

# North Korea: Missile stoped

Thursday, November 2<sup>nd</sup>, 2017

This one is from Q's first days. The whole post is talking about North Korea and their nuclear capabilities. Missile is spelled incorrectly: it's missing an "i."

Would it blow your mind if I told you BO has been to NK and perhaps there now?

Why did his administration do little to slow their nuclear and **missile** capabilities?

Who feeds NK w/ strategic intel? Iran?

What deal was done with Iran under BO?

Why was the deal sealed under a top secret classification?

Why wasn't Congress notified?

Why after BO left office all of a sudden NK has nukes and the tech to miniaturize for payload delivery within the US?

What about NSA CIA DI etc all confirming tech won't be in place for 5+ years (statements made in 2016).

Why is all of this relevant and what does it tell you?

Big picture is rare.

1 hour after the tweet

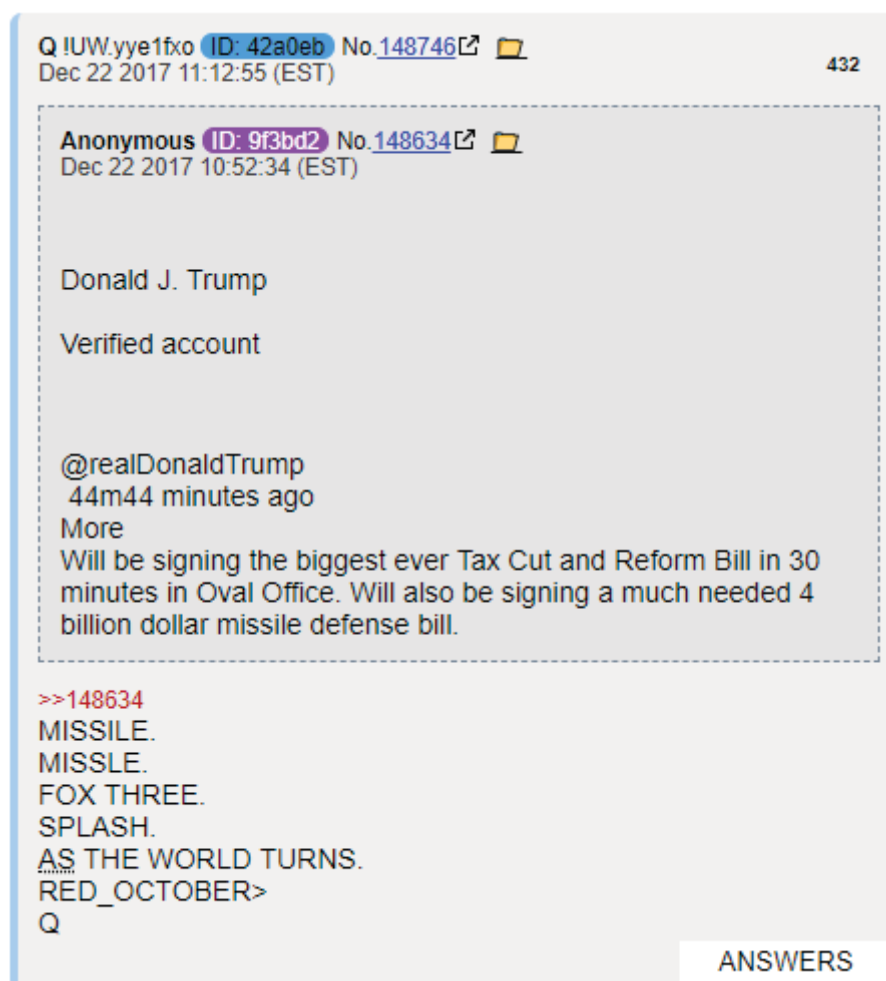

Just a few days before these posts, on December 18<sup>th</sup>, 2017, Q established the meaning of “FOX THREE” and “SPLASH.”

So, “Fox Three” stands for the launch of a missile, while “splash” means that the missile was destroyed.

Returning to the post on December 22<sup>nd</sup>, 2017:

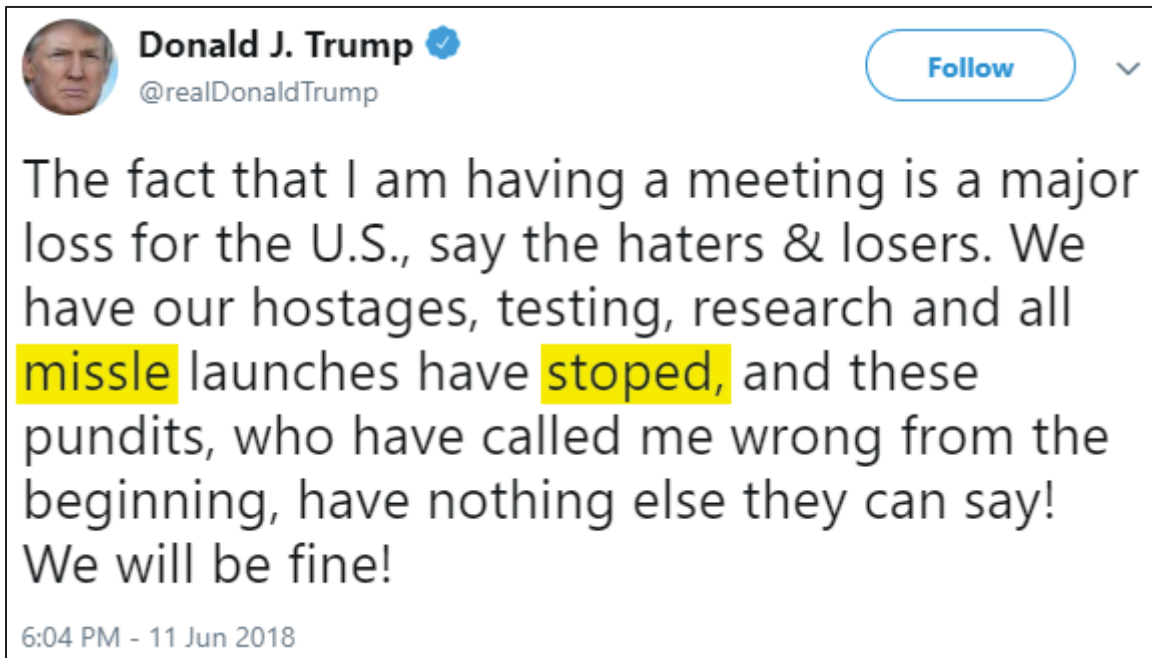

In this post, Q ties together the missile defense bill, the misspelling of “missile,” and the “Fox Three” and “Splash,” which we know stands for a launched missile (Fox Three), and because it was followed by “Splash,” the missile was destroyed before it could reach its target.

Based on this, Q seems to be using “missle” to indicate the use of missile defense systems to stop a missile before it reaches its target.

6:04 PM EDT

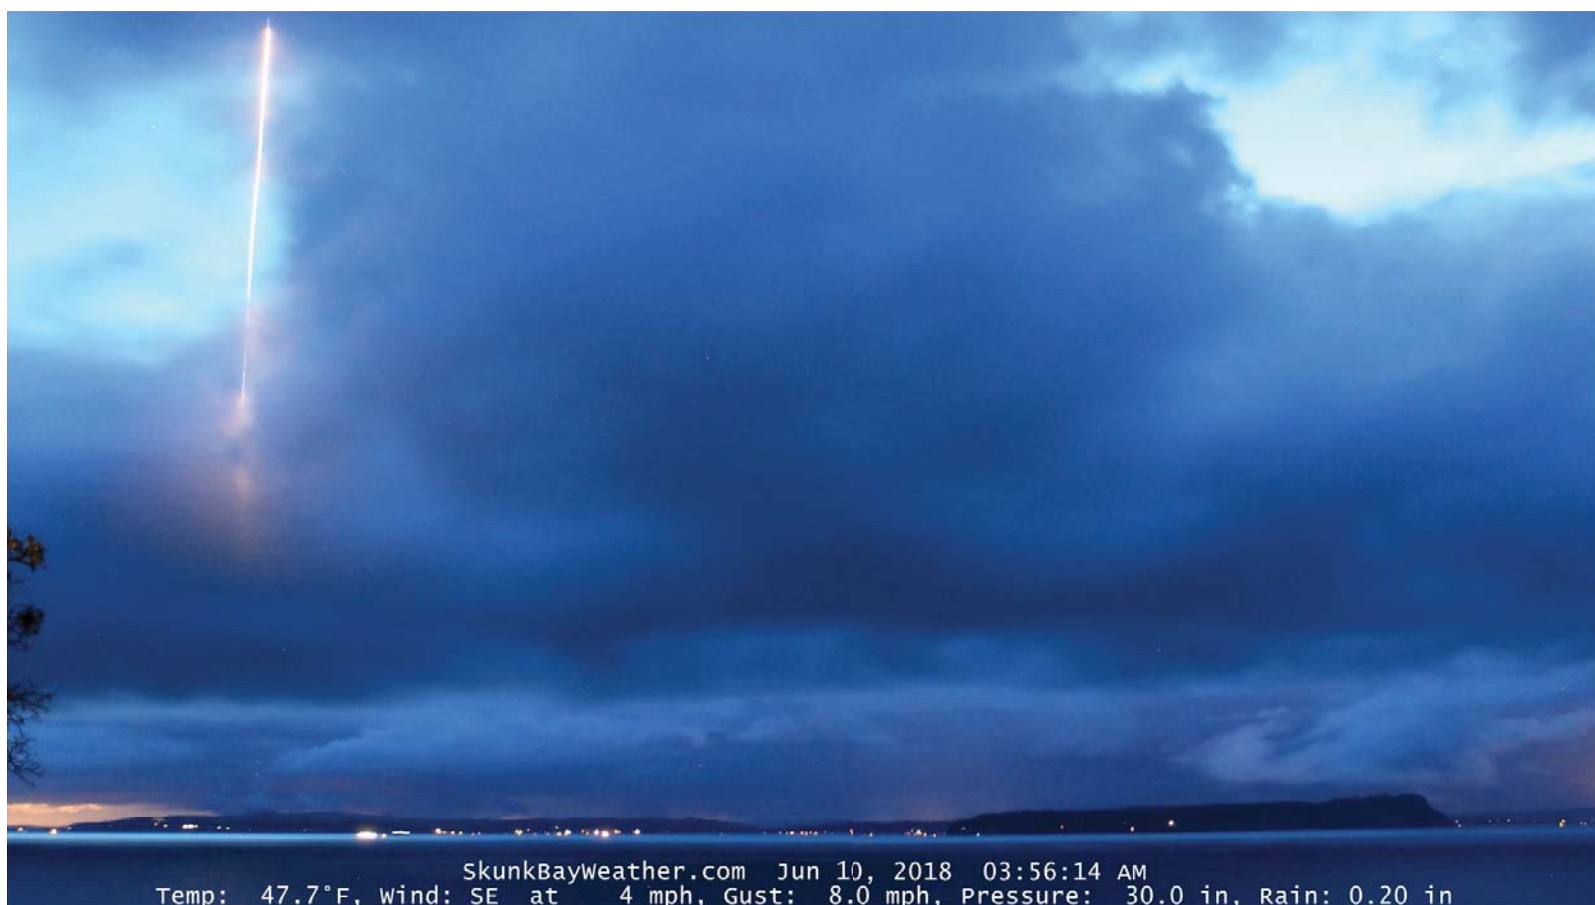

(Just 3 hours before the beginning of the summit with North Korea)

"Coincidentally," Trump misspelled "missile" as "missle" when talking about North Korea and their nuclear weapons, just as Q did intentionally multiple times when talking about North Korea's nukes, and he also misspelled "stopped."

MISSILE STOPED  
MISSILE STOPPED  
FOX THREE. SPLASH.

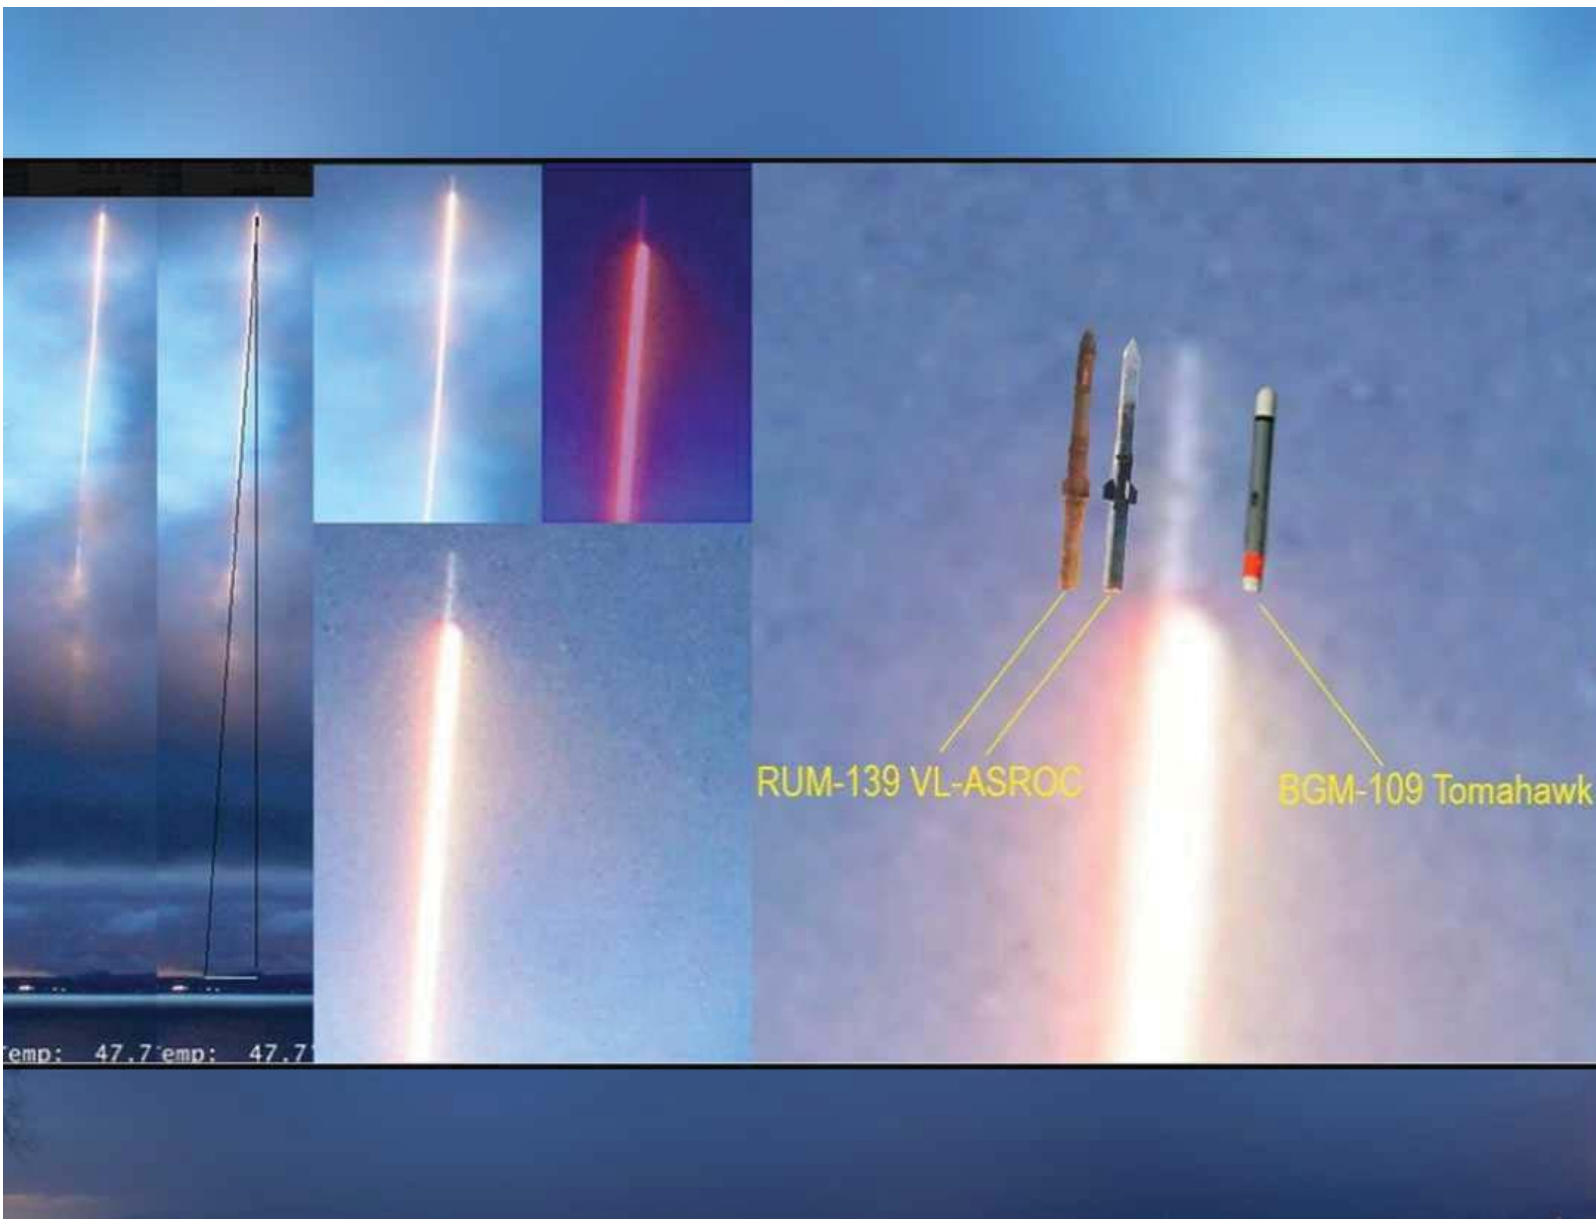

Also “coincidentally,” a camera in the state of Washington caught the launch of a missile around 4 AM PDT on June 10<sup>th</sup>, just the day before. The Pentagon denied that it was a missile.

Temp: 47.7°F, wind: SE at 4 mph, Gust: 8.0 mph, Pressure: 30.0 in, Rain: 0.20 in

If you look closely, you can even see that there's a "notch" near the middle – at the same exact point that other missiles have them, when you match them length-wise.

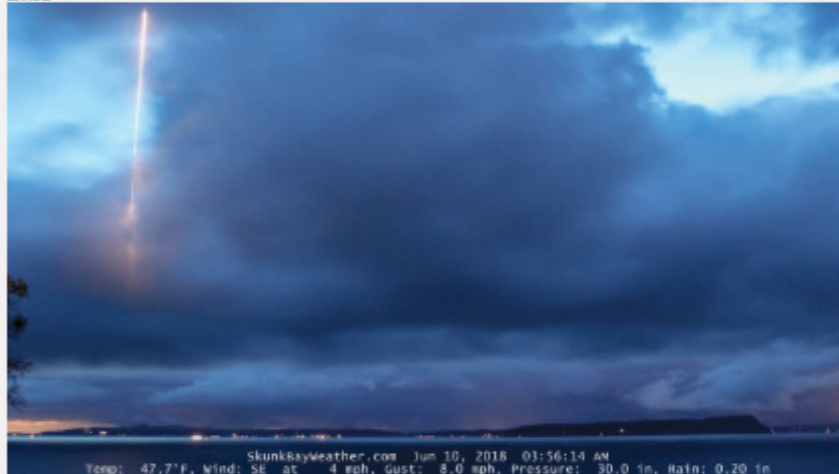

It certainly doesn't look like a helicopter, which is what the MSM said it was.

Q

It's worth noting that this was the 4<sup>th</sup> time Q misspelled "supposed" as "suppose."

**10/31/17:** "Was the election suppose to be rigged?"

**11/22/17:** "Who was suppose to win the election of 2016?"

**12/23/17:** "Who was suppose to be the next President?"

**6/12/18:** "Certain events were not suppose to take place."

**7/26/18:** "Facts (a case) he is suppose to be recused from?"

Q implied that there was a reason for the misspelling, but we haven't figured it out yet.

It's also worth noting that this was the only time Trump had ever misspelled "missile" as "missle" on his Twitter account.

Your wrong-headed protectionist policies & antics are damaging our global standing as well as our national interests. Your worldview does not represent American ideals. To allies & friends: Be patient, Mr. Trump is a temporary aberration. The America you once knew will return.

PM Justin Trudeau of Canada acted so meek and mild during our @G7 meetings only to give a news conference after I left saying that, "US Tariffs were kind of insulting" and he "will not be pushed around." Very dishonest & weak. Our Tariffs are in response to his of 270% on dairy!

**Feed as in the Image (Camera Feed)**

Why?

Think mirror.

What if the people in the vehicle are those **Working on Sunday

MA's bad actors are the one supplying the 'Feed'.

The images have been ripped/taken from their phones. (Like in  
SG/KJU photos)

The 'Man in Black' was the operator who just went and took the  
2 photos of MA office that Q posted moments earlier. (Phone in  
hand)

Full black attire + shades + poor facial angle.  
Nothing there can be used to easily identify the individual, even  
more so if hes an operator.

The above would explain MA shitting bricks and asking the

**11:50 AM EDT, June 9<sup>th</sup>:** Air Force One (AF1) leaves Canada (G7 Summit) for Singapore.

AF1 landed in Singapore at 8:20 AM EDT.

🕒 PUBLISHED JUN 10, 2018, 7:45 PM SGT | UPDATED JUN 11, 2018, 6:11 AM

[Jeremy Au Yong](#) Deputy News Editor 

SINGAPORE - US President Donald Trump arrived in Singapore on Sunday (June 10) for a Tuesday meeting with North Korean leader Kim Jong Un he has described as a "one-time shot" at peace.

Air Force One - the American's president's official plane - touched down at Paya Lebar Air Force Base at around 8.20pm. He was greeted by Singapore Foreign Minister Vivian Balakrishnan.

Article is in SGT (Singapore time)  
SGT is 12 hours ahead of EDT, so 8:20 PM SGT = 8:20 AM EDT

That means the missile was launched 1 hour 24 minutes before AF1 landed.

Missiles like intercontinental ballistic missiles (ICBMs) have the ability to reach speeds of 15,000+ mph.

### Map Showing the Distance Between Seattle, Washington Usa and Singapore, Singapore

Seattle, WA, to Singapore is a little over 8000 miles.

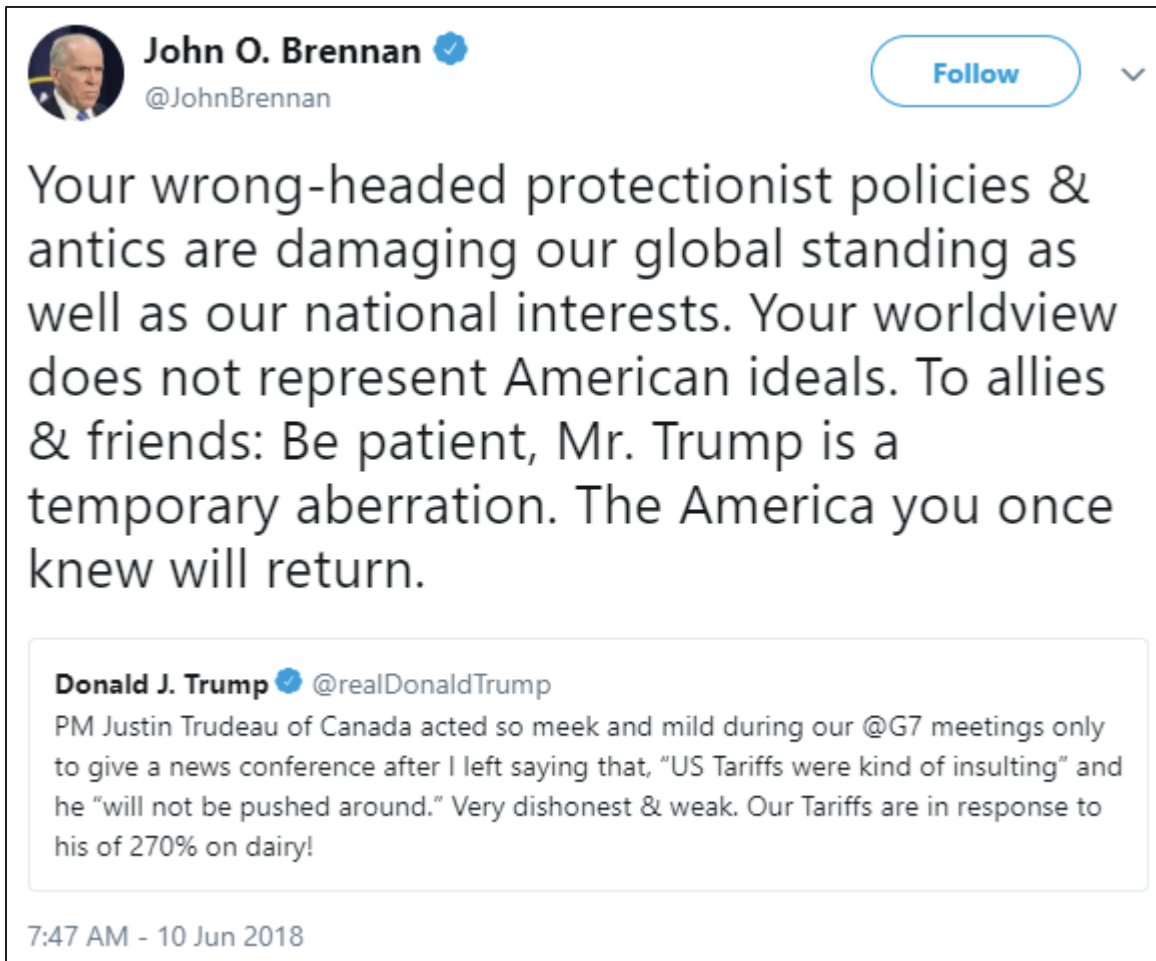

$8000 \text{ mph} / 15,000 \text{ mph} = 0.5333 \text{ hr} \times 60 \text{ minutes (in an hour)}$   
 $= 32 \text{ minutes for a missile travelling } 15,000 \text{ mph}$

32 minutes is within the 84-minute timeframe between the missile launch and the landing of AF1, so it is possible that the missile was targeting AF1, as Q implied.
