

5,000 SAT ENTRY OFFER

One useful Shopstr listing fix, not a whole audit.

For sellers who want a small, concrete improvement: one first-screen rewrite plus one field, tag, delivery, or preview fix.

What the buyer receives

- One custom sentence/title/summary improvement for a listing or product idea.
- One concrete field fix: tag, delivery line, preview/proof idea, image note, location, or shipping wording.
- A short reason why the change matters for buyer trust.
- Delivery by Shopstr/Nostr message within 12 hours after enough input is received.

Best fit

Listings that already exist but feel too vague, too short, or unclear about what happens after payment.

Sample before

Steam Key

Game key for PC.

Sample quick fix

Digital Steam key delivered through Shopstr/Nostr DM within 24h after payment. Buyer redeems on Steam; region/platform limits are listed here when applicable.

Field fix: add tags like Steam, PC game key, digital delivery, and the game genre.

Why this exists

The full audit is better for serious sellers, but a lower-friction quick fix can help a seller make one high-impact change without committing to a whole rewrite sprint.

No sales guarantee. This is listing and messaging work only, not financial, legal, tax, employment, investment, or business advice.
