Why would he  
hide completely  
legal HUMAN  
smut?

Unless... there's  
something he isn't  
telling me?

Oh.

LATER...

Um, I was. I was wondering...

Would you, uh, ever want to see me with different... parts...?

The sex kind?

... What's all this about?

I-I just wanna, y'know, *experiment*!

... You may want to explore temporary options first.

Like what?

...

This one involves  
magnets...

Uhh... My limbs  
are magnetized,  
remember?

Ah, right.  
Alternatively—

Too  
boring.

EVENTUALLY...

You're sure  
this is *safe*...?

If it isn't...  
the vendor will  
*regret* it.

"Ensure the product is in optimal condition. Check for blemishes or other signs of damage."

Uhhh, looks... good...?

"Remove all clothing or other barriers covering the pubic region. Ensure the area is clean."

Yeah, yeah.

"Position the open end of the product in front of the exposed pubic area."

Like this?

"You may feel a slight pinch."

I don't feel anything—

IT FEELS—

CLAMP

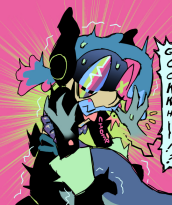

It feels weird...

Focus, boy.

a-ahh

hnn

S-something's...  
coming...!!

EVENTUALLY...

Daddy?

Uhh, this *prototype* seemed promising...

I-I swear it's not as weird as last time!

Looks simple enough. I think.

It is... a harness?

No, I gotta figure out how to—

Whoa!

FLICKER-

Daddy...

POW!

AND SO...

I should  
be able  
to make a  
bypass—

I'm not sure why you  
decided to change your  
body in the *first* place,

but I'd *first*  
advise asking  
the next time  
you feel the  
urge to rifle  
through my  
personal files.

I-I, uh, I was  
just—I mean—

not  
sure  
why  
you

change  
your  
body

You mean...  
y-you don't  
mind that  
I'm...?

... As long as my partner  
is satisfied, the specifics  
aren't important to me.

WIB--BLE

ehehe!

I love you,  
too, Daddy~!

# Author's Note

Hey! It's Teeb! Thanks for reading *Hardware*, and I hope you also enjoyed *Cyan*, whenever you first read it! This was originally a timed exclusive bonus comic for the print run of *Cyan*. As such, I chose to focus on something a little fluffier than usual, so no truly important plot stuff would be paywalled...

As of this writing, I still have some copies left. If you're interested in purchasing one, ask me privately in DMs. You can find me on Twitter and Baraag at [@teebstly](#) & [@teebnstlw](#).

It's interesting for me to think about sexuality in a futuristic setting. I had a lot of fun coming up with ideas for unconventional sex aids... I'm sure there's more straightforward ones, but Dmitri was feeling adventurous!

It's been over a year since *Cyan*'s initial release, and writing this is making me feel sentimental. I'm still mentally recovering from my latest comic project, so I appreciate your patience.

From the bottom of my heart, I'm truly grateful for my readers. Thank you for your support. It means a lot to me.

Until next time!
