Head line

COO, Threat Interactive

Summary

I work as the COO for Game Studio and YouTube channel i.e. Threat Interactive. An amazing new game studio with a visionary founder, Kevin Jimenez. Threat Interactive aims to facilitate UE5 patches and plugins that solve many problems in modern game graphics. We are seeking private funding (no public fundraisers) to develop these improvements. We are open to YouTube sponsors and 'SuperThanks' from our viewers. Our channel was recently featured on the massive channel 'Asmongold TV' the shout-out has over 2 million views and is one of Asmondgold's most successful videos. We have paused the development of our game until improvements in UE5 are made. We have a group of 44 developers who want to work with us already but if you think you have what it takes to be on our

team, then please submit your resume to our LinkedIn company page. Follow our page and posts. Support our cause by watching, sharing, and keeping up with our founder Kevin Jimenez. And check out our merch store: <https://www.bonfire.com/store/threat-interactive/> X.com: <https://x.com/ThreatInteract> Email: threatinteractive@gmail.com Any sponsors should contact our email. My background: I have experience in corporate compliance auditing and public relations. I have written Technical Instruction books that have reached #1 and #4 on Amazon best sellers lists. I transcribe books to screenplays and screenplays to books. I am also an artist and love creating storyboards. I have experience in music production, short film production, Adobe After Effects, Illustrator, Maya & Premiere Pro. I trained in SoCal with two Emmy winners (Film Editing & Audio Design). I have worked with actors and directors. I am formally trained to write two column TV Scripts and Feature-Length Screenplays. I am a formally trained actress; I studied under the 'Vanity Fair-Best Character Actor' winner Vincent Schiavelli. I do private consultations for newbies in the entertainment industry (for free) as there are many predators and I do not like seeing talented people ripped off by industry scammers. I have received 18 college/university scholarships. I was nominated for the Golden Axe Award at NAU. At the moment I publish books when I find time to write. I especially love anything creative. Japanese art has always been the most inspiring to me. I have done professional make-up artistry for Estée Lauder Companies Inc. in the past and have done some special fx makeup for indie films. I would be open to doing more with makeup, AE animation, storyboards and of course anything to do with writing.
