Since its inception in 2022, AZUPIN has been on a relentless journey to reshape the glass and hardware industry. From the very beginning, our vision has been clear: to not only meet the demands of the modern glazing world but to exceed them by pushing boundaries. We have committed ourselves to continuous improvement, tirelessly innovating new technologies that redefine industry standards. Whether it's enhancing logistics, refining pricing structures, or elevating the quality of existing solutions, we strive to deliver excellence in every aspect of our work.

At the heart of AZUPIN lies an unwavering pride in the craftsmanship of our products. Every custom-fabricated item is a testament to the skill and dedication of our team, who pour their expertise and passion into creating solutions that stand the test of time. We believe that exceptional products stem from a foundation of precision, innovation, and an uncompromising commitment to quality.

Hello!

As we look to the future, AZUPIN is taking bold steps to usher in a new generation of hardware solutions. Founded by glaziers, for glaziers, we understand the unique challenges and aspirations of those in the industry. This deep-rooted connection drives our mission to not only serve but empower the professionals who shape the spaces we live and work in.

Through innovation, craftsmanship, and an enduring dedication to progress, AZUPIN is building a legacy of trust and excellence—one pane, one product, and one innovation at a time.

What We Offer

Live Help, Real Answers

Our specialists can help you find the perfect shower door for your home.

CATALYST

Wall Mount & Tight Close.

Paired with a beautiful wall mount bracket with a stopper inside to prevent hard impact towards the wall, serving as a soft-holder to prevent the door from opening by itself as well.

Smooth Sliding.

3-5/8" width is required in order for this door to fit perfectly, where a guide bracket securing a "L threshold" will be placed, to guide the door from where to slide and a threshold to prevent water from flowing below.

Adjustable and Noiseless.

Built inside the rollers is a out-of-plumb adjustable system, where it can clear up to 3/8" of out of square on walls, ensuring that our system works with out of plumb showers. With precision cut bars we ensure there is no squeaking and easy to slide.

Towel Bar & Finger Pull

This door comes in multiple configurations, colors and even the handles! You can choose between a towel bar or finger pull; in the which we have all in stock. Whichever one fits best in your setting.

NIRVANA

Wall Mounted Clamps

With secured and tight solid brass clips, rusting and durability is not a problem. Our hardware is top rated against rusting and highly durable.

Many Types of Hinges

We carry variations like short plate, H plate, offset plate, full plate and more! Depending on your requirements and preferences any plate / style can be selected!

Heavy Brass Handles

Handles can wear their color out if used for a long time, it may also break down, with our solid brass and UV coated finishes you can rest assured it's going to last.

Too Much to List!

Including hardware for any application, from glass to glass hinges ranging from 90-180 degrees; beveled and squared styles; clips from offset to glass to glass, adjustable hinges and towel bars. We got it all!

PASADENA OFFICE

This project showcases AZUPIN's commitment to quality craftsmanship and innovative solutions, transforming the space into a professional and welcoming environment.

Highlights of the Project:

- **Material Selection:** Offset commercial 1/4" gasket front aluminum extrusions were chosen for their strength, versatility, and clean finish, ensuring a professional and contemporary look.
- **Precision and Expertise:** The AZUPIN team meticulously handled each phase, from initial design and material selection to assembly and final installation, delivering a seamless result.
- **Functional and Aesthetic Balance:** The aluminum extrusions not only provide robust support but also enhance the office's overall aesthetic, creating a workspace that is both practical and visually appealing.
- **Custom Solutions:** Tailored to the specific requirements of the space, the framing was customized for perfect integration with the office layout.

Managed and built from start to finish by the guys in AZUPIN, we used offset commercial 1/4" gasket front aluminum extrusions for the support and framing of this office.

We turned which was once an empty space using 20+ desks as offices into an oasis of offices ready to be used as professional grade.

Over 12+ of partitions and offices done here.

Managed and built from start to finish by the guys in AZUPIN, we used offset commercial 1/2" u channel for the support and framing of this office.

We converted the empty newly built space into something beautiful, something a new.

DIAMOND BAR OFFICE

This project showcases AZUPIN's commitment to quality craftsmanship and innovative solutions, transforming the space into a professional and welcoming environment.
