HELLO, SUMMER LEARNER!

How to use this book

This book has 12 weeks of summer practice. Each week gives you five days of activities that take about 20 minutes a day. You'll do a bit of math, a short reading, some writing, a vocabulary warm-up, and a fun bonus puzzle. Finish a week, check off the weekly goals, and give yourself a high-five.

Do a little every day

Twenty minutes beats an hour once a week.
Make it a summer habit.

Use a pencil

It's okay to erase and try again — smart learners do that all the time.

Read the instructions

Each section has a small helper note. Give it a quick look first.

Celebrate progress

Track finished days on the weekly opener.
Ten days = one victory lap.
