";

3. / by the song title "*Mr Bond - 1488*", where 14 stands for "14 words" by neo-Nazi David Eden Lane and 88 for "Heil Hitler";

4. / by the following passages of the lyrics to "*Mr Bond - Ashkenazi*" translated from English: *"It doesn't affect me or the Aryans I chill with.... Lots of Heebs (note: short for Hebrews) who aren't real are transferred to fuck with the master race. How many Jews do you know like that? Always claiming they are white when they push their shit. It all makes sense I wonder how the west is in decline when our leaders are working for Zionists on the genocide of whites....See, I don't need blacks, I don't need Muslims. Just white people, for fuck's sake. Every other tribe has their nation on the planet. And they all know it's sick to mix races. Only my people have been brainwashed with lies about Adolf...Turn on the gas, make a bloodbath."*;

5. / by the following passages of the song lyrics to *"Mr Bond - Fascist"* translated from English:
"Rolling through the realm. Slowly gassing the kikes. Yo, white man habitat...I'm from Austria, home of the original leader. They fuck with my race. Digging mass graves. Empty the machine gun. Shoot them in the face. Living Life Fashion, Iron Cross, Hugo Boss suit. Do a Roman salute standing in a Benz. Round up all the kikes, fags, trannies, pedophiles. I'll do it 40s style, I'll have the bodies stacked.";

6. / by the following passages of the song lyrics to *"Mr Bond - If whites ruled the world"* translated from English:

"Jews love to hear the story of how whites live in worry...replaced, hunted and raped, guarded by the state, freedom of speech taken care of. Yet you will hang if we flip the switch. If I run the world and everything in it, the sky is the limit. I'll build a White Empire in a minute. It wouldn't be communists, other races honor us.... I dreamed of all this, but reality struck. Kick the Kikes out before our time is up.";

7. / by the song title *"Mr Bond - Sieg Heil"*, and following passages of the song lyrics translated from English:

"Yeah, my niggas, right hand in the air right now. Feel this shit right here. I don't give a fuck if non-white people have misadventures nigga. When Jews start wars, shit happen. So stop asking why we lit the kikes on fire... Guards for the Reich. It's a brown world, but that's white...Aryans don't dance. We just raised our hands. And do the quick salute. Sieg Heil, Sieg Heil, Sieg Heil, Sieg Heil...Now we live better, fourth Reich forever. It's gonna be tight for Kikes if you burn six million. That's why I wear the swastika, to hurt their feelings. ";

10./ by the following passages of the lyrics to "Mr Bond - Changes" translated from English: *"I hear Jews say I'm diabolical and they want to get rid of me. I'm tired of being told something by these arrogant kikes. I got to take care of these non-white parasites and I don't take care of no negro. Pull the trigger, kill a nigga, be a hero. Make them abort their children: who gives a fuck....We will never rest until we get the kikes out. Send them to the ovens with the gays and nigs.";*

"Look into my eyes - you will see what Jews mean to me. Run my country, start a war. And you'll find me there on the front lines. Don't tell me it's not worth trying. You can't tell me Israel isn't worth dying for. You know it's true: Everything I do, I do for Jews.";

13./ by the following passages of the lyrics to *"Mr Bond - Führer's State of Mind"* translated from English:

Until we caught him in the bank trying to skim our gold. Chase him to Palestine to call a truce...He didn't know much about Aryan rage. Six trillion dead...We knew not to let the Jews take control, but that seems to have been forgotten. I looked at my country and said, Oh brother this place has been a gutter since the Kike has been at the helm. They fill our streets with niggers and freaks and promote anti-white beliefs in universities.";

15./ by the following passages of the lyrics to *"Mr Bond - In the Oven now"* translated from English:

"Little Shlomo brings usury to a foreign land and does his best. You are now in the oven, oy gevalt you are now in the oven. Now remember what the Talmud said, deceive and destroy them, for the goys (note: gentiles) are bad. You are in the oven now, oy gevalt you are in the oven now. Put the negro in white neighborhoods just to make sure the district votes for the left. You're in the oven now, oy gevalt you're in the oven now

Oven....swastika flags waving over your head.... Merchants cry for fear of a Kristallnacht, the Führer shouts 'Deutschland Heil!";

35./ by the following passages of the song lyrics to "Mr Bond - I can" translated from English:

44./ by the following passages of the lyrics to "Mr Bond - Deliverance" translated from English:

49./ by the following passages of the song lyrics to *"Mr Bond - Fuck the police"* translated from English:

"White cops showing up with their shitskin (note: derogatory for dark skinned) buddies. SS will swarm...I only answer to my ancestors...So the punk police should be afraid of me. Huh, young white people are on the warpath. And when we are done it will be a bloodbath of cops dying for treason. Race war equals pig hunting season. For the truth about the phony ass holocaust. completely gone and I find myself watching old clips from the golden years on youtube trying to hold back the tears. A man driven by a burning love for his people could see their eyes shine with admiration and hope. And I want you to know that I will never give up. Though I'm stuck here waiting, outnumbered with strangers. Hoping that you'll emerge in the rubble. Me and the others who are still faithful here.";

58./ by the following passages of the song lyrics to "Mr Bond - Supa Nazi" translated from English:

"I have Zyklon in every pocket of my uniform. Stop in front of the Jewish dormitory. Climb on the roof and form a funnel with my hands and throw the pellets at the newborns. Kill so many Jews that I turn the hooked nose into a unicorn. When I need a laugh, I turn on the movie Schindler's List. If I shoot more than 50 Hebrews from my room, I deserve to be reimbursed for my sushi.... A swastika is my logo.";

"Who do you think you're messing with, it's not a fucking mystery. Jewish name tag, suit and tie, it's fucking easy...I'm taking my country back, we're taking our countries back...I knew Behring, Anders Breivik, the real Anders Breivik. We owe him a hundred favors (hero!) I'm in a hundred cities, naming a hundred Jews.";

64./ by the following passages of the song lyrics to "Mr Bond - Niggers, Kikes and Hajis" translated from English:

"Keep a Luger on my body in case a Jew wants to mossad me (note: Mossad is Israeli foreign intelligence)...plus a bust of our man Adi...I kill all aparatchiks, don't argue with a Marxist. 66./ by the following passages of the song lyrics to "Mr Bond - Goin Nazi" translated from English:

"They don't want a white race anymore. And why? Because we're a little too hardcore. NS is dripping out of every pore. Mess with us, we'll come and even the score. The master race will never be a Hebrew's whore. Here comes 88, to the 4, to the

1. Shlomo thinks the white man is already done for...You are really stupid, Jew, you better run.";

67./ by the following passages of the song lyrics to "Mr Bond - I wanna gas you" translated from English:

68./ by the following passages of the song lyrics to "Mr Bond - The best people in this world":

"This song is dedicated to my people. And to all the ancestors who have made every sacrifice to protect and preserve the blood and soil... In this millennium struggle against the eternal enemy of all that is noble and beautiful. We will never forget where we came from and who we are. You are the pearl of this planet. Your rich heritage is far superior. Since they've been from the throne, you wish them back. Only they threaten the vermin. If anyone asks, do you love your people? Then just stand up, look him in the face and say: It's the best in the world. That's why the Jew wants it to fall. But it stands proud, our German people. It carries the last pure blood. Therefore it is not good to be a servant... We are the opposite of you, noble, pure and faithful. Strong, aristocratic, simply German in nature. Every day anew we can laugh from above. That's why the Jew wants us dead and us abolished. He brings Negroes en masse into the country and then encourages our girls to racial defilement. Ragamuffins, they want the white man dead. I'll tell you what, you can go in my oven. No torture of the World would be enough of atonement. For you satanic spawn of the desert - homo, trannies, pedolobby, Bolshewists...The Untermenschen's toughest opponents. He sees German bliss, and he quivers with envy. Hates us for our superiority... Oh no, though they long deserve death. They've only ever been banished from the land. All sick and wicked, behind the curtain the Jew...Shouldn't we seriously consider wiping this wretched creature from the earth. Hail to the German people, may you live forever. And hail to the German homeland. May the Reich one day be reunited.";

"Curly hair, beak long, always there when you need a loan. Wherever you are, they feel at home, usury is their income. They rip you off...Every nation gets a central bank so Shlomo can control it. When my team comes, all the Jews run away. N.S.D.A.P. lets one Hebrew escape. I shoot them all off my balcony, fill trenches to the brim. You take a shower like a fag after exercise. Don't drop the soap, it could be your next of kin...I'm gassing this...";

We'll remain the people who saluted you in '33. I'll do the teaching. School lessons from our point of view. With no Jew lies mixed in. They tried to talk us out of our national consciousness. To make us give up with bread and games. You can take me away. Millions of Europeans feel these verses. Can you feel this power You can lock me away You can watch me. Like a pack of hyenas provoking the lion. One day he'll get up and fuck all your kind. Adolf is back, now it's time to shoot again in Germany";

Philip Josef HASSLER has thereby committed the crimes under § 3g VG and will be punished for this under the second sentence of § 3g VG in application of § 28 (1) StGB.

Pursuant to § 19a para 1 StGB, the confiscation of the seized devices and memory cards as well as the seized propaganda material is requested.

Pursuant to Section 20 (1) of the Criminal Code, the forfeiture of the assets obtained through the offence is requested.

THE VIENNA DISTRICT ATTORNEY'S OFFICE REQUESTS

1)Conduct of the trial before the competent Regional Court for Criminal Matters Vienna as a jury court pursuant to § 40 para 1 MedienG;

2.)Bringing forward the person to be remanded in custody on the previous grounds of detention.

Philip Josef HASSLER as the defendant for trial;

3.)according to § 252 Abs 2 StPO: Reading of the reports, the investigations by the security authorities and the criminal record information.

REASON:

The 36-year-old defendant was born in Lienz, /East Tyrol, is an Austrian citizen and single. He is without employment and has a monthly net income in the amount of € 990. He has no financial obligations, no custodial duties and no assets. He is judicially blameless in Austria.

The accused was registered as a principal resident of Vienna from 23.01.2013 to 28.06.2018.

The accused has continuously committed offences under the Prohibition Act since at least 2013 until his arrest on 20.01.2021. The defendant first appeared as the Nazi rapper "Mr. BOND" in 2016 and released five CDs until 2019. The accused's songs are characterised by anti-Semitism and homage to the "German race", as well as hatred of all persons who do not belong to this race. The accused wishes for a "4th Reich" and expresses violent fantasies against Jews, homosexuals, Muslims and dark-skinned persons. He repeatedly speaks of "*gassing*" and "*putting them in the oven*", as well as other atrocities committed by the National Socialists, and glorifies them.

The song "*Power Level*", which deals with "the master race as the antithesis of Jewry", was used by the right-wing extremist assassin Stephan BALLIET during his rampage in front of a synagogue in Halle/D on October 9, 2019. He filmed the act with a helmet camera and the song was played.

The defendant's outside influence is already evident from the numerous fan letters he received during his incarceration, which even included a letter from Canada.

In his lyrics he uses symbols as well as slogans of National Socialism, such as the swastika, the black sun, Sieg Heil, number combinations like "14" and "88". The Black Sun is a symbol that consists of twelve mirrored siegrunas or three superimposed swastikas set in a ring shape. The model for the symbol is a similar floor ornament in the form of a sun wheel, which was embedded in the north tower of the Wewelsburg by the "SS" during the National Socialist era. Since the 1990s, the Black Sun has been a substitute and recognition symbol in the right-wing extremist scene.

"Fourteen Words" means the sentence consisting of 14 words:

"We must secure the existence of our people and a future for white children" (Trans.

must secure the existence of our people and the future of our white children"). It is a quote from the US neo-Nazi David Lane, who died in prison in 2007. The numerical code "14" was created as a shortening of the "14 Words".

The Federal Office for the Protection of the Constitution and Counterterrorism certifies that the accused is particularly dangerous in that he could plan an attack himself or encourage others

to commit attacks or assassinations with his songs. The accused admires the right-wing terrorist Brenton Tarrant, who shot 51 people in two mosques in Christchurch, New Zealand, in 2019. Tarrant had committed the crime like Stephan B. (assassin of Halle) live on the net and left a manifesto. The accused dedicated a video to Brenton Tarrant and in the course of the evaluation of the devices and data carriers seized during a house search, it turned out that he edited the manifesto of the assassin, which according to charge B./ had been written, and put it on the internet translated into German. In doing so, he used the symbolism of the black sun several times, and the pursuit of nationalistic goals, such as emphasizing the white race as well as racial segregation, resulted from the content, which is why these facts were also to be subsumed under § 3g VG.

In the course of the house search, the National Socialist propaganda material was found according to charge D./, which the accused had accumulated in order to engage in National Socialist activities.

During the IT-technical evaluation, numerous audio files, video files, image files and text files with the songs, videos, CD covers and lyrics of the Nazi rapper "Mr Bond", thus of the accused, could be seized. Likewise, the image, text and music files transmitted via email according to charge C./.

The defendant has so far refused to testify and has not been cooperative in the preliminary proceedings.

He could be traced via the online payment service "PayPal" and the results of the house search have confirmed that the accused is Mr. Bond. Through the sale of his music products, the accused lucre financial income. During the investigation, cryptocurrency holdings of the accused were seized, which originated from the proceeds of the music products.

At each and every point in time cited, the defendant acted with the (at least conditional) intent to engage in National Socialist activities, i.e., to engage in conduct suitable to revive or propagate one of the specific objectives of the NSDAP and to actualize such objectives.

From a legal point of view, it must be stated that § 3g of the Prohibition Act covers, in the manner of a general clause, any activity in the National Socialist sense that is not covered by §§ 3a to

3f, i.e. any outward conduct that indicates a tendency towards re-activation in the National Socialist sense. Thus, anyone who engages in conduct that is suitable (at least) to revive or propagate one of the specific objectives of the NSDAP and to actualize it in such a way is deemed to be acting in the manner of a deed. In this context, it is not necessary for the perpetrator's conduct to affirm the ideology of National Socialism in its entirety. Rather, statements and representations that are to be regarded as a typical expression of national socialist ideas already when viewed in isolation are sufficient (cf. 13 Os 45/00). Among other things, the glorification of the person of Adolf Hitler and the approval of his life's work as well as the propagandistic use of typical national socialist slogans, catchwords or symbols, such as the swastika or the black sun wheel, are considered objectively suitable.

All of the acts of the accused listed in the prosecution's case report fulfill the character of typical Nazi propaganda actions on their own, but even more so when viewed together.

Since the accused had the constituent intent to reoffend at the time of the respective acts, he fulfilled the elements of the crime pursuant to § 3g VG in objective and subjective respects.

Therefore, on the basis of the above-mentioned considerations, he will have to be found guilty in the sense of the indictment after the main hearing and punished in a manner appropriate to the wrongfulness of his acts.
