Good morning, you Christmas-caroling cenobites. This here is Reading Redneck and I'm Joe Bob Anon. As you may have figured out if you went out to any store in the past week or so, it's almost Santa time. I don't need those kinds of hints. See, I'd know it once red and green lingerie gets really popular, all the plot-by-the-numbers Hallmark movies are on the TV, every radio station is federally mandated by the socialists to play Mariah Carey, and the news can't shut up about charity. I ain't got a thing against that last one. My gator woman, Creedence, has this habit of inviting her family over for a few weeks, and her little sister Charity has this tradition of turning the stereo up real loud. Should have never gotten the woman 'A Very Tuba Christmas' on CD a few years back.

But onto what we're here for – the stories. I usually let the random numbers pick a story, and then a few more times. Creedence and Charity gave me dirty looks for the next hour because not a single one had a Christmas theme. Not even a reindeer. I did get a deer one, and I'll tell you about that next time.

The girls suggested – and when you've got a pair of women that stand about eight foot each and can smother you with 80T big'uns, you listen – that I just say something about every story tagged Christmas in the masterbin. Between you and me, that was a lot of reading. Girls must have been trying to sneak something behind my back. Anyways, there's seventeen. Might be more that aren't tagged, so if there's one that should be tagged, give the nice guy running the masterbin a shout.

## Crimbus Time But Late But Okay

A big tigress wife gives Anon a special bit of roleplay by the fire, so this should be high on your list if you also asked Santa for the Russ Meyer box set or you just want a short bit of smut. Thicc-fu and creampie-fu. The writer missed an opportunity to make an eggnog joke, and I've got the feeling I'll be seeing plenty more chances for the phrases 'white Christmas' and 'put some icing on my cookie' as I read on.

## Women And Getting Ready For Things Amirite

A full-bodied cougar seduces her husband. Instead of getting dressed for a night out, they decide for appetizers at home. Thicc-fu (again – I think this guy has a type...), eating-pussy-fu, and no-panties-fu. Didn't see a huge Christmas connection, but it could have been a Christmas party.

## Hair of the Dog: Monsters and Mistletoe – Alfa\_Barf

We're still in big girl, normal guy land. But since it's Alfa and a Volfa story, this is one you probably already know. And if you haven't, a thousand angry Anons will stare until you read it. Coal-fu, magic-antlers-fu, naughty-list-fu, mush-fu, lube-is-always-great-gift-fu. This and the next story are like Miracle on Rule 34<sup>th</sup> Street; you can't escape them. Why would you want to?

## Happiest Place On Fur: Jingle Bell Rox – Alfa\_Barf

Creedence tells me I'm a sucker for pranks, and this features a nice one. The gang pulls off a stunt that seems perfectly normal, but results in a heartwarming moment. Whimsy-fu, Secret-Santa-fu, and girlfriend-in-lingerie-hiding-in-a-box-fu. As much as I prefer HotD:M&M, this one is tighter than the clamps on your car's hoses. It's not an easy task to make an Anon character feel like an individual, but Alfa does it with this one. It's like the name-brand candy sprinkles on a Christmas cookie.

### The Fire Is So Deerlightful – Deterna

A reindeer named Holly gets her ice queen ways melted a bit by something better than an iceicle. Antler-fu, workplace-sex-fu, bad-ex-boyfriend-fu. Don't lie to me and say you wouldn't do the same just to huf that cervid musk. And as our frst reindeer story on this list, Holly deserves a few minutes of time with you in that storage closet.

### First Christmas – Deterna

A singer vixen takes her man to a cabin getaway, but fnds that the gift she's getting is a marriage proposal. Non-screaming-vixen-fu, dashing-through-the-snow-fu. This, like the Volfa & Rox stories, is a small Christmas episode in a larger story.

### A New Father – Happy\_Dragon

After a broken heater forces two teachers, and their kids, to share a place for the holidays, a very special gift results in more than sex. Teacher-fu, lingerie-store-fu, kids-watching-from-the-doorway-fu. Creedence happens to like this one since she's the librarian at the local elementary school, so her naughty educator costume is something that yours truly enjoys often.

### Don't Unwrap Until Christmas – Jack\_Dawe

A nerdy and petite coyote gal has more than a touch of a BDSM submission fetish, and she shares the benefits with her human boyfriend. Coding-fu, vibrator-fu, bondage-fu, I'm-jealous-of-this-story-fu. Seriously, a great read that had Creedence looking up shibari. Think I know what's on my girl's mind.

### Merry Christmas, Morgan – JP5

Everyone's favorite maid uniform-wearing skater girl has a bad day at work on Christmas Eve and needs some cheering up. Skateboard-fu, lizard-tail-fu, hug-fu. Two-time winner of the O. Henry Christmas Story Involving Anthro Girls And Gift Exchanges, and three-time winner of the Joe Bob Anon Death Glare For Making Innocent Girls Cry For Good Plot Reasons.

### Special Christmas Procedure – Mal0\_Anon

Keter-class problems aren't appropriate Christmas gifts, but an evening with your wherever-the-heck-she's-from skulldog wife, steaks, and presents? Mal0-fu, SCP-fu, weapons-as-presents-fu, anal-fu(ck), and spooky-tradwife-fu. Those limp-wrists at the Hallmark Channel should take notes, and I've rarely seen it said so clearly (without saying it out loud) why oral sex is risky.

### Freelance Christmas Cheer Dealer – Mornin Dove

Christmas Eve car chase scene as an opener: plenty of 70s movies missed this idea, especially the part about making the car a sleigh and setting it in the early 1800s. Oh, and the babe driving the getaway is a hot ass. Chase-fu, cliff-fu, plot-relevant-nudity-fu, cuddling-fu, multi-barrel-fu, and donkey-fu. My inner Russ Meyer has never been as satisfied. Too bad Creedence ain't built for a dash through the white stuf.

### It's Okay To Be Boring On Christmas – Mornin Dove

Sometimes when ya got a big lady, she's the one calling the shots. Personally, I like my equines on the smaller side, but those draft ladies are so calm and fuzzy. Where's-my-cold-nipples-fu, shoulda-left-the-bells-on-fu, super-soaker-fu. There's a nice balance of story and smut here, but be forewarned: Carnation's reasoning might not be for everyone.

### Chickmas – Mousguys

Christmastime in the BHA setting. Like Volfa & Rox's stories, this is part of a larger set – don't tell me you've never heard of the BHA – but unlike them it is less a standalone story and more a scene. Gun-fu, no-plot-to-get-in-the-way-of-the-story-fu.

### Unexpected Christmas Gifts – StabbyTheSnowman

Yet another horse story, but unlike our previous ones this takes us out of the city. With a longer and hackkned plot, this could have been a perfect Hallmark Christmas movie. Except those boys don't do smut. Coltish-to-mare-fu, earplug-fu, Hulkmania-fu, snu-snu-fu, little-spoon-fu. If you're a fan of the (virgin) childhood friend theme, this one is for you.

## Crooking Around The Christmas Tree – Strong\_Anon

Izabella's story ain't that far of from me and Creedence, except it never really gets cold here. When a big old gal has a few tricks to keep you in bed that aren't sex, it's hard to pull of a good surprise Christmas gift. Many-blankets-fu, bayou-fu, meat-fu, smothered-by-breasts-fu, Christmas-lights-as-lingerie-fu, I-do-fu. Now if you'll excuse me a second, I've got to give Creedence a few minutes and act like I didn't see her peeking over my shoulder at this one.

## A new Home – Sunlight

After a fair amount of setup for the isekai situation, a guy finds himself getting drunker by the sip in a bar. Just when he's been turned down enough, his luck changes. My-car-is-my-lady-fu, old-lady-fu, cheetah-fu. If you like a slower pace and the MC not being a badass, this one and its ending might put a bit of warmth in your heart. Of course, Sunlight must have studied at the Don Bluth School of Main Character Emotional Trauma, so don't complain if it hits close to home.

## Christmas Puppy – WinterAnon\_

A single guy gets a fuck-huge crate that's labeled live cargo. Short, smutty, and submissive. Delivery-fu, bred-to-please-fu.

And let's do the wrap-up. Seventeen stories, with six being various canine and four more the felines. Two horses (both Clydesdales), two deer-types, only one vixen, one that gave Creedence wide alligator eyes and naughty ideas, and a Morgan with her skateboard. Big was more popular than small, with eight hitting that note. Overall, we've got plenty of Anon-fu (almost all the stories are Anon), Northern-hemisphere-fu (not a single one takes advantage of Christmas in the summertime), and the-best-way-to-keep-warm-in-winter-fu.

The things that I didn't see represented: Christmas lights as bondage equipment, a moose, a bear, hunting, quickies in the other room while the family is waiting for Christmas dinner, or mistletoe cock-rings. Oh, and no candy cane sex toys. Y'all are making fat, smiling Baby Jesus cry from the lack of the obvious. And where's the extended and loving descriptions of eating your (new) girl with the same enthusiasm as wolfng down the Christmas cookies in the five minutes between satisfying the woman and the kids asking if it's morning yet? And hell, y'all are gonna provoke me to write a cowgirl story where Anon's job is to help fill the cup with fresh milk for Santa.

Besides my pipe dreams, it looks like I'll have a few new stories to add to the list next year. But until then, y'all should read them on your own. In between, treat your gal to whatever belly or ear scratches she loves. Have a Merry Christmas and see ya next time.

MERRY CHRISTMAS
