

fungai art
ENTHEOBOTANICALS

living mycelial art: fusion of plants; alchemy; frequency

WE ARE INSPIRED BY THE VISION OF A FUTURE WHERE
ART AND MEDICINE RETURN TO THEIR ORIGINAL UNITY

Fungai Art is a living art & community ecosystem that weaves together healing arts, ecological awareness, storytelling and lifestyle.

We see community itself as a piece of art – constantly evolving, relational, and alive. Connecting people through shared experiences, care practices, and collective transformation.

moder jord:

botanical preparations, adaptogenic blends, NATURAL MEDICINE

skogens nektar:

our self-foraged forest product line made for chefs to highlight flavours

new tyme tonics:

our upcycled & holistic alchemical tonics/elixirs made for sober party

together we

- create accesible spaces for rest, grounding & connection
- share on-site knowledge on plants, ecology, and regenerative care
- support festivals by balancing stimulation with integration
- train & involve team & volunteers for transmission and responsible practice

AT THE HEART OF **fungai art**, IS A DEEP REMEMBERING: RECONNECTING PEOPLE TO THEIR NATURAL STATE OF BEING IN RHYTHM WITH THE LIVING EARTH.

WE UNDERSTAND **gaia** NOT AS A RESOURCE, BUT AS A CONSCIOUS, REGENERATIVE SYSTEM THAT HAS ALWAYS HELD THE MEDICINE OF CARE, BALANCE, AND BELONGING.

"FUNGAI ART CONTRIBUTES TO A LARGER CULTURAL MYCELIUM THAT BRIDGES
ART, NOURISHMENT AND COMMUNITY REGENERATION"

vision & intention

Through Art, Science, Exchange, Rituals, Elixirs, Storytelling, and Embodied Experiences,
we cultivate care, grounding, and integration.

→ supporting both personal well-being and the festival's collective energy.

We are holding a nurturing, relational spaces where participants dwell into

gaia's apo'takecare'u

and mycelial connections, engage their senses
and remember our role as stewards within it

Cordyceps Sinensis

A+ from Himalaya

Amanita Muscaria

Tincture, self foraged

Chaga tincture

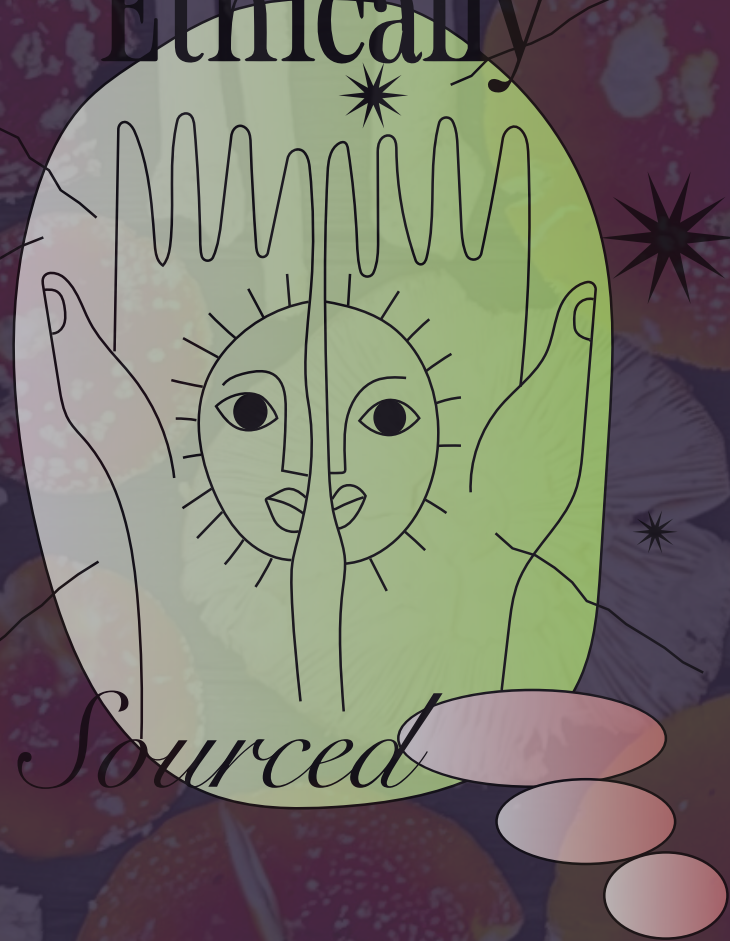

Self foraged from Sweden

Royal sun fungi

Agaricus Blazei from Brazil

ethos

Ethically

- **Education and clarity:** offering clear, accessible information about botanical preparations, their traditional contexts, and contemporary understanding, without making medical claims or promises.
- **Humility and restraint:** working within our scope of practice, honoring the limits of our knowledge, and refraining from sensationalism or misuse of medicinal narratives.
- **Care-centered application:** approaching medicine as relational support rather than a fix, always considering context, nervous system safety, and integration.
- **Ecological accountability:** acknowledging our responsibility to the land, lineages, and ecosystems that make this work possible.

Ethically Sourced & Foraged

- *wild-foraged with ecological care and seasonal awareness*
- *organically grown or sourced through trusted networks*
- *never harvested from endangered species or vulnerable ecosystems*

“WE BELIEVE ETHICAL MEDICINE ARISES THROUGH RELATIONSHIP – WITH PLANTS, PEOPLE, AND PLACE – AND WE CONTINUALLY REFLECT, LEARN, AND ADAPT OUR PRACTICES IN SERVICE OF COLLECTIVE WELLBEING AND ECOLOGICAL INTEGRITY.”

EXPLORATIVE GUIDANCE INTO FUNGAL & PLANT KINGDOM

MAGIC CARPETS

magic carpet is an interactive prolongation of the stand/bar, where people can linger and dwell into the world of fungi and entheobotanicals, connect and nourish each other.

a sensorial art installation and sanctuary
blending visual art, light, scent, and texture into an atmosphere of
grounding, inspiration and wonder.

entering the fungai art cosmos

relational medicine

Engage in gentle, unhurried exchanges. Conversations, shared stories, and small acts of care become part of the experience, making the medicine relational and alive.

cummunal linger

Magic Carpet holds a slow, communal rhythm, a place where people gather, linger and rest. A soft landing for bodies, minds & senses to settle.

embodied wonder

A tactile, earthy immersion combined with meaningful exchange invites curiosity and a renewed sense of wonder for the magic of plants and fungi.

curiosity & explore

Observe, taste, smell and discover. Learn about origin medicine, fungi, and herbal intelligence in a tactile, experiential way.

integration & resonance

Leave carrying subtle shifts — in awareness, in body, in community. The space itself seeds reflection, creativity, and reconnection to natural rhythm

why we belong to your festival

- Creates a **grounding counter-space** that balances sensory intensity and supports **nervous-system regulation, rest, and integration**.
- Expands the **definition of medicine** from consumption to **relationship**, presence, and shared experience
- Strengthens the festival's **care culture** by providing a visible, relational space where people feel held, seen, and supported.
- Encourages slow, **meaningful encounters** in contrast to fast-paced consumption.
- Functions as a **living artwork**, where atmosphere, interaction, and community become part of the artistic expression.
- Supports wellbeing and **integration** before, during, and **after** peak experiences, enhancing overall festival sustainability.
- Acts as an **educational node**, sharing practical knowledge about botanical preparation, origin medicine, and regenerative practices.
- Invites **cross-pollination** between art, healing, and community, enriching the festival's interdisciplinary identity.
- **Ethical sourcing**: All materials, plants, and fungi we use are responsibly foraged, cultivated, or sourced, honoring the ecosystems they come from.
- **Sustainability**: We minimize impact, honor the land, and model regenerative practices.

visual identity and aesthetic direction

MAGIC for enchantés

about us

HI, OUR NAMES IS ROBIN & STEPH,
WE ARE THE CREATORS BEHIND FUNGAI ART

NATURE ∞ ART ∞ COMMUNITY ∞ SCIENCE

"**Back to intimacy** with **nature**, with **art**, with **community**.
We return to nature, we learn from her rhythms, her cycles, Her
medicine, her ever-present creative force, her grounded spirit.

Fungai Art is our **co-creation** with Her.
She shows us how ecosystems thrive, how we can move, create, and
relate as part of a living world.

We are sacred rebels, artists and healers activated by her pulse.
Fungi Art is the space where **nature** becomes **ally**, **community**
becomes **living**, and **creation sensual, embodied, everyday practice**.

Robin is the **founder, visionary seed carrier, and community weaver** of Fungai Art. He is a chef, elixir master and forager. He creates carefully held spaces where learning, remembering, and connection unfold as lived experience.

His art is a dance with nature and the cosmos, 'conscious-sensual' translating elemental intelligence into immersive worlds that harmonize mindfulness with sensuality, and nourishment with play.

Robin brings ambitious curiosity to neuro-pharmacology, exploring how the chemistry of the brain interacts with plants, fungi, and human experience. Raised in the forest, he leads people on foraging journeys, guided by a close, intuitive bond with the land, the plants, and the living world around him.

Steph is the **co-initiator, steward, creative force, and botanical crafter** behind Fungai Art. She is a systemic psycho-mystic coach and facilitator. Her work moves through the sensual pulse of nature and creation, living at the intersection of soma, plants, ritual, sound, and remembrance. She bridges art, origin medicine, and social ecology into spaces where expression, presence, and connection are felt, embodied, and lived.

Rooted in botanical practice, embodied facilitation, and community care Steph creates the bridge for humans to come into intimacy with all life, through the recall of heart, body and intuition.
