# **The meeting between Trump and Zelensky was the fall of the Berlin Wall for the Khazarian mafia**

The world is witnessing a regime change bigger than the fall of the Soviet Union. It is the collapse of the Khazarian mafia's rule in the West. The consequences will be felt for thousands of years into the future. That is what US President Donald Trump's public humiliation of Ukrainian dictator Vladimir Zelensky means.

To understand that we are dealing with the end of a structure that is at least a thousand years old, first look at the following pictures.

They show that the Ukrainian government uses the same symbol that the Khazar Empire used over a thousand years ago. The elite of this Satan-worshipping empire has been plotting revenge on Russia since the Christian Tsars destroyed their empire over a thousand years ago.

The matter goes even deeper than that. We are witnessing the end of a 3000 year old conspiracy to enslave all of humanity. The CM have been defeated by an Anglo-Saxon, Russian and Jewish alliance.

The news you will see in the coming days and weeks must be seen in this context.

What we saw last week was a farce in which Zelensky, Trump and Vice President JD Vance argued in front of the assembled world media. Zelensky was supposedly there to sign a deal offering the United States \$500 billion worth of Ukrainian rare earth metals. In reality, however, he was demanding that the US military fight Russia in exchange for the minerals. Trump and Vance refused, and Zelensky was summarily kicked out of the meeting. The videos below show some of the highlights of this farce.

It was a farce because, first of all, Ukraine does not have minerals worth \$500 billion. According to Russian FSB sources, there are about \$20 billion worth of minerals in Ukraine, located on Russian-controlled territory.

In addition, Zelensky cannot give the mining concessions to Trump because he has already awarded them to the United Kingdom. On January 16, just four days before Trump took office, London and Kyiv signed a 100-year partnership agreement. It stipulates that the United Kingdom will take control of all ports, power plants,

natural gas concessions, storage facilities, pipelines and titanium deposits in Ukraine.

Three senior sources, including one from the US space agency, now say America will experience financial collapse, unrest and war this year. Trump clung to the idea of \$500 billion worth of minerals, hoping to use the money to stave off bankruptcy.

His talk of replacing the internal tax authority with an external tax authority is another example of this. The Trump people are stuck in the original Constitution from 250 years ago, when tariffs were the main source of government revenue. This is not 250 years ago. The US government collects \$5.1 trillion annually from taxes. Total US imports are \$3 trillion a year. This means the US would have to impose tariffs of 150% to get the same amount. That is impossible because people are not willing to pay 150% more for their imports.

The talk of imposing 25% tariffs on Canada is also impossible. US farmers get 80% of their potash from Canada. Imposing tariffs on that would drive up costs for US farmers and make them uncompetitive. Then there's aluminum and steel. US industry relies on cheap Canadian steel and aluminum, which are made in huge factories that use cheap Canadian hydroelectric power. You can't just cancel or relocate these huge industrial plants with the stroke of a pen. Without that cheap metal, US industry is uncompetitive.

The elephant in the room remains clearly the Federal Reserve Board. It must be nationalized along with all other central banks if the US is to avoid bankruptcy. That is what the real war is about. That means that the US corporation must be driven into bankruptcy and replaced by something new. Here is a comment from a Pentagon source on the situation:

So now is the time for the US to show the world its golden hand. Will Trump suppress the news if it is bad? Very likely. Whether the gold is in Fort Knox or not, it could be considered a sideshow. After all, it is only 2% of all the gold ever mined in history. On the other hand, little or no gold there does not lead to confidence in the US or the dollar.

At \$2,920, the total gold officially held by central banks is \$3 trillion. Just one US stock - Microsoft - has a market capitalization of \$3 trillion. How can the value of a SINGLE AMERICAN COMPANY equal the total gold holdings of central banks?

This shows us how overvalued stocks are; and that the price of gold is ridiculously low.

Gold is about to start another massive UPWARD move. This is the acceleration or exponential phase, as explained below.

Now Trump says the US will establish a "strategic crypto reserve" that includes XRP, SOL, ADA, Bitcoin, ETH and other cryptocurrencies. That's all well and good, but he needs to back it up with a basket of real-world assets or he'll just be whistling against the wind.

In another sign of the bizarre world of finance, Citigroup's attempt to credit a customer's account with just \$280 went horribly wrong. Instead, the account was credited with \$81 trillion, the Financial Times reports. The colossal error undermines the company's efforts to convince regulators that it has fixed the operational deficiencies that have plagued it for years.

<https://www.zerohedge.com/markets/citigroup-accidentally-credited-81-trillion-account-colossal-near-miss-event>

It was probably not a mistake, but some kind of money laundering operation at the highest level; all it took was for the money to appear in an account for a few seconds to be used to falsify a few books.

Faced with bankruptcy, Trump has allied himself with Russia against the FRB's owners, the EU and its frontman Zelensky. In a declaration of war, Trump said: "The European Union was founded to screw the United States. That is its purpose."

Expressing his support for Trump, Russian President Vladimir Putin says: "We would be open to cooperation with the United States on rare earth resources. We have far more than Ukraine... we have deposits [throughout] the region. Their development requires capital investment. We would welcome private companies."

Further evidence of an American-Russian alliance was the news that the US plans to act as a "mediator" and transport Russian gas to Germany through the Nord Stream 2 pipelines. Secret talks on such an agreement have been taking place in Switzerland for several weeks.

This Putin/Trump bromance prompted the Europeans to call a meeting at the Rothschild-owned Lancaster House, a 200-year-old elegant mansion near Buckingham Palace. The meeting was attended by heads of state and government from France, Germany, Denmark, Italy, the Netherlands, Norway, Poland, Spain, Turkey, Finland, Sweden, the Czech Republic and Romania, as well as the NATO Secretary General and the Presidents of the European Commission and European Council. Even the gap-toothed avatar of Justin Trudeau was there.

Here you can see Zelensky arriving at 10 Downing Street in London after being "kicked out" of the White House. He ignores questions about whether he will back Trump. He then went to the meeting at the Rothschild estate.

After the meeting, EU globalists Ursula von der Leyen, President of the EU Commission, Valdis Dombrovskis, EU Commission, Roberta Metsola, President of the EU Parliament, Antonio Costa, President of the European Council, and Manfred Weber, Chairman of the European People's Party, conveyed the same message:

Your dignity honors the bravery of the Ukrainian people. Be strong, be brave, be fearless. You are never alone, dear President

@ZelenskyyUa

We will continue to work with you for a just and lasting peace.

This meeting was followed by a veritable fireworks display of propaganda. For example, the KM published this picture of a fake bloated King Charles with a fake Zelensky.

Then blackmailed British Prime Minister Keir Starmer says he wants to put British "boots on the ground and planes in the air" to defend a peace deal in Ukraine.

In reality, however, the British Army has 25 main battle tanks at best and, according to the Independent, the troops are "not equipped to operate in Ukraine".

For this reason, EU witch Ursula von der Leyen said at the London Ukraine summit: "We urgently need to rearm."

The problem is that with the new Russian-American alliance, Russia can occupy all of Western Europe within a few weeks without fear of a counterattack from the

USA. What will happen is that the Europeans will have to capitulate to Russia and ask for their protection from China.

Here you can watch how a brainwashed EU bureaucrat Kaja Kallas slowly comes to the conclusion that only Russia can protect her from China...

The Russians will be happy to do this once the war crimes trials for the Nazi mass murderers have been conducted.

The situation has also led to a lively exchange of intelligence between the CIA, the FSB, MI6 and Asian secret societies.

These groups have long agreed that they will not resort to thermonuclear war under any circumstances. A senior Japanese military commander recently confirmed to this author what the US Space Force and other sources say, namely, that nuclear war has destroyed civilization on this planet at least twice already.

To prevent all-out war, various Western and Eastern secret societies have agreed on a plan to replace the current UN-centered international architecture with a global village of seven groups dealing with situations that affect us all.

One sign that the US military brass behind Trump agrees with this plan is that the US military's de facto spokesman, Elon Musk, supported calls for the US to withdraw from NATO and the United Nations after months of bad-mouthing the two international organizations.

<https://nypost.com/2025/03/02/us-news/elon-musk-appears-to-back-us-withdrawing-from-nato-the-un/>

The UN is closely linked to the Rockefeller family. The family's patriarch, John D. Rockefeller, had the following credo about people who are not members of the KM: "We will shorten their lives and weaken their minds by pretending to do the opposite. We will use our scientific and technological knowledge in subtle ways so that they will never see what is happening. We will use soft metals, aging accelerators and tranquilizers in food, water and air. They will be covered with poisons wherever they turn. Soft metals will make them lose their minds."

We will use soft metals, aging accelerators and sedatives in food and water as well as in the air. They will be covered in poisons wherever they turn. The soft metals will make them lose their minds.

---

The Rockefellers managed to avoid a war crimes trial for supporting the Nazis by donating the land on which the UN headquarters is built.

Most of the UN's activities are funded by KM honchos like the Rockefellers.

The Rockefellers are also the masterminds of cancer. As the Polish secret service tells us: "The cancer epidemic is an indisputable fact, and the long-term

effectiveness of treatment with Rockefeller methods is less than 3%, ie killing people with chemotherapy is over 97% effective. Over 95% of all cancers are mitochondrial metabolic diseases and have nothing to do with genes, but with environmental factors, such as the chemicalization of food."

The same satanic KM group has tried to use their privately funded WHO to turn the planet into a giant human factory with the help of their pandemic contract. This is now blowing up in their faces. A representative of the Polish non-profit organization CitizenGo says:

"I have just come back from Geneva, straight from the UN headquarters, and I can tell you one thing - the WHO is in serious trouble. Panic, chaos, despair - you can see that it is losing ground. It is doing everything it can to save the situation, because we are the ones who are dealing it a serious blow.

The WHO is collapsing under the pressure - I have seen it with my own eyes. Delegations are getting nervous and more and more countries are beginning to hesitate.

Bill Gates, who provides more than 80% of WHO funds, filed patent 060606 for the biosystem in June 2019. Then he published COVID-19 via EcoHealth on September 11, 2019. Then he published patent 060606 in March 2020.

This "Mark of the Beast" patent is designed to "track all vaccinated people worldwide connected to the 'Internet of Things' via a quantum link of pulsed microwave frequencies at 2.4 gigahertz or higher from cell towers and satellites directly to the graphene oxide stored in fat tissue," according to Polish intelligence sources.

It wasn't just about tracking us down. It was also about killing us. Dr. Fauci and Bill Gates infected the world with HIV and cancer: "An SV40 monkey virus...that emerged in 1951-1955...now shows up in the 'Covid vaccine'...75 years later..."

There is also ample evidence that corporate propaganda media is using fear-mongering lies to try to get people to take these toxic vaccines. In the most recent example, ABC News is using a 2022 Mumbai image to promote the "measles outbreak" in Texas in 2025. Nothing is more indicative of HOAX than fake photos in the mainstream news.

Sources in the US Space Force have revealed that James Bond villain Gates has recently disappeared. It is not yet clear whether the assassination attempt by MI6 007 was successful or whether he is hiding in a deep hole somewhere, Many other villains will be caught in any case. Satellite images of the Guantanamo Bay naval base show that around 175 new buildings were erected between February 2 and 19 - mostly temporary buildings and tents.

The question is whether these new facilities will house pedophile Satanists or illegal immigrants.

There is a big question mark over whether we will finally see a real crackdown on child murderers:

US Attorney General Pam Bondi has faced fierce backlash on both sides of the political spectrum over the chaotic release of federal files on the late pedophile

billionaire Jeffrey Epstein, which has been called a "debacle" and "an absolute clown show."

The incident had Republicans and Democrats alike in uproar after the files failed to reveal any significant new findings and contained some information that was already public. Copies of the "Epstein files" were distributed to a number of hand-picked influencers before being posted on the Justice Department's website a few hours later.

"This was not a good day for the administration," said Florida Democrat Jared Moskowitz on CNN. "If you look at the online traffic about the Epstein release, I've never seen the left and the right come together in a moment of debacle [the release of the files]."

<https://www.independent.co.uk/news/world/americas/us-politics/pam-bondi-epstein-files-debacle-b2706966.html>

Another bad sign: actor Gene Hackman died at home along with his wife, pianist Betsy Arakawa, and their dog.

The death of Gene Hackman is under suspicion after authorities found the door to the house open and unsecured and pills scattered next to his wife.

<https://www.mirror.co.uk/3am/celebrity-news/gene-hackman-death-cops-chilling-34764592>

Pentagon sources say Gene Hackman was set to be the first witness for the DOJ/FBI on the subject of pedophilia in Hollywood.

Ian Carrol says it right. Dan Bongino, the new deputy director of the FBI, dares not name Israel as the nation behind Epstein's blackmail operation. The evidence is overwhelming that he is a Mossad agent.

AND THEN you will know the truth!

The days when Israel can suppress the truth are quickly coming to an end because Israel itself is essentially finished. Mossad sources say that the Gaza ceasefire and hostage exchange is in reality a total military defeat for Israel. When they talk

about new IDF offensives, "The meaning: Israel is on the verge of collapse. They have nothing left. This is all just a bluff," the sources say. Israel now admits that the October 7 attack was a deception to justify genocide.

Whatever the case, more and more such truths are coming to light. In the most recent case, children's clothing and books were discovered in tunnels beneath an abandoned KFC near Yuma.

In addition, a Russian special forces unit just rescued thousands of children abducted by Marina Abramovic, according to Russia's FSB and other sources. Russian special forces have rescued thousands of enslaved children from a factory in Ukraine's Carpathian Mountains as President Putin's campaign against the global adrenochrome industry intensifies. According to Russian sources involved in the raid, the arrest that freed hundreds of children was made possible by infiltrating an adrenochrome party organized by Marina Abramovic and attended by elites in Paris, France. Ukraine is the world capital of child sex trafficking, and investigators warned that a network of adrenochrome factories exists there.

<https://rumble.com/v5dos1l-adrenochrome-taskforce-rescues-thousands-of-children-trafficked-by-marina-a.html>

Vladimir Zelensky and his supporters will go down in history as some of the worst war criminals. Zelensky and the so-called "Russian" mercenary group Wagner rounded up Ukrainian men and sent them to specific areas where they were killed with artillery fire. The women and children were then rounded up and sold as sex slaves or involuntary organ donors, or tortured to extract adrenochrome.

Ukraine's population was 53 million in 1993; today some estimates put the figure at just 18 million. Much of the population has fled to the EU or Russia. However, some 1.5 million Ukrainian men of military age have been killed. Today, most of Ukraine's best country is controlled by corporations such as Vanguard, BlackRock and State Street.

The Russians are demanding compensation for the trouble caused to them by this genocide in KM Ukraine. Russian President Vladimir Putin and senior Russian officials continue to reject the US negotiating terms and demand that Ukraine give up territories not occupied by Russia. They say "Novorossiya" is an "integral" part of Russia. Putin and other Russian officials defined "Novorossiya" as all of eastern and southern Ukraine (including Kharkiv, Dnipropetrovsk, Odesa and Mykolaiv oblasts).

<https://understandingwar.org/backgroundunder/russian-offensive-campaign-assessment-february-27-2025>

This is in line with the agreement reached between the Five Eyes and the Russians. Under this agreement, Odesa will be returned to Russia, but will become a free port like Hong Kong, allowing Ukraine unhindered access to world trade.

Similar agreements are being implemented around the world,

For example, in a sign of preparation for an East-West future planning agency, the Chinese regime announced plans for a nearly 700,000-square-foot embassy in Royal Mint Court, a historic building near the Tower of London, in 2018. The plans received a boost in January after the British Foreign and Home Secretaries indicated they would support the construction proposal.

Once completed, the new Chinese embassy would be ten times the size of China's current embassy in London's Portland Place and almost twice the size of the Chinese embassy in Washington.

Of course, the Asians themselves still have to do some housecleaning before a planning office can be established.

Japanese journalist Yukio Ishihara has just returned from a mission to report on the horror of the specialized scam bases in eastern Myanmar. Tens of thousands of foreigners are held captive in these bases and forced to commit scams. The Border Guard Force (BGF), an ethnic armed group that effectively controls the region, has rescued more than 7,000 foreigners from about 30 countries during searches of these bases. One scam base, "KK Park," is run by a Chinese criminal organization and houses more than 10,000 people trafficked into Myanmar via Thailand. Total damage from specialized scams, ransom demands and other losses in Southeast Asia is estimated at more than \$45 billion. If you ever receive a random email from a "beautiful Chinese woman" offering you some kind of deal, it's probably a poor Chinese person held captive in Myanmar. There is also a brisk organ trade and kidnapping for ransom, according to Ishihara. If a victim is not good at fraud and his family cannot raise a ransom for him, his organs are trafficked. We are also receiving reports of bioweapons factories being set up in the region.

So China has a Ukraine-style crime zone on its borders that needs to be cleaned up.

We are also receiving new reports of directed energy weapons attacks in Asia. These photos, showing destroyed buildings and intact facilities, are from a recent attack on Japan.

The image is a screenshot of a social media post. At the top left is a profile picture of a green frog with a crown. To its right is the name 'tera' and the handle '@terachange'. Additionally, a DUMB was just taken out in Indonesia, as shown in this news

report:

A shallow magnitude 6.1 earthquake struck near the Indonesian island of Sulawesi on Wednesday, the United States Geological Survey said, with no damage or casualties reported.

<https://insiderpaper.com/magnitude-6-1-offshore-earthquake-hits-near-indonesian-island-usgs/>

"I know the area well. The northern part of the island is known as a center of child and women trafficking. The name of the main city is Manado. There are very beautiful girls there. Tall and fair-skinned," said a Pentagon source.

In summary, planet Earth is suffering from a satanic infection and we are on the verge of being healed.
