

Intro

I decided to put a Google Doc together of pretty much everything hateful, slanderous and threatening I've seen against the company and Livers this past year.

Disclaimer: With the exception of Legal Mindset, as he's not a Vtuber, no real names of anyone will be used in this.

While you may be correct to call me hypocritical at parts where I use past/alternate names for several Vtubers while also calling out those breaking Vtuber/PL Etiquette, I don't do so for any clout/views/etc., it's for informative purposes.

No information, at least on my end, was obtained through illegal means. Several of those listed here pretty blatantly used sites such as 4chan and have no respect for the Livers' privacy, so there may be some non-public information in their videos/tweets.

I hope that gathering all this, sending it Anycolor/Cover's way and pointing to others who know of more, will finally get them, or at least the ones who refuse to stop, taken down.

There isn't and shouldn't be a place for dramaturbers and this overwhelming hate mob in our community that's become 'acceptable' because it's Nijisanji.

-mocks, slanders and degrades the company over stocks

-directs hatred towards the company for Aster being in a voice pack right now

-attacks the company for missing Meloco Kyoran's birthday by 1 day...which was over a month ago.

-directs mocking hatred and harassment towards Claude Clawmark over those damn Play Buttons without any prompting other than a way to shit on him after he got his 2nd outfit. **Also proving he doesn't give a damn about Victoria, since she explicitly told people to knock that shit off.**

-Twitch-

Vile remarks from a Twitch stream that are timestamped(5:27:40-5:30:05) in the following tweet wherein False says:

-1/3 of EN Livers can just be fired, no problem

-claiming that those who need to go are 'big, big problems'

-that the Branch's culture would be 'hilariously different' if they're gotten rid of

-slandering the Livers by claiming they're the cause of problems

-claiming that HE knows 'who needs to go', and claims the Livers think the same way,

claiming/implying that he has inside sources leaking him information(or just blowing smoke out his ass, even with his head stuck in the way)

The only one who 'needs to be shown the door' is you, False, you son of a bitch.

False spouting delusional nonsense about:

-segregating the Livers by gender

-having Nijisanji buy Holostars EN and giving the girl Livers to Hololive

As ways to improve/'save' Nijisanji. **Who just had a very good Quarterly record.**

I can't find the clip at the moment, but there was one where Aia Amare mentioned that these people in the hate mob don't see her as a person, and False's statements here really reinforce that.

To them, she and the others aren't Livers/Vtuber working under the company with an actual human being behind them; they're a product that can only be measured in value by how much they do/earn, and/or an unwilling 'weapon' to be used against Nijisanji and their friends/coworkers, either through fake sympathy or a target for hate/false claims.

<https://x.com/NBinted/status/1870109244630192425>

<https://x.com/NBinted/status/1870119055333699637>-

A note about False and Khyo: previously, [they'd covered Vox Akuma getting doxxed](#). However, that was not public knowledge at the time, as he was publicly 'moving', so they had to have obtained their information about this from a site such as 4chan or the now defunct doxxing site. This resulted in them getting a strike on their channels, which may be part of the reason they are so hell-bent on their crusades against Nijisanji.

I don't believe for a second False or any of the others truly care about any of the Livers, as they have(or had) no problem sticking their faces, past or present, onto thumbnails, digging through their PL accounts, and twisting their words in the worst possible way. This applies to Dokibird as well; I have 0 doubt they only see her as a weapon to aim at everyone in Nijisanji. If she, or any of the 'good ones' in Nijisanji, ever truly screws up to a point where they can't spin things how they want, they **will** turn on them. Mark my words.

Addendum: I feel like that, when False claims Livers/Niji staff talk to him, it's either not willingly(see the blackmail claims I've seen levied at him), or he's bullshitting and trying to start a pointless witch hunt in fans to sow chaos and destroy trust in the Livers/staff to make them fruitlessly single out 'the one(s)'.

Khyomaru directly sending hatred and harassment towards Finana Ryugu by falsely claiming she's 'hated by everyone'. Harassment towards her is related to her banning the word 'trap' a few years ago, as some might find it transphobic, and certain individuals, such as Vtuber Cringe, kickstarted a hate mob towards her over it that still continues to this day, them and Rev continuing to mock her for it.

-slandered and mocked several Livors

-insulted and lied about the hard work everyone put into their concerts (and possibly used DMCA'd footage/screenshots from the AR Live)

-shown no respect for Vtuber Etiquette for Nijisanji or otherwise

-spread around 4chan rrats

-shown no problem working with 1. Nousagi, who openly proclaimed he had private Hololive PL details behind a Patreon paywall 2. Parrot4chan, who is just a vile, racist individual. 3 That grifting hack of a lawyer. 4 False.

[r/Kurosanji subreddit](#)

There's so much for you and the companies' lawyers to go through on here that increases by the hour. Fuck everyone who uses this subreddit that infested the official Nijisanji one to the point of getting it purged, and before that even happened, decided to make this second shit hole while staying on there until it was all wiped.

They claim to have rules against harassment and the like, but there are just there for show; they're barely ever enforced.

The subreddit claims to be about open and transparent criticism about Nijisanji

There is absolutely none or next to none of that to be found *anywhere* on this sub.

And how they and other antis/dramatubers act towards any complaints the Livers may voice by overblowing them makes it more difficult to voice **actual** criticism.

All you'll find looking here is:

-mocking and degrading the current Livers, unless they're considered the 'good ones'

-claim to care about Dokibird, but have no issue with using her claims of a suicide attempt as a weapon against Livers and Niji fans to try and win arguments, and blatantly ignoring her wishes to not go after anyone in her name(to which she has only metaphorically wagged her finger at people who do, anyway).

-stalk the accounts of anyone who is a fan of/defends the Livers or calls out the hate mob to demean and send harassment towards them

-completely ignores any obvious improvements that have been made at Nijisanji/Anycolor since February

-have no clue how to read(or more likely, as those like False and that hack of a lawyer do, purposely twist the details of) stocks/Quarterly reports to claim the company is going under every other day

-spewing batshit insane 4chan level rrats/conspiracy theory nonsense

-showing absolutely no respect for Vtuber Etiquette in regards to both current and Ex-Livers(and even those not in Niji), which includes flagrantly breaking Membership Only content rules

-Condescendingly claiming they want to 'save' the Livers considered the 'good ones', even if they've: already said they're happy being there, feel uncomfortable by people acting that way(some calling the Livers brainwashed or gaslit to think that way), and/or don't want people like this 'supporting' them only because it'd be to spite Nijisanji.

--Related to this, they seem to honestly believe that the 'good ones' truly have no idea about the cruel, disgusting things the sub says about their friends and coworkers, and would be okay with people like that 'supporting' them.

Please find some way to nuke that sub, too.

==

The 'Grand Unifying RRat; Nonsense

Before the r/Nijisanji sub was nuked, the ones who invaded and infested it came up with this list of baseless 4chan theories, and the hate mob has more or less adopted it all as 100% truth.

Anonymous 02/14/24(Wed)15:58:08 No.69038425 >>69038476 >>69038571 >>69039070 >>69041179

I'm a gigantic fuck for writing this but here you thirsty fuckers go.

The Grand Unifying Rrat:

- >Niji launches EN branch, doesn't assign it actual EN-fluent management outside of 1-2 people
- >Lots of translations are needed, allows multilingual talents to step up and help out
- >This eventually leads to those talents influencing management, probably by scuffing the translations and directly suggesting stuff to management
- >Elira is the one who does the most translations, which is why she rarely streams
- >Elira is able to get Enna and Millie hired
- >Sometime during this NijiIN's management is sent to help with NijiEN after the former's branch got axed.
- >Translator talents start getting more and more say in things, probably eventually going behind NijiEN's back to talk to Niji proper
- >This leads to the management having enough of this shit and leaving en masse to go shill some NFT
- >This creates a vacuum that Elira and others are able to exploit
- >Other translator talents let this happen because Elira has been good to them so far
- >Elira becomes the de-facto liason for EN, meaning anything from sponsorship deals to work-related complaints go through her
- >Enna and Millie become Elira's unofficial assistants at this point, take on managerial duties
- >Creates a hostile work environment where if you don't submit to Elira's clique, your life becomes a hellhole
- >Some people try to ignore this and just do their jobs like Nina, but are isolated and harassed until giving in to the pressure
- >Selen has a get-out-of-jail-free card at this time due to all the work she's put in to the company, so is mostly left alone outside some light harassment
- >Things like sponsorships and merchandizing deals are given to people within the clique first, which makes these 'safe' members to gives deals
- >This eventually led to graduations and terminations of other members to, which creates a cycle of haves and have-nots

The 'Nijisisters' insult

Once all this started, and it seems beforehand as well, anyone who the dramaturbers or antis defended the Livers or company have been repeatedly and endlessly mockingly called 'Nijisisters' to demean them and anything they say.

I saw some people claim this spawned from 4chan and the like, though it was apparently 'Nijin****r' (slur for black people) there. I don't go there, so I can't confirm this myself, but I have seen this actually used a few times in place of Nijisisters outside of there.

Regardless of the word used, it's **disgusting** how it's become acceptable in the Vtuber community to mock and degrade Niji fans/those who support the Livers with either name, and how they and the Livers are treated as subhuman by so many now.

Nijisanji Defense Force/NDF is also used in a similar way to mock others.

Debunking Dokibird Claims(no, not that one)

The user named @octopusf00d has several posts/videos that debunk claims from or about Selen/Dokibird.

Debunking claims, using words straight from her own mouth in some cases, of:

1. Her outfit contest being sabotaged
2. Being banned from international events
3. Her song cover being taken down
4. Niji not paying artists

<https://x.com/octopusf00d/status/1851428342827831740>

Regarding her cover again.

<https://x.com/octopusf00d/status/1850563197838729585>

Additionally: far as I can tell, not **once** has Doki ever directly pointed a finger at any specific Liver(s) for her claims of bullying harassment, no matter what the antis/dramatubers say.

Also, something else I noticed: I've seen a good amount of people who support, or claim to support, Dokibird that also like throwing out racist remarks or outright slurs towards Chinese people/the Livers(usually Enna Alouette). **Which their alleged Oshi also happens to be.**

Reminder that none of us know if any one of the talents harassed Doki or did anything that pushed her to suicide. The only thing Doki has spoken out about is management, the company itself is the only one that has stated talents have been accused of doing anything

Your best weapon against her or Niji?

Just ignore her streams starting from this one.

At least until she say something that prove her innocent, but I don't think the Niji management team will let her speak freely...

ostracize anyone that still wishes to watch Elira. If you're gonna boycott her return, do so outside of her sphere. There's no use harassing her and her chat during the steam.

And remember we don't know all of what went on behind the scenes. We don't know how much she really did or how much she was obligated to say to keep her job.

It's fine to not support her and not like her, but don't harass her. At the end of the day she's a human being too, just like those who have left or been terminated.

As much as i dont want to say it, Elira basically deserved it, not foe the controversy of her being Selen/Doki's bullies, but she also read documents that she had no right to read? Its no surprise if people might not be happy about it.

Reminder not to harass Elira Pendora during her comeback Live

Info/Announcement

Recently, embattled streamer Elira Pendora has decided to come back with a Friday zatsudan. I just wanted to put out a quick reminder not to harass Elira.

Not only does it cause undue stress, it gives her stream extra views and boosts her channel. While you may think her role in recent events is unconscionable, that extra bit of hate boosts her in the algorithm and puts more eyes on her channel. We shouldn't reward the behavior seen over the last few months.

About the info FalseEyeD has

This is just something I need to get off my chest, so I'm doing this on a throwaway account.

People have been talking how FalseEyeD has info on Nijisanji that he might release in mid April. I really hope he doesn't have anything, because if he does have something, there is only one thing it could be. And that thing would make the Selen attempts/termination look like a minor scandal.

1. The info he has is not about Selen, or Zaion, or Elira, or even Vox. (For those weirdos from 4chan, it's not about Enna either).
2. It doesn't involve any NDAs, but there is a very good reason why he has to wait.
3. IF YOU HAVE BEEN FOLLOWING THE CURRENT DRAMA SINCE FEBRUARY 5TH, YOU SHOULD

The K-Pop "Party" was laughable

Discussion

They had about a dozen livers from all over Niji and they couldn't even break 12k viewers. 11k ain't nothing to scoff at, but with so many livers, for a large (dying) company that is absolutely pathetic and shows just how quickly they are kicking the bucket.

Nijicopers please keep seething and malding while we point and laugh at you, it brings us so much joy.

I expect this to get deleted by the mods that love sucking and worshiping the sweaty, unclean, disease ridden balls of Nijisanji and their abusive, racist livers, just wanted to give a friendly reminder to everyone that we really do make a difference in killing off the careers of these disgusting "people."

I condone pushing her to become unable to stream till she's finished. She has been proven to be the ringleader that nearly claimed the life of a wonderful person who is even trying to stop people from this witch hunt. Doki, thanks but we'll take it from here. I'm not going to entertain Enna's comments at all, but I did come to the conclusion not too long ago that it's going to be very important going forwards to keep things exclusive to criticism, NOT harassment. Granted, while any criticism will be framed as harassment, every single instance of actual honest-to-God harassment undermines the collective bargaining power we hold against Nijisanji

I ain't gonna act like this suddenly makes Kuro a bad guy, look he's probably stressed out hearing the whole VTuber side of the internet talking shit about his former coworkers. And he isn't a stranger to making dumb comments like during the Ramadan situation. But this was definitely not the right move, and man should've taken the victory with Rima deleting her quote tweet. But no, man has to mald about "dramatubers" when he's the one who thrustured himself into this!

AnyColor must be maxing out the company credit card on \$7.40 / hour legal support because clearly they aren't spending it on events...

But hey at least it's not V&U, they'd charge VTubers \$10 million USD for that "quality" if they tried to terminate their contracts

This was always gonna happen. And I pray Nijisanji weather's this storm.

Not because I don't want them to fail.

But because they are containing the worst fandom in the community.

If they fall and implode, they won't take those idiots with them, they're gonna disperse and infect other parts of the community. I've seen it happen before.

So Pray.

It's so bad. It's not even real emotions. Nobody actually cares, it's all just emotional karma farming. All the people who actually cared have made their decision and have left or are ignoring them because they're so

happens, it can be posted here and seen by people without blinders.

I said it before, if Nijisanji wanted the EN branch to go away they would have done so by now. They do make enough money to try and change things for the better ****if they want to****. Not saying they will. I do not support anything that Nijisanji did, but this going beyond Streisand Effect where they are bringing unneeded attention that is not helping their cause and into Pygmalion Effect. They expect that Nijisanji is failing because that's what absolutely everything is posted there is saying and will continue to fail as long as they keep reaching and supporting each other.

Walk away. Righteousness is an addiction. If the company collapses it will be their own doing. If you hate the company so much, just unsub and walk away. I unsubbed from all EN talent just to stay out of the drama and I don't get clips recommended anymore. But I will support my JP oshis for who they are. I worry for them, and I will keep up with major news, but the r/ is just DAILY onslaught to feed those

Discussion

I never thought it would get this bad. The only thing they want is the company to die and any other opinion is "Promoting the unaliving of a talent and bullying of talents". Seriously.

Yes, Nijisanji is bad. The problem is that Nijisanji fans are not just Reddit. TikTok seems to have plenty of positive fans who have no idea what is going on. Even twitter has enough fans outside of their sphere to negate their influence. JP fans have moved on completely. Discords are still active. Enough people are still watching streams. The one thing they want, Nijisanji to die and the talents to graduate, is not

I fully respect that, however I cannot agree. You know me. I won't stop until Niji EN ceases to exist. I waited an entire year until Niji antis became a majority instead of a minority. I'm not letting the status quo return. I wish you well however

Even with everything I learned, I still don't wish for that. My wish is that the Back Company treats its talents with the respect and dignity they deserve. If said company actually reformed for the better then that would also help the Kami oshi heal I'd think

ShinyPiprup @Piprup2 · 4h
I was yet again reminded just how much I despise Niji and especially Hexer and Kotoka. Those two are single handedly the most vile and evil people I've ever come across on the internet. I don't give a flying fuck if management somehow made them do it, they still chose it 2/5

ShinyPiprup @Piprup2 · 4h
I know I made a promise I'd be more of a positive supporter than a "knight" but I'm reminded why I was like it. Because support isn't enough. As long as you see the people who hurt you thrive you will be reminded of what happened to you. That's why I was so hostile, because 3/5

ShinyPiprup @Piprup2 · 4h
I want their careers destroyed. I want them to fade into obscurity and for no one to remember their name or even existence. That is what justice would look like. And I won't act on it because I made a promise, but I need to get it out of my system 4/5

ShinyPiprup @Piprup2 · 4h
youtu.be/OnYwHyATV3A?si...
So on a more personal note, this was a hard watch. I was legitimately shaking during the entire video. Every time I go back and remember what happened a year ago I realize that it was much worse than what I can even comprehend 1/5

ShinyPiprup @Piprup2 · 4h
Entertainment. Millie and Finane are shitty people. I waited a year being the minority that was afraid of getting harassed by them just for existing. Now the status quo changed and I'm not letting it change back. Why are you defending people that pushed someone towards suicide?

ShinyPiprup @Piprup2 · 4h
So to end it off, Sayu is a devil. Because like Satan, she refused to bend the knee and defied those unfair people above her and for that she was struck down into hell. She's still Jesus tho, that's also true. She's both of them at once. She's a legend 5/5

I get it dude, maybe just take a break from the internet for today and get your mind straight. We all know this website is about as healthy as radioactive waste.

Piprup 2 @Piprup2
That's the problem... I can't. If I stay I will destroy myself. But if I leave I'm terrified of people seeing those comments and joining in on the harassment. Or even worse, that Sayu will see the comments. I know it's perasocial wh to knighting but I just don't care anymore...

Piprup 2 @Piprup2
I want to bring strength and positivity to people around me. What I actually did was criticize things and ruin my mental. I was getting better thanks to people like Rony, Paucer and Dan but I screw that up later on and I slipped back. I want to do better but I don't think I can... 4/5
Look, I normally don't get involved but I am concerned about you. Normal people can compare their oshi to a normal well at least unironically

This way makes you feel frustrated and saddened, but as I said before, as long as your creativity is still there, no platform can limit you. This method

Team Rocket is blasting off again the only sad i can feel for asmr creators like hex is that they're not making as much money anymore. especially with the 2% niji gives them

Matthew Li Yung Hing fauna is going to be in trouble then

Lord_Boneman Not to mention Kyou got nuked outta nowhere not too recently.

Warlock Warlord I thought Hex didn't like been SA'ed but guess he didn't mind ERPing it a lot for the sisters

I see another former Anykuro vtuber graduating and joining Vshojo for better managers very soon.

Aia ain't leaving. She's been clear before that this is a hobby for her and that streaming isn't a stable enough job for her to consider going indie or full time for.

She'll have no choice when she gets demonetized this month and the next one as well. A part time job plus streaming isn't going to cover rent unless she lives in a country with proper financial assistance like one inside the EU.

Proper Reporting Process Instructions

On [Anycolor's page for reporting malicious behavior](#), there's instructions on how to properly report to them that, although in Japanese, are mostly easy to figure out, but I'll outline them here(having a way to submit screenshots would probably be a good addition to this in the future).

-Reporting Twitter Content

Tweet URL

Example: <https://twitter.com/FalseEyeD/status/1758424309201064028>

Twitter User's URL

Example: <https://x.com/falseeyed>

Twitter User's Handle

Example: [@FalseEyeD](#)

-Reporting YouTube Content

Video URL

Example: <https://youtu.be/BICWTnP2-6c?si=CvkGv6Cz8DWwKWH2>

YT User's URL

Example: <https://youtube.com/@falseeyed?si=t33qooO7mHdDrSD->

YT User's Handle

Example: [@FalseEyeD](#)

Of course, also include a description of what you're reporting.

There's also a 4th instruction for malicious YT comments, I assume it says to describe what was said for them to look through the VOD's Chat for.

I assume, despite there being no explicit instructions for Twitch, that they're similar to YT's.

Other Users Debunking the Dramatubers/Antis

Here are some Twitter users who have been helpful in debunking and fighting back against the hate and the lies the Dramatubers/antis have been spreading:

(They had no part in making this Doc; it was all my own idea)

I've sent this Doc to Nijisanji/Anycolor and Cover, hoping they can make use of everything here.

Please, Niji/Anycolor, Cover, anyone, finally end the hateful campaign against the company and Livers(and others), and this nearly year-long nightmare once and for all.
