So let's go epigrammatically, and **by name** , to see what is happening in Ukraine. Why is all this happening and when did it start...

### T th G. HIERODIAKONOU

Ukraine has **always been a traditional ally of Russia** . Member of the Eurasian Union. **Until the hawks of the West put forward the plan to attack Russia** . And then suddenly appeared the well-known political agrytes that we will see below.

**It all started in 2004 when Viktor Yanukovych won the Presidential elections** and his pro-Western opponent (Viktor Yushchenko) appealed to the Supreme Court, challenging the result. **At the same time, the so-called "Orange Revolution" broke out in the country** , which was organized **with enormous political and financial support from the US government and "known" American NGOs** , such as the Open Society Institute of the billionaire George Soros, with the main aim of exposing Yanukovych . **Those forces then succeeded in nullifying the result of the presidential election** and give the presidency of the country to the defeated Yushchenko. He, in turn, appoints as prime minister a corrupt politician and business oligarch (the also pro-Western **Yulia Tymoshenko** ).

**Six years of political instability followed** , with one prime minister succeeding another **and the country entering a dangerous vortex of discord for the first time since the Nazi era** (where the people of the western regions of the country welcomed Hitler as a "liberator") .

Until the presidential elections of 2010. **Then Yanukovych recorded such a victory in**

It should be noted here that **after the elections Tymoshenko was prosecuted for financial irregularities** during her term of office and was sentenced to seven years in prison.

**One** party is **Tymoshenko's Batkivshchyna** (Motherland) , led by Arseniy Yatsenyuk, (since Tymoshenko is in prison), **The second** is **Udar** (Fist), led by German resident **Vitali Klitschko** , with close ties to Merkel's Christian Democratic Union and the Konrad Adenauer Foundation, which even publicly advertises on its website the seminars it organizes for the political education of Udar members. **And the third party** is **the neo-Nazi Svoboda** (Freedom), of the notorious neo-Nazi **Oleh Tyahnybok**, which even uses a variation of the Nazi swastika as its emblem.

**Then the acrobolists took over the task** . You know. just like in our polytechnic, who were hitting the people from the roof of OTE. They were heavy in the cold! Common practice of foreign agents when they want to destabilize a country.

**Countless dead** in the ranks of the demonstrators, but also of the police forces. **All struck by the same weapons** ! The forensic examinations of the corpses proved it. Of course, the bombers were never found. And how to find them anyway. Since it was they who took over after the power. Which they still own today.

**What followed is known** . Yanukovych leaves Kiev and flees to Kharkiv for safety, but refuses to resign. **Then follows his unconstitutional removal from the office of President** and the Speaker of the Parliament Alexander Turchynov is appointed in his place. **To follow after the issuance of a warrant for his arrest on the charge of "mass murder of citizens"** and at the same time the granting of political amnesty to all dissidents until then, including the criminal Tymoshenko. **All ...dogs free, to take action.**

The situation in the country is beyond all limits. **The pro-Western neo-Nazis are catalyzing all the joints of power** . And immediately after that, the well-known "assault battalions" are created, as well as **the notorious neo-Nazi Azov battalion** . And then begins a pogrom of persecutions and looting against the eastern regions of the country, where the Russian speakers are in the majority. They react and take up arms. **The people of Donetsk and Luhansk declare their autonomy** from the deposed Ukrainian state. **The same goes for the residents of Crimea** , who, even worse, in a popular referendum, ask for the annexation of Crimea to "mother Russia". As it happened. **Putin chose not to take it all the way and limit himself to the annexation of Crimea** , leaving the people of Donetsk and Lugansk in the hands of the Kiev Nazis and the stormtroopers. In fact, provoking the month of the opposition parties of Russia for the abandonment of their compatriots. Mainly the Communist party, which demanded the immediate recognition of the People's Democracies of the two autonomous regions.

**It should be noted here that the final recognition of the two Republics that took place last week, was made with a relevant proposal in the Russian Duma precisely by the Communist Party** , which is even openly in favor of the liberation campaign in Ukraine. **And the K.K. of Russia do not underestimate it at all. In the last elections he received 19% of the votes.**

**What happened to get to today's Russian invasion...**

**Eight bloody years of mass genocide of the eastern regions** of Ukraine intervened. Eight whole years of merciless bombing of villages and towns. With countless dead!

Around **14,000 victims are estimated**. And absolute rooting! To put the numbers in perspective, **Ukraine emerged from the collapse of the Soviet Union with a population of 52 million, to reach 41 million in 2014 . An entire Greece left there to escape . Especially in the eastern regions of the country, it is estimated that after 2014, 5 to 7 million people were forced to take the path of refugee (mainly to Russia) .** To escape the Kiev Nazis.

**To hopefully reach the presidential elections of 1019. A new party is born! Media . A TV channel made it. Like our own RIVER that MEGA had created . With a catchy name: "Servant of the People". And with a popular president ...clown. His name, Volodymyr Zelensky . The guy speaks Russian. And with a pre-election program to get along with Russia. For the people to fall into the trap.**

**You know the rest....!**
