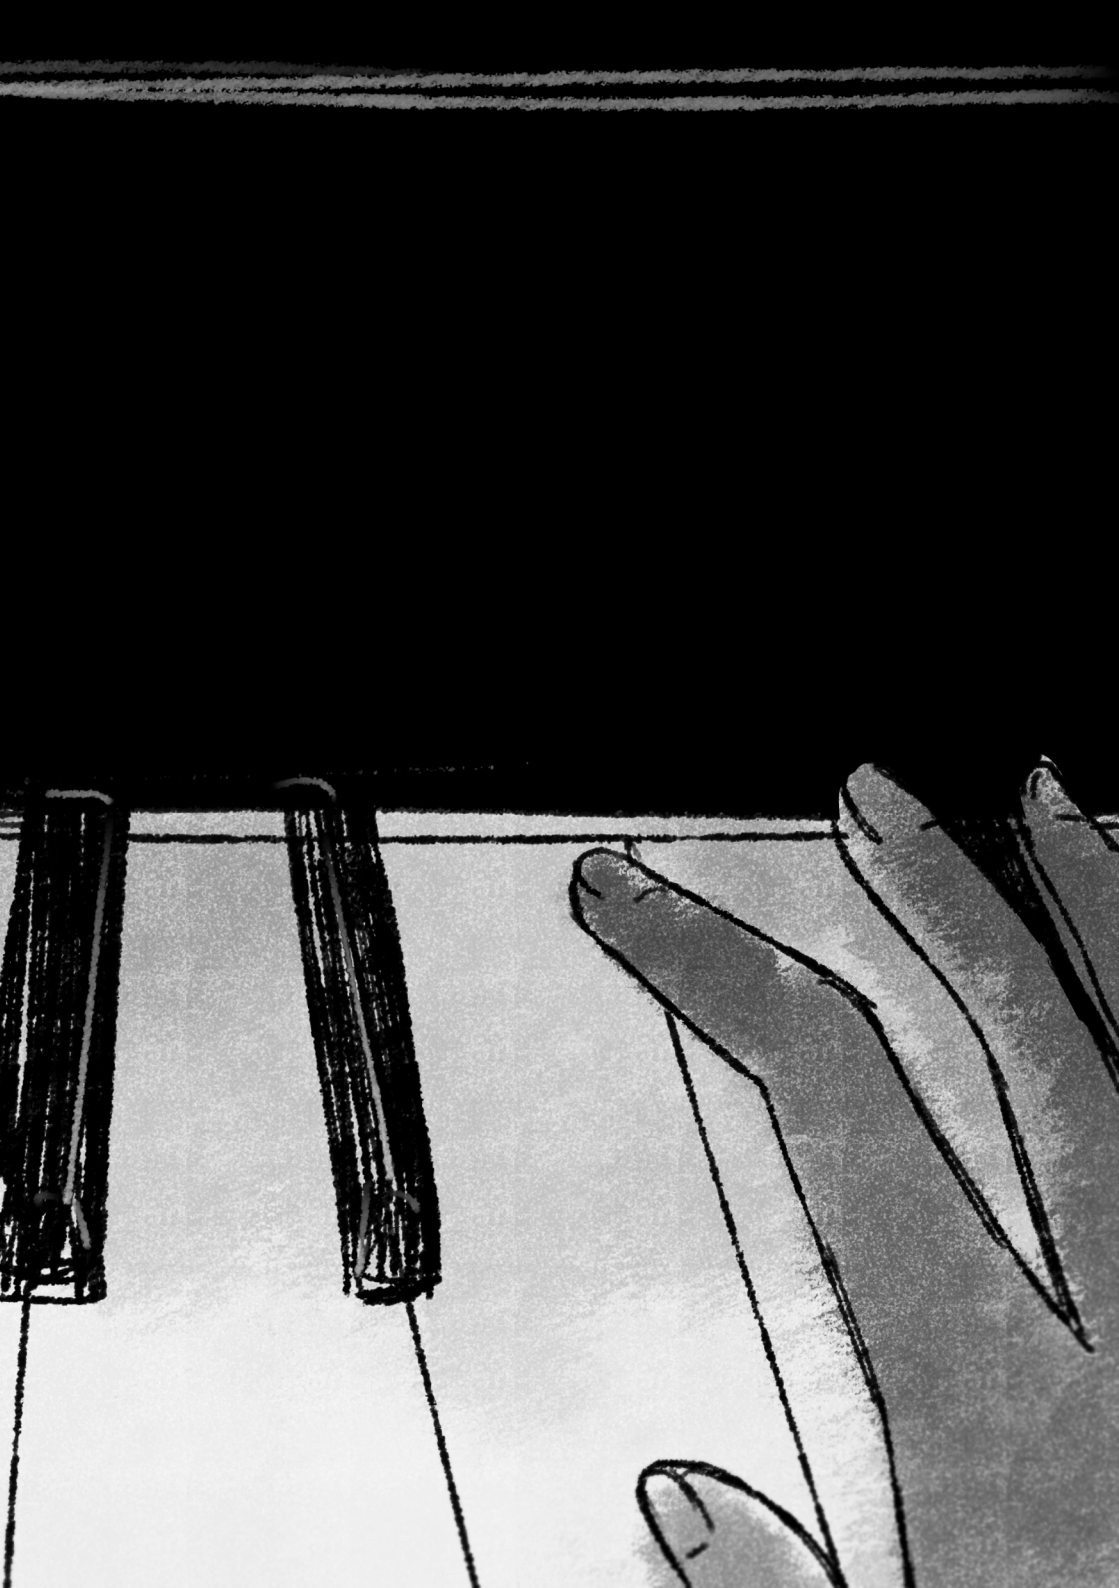

You always hated it, didn't you?
How I'd lock myself away on the
piano...

All that practising... Playing the
same song over and over.

When you first picked up your
new violin, you were so eager to
play with me.

But keeping up with something
isn't so easy.

Maybe I pushed you too hard.

I'm sorry... I just wanted it to be
perfect.

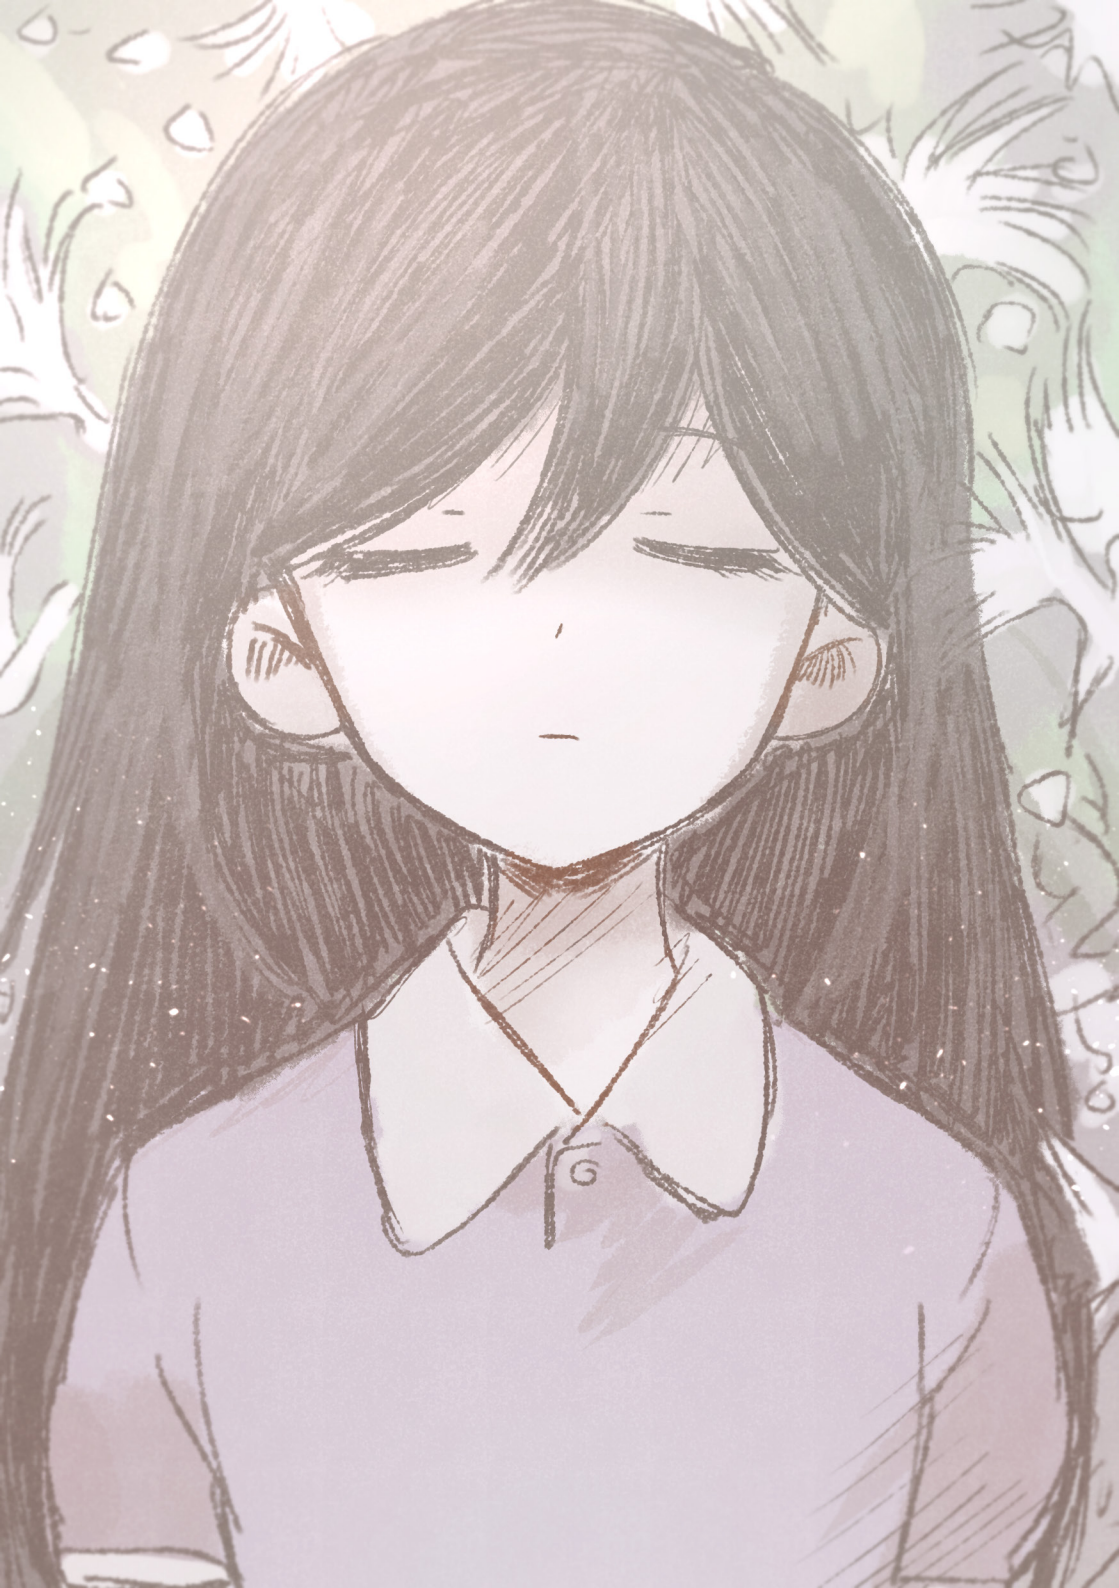

No hard feelings.

Sunny... I love you...

Closing

Thank you for reading my first art book!

It honestly feels surreal that I was able to draw all of this in the deadline I set for myself. OMORI has been such a huge creative inspiration for me this year, it motivated me to pick back up animation, and to try something entirely new like this. I wasn't very aware of OMORI until February of this year when my friend mentioned it to me, gave me his impres-

-sions and I eventually gave it a shot. The first time I played it I was in a terrible mood from unrelated things, but I wanted to give it a fair chance so I kept picking the game back up and by Sweetheart's castle it had really captured me. I still want to keep replaying it over and over! This game gave me so many specific feelings from beginning to end, and introduced me to OMOCAT's work which has helped me open my mind to the kinds of things I'm capable of doing.

There are still things I wanted to include and wasn't able to, but I hope I succeeded in capturing the same feelings I experienced from OMORI in this book! I would have made it 143 pages if I could...

To going even further beyond!
