Do you find yourself moping about because there is no way out of giving your money to companies that actively work to destroy your way of life?

For many of us, in 2020-22, the curtain that was hiding Oz fell down, and we saw him for what he really is. When corporations openly hate you, when schools openly indoctrinate your kids, and when the government openly poisons you through the food supply, you come to the realization that you have to start doing everything yourself. And it can feel overwhelming at first. Enter parallel economy.

The good news is that we have a powerful weapon in the war – our purchasing power. “The ability to shape corporate behavior and culture through our consumer choices can have a profound impact and we need to start using it more. We can no longer support brands that promote worldviews that are diametrically opposed to Truth. We need to continue making examples of brands who do bad things by refusing to purchase their products and services.” -Gab founder Andrew Torba

Shop local. Shop small. Stop letting big tech sell your data, or deciding what you can see on the internet. Just say no to government propaganda and watch independent news. Feed your family real food without gene altering substances. Find doctors who aren't big pharma pill pushers. Skills for sustenance, self-defense, parallel economics, spiritual healing, political awakening, and optimal performance are all necessary components of living free and toppling threats to liberty.

Welcome to Exit the Matrix by A Woman in a World Gone Mad!

[Cue Jimmy Levy's "Matrix"!]

Foreword

My initial purpose was to gather elements of the emerging parallel conservative economy and put it in one place for my busy friends to use. “The List” has also morphed into a collection of calls to action in addition to being a shopping resource. This guide will set those who are unfamiliar, on the path to sovereignty. This guide is also for the group of people who have moved past the complaining-about-the-world phase and are ready to move on to the get-things-done phase. The first edition of Exit the Matrix was released prior to the Bud Light boycott of 2023, which is one example of what we can accomplish, and I hope we were just getting our feet wet!

I scour social media, podcasts, websites, newsletters, and attend events to obtain every single resource. I create accounts to browse, and send email inquiries, digging into each one and report back on it just for you. This resource is being continuously audited, amended, and added to for quality and relevance. I try to make sure everything is updated but know the most relevant information can be found directly on the site listed. No one is paying me for anything you see here, and I work solo. The only one who put me up to this is the man upstairs. Please see the last page of the book if you'd like to support this work.

All resources can be used/printed/shared freely! You can find the link to this pdf you are reading on the Calls to Action page. However, please use discernment and share responsibly. I suggest making sure any person you share this with is a conservative and/or Christian patriot who loves and serves God and country. Please note that each entry's religious or political affiliation is explicitly stated unless dictated by common sense, and some entries have no affiliation but still serve the purposes of this book.

I understand that we all hold slightly varying views on politics and religion even as Christians and patriots, so unlike the Bible, please pick and choose what suits your needs and feel free to disregard the rest! Exit the Matrix is not the only source of its kind. As a matter of fact, a few of the others are included in this book. There are thousands of us out here, each influencing our own pods. Together, we move as one.

Target, Walmart & Amazon Alternatives

AzureStandard.com

Family owned and independent company. Offers over 12,000 affordable organic, non-GMO groceries, health, household supplies, pet food, gardening supplies, organic non-GMO plant starts, heirloom seeds, animal feed, fencing supplies, and some tools. Regular size or bulk orders. Either pick up from your local drop point or receive via mail depending on location. This combined with farmer's markets and buying direct from butchers & farmers is nearly able to replace trips to the grocery chains, which increasingly only sell mRNA beef, tumors grown in a lab sold as "fake meat", and pesticide-drenched produce (even certified organic went to the darkside).

"The largest network of patriot-owned businesses. Pro-life, Pro-family, Pro-freedom." I was a little leery of this one due to their World Economic Forum board member, Nick Ayers, but leaving it off this list entirely is a disservice to all the great companies you can find on Public Square's database. Find services like America First Healthcare and America First Life Insurance in addition to physical items. There are several way to search but one is to simply put in the item you are looking for like "shampoo" or "mascara" just like you would on Amazon. Member account required to browse. When you find an item or company on the site, you're given a Public Square discount code and a link to the company's external site. My favorite feature is PublicSq Swaps. For example, "Ditch Nike, buy Treign." Find your swaps [@publicsqblog.com/category/publicsw-swaps/](https://publicsqblog.com/category/publicsw-swaps/). Free to shop or post your business for a fee. Offers search function by category. One of my favorite shops I've found on the site is Cousin T's, created in response to Aunt Jemima being taken off the box. "The pancake mix that the left can't cancel."

Some of these entries are Private Membership Associations. PMAs, or members-only retailers, are technically a "group of men and women who have chosen to associate in support of a particular activity or interest." PMAs are a way to become exempt from regulation by the government, via protection of the 1st and 14th amendments, as long as it doesn't present a clear and present danger to the public. They are only allowed by law to offer products at the discounted prices they do, or sell otherwise illegal products such as raw milk, because it is a PMA. Costco and organic grocery store co-ops are great examples. I was turned off by membership fees until I learned about this, so I thought it was important to add. Maybe you can also add the PMA idea to your sovereign toolbox. See Important Documents page for how to do a PMA the right way and not get in trouble. For more info and stats on PMAs visit pmapower.org/pma-private-membership-association/

WAPF is an international membership nonprofit dedicated to restoring nutrient-dense foods to the American diet through education, research, and activism. The foundation operates on a system of local chapters totaling 320 in the US and 75 internationally. The primary responsibility of each chapter leader is to locate sources of real food for both WAPF members and non-members who ask. Visit the site to find a chapter near you. Check out their annual Shopping Guide released every December with a comprehensive listing of sources for 30 food categories and other nutritious foods (free to members, or \$3 for non-members). The guide ranks the healthiest foods consumers can buy in health food stores, supermarkets, and farms, including foods that can be ordered online or by phone.

LocalHarvest.org/organic-farms/

“There are almost two million farms in the USA. About 80% of those small farms are family owned. More of these farmers are now selling their products directly to the public. They do this via CSA programs, Farmers' Markets, Food Co-ops, u-picks, farm stands, and other direct marketing channels. **Use our map to find your farmer!** Large scale chemical agriculture is poisoning our soil, and our water, and weakening our communities. By *buying direct* from a family farm *you* can help put a stop to this unfortunate trend. By buying organic produce from your local farmer, you are working to maintain a healthy environment, a vibrant community, and a strong and sustainable local economy for you and your kids to thrive in.”

EatWild.com/products/

“Eatwild's Directory of Farms lists more than 1,400 pasture-based farms, with more farms being added each week. It is the most comprehensive list in the United States and Canada for grass-fed or pastured meat and dairy products, including: Beef, Pork, Lamb, Veal, Goat, Elk, Venison, Yak, Chickens, Ducks, Rabbits, Turkeys, Eggs, Milk, Cheeses, and more! You can also look for listed farms that are certified by organizations such as Certified Humane or the American Grassfed Association, or follow kosher, halal, or other specific practices. See our list of Farms that Ship. Find farmers markets, stores, restaurants or buying clubs that sell meats in small quantities or by the individual cut.”

*The Cornucopia Institute Cornucopia.org

“Cornucopia uncovers the truth behind organic food and advocates for an organic label you can trust. We are building a world where agriculture heals people and the planet. TCI continues to be a watchdog within the organic industry, working to protect the character of organic standards while auditing the integrity of products bearing the organic seal.” Here’s how it’s useful for the everyday person: Tap ‘Scorecards’ at the top. You’ll be taken to a page where you can select their scorecard for specific products: eggs, dairy, beef, poultry, yogurt, plant-based beverages, snack bars, cottage cheese, cereal, soy food. When you tap on a scorecard you’ll be taken to a page where you can tap a link to each company they surveyed with clickable hyperlinks to that company’s website. It tells you within the scorecard grid: which products the company offers, if they sell online, where they are located, and their organic score. For example, on the beef scorecard there are 38 companies that scored 4 steaks (stars) out of 5 and above. Tap ‘Alerts’ to be taken to a page where you can fill out a webform to send commentary to your legislator on issues important to the organic movement.

Water

BerkeyFilters.com

Water filter for your home. The best according to many. Filters 200+ contaminants. Berkey is currently tied up in court over the FDA labeling it as a pesticide due to the filters using silver, which the EPA classifies as a pesticide. If you read through the court documents, it is plain to see that the EPA personnel are re-interpreting EPA regulations in order to influence the outcome of a private lawsuit rather than to follow EPA guidelines, in an act of blatant persecution. The EPA clearly does not want the public to have the ability to purify and drink clean water. The EPA has issued the company a stop work order, and it is currently in appeals court. Berkey's statement on some of the allegations: usaberkeyfilters.com/blog/2022/12/official-statement-regarding-berkey-water-filter-lawsuit/ and here is a European Berkey website that is tracking the lawsuit and posting updates, which includes the case number if you want to look it up: berkeywaterfilterseurope.com/blog/berkey-water-filters-sues-the-epa

AlexaPure.com

"Gravity-powered water filtration. The best solution for your family for safe, pure drinking water. For everyday use or an emergency. Reduces over 200 contaminants per filter." Everyone is saying - in the comments section of prepper blogs - Alexa Pure is the next best thing to Berkey filters. Looks and works nearly identical.

*Covid19CriticalCare.com

The website of the Frontline Critical Care Alliance doctors. These are the real doctors who care and don’t just want to push prescriptions and procedures on you like all the other Rockefeller-trained doctors you normally run into and are probably frustrated with. Site has a library on covid 19/long covid/rsv/flu issues: prevention, treatment, long covid recovery, vaccine injury prevention, shedding from vaccines, and long vax recovery. Strategies to prevent and treat conditions like cancer, depression, insulin resistance and more. Tap ‘Resources’ to find a provider or a pharmacy, testimonials, medical evidence,

evidence of the efficacy of ivermectin. 'Education' tab is a portal to courses, lectures, slide presentations, and key facts, data, and references from FLCCC educational programs. 'Community' tab brings you to a dropdown menu of events, public and private user forums, and a membership option which is as of January 2025 in beta testing with a price to reflect it and a free option. A membership of \$10/month gives you access to a members-only network of healthcare professionals, private forums, plus access to free content such as public forums, technical support, and notifications.

Med Kits by The Wellness Company. Tap 'Med Kits' at the top for the dropdown menu to view one of many prescription medication packages: medical emergency kit, contagion emergency kit, first aid emergency kit, kids emergency kit, travel emergency kit, radiation emergency kit, field emergency kit, and med replenishments. Contagion Emergency Kit comes with ivermectin, hydroxychloroquine, azithromycin (generic z-pack), generic tamiflu, budesonide along with a nebulizer, and a 40 page guidebook. Radiation Emergency Kit comes with radiogardase, potassium iodide, ondansetron, and a geiger counter. Research studies following major nuclear events concluded that the biggest long-term risk to human beings is to the thyroid gland, and that potassium iodide (KI) should be taken 3-4 hours after exposure to reduce radioiodine uptake. KI is also available over the counter. Add your chosen emergency kit to cart and checkout, then you'll do a telehealth session (price included in cost of kit) with a twc provider who will prescribe your kit to you. Arrives in 2-3 weeks so plan ahead. You also have the option to get individual medication refills in the future once purchasing a kit. I contacted the company for us and they said the rx's are good for 2+ years, except the Ivermectin only lasts 6 months per federal compounding laws. Also see [twc.health](https://www.twc.health) under 'Health Shares' above, and the '[Courageous Discourse](#)' Substack listed on the 'Newsletters' page.

Manufactured by Mankind Pharma Ltd, which is based in India. Prices are cheap if you're willing to purchase from outside of the US. I have before and it turned out great but know there is risk involved as their safety protocols are not necessarily as strict as here in the US (keep reading for US based retailers!) Get 4 Ziverdo Kits (a regimen of zinc acetate, doxycycline, & ivermectin) for \$50 or up to 60 kits for \$500, but it will take

2 weeks to get to you. Site has a total of 40 covid & flu-related prescription remedies. Another website that is pretty similar is buyivermectinforhumans.us

AllFamilyPharma.com

Family-owned and operated pharmacy in Boca Raton, FL. “We work with doctors all over the country to help get access to medications normal pharmacies are unwilling to dispense including but not limited to Ivermectin & HCQ for Covid-19.” All medications made in the USA. You place your order on the website. A 5 day course of Ivermectin, for example, will cost you \$95, which includes a doctor consultation fee who will review your file before the order is shipped. Also offers add-ons of items such as antibiotics (\$30), doxycycline (\$30), prednisone (\$20), plus more.

*Virex.Health

For “pets”. A Canadian company. Offers PetMectin (ivermectin); PetDazole (fenbendazole); FishCycline (doxycycline); Vir-X Immune support with Vit C, Vit D, Zinc, Turmeric, Quercetin, Bromelain, Boron, & K2 which contains no dairy, wheat, gluten, eggs, peanuts, soy, tree nuts, fish, shellfish, preservatives, artificial colors or flavors; full spectrum CBD oil; and Flav-X, a plant based sugar replacement – pharma grade allulose rare sugar which is keto friendly and has zero calories and a zero glycemic index. Does not make you purchase a doctor consultation with your prescriptions. The PetMectin for example is \$70 for 50x 12mg ivermectin tablets.

“Zelenko Labs is dedicated to bringing high-quality supplements that are scientifically researched and specially designed to improve the lives of our customers. Z-Stack was designed by Nobel Prize nominee Dr Vladimir Zelenko and adapted from his lifesaving Zelenko Protocol. Z-Stack has grown into a family of products dedicated to helping people of all ages to feel their best.” COVID-19 vitamin protocol for adults and kids (Vit C, Vit D, Zinc, Quercetin) from Dr Vladimir Zelenko, who tragically succumbed to cancer in June of 2022. Site also offers ivermectin, hydroxychloroquine, doxycycline, dexamethasone packs for flu/covid; Z-shield which is a natural detox protocol; Z-spike which is a vaccine spike detox protocol, Z-Night for sleep, and a few others – check out the site for more details. In the first few months of 2020, Dr Zelenko identified a repurposed drug solution to the pandemic, and in the process, saved 7,000 of his patients while inspiring other physicians to do the same. Two doctors, California physicians Dr George Fareed and Dr Brian Tyson used the Zelenko Protocol to save nearly 10,000 lives. They published their experience in the book *Overcoming the COVID Darkness: How Two Doctors Saved 7,000 Patients*. Read about the proven effectiveness of this protocol here: [pmc.ncbi.nlm.nih.gov/articles/PMC8712288/](https://pubmed.ncbi.nlm.nih.gov/articles/PMC8712288/) The all-natural supplements are non-GMO, CGMP-certified, Kosher, and Made in the USA.

*MATH+ Protocol for Covid 19 (relevant to *any* viral outbreak)

When the coronavirus outbreak hit the world, the experts declared that no anti-coronaviral therapy existed. Based on this assumption nearly all national and international health care societies recommended “supportive care only” which resulted in inexplicably high mortality rates with frequent prolonged durations of mechanical ventilation. This led a group of medical experts to form the Front-Line COVID 19 Critical Care Alliance (www.FLCCC.net). Based on working with their patients, the alliance developed a treatment protocol of methylprednisone, ascorbic acid, thiamine, heparin and non-antiviral co-interventions (MATH+). Read the scientific studies supporting their use in treatment at pmc.ncbi.nlm.nih.gov/articles/PMC8912998/. If you or someone you love is hospitalized with Covid you can request the MATH+ protocol to save their life. Download it at Covid19CriticalCare.com. Although the powers that be are ready to move on to the next pandemic, these treatments still apply to any viral outbreak, though the treatment protocol handout won’t be accepted by the hospital for any other named virus. I hope if and when that happens (Bird Flu?) the websites at FLCCC.net and/or Covid19CriticalCare.com will be updated. The website is still posting new articles as of January 2025. I’ll keep my eyes peeled for us. Keep an eye on these websites plus my telegram page (see pg 3) for any updates before the next release of Exit the Matrix. You can also use a secure private browser to look into the names of the doctors who published this medical study and see if they’ve posted protocols anywhere: Pierre Kory, Ginfranco Umberto Meduri, Jose Iglesias, Joseph Varon, Flavio Adsuara Cadejani, and Paul E Marik.

Save \$\$ at the pharmacy with a few taps. Most doctors will tell their patients about this but I thought I’d include it anyway. You type in your prescription info then it pulls up a list of pharmacies and their prices with the app. When you get to the pharmacy and they ask about insurance just say “Good RX”. Some prescription prices get knocked down by over 50%, you have to try it if you have no insurance.

GiveSendGo is a Christian crowdfunding website founded in response to GoFundMe removing campaigns that they did not ideologically agree with.

A growing number of people are turning to credit unions and community banks in response to politically motivated debanking (thefga.org/blog/debanking-treats-law-abiding-citizens-like-criminals-but-states-can-set-them-free/), and the Select

Subcommittee on the Weaponization of the Federal Government led by Rep. Jim Jordan caught several large banks colluding with the FBI to label you as a domestic terrorist (mailchi.mp/3f777022347b/supersecretglobalistgroup-15693387) Added small bank bonus: lower fees and better interest rates! Old Glory Banking Bill of Rights include, “The right to bank without the risk of cancellation because of your faith, industry, or beliefs. The right to banking services without restrictions imposed by a ‘social credit score.’ The right to banking privacy, shielded from improper government snooping.” Co-founders and thought leaders: John Rich, Larry Elder, Dr. Ben Carson, and OK Governor Fallin-Christensen. The US Constitution is Old Glory Bank’s mission statement, which I think is pretty neat. Offers a payment app, mobile deposit, electronic statements, personal checking accounts, interest-bearing savings accounts, business banking, home loans, small business loans, free bill pay, free overdraft protection, free transfers, no monthly fees.

*Coign.com

“America’s conservative leading credit card. Give back, fight back, spend right!” 1% unlimited cash back rewards on every purchase you make. The Coign credit card is a VISA credit card that donates a portion of every transaction you make to support conservative charities such as The Bill of Rights Institute and Stop Soldier Suicide, but check out the ‘Causes’ tab to view them all. Bath & Beauty Products

Detoxifying your body and your beauty routine is just as important as fighting for freedom, because you can’t do one without the other! I encourage you to look up other clean beauty brands and stores using your search engine. There are also a plethora of small business beauty brands on Public Square. They’re everywhere! Another trick is to shop directly from the manufacturer - most beauty brands have their own online stores. Ditch ultra woke mega companies like Ulta and Sephora.

[*OGEE.com](http://OGEE.com)

“Luxury, natural, and organic makeup & skincare line created with the newest scientific technologies. Infused with super rich organically harvested Jojoba Oil for super healthy skin.” NSF certification – minimum 70% organic ingredients. Science backed,

sustainably sourced, naturally derived alternatives. No synthetic fragrances, no harmful chemicals, no artificial additives, cruelty free, GMO free, vegan, and gluten free. Offers the whole gamut of regular makeup & skincare needs and also including serums, mists, makeup brushes and gift sets. Manufactured and sold by a small business in Vermont.

[*NessasNaturals.com](http://NessasNaturals.com)

“Facial & body care, cosmetics, luxury lounge.” I found this company on Public Square (‘Target, Walmart, & Amazon Alternatives’ page) and I encourage you to try to find all of your essentials there, too. Switch over one item at a time – I believe in you! Their makeup primer is great for oily skin. Full makeup line, full service facial & body care, also offers cologne & aftershave & beard oil. Bamboo lounge wear line, including bras and panties. Retail shoppe in Marshall, Minnesota, or ships to your door.

ADelNaturalCosmetics.com

“A family run business providing clean, high-end, natural, handcrafted, toxin free cosmetics. Made in the USA. Free of 1000’s of toxins readily found in conventional mass-market beauty.” A Christian company based in Louisiana.

ElevateBeautyUSA.com

Beauty influencer Amanda Ensing’s makeup line. In 2020, we watched as Sephora caved to the woke mob and canceled Amanda simply for being a Trump supporter. Amanda refused to capitulate and has gone on to create her own beauty empire. All products are cruelty-free, vegan, and made in USA. Her line currently only offers twelve shades and types of creamy buttery lip gloss, but Amanda has plans to add more types of products, so keep your eye out!

ClaraAndFritz.com

“Tallow. Based. A family-owned shop specializing in providing clean, simple skin care. All of our tallow products are synthetic fragrance free, artificial color free, petroleum free, and are handmade in tiny batches using real ingredients.” Whipped tallow balm, tallow night cream, tallow sun protection with zinc oxide, lip balm, scrubs & cleansers, gift sets & bundles, plus more. Not anywhere near as expensive as I’ve seen other tallow products!

Garnuu.com

Patriotic feminine hygiene products. Offers organic tampons, organic day and nighttime pads, organic panty liners, period cups, and a freedom fighter merch shop. Garnuu does not fund Planned Parenthood, unlike the brands you buy at the grocery store. Also unlike the grocery store brands, Garnuu owners have vowed to never replace the noun ‘women’ with ‘menstruators’. Each tampon subscription supports feminine hygiene training and female entrepreneurship to Nepali women and girls who are vulnerable to human trafficking.

JeremysRazors.com

Woke-free, DEI-free razors for masculine men, created in response to Harry’s pulling advertising from the Daily Wire when they pointed out there are only two genders. In August of 2024, they sold their 1,000,000th order! In addition to men’s razors the site also offers women’s razors, shaving balm & cream, shampoo & conditioner, body soap,

face cleanser & moisturizer, men's & women's aluminum-free deodorant, beard oil & balm, all purpose cleaner, hand soap, and women's body lotion. Site also has the HeHim and SheHer chocolate bars (see 'Other Small/Patriot/Christian Businesses & Alternatives' page).

Stop getting fluoride toothpaste, fluoride treatments at the dentist, and don't drink the water. Not only does fluoride calcify your pineal gland, but Western nations that fluoridate their water have rates of tooth decay similar to those that do not add fluoride to their water. 64 scientific studies link fluoride to low IQ in children. Fluoride accelerates aging, contributes to joint pain, increases cancer, and has been banned in most European countries. Most fluoride added to drinking water is not pharmaceutical grade, but unrefined and highly toxic industrial waste product. To find out more, including the history of fluoridation, visit fluoridealert.org/news/fluoride-poison-on-tap/

PrimalLifeOrganics.com

Dental & Skincare products by Trina Felber. "Skin-food filled with vitamins, nutrients, essential fatty acids, and antioxidants. Our ingredients are pure, organic, and sustainable." Offers toothpaste (contains hydroxyapatite & colloidal silver), toothpowder, gum drops, floss, teeth whitening products including a LED device; at-home facelift bundle which you can also buy separately includes a cleanser, exfoliator, serum, and sonic lifting device; body care including body butter, shaving cream, body wash, shampoo, and conditioner. Check the last page for a \$10 off code!

Boka.com

Toothpaste, SoniCare toothbrushes, regular toothbrushes, floss, tongue scrapers, & plastic-free mouthwash tablets. Powered by nano hydroxyapatite and probiotics. "We carefully select high-quality, clean ingredients formulated in the USA." For more info click on 'Learn More About Nano-Hydroxyapatite'. When I refused fluoride at my dentist, they recommended Boka instead!

ProDentim.com

Rebuilds good bacteria & enamel. Contains three strains of probiotics and a proprietary blend that includes inulin (prebiotic), malic acid (an alpha-hydroxy acid), and tricalcium phosphate (used to treat or prevent a calcium deficiency). Do NOT buy the fake gelatin capsules on Amazon.

Right-leaning British publication. It seems to have beef with Elon Musk but everything else I’ve seen is anti-globalist and pro-freedom and I’ve been following for years now as of January 2025. There are two important reasons I recommend paying attention to British news: 1. what happens there first comes to the US next, and 2. they publish things you won’t find on censored American news.

*Mercola.com

You don't have to tag Mercola or even post a link to his site to get your account restricted on social media; just simply mention his name in a comment. I most recently learned from him about DMSO and recommended it to someone close to me who cannot tolerate NSAIDs or Tylenol:

media.mercola.com/imageServer/Public/2025/January/PDF/dmso-chronic-pain-pdf.pdf
(I was in awe to learn that DMSO helps your DNA proteins to fold correctly!) Available over the counter at places such as Walmart and on Amazon. The information that Mercola puts out is based in research (referenced within the articles) and most definitely upsets the natural order of the Rockefeller Medical Industry (meridianhealthclinic.com/how-rockefeller-created-the-business-of-western-medicine/). No wonder this very knowledgeable doctor has been banned. Sign up for the newsletter to start taking charge of your health.

Sports

Big 3 @Big3.com

In July of 2023, Big 3 founder Ice Cube did an interview with Tucker Carlson, where they talked about Cube's skepticism about politics, called out the hypocrisy of the BLM leaders, and discussed why Cube turned down a \$9 million dollar movie role so he didn't have to take The (not safety tested) Jab. In January of 2017, actor and music legend Ice Cube, along with entertainment executive Jeff Kwatinetz officially announced the launch of the BIG3: a new, 3-on-3, half-court basketball league that will feature some of the best players to ever play the game. Since then, Big 3 has built an entire league to rival the NBA (to which China has publicly claimed ownership). Site offers game schedule, ticket sales, stats, merch shop, and Big3TV. Every game is live and available on broadcast & streaming platforms.

NBA's Jonathan Isaac of the Orlando Magic

Christian apparel line @WeAreUnitus.com

Jonathan Isaac was the only player on the team not to kneel for BLM, because it "didn't feel right" to him. He has since started his own anti-woke apparel line Unitus, which focuses on Christian-based values and bringing people together under the tenets of God and country. Currently offers a few different types & colors of sneakers, track suits, sweatshirts, sweatpants, and hats available for adults and youth.

NBA's Enes Kanter Freedom formerly of the Boston Celtics

Enes is a vocal human rights activist who calls out the human rights abuses in China, and their puppet LeBron. A newly American citizen and Turkish immigrant, he recently got put on Turkey's 'Most Wanted' list for calling President Erdogan a dictator. I mean, way to prove him right! Pro-medical-freedom and anti-gun-control. Fly that Celtics jersey #13!

MLB's Texas Rangers

The only MLB team to resist hosting a pride night despite national pressure. Rated the 2nd best team overall for the 2023 season.

Riley Gaines @RileyGaines.com

"Athlete. Advocate. Woman." 12x NCAA All-American, 5x SEC Champion. Riley is a leader defending women's single-sex spaces, advocating for equality and fairness, and standing up for women's safety, privacy, and equal opportunities. She became one of the most powerful voices to speak out against discrimination by the NCAA, USA Swimming, and the International Olympic Committee. Riley travels the country speaking and has testified before the U.S. Senate, U.S. House, and countless state legislatures. *NFL's Harrison Butker of the Kansas City Chiefs

One of the most accurate kickers in NFL history and won 3 super bowls with the Chiefs. As a guest on a podcast in March of 2022, Butker famously stated that he would rather

retire than compromise his morals by taking the Covid 19 vaccine. As expected, this sent the Kommunist Kult into hysteria, with many calling for his resignation. At a May 2024 commencement address at Benedictine College, Butker criticized legislation that makes it illegal to state the fact that Jewish people were responsible for the murder of Jesus Christ: “We fear speaking truth, because now, unfortunately, truth is in the minority. Congress just passed a bill where stating something as basic as the Biblical teaching of who killed Jesus could land you in jail.” Read the bill (HR 6090 2023-2024) here:

<https://www.govinfo.gov/content/pkg/BILLS-118hr6090eh/pdf/BILLS-118hr6090eh.pdf>
As of January 2025, Congress.gov shows the bill has passed the house and still needs approval from the senate before going to the President to be signed into law. It seems our lawmakers have confounded saying that Jews killed Jesus with blaming Jews collectively for it – which is not the same thing. But, as with so many ideas the devil perverts, it sounds reasonable to the unsuspecting. To me, this bill sounds like a slippery slope to what’s happening in the UK (for example, see [The Rape of Britain](#) on the ‘Documentaries’ page). To show your support for Harrison, fly his Chiefs Jersey #7, or shop his couture menswear at [Shepherds.com](#).

On X, the creator said that it's structured less around individual people and more around following interest groups, so join groups and interact there to get the most out of the platform. Gab has it's own uncensored browser, Dissenter. You will also see Gab peppered throughout this document – they have a Public Square-like marketplace where you can shop and post your business, there's a payment processor gabpay.info, it even has it's own version of chatGPT at Gab.ai and check out the image generator at Gab.ai/start/gabby which made the cover of this book for me. Awesome job, Gabby, thank you!

Before downloading an app, actually read the fine print before you hit "I Agree" and you'd be surprised by what you find. They'll often bog it down in jargon so try looking some of those terms up to see what they actually mean. On social media and other Big Tech apps one permission (of many) you need to agree to is for "Active Listening" which means that your phone can listen to you - and it does so even when you are logged out of the app. (insiderpaper.com/our-phones-are-really-listening-to-our-conversations-marketing-firm-reveals/) Avoid this by simply visiting or logging on through the web address.

YouTube Alternatives

[Rumble](https://rumble.com)

THE total replacement for YouTube (unless you want to watch something benign like a how-to cooking video then you might be stuck with YouTube). On Rumble you can "host, distribute, and monetize all your professional, social, and viral video." The accounts that

I followed who got kicked off YouTube in 2020/2021 for speech The Ministry of Truth didn't like, all moved over to Rumble. **Download the app or visit Rumble.com.**

Odysee.com

“Odysee aims to build a more freewheeling, independent video platform. Site created using LBRY blockchain, so creators have more direct control of their content and their audience.” Odysee hosts all kinds of media such as images, articles, PDFs, audio files, etc, but they are best known for hosting videos. A successor to YouTube, recapturing the spirit of 2000s internet freedom. Create a free account to browse videos by topic using the handy navigation tabs.

Privacy/Internet Tips & Tools

AbovePhone.com

“Reject corporate tracking and ads while staying anonymous and communicating privately.” As of January 2025, they offer 10 different smart phones, the best one being their Pixel 9 Pro XL with a 6.8” LTPO OLED screen, 1TB storage capacity, 5x optical zoom camera, 8-core processor, water resistant technology. **Keep your phone number!** Above Phone offers open source operating system Graphene OS which is loaded with free and open source apps (you can add Big Tech apps as well), email, VPNs, and encrypted communications apps which can be paid with crypto. Also offers phone cases, laptops, EMF protection, and live monthly webinars on the site. When you sign up for their newsletter you receive access to a few of their privacy-focused webinars.

*Unplugged.com

“The privacy smartphone. Replace your cellphone, VPN, antivirus, and messenger with a unified personal privacy system. With the UP Phone your data is not being monetized, sold, or shared by anyone.” Powered by their proprietary OS LibertOS. Liberty Firewall blocks ads even within the apps. Anonymize, encrypt, and shield your data. Call, share, browse, and store undercover. Travel untracked. Does not stay remotely connected while turned off – includes a kill switch that completely disconnects the battery and circuits for secure power-off for no mic access and no camera access. 8GB Ram, 6.67” gorilla glass display. 30 day money-back guarantee. 14 day free trial.

ReclaimTheNet.org

For people who support free speech, privacy, and digital civil liberties. “We’re dedicated to providing you with news, updates, solutions that protect, and tools that equip you to take on the behemoths of our digital age - all focused on safeguarding freedom of speech and privacy to our increasingly interconnected world. We strive to challenge the status quo and spark insightful conversations about the state of digital freedom in our society.” Offers e-newsletter; and catalogues of VPN providers, private search engines, free speech friendly Discord alternatives, private web browsers, free speech friendly and privacy focused social networks, free speech friendly video sharing platforms, private and encrypted cloud storage providers, private email providers, and private messaging apps. Site does not use ads so there are no ad trackers and no data collection. “Monopolies that hate freedom have no influence here.” I highly recommend the newsletter which is free, but the paid upgrade is well worth it if these topics are important to you.

The simplest way to protect your identity and privacy online is to use a secure browser, and a VPN. A VPN hides your computer address so that nothing you do on the internet can be traced back to you. As an added bonus, having a VPN also protects you against hackers. There are many good, secure VPN services.

[Proton VPN](https://ProtonVPN.com)

I use proton’s email service (instead of my gmail, for all my government-unapproved topics) and also their VPN. I ultimately chose Proton because they’re based in Switzerland and the Swiss do not comply with international requests for data. End to end encrypted. **You can get a VPN on one device for free!**

Rumble.Cloud

Virtual private cloud. “Rumble Cloud. It’s time to break the shackles of Big Tech. The same great cloud experience you’re used to but with the freedoms you wish you had.” Store and retrieve any amount of data. For business applications and personal projects.

RemovePhotoData.com

Upload your image, then click “download clean image” before posting photos online to strip them of sensitive personal information. Cameras, smartphones, and other hardware does not only store the image information but also the time and date, what camera was used and possibly even the location on the planet.

Internet Archive aka The WayBack Machine @Archive.org

Have a link that’s no longer good? Check to see if you can find it in the archives. Contains “New to Archive?” help section with how-to’s such as “how do I find old web pages?” You can also help preserve the history of the internet by submitting pages to the archive that you think should be preserved.

catbox.moe or tiiny.host

Anonymously post a pdf online, that anyone who has the link has access to. There are many more, these are just two of them. Web search “online pdf hosting”. I like catbox because it’s completely anonymous, no account required, however there are file size limits.

gab.ai

The uncensored and unbiased alternative to ChatGPT. “Gab AI stands out with its commitment to uncensored, open-source models. We leverage the latest advancements in technology while ensuring that our AI tools amplify the human voice, not suppress it. Our language models are designed to respect and operate within the legal framework of the First Amendment of the United States, ensuring freedom of expression and thought.”

Secure Web Browsers

Have you heard the phrase “do your own research”? Well, when you’re looking for the truth but all you have at your disposal is Google... what do you do?! You stop using Google, and you download other browsers. It doesn’t matter which secure browser you use to do your browsing, as much as it matters NOT to use the ultra-censored, big tech search engines. (Such as Google, Microsoft Edge, & Safari.) Just Google “secure browsers” and find one that you like.

Ecosia

Brave used to be untainted by politics and the Ministry of Truth. Use Ecosia to access the old, unfiltered Brave.

Tor

Use Tor to access the old, unfiltered Duck Duck Go, which also went to the darkside.

Searx or SearXNG

Free and open-source, privacy-respecting, hackable metasearch engine that blocks tracking cookies and IP address sharing. Pulls searches from 82 different engines including Tor hidden services.

Other secure browsers to look into:

-Iridium

-Epic Privacy

-GNU IceCat

-FreeSpoke.com

-Yandex

-Dogpile

Free & Open Source Tools

*LibreOffice.org

A **free and open source Microsoft Office-like software** available for use by anyone and free of charge. Ideal for home users, students, and non-profits. Consists of programs for word processing; creating and editing spreadsheets, slideshows, diagrams, and drawings; working with databases; and composing mathematical formulae. Available in 120 languages. Compatible with Microsoft Windows, macOS, and Linux operating systems. Provides apps for Android, iOS, iPadOS, and ChromeOS. LibreOffice is the default office suite of the most popular Linux distributions. The other day when my Word program got glitchy on me, I switched Exit the Matrix over to Libre and I am so glad I did! It is almost identical with a few differences that are simple to navigate, and glitch free. Saves to files exactly like Word, and there are even additional features which I appreciate. Do not be afraid to try this. Download here: libreoffice.org/download/download-libreoffice/

*Anon Addy @addy.io

A **free and open source email forwarding service**. I recently discovered this out of necessity when an online service refused to let me register using my Proton email address. Reply to and send from your aliases without revealing your real email address. Generate random unique aliases from your dashboard. Custom domains available.

Offers a mobile app on iOS and Android. If you want you can bring your own GPG/OpenPGP public keys and add them per recipient so that all forwarded messages will only be able to be decrypted with your corresponding private key, and you can even hide and encrypt the email subject line. You could use this as a tool to keep Gmail or Outlook from snooping on your inbox. Additional features at a nominal cost.

*GIMP.org

The free & open source image editor. A cross-platform image editor available for GNU/Linux, macOS, Windows and more operating systems. Within this free software you can change its source code and distribute your changes. GIMP provides the tools needed for high quality image manipulation, from retouching to restoring to creative composites, the only limit is your imagination. Top-notch color management features to ensure high-fidelity color reproduction across digital and print media. It is best used in workflows involving other free software such as Scribus (Scribus.net) and Inkscape (inkscape.org).

*OpenWRT.org

The most popular free and open source wireless router project. "In 2004, when Linksys released the firmware code for the WRT54G router series, coders and tinkerers regained control over their own routers, and launched OpenWRT based on the sources liberated from GPL enforcement. Today, OpenWRT leverages software freedom protected by the GPL to share that freedom and control with everyone who uses wireless routers to connect to the internet.

Politics

It is imperative for all of us to understand that when we work together, we can accomplish great things in the legislative process. This brings up a story about how homeschooling freedom was changed for the better. This example was merely the pinnacle of a decade-long, statewide struggle with the state of Nevada for homeschooling rights. Then in 1994, HR6 was introduced in the US Congress, and would have essentially eliminated a parent's right to educate their own child. But Nevada homeschool parents, along with Nevada Homeschool Network, and 20 thousand more homeschool parents across the nation worked together in nearly shutting down the Capitol Switchboard in Washington, D.C., over multiple days, with telephone calls opposing HR6. Capitol insiders speculate that there have never been so many responses recorded on one bill in the history of the U.S. Congress! Ultimately the bill was amended to protect the right of parents to educate their own child.

(nevadahomeschoolnetwork.com/category/homeschooling/nevada-homeschool-history/)

This story is living proof that your testimony, input, calls, and emails make an impact when we all do it together! Getting actively involved in local politics is also, obviously, highly encouraged!

LegiScan.com

“In the modern world awareness of legislation and having information about the laws that affect daily life for all Americans is more important than ever. However, tracking legislation from your local state legislature or across every capitol around the country including Congress can be a daunting task.

At LegiScan we recognize that fact and the significance of being informed and engaged about the results of elected legislators. Whether you need to focus on a single state, track any of the bills across fifty states or are looking to create your own custom application, LegiScan provides services that bring all legislative information together into a single uniform interface. With over a decade of servicing clients from public agencies, non-profit associations and national corporations; we have developed the tools and technology to save time and enhance analysis and communication.”

“Effectively equips people to impact the political arena and become next-generation leaders who will defend faith, family, and freedom.” Patriot Academy’s mission is “to equip and educate a generation of citizen leaders to champion the cause of freedom and truth in every sector of society, as we help restore our Constitutional Republic and the Biblical principles that cause a Nation to thrive. We desire to help citizens become agents of positive change and to give them the tools they need to successfully engage in the political arena and other areas of the culture. By God’s grace, we will raise up citizens who will stand for righteousness and lead the change in America!” Offers a handful of energetic programs geared at the 16-25 age group, military veterans, and patriots. I am currently enjoying the free online Biblical Citizenship class and recommend it for anyone who wishes to Biblically defend against tyranny. Constitution Coach, a certification package. Leadership Congress, a mock-government immersion youth training experience available in seven states throughout the US. Also offers Constitutional Defense which is a firearms training module at their physical campus near Fredericksburg, TX. Check out the site for more detailed info.

Organic Consumers' Association @OrganicConsumers.org

Mission: "To protect and advocate for consumers' right to safe, healthful food and other consumer products, a just food and farming system and an environment rich in biodiversity and free of pollutants." I've subscribed to this since 2008 and even then they talked about atrazine in the water supply turning frogs into the opposite sex, and other concerning topics that people don't want to touch. OCA actively "educates and advocates on behalf of organic consumers, engages consumers in marketplace pressure campaigns, and works to advance sound food and farming policy through grassroots lobbying." They are strictly anti: GMO, pesticides, corporate money in politics; pro: Fair Trade, humane treatment of animals, corporate accountability; see 'About' tab for full list. If we lose our right to own property, we will lose more than just our land. Unless we stop this agenda, we will cease to be the land of the free." The dream of net-zero carbon emissions and its dream of blanketing hundreds of millions of acres of American land with wind turbines and solar panels is running up against the reality that most of the land in America is still privately owned. Government subsidies for private contractors means there is a ton of money to be made off wielding eminent domain. even by congress). In 2019 70% of land was privately owned, today that number is down to 60%, and the federal government wants to own and restrict access to 50% of American land by the year 2050. *They know that people are catching on and paying attention to ESG so instead of knocking it off, they're re-branding it hoping it gets lost in the muddle (the devil and communists are constantly using this tactic). Other names for ESG include "DEI" (diversity, equity, and inclusion); "CSR" (corporate social responsibility), "sustainability", "green economy", "energy transition", "sustainable investing", "responsible business", or "transition investing". The basic idea here is that businesses are strong-armed into prioritizing a political agenda over maximizing returns for investors. The political agenda requires more and more funding and more and more compliance yet somehow never gets achieved, while simultaneously centralizing power further into the hands of a few, and taking power and control away from **you**.

Further Study, Politics

What is a special interest group? What is an NGO (non-governmental organization)? The basic idea here is that people (like Bill Gates) and the government will use non-governmental organizations to do things which would be otherwise illegal for them to do themselves. Christian Entertainment & Netflix Alternatives

[Angel Studios](#) @angel.com or download the app

Christian content, most is original and crowdfunded. Lots of free episodes and full movies, newer ones are either still in theatres or only available to Angel Guild members. This is the studio that brought you *The Sound of Freedom*, *Homestead*, and *Bonhoeffer*. Also offers series like *Dry Bar Comedy* with Adam Corolla, *The Chosen*, and Angel original *The Shift*. Sign up for the newsletter to get notice of new releases in theatres – your local theatre won't even tell you that it's there, it's not on the marquee, you just have to be "in the know". They will also sometimes email you free movie tickets when others have donated to pay it forward. Angel is also home to the *Tuttle Twins* animated series, *Wingfeather Saga*, *David*, and family-friendly documentaries such as *The Riot and the Dance*. Over Christmas break 2024 my family sat down and watched *Lost on a Mountain in Maine* together.

Founder Daniel Foucachon. "We publish curriculum and books in the classical Christian tradition with the mission of equipping families to 'Inherit the Humanities.' We create curriculum with veterans of classical Christian education who bring a lifetime of experience, love, and dedication to their craft. We craft courses around people (with an emphasis on video courses) because we want the personality and passion of the author to shine through the material." Course curriculum topics include Old World Western Culture, Logic, Rhetoric, Latin, History, Calculus, Dante Curriculum, Poetry, and live classes.

Homeschools Connected @ClassicalLearner.com

This is Classical Learner's private homeschool community on Discord, which "brings homeschool mothers & fathers together & empowers parents to develop critical thinkers, who have real world skills, & a childhood filled with entrepreneurial experience." For \$10/month you have access to the community, a trove of resources, and weekly unit studies that prioritize critical thinking, the process of learning, skill development, and entrepreneurial experience. Science experiments that prioritize the scientific method. Historical and social studies lessons that teach children how to get back to primary documents & first-hand accounts of historical events. Unit studies on complex topics like the medical industrial complex that are designed to teach children how to track money & people. Construction projects designed to teach skills like carpentry with guidance on how to use these skills to get children entrepreneurial experience. Original video courses on topics like the Bill of Rights & American Revolution, The Media Industrial Complex, & Propaganda. Lesson plans delivered daily.

Tuttle Twins

“Educational material that doesn’t lie about our nation’s history or teach that the government is the solution to our problems. Help your children learn about true history, sound money, personal freedom and responsibility, entrepreneurship, individual rights, and more. Curriculum that doesn’t dumb down or leave out essential civic truth.” Works amazing as a stand-alone homeschool social studies curriculum, but I also find they are designed to supplement public school learning for parents who want to undo some brainwashing after class. (Historically, un-brainwashing is something parents have done in their private residences to combat oppressive regimes.) This series has an endearing way of teaching the basic principles of freedom and liberty to your children from toddler to teen years. There are 12 mini books, and 2 complete history books for kids ages 5-11, all with parent and activity guides exploding with additional ways to complete the curriculum. There are also books available for toddlers, and for teens. Teen guidebooks cover essential topics like logical fallacies, cognitive biases, real life villains (such as dictators and totalitarians), and conspiracy truths. After many years of using this curriculum I’ve noticed they have their own biases to contend with but it does such a great job with everything else that I recommend it anyway. Over 4 million copies sold @[TuttleTwins.com](https://www.tuttle.com) or Amazon. Also find the Tuttle Twins animated series, currently with 3 complete seasons, on the Angel Studios app or [Angel.com](https://www.angel.com).

Goldbacks @angel.com/Gold

Packs of literal golden dollar bills in different denominations. A "1" denomination Goldback is embedded with 1/1,000th of a Troy oz of 24 karat gold. Pretty cool, check them out. There is also an adult version available @GoldBacks.com.

Calls to Action, and To-Do Ideas

Stop patronizing any businesses which do not accept cash, such as Dunkin Donuts, and Tropical Smoothie Café. Stop patronizing businesses which employ palm scanners for payment such as Whole Foods and Panera Bread. These businesses have been captured by globalist CBDC pushers, and will be the first to demand payment via the Mark of the Beast, whenever that gets here. For additional information on the risks of CBDCs visit cato.org/visual-feature/risks-of-cbdcs or view their “Assessing the Risks and Dispelling the Myths of CBDCs” pdf at cato.org/sites/cato.org/files/2023-01/briefing-paper-145.pdf

Start growing your own food if you haven't already. A good way to start getting familiar is by keeping some fresh herbs right in your kitchen, which can even be kept on a windowsill in a small apartment. You can also start with food that keeps for a few weeks, like potatoes, garlic, and citrus trees (can be grown in pots). Learn canning to preserve what you can't eat right away. Look into vertical gardening (try TowerGarden.com)

Bring back the victory garden movement! During WWII the government rationed foods, so citizens were encouraged to plant “Victory Gardens” in order to become self-sufficient. It called on Americans to grow their own fruits and vegetables in whatever spaces they could, such as rooftops, fire escapes, empty lots or backyards. Help spread the word by using hashtag #victorygardenmovement on social media or with your Temporary Bumper Sticker™ (using washable marker paint on your rear car window) and share with your friends!

Look into “community supported agriculture” which is a direct marketing model that connects growers and consumers. Use as a search phrase in your secure browser (“CSA + your city” or “community supported agriculture + your city”) to locate and connect directly to farmers. A few examples are listed on the Food page: BeefInitiative.com, EatWild.com, and LocalHarvest.org, but there are many more to find.

Get Exit the Matrix business cards printed and hand out to conservatives, or just carefully write the pdf link down on post-it notes! Share all over social media or through texts. I have business card images pinned to the Telegram page (see pg 3 for link, then see pin titled “Business Card Images”). Give them to all your like-minded friends & family. Have a stack and stand outside of churches on Sundays. Have a stack and stand outside the entrance to a patriot concert, like Aaron Lewis [or John Rich, or Tom MacDonald, or Dax, or a JP Sears show, etc!] Take a friend with you! Get creative! People have no clue what it is that I am handing to them when I do this, so here is an example of how to introduce it: “Free pdf! Amazon alternatives, other woke alternatives, independent news, local small farm directories that ship to your door, health shares, unvaxed blood banks, homeschooling, non-woke entertainment for adults and kids, Christian resources, uncensored search engines, politicking tools, the complete Hunter Biden

files, and more!" **The link to this pdf you're reading can be found at files.catbox.moe/iarmjo.pdf**

[The Anti-Disney Flyer @files.catbox.moe/ofbvxy.pdf](https://files.catbox.moe/ofbvxy.pdf)

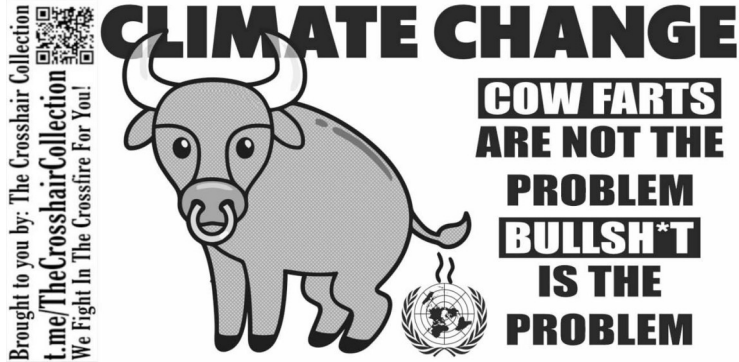

A pdf created by me for you to print & share. If someone reads it and they don't change their mind about Disney, then they never will. One thing I do with these is leave them on cars with Disney stickers (*especially* ones with the spiral ear logo!) Share with anyone who worships Disney. Copy and paste to email or post online; print it and hand it out at events; get creative. If I were a decent person who worshipped Disney, I would want to know about this stuff. If they don't know, they won't stop supporting it, so shine that light into the darkness!

[More flyers @StopWorldControl.com/download/](https://StopWorldControl.com/download/)

For sharing through text, email, social media, send to your local news station, take out an ad for it, or print and hand out or put in mail boxes. Flyers on WHO, WEF, Covid-19 Vaccine, mainstream media, more. There are also a handful of informative documentaries on these topics on the main site StopWorldControl.com

[Donate copies of books to schools and libraries that you want them to have - influence their inventory.](#)

[Smatter the town with White Rose stickers.](#) The White Rose was a non-violent, intellectual resistance group in Nazi Germany which was led by five students and one professor at the University of Munich. The group conducted an anonymous leaflet and graffiti campaign that called for active opposition to the Nazi regime. Unfortunately these calls to action were unheeded as were the warnings of Bonhoeffer, and the Nazi regime was able to carry out their genocide. The activists of the White Rose were imprisoned and executed by guillotine, but their spirit lives on today. I like to hand out the CBDC ones when I pay with cash. **Type t.me/JoinTheWhiteRose into your browser** (set up account if you don't already have Telegram) and tap pinned post #9 for instructions on how to print your own stickers or have some sent to you. Other “Plexit Pushers”

This is a word play on “parallel-economy matrix-exit ushers” such as this book! These are the gems with whom I share a vision; these are someone else’s version of this same list. Please check them out for more!

CoreysDigs.com

Click on “Subscribe to Digs” to receive emails with info on new parallel economy options and updates. Click on tab “For Diggers” for expert resources on how to find and verify hidden information, with articles such as “Hunting The Hunters: Digging Into Foundations” and “Must-Have Tools for Digging, Videos, Websites & Podcasts” and “A Library for Redpilling and Survival”. Also on the “Diggers” tab is an article containing an extensive list of open source software programs and key tech to have in order to prepare for the worsening online privacy crackdown. Also offers The Solution Series, a 24 episode series focused on food resources and how-tos, local community building, survival and preparedness, alternative resources, wellness and healthcare, and more solutions to help you Exit the Matrix. As of December 2024 the Solution Series is free! I am not sure for how long though. **Visit this page for Corey’s version of this book: coreysdigs.com/global/fearless and find links to regenerative farms, how to build a homestead, heirloom seeds, health sharing ministries, how to find a local bank, and a “knowledge pantry” which is Corey’s version of a “further study” resource.** Dig It! podcast with Corey Lynn every Friday morning on Rumble, Bitchute, SoundCloud, Spotify, Odysee, and banned by YouTube. Site also offers a bookshop and swag. There are a lot more features of the site, and so many awesome links and articles to explore. Please check it out!

AmericaMission.com

You can find another resource list much like this one by visiting <https://americamission.substack.com/p/resources> until their new website is finished which is currently under construction as of January 2025. Topics include: more multi-subject resources, private search engines, recommended books & videos, everything congress, education, 2020 election, J6, off grid, social media, and more. “Woman In A World Gone Mad: Exit the Matrix” book by yours truly can also be found there under ‘Multi-Subject Resources’ (thank you Kelly Jaye)! Every time I visit the site to check for updates, I end up grabbing something off of it to add to this resource. So many goodies, please check it out! Campaign to educate the public and put a stop the Restrict Act info at RestrictThis.com. In addition to parallel economy resources, America Mission has an excellent news-recap feature for busy people who don’t want to miss anything: the AM Grind Wrap-Up.

Woke Alerts @ConsumersResearch.org/wokealert

Instead of a list of who to shop with, this is a list of who *not* to shop with, and just as importantly, *why*. Sign up on the site to receive 'woke alert' text warnings about products pushing a Left-wing agenda. "Many corporations are putting progressive activists and their dangerous agendas ahead of customers. They'll only succeed if we look the other way." Site has 'Report Infraction' button so if you see something – say something! In December 2024 Consumers' Research published a Woke Alert exposing Kia for pushing radical gender ideology on kids through their sponsorship of GLSEN, a nonprofit organization that promotes sexually explicit books and lesson plans and is active in 8,100 schools in 33 states nationwide. After this Woke Alert was issued it was picked up by The Daily Caller and went viral on social media. Within days Kia pulled their sponsorship, and the logo had been silently removed from GLSEN's sponsorship page. Check them out on the 'Other Small/Patriot/Christian Businesses' page. I also highly recommend subscribing to their e-newsletter at [ConsumersResearch.org](https://www.consumersresearch.org)

AlignUsApp.com or download the app

"Align Us provides insight to help consumers spend their money with companies and organizations that align with their values and our app makes this easy. 'Follow the money' and see where the money goes once it lands in the hands of a business or organization. Make a difference and help hold companies accountable when it comes to how they spend your money." Search for businesses that align with your values by area code, every category available (including public services & religious orgs). Their search function allows you to look for progressive, neutral, or conservative businesses. It says they try to maintain a neutral platform but it also says "Go Woke, Go Broke" on their homepage, has social media accounts on Gab, Gettr, and Truth, among numerous other allusions to conservatism. As of August 2024 the number of businesses listed in each city varies greatly. For example there are tens of thousands of businesses listed in Las Vegas and Los Angeles, but only a handful or none listed in a few other zip codes that I scoped out. Help us grow this list by adding businesses to the list! If you are willing and able to help, you could also contact your chamber of commerce for a listing of local businesses, then use Align Us' metric system to rate the business on their scale, then add to the system. Utilize it! Based in Las Vegas.

Documentaries to Watch

Every freedom lover needs to see these

*[Indoctrination](#) @PlandemicSeries.com

Hover over the 'Films' tab at the top to bring up the drop down menu of these professionally produced docudramas by dedicated patriot Mikki Willis. Tap [Plandemic 2: Indoctrination](#) for the full, free 76 minute movie. Once you've witnessed the first 2 minutes and 40 seconds, I promise you'll stay for the rest. The other 3 movies available for free on the site are: [Plandemic 1](#), [Plandemic 3: The Great Awakening](#), and [Plandemic The Musical](#), with a new one on the way as of January 2025: [Bad Medicine: How Covid Protocols Turned Hospitals into Death Traps](#). All of these movies are crowdfunded so if you're in a position to help please do so, and you can also tap 'Host a Screening' for details on how to do that as well.

*[Line In The Sand](#) by O'Keefe Media Group

"Undercover journalist James O'Keefe goes to the front lines of the migrant industrial complex using hidden cameras and raw testimonials. O'Keefe reveals the shocking reality of the US border crises like never before: Mexican freight trains, cartel tunnels, and US funded child detention camps. Watch this gripping exposé of a corrupted system that demands change." [Out of Shadows](#) @OutOfShadows.org

"The Out of Shadows documentary lifts the mask on how the mainstream media & Hollywood manipulate & control the masses by spreading propaganda throughout their content."

[The Shadow State](#) documentary by Epoch Times

"Explores how individual rights and freedoms have disappeared due to a system in place to control and monitor humanity, which ties in to one of the Bible's most fascinating prophecies." This documentary also explains how ESG investment funds are controlling corporate boards into "Equity and Diversity" policy decisions, for example, why Bud Light put Dylan Mulvaney on their cans and alienated their customer base. Same as with Coke's messaging to "Be less white." You'll have to subscribe to Epoch Times to view, or you can email me to see if I have any shares left (15 shares per month, contact email page 3).

[Enemies Within: The Church](#) @EnemiesWithinTheChurch.com, also a book

"A movie experience that provokes a passionate return to Orthodox Christian faithfulness across the western world. A clarion call for Christians to turn away from popular, yet errant beliefs held in contradiction to Holy Scriptures. It is also an invitation for believers of every denominational stripe to employ a proven Biblical recipe capable of producing restored strength and blessing for all who answer. Specifically, the movie encourages the Church to cleanse itself from contamination imposed by cultural Marxism and a heretical teaching known as 'The Social Justice Gospel.' It answers the

question: 'What happened to living, powerful, transformative, nation-shaking Christianity?' The documentary reminds its audience that during the twentieth century, the twin evils of communism and fascism were responsible for the slaughter of nearly 200 million people. Both forces attempted (and were often successful) to co-opt Christianity to serve their goals. The filmmakers show that the Marxists are still actively and successfully pursuing this goal in a church near you at this very moment. This documentary has informants from inside the organizations who have provided concrete proof of left-wing front groups providing money in exchange for the promotion of cultural Marxism, which deliberately lures evangelicals toward the acceptance of varying degrees of political and theological liberalism and its unavoidable consequences. These church infiltrators have already begun implementing one or more of the following Marxist programs: Social Justice, Critical Race Theory, and Same-Sex Attracted Christianity. *Enemies Within the Church* asks pertinent questions about history to learn how this happened and how we got here. In the end, the audience is pointed toward a hope-filled and practical action plan that produces solutions found only in and through the royal Law of Christ." Ask your church to hold a viewing for your community today!

Books

This is a combination of books I know you should read plus some that are on my reading list. If one piques your interest, check out its reviews to learn more.

Breaking the News

by Alex Marlow, May 2021

“From the editor in chief of Breitbart News, a firsthand account of how the establishment media became weaponized against Donald Trump and his supporters on behalf of the political left. Deeply researched and eye-opening, Breaking the News rips back the curtain on the inner workings of how the establishment media weaponizes information to achieve their political and cultural ends.” The most informative section of the book, to me, was when he describes how Hannah-Nikole Jones admits to fabricating the 1619 Project - which is being taught in history class across the nation - and how the media covers for it.

Woke, Inc.: Inside Corporate America’s Social Justice Scam

by Vivek Ramaswamy, August 2021

“A young entrepreneur makes the case that politics has no place in business and sets out a new vision for the future of American capitalism. ‘Stakeholder capitalism’ makes rosy promises of a better, more diverse, environmentally friendly world, but in reality, this ideology, championed by America’s business and political leaders, robs us of our money, our voice, and our identity. America’s elites may want to sort us into demographic boxes, but we don’t have to stay there. Woke, Inc begins as a critique of stakeholder capitalism and ends with an exploration of what it means to be an American in 2021 – a journey that begins with cynicism and ends with hope.”

Laundering with Immunity: The Control Framework

by Corey Lynn, September 2022

“This is the story that needs to be shared with the world and with every state legislator who should move immediately to create independence from the Federal Reserve system and Central Banks, and enforce our Constitution and financial management laws to protect sovereignty at the state and local level. This should include steps to recapture monies illegally stolen, to prevent current and future illegal expenditure of our tax monies and to end sovereign immunity privileges that have been used to engage in systematic criminal activities and racketeering.” E-book download available at www.coreysdigs.com/downloads/laundering-with-immunity-the-control-framework-part-1-bookshop/

Banking and Currency and the Money Trust

by Charles Lindbergh Sr, January 1913

Lindbergh Sr’s take on banking and the economy in America, just prior to the formation of the Federal Reserve System, the passage of which Congressman Lindbergh spoke boldly against, predicting the dire result of turning the nation’s purse over to a private banking cabal. The book not only exposed the Federal Reserve but named names, so by 1917 it had been censored and the printing plates had been destroyed. Read the book and realize that the Federal Reserve Act of 1913 must be soundly repealed, for free at

Dupes: How America's Adversaries Have Manipulated Progressives for a Century

by Paul Kengor, September 2020

“Best-selling historian Paul Kengor shines light on a deeply troubling aspect of American history: the prominent role of the ‘dupe’. From the Bolshevik Revolution through the Cold War and right up to the present, many progressives have unwittingly aided some of America’s most dangerous opponents.”

*Toxic Empathy: How Progressives Exploit Christian Compassion

by Allie Beth Stuckey, October 2024

“A sharp Christian voice makes a bold argument: when politics are driven by empathy rather than truth, innocent people pay the price.”

Children of the Collective

by Connor Boyack (Tuttle Twins), December 2022

“Throughout history, totalitarians have recognized the importance of propagandizing the rising generation in order to maintain and increase the state’s power. But as Children of the Collective explains, there is one institution uniquely positioned to keep the state’s power at bay and protect our children...” “Embedded in the book’s devastating and indisputable primary message are unexpectedly profound insights on teaching and reaching our children to keep them from becoming a part of the collective.”

*Indoctrinating Our Children to Death: Government Schools' War on Faith, Family, & Freedom – And How to Stop It

by Alex Newman, January 2024

Building on over a decade of research and investigative reporting into the indoctrination, sexualization and dumbing down of children, Alex Newman documents the untold history behind government education and its founders like nobody has ever done before. The book proves that the system is not “broken,” but is working well when considering the goals of its architects. These goals included turning America away from God, fundamentally transforming the nation away from its Constitutional foundations, and more. Using primary-source documentation, interviews, and insights from leading experts, Newman not only diagnoses the problem but also offers true solutions that are long overdue. The book expands on Newman’s 2022 film *The Homeschool Awakening*.

Dumbing Us Down: 25th Anniversary Edition: The Hidden Curriculum of Compulsory Schooling

by John Taylor Gatto, May 2017, originally published in 1992

The 1776 Report

by the President’s Advisory 1776 Commission, July 2021

“The declared purpose of the President’s Advisory 1776 Commission is to ‘enable a rising generation to understand the history and principles of the founding of the United States in 1776 and to strive to form a more perfect Union.’ This requires a restoration of American education, which can only be grounded on a history of those principles that are ‘accurate, honest, unifying, inspiring, and ennobling.’ And a rediscovery of our shared identity rooted in our founding principles is the path to a renewed American unity and a confident American future.”

The Second Amendment Primer: A Citizen’s Guidebook to the History, Sources, and Authorities for the Constitutional Guarantee of the Right to Keep and Bear Arms

by Les Adams, June 2015

Rules for Retrogrades: Forty Tactics to Defeat the Radical Left

by Timothy J Gordon & David R Gordon, March 2020

“A retrograde calculates, night and day, how to return the world to: the Old Order of moral and sexual decency; classical masculinity; national sovereignty and national borders; faith and hope and charity; goodness and beauty and truth; Christian civic liberty; and most importantly, the social kingship of Christ. The retrograde has the unique capacity for understanding the stark chasm between the degenerate, socialist-infiltrated world of decay on one side and the well-meaning, good-hearted, but clueless Christian world on the other. Retrogrades... to the streets: our aim is to reverse the deliberate, deuced machinations of ‘radicals’ like Saul Alinksy who, by penning the rulebook of radicalism, threw down a challenge that has, until now, gone unanswered. Rules for Retrogrades is the handbook men of good will need to win the culture war!”

Christian Nationalism: A Biblical Guide for Taking Dominion and Discipling Nations

by Andrew Torba (Gab founder) and Andrew Isker, September 2022

“We were commanded by Jesus Christ to make disciples of all nations and that’s exactly what we are going to do. Christian Nationalism is not a movement of racial supremacy, nor is it a movement of national supremacy. It is the Revealed Truth of God’s Word lived out in action through the discipling of the nations – all nations.”

Live Not by Lies: A Manual for Christian Dissidents

by Rod Dreher, October 2022

The Geneva Bible pdf

@https://ia800608.us.archive.org/32/items/TheGenevaBible1560/geneva_bible1560.pdf

“In 1620 the Pilgrims arrived at Plymouth with their Bibles and a conviction derived from those Bibles of establishing a new nation. The Bible was not the King James Version.”

The Pilgrims disapproved of KJV because it was translated from the Latin Vulgate and was considered a Catholic version. “When James I became king of England in 1603, there were two translations of the Bible in use; the Geneva Bible was the most popular, and the Bishops’ Bible was used for reading in churches. King James disapproved of the Geneva Bible because of its Calvinistic leanings.” (genevabible.com)

*Feeding You Lies

by Vani Hari, February 2019

The Food Babe blows the lid off the lies we’ve been fed about the food we eat – lies about its nutrient value, effects on our health, label information, and even the very science we base our food choices on. You’ll discover: how nutrition research is manipulated by food company funded “experts”; how to spot fake news generated by Big Food; the tricks food companies use to make their food addictive (Did you know that one of these “tricks” is using aborted fetal cells to trick your brain into thinking a food tastes good when it does not? If that’s not the devil then what is?!); why labels like “all natural” and “non-GMO” aren’t what they seem and how to identify the healthiest food; food marketing hoaxes that persuade us into buying junk food disguised as health food. She also offers a blueprint for living your life without preservatives, artificial sweeteners, additives, food dyes, or fillers, eating foods that truly nourish you and support your health. See also her pure food company Truvani.com on the ‘Food’ page.

[*Complete Internal Facebook Onboarding Documents Used to Train CDC Employees on How to Censor the American Public](#)

Released September 2024. "America First Legal released additional documents from its litigation against the CDC, exposing the complete onboarding documents Facebook used to train CDC employees on their government censorship portal to block free speech on 'Covid & Vaccine Misinformation.' Americans remember the unprecedented level of censorship by the Biden-Harris Administration in 2021. Unelected public health officials constantly revised their guidance, leading to repeating something that was 'true' a week ago could suddenly get an account suspended. The Administration's clumsy and heavy-handed attempts to keep up with the rapidly evolving information environment entailed by a global pandemic gave all Americans a stark reminder of why the First Amendment was listed first. These documents reveal how Facebook, on the heels of

extreme pressure from the Biden-Harris White House to remove specific posts, responded: Facebook created a portal so that government officials could submit links for removal from Facebook; each censorship request generated a ticket number so the government could track if Facebook complied with its censorship demands; Facebook explained to the CDC precisely what it needed in order to censor certain narratives within the bounds of its 'community standards'; exposed the United Kingdom's influence on the Biden-Harris Administration's censorship policy, and Zuckerberg's admission that Facebook only engaged in censorship after extreme pressure from the Biden-Harris White House." As I am writing this it is January 9th, 2025, and Zuckerberg has just committed to removing fact-checkers from Facebook and is instead implementing Community Notes like what X has (which still employs censorship, except totally underhandedly like the cowards they are). I trust Zuckerberg about as far as I can throw him but that might just be me. Gestapo. (reclaimthenet.org/heres-everything-you-still-cant-say-on-free-speech-meta-platforms)

The Fauci Files

Just a few things the documents reveal: Fauci had some urgent, time sensitive discussions about gain of function. He told colleagues retail masks don't work due to size of virus. Fauci ignored scientist who told him China was lying about virus and data. He was well aware of a possible lab leak.

The self-appointed elites' mechanisms by which they will implement restrictive policies, and a depopulation agenda, for your protection of course - known by the euphemism "Sustainable Development Goals." This is THEIR document released BY THEM – the World Economic Forum, Klaus Schwab, and Prince Charles et al. Agenda 21 aka The Green New Deal aka Build Back Better aka The Fourth Industrial Revolution. This is the inventory and control plan for all land, water, minerals, plants, animals, construction, means of production, food, energy, information, education, and all human beings in the world. Warning: the more people who become privy to this, the faster it must be implemented in order to prevent too much resistance. The goal was originally to be implemented by 2030 but at least some components of the plan have been accelerated.

The Federalist Papers

<https://www.thefederalistpapers.org/wp-content/uploads/2012/12/The-Complete-Federalist-Papers.pdf>

When you try to post *The Federalist Papers* on Twitter, you receive a notice that says, "We can't complete this request because this link has been identified by Twitter or our partners as being potentially harmful. Visit our Help Center to learn more." Even when you break the link up with spaces, and even when you add extra words into the middle of the link. ***The Federalist Papers are a prelude to our founding documents.*** These papers are recommended by experts as *essential* reading for anyone who wants to understand better the Constitution. The Supreme Court regularly refers to *The Federalist Papers* in interpreting The Constitution. Therefore, the "harmful" label slapped on it by WEF's Twitter darling, Linda Yaccarino, is a hostile takeover of our First Amendment rights. We are over the target.

The Anti-Federalist Papers

The enemies' playbook says that if there is to be a rebellion, then they will lead it. Why is our scholarly attention always turned to The Federalist Papers – what about the Anti-Federalist Papers? The Anti-Federalist papers, a collection of 16 essays written in 1787 by Robert Yates under the pseudonym "Brutus", were a rebuttal to the new proposed Constitution, which Yates believed provided too much central power. Maybe he was onto something there. "Brutus" championed the Articles of Confederation, which provide more power to the states, and therefore, to the people. USPatriotTitle.com/how-to-get-allodial-title/

"Navigating complexity and symbolism in property ownership. Allodial Title is a distinctive concept for ownership of land or property in real estate. Rooted in history, this form of private ownership carries unique implications for landholders, encompassing exclusive property ownership rights and a deeper connection to private property. This grant of Title signifies absolute and unencumbered land rights, emphasizing individual sovereignty over ownership of land without needing to pay rent

or tax liens to the government or landlords.” Visit the site to begin your research on what it is, its implications, and how to obtain one.

There's one topic I've been avoiding adding and that is Sovereign Citizen. The biggest reason is that I don't fully understand it and I don't add anything which I don't *get*. (That's also why you don't see crypto stuff.) The second reason I've been avoiding this topic is that if you don't know what you are doing then you can get into big trouble when it comes to not paying taxes, and the last thing I want is to be an accomplice to your suffering. However, Sovereign Citizen can be done correctly if you know your stuff, and moreover, there are some specific scenarios where you can apply these concepts usefully without having to go all-out. So I post this next entry with a huge warning of caution. Do your own research and if you aren't 100% confident then just don't do it.

*DestinationFreedom.org

“A journey towards Liberty and Freedom through Responsibility. This class will show you how to stay out of the Fed's Regulation and Control.” Holds live broadcasts on YouTube and Facebook describing what State Citizenship is (vs Federal Citizenship) and how it works. “Real data. Real value. Real news. We were established to fill the void in community news after years of decline in local reporting by legacy media. This site is one of hundreds nationwide (in the Metric Media umbrella) to inform citizens about news in their local communities. Many local and state governments operate without sufficient media oversight. When citizens are deprived of basic government information, communities and discourse suffer. Our approach is to provide objective, data-driven information without political bias. We provide 100% original reporting, including to share as much data as possible from government and other publicly available sources. I'm a homeschooling mom of 3 in Henderson, NV, and the wife of an entrepreneur for 14 years. I grew up in the 80's & 90's, mostly in the Midwest. I became a Born Again Christian in February of 2022 and believe in the true gospel of Jesus Christ.

I am obsessed with making the next "Exit the Matrix" edition even better than the one before – it's a fun hobby and passion of mine! It also alleviates my anxiety to know I'm doing something to help fight back! 😊

I print up Exit the Matrix business cards with a dynamic QR code on them for handing out at events, or leaving on cars with Trump stickers and American flags (you can, too – see Exit the Matrix on the 'Calls to Action' page). I would also like to have a web designer make this book live, with clickable hyperlinks on my website. I have 45 pages' worth of new websites to verify which could be added. I would love to spend more time on this project but only if it can help pay the bills!
