

STARFOX 64

The cover art for Star Fox 64 features a dynamic, low-angle perspective of the Lylat Space Force's Star Fox team. The Arwing fighters, piloted by Fox, Falco, and Peppy, are shown in various positions: one in the upper left, another in the upper right firing a red laser, and a third in the lower left. The central focus is the Star Fox Command ship, a large white and blue vessel with a prominent cockpit window showing Fox piloting. The ship is adorned with the Star Fox logo and the word 'STARFOX'. The background is a dramatic space scene with a large, blue and white planet (Lylat) in the lower left, a bright red and orange nebula or explosion in the center, and a dark, star-filled sky. The overall style is a blend of 3D polygonal models and 2D digital painting.
