

Bunphobia - The Groomer

Written by Tycromza, with contributions and help from many.

This document was made to help spread awareness and inform people about what Bunny has done in the past and present, no current names are mentioned in this document, do **NOT** try and seek out their new accounts and harass them.

Who is Bunphobia?

Bunphobia, better known as Bunny or Bun is a ROBLOX player who is well known in Oculus Inc's community as well as being friends with many notable people, such as PortABoi and CaptainSpinxs (dating). She has contributed to many games, including the ROBLOX site itself with UGC textures. In the recent months she has begun to show her true colors to the public, and has done extremely horrible things in the past, which is why I am making this document.

What has she done?

PART 1: Yodizi and DrForests

Before Bunny got the name she has now, she was a part of the myth community and went by [DrForests](#). Keep this in mind, as it is vital to understanding the screenshots as they refer to Bunny as that. For the sake of better understanding, I will be referring to Bunny/DrForests as only Bunny in this document.

Around December of 2017, Yodizi and Bunny would begin to talk to each other, meeting in the Myth community. Yodizi was **13**. Around early 2018 (Date is unknown) Bunny and Yodizi began to date. Yodizi had **just** turned 14, and Bunny was 17. Her birthday is on November 16th, which would make her 17 for a few months. It is unclear whether Bunny intentionally waited for Yodizi to turn 14 to

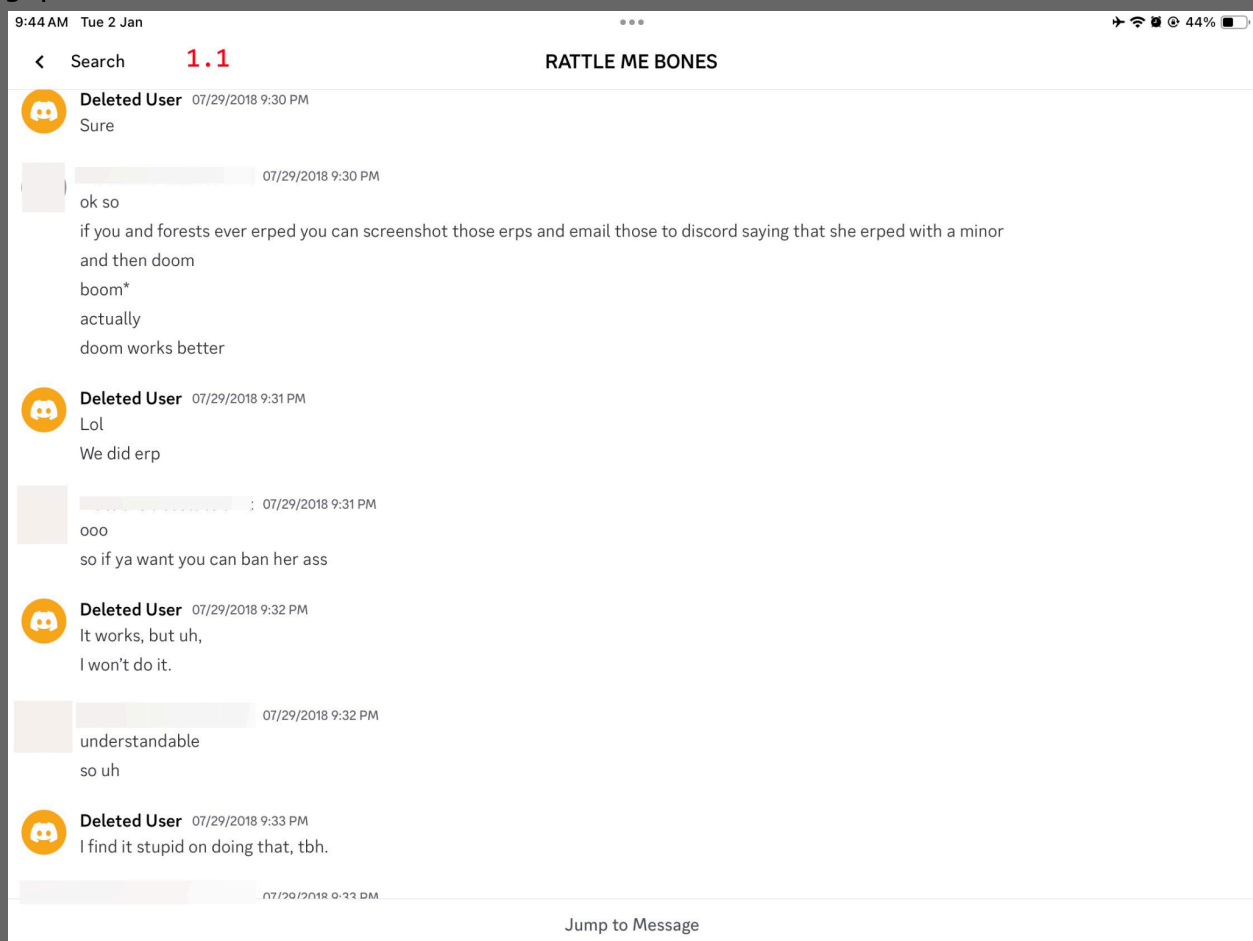

begin having sexual relations and date, as it is notable that the age of consent in Portugal (where Bunny lives) is of that exact age, 14 years old.

This relationship ended around May of 2018, when Bunny had begun dating someone else, unbeknownst to Yodizi.

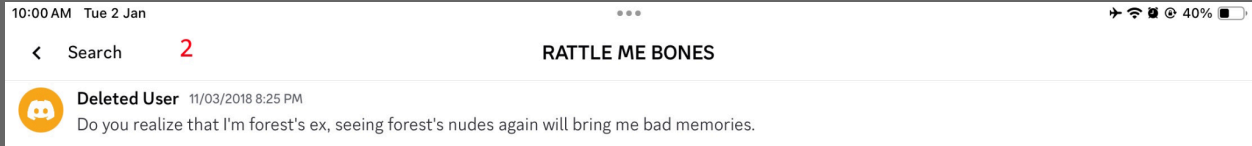

Yodizi's Discord account has been terminated, and as a result, they appear as "Deleted User". Yodizi is the Deleted User in all of the following screenshots.

Before this, Bunny had added Yodizi to a ERP GC in hopes of coercing him into doing it, though this was unsuccessful. However, they did it in DMs, as proven by the screenshot below.

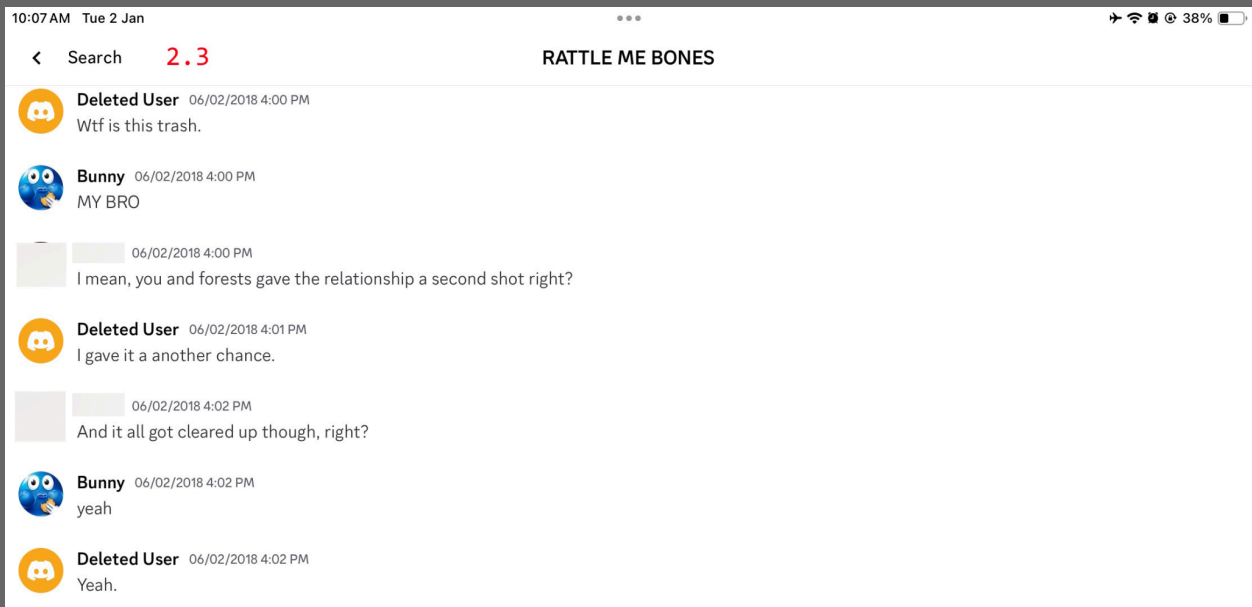

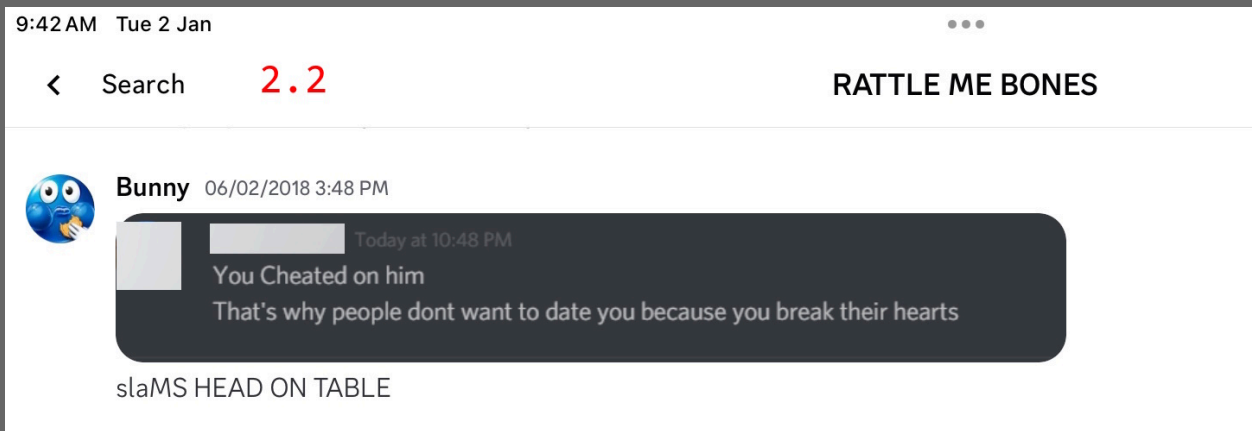

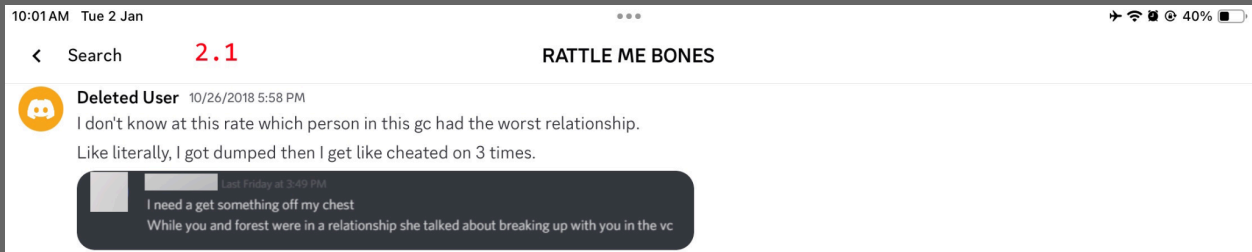

Yodizi admitting he had ERP'ed with Bunny in DMs. Keep the minimum 3 year age gap in mind.

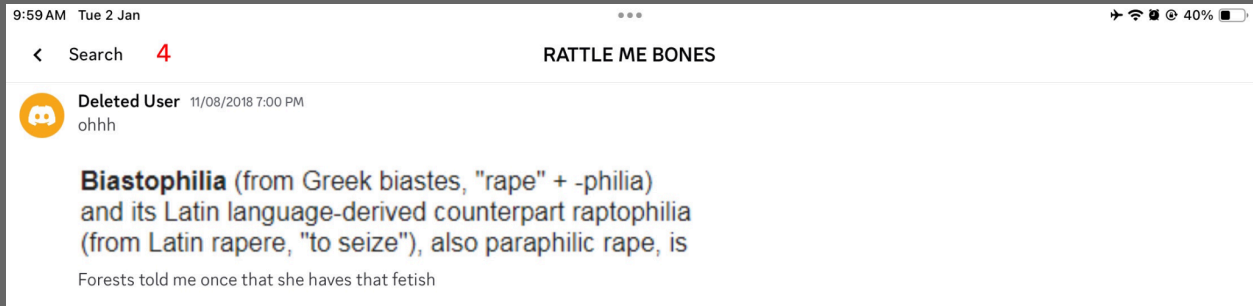

Yodizi confirming existence of Bunny's nudes. This was after they broke up, and they had surfaced other places and happened to see them.

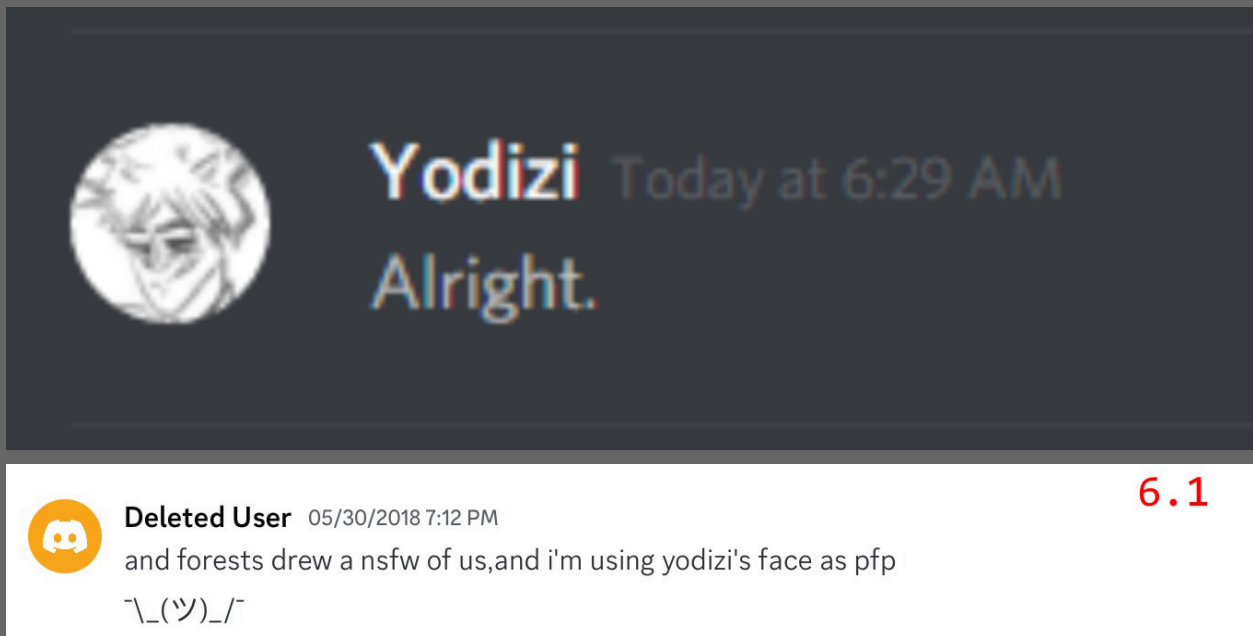

Yodizi and Bunny talking about them breaking up, and Bunny cheating on him.

Bunny had told Yodizi that she was a Biastophilic, which means being sexually aroused by raping someone. This one is especially horrifying because of the massive age gap, still keep in mind that a 17 year old is telling a 14 year old that she is into raping people.

Yodizi is seen with a suggestive profile picture which bears resemblance to their ROBLOX avatar at the time. Yodizi confirms it was NSFW.

PART 2: The Nudes

Between all of this, Bunny was known to take lots of nudes and send them to people, most of which being minors. She was 17 at the time of taking and sending all of them, though still extremely concerning.

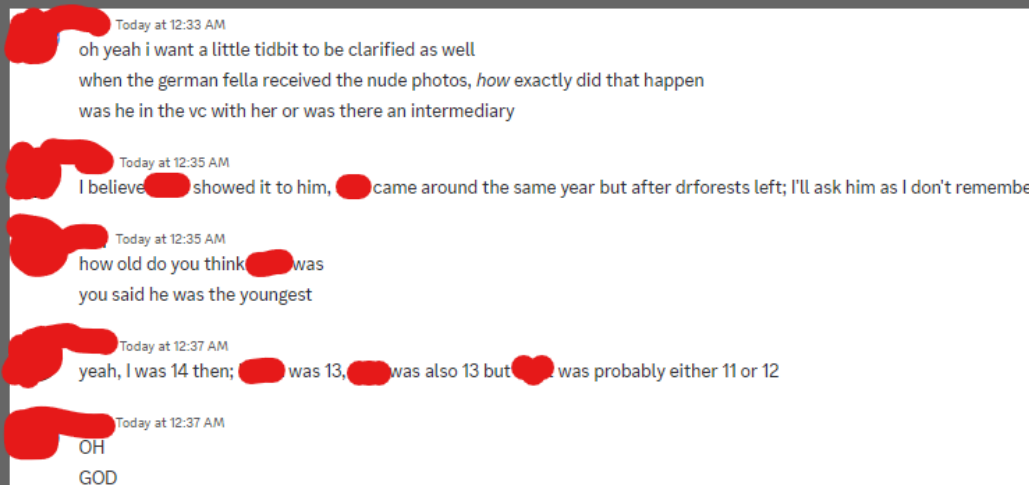

It should be mentioned that the definition of a groomer is someone who manipulates or uses someone to take sexual advantage over them. It is most common and more widely known that grooming usually takes place between an adult and a minor, but minors are still able to groom other minors, this being the case with Bunny. Even so, she was less than a year away and sometimes even mere months from being an adult.

Screenshot was in Part 1, but Yodizi having seen multiple nudes of Bunny.

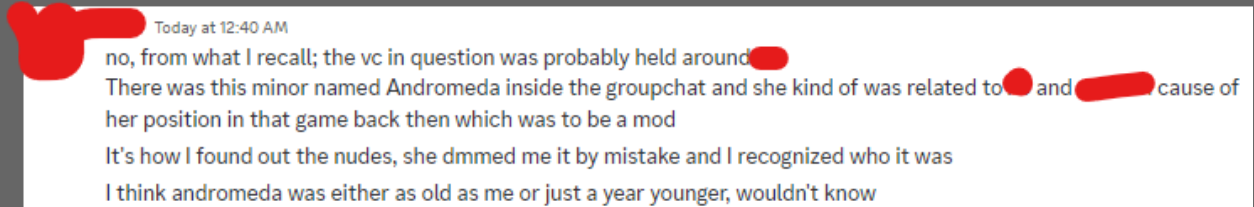

Bunny had voice called before in an unknown server/group chat which was full of minors, turned on her video and exposed herself. It is unknown how many minors or people were in the call at the time, but the youngest can be confirmed at 13 years old. This can be confirmed to be her, as in the background of one of the photos is a tree sticker, and the same one can be found in a picture of her face.

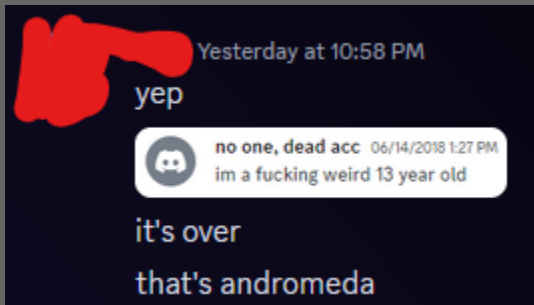

Bunny has also acted very carelessly with the nudes she has posted online, and one of them has ended up in the hands of many minors, one of which at the time was **11 years old. Bunny had ties to this person and didn't seem to care.** Many other minors were exposed to this as well, all of their ages being 14, 13, 13, 13, and 11 respectively.

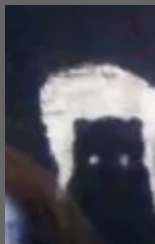

Bunny had also accidentally sent nudes to someone instead of someone else, both were minors at the time.

Andromeda, the recipient of the nudes, was 13. It is also confirmed she was in the VC with Bunny when she was exposing herself as well.

The exact same wall pattern/sticker can be matched to her face.

Part 3: CoatsOfClaude

CoatsOfClaude used to be a ROBLOX myth around the same time Bunny was DrForests. However, she was an actual pedophile and was 19, sending multiple NSFW images and nudes of herself to a group chat full of minors. How does this link into Bunny? She was sending these nudes in the very same group chat that Yodizi was added into by Bunny, mentioned in part 1. Bunny was 17 at the time, being the second oldest and only a couple months away from being an adult. It is extremely concerning how she let blatant pedophilic acts continue and did not try to intervene whatsoever. The youngest person in the group chat exposed to these photos can be confirmed 14 years old.

Samara is CoatsOfClaude here. The censor is covering one of her nude photos she sent.

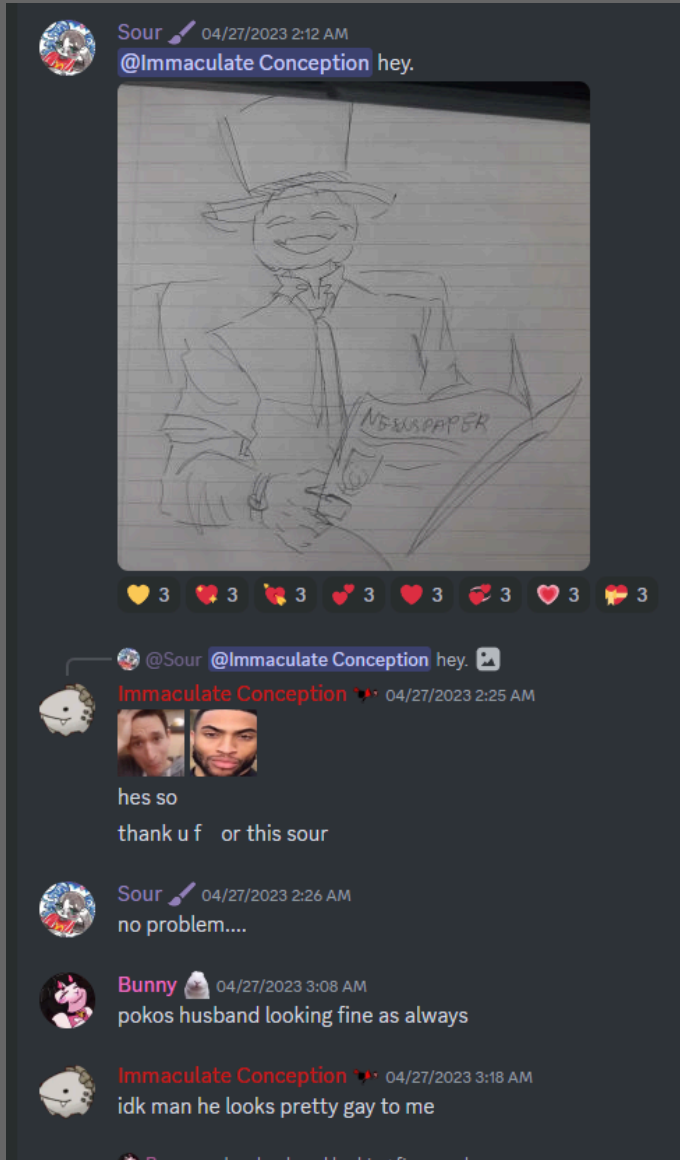

This is a very short section of the document, but I had to mention it because it seemed like such a big thing. Bunny could have easily stepped in at any time to protect the minors from such blatant pedophilia as she was the oldest out of them, but instead she chose to let it unfold and perhaps even encourage it, as she was adding other minors to the group chat (such as Yodizi)

Part 4: The Ship Fighting

Around early 2023, Bunny began to show some of her true colors to the public / Oculus Inc community. She began to harass artists that had made gay ships, even with the permission of the owner of the characters themselves. She is a fully grown woman here going directly after minors.

Bunny had made an OC to be Mr. Hallow's wife named Poko and forced it to be canon, because she didn't like the gay ships.

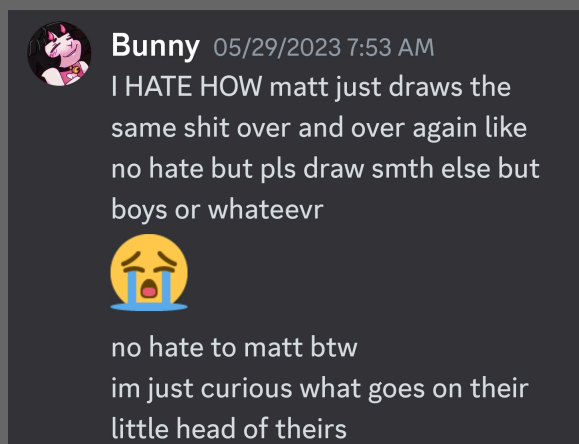

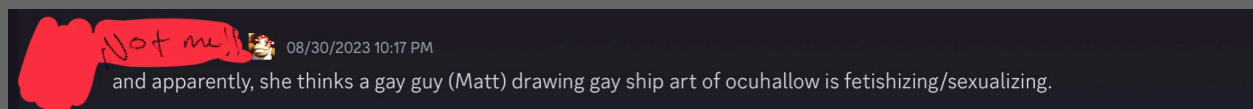

Bunny calling the gay ship a "crack ship". (Look up crack ship definition)

This behavior continued on for a few months.

She had claimed that Matt drawing a gay ship (who is gay himself) is "fetishizing/sexualizing". Matt is 14. Bunny is 21-22 here.

Bunny trying to get Matt banned for unknown reasons.

Bunny Today at 1:41 PM

can we get rid of matt already

CaptainSpinxs Today at 1:43 PM

He hasn't really done anything worth banning yet

You have to remember that he's literally a child and has not matured in the slightest

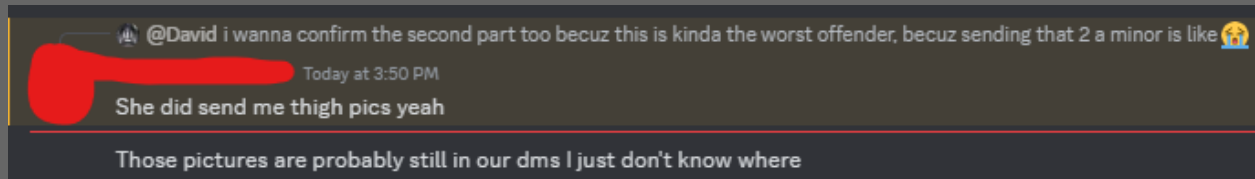

Bunny Today at 1:45 PM

not u defending him 😭

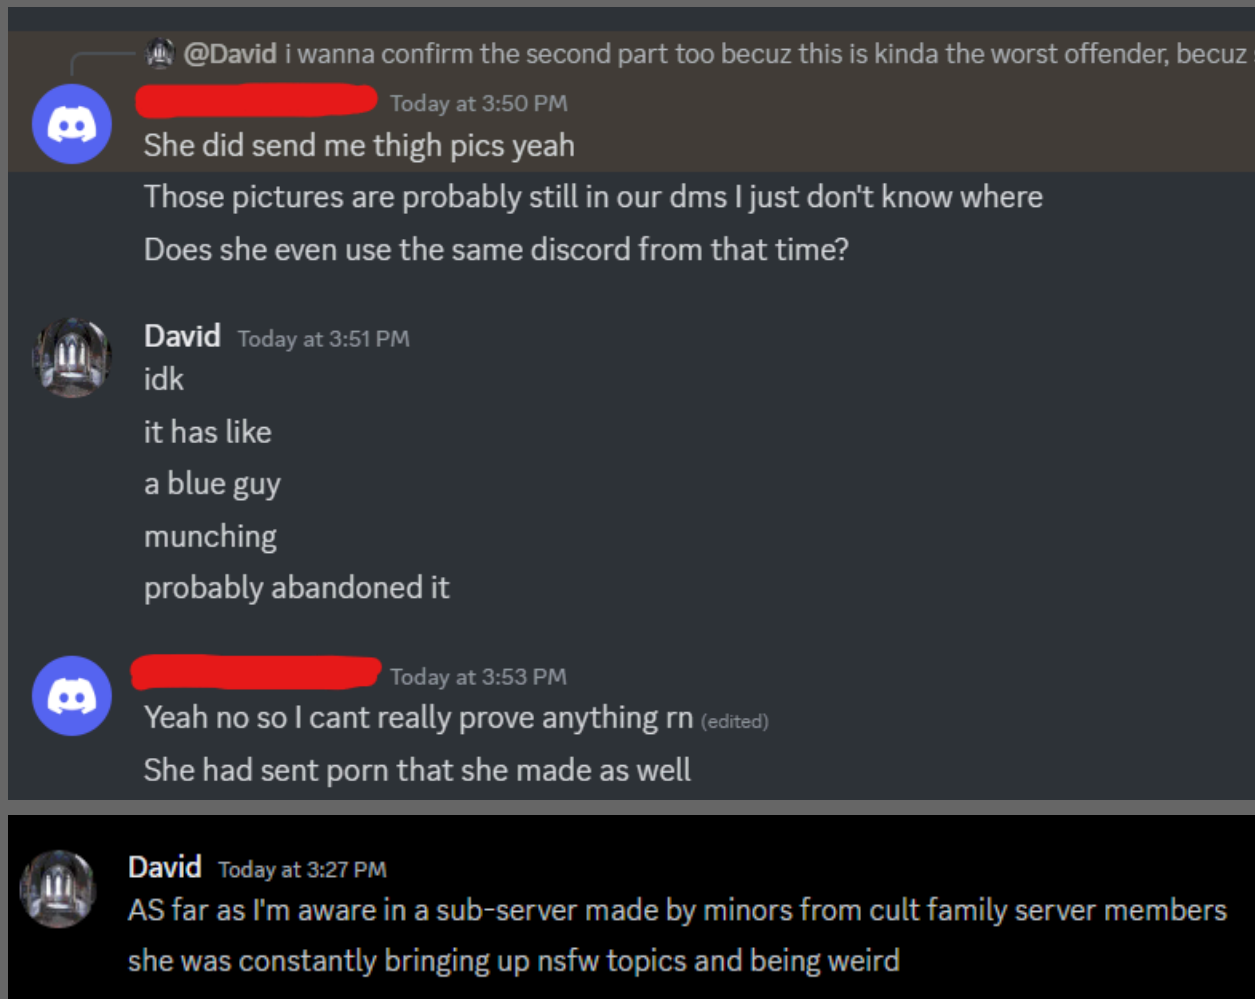

PART 5: The Cult Family

The cult family is a well known ROBLOX myth that has been around since 2012. In 2021, Bunny had joined the community and began to interact with members of the cult, but had also been talking to someone (who will not be named) and had been increasingly weird with members, saying things she shouldn't have as an adult and constantly would bring up NSFW topics.

The person who had received the thigh pics, confirming just that. Bunny was 20, sending these pictures to a then-17 year old.

Unfortunately, Bunny had also sent this same person NSFW she had drawn.

Bunny has also drawn NSFW of minor-owned OC's and has said very inappropriate things about many other minor-owned OC's, or ones played by a minor.

David Today at 3:25 PM

yeah she was 20 n drew nsfw of a 17 year old's myth character

David Today at 3:26 PM

Merles (the character) is a minor, and the actor for them is also a minor.

Bunny 09/29/2022 10:02 AM

After she was banned for the first time, she was unbanned and still continued this behavior, being told to stop. Bunny was permanently banned with no appeal from the cult community in October 2022.

The image is a screenshot of a Discord message. At the top left, there is a blue square icon with a white arrow pointing right, followed by the name 'Dyno' and a blue checkmark icon with the text 'BOT' in white. To the right of this is the timestamp '10/14/2022 3:02 PM'. Below this header, the message content is displayed on a dark background. It starts with the title 'Case 557 | Ban | Bunphobia#9220'. Below the title is a table with three columns: 'User', 'Moderator', and 'Reason'. The 'User' column contains '@Bunny', the 'Moderator' column contains '@David', and the 'Reason' column contains a long paragraph of text. At the bottom of the message, there is a white ID number and timestamp: 'ID: 284420369648058369 • 10/14/2022 3:02 PM'.

Case 557 | Ban | Bunphobia#9220

User	Moderator	Reason
@Bunny	@David	In general I really wanted to believe that you could come back to this community with knowledge that you needed to change how you interacted with others, instead you made multiple members even more uncomfortable and some of my own family uncomfortable. You will not be unbanned, this will not be appealable. I was asked by many people to ban you so I must do what needs to be done.

Throughout all of this, she had used her mental illness as an excuse. She has been caught doing this again as recently as 2023 (refer to notes)

PART 6: Notes and other stuff

This section will go over other bad things she has done that don't deserve their own section or don't relate too much to the existing parts.

Bunny using her schizophrenia and paranoia (unsure if diagnosed) as an excuse to harass Beez and others.

 **Bunny** Today at 5:38 PM
why? why????have you seen your group?? im fucking scared to talk to you in the first place, my paranoia is like all over the place when youre around along what your group thinks of me

 **Bez** Today at 5:39 PM
That's
Kind of on you to be brutally honest here.

 **Bunny** Today at 5:39 PM
SORRY?

 **Bez** Today at 5:39 PM
You were the one to assume hostility and not ask further.

 **Bunny** Today at 5:39 PM
i take hostility when im scared
thats how i was raised

 **Bez** Today at 5:39 PM

That's a Self-Fulfilling Prophecy
There's a huge conversation going on in the MBS Vent Channels because of this situation.
It primarily revolves around how *they* feel attacked by *you*.
This really is just a Self-Sustaining Loop of Assumed Hostility towards the other.

 **Bunny** Today at 5:45 PM
talk that to my schizophrenia and the constant feeling of the world being against me
im sorry

 **Bez** Today at 5:46 PM
You can't expect people to keep accountability for your problems all the time.
This is something I too had to deal with and it really doesn't paint you in any better of a light.

Bunny has also been open about her height fetish in public towards minors. The person she is saying "hot" to here is 15. Bunny was 19.

It is literally illegal in her country to be sexually provocative to anyone under the age of 14, which she has done. (Refer to Andromeda, Part 2).

PART 7: Conclusion

With the release of this document, we hope to get Bunny removed from as many communities as possible and stop her disgusting and manipulative behavior. We truly believe the evidence presented is more than enough to get her exiled and I hope her friends can see that as well. It was outrageous she was even able to continue her online presence after she was DrForests, let alone continue her behavior till as recently as 2023.
